The gainfully occupied females were distributed according to age periods as follows: 10 to 13 years, 305; 14 to 15 years, 13,268; 16 to 20 years, 95,091; 21 to 44 years, and age unknown, 265,530; and 45 years and over, 70,107. The proportion which the gainfully occupied females formed of all females in each age period was: For those 10 to 13 years of age, 0.3 per cent; for those 14 to 15 years of age, 23.5 per cent; for those 16 to 20 years of age, 60.3 per cent; for those 21 to 44 years of age, 38.6 per cent; and for those 45 years of age and over, 18.1 per cent.

In Massachusetts there were 19,172 males and 13,573 females 10 to 15 years of age engaged in gainful occupations; or, stated otherwise, 11.3 per cent of the males and 8 per cent of the females 10 to 15 years of age were gainful workers. In 1900 there were 16,393 males and 11,475 females 10 to 15 years of age engaged in gainful occupations, which was 12 per cent of all males and 8.3 per cent of all females 10 to 15 years of age.

The principal occupations followed by the males and the females, respectively, in Massachusetts were as follows:

PUBLIC INSTITUTIONS IN BOSTON.

Expenditure for maintenance in 1913, of City Hospital, \$616,301; Consumptives' Hospital, \$200,804; Infirmary, \$217,963; Children's, \$215,704; Soldiers' Relief, \$201,296; Overseeing of Poor and Registration Departments, \$259,097; total \$1,711,165, or \$101,033 more than in 1912; of Penal Institutions (including County Jail and steamer "Monitor"), \$355,796, or \$1,279 more than in 1912. Valuation of property, \$9,168,600.

OVER THIRTY MILLION PASSENGERS PASS.

The Boston terminal station, the largest in the world in point of passenger movement, witnessed the arrival and departure of 34,978,000 passengers during the year ended June 30, 1914, a loss of 141,000 from the 1912-13 total of 35,122,000.

The New Haven and Boston & Albany during the 1914 fiscal year carried into Boston over their railroads 17,411,165 passengers, compared with 17,559,050 in the previous fiscal year, a decrease of 147,885. Number of passengers outbound was 17,567,278, an increase of 4,247.

New Haven showed a decrease in both the inbound and outbound movement, the inbound declining 261,773 and the outbound 177,378. On the other hand, the Boston & Albany showed substantial increases both ways.

The following figures show the inbound and outbound passenger movement at the South Station during the fiscal years ended June 30, 1914, and June 30, 1913:

	New Haven.	Boston & Albany.	Total.
Into Boston, 1914.....	13,125,767	4,285,398	17,411,165
Into Boston, 1913.....	13,387,540	4,171,510	17,559,050
Increase.....		103,888	
Decrease.....	261,773		147,885
Out of Boston, 1914.....	13,127,242	4,440,036	17,567,278
Out of Boston, 1913.....	13,304,620	4,258,411	17,563,031
Increase.....		181,625	4,247
Decrease.....	177,378		

PROCEEDINGS OF CITY COUNCIL.

Monday, August 10, 1914.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President McDONALD in the chair. Absent—Coun. Collins, Coulthurst and Kenny.

The Council voted, on motion of Coun. BALANTYNE, to dispense with the reading of the records of the last meeting.

APPOINTMENTS BY THE MAYOR.

The following were received:

City of Boston,
Office of the Mayor, August 10, 1914.

To the City Council:

Subject to confirmation by your honorable body, I hereby appoint the following-named persons Constables of the City of Boston, for the term ending April 30, 1915:

Connected with official position and to serve without bonds: Edward A. Burt (1 Maple place, Ward 7).

Not connected with official positions (to file bonds): Patrick F. Garrity (28 Renfrew street, Ward 17); Harland J. Lowe (562 Massachusetts avenue, Ward 12).

Respectfully yours,
JAMES M. CURLEY, Mayor.

City of Boston,
Office of the Mayor, August 10, 1914.

To the City Council:

Subject to confirmation by your honorable body, I hereby make the following appointments:

Weigher of Beef, James B. Shaw (1 Allston street, Ward 6).

Weigher of Coal, Barnett E. Gordon (188 Amory street, Ward 22).

Respectfully yours,
JAMES M. CURLEY, Mayor.

Laid over under the law.

VETO, NORTON ANNUITY.

The following was received:

City of Boston,
Office of the Mayor, August 6, 1914.

To the City Council:

I return herewith without my approval the order passed by your honorable body making provision for an annuity not exceeding three hundred dollars per annum to be paid to Annie L. Norton, widow of Thomas J. Norton, a member of the Police Department. The reason for such action is apparent to your body, namely, subsequent action providing for per annum payment of \$1,200 to this widow by the City of Boston.

Respectfully,
JAMES M. CURLEY, Mayor.

Placed on file.

VETO, PAYMENT TO MRS. ZUVER.

The following was received:

City of Boston,
Office of the Mayor, August 6, 1914.

To the City Council:

I return herewith without my approval the order passed by your honorable body accepting chapter

212 of the Acts of 1914, entitled "An Act to Authorize the City of Boston to Pay Soldiers' Relief to the Widow of Russell M. Zuver."

The Soldiers' Relief Commissioner has submitted a report on this case in which he sets forth reasons which cause me to withhold favorable action.

Respectfully,
JAMES M. CURLEY, Mayor.

Placed on file.

VETO, SALARY OF FREDERICK J. GLENN.

The following was received:

City of Boston,
Office of the Mayor, August 6, 1914.

To the City Council:

I herewith return without my approval the order passed by your honorable body making provision for an increase in salary for Frederick J. Glenn, employed by the City Council as an assistant in the office of the City Messenger, to \$1,400 per annum, inasmuch as it is not my desire at this time to sanction such an increase.

It is my intention to effect revisions and equalizations of salaries in November of each year and make provision for increases in the budget for the fiscal year following. I feel, therefore, it would be unwise to approve of your action in the case of Mr. Glenn and accordingly reject the order.

Respectfully,
JAMES M. CURLEY, Mayor.

Placed on file.

VETO, SALARY OF PROBATION OFFICERS.

The following was received:

City of Boston,
Office of the Mayor, August 6, 1914.

To the City Council:

I return herewith without my approval the order passed by your honorable body making provisions for increases in pay to \$1,500 per annum, to begin June 20, 1914, of Margaret H. Markham and Teresa C. Dowling, female assistant probation officers of the Municipal Court of the City of Boston.

It is my intention to consider the question of equalization of salaries in November of each year and provision will be made in the budget for 1916, in January, the present budget having been determined upon. This order provides for an increase not determined upon and for which provision was not made. Until such time as careful consideration has been given to the entire question in November and provision made in the budget for 1915 and 1916, it seems unwise to approve of this expenditure.

Respectfully,
JAMES M. CURLEY, Mayor.

Placed on file.

EAST BOSTON TUNNEL TOLLS.

The following was received:

City of Boston,
Office of the Mayor, August 10, 1914.

To the City Council:

I transmit herewith for the consideration of your honorable body an opinion of the Corporation Counsel in regard to the authority of the Mayor to originate, or the City Council to make, an appro-

priation to provide a sum to be used in lieu of the amounts now received from the East Boston Tunnel tolls.

Respectfully yours,
JAMES M. CURLEY, Mayor.

City of Boston,
Law Department, July 31, 1914.

Hon. James M. Curley,

Mayor of Boston:

Dear Sir,—In my opinion the Mayor has no authority to originate, nor the City Council to make, an appropriation of \$125,000 a year in order to provide a sum to be used in lieu of the amounts now received from the East Boston Tunnel tolls. If such an appropriation were made the expenditure of the money could be enjoined by the courts as illegal. The statute providing for the raising of money by the city to take the place of the tunnel tolls does not give the city an absolute but only a conditional power to appropriate \$125,000 a year for that purpose, the condition as stated in the statute being that: "The holders of the bonds issued to pay for the construction of said tunnel consent to a waiver of the pledge, expressed on the face of the said bonds as one of the terms thereof, to the effect that the whole amount of the tolls collected from persons passing through said tunnel should be used to meet the principal and interest of the said bonds, and shall release the city from the said pledge." This condition must be complied with before the city can lawfully make the aforesaid appropriation.

A bill introduced in last year's Legislature provided that the City Treasurer should be authorized to furnish the Corporation Counsel with a list of the bondholders, the object being to authorize the Corporation Counsel to communicate with the bondholders and to request a release of the pledge. The bill failed of passage, however. While it is not absolutely necessary that the treasurer should receive statutory authority to furnish the list of bondholders, it is only proper that he should receive such authority.

Yours respectfully,
JOHN A. SULLIVAN,
Corporation Counsel.

Referred to the Executive Committee.

INDUSTRIAL SCHOOL FOR BOYS.

The following was received:

City of Boston,
Office of the Mayor, August 10, 1914.

To the City Council:

I transmit herewith draft of An Act Relative to the Industrial School for Boys in the City of Boston, and respectfully recommend the adoption of the accompanying order.

Respectfully yours,
JAMES M. CURLEY, Mayor.

The Commonwealth of Massachusetts.

In the Year One Thousand Nine Hundred and Fourteen.

An Act Relative to the Industrial School for Boys in the City of Boston.

Be it enacted by the Senate and House of Representatives in General Court assembled and by the authority of the same, as follows:

Section 1. The land situated on Halleck, Archibald and Goldthwait streets in the city of Boston, heretofore taken by the board of street commissioners of that city, at the request of the public works department, for a garbage station, is hereby transferred to the control of the school committee, to be used for school purposes and to be occupied by the industrial school for boys. The payment of all damages for the land so taken shall be met by appropriation of loan or otherwise by the school committee in accordance with law, and any payments made for said land shall be chargeable to the appropriation for new school buildings, lands, yards and furnishings.

Section 2. The said board of street commissioners is further authorized to take in fee, in accordance with the provisions of section thirty-one of chapter four hundred and eighty-six of the acts of the year nineteen hundred and nine, additional land in said city so that the lot to be occupied by the industrial school for boys may exceed two acres but shall not exceed four acres in area.

Section 3. This act shall take effect upon its acceptance by the mayor and the city council of the city of Boston.

House of Representatives, February 26, 1914.

Passed to be enacted.

GRAFTON D. CUSHING, Speaker.

In Senate, February 27, 1914.

Passed to be enacted.

CALVIN COOLIDGE, President.

Ordered, That chapter 128 of the Acts of 1914, entitled "An Act Relative to the Industrial School for Boys in the City of Boston," be and the same hereby is accepted.

Referred to the Executive Committee.

TRANSFER FOR PROPERTY PURCHASE.

The following was received:

City of Boston,
Office of the Mayor, August 10, 1914.

To the City Council:

I submit herewith an order transferring receipts from the sale of city property, which I wish to

substitute for an order submitted at the last meeting of your honorable body, appropriating \$125,000 for the purchase of land bounded by Hemenway street, Huntington avenue and the Fenway. The owner of this property has agreed to sell for assessed valuation and I respectfully recommend speedy action on this transfer.

Respectfully,
JAMES M. CURLEY, Mayor.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and he hereby is authorized to transfer the sum of one hundred forty thousand six hundred dollars (\$140,600) from the receipts from the sale of city property to an appropriation for the purchase of land bounded by Hemenway street, Huntington entrance to the Back Bay Park, the Fenway, the Forsyth Dental Infirmary, and a common passageway extending from Hemenway street, containing 43,263 square feet, more or less, to be used for park purposes.

Referred to the Executive Committee.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Mary E. Corliss, for compensation for damages at 324, 326, 328 Broadway by the bursting of a water pipe.

Estabrook Real Estate Trust, for compensation for damage to fence in rear of 40 Greenleaf street, Roxbury, by Fire Department apparatus.

William C. Skaggs, for compensation for damage to wagon on the South Ferry.

Walter S. Leasly, for compensation for injuries caused by a defect in the highway at corner of Cobb and Washington streets.

Mrs. Delia Talbot, for compensation for injuries to her nephew, John Gordon, by his being knocked down by an automobile.

C. E. Trainer, for compensation for damages by the backing up of sewer at 68-70 Readville street and Water road, Ward 26.

Andrew J. Granara, for compensation for damages at 38 North Bennet street by leak in sewer.

Julius E. Eichler, for compensation for damages at 20 Intervale street by employees of the Sewer Division.

Thomas Bowen, for compensation for damage to clothing by a tree guard at 170 Columbia road.

James J. O'Neil, for compensation for injuries to his son by an automobile belonging to the city.

Mrs. Bridget Robertson, to be reimbursed the sum of \$200, paid by her on account of Frank A. Donnelly having defaulted his appearance before the Superior Criminal Court.

Breta A. Olsen, for compensation for taxes paid under protest.

David M. Biggs, for compensation for loss of colt killed by dogs.

County Accounts.

Proprietors of the Social Law Library, for the annual appropriation for said library.

Executive.

Petitions were received for licenses to sell, rent or lease firearms as follows:

Giovanni Mongardi, at 16 North square, Ward 6.

Moe Cohen, at 37 Fleet street, Ward 6.

Public Lands.

Hollis P. Gallup *et al.*, for the naming of the square in vicinity of Field's Corner.

STORAGE OF EXPLOSIVES.

Notices were received of intention to continue the use of premises for explosives or inflammable fluids, viz.:

Ella A. Hirsh, to keep gasoline, at 74 Bowdoin street, Dorchester.

Hyde Park Auto Station, to store and keep for sale gasoline, at 1211-1213-1215 Hyde Park avenue, Ward 26.

Frank A. Wheelock, to store and keep for sale gasoline, at 21 Lansdowne street, Ward 11.

George H. Wood Corporation, to keep naphtha, at 431 Medford street, Ward 4.

Rueter & Co., to keep gasoline, at corner of Old Heath and Bromley streets, Roxbury.

Bowers Brothers, to store and keep for sale gasoline, at 27 Von Hillern street, Dorchester.

Winton Motor Company, to store and keep for sale gasoline, at 674 Commonwealth avenue.

Placed on file.

TAKING OF LAND, FENWAY.

The following was received:

Boston Finance Commission,
August 10, 1914.

To the Honorable the Mayor and City Council:
Gentlemen,—There are serious objections to the passage of the proposed appropriation by the City Council of \$125,000 to pay for the taking by eminent domain of the land of Ex-Governor Foss, which partly adjoins the Forsyth Dental Infirmary on Hemenway street and the Fenway.

The project for acquiring the land adjoining the Forsyth Dental Infirmary was first agitated in the last year of the last administration, when the Mayor recommended to the Council the acquisition of this site, in order to provide a perspective for the building.

The plan was laid aside by the City Council after it had learned from the officials of the Park and Recreation Department that the improvement would cost \$250,000, of which \$235,000 would be paid for the taking of the land and \$15,000 for grading.

The building of the Forsyth Dental Infirmary has at the present time a 50-foot space on each side and abuts on open streets on the front and rear, the facade fronting on the Fenway and the rear of the building on Hemenway street.

The real purpose of the order for the taking is to add to the aesthetic appearance of the building. In order to do this it will be necessary not only to take the Foss land, assessed at \$140,000, but also the three brick apartment houses on Hemenway street, assessed for \$48,000, which jut into the Foss land and conceal one-half of the flank of the building.

The Mayor has stated that the improvement will cost \$125,000. The Finance Commission is of the opinion that the Mayor is mistaken in the amount he has estimated and that the amount required will be \$250,000, if not more, as formerly estimated by the Park and Recreation Department. The passage of this proposed appropriation means the establishment of a policy of embellishing private buildings by the city. The Christian Science Church Trustees have long urged the city to take over the care and maintenance of the Christian Science Park, but without success. If it is decided to make an appropriation for the taking of the land adjoining the Forsyth Dental Infirmary the city cannot in justice deny the plea of the Christian Science Church Trustees. Neither can the petitions of other corporations and individuals be refused when the city is asked to adorn their buildings.

The Finance Commission is of the opinion that the city should not expend money to improve the aesthetic conditions of private institutions, even though those institutions are used for philanthropic purposes. It is also of the opinion that business conditions are of such a nature at the present time that it would be bad financial policy on the part of the city to expend a quarter of a million dollars for the proposed taking of the land in question.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN R. MURPHY,
Chairman.

Placed on file.

ALLEGED NUISANCE, CHELSEA.

The following was received:

City of Boston,
Law Department, August 6, 1914.

To the Honorable the City Council:

Gentlemen,—In answer to your request for my opinion as to the powers of the City Council in connection with the petition of Elizabeth M. J. Haydock and others for investigation of an alleged nuisance caused by surface drainage from Carroll street and vicinity in the city of Chelsea, I respectfully submit the following:

The petitioners apparently are proceeding under Revised Laws, chapter 75, section 84, which gives to a person aggrieved by the failure of the Board of Health of a city or town to order the abatement of a nuisance, the right to apply to the county commissioners, who are authorized in such cases to exercise all the powers of the Board of Health. This statute does not, however, apply to the City Council of Boston, as County Commissioners, in Chelsea cases, as the Revised Laws, chapter 20, section 34, gives such jurisdiction to the board of aldermen of the city of Chelsea.

Yours respectfully,

JOHN A. SULLIVAN,
Corporation Counsel.

Placed on file.

EXTENSION OF FIRE LIMITS.

The following was received:

City of Boston,
Law Department, July 31, 1914.

To the Honorable the City Council:

Gentlemen,—In response to your communication of July 29, 1914, requesting a draft of an ordinance repealing the ordinance of September, 1913, extending the fire limits and subsequent ordinances extending the time when such extension should become operative, I respectfully submit the following:

Chapter four of the Ordinances of 1913, as amended by chapter one of the Ordinances of 1914 and chapter four of the Ordinances of 1914, is hereby repealed.

The effect of such repeal will be to leave the building limits as they existed prior to September 29, 1913, the date of the approval of chapter 4 of the Ordinances of 1913, extending the building limits. In any part of the city outside of the building limits as they existed prior to September 29, 1913, single and two-family dwellings of third-class construction may be erected as provided by

Statute 1914, chapter 782, section 1. This statute was approved July 7, 1914, and is to take effect sixty days after such approval.

Yours truly,

JOHN A. SULLIVAN,
Corporation Counsel.

Placed on file.

RAILROAD POLICE.

Notice was received from the New York, New Haven & Hartford Railroad of appointment of William P. Crawford as railroad police officer, the same being attested to by the Police Commissioner.

Notice was received from the New York, New Haven & Hartford Railroad that William P. Conley is no longer employed as railroad police officer.

Placed on file.

RAILROAD ALTERATIONS, SAVIN HILL AVENUE.

The following was received:

Commonwealth of Massachusetts,
Public Service Commission,
July 28, 1914.

Hon. James Donovan,
City Clerk:

Dear Sir,—Inclosed please find copy of order of the commission approving agreement for alterations in the crossing where Savin Hill avenue passes above the New York, New Haven & Hartford Railroad and the Old Colony Railroad (New York, New Haven & Hartford Railroad Company, lessee), near Savin Hill Station in the City of Boston. A copy of the plan referred to in said order is inclosed herewith.

Very truly yours,

ANDREW A. HIGHLANDS, Secretary.
(Inclosed was the agreement and plan.)

Ordered, That the approval of the commission is hereby given to the agreement and to the alterations therein set forth, as necessary for the convenience and security of the public.

Placed on file.

SIDEWALK SCHEDULE.

The Commissioner of Public Works submitted a communication and schedule concerning cost of constructing artificial stone sidewalks on Armandine street, between Washington street and Milton avenue, recommending the passage of the following:

Ordered, That the persons named in the foregoing schedule be and the same are hereby assessed the sums set against their respective names as their proportional part of the cost of constructing sidewalk in front of estates bordering on Armandine street, Ward 24, and the same is ordered to be certified and notice given to the parties as aforesaid, the amount being \$2,509.07.

The order was passed.

MINORS' LICENSES.

President McDONALD submitted reports on petitions for minors' licenses for twenty-eight newsboys, two bootblacks and thirty-five vendors—recommending that permits be granted.

Reports accepted; licenses granted on the usual conditions.

CONFIRMATION OF APPOINTMENTS.

President McDONALD called up unfinished business, No. 1, viz.:

1. Action on appointments submitted by the Mayor July 27, of Hector McLean, William V. Kenney and Fred B. Riggs to be Weighers of Boilers and Heavy Machinery; William F. Loughman to be a Weigher of Beef; Fred B. Riggs and James F. Murphy to be Weighers of Coal and Measurers of Wood and Bark, and William F. Loughman to be a Weigher of Goods.

The question came on confirmation. Committee—Coun. Watson and Ballantyne. Whole number of ballots cast 6, yeas 6, and the appointments were confirmed.

REFUSE TRANSFER STATION, BRIGHTON.

President McDONALD called up unfinished business, No. 2, viz.:

2. Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of twenty-three thousand dollars (\$23,000) from the appropriation for Everett Street, Brighton, Property, to an appropriation for Refuse Transfer Station.

On July 27 the foregoing order was read once and passed, yeas 6, nays 0.

The order was given its final reading and passed, yeas 6.

LAND PURCHASE, FENWAY.

Coun. BALLANTYNE called up unfinished business, No. 3, viz.:

3. Ordered, That the sum of one hundred and twenty-five thousand dollars (\$125,000) be and hereby is appropriated, to be expended by the

Park and Recreation Commissioners, for park purposes for the purchase of land bounded by Hemenway street, Huntington avenue and the Fenway and the Forsyth Dental Infirmary, containing 43,263 square feet, more or less; that said sum be met by taxes to the amount so appropriated, and be raised by tax on the polls and estates taxable in the City of Boston, and that all orders heretofore passed relating to taxes and the interest thereon apply to the taxes herein provided for.

On July 27 the foregoing order was read once and passed, yeas 6, nays 0.

Indefinitely postponed, on motion of Coun. BALLANTYNE.

ACCEPTANCE OF RETIREMENT ACT.

Coun. ATTRIDGE offered an order—That chapter 765 of the Acts of 1914, entitled "An Act Relative to the Retirement Fund for Laborers Employed by the City of Boston," be hereby accepted.

Referred to the Executive Committee.

PAYMENT OF CLAIMS.

Coun. BALLANTYNE, for the Committee on Claims, submitted the following:

(1) Report on petition of Charles W. Miller (referred July 13) for payment for expense incurred on account of his acts as a police officer—recommending the passage of the following:

Ordered, That there be allowed and paid to Charles W. Miller the sum of \$2,116.50 for expense incurred by him in a suit on account of his acts as a police officer, said sum to be charged to the appropriation for Police Department.

Report accepted; order laid over under the rule.

(2) Report on petition of David M. Biggs (referred to-day) for compensation for loss of colt killed by dogs—recommending the passage of the following:

Ordered, That there be allowed and paid to David M. Biggs the sum of \$300 for compensation for loss of colt killed by dogs, said sum to be charged to the income from dog licenses.

Report accepted; order laid over under the rule.

SOLDIERS' RELIEF.

Coun. WATSON, for the Committee on Soldiers' Relief, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of August.

Report accepted; order passed.

RECONSTRUCTION OF WASHINGTON STREET.

Coun. WOODS offered an order—That chapter 641 of the Acts of 1914, entitled "An Act to Provide for the Reconstruction of Washington Street in the West Roxbury District of the City of Boston," be and the same hereby is accepted by the City Council of the City of Boston.

Referred to the Executive Committee.

RECESS TAKEN.

The Council voted at 3.51 p. m., on motion of Coun. ATTRIDGE, to take a recess, subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 4.20 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Report on petitions (referred to-day) for permit to sell, rent or lease firearms at various locations—that permits be granted, viz.:

Moe Cohen, 37 Fleet street, Ward 6.

Giovanni Mongardi, 16 North square, Ward 6.

Reports accepted; permits granted on the usual conditions.

(2) Report on message of Mayor and opinion from Corporation Counsel (referred to-day) in regard to authority of Mayor to originate, or the City Council to make, appropriation to provide a sum to be used in lieu of the amounts now received from the East Boston Tunnel tolls—that the same be placed on file.

Coun. ATTRIDGE—Mr. President, I am one who does not agree with the opinion of the Corporation Counsel as contained in his communication to this Council on the matter of the tunnel tolls to East Boston. In my opinion his opinion is a quibble. And furthermore, he has, in his opinion, placed the cart before the horse. He says that in his opinion the Mayor has no authority to originate nor the City Council to make an appropriation of \$125,000 a year in order to provide a fund to be used in lieu of the amounts now received from the East Boston Tunnel tolls. And he says that if such an appropriation were made the expenditure of the money could be enjoined by

the courts as illegal. I ask—but how could it be enjoined as illegal? "The statute," he further says, "providing for the raising of money by the city to take the place of the tunnel tolls does not give the city an absolute but only a conditional power." With that I agree. He further says:

"To appropriate \$125,000 a year for that purpose, the condition as stated in the statute being that"—and this is equity, Mr. Chairman—"the holders of the bonds issued to pay for the construction of said tunnel consent to a waiver of the pledge, expressed on the face of the said bonds as one of the terms thereof, to the effect that the whole amount of the tolls collected from persons passing through said tunnel should be used to meet the principal and interest of the said bonds, and shall release the city from the said pledge,—this condition must be complied with before the city can lawfully make the aforesaid appropriation."

I agree with him that this condition must be complied with before the city can make the aforesaid appropriation, because when I introduced my order at the meeting of the Council on July 27 I put in there first that his Honor the Mayor be requested to take the necessary steps to secure from the holders of the bonds issued to pay for the construction of the East Boston Tunnel their consent to a waiver of the pledge expressed on the face of the said bonds as one of the terms thereof, to the effect that the whole amount of the tolls collected from persons passing through said tunnel should be used in meeting the principal and interest of the said bonds, and shall also secure from the city a release from said pledge. That, Mr. Chairman, was the first part of my order, and that was the first step which the Mayor of the city and the Corporation Counsel should take under the bill which was passed last year by the Legislature and which was accepted by the people of the city. The Mayor and the Corporation Counsel should first see the bondholders and get a waiver from them and get a release from the pledge. That, Mr. Chairman, apparently has not been done.

Now the second part of my order was to the effect—and of course this could be reasoned out by any sensible man—that after the Mayor of the city and the Corporation Counsel had received the waiver and the release, then, and not until then, should the Mayor send an appropriation to this City Council for the \$125,000 as provided in the act. That was plain. It was plain to any man if he cared to see it.

The Mayor of the city could direct the Corporation Counsel to-day to go to the treasurer of the city and secure the names of the bondholders and have him go and ask for the release and the waiver. No statutory provision is necessary. No statutory authority is necessary, as the Corporation Counsel himself says. Further in his letter he says:

"A bill introduced in last year's Legislature provided that the City Treasurer should be authorized to furnish the Corporation Counsel with a list of the bondholders, the object being to authorize the Corporation Counsel to communicate with the bondholders and to request a release of the pledge. The bill failed of passage, however."

Now further, I want the members of the Council to note, he says:

"While it is not absolutely necessary that the treasurer should receive statutory authority to furnish the list of bondholders, it is only proper that he should receive such authority."

That is his opinion, Mr. Chairman and gentlemen of the Council. If the Mayor of the city and the Corporation Counsel were honest in this matter they would at least try to secure under the Act of 1913, which was accepted by a majority of those voting at the last city election, or state election, they would at least try to get from the bondholders the release and the waiver. And the Mayor of the city and the Corporation Counsel, without any express statutory authority, as the Corporation Counsel himself admits, can get the list of those bondholders, and furthermore, if he did get that list, then the next step to be taken was to send to this Council an appropriation of \$125,000 to meet the principal and interest on these particular bonds. And I do not believe that the Mayor of the city and the Corporation Counsel desire to take any steps in this matter of relieving not alone the people of East Boston but the people of the entire city from this tunnel toll. And they should be guided, as we should be guided, by the vote which was passed by the people at the last state election, in which they accepted this act, and the Mayor of the city should take those two steps—first, the step to get the release and the waiver, and then, getting the release and the waiver, to send the appropriation to the Council.

Report accepted; message and communication placed on file.

(3) Report on order (referred to-day) that chapter 765 of the Acts of 1914, entitled "An Act Relative to the Retirement Fund for Laborers Employed by the City of Boston," be hereby accepted—that the order ought to pass.

Report accepted; order passed.

(4) Report on message of Mayor and order (referred to-day) that chapter 128 of the Acts of 1914, entitled "An Act Relative to the Industrial School for Boys in the City of Boston," be and the same is hereby accepted—that the order ought to pass.

Report accepted; order passed.

(5) Report on message of Mayor and order (referred to-day) transferring \$140,600 from receipts from sale of city property to appropriation for the purchase of land bounded by Hemenway street, Huntington entrance to the Back Bay Park,

the Fenway, the Forsyth Dental Infirmary, and a common passageway extending from Hemenway street, containing 43,263 square feet, more or less, to be used for park purposes—that the order ought to pass.

Coun. ATTRIDGE—Mr. President, I think that at least a word should be said to-day before the Council takes action upon this particular order. The Forsyth brothers have shown to the people of this city and to the people of the entire world that they are public spirited citizens. The names of these gentlemen will go down in the history of the city with the names of Governor Winthrop and the others who purchased Boston Common for the use of the people of the city; the name of Benjamin Franklin, who left his money for the establishment of the Franklin Union; the name of Robert Dawson Evans, who left a memorial hospital and also money for an addition to the Art Museum; the name of John Francis Parkman, who left \$5,000,000 for the improvement of the parks and playgrounds of the city. I believe that this order to-day will pass unanimously. It should. We have, as members of the Council, received a communication, under date of August 10, from the Finance Commission in which they say that the commission is of the opinion that the city should not expend money to improve the aesthetic conditions of private institutions even if those institutions are used for philanthropic purposes. In my opinion this institution should not be classed as a private institution. In my opinion it will be just as much a public institution as our own City Hospital. That report further said that the plan was laid aside by the City Council last year after it had learned from the officials of the Park and Recreation Department that the improvement would cost \$250,000, of which \$235,000 would be used for the taking of the land and \$15,000 for grading. The entire expense to the city will be but \$140,600. It was stated at a meeting which was held by the Mayor and the members of the City Council and the department heads at the Parker House that the apartment houses now owned by Mrs. Glendower Evans, adjoining the Forsyth Dental Institute, would be razed to the ground and the land purchased—and, I believe, purchased by Thomas Forsyth—without the additional cost to the city of a single cent. Now, I say that the least that this city government can do is to pass a vote of thanks to these men who have been such generous public spirited citizens. And I desire to say, so that it may appear upon the record, that at that conference to-day at the Parker House a unanimous vote of thanks was passed for the generosity and the public spiritedness shown by Mr. Forsyth in this matter. The city is to purchase the land owned by a former governor and to purchase it at simply the assessed valuation, and I believe that this is one of the cases where the city should appropriate the money for this particular land so that the city can at least say that it has done its share in making it possible for us to have a building which, as the Mayor of the city said to-day, probably has no equal in the entire world. And I know, Mr. Chairman, that this order for \$140,600 will pass unanimously to-day.

President McDONALD—The question comes on giving the order its first reading.

Coun. WATSON—Mr. President, I cannot let this opportunity pass without adding my word of approval to the magnanimous deed performed by Mr. Forsyth. I think I am as well acquainted with the gentleman who is responsible for this magnificent gift as any other member, perhaps, on this Board. I know that the Forsyth brothers not only have done this grand act, but I know that Roxbury has received other financial assistance from the same concern. The concern of which Mr. Forsyth is the head, the Boston Belting Company, for more than thirty years has furnished employment to a great number of my neighbors. Near relatives of mine have lived, in a way, upon the bounty furnished by this concern in the way of wages. It is to be regretted that anything should have retarded in the slightest the acceptance by the city of its share of the burden of doing something for the people as well as Mr. Forsyth has done. I perhaps know the necessity of the institution which we are soon to have the benefit of as well as any other member of the Board. This institution not only will take care of the teeth of the children, but will provide for the putting in proper condition the mouth, in so far as adenoids and tonsils are concerned. No other institution in the world, I am told, furnishes us this opportunity. No other city in the world has such an institution. And it is one of the proud moments of my life—certainly the proudest moment that I have had in this Council—when I am able to cast my vote in favor of this grand project.

Coun. BALLANTYNE—Mr. President, I want to say just one word on this order. I want to say that it gives me very great pleasure to vote for this appropriation of \$140,600. I don't know that the City of Boston, or even the Commonwealth of Massachusetts, has ever had a citizen who is entitled to more credit for a gift than are the Forsyth brothers for this monument which they have erected on Hemenway street. And I think that there is one point that ought to be set out very clearly in the minutes here, and that is the fact that the money provided for this great monument was left by one of the Forsyth brothers living. The brother that died left no will, but the two surviving brothers knew that it was his intention some day to build such an institution as this and make it a public institution, and these men, such good citizens

of Boston, instead of putting that money in their pockets, as they could according to law, carried out the wishes of the brother that had passed on. And I say that for that reason, if for no other, these men are entitled to all the praise that can be heaped upon them by the citizens of Boston. And I am very glad to be one of the members of the City Council to pass a unanimous rising vote of thanks to Mr. Thomas Forsyth, the only surviving brother to-day.

President McDONALD—The question comes on giving the order its first reading.

A roll call was had, 6 voting in the affirmative and none in the negative, and the order was passed, to have its second reading fourteen days from date.

SIDEWALK ORDERS.

President McDONALD offered an order—That the Commissioner of Public Works make a sidewalk along Dorchester avenue, at St. Mark's Church, Ward 24, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestones, under the provisions of chapter 437 of the Acts of 1893.

President McDONALD offered an order—That the Commissioner of Public Works make a sidewalk along the northerly side of Columbia road, between Washington street and Blue Hill avenue, Ward 26, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestones, under the provisions of chapter 437 of the Acts of 1893.

Coun. WOODS offered an order—That the Commissioner of Public Works make a sidewalk along Cambridge and Washington streets, St. Elizabeth's Hospital, Ward 25, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestones, under the provisions of chapter 437 of the Acts of 1893.

The orders were passed.

BUILDING LIMITS.

Coun. WOODS offered the following:

City of Boston.

In the Year Nineteen Hundred and Fourteen.

An Ordinance.

Be it ordained by the City Council of Boston, as follows:

Chapter four of the ordinances of 1913, as amended by chapter one of the ordinances of 1914 and chapter four of the ordinances of 1914, is hereby repealed.

Coun. WOODS moved that the rule be suspended so that the order might go upon its passage to-day.

Coun. BALLANTYNE—Mr. President, I am going to vote in favor of this repeal of the ordinance of 1913 and the amendments of 1914, for the reason that the Legislature has taken such action as I have desired it to take for several years. I think for about six years this question of extension of the building limits of Boston has been before this body and the old Board of Aldermen, and I have always maintained that the place to go was to the Legislature—that the dangers surrounding us from fires was on account of the poor building laws that we have for Boston. I have always maintained that a wooden building—either a one, two or the so-called three-decker—with a proper roof of combustible material, was much safer than second-class construction under the law as it has existed for several years. Now the Legislature has changed the law regarding second-class construction. They have also changed the law regarding first-class construction, so that after the seventeenth day of October this year there will be no such thing as a six-family house built of wood without a party brick wall. And that is what I consider a very wise step. There will be no such thing as shingle roofs hereafter. The buildings will all be placed a proper distance apart and we will be protected throughout the entire city just as well as if these fire limits had remained extended without the legislation that we have had. Now I believe that we want further legislation yet, and I shall be in favor of such legislation as will put in the hands of the City Council the power to say in what sections of the city certain kinds of buildings shall be erected, without simply making a sweep by the extension of building lines. There are some sections of the city in which I would prohibit wooden buildings, and I would forbid wooden buildings in a section of the city where they were going to be used for manufacturing purposes or business of any kind of a hazardous nature. And if the Legislature would give this Council the authority to prescribe those lines for the different classes of building they would have taken another great step towards the elimination of disaster by fire. The great hardship that I see in the extension of the limits as it is now is not so much on the elimination of three-deckers, but it is a great hardship on many of the people within those lines that own one or two family houses. We can all look back over the South End of Boston

here where there were many wooden houses on streets that were a few years ago residential streets. They have become business thoroughfares, and if you will go along Washington street and Tremont street, any of these main thoroughfares in the South End, you will find that many of the stores to-day are wooden buildings remodeled. Now, what would the consequence be if the law remained just at it was, with these fire limits extended? You could not add one foot to the area of a single wooden building; you could not convert that into manufacturing or business purposes by adding one foot to the area of it. And you are depriving these people of the use of their property. It has been said that you might remodel a wooden building within the fire limits by building your addition of fireproof construction. The Building Commissioner has ruled differently. He says that you can't add one foot of area to one of those wooden buildings within the prescribed lines, even if you build it of fireproof construction. And there is the hardship that I see for those who own those wooden buildings. Now what I look for in the near future is such legislation as this—that the City Council will be allowed to eliminate wooden buildings from certain sections, but they will also be allowed to say in what sections wooden buildings may be remodeled and may be increased in area by the additions being built of fireproof construction. I think that while many people may oppose the Council for the repeal of this ordinance, when they come to think it over carefully, and when our representatives to the Legislature look over all the different points, they will give to the Council that power which it ought to have and which the Board of Aldermen or the Selectmen of the towns and cities of Massachusetts ought to have. I sincerely hope that this Council will pass the repeal of the ordinances of 1913 and 1914.

Coun. WATSON—On this proposition, Mr. President, if I vote together with the gentleman opposite, the way he will vote, I shall be compelled to shift my position of one year ago. One year ago I was chairman of the Committee on Fire Hazard, and while I was waited upon and pulled and hauled to a great extent, I did that which I thought was proper, and I voted to extend the lines. Later when I found that there was some hardship placed on the shoulders of those who were not quite able to bear it, I voted to extend the time a while longer for the new building limits to go into effect. And it has gone along until to-day we have got to the limit of the time, I believe, in which the old limits prevail, and the new are now in force. I don't think that in my whole life—especially in my public career—I have deliberately voted to place a hardship on anyone's shoulders that should not be there. I am somewhat in doubt to-day as to what I ought to do on this proposition, but I am willing to follow the suggestion made by the councilor opposite in whom I place considerable credence. I believe that he would not furnish me with any information that was not perfectly right. If there is a hardship placed on the shoulders of those who are least able to bear it by this extension of the fire limits I am perfectly willing to change about face and vote with him. To be frank, I am in considerable doubt as to what I ought to do, but I am perfectly willing to do that which I think is right and vote to-day with the gentleman opposite.

Coun. WOODS—Mr. Chairman, I do not believe it is the intention of any member of this Council to place any hardship on anybody, and all I want to say in addition to what has already been said is that laws have been made since that can do away with all the objectionable features that caused the members of the Council last year to pass these fire limits. There were reasons then why they should extend it—so much so that the insurance companies of New York said: "The City Council of Boston have extended their fire limits. They must have a hazardous place there, the property is dangerous, therefore we have got to raise our rates of insurance." The real estate men and other citizens protested at a mass meeting held downstairs the other day against the rates. It leaked out that they were going to raise the rates 15 per cent because those fire limits as extended gave them the right to add 15 per cent additional insurance as a demolition clause on one, two and three story wooden buildings. If the law had been allowed to stand as the City Council passed it, and the Legislature did not interfere, and allowed them to build one and two-family wooden houses, then the insurance companies would have had a grand premium, but when the Legislature interfered and says that they can build one and two family houses, that only allows the present three-family houses for the insurance companies to get their demolition clause on. Therefore, when they figured that out they said: "That isn't enough. Now we will take the bull by the horns and put an additional 15 per cent insurance on all these limits as they are extended, and an extra 15 per cent on the demolition clause." Now that is only as the limitations are extended. The Mayor asked them to meet in committee and see what the reason was—what the cause for their raising the rates was. One of the members said: "It takes 45 per cent to carry on our business." The Mayor said: "If it takes 45 per cent to carry on the insurance business it is time the insurance companies were investigated, and if anybody will make a motion to appoint a committee of ten I will appoint one." They wouldn't listen to any postponement, but the committee of ten was appointed. We waited

on them the next day, and the committee of ten waited on them, and they agreed to postpone the action. The committee of ten said: "If the Council will repeal these limitations that settles the whole question and the insurance rates can't go up." I will admit that the Council had reasons in some things. You don't want to impose any hardship on anybody, and I hope you will see your way clear to pass this bill. As it is you can't build a building to-day in Boston until October 7—you can't get a permit.

The motion to suspend the rules was adopted and the rules were suspended. The question then came on the passage of the order, and the order was passed.

GENERAL RECONSIDERATION.

Coun. BALLANTYNE moved a general reconsideration of all business transacted at the meeting. Lost.

Adjourned at five o'clock p. m., on motion of Coun. COLEMAN, to meet on Monday, August 17, at three o'clock p. m.

TO PREVENT FLY BREEDING.

The Department of Agriculture has just concluded a series of very interesting experiments to prevent the breeding of flies in our large cities.

It is declared that a small amount of ordinary borax sprinkled daily on manure will effectively prevent the breeding of the typhoid or house fly. Similarly, the same substance applied to garbage, refuse, open toilets, damp floors and crevices in stables, cellars or markets, will prevent fly eggs from hatching. Borax will not kill the adult fly nor prevent it from laying eggs, but its thorough use will prevent any further breeding. While the "Swat the fly campaign," traps and other devices for reducing the number of typhoid-carrying flies are of value, they are of less importance than the prevention of the breeding.

The investigators found that 0.62 of a pound of borax, or 0.75 of a pound of calcined colemanite (crude calcium borate) would kill the maggots and prevent practically all of the flies ordinarily breeding in eight bushels of horse manure from developing.

In the case of garbage cans or refuse piles 2 ounces of borax or calcined colemanite, costing from five cents a pound upward, according to the quantity which is purchased, will effectually prevent flies from breeding.

Borax is not a very poisonous substance and the feeding of garbage that contains it to hogs is not likely to be a serious matter, but borax in large quantities does produce gastric disturbances and for this reason a certain amount of care is advisable.

The method for using this substance in the case of stables is to sprinkle the borax or colemanite, in the quantities given above, by means of a flour sifter or other fine sieve, around the outer edges of the pile of horse manure. The manure should then be sprinkled immediately with two or three gallons of water to eight bushels of manure. It is essential, however, to sprinkle a little of the borax on the manure as it is added daily to the pile, instead of waiting until a full pile is obtained, because this will prevent the eggs which the flies lay on fresh manure from hatching. As the fly maggots congregate at the outer edge of the manure pile most of the borax should be sprinkled there.

It is estimated that it would cost only one cent per horse per day to prevent all breeding of flies in city stables. If calcined colemanite is purchased in large shipments this cost should be considerably less. At the same time its value for use in the garden or for sale to farmers will not be lessened.

LONDON SEWER SYSTEM.

Hon. John L. Griffiths, United States Consul at London, England, sends the *City Record* a very interesting report relative to the sewer system of the English metropolis.

Consul Griffiths declares:

"Small sewers are made of glazed stoneware or fire-clay pipes surrounded with 6 inches of Portland cement concrete. Such sewers have been in use 60 or more years without needing relaying. The failures that occur are generally caused by bad pipes, bad laying, settlement, breakage when laid shallow and wear due to excessive velocity on steep gradients.

"The original large sewers were constructed of local bricks known as London stocks, set in lime mortar or sometimes in Roman cement. These bricks, made from the valley brick earths, are very hard when well burnt and last well. When so burnt they tend to become rough and irregular, and at times bricks containing more sand and not so well burnt were used. These were worn away rather quickly. Even when the bricks were of good quality some sewers failed owing to the lime not setting hard and washing out of the joints. An egg-shaped sewer 3 feet 9 inches by 2 feet 6 inches, constructed about 60 years ago of good bricks and hard setting lime mortar, has recently had to be repaired, as the invert was worn to a depth of 4½ inches. The velocity in this sewer ranged between 3 and 7 feet per second. Later sewers of these bricks and Portland cement mortar have been 50 years in use and are in good condition, though the inverts are rather rough owing to the unequal wear of the bricks.

"When the main drainage of London was undertaken about 1856 careful inquiries were made as to the most suitable bricks to use, and those made from the gault, a tenacious blue clay lying between the upper and lower green sands under the chalk, were selected. Nearly the whole of the original main drainage works of London were built of these bricks, which are strong and durable, with smooth surface and regular shape. The sewers have now been in use about 50 years and are in excellent condition, though slightly worn on the invert. The velocity in them varies from 3 to 4 feet per second in dry weather to 5 to 6 feet during rain.

"On account of this wear the inverts of more recent sewers have been faced with Staffordshire blue bricks. These are made from the clays and marls of that country, which contains 7 to 10 per cent of oxide of iron. They are burnt at a very high temperature, are extremely strong and durable, and are impervious to water. They are set in 2 to 1 Portland cement mortar, with close joints, and as yet they show no appreciable sign of wear.

"When the enlargement of the London main drainage system was undertaken in 1900 it was decided to use the blue bricks for the inverts of the sewers and for the rest a brick made near Nottingham and in the Midlands from the Keuper marls. These bricks are strong and heavy with a very smooth face and are laid in Portland cement mortar.

"Where the sewers are always full, as in suction culverts to pumps and siphons, they are faced completely with blue bricks. The sewers are generally surrounded outside by Portland cement concrete except when in tunnels through clay.

"Sewers constructed of ordinary Portland cement concrete only are not very satisfactory, as the matrix wears away somewhat rapidly, leaving the stones projecting. In recent years, however, a number of sewers have been driven in tunnel through water-logged ground or under buildings behind a shield and constructed of cast-iron segments lined with special concrete with a blue-brick invert. Such concrete is composed of 1 part of small granite chips, 2 parts of sand, and 1 part of Portland cement and is finished to a smooth surface. In some cases when these sewers are used only to carry flood water the blue-brick invert has been omitted. There is every reason to hope that the sewers described above will last even more satisfactory than those constructed in 1856.

"Landings and steps are as a rule paved with York stone, a sandstone from the coal measures and millstone grit series, which wears well. Granite becomes too slippery for such purposes, but is used for weirs and under vertical drops.

"As far as possible the use of metals in the sewers is avoided. Ladders, chains, gratings, etc., are generally made of wrought iron and corrode badly unless kept well painted, and to allow for this are made very heavy. During recent years such metal work has been galvanized. Penstocks, flaps, and plates are made of cast iron, usually fitted with gun metal or phosphor-bronze screws, bushes and faces.

"The working parts require regular cleaning and greasing and at long intervals need to be overhauled. Steel work required for roofs of chambers, etc., is wherever possible buried in brick work or Portland cement concrete. Where exposed it needs frequent painting. When sewers have to be of metal only, cast iron is generally adopted. Many such sewers have been in constant use over 50 years with velocities of 3 to 4 feet per second without being seriously worn.

"In one case a small pumping main with a velocity of 4 to 5 feet per second has been found after about 12 years' constant use to have been reduced about ⅓ inch in thickness on the invert. Crude sewage, containing no doubt much sand, was being pumped through this main. Where the velocity is very high, as in the valves of pumps, the sand present in the sewage cuts badly. The plates on the invert of a large wrought-iron sewer (9 feet by 9 feet) were recently found to have been reduced about five thirty-seconds inch in thickness after 53 years' wear, the velocity varying from 3 feet to 4 feet 6 inches per second. For semipermanent dams and weirs greenheart timber is used and found satisfactory.

"It must be remembered that London is drained on the combined system and that the bulk of the sewage is domestic, and that on this account the damage done by hot water or chemicals is small. The London County Council has power to prevent injurious matter being discharged into the sewers and exercises them when necessary. Cases of serious damage being done are infrequent and quite local."

PRACTICAL EDUCATION IN THE SCHOOLS.

The present country-wide demand for more practical education in the public schools of our large cities continues to attract much interest.

The leading educators of the country say that the stimulus for this movement is from the industrial rather than the educational side, and the United States

Bureau of Education in a report upon the subject declares in part:

The employers have a very definite program. They know what they want and are going after it. Let us not delude ourselves by thinking they are actuated by philanthropy. It is simply good business. They want a crop of fresh, young labor furnished them every year that can make fewer mistakes and more profits.

This is extremely gratifying in one sense. It indicates that economic self-interest is attempting to shake off the double burden society has long borne—the burden of using goods worth much less than they cost because poorly and inefficiently made, and of supporting by charity those paid less than their work is worth because of their poverty, inefficiency and consequent helplessness. But while employers are awake to the need of efficiency, industry is not. Industry still beckons to the inefficient, the immature, the unprepared.

Society is far from having reached a decision that unskilled labor must be abolished. The occupations which, outside of agriculture, absorb the output of our schools are barren of any element to make them of present interest to the child or to offer any hope for the future. A vocational survey in New York City exhibits in one group 101 boys between fourteen and sixteen years of age with an analysis of the work they are doing. For only five of them is there any opportunity to advance or improve; ninety-six are in dead-end occupations.

Business is now saying that if we had the right kind of schools all this would be changed; that child labor would become a blessing instead of an abuse for children. We are constantly told that if the schools had the right kind of curriculum and gave the right kind of training every child would have his natural capacity developed, and we should speedily put an end to the army of industrial misfits.

In accepting this challenge of the business world our educators have assumed an unwarranted responsibility for the condition that exists. A study of the annual contribution of our city schools to the business interests of the community will show that a considerable percentage is thrown into the discard within the first month; that another large percentage goes drifting from job to job, sometimes advancing, quite as frequently receding; the industries complaining that the children the schools turn out are no good, and that the children lose courage, enthusiasm and youthful idealism in the various meaningless jobs to which they are assigned. That many drift into casual and thence into permanent idleness is to be expected. The only wonder is that any ultimately rise to positions of efficiency and responsibility.

Our schools are not fair to themselves in assuming that they or the child are wholly at fault. If the schools need a better curriculum so does the industrial establishment. If the child needs a more definite and purposeful mind much more does industry. One of the most vital services vocational guidance can render is to analyze our industries and train our youth to distinguish between a vocation and a job. It is futile to give special training to a child for the purpose of fastening him to a machine on which he shall do purely mechanical labor for life. Business says: "Here are the jobs; what kind of children have you to offer?" We must reverse the inquiry and say to business: "Here are our children; what kind of industry have you to offer?"

DELINQUENT TAX SALES.

CITY OF BOSTON.

CITY COLLECTOR'S NOTICE.

The owners and occupants of the following described parcels of real estate situated in the City of Boston, in the County of Suffolk and Commonwealth of Massachusetts, and the public, are hereby notified that the taxes and assessments thereon severally assessed for the years hereinafter specified, according to the lists committed by the assessors of taxes of said City to me as collector of taxes for said City, including assessments for the suppression of gypsy and brown-tail moths, remain unpaid, and that the smallest undivided part of said land sufficient to satisfy said taxes and assessments, with interest and all legal costs and charges, or the whole of said land if no person offers to take an undivided part thereof, will be offered for sale by public auction at the City Collector's office, room numbered eleven, in the basement of City Hall, in said City of Boston, on Wednesday, September 2, A. D. 1914, at 9.30 o'clock a. m., for the payment of said taxes and assessments with interest, costs and charges thereon, unless the same shall be previously discharged.

The sums set against the following descriptions of the several parcels of land show the amounts due thereon respectively for the taxes and assessments for the nonpayment of which each of said parcels of land is to be sold, but not including the costs and interests thereon and costs and charges incident to this sale:

JOHN J. CURLEY,
Collector of Taxes for the City of Boston.

CITY OF BOSTON.

CITY COLLECTOR'S NOTICE.

SALE OF REAL ESTATE FOR UNPAID EDGESTONE AND SIDEWALK ASSESSMENTS.

The owners and occupants of each of the parcels of real estate hereinafter described, situated in the City of Boston, in the County of Suffolk and Commonwealth of Massachusetts, and the public are hereby notified that the assessments made by the Board of Aldermen of said city prior to February 7, A. D. 1910, or the assessments made by the City Council of said city since the first Monday in February, A. D. 1910, on each of said parcels, respectively, for the benefit and advantage received by the parcel by the construction of an edgestone and sidewalk according to the list committed to me as Collector of Taxes of said city by said Board, or by said City Council, respectively, remain unpaid and that the smallest undivided part of each parcel sufficient to satisfy said assessments thereon with interest and all legal costs and charges, or the whole of the parcel if no person offers to take an undivided part thereof, will be offered for sale at public auction at the City Collector's office, room numbered eleven, in the basement of City Hall, in said City of Boston, on Wednesday, September 2, A. D. 1914, at 9.30 o'clock a. m., for the payment of said assessment and the costs and charges thereon unless the same be paid prior to the sale.

The sums set against the following descriptions of the several estates show the amounts due thereon respectively for the assessments for the nonpayment of which each of said estates is to be sold, but not including the costs and interests thereon, and costs and charges incident to this sale.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for sewerage works in Huntington Avenue and Riverway, between Brookline town line and a point 750 feet northeast of Huntington Avenue, Roxbury, and giving bond therefor of a surety company approved by the commissioner in the sum of twelve hundred (1,200) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposals for Sewerage Works, Huntington Avenue, etc.," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Monday, August 24, 1914, with a certified check for five hundred (500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,

Commissioner of Public Works.

Boston, August 13, 1914. (Aug. 15.)

CITY OF BOSTON.**PROPOSALS FOR PIPE SEWERS AND DRAINS IN LONG AVENUE, BRIGHTON.**

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for pipe sewers and drains in Long Avenue, between Commonwealth Avenue and Allston Street, Brighton, and giving bond therefor of a surety company approved by the commissioner in the sum of three hundred (300) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Pipe Sewers, Long Avenue," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Thursday, August 20, 1914, with a certified check for two hundred (200) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,

Commissioner of Public Works.

Boston, August 13, 1914. (Aug. 15.)

CITY OF BOSTON.**PROPOSALS FOR PIPE SEWERS AND DRAINS IN JEWETT AND FOLSOM STREETS AND OUTLETS, WEST ROXBURY.**

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for pipe sewers and drains in Jewett and Folsom streets and outlets in Mt. Hope street and Neponset Avenue, West Roxbury, and giving bond therefor of a surety company approved by the commissioner in the sum of two thousand (2,000) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Pipe Sewers, Jewett and Folsom Streets," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Tuesday, August 25, 1914, with a certified check for eight hundred (800) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. A deposit of ten (10) dollars will be required for each set of drawings and specifications taken for estimating purposes. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,

Commissioner of Public Works.

Boston, August 13, 1914. (Aug. 15.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

NOTICE TO CABLE MANUFACTURERS.

Proposals are invited for furnishing to the Fire Alarm Branch of the Fire Department of the City of Boston rubber insulated, lead covered, cable, comprising about:

1,000 feet of 37 conductor,
15,800 feet of 20 conductor,
10,000 feet of 10 conductor,
1,500 feet of 6 conductor,
3,100 feet of 4 conductor,

the same to be made in accordance with specifications which may be obtained at the office of the Superintendent of Fire Alarms, Fire Department Headquarters, Bristol street, Boston. Proposals will be received at the office of the Fire Commissioner, Bristol street, until 12 m., August 26, 1914, and at that time and place will be publicly opened and read. Proposals must be sealed and marked "Proposals for Fire Department Cable," and made in duplicate, one to be deposited with the City Auditor at City Hall, previous to the time stated for the opening of the bids, and the other, containing a certified check for the sum of two hundred and fifty (250) dollars, made payable to the City of Boston, and to be forfeited if the accepted proposal is not carried out, to be deposited at the office of the Fire Commissioner. A bond will be required for the faithful performance of the contract in the sum of twenty-five hundred (2,500) dollars, of an approved surety company doing business in the state of Massachusetts. The Fire Commissioner reserves the right to reject any or all bids or to award the contract as he deems best.

JOHN GRADY,
Fire Commissioner.

Boston, August 6, 1914. (Aug. 15.)

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

NOTICE.

The Board of Street Commissioners in accordance with chapter 393 of the Acts of 1906 have passed orders for the laying out and construction of the following highways:

SOUTH BOSTON.

East First street, from H street to West First street.

EAST BOSTON.

Frankfort street, from Neptune road to Bennington street.

BRIGHTON.

Long avenue, from Commonwealth avenue to Allston street.

WEST ROXBURY.

Barbara street, from Centre street to South Huntington avenue.

Chapin avenue, from Mt. Vernon street to Preston street.

Edgemont street, from South street to Ainsworth street.

Houston street, from Crest street to Montview street.

Jewett street, from Neponset avenue to Mt. Hope street.

Kittredge street, from Norfolk street (now Roscliff street) to Metropolitan avenue.

Roscliff street, from Washington street to Kittredge street.

DORCHESTER.

Trescott street, from Pleasant street to Bakersfield street.

Washington street, from Armandine street to Mora street.

CITY PROPER.

Boylston street, on the northerly side easterly from Arlington street.

Notice is hereby given that the Public Works Department is about to do the work contemplated in said orders, and that all work to be done in said highways by all persons or corporations having rights in the same to lay or repair either sewer, gas, water or other pipes must be done before Saturday, September 19, 1914, as after that time no permits for openings will be granted until two years after said highways are completed.

L. K. ROURKE,
Commissioner of Public Works.
Boston, August 13, 1914.
(Aug. 15-22-29, Sept. 5.)

CITY OF BOSTON.

IN BOARD OF STREET COMMISSIONERS OF THE CITY OF BOSTON.

August 13, 1914.

Ordered, That due notice be given that this Board is of the opinion that public necessity and convenience require that there should be a taking of land for schoolhouse purposes on Ceylon street, Dorchester, substantially as shown on a plan in the office of this Board, that it intends to pass an order for making said taking, and that it appoints 11 o'clock a. m. of August 31, 1914, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest: J. J. O'CALLAGHAN,
(Aug. 15.) Secretary.

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWERS AND DRAINS IN STATION STREET, ROXBURY.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 6.

SATURDAY, AUGUST 22, 1914.

No. 34

City of Boston.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

By Subscription \$1.00 Per Year.
Single Copies 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 25, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS at 6 Beacon street, Room 725, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, August 24, at 3 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

LICENSING OF ELEVATOR OPERATORS.

Applications for licenses to operate passenger elevators, as required by recently enacted statute, may be obtained at the office of the Building Department, City Hall Annex.

NAVY CONTRACT AT NEWPORT.

The attention of Boston contractors is called to the fact that sealed proposals will now be received for corrugating siding and roofing for additions to the boathouse of the Newport Naval Training Station, Newport, Rhode Island. For blank forms and specifications, address Commandant, Naval Training Station, Newport, Rhode Island.

Let the armies of construction go forward. As the bugle call of the armies of destruction resounds through the cities of Europe let the call of a higher patriotism be heard in the cities of America. Let us build up rather than destroy. Let us have vision to see beyond the clouds of the present into a future which nothing but our own blindness can obscure. In the hardships to American industry resulting from a great European conflict, let our cities act as the nation's balance wheels. If unemployment threaten, let not public improvements halt. The credit of our municipalities is sound. It is wiser to build roads than to open soup kitchens, and real patriotism prefers the laying of water mains for the living to the digging of graves for the dead. Let the armies of construction go forward.

—The American City.

BIDS FOR NAVAL SUPPLIES.

The present activity in Army and Navy circles has resulted in the opening of bids for many supplies. The attention of Boston merchants is particularly called to these bids. The Navy Department invites proposals for furnishing the following supplies:

Bids will be received until August 25 for furnishing the following materials: Schedule 7096, composition bells for motor boats, sheathing nails, wire rope, screw shackles, cotton sheeting, wrought-iron spikes, brass voice tubing; schedule 7087, burlap, galvanized wrought-iron chain, green baize cloth, hinges, glass skylight lights, crash toweling, paint drier; schedule 7109, candles; schedule 7099; inclosed fuses, copper pipe, cold-rolled steel, engineers' wrenches, glycerin, lard oil; schedule, 7088, pig iron; schedule 7081, motors; schedule 7106, steel-head shells; schedule 7086, bathtubs, lavatories, water-closets, showers, urinals; schedule 7082, windlass; schedule 7107, air hose for diving apparatus, cotton hose, garden hose, suction hose, wash-deck hose; schedule 7108, copper hose, rubber hose; schedule 7098, Douglas fir, lignum-vitæ, sugar pine, white pine, redwood; schedule 7097, powdered aluminum for bronzing, dry yellow ochre, putty, venetian red, vermilion.

Bids will be received until August 25 for furnishing the following materials: Schedule 7127, boat anchors, brass squirt cans, wire-screen cloth, black wrought pipe; schedule 7131, fire brick, fire clay, battery deck covers; schedule 7123, brass chain, angle and globe valves, seamless brass pipes, boiler tubes, copper tubing; schedule 7132, chinaware, knives and forks; schedule 7118, grate bar fingers for Roney stokers, black cannon and shell powder, thermometers, naval brass rod, bronze rod, prime lard oil; schedule 7124, stay binding, white bone buttons, linen floss, white cotton thread, silk laces, linen thread, white cotton sail thread, cotton

twine; schedule 7119, storage batteries, switchboard or contactor panels; schedule 7112, automatic controlling equipments for operation of engine-room ventilation sets; schedule 7122, telephone switchboard, commercial telephones; schedule 7134, snap switches, cable terminals; schedule 7129, cypress for boat building, white oak, white pine; schedule 7133, sheet piles, yellow-pine piles, North Carolina pine; schedule 7135, reclaiming of scrap metals; schedule 7128, alcohol, yellow ochre, amber-colored mineral oil, whale oil; schedule 7110, sodium nitrate; schedule 7136, tinned lima beans, tinned corned beef, tinned corn, tinned tomatoes.

Bids will be received until August 25 for furnishing the following supplies: Schedule 7154, track bolts and spikes, rigid frogs, split switches, steel rails, cross-ties, switch timbers; schedule 7155, sanitary bubbling fountains, white ash, white oak, yellow pine, southern spruce; schedule 7152, calfskin heads for tenor drums; schedule 7156, strap hinges, phosphor-bronze wire; schedule 7157, rubber packing, Monel metal bars; schedule 7153, wrought-iron pipe, wire spikes, round steel bars; schedule 7158, composition tubes, rolled naval brass, brass tube sheets and supporting plates; schedule 7151, medium bar steel, steel rod.

Tenders will be received until August 25 for evaporated apples, tinned apricots, lima beans, string beans, corned beef, tinned corn, lemon extract, vanilla extract, macaroni, evaporated peaches, tinned peaches, tinned pears, split peas, tinned prunes, tinned salmon, sirup, tea, tinned tomatoes, schedule 7069.

Bids will be received until September 1 for furnishing the following supplies: Schedule 7114, asphalt for use in repairing roads; schedule 7140, white ash, white oak; schedule 7125, night binoculars, deck clocks; schedule 7116, brass bolts and nuts, steel bolts and nuts, stud bolts; schedule 7139, rubber ferrules for chairs, galvanized sheet steel, porcelain tiles, pig tin; schedule 7138, high shoes.

Bids will be received until September 1 for the following materials: Schedule 7172, automobile ambulance; schedule 7163, scrubbing brushes, self-closing bibb cocks, handles for deck scrubbing brushes, steam-jacketed kettles, hydraulic leather; schedule 7143, fire extinguishers; schedule 7166, composition pipe fittings, water-tight portables, fire sand, composition unions, brass nuts; schedule 7175, grinding machine; schedule 7173, Roentgen-ray machine; schedule 7177, nainsook; schedule 7176, hand planer and jointer; schedule 7167, cotton canvas; schedule 7161, chopping axes, bits, gimlets, calipers, glass cutters, wire cloth, screw eyes, copper tacks, nails, brads, hinges, drawer locks, mortise locks, Arkansas oilstones, padlocks, measuring tapes; schedule 7168, galvanized iron or steel buckets; schedule 7159, oak crossing plank; schedule 7164, domestic oak, white pine, spruce; schedule 7174, steel armor plates; schedule 7165, open-hearth steel, steel plates; schedule 7160, metallic brown in oil, chrome green in oil, aluminum paint, tallow, artificial vermilion in oil. Tenders are invited until September 8 for the following supplies: Schedule 7178, track bolts, bolted frogs, rails, cross-ties, steel ties; schedule 7147, western bituminous coal; schedule 7171, copper, prismatic reflectors, brass pipe, boiler tubes, steel tubes; schedule 7170, Douglas fir; schedule 7150, water meters, angle valves, hose gate valves, elbows, flanges, tees, wrought-iron pipe; schedule 7148, oxygen in tanks; schedule 7169, drawer pulls,

white gum shellac; schedule 7149, pipe fittings, lap-welded steel tubing.

Boston firms desiring to bid should make immediate application to the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., and give the schedule number of all bids for information desired, as printed above.

MAYOR CURLEY'S TRIBUTE TO POPE PIUS X.

In speaking of the death of Pope Pius X., Mayor Curley declared upon the evening of the 19th instant:

"With a beautiful exhortation to the Catholic clergy and laity of the world to pray most earnestly for peace, Pius X., the vicar of Christ, has passed away.

"The history of mankind records no sweeter or more touching story than the last message of the Pope, praying the world for peace, in this frightful day of the lust of war, and the last words of the Pontiff ring out as a clarion call to the nations for armistice.

"Dying, the last thought of Pius X. is for the welfare of his brother man. The anguish of the pain-racked hours preceding dissolution are dismissed in the one last appeal to Christ, the Prince of Peace, that war shall cease.

"The world recognizes the passing of this great Christian exemplar as one of the most worthy who has filled the See of Peter. Pius X. came to the Papal throne at a time of great unrest in Europe, and he lived and labored for God and His Church in so eminent a manner that today the number of communicants of the Catholic faith is larger than the combined membership of all churches of the world.

"Pope Pius brought especially to American Catholics an unspeakable love and veneration for Holy Church. He personally met thousands of American pilgrims in the halls of the Vatican and his gentle message was ever the same—an earnest appeal for deep and abiding faith, filial piety and loyal obedience to Mother Church.

"Requiescat in pace."

"Well may it be said of Pius X., as he himself so beautifully said at the death of his great predecessor, Leo XIII.:

"He has left nothing undone that he could do to strengthen the faithful in their faith, and to lead back the erring ones to the path of truth and justice. To lead men from the thousand abysses of error to the way of right and truth; to unite the world, which is sadly out of joint owing to the false idols it has been adoring; to lead back the nations and governments to the eternal foundations of Divine law, by pointing out to them that the source of order, civilization and social prosperity is to be found in Christianity alone—that is the task to which from the outset of his pontificate he devoted his brilliant mind and his strong character. As a result of his labors the church and the nations and the family behold their rights clearly defined and in part firmly established; literature and the sciences have been promoted; property safeguarded against the onslaughts of socialism, and the duties and the rights of the individual and of society in general clearly explained.

"This great work he has accomplished in spite of the opposition of contending parties, and undismayed by failure and treachery. This is the work for which the learned admire his wisdom, the diplomats his skill, the bishops his courage, the faithful his piety and zeal, and which leads even his opponents to acknowledge and admire the light which emanates from the Vatican."

HIGH PRESSURE FIRE SERVICE.

By LOUIS K. ROURKE, *Commissioner of Public Works.*

The City of Boston was one of the first cities in the United States to build a separate pipe line for fire protection purposes, about one mile of such pipe having been laid in 1898, to be supplied with salt water by fireboats. That this line has not since been extended is due to the fact that the city's water supply is entirely adequate for fire protection purposes.

On August 9, 1910, forty-one engines were engaged at a general alarm fire at Dover and Albany streets, while at the same time sixteen engines were engaged on High street at a second-alarm fire. Fifteen out-of-town engines rendered aid. In this situation it was evident that the protection of the city as a whole, as well as of adjoining municipalities, was seriously weakened. It was evident, too, that steps should be taken to guard against the dangerous possibilities of a like situation in future. After full consideration the installation of a high pressure fire service system was adopted as the best and most feasible solution of the problem, in that it furnishes the most reliable form of protection to the high-value district, since it can deliver more water at high pressure than all the steam fire engines now in service in the city operated at the same time.

The construction of such a system became assured when chapter 312, Acts of 1911, was accepted by the Mayor and City Council. This act authorized the Commissioner of Public Works to prepare plans and proceed with the construction of a high pressure fire service system, and provided for defraying the expense of such an installation. Upon the passage of an appropriation order by the City Council, and its approval by the Mayor, July 1, 1911, an engineering corps was organized as the "High Pressure Fire Service" branch of the Water Service, and a consulting engineer for the pumping station equipment was retained.

The area which it is proposed to protect by the system contains about 550 acres, comprising the entire 335 acres which the underwriters term the congested value district, and adjacent territory, through which it is necessary to lay pipe to serve the high-value area. For the protection of a district of this character the capacity of the system should be such that 20,000 gallons of water per minute can be delivered about any block and 10,000 gallons of water per minute on any single building, and the system has been designed to meet this requirement.

Motor-driven centrifugal pumps have been selected as the most reliable and economic type of equipment to install. Electrical energy will be supplied, over duplicate power circuits, from the power plants of the Edison Electric Illuminating Company and the Boston Elevated Railway Company. Each pump will be capable of delivering 3,000 gallons per minute at a pressure of 300 pounds per square inch, and will be so arranged as to be operated by either of two motors, fed each from a separate and independent power plant. Separate fireproof rooms, containing the high voltage electrical apparatus, will be located in the rear of a switch board, from which the pumps and motor-operated valves will be controlled. Fire alarms and orders from the Fire Department will be received over a fire alarm circuit and a separate signal system which is to be installed. Telephone service, over duplicate lines, will also be provided by the telephone company.

A duplex distribution system, composed of two independent pipe systems, with their mains on alternate streets, has been designed, thus insuring continuity of water supply in case of the failure of a main in either leg of the system. Cast iron has been selected as the best material for the distribution pipes. About thirteen miles of pipe, from 12 to 20 inches in diameter, will be required to build the system.

The mains will be so equipped with gate valves that a break in a pipe will necessitate putting not more than three hydrants out of service. The general design of the valves was made by the department. Each valve will be set in a manhole large enough to permit of easy access for maintenance and repairs.

The hydrant adopted was also designed by the department. It is simple in design, reliable and efficient, with a capacity of 2,000 gallons per minute, which is equivalent to that of three fire engines. The hydrants will be set on a gated branch, thus providing for cutting out the hydrant without affecting flow in the mains. About 450 hydrants will be required within the area covered by the system, or about one hydrant for each 40,000 square feet, which will enable the capacity of the system to be concentrated where needed through hose lines of moderate length.

The congestion of underground structures in the narrow streets makes the laying of the high pressure pipe very difficult. To enable the work to be done to the best advantage and at minimum expense plans have been made, based on a transit survey, showing all existing structures, and thus enabling the selection of the most feasible locations.

The high pressure fire service system will enable a large number of powerful streams to be concentrated on a fire in a shorter time than with fire engines, and with much less men and apparatus. This will, in turn, enable the protection of the remainder of the city to be maintained during the progress of a large fire in the district covered by the system, in addition to providing ample protection to the highest values in the city during the progress of a possible conflagration in the congested frame residential districts.

THE CENTURY PLANT.

By CAPT. JOHN H. DILLON, *Chairman of the Park and Recreation Department.*

The agave, or American aloe, commonly called the century plant, is a native of North America, and was introduced into Europe about the year 1561. It is a well known plant and many fine specimens may be seen in the Public Garden. It was called the century plant, that is, flowering once in a hundred years, through popular error. In cold climates, and with only ordinary culture, there are certainly long intervals between the times of its flowering, but with plenty of heat and good culture they are forced into maturity. In flowering it throws up a large stem from the center, upon which are many blossoms. When the flowering stem is almost ready to burst forth it yields a goodly supply of sap, which fermented gives that famous Mexican drink called "pulque." In its early stage of fermentation it is quite a pleasing beverage, but the Mexicans, by distilling it, produce a very strong intoxicating liquor, called by them "aquardiente" or "mescal." The leaves are put to many uses, the juice for making a kind of soap and the fibers of the leaf are spun into a strong, useful thread.

While it is called American aloe it does not belong to the aloe family, but to the amaryllis family. It can be used by the horticulturist in bedding, collectively or singly, as specimens, and when planted either way, if the plants are well grown, is a striking feature of one's garden, and worthy of the name botanically bestowed upon it, "agave," from a Greek word meaning "noble."

PUBLIC HEARING.

The Directors of the Port of Boston announce a public hearing upon the application of Commissioner of Public Works Rourke, in behalf of the City of Boston, for license to reconstruct and extend a portion of the fender piers of Broadway Bridge, over Fort Point channel, at the office of the directors, Marshall Building, 40 Central street, Boston, upon Thursday, August 27, at 10 a. m.

ADMINISTRATION ADOPTS MAYOR CURLEY'S PLAN.

Mayor Curley expressed keen satisfaction, on Thursday, in the determination of the administration leaders in Washington to carry out the desire of the President in the immediate appropriation of millions to provide for the carrying of our exports in American ships. Mayor Curley said:

"Upon August 3 I addressed a letter to the President, declaring the advisability of a formal recommendation to Congress for the appropriation of \$50,000,000 for the purchase by the American Government of fifty transatlantic and transpacific steamships, to be apportioned among the leading commercial cities of the Atlantic and Pacific seaboard.

"The unanimity of sentiment expressed by Senator Clark, chairman of the Senate Committee on Commerce; Judge Alexander, chairman of the House Committee on Merchant Marine and Fisheries; Senator Simmons, chairman of the Senate Finance Committee; Congressman Underwood, chairman of the House Committee on Ways and Means, and Secretary of the Treasury McAdoo, is not only very gratifying, but indicates a united and harmonious action in the enlargement of our American merchant marine, and which will prove the most important step taken in this direction during the last generation.

"But the full measure of relief to our shipping interests is even yet not fully accomplished.

"I believe heartily that the proposed measure now under consideration by the administration leaders for the purchase of ships should be immediately amended by making the amount of the appropriation \$50,000,000, and that further provision should be made that of this amount \$25,000,000 should be devoted to the purchase of ships to be placed under American registry, and that by reason of the present industrial depression occasioned by the great war in Europe, \$25,000,000 should be expended for the construction of ships in American shipyards, and I have accordingly addressed a strong letter to President Wilson embodying this suggestion, and which meets the hearty approval of Boston shipping interests."

APPOINTMENT OF ARCHITECT.

The trustees of the Boston Infirmary Department have, with the approval of his Honor the Mayor, appointed Joseph McGinnis architect of the proposed new buildings at Long Island.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

BOSTON TRANSIT COMMISSION.

Advertisers for proposals for furnishing labor and materials required for bronze and other metal work for the two entrances to the Dartmouth street lobby, Copley Station, Boylston Street Subway. Specifications and forms of contract may be obtained at the office of Fox & Gale, architects, 3 Park street, Boston. Bids to be filed at the office of the Boston Transit Commission, 15 Beacon street, Boston.

Bids close Wednesday, September 2, at 12 m.

FIRE DEPARTMENT.

Advertisers for proposals for furnishing the Fire Alarm Branch of the Fire Department rubber insulated, lead-covered cable, comprising about:

- 1,000 feet of 37 conductor.
- 15,800 feet of 20 conductor.
- 10,000 feet of 10 conductor.
- 1,500 feet of 6 conductor.
- 3,100 feet of 4 conductor.

Surety bond will be required in the amount of \$2,500. Blank forms for proposals may be obtained at the office of the Superintendent of Fire Alarms, Fire Department Headquarters, Bristol street, Boston. Bids, accompanied by a certified check in the amount of \$250, to be filed with Fire Commissioner Grady, Bristol street, Boston. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, August 26, at 12 m.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Advertisers for proposals for sewerage works in Huntington avenue and Riverway, between Brookline town line and a point 750 feet northeast of Huntington avenue, Roxbury. Surety bond will be required in the amount of \$1,200. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, August 24, at 12 m.

Advertisers for proposals for pipe sewers and drains in Station street, between Columbus avenue and Parker street, Roxbury. Surety bond will be required in the amount of \$1,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$400, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, August 24, at 12 m.

Advertisers for proposals for pipe sewers and drains in Jewett and Folsom streets, and outlets in Mt. Hope street and Neponset avenue, West Roxbury. Surety bond will be required in the amount of \$2,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$800, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, August 25, at 12 m.

Advertisers for proposals for sewerage work in Barbara, Edgemont and Houston

streets, and outlet in Montview, Rosecliff and Kittredge streets, and outlet in Whitford street and Clarendon and Hillside avenues, West Roxbury. Surety bond will be required in the amount of \$4,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$1,200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, August 25, at 12 m.

Advertises for proposals for pipe sewer and drains in Waterford street, between Washington street and a point about 167 feet northwesterly, city proper. Surety bond will be required in the amount of \$700. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, August 31, at 12 m.

Advertises for proposals for pipe sewer and drains in Hunter street, between Norfolk and Morton streets, Dorchester. Surety bond will be required in the amount of \$1,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$400, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, September 2, at 12 m.

Advertises for proposals for pipe sewer and appurtenances in Milton street, from Hyde Park avenue 1,879 feet southeasterly, and Hamilton street, between Milton street and Trotting Park, Hyde Park district. CONTRACT FOR SIDEWALKS.

Upon August 19 the Mayor approved a contract with Holt, Fairchild Company, Boston, for the construction of artificial stone sidewalks. The contractor is not selected by the city, but by the abutters, and the expense of construction is divided by the city and the abutters.

STREET COMMISSIONERS.

The Mayor has approved the order of the Board of Street Commissioners in the taking of land for sewerage works in Dunbar street, West Roxbury.

The first parcel of land contains 2,574 square feet, more or less, and is supposed to be the property of the Aaron D. Weld Land Trust.

The second parcel of land contains 3 square feet, more or less, and is supposed to be the property of Eleanor S. Wentworth.

The third parcel of land contains 1,715 square feet, more or less, and is supposed to be the property of the heirs of Charles F. Kittredge.

The fourth parcel of land contains 1,158 square feet, more or less, and is supposed to be the property of owners unknown.

The fifth parcel of land contains 2,740 square feet, more or less, and is supposed to be the property of the Aaron D. Weld Land Trust.

The sixth parcel of land contains 363 square feet, more or less, and is supposed to be the property of the heirs of Charles F. Kittredge.

The seventh parcel of land contains 3,019 square feet, more or less, and is supposed to be the property of the Aaron D. Weld Land Trust.

The eighth parcel of land contains 2,452 square feet, more or less, and is supposed to be the property of the heirs of Charles F. Kittredge.

The ninth parcel of land contains 3,582 square feet, more or less, and is supposed to be the property of owners unknown.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

PUBLIC WORKS DEPARTMENT.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force, without advertising for competitive bids:

Resurface with tar macadam Dix street, from Dorchester avenue to Adams street, Dorchester. The estimated cost for labor and materials is \$2,125.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by his Honor the Mayor:

PUBLIC WORKS DEPARTMENT (Sewer Service).

An addition, amounting to \$155, on contract with Charles M. Callahan for sewerage works in Leonard street and Dorchester avenue, from end of old sewer to Charles street, Dorchester, on account of extra labor relaying about 20 feet of 10-inch pipe sewer, and delay on account of resetting grades. Original contract, \$991.20; total addition, \$155; contract as standing, \$1,146.20.

Addition, amounting to \$1,152.21, on contract with Antony Cefalo for sewerage

The sewerage works to be constructed are as follows: About 597 linear feet of 12-inch sanitary sewer; about 1,054 linear feet of 12-inch pipe sanitary sewer; about 318 linear feet of 18 and 24 inch pipe surface drain, and about 375 linear feet of 18-inch pipe surface drain.

The Board determines that no person sustains damages in his estate by the taking for and construction of the sewerage works and awards no damages therefor.

The Mayor has approved the order of the Board of Street Commissioners in the taking of land for sewerage works in the Neponset avenue branch of Stony brook, West Roxbury.

The first parcel of land contains 4,141 square feet, more or less, and is supposed to be the property of the heirs of Ann E. Merrill and Letitia B. Merrill.

The second parcel of land contains 198 square feet, more or less, and is supposed to be the property of the Boston & Providence Railroad Corporation.

The third parcel of land contains 289 square feet, more or less, and is supposed to be the property of James H. Clinton.

The sewerage works to be constructed are as follows: About 530 linear feet of 10-inch pipe sanitary sewer; about 316 linear feet concrete surface drain, 2 feet and 6 inches in diameter; about 220 linear feet of 24-inch pipe surface drain.

The Board determines that no person sustains damages in his estate by the taking for and construction of the sewerage works and awards no damages therefor.

The Mayor has approved the order of the Board of Street Commissioners in the taking of land for sewerage works in East Cottage street, Dorchester.

The first parcel of land contains 1,955 square feet, more or less, and is supposed to be the property of the Grocers' Baking Company.

The second parcel of land contains 420 square feet, more or less, and is supposed to be the property of owners unknown.

The sewerage works to be constructed are as follows: A 10-inch pipe sanitary sewer in the above described premises.

The Board determines that no person sustains damage in his estate by the taking for and construction of the sewerage works and awards no damages therefor.

REJECTION OF CLAIMS.

The Hon. John A. Sullivan, Corporation Counsel, states that the following claims have been rejected by the Law Department:

Twenty-one old claims against the city, aggregating \$1,811.56 in amount.

Of these claims, \$270.25 in amount were against the Fire Department; \$1,305.31 against the Public Works Department; \$188 against the Penal Institutions Department; \$42 against the Public Buildings Department, and \$6 against the Police Department.

These claims were rejected on the ground that there was no legal liability against the city.

The Law Department on August 17, 1914, also disapproved two claims further against the Fire Department of the City of Boston, aggregating \$63.

These claims were also rejected on the ground that there was no legal liability against the city.

PERMISSION TO SELL HORSES.

Permission has been granted Fire Commissioner Grady to sell old horses to an amount not exceeding five hundred dollars, the same to be in part payment for new horses.

CLAIMS.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Mary C. Sullivan, in the amount of \$4,000, for damages occasioned her estate by the taking of land for addition to the Savin Hill Playground, Dorchester, and in confirmation of the order of the Board of Street Commissioners.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of George B. Elliot, in the amount of \$7,500, for damages occasioned his estate in Parker street, Roxbury, by the taking of the same for schoolhouse purposes, and in confirmation of the order of the Board of Street Commissioners.

FIRE DEPARTMENT ORDERS.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, August 17, 1914.

General Orders No. 115.

I. CHANGES IN FIRE ALARM BOX NUMBERS.

1. The following changes in fire alarm box numbers are hereby ordered to become effective on and after twelve o'clock noon (the striking of the meridian blow on the gongs in the houses) on Wednesday, August 19, 1914:

LOCATION.	Present Number.	New Number.
Atlantic avenue and Long Wharf.....	38	1257
Water and Congress streets.....	40	1282
Milk and Oliver streets.....	46	1283
Franklin and Pearl streets.....	753	1284
India and Central streets.....	37	1286
Atlantic avenue and Pearl street....	51	1292
Dewey square, front South Station...	48	1412
South Station, Summer street entrance,	755	1413
South Station, express building, near Beach street.....	758	1414
South Station, power house, Dorchester avenue.....	759	1415
High street and High-street place....	44	1422
Federal and Franklin streets.....	45	1423
John Hancock Building, Devonshire street.....	748	1424
Winthrop square.....	747	1425

2. Changes on circuit cards will be made to conform to the new numbers.

3. These changes will be made in the small fire alarm books.

4. Old assignment cards will be returned to these headquarters not later than Saturday, August 22, 1914. Company commanders will mark the company number on the back of each card.

5. This order will be posted at the patrol desk for five days.

II. COMMENDATION.

1. Ladderman Stephen J. Ryder, Jr., of Ladder Company 17, is hereby commended for assisting Engine Company 43 at a still alarm, 11 Carpenter street, August 10, 1914, while on a day off.

By order of the Fire Commissioner,

CHARLES H. W. POPE,
Acting Chief of Department.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, August 20, 1914.

General Orders No. 116.

I. CHANGES IN FIRE ALARM BOX NUMBERS.

1. The following changes in fire alarm box numbers are hereby ordered to become effective on and after 12 o'clock noon (the striking of the meridian blow on the gongs in the houses) on Monday, August 24, 1914:

LOCATION.	Present Number.	New Number.
Summer and Lincoln streets.....	52	1431
Essex and Kingston streets.....	50	1432
Beach and Oxford streets.....	54	1433
East and South streets.....	59	1434
Kneeland and South streets.....	56	1435
Tremont and Winter streets.....	42	1441
Orpheum Theater.....	742	1442
Summer street, opposite Hawley street.....	49	1443
Filene Building.....	749	1445
A. Shuman, Washington and Summer streets.....	728	1446
Jordan Marsh Company.....	746	1447
Tremont street, opposite Mason street.....	39	1451
Boston Theater.....	741	1453
Keith's New Theater.....	735	1454
Clark's Hotel, Washington street...	744	1455
Tremont Theater.....	733	1452

2. Changes on circuit cards will be made to conform to the new numbers.

3. Those changes will be made in the small fire alarm books.

4. Old assignment cards will be returned to these headquarters not later than Thursday, August 27, 1914. Company commanders will mark the company number on the back of each card.

5. This order will be posted at the patrol desk for five days.

By order of the Fire Commissioner,

JOHN O. TABER,
Acting Chief of Department.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, August 20, 1914.

General Orders No. 118.

I. CHANGES IN BOX ASSIGNMENTS.

1. The following changes in assignments are hereby ordered to become effective on and after 12 o'clock noon (the striking of the meridian blow on the gongs in the houses) on Monday, August 24, 1914:

2. Boxes 1262, 1263, 1264, 1265, 1271, 1272 and 1275.—Response and covering for engine companies only will be the same as for box 1266. Response and covering for ladder, chemical and tower companies will remain unchanged.

3. Boxes 1273 and 1274.—Response and covering for engine companies only will be the same as for box 1442. Response and covering for ladder, chemical and tower companies will remain unchanged.

4. All boxes in the Brighton district, except boxes 838, 841, 842.—Response and covering for engine companies only will be the same as for box 801. Response

and covering for ladder, chemical companies will remain unchanged. The response and covering assignments for boxes 838, 841 and 842 will remain unchanged.

5. Box 1411.—Add Chemical 1 on first alarm.

Add Chemical 2 on second alarm.

6. Box 257.—Drop Engine 12 on first alarm; add on second alarm.

Drop Engine 42 on second alarm; add on first alarm.

7. Company commanders will make these changes on assignment cards.

By order of the Fire Commissioner,

JOHN O. TABER,
Acting Chief of Department.

MAYOR CURLEY'S FIRE HAZARD MESSAGE.

The Mayor, upon the 18th instant, addressed the following communication to the members of the City Council relative to the repeal of the act extending the building limits within the City of Boston:

August 18, 1914.

To the City Council:

I return herewith, without my approval, the order passed by your honorable body on August 10 which provides for the repeal of the act extending the building limits within the City of Boston.

It is unfortunate that a large element of the community, and an extremely active one, opposes every proposition for the good of the entire people, simply because Providence has been sufficiently kind to refrain from accepting the invitation to enter and destroy.

The fact that Boston has never experienced a destructive fire in the section to-day covered with inflammable structures is not good ground for the assumption that it is to be permitted to escape in perpetuity. In my opinion it is absolutely imperative that no backward steps be taken in the matter of reducing the unwarranted per capita now borne by the entire people for the benefit of real estate speculators and misguided altruists, who neither own nor live in three-apartment wooden houses.

The recent removal of the Board of Appeal for failure to comply with statutes and ordinances enacted for the protection of life and limb and the preservation of public health was, in my opinion, as necessary a step as the veto of the pending legislation.

The fire losses of Boston last year represented a total in excess of four millions of dollars; the cost of maintaining the Fire Department, a total of two millions of dollars; the installation of the high pressure service approximately two millions of dollars; the enlargement of water mains throughout the city, primarily for added fire protection, and the maintenance of the same, two million dollars, or a total tax for protection from fire in excess of \$14 upon every man, woman and child in the entire City of Boston, which, through the enactment of proper laws, might well be reduced more than one-half.

The splendid constructive work at present being undertaken of replacing small water mains with larger ones, installing a high pressure water service, motorizing the Fire Department and insisting in every case that the building laws be honestly complied with will prove of little value without an extension of the building laws and other necessary legislation which necessity demands and the future requires.

Respectfully,
JAMES M. CURLEY, Mayor.

STATEMENT OF COMMERCE.

The statement showing commerce of district of Massachusetts compares:

	1914.	1913.	Increase.	Decrease.
July imports.....	\$14,886,723	\$8,101,008	\$6,785,715	
Exports.....	5,047,050	5,744,442		\$697,392
Eight months' imports.....	114,334,911	82,346,348	31,998,563	
Exports.....	36,329,125	41,246,187		4,897,062

THE SUNDAY CONCERTS.

Capt. John H. Dillon, chairman of the Park and Recreation Department, announces the following concerts for Sunday, August 23, as follows:

MARINE PARK, 3.30 P. M. TO 5.30 P. M.

Bates' Band.

Program.

1. March. "University of Maine." Crosby
2. Overture. "Light Cavalry." Suppe
3. Concert Waltz. "Golden Sunset." Hall
4. Selection. "Broken Idol." Van Alstyne
5. Piccolo Solo. Selected.
6. a. Idyl. "The Glow Worm." Lincke
b. Serenade. "Anina." Lincke
7. Medley. Operatic Airs. Halle
8. Hesitation Waltz. "First Love." Holzmann
9. March. "Heroes of Luzon." Duble
10. American Selection. "Songs of the Nation." Lampe

"Star Spangled Banner."

FRANKLIN PARK, 3.30 P. M. TO 5.30 P. M.

Stone's Military Band.

Program.

1. March. "The Front Section." Reeves
2. Overture. "William Tell." Rossini
3. "A Group of Popular Songs." Remick
4. Concert Waltz. "Wiener Blut." Strauss
5. Operatic Selection. "The Firefly." Friml
6. Fantasia. "A Day With the Hunters." Bacolosi
7. Request Numbers:
a. "Schubert's Serenade."
b. "Second Connecticut March."
8. "Potpourri of Irish Melodies." De Witt
9. "Grand American Medley." Losey

BOSTON COMMON, 3.30 P. M. TO 5.30 P. M.

Coast Artillery Band.

No program stated.

JAMAICA POND., 3.30 P. M. TO 5.30 P. M.

Moore's Band.

No program stated.

COMMENDATION FOR BRAVERY.

Deckhand Dennis Sheehan of the Ferry Division of the Department of Public Works has been commended for bravery in the saving of the life of a passenger determined upon suicide.

The communication to the department is as follows:

CITY OF BOSTON,
PUBLIC WORKS DEPARTMENT,
BRIDGE AND FERRY DIVISION,
BOSTON, August 15, 1914.

MR. S. E. TINKHAM,
Acting Division Engineer:

DEAR SIR,—I beg to inform you that after the ferryboat "Hugh O'Brien" had been made fast to the drop and passengers and teams had disembarked on August 14, at 6.15 p. m., a woman, Agnes Mineola, jumped overboard from the Boston end of the boat.

Deckhand Dennis Sheehan immediately suspended a ladder from the rail of the boat and descended same to aid the woman who was struggling in the water. This woman grasped Sheehan by the leg as he came close to her. Sheehan broke her grip by choking off her wind. He

talked to her assuringly and she then became easier to handle. Sheehan got her to grasp the lower rung of the ladder and then assisted her up to a point where others pulled her aboard of the boat. She was then taken to the East Boston Relief Station.

Very truly yours,
JOHN A. SULLIVAN,
General Foreman Ferry Service.

Respectfully referred to the Commissioner of Public Works for his information.

S. E. TINKHAM,
Acting Division Engineer.

BAND CONCERTS FOR THE SUMMER OF 1914.

- Aug. 24. Gibson Street Playground.
Aug. 25. Washington Park.
Aug. 27. Mt. Hope Playground.
Aug. 23. Marine Park.
Aug. 30. Marine Park.
Aug. 23. Boston Common.
Aug. 30. Boston Common.
Aug. 23. Franklin Park.
Aug. 30. Franklin Park.
Aug. 23. Jamaica Pond.

OPPORTUNITIES FOR BATHING.

The Park and Recreation Commissioners have provided every possible facility for the enjoyment of bathing during the present season.

The list of houses are as follows and are open from 2 p. m. until 10 p. m. daily:

- Curtis Hall, Jamaica Plain (swimming pool).
Cabot Street, Roxbury (swimming pool).
Columbia Road, Dorchester.
Ward 7 Gymnasium, Tyler street.
Ward 9 Gymnasium, Harrison avenue.
Dover Street Bath, city.
D Street Baths, South Boston.
North Bennet Street Baths, city.
East Boston Baths, Paris street, East Boston.
Ward 3 Baths, corner Lexington and Bunker Hill streets, Charlestown.

The beaches of the city are opened from three hours before to three hours after high tide, with the exception of L street, from 6 a. m. until 10 p. m., and they are as follows:

- L Street Beach, South Boston.
Tenean Beach, Neponset.
Freeport Street, Dorchester.
Savin Hill Beach, Dorchester.
McKenzie Beach, South Boston.
North End Park, city, Ward 6.
Dewey Beach, Charlestown.
Wood Island Beach, East Boston.

Instructors and life guards are present at all times during the bathing period.

The list of floating houses and their locations are as follows:

- Jeffries Point, East Boston.
Border Street, East Boston, 2 houses, men and women.
Warren Bridge, Charlestown, 2 houses, men and women.
Charlesbank, city, West End, 2 houses, men and women.
Dover Street Bridge, city, 2 houses, men and women.
Fort Point Channel, city, near South Station, men only.

FINANCE COMMISSION.

BOSTON, August 17, 1914.

HON. JAMES M. CURLEY, Mayor:

SIR,—Your attention is respectfully called to a transaction by various officials of the Public Works Department which seems to involve at least culpable negligence on the part of some of such officials. The Finance Commission is unable to determine the exact responsibility for the transaction on account of the conflicting testimony of Mr. Rourke, Commissioner of Public Works; Mr. Murphy, the engineer in charge of the Sewer Service, and Mr. Edward Richardson, property clerk, and the lack of written documents.

The transaction in question was the removal of certain city property from the Gibson street sewer yard, Dorchester, by Peter W. Hill, a contractor.

As your Honor is aware, the Dorchester sewer yard was abolished as an independent yard early in June, and a large part of the materials and apparatus at that yard was transferred to the West Roxbury yard in Jamaica Plain.

On June 19, 20 and 22 it appears that men representing Peter W. Hill, a contractor, went to the Dorchester yard and removed materials and apparatus, according to a list shown on the books of the yardman at that yard, and which is hereto annexed. An estimate of the saleable value of such materials, made by the consulting engineer of the Finance Commission, shows an approximate value of \$1,500. An estimate made by the property clerk of the Public Works Department, under direction of Engineer Murphy of the Sewer Service, places the value at an amount slightly over \$1,000.

Representatives of the Finance Commission have interviewed the various officials and employees of the Public Works Department as follows:

Mr. McDonald, who is now in charge of the abandoned yard, stated that he was given telephone orders by Engineer Murphy of the Sewer Service, later by Mr. Kelley, the general foreman of the combined West Roxbury and Dorchester districts, and still later by Property Clerk Richardson, to allow Mr. Hill's representatives to take the property in question.

Mr. Hill's representatives removed a large quantity of new material as well as a concrete mixer bought by the city in November, 1913, at a cost of approximately \$900. They also desired to take away an engine, but at Mr. McDonald's protest at such an act, desisted.

Mr. Richardson, the property clerk, on being interviewed, testified that he did not give any such orders and was in ignorance of the removal of the material until a considerable time after it had been in the possession of the contractor. When he learned of the transfer of the material he protested to Engineer Murphy, stating that it was illegal, and that permission should have been secured from the City Council, inasmuch as the sale or transfer involved an amount of money in excess of \$500.

Engineer Murphy directed Mr. Richardson to make an appraisal of the value of the materials, and to render a bill to Mr. Hill, but as a matter of fact, no appraisal was made until August 14, nor has a bill been sent.

Engineer Murphy testified that he gave orders to the yardman to allow Mr. Hill to take the material and apparatus, having received instructions to that effect from Commissioner of Public Works, Mr. Rourke. The latter, however, in answer to an inquiry over the telephone on the evening of August 13, expressed surprise,

stating he knew nothing about the transaction and would look into it immediately. On being examined, however, on the morning of August 14 by a representative of the Finance Commission he qualified his statements of the previous day and stated that he had a recollection of a conversation on the telephone with Mr. Murphy, wherein the renting of the concrete mixer, one of the articles of apparatus taken, was discussed, but no mention was made at that time of the sale or transfer of it, or of the other materials on the list. He further stated that if Mr. Murphy gave orders for the transfer of these materials and supplies to Mr. Hill, he was acting without authority from him.

Mr. Hill, the contractor, stated that he received permission to take the material from Mr. Richardson, and he thought that Mr. Richardson had discussed the matter with Engineer Murphy. He also thought that the figure of \$500 in payment for the material was discussed, but finally was unable to state whether any figure had been agreed upon as a consideration.

As your Honor is aware, the sale of city property is a matter for action by the City Council with the approval of the Mayor. The City Council has, however, delegated its power to the Mayor and heads of departments to the extent defined in the following ordinance:

"Section 14. Every officer in charge of a department may sell, or otherwise dispose of, any property or materials not required by such department and not exceeding one hundred dollars in value, and may, with the approval of the Mayor in writing, sell or otherwise dispose of such materials or property not exceeding five hundred dollars in value."

In addition to this ordinance an order has been issued by the Commissioner of Public Works directing that no transfer of property in his department shall be made except under the direction of the property clerk.

In consideration of the foregoing facts it is clear that both the city ordinances and the orders of the Commissioner of Public Works were disregarded by officials who undoubtedly were acquainted with the regulations involved.

In the opinion of the Finance Commission the evidence so far gathered indicates a deliberate attempt on the part of some members of the Public Works Department to transfer, without adequate compensation, valuable property which will have to be largely replaced by the department to a private contractor for the conduct of his private business.

The Commission recommends—

1. That immediate steps be taken by the city officials to secure from the contractor such of the materials and apparatus as will have to be replaced for the work of the department, together with a sum representing an adequate rental for the time the apparatus has been in use by the contractor.

2. That the matter of recovering an adequate sum as payment for such materials as have been used by the contractor in his work be referred to the Law Department for adjustment.

3. That whenever the city officials desire to sell apparatus or materials in excess of \$500 in value, that permission be first obtained from the City Council, as required by law, competitive bids be requested, and the contract awarded to the highest bidder.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN R. MURPHY,
Chairman.

STOCK AND TOOLS TAKEN FROM DORCHESTER YARD BY PETER W. HILL
ACCORDING TO RECORD ON FILE IN
PUBLIC WORKS DEPARTMENT:

June 19.

- 6 Shanties.
- 1 Mortar bed.
- 1 Horse scraper.
- 1 Stone drag.
- 72 Second-hand lagging.
- 5 Horses for driving plank.
- 1 Hand derrick.
- 2 Old hand derricks.
- 16 Old centers.
- 3 Edison pumps.
- 1 Old pair of wheels.
- 1 Concrete mixer.
- 8 Tool chests.
- 5 Upright shanties.
- 3 Sand heaters.
- 4 Old wheelbarrows.
- 27 Pieces 2 by 2 spruce, 16 feet long.
- 5 Pieces 2 by 12, 16 feet long.
- 27 Pieces 1 by 8 boards, 14 feet long.
- 6 Pieces 2 by 6, 12 feet long.
- 13 Pieces 3 by 4, 22 feet long.
- 12 Pieces 4 by 4, 12 feet long.
- 50 Pieces 1 by 8, 4 feet long.
- 1 Tipcart (old).
- 4 Street horses.

June 20.

- 22 Pieces 8 by 8, 12 feet long.
- 8 Pieces 6 by 6, 12 feet long.
- 123 Pieces 2 by 8, 12 feet long.
- 6 Pieces 10 by 10, 12 feet long.
- 2 Tool chests.
- 4 Street horses.
- 1 Grindstone.
- 2 Pieces of canvas, 12 by 17 feet, and 13 by 13 feet.
- 4 Pieces of 3-inch suction, 12 feet long.

June 22.

- 24 Pieces 3 by 10, 14 feet long.
- 103 Pieces 6 by 6, 10 feet long.
- 3 Pieces 8 by 8, 12 feet long.
- 46 Pieces 2 by 8, 8 feet long.
- 4 Pieces 3 by 6, 12 feet long.
- 5 Pieces 8 by 10, 16 feet long.
- 2 Pieces 6 by 8, 8 feet long.
- 25 Pieces 4 by 8, 10 feet long.
- 7 Pieces 4 by 10, 8 feet long.
- 1 Concrete chute.
- 1 Piece 3-inch suction, 15 feet long.
- 37 Pieces 2 by 8, 15 feet long.
- 2 Pieces 10 by 10, 10 feet long.
- 2 Pieces 4 by 6, 27 feet long.
- 1 Iron sewer cart (old).
- 2 Mortar hoes.
- 1 Dirt rammer.
- 59 Pieces 3-inch steel for concrete, 5 feet long.
- 57 Pieces 3-inch steel for concrete, 30 feet long.
- 2 Barrel cylinder oil.
- 2 Barrel machine oil.
- 2 Pieces suction (broken).
- 3 Farmer's kettle.
- 2 Ship augers.

THE RISE IN FOOD PRICES.

Chairman Mahoney of the Board of Health has reported to Mayor Curley that three inspectors making an inquiry into advance in prices of foodstuffs have been hampered by refusal of numerous wholesalers to aid them. They have no legal power to compel any one to give information. Within a day or two, however, the Board of Health will make a report on the conditions.

The Mayor has directed the department to widen its investigations by ascertaining the amount of food supplies now in cold storage.

NOTICE OF LAYING OUT AND
CONSTRUCTION WORK.

Especial attention is called to the advertisement of the Public Works Department in the current issue of the *City Record* relative to the laying out and construction of highways in South Boston, East Boston, Brighton, Dorchester, city proper and West Roxbury, and that all work in said highways relative to sewer, gas, water or other pipes must be accomplished before September 19, as after that time no permits for openings will be granted until two years after the said highways are completed.

THE SOILS OF LONG AND DEER ISLANDS.

Prof. J. A. Foord and S. B. Haskell of the Massachusetts Agricultural College, Amherst, who visited Long and Deer Islands at the request of Mayor Curley, relative to the placing of this city property in good agricultural condition, have submitted a formal report to the Mayor in which they declare:

SOIL CONDITIONS.

The soil on Long Island is a medium loam with a considerable clay in the subsoil. Such a soil is naturally fertile, but requires good treatment in order to obtain the best results. Most of the land is acid; all of it with the exception of some plots near the buildings needs organic matter, and most of it needs plant food in the form of commercial fertilizers.

The soil on Deer Island is very similar to that on Long Island, with the exception of the level area near the buildings. A part of this has been seemingly made by filling in an old hollow, while another part has what is naturally a sandy subsoil. This area has a different crop adaptability from both the rest of the soil on Deer Island and the bulk of the soil on Long Island.

CROP ADAPTABILITY.

The soil on both Deer and Long Islands, with the single exception of the plot above mentioned, is very well adapted to grass and clover, to corn and other forage crops, cabbages, beets and root crops in general. Given good treatment it will grow potatoes. As a general rule, however, owing to the clay in the subsoil, it is not an early soil and cannot be used for producing early market garden crops.

The level area near the buildings on Deer Island is warmer than any other soil and somewhat subject to drouth. This soil is better suited than any other for general trucking purposes. Best results cannot be obtained, however, unless a source of water for irrigation purposes can be developed. Many farmers and market gardeners in Massachusetts are using some of the overhead irrigation systems successfully.

TREATMENT.

Rotations.—The grass land on Long Island has most of it been unplowed for a long period of years. From this we judge that the cultivated pieces have not been in grass for an equal number of years. It is imperatively necessary that a good rotation system be established as soon as it is decided to take this land up in a thorough way. On Deer Island the same statement would hold true. The plot of cabbages there is at the present time badly infested with club root, a disease which comes when this crop occupies the land for too long a period of time. The rotation to be used will depend somewhat upon the plan adopted, and would need to be worked out by the men in charge, subject perhaps to our help and suggestion.

Lime.—All of the soil, both on Deer and Long Islands, shows need of lime. The lack of clovers in the grass land on Long Island is an indication of this, as well as the club root on the cabbages on Deer Island. The spotty development of the onions also shows this. It should be possible for the City of Boston to buy raw ground limestone in boatload lots for both of these islands. Initial application of at least a ton per acre is advisable.

Manure.—As stated above, the soil on both islands is badly in need of organic matter, more so on Long than on Deer Island. We understand that the city has

a large number of stables, the manure from which is not generally used, with the exception of that from the horses used by the Park Department. It seems that the most economical source of fertility is being overlooked and that some arrangement might be made whereby the city manure could be transferred to these islands. The only alternative will be to buy chemicals and plow under green crops, but improvement will not be as rapid under this system and finally not as profitable. We suggest, however, that green manuring crops be used whenever possible.

LABOR.

Since you have plenty of labor on Deer Island it would seem the reasonable thing to develop that island for market garden crops such as onions, cabbages, root crops, etc., because these take a large amount of hand labor, while on Long Island, where labor is not plenty, it would seem to us advisable to develop general farming, which would include a good herd of milch cows and sufficient hogs to use up the waste material. This would call for some new buildings, as the present cow stable is not a good one, and the present hog barn needs extensive repairs.

We feel that the question of locating the farm buildings near the center of the island, with a cottage for the farmer, is worthy of careful consideration. This general plan would not call for as much labor as if market garden crops were used, and, as a general thing, it could be done by gangs from Deer Island if such an arrangement were possible. Sufficient men, however, must necessarily live on the island to look after the live stock.

THE BOSTON TAX RATE.

The tax rate of the City of Boston for 1914 will be \$17.50, an increase of 30 cents from the rate of 1913, and is divided as follows: State tax, \$2.78; city tax, \$13.57; county tax, \$1.15.

Of the city tax the amount of \$4.01 is assessed as the school tax.

Mayor Curley accompanied the statement of the Board of Assessors with a vigorous message in which he declared:—

"The absolute disregard for the rights of the public as a whole, which characterized the administration of my immediate predecessor, is largely responsible for an increased tax rate this year. The sole consideration apparently was political prestige rather than public welfare, and this policy has made necessary an expenditure in the form of salary increases, a huge sum annually for the immediate benefit of an inconsiderable number of the population, which, if applied to public improvements, would make both passable and attractive Boston's vast network of streets which to-day are both unsightly and in many cases unserviceable.

"The increase in pay roll in the six months preceding my inauguration, including the increases granted in June of 1913, represents a total equivalent to \$754,000 annually, or an increase in tax rate of about fifty cents. The state tax and assessment on Boston increased \$268,643.19, equivalent to about eighteen cents increase in tax rate. The appropriation for schools represents an increase of over \$340,000, equivalent to twenty-three cents additional tax rate. The increase of \$220,000 for Overseers of the Poor Department, owing to the recently enacted mothers' pension law, coupled with the unavoidable increases for maintenance of Suffolk County departments, hospitals, libraries, penal institutions and infirmary

departments, represents a net increase sufficient to make necessary a rate of \$18.40 on the thousand of valuation.

"I realize full well that an increase in the tax rate on each thousand of valuation would ultimately be borne by the occupant of the flat and tenement, and represented not in a proportion sufficient to make possible the return necessary to offset the increase, but rather in the form of a one to two dollar monthly increase in rental. The more speedily the public at large become alive to this phase of the situation the more keen will be their scrutiny of the acts of their servants in public office.

"Had the same profligate disregard for public welfare been pursued during the past six months a tax rate would have been necessary, burdensome to industries now located in Boston, and constituting an effectual barrier to those contemplating a location here.

"The proportion of the taxes as finally determined upon is conclusive proof that were the same consideration for the public welfare in the matter of expenditure pursued by the state, county and schools the tax rate of this year would not be in excess of last year.

"The rates, subdivided, are as follows:

	State.	County.	Schools.	City.	Total.
1914...	\$2.78	\$1.15	\$4.01	\$9.56	\$17.50
1913...	2.65	1.11	3.88	9.56	17.20
Inc. .	.13	.04	.13	.00	.30

"Believing that a reasonably low tax rate is conducive to general prosperity, I have instituted a policy, the sole purpose of which has been a desire for the greatest good to the majority of persons residing in Boston, and dependent upon the progress and prosperity of the municipality.

"It has been found necessary to remove some employees and reduce others, but in no case has a laborer, mechanic or widow suffered the loss of employment. Nor do I propose that they shall, provided a fair equivalent is rendered for the salary paid.

"New sources of revenue have been developed, and in the purchase of supplies for municipal departments, quality being equal, the successful bidder in each case has been the low bidder. This policy coupled with absolute honesty and an insistence on a square deal for the city has made possible a tax rate of \$17.50, or an increase of 30 cents over last year, which, while gratifying, as compared with other municipalities, is nevertheless more than would be necessary had valuations increased in the same ratio as unwarranted burdens during the term of my predecessor.

	1914 Rate.	Increase.
Woburn.....	\$26 00	\$5 50
New Bedford.....	23 20	3 00
Lowell.....	21 90	2 50
Melrose.....	21 70	1 30
Cambridge.....	21 40	1 00
Taunton.....	21 20	80
Somerville.....	21 10	1 30
Fitchburg.....	21 00	1 00
Medford.....	20 40	1 40
Worcester.....	19 60	2 00
Waltham.....	18 00	70
Boston.....	17 50	30

"With proper cooperation of the City Council, the Legislature, the Press and citizens generally, in my opinion it will be possible next year to materially reduce the rate as this day declared.

"JAMES M. CURLEY, Mayor."

* Loss.

Incident to the declaration of the tax rate of the City of Boston for the year 1914, the Board of Assessors present the following statement:

1913 State	\$2 65
1914 State	2 78
Increase	\$0 13 \$0 13
1913 County	\$1 11
1914 County	1 15
Increase	\$0 04 04
1913 City	\$13 44
1914 City	13 57 13
Increase	\$0 13 \$0 30
1913 Schools	\$3 88
1914 Schools	4 01
Increase	\$0 13
1913 Total	\$17 20
1914 Total	17 50
Increase	\$0 30

The increase in the total amount of all appropriations and warrants amounts to \$734,200.53. Of this total the State warrants are \$245,522.34 more than last year; the school appropriations, \$294,299.70 more; the County, \$77,911.98 more, including \$23,690.05 for highways; and the City, \$116,466.51 more than in 1913.

The gain on real estate amounts to \$21,562,000 and loss upon personal \$1,310,200, making a total of \$20,247,800 gain.

The largest real estate gain is in Ward 6 (\$4,226,900) and the largest personal gain in Ward 7, \$3,000,900.

The loss on personal in Ward 13 is due largely to the wool merchants reducing their liability, having little stock.

The total valuation of the city is made up of more than 130,000 items of property: 105,000 real estate items, and 25,000 personal items. These items call for \$6,000 bills, in addition to the 183,000 single poll bills.

The increase in the number of items in the past ten years amounts to 22,000, or over 20 per cent; real estate, 15,000; personal estate, 7,000.

The increase in the number of single poll bills is 22,055, or about 14 per cent.

As the wards are at present divided these various items and bills are unequally distributed, as the largest ward (23) has about 16,000 items of real and personal, and the smallest ward (5) about 1,400 items; and the ward with the largest number of polls (Ward 20) has 18,370, and the smallest ward (4) has 2,631. It is desirable that the number in each ward be as nearly equal as possible. In the division of the city into new wards, it would greatly facilitate the work of the assessor if consideration was given to this fact, that is to anticipate the future growth by allowing for the natural development in any division.

Some of the big losses in Ward 6 on personal in 1914:—

Bigelow Trust	\$1,500,000
American Woolen Company	400,000
Blake Brothers	400,000
McGreenery & Manning	500,000
	\$2,800,000

When a taxpayer remains in Boston and pays \$17.50 on \$1,000 taxes and assumes all the responsibility of citizenship, standing up like a man and contributing his full share according to his ability, we must say of him or her that they are great examples of civic love and pride, and that by such leadership and example they set a high standard for all others to follow and emulate. Our tax list shows the names of many men and women who are entitled to the greatest public respect.

EDWARD B. DAILY,
Chairman.

CHARLES E. FOLSOM,
Secretary.

FREDERICK H. TEMPLE,
FRED E. BOLTON,
PHILIP O'BRIEN,
WILLIAM A. CRENEY,
JOHN B. MARTIN,

Assessors.

Rate declared August 17, 1914.

TO INVESTIGATE FOOD PRICES.

Mayor Curley, upon the 19th instant, directed Dr. Francis X. Mahoney, chairman of the Health Department, to investigate and report the amount of foodstuffs in Boston cold storage plants. This step is in line with the "increased cost of food" investigation already under way.

MUNICIPAL BONDS HELD UP.

Since August 1 bonds to the amount of \$3,959,363 have been offered without success by forty-nine cities, towns and counties of the United States. The unsettled condition of the money market brought about by the serious aspect of European affairs is the cause.

SIGNAL VICTORY FOR THE MAYOR.

Mayor Curley won a signal victory at Washington as leader of the movement in opposition to the amendments attached to the Underwood Emergency Shipping Bill in the United States Senate, and which meant the certain abrogation of a protective policy for American coastwise shipping.

The Senate defeated the amendments by a vote of two to one, and which would have proved a deathblow to the coastwise shipping interests of Boston and New England.

From the outset Mayor Curley was the active leader of the forces assembled at Washington from Boston and other cities to vigorously oppose throwing open our doors to foreign-built ships for the Atlantic coastwise trade, and was rendered material assistance by the delegation of the Massachusetts Real Estate Exchange, headed by President John J. Martin.

President Wilson, in voicing his opposition to the Senate amendments to the Underwood Bill, agreed heartily with the closing brief of Mayor Curley in the premises, and which was as follows:

CITY OF BOSTON.

OFFICE OF THE MAYOR, August 17, 1914.

HON. WOODROW WILSON,
President of the United States,
Washington, D. C.:

DEAR MR. PRESIDENT,—The conference report now pending in the Senate and which opens the coastwise trade of the United States to foreign-built ships which have been transferred to American registry will, if adopted, prove a death blow to American shipbuilding for any other than naval purposes.

About one-third of the business of the shipbuilding yards upon the Atlantic coast consists of the construction of vessels for the merchant marine of the United States.

Shipyards and ship owners have built up mutually between them the finest fleet of merchant vessels now operating in the coastwise trade of any nation in the world.

This fleet is entirely adequate to meet the regular traffic.

The contention of Senator Jones of Washington that vessels were not available to carry his lumber was the starting point from which the measure at present under consideration developed.

Fields S. Pendleton of New York has offered to make a contract to carry any amount of lumber from the West to the East coast at \$10 per thousand, via the Panama Canal, and which is from \$4 to \$6 a thousand feet below the present railroad or water rate.

There are numerous other shippers, any one of whom is amply able to handle the entire traffic. There is no present emergency requiring added coastwise shipping facilities at this time, nor is the provision to open coastwise trade germane to the purpose of the bill.

If radical legislation, overturning the country's laws relative to shipping that have been in effect for over 100 years, is now essential, this step should be taken in the form of a separate measure, and not as a clause of a hastily-considered conference report.

There are at present available 162 merchant vessels suitable to engage in the coast to coast business. Over six million tons of shipping is now engaged in the coastwise trade directly affected by this measure.

The sentiment of Boston, as far as I have been able to ascertain, is that the question of the American merchant marine would be jeopardized rather than benefited in hasty action upon this measure.

Your tariff and currency legislative policies and handling of the Mexican situation has merited and to-day receives the commendation of American citizens, without regard to party.

I am firmly of the opinion that upon reflection you will refuse to sanction the conference report in the shipping clause of the Underwood emergency measure, and will insist that this legislation, so important in its bearing for the future of our common country, merits careful investigation before final action is taken.

With every good and sincere wish, faithfully yours,

JAMES M. CURLEY,
Mayor of Boston.

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announce an open competitive examination on August 24, 1914, for telephone lineman, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Life-Saving Service, at \$85 a month, and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The person appointed to this position will be subject to assignment at any point on the Atlantic, Pacific or Lake coast.

The commission announce that applications will be accepted at any time for the examination for office helper (typewriter) at Watertown Arsenal, Watertown, Mass., from both men and women. Examinations will be held at Room 141, Post Office Building, Boston, Mass., whenever it becomes necessary to provide eligibles. Persons who apply will be notified of the date of examination. As a result of this examination vacancies will be filled as they occur in the position of office helper, qualified in typewriting, in the Watertown Arsenal, Watertown, Mass.

The usual entrance salary is \$480 a year. The duties of the position are routine clerical work, requiring ability to use the typewriter.

The commission announce an open competitive examination for plant physiologist, experienced in plant metabolism, for men only, on August 30, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary of \$3,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to plan and lead research work dealing primarily with questions of plant metabolism.

The commission announce an open competitive examination for graduate nurse and dietitian, for women only, on September 2, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the United States Public Health Service, for duty in the Pellagra Hospital at Spartanburg, S. C., at a salary not exceeding \$1,200 a year (in addition to board and room or compensation therefor), and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to assist in making metabolic and dietetic studies in relation to pellagra and to supervise the nursing. No administrative work will be required.

The commission announce an open competitive examination for entomological ranger, for men only, on September 2, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Entomology, Department of Agriculture, for service in the Rocky Mountains and Pacific Coast States, at salaries ranging from \$840 to \$1,200 a year, and vacancies as they may

occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to collect specimens and information, locate and mark trees infested with destructive insects, and give instructions and assistance to private owners on the practical details of the methods recommended for the control and prevention of insect depredations on living timber.

The commission announce an open competitive examination for junior engineer (experimental plant and machine testing), for men only, on September 2 and 3, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Chemistry, Department of Agriculture, at a salary ranging from \$1,200 to \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The headquarters for this position will be in Washington, D. C., but the duties of the position will eventually necessitate temporary transfers to various parts of the United States for indefinite periods, and applicants must be willing to accept appointment anywhere in the United States in order to receive consideration.

The duties of this position will consist of designing, constructing and operating plants for experimental and demonstration purposes in the preparation of certain fruit and vegetable products, especially fruit and vegetable drying and refrigeration, the computing and compiling of technical and cost data on the operation of such plants; and a limited amount of mechanical drafting.

It is desired to obtain the services of someone who has had experience in the design or operation of experimental plants, or who has had technical laboratory work along the lines of machine testing and refrigeration.

The commission announce an open competitive examination for business principal, for men only, on September 2 and 3, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in the position of principal, Business Department, Haskell Institute, Lawrence, Kans., at \$1,200 per annum and quarters, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for expert radio aid (for administration and operation), for men only, on September 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in the position of expert radio aid in the office of the Superintendent of Radio Service at the Naval Radio Station, Radio, Va., at a salary of \$10 per diem, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will involve assisting in the supervision of the administrative details of the Naval Radio Service, including both the operating and accounting features; the inspection of

radio stations, so far as relates to their operation and management, and advising in regard to their improvement in both technical and administrative matters. The duties of the position will require a thorough knowledge of all the essential features of a communication system, and the details of land wire, cable and radio systems in the United States and foreign countries, including their organization both for administrative and other purposes. There will be required a knowledge of laws, rulings and precedents established by such systems, both United States and international.

It is desired to secure the services of a man having a broad training in both administrative and technical matters of radio, and one who has had considerable experience in dealing with other systems of communication. He must also be an experienced and efficient operator.

The commission announce an open competitive examination for junior physical chemist, for men only, on September 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Chemistry, Department of Agriculture, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be chiefly research work in the preparation and investigation of sugars, their occurrence, identification and properties, and the importance of the various sugars in various foods.

The commission invites attention to the open competitive examination for clerk in the Panama Canal Service scheduled to be held on September 9, 1914.

It is especially desired to secure eligibles from this examination who are qualified as bookkeepers.

The usual entrance salary for this position is \$1,200 a year.

The commission invites attention to the open competitive examination for junior engineer draughtsman, for men only, scheduled to be held on September 9, 1914. In addition to other vacancies to be filled from the register of eligibles resulting from this examination, it is expected that certification will be made to fill a vacancy in this position in the Engineer Department at Large, Wheeling, W. Va., at a salary ranging from \$1,800 to \$2,100 a year, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

For the vacancy at Wheeling, W. Va., mentioned above, the department requires the services of a person with experience in the independent design of steel structures.

The commission invites attention to the open competitive examination for library cataloguer, for both men and women, scheduled to be held on September 9, 1914, at all places marked "(D)" in section 2 of the Manual of Examinations for the fall of 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Departmental Service, Washington, D. C., at entrance salaries ranging from \$720 to \$1,000 per annum, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The following vacancies in positions which may be filled as the result of this examination exist at the present time:

One in the position of library assistant (male) qualified for bibliographical and reference work in educational literature, and to serve as administrative assistant in the library of the Bureau of Education, Department of the Interior, at \$1,000 per annum.

One in the position of library cataloguer (female), Smithsonian Institution, at \$75 a month.

The commission invites attention to the open competitive examination for junior chemist, for both men and women, scheduled to be held on September 9 and 10, 1914. In addition to vacancies in positions in the Bureau of Chemistry, Bureau of Mines, Bureau of Soils and Bureau of Standards, to be filled from the register of eligibles resulting from this examination, it is expected to fill vacancies in the position of junior chemist in the Bureau of Animal Industry and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The usual entrance salary for these positions ranges from \$1,000 to \$1,440 a year, but persons showing in the examination that they are unusually qualified are occasionally appointed at higher salaries, not to exceed \$1,740 a year. Certification to fill vacancies in positions paying more than \$1,440 will be made only from those attaining the highest averages in the examination.

The following vacancies in such positions exist at the present time:

One junior chemist, qualified in biological chemistry, Bureau of Animal Industry, Washington, D. C., at \$1,200 a year.

One junior chemist, qualified in biological chemistry, Bureau of Chemistry, Washington, D. C., \$1,200 to \$1,620 a year.

One chemist, qualified in pharmaceutical chemistry, Bureau of Chemistry, Washington, D. C., \$1,200 to \$1,440 a year.

Two chemists, qualified in pharmaceutical chemistry, Bureau of Chemistry, Washington, D. C., \$1,620 to \$1,740 a year.

The commission announce an open competitive examination for district inspector, under the migratory bird law, for men only, on September 16, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Biological Survey, Department of Agriculture, for service in the field, at \$1,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Vacancies exist in districts 4, 5, 8, 9, 10, 11 and 12, covering the following states: Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Mississippi, Montana, Nevada, New Mexico, North Dakota, Ohio, South Carolina, South Dakota, Tennessee, Texas, Utah and Wyoming.

The duties of district inspector will be general supervision of the migratory bird wardens appointed for the district, cooperating with local authorities in protection and propagation of game and diffusion of information regarding conservation of wild life.

The commission announce an open competitive examination for expert radio

aid, for men only, on September 16, 1914. From the register of eligibles resulting from this examination certification will be made to fill one vacancy in this position at \$6 per diem in the Navy Yard, New York, N. Y.; five vacancies at either \$8 or \$6 per diem in the Navy Yards at Boston, Mass., Philadelphia, Pa., Norfolk, Va., Charleston, S. C., and Puget Sound, Wash.; and vacancies as they may occur in positions requiring similar qualifications, throughout the United States, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of these positions will be: To direct and assist in the laboratory tests of all circuits, instruments and apparatus pertaining to and used in radio signaling; the practical installation, repair and adjustment of radio apparatus both in shore stations and in ships; the development and design of special apparatus and methods of radio signaling suited to special conditions, and of new forms of sending and receiving circuits; to analyze the data which may accrue from observations of the operation of different radio installations and to plan and execute experimental investigations as indicated; to inspect the various radio stations when called upon and to make the necessary measurements of their electrical constants; and, in general, to carry out advanced technical work in radio research, design and development and practical work in construction and repair of radio apparatus. They will be required to prepare technical reports of inspections, tests and research work.

The commission announce an open competitive examination for statistical editor, for both men and women, on September 16 and 17, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at an initial salary ranging from \$1,200 to \$1,400 a year, in the Children's Bureau, Department of Labor, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

This position affords excellent opportunity for entrance into the field of statistical work, and the person who is appointed as a result of this examination and who proves competent to perform the duties of the position may expect reasonable promotion.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

Competitive examinations of applicants for positions in the classified service will be held in Boston as follows:

FOR THE SERVICE OF THE COMMONWEALTH.

1914.
Oct. 21. Foreman of Laborers, Inspectors of Work, Class 22.
Oct. 27. Drawtenders, Assistant Drawtenders, Class 25.
Nov. 2. Clerks, Messengers, Class 3.
Nov. 16. Stenographers, Class 9.
Dec. 7. Civil Engineers, Class 27.
Dec. 17. Metropolitan Park Policemen, Class 16.

1915.
Jan. 19. Prison Watchmen, Class 17.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply.

Blank applications (Form No. 1) can be obtained by applying to the Civil Service Commission, State House, Boston, and when filled out, should be filed in the office of the commission at once.

PROCEEDINGS OF CITY COUNCIL.

Monday, August 17, 1914.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President McDONALD in the chair. Absent—Coun. Collins, Coulthrust, Kenny, Woods. The Council voted, on motion of Coun. BAL-LANTYNE, to dispense with the reading of the records of the last meeting.

SALE OF CITY LAND, HYDE PARK.

The following was received:

City of Boston,
Office of the Mayor, August 17, 1914.
Gentlemen of the City Council:

I am in receipt of the accompanying communication from the chairman of the Boston Industrial Development Board and believe that an authorization by the City Council to the municipal real estate expert to dispose of the Hyde Park Water Power land at an upset price equivalent to the assessed valuation of the said land, inclusive of the value of buildings, which generally are of no value, would, in my opinion, be an advisable procedure and I recommend the adoption of the accompanying order.

Sincerely yours,
JAMES M. CURLEY, Mayor.

Boston Industrial Development Board.
Hon. James M. Curley,
Mayor of Boston:

My dear Mr. Mayor,—Inasmuch as nothing can be done in the way of putting the Codman street land on the market, as stated by you on Tuesday, I am trying to interest a business concern in a portion of the Hyde Park land formerly used by the Hyde Park Water Company. I shall not name any price on this land, but I feel very sure that the parties who are interested in a present plan to develop their business in Boston will be attracted by some one of the following parcels listed in this particular tract. It appears that there are about twenty-one and one-half (21½) acres in the entire tract, divided as follows:

FIRST PARCEL.	Value.	Value of Buildings.	Acres.
544,500 square feet.	\$16,300	\$5,000	12½
144,830 square feet.	4,400		3½
245,621 square feet.	7,400		5½

I hope to do something with one of these within a very short time, and will then bring the matter to you definitely for a price.

Cordially yours,
JOHN H. COLE, Chairman.
August 13, 1914.

Ordered, That the property of the City of Boston heretofore occupied by the Hyde Park Water Power Company and containing about twenty-one and one-half acres be sold at public auction at an upset price of \$28,000.

Referred to the Committee on Public Lands.

APPOINTMENTS BY THE MAYOR.

The following was received:

City of Boston,
Office of the Mayor, August 14, 1914.
To the City Council:

Subject to your confirmation I have this day appointed Mr. Antonio Gallo, 110 Prince street, Ward 6, and Mr. Arthur Nickerson, 3 Myrick street, Allston, Ward 25, as constables for the term ending April 30, 1915.

Respectfully,
JAMES M. CURLEY, Mayor.

Laid over under the law.

ROOF OF PARKMAN BANDSTAND.

The following was received:

City of Boston,
Office of the Mayor, August 17, 1914.
Gentlemen of the City Council:

I transmit herewith for the consideration of your honorable body a communication from the Park and Recreation Department relative to the advisability of placing a copper roof upon the Parkman Bandstand, Boston Common, in place of the present roofing.

Sincerely yours,
JAMES M. CURLEY, Mayor.

City of Boston,
Park and Recreation Department,
August 15, 1914.

To the Honorable City Council:

In reply to your order of July 13, 1914, "That the Park and Recreation Commissioners be requested, through his Honor the Mayor, to consider and report to the City Council upon the advisability of placing a copper roof on the Parkman Bandstand in place of the present roof," I am directed by the commission to state it is the opinion of our engineers that a copper or other metal roof is undesirable, as the wash from it would stain the marble. The following correspondence from the architects and contractor who built the bandstand is respectfully submitted.

July 27, 1914.

Mr. William Crane,
Cambridge, Mass.:

Dear Sir.—The city department in charge of the matter have called our attention to the fact that tar is oozing from the cornice joints of the bandstand on the Common.

Also that some of the stones in the dome are slightly cracked as if portions of stone were about to chip off, and have asked us to make a report.

Will you be good enough to look over the bandstand and let us have your opinion as to the cause of the trouble.

Yours very truly,
DERBY & ROBINSON, Architects.

August 5, 1914.

Messrs. Derby & Robinson,
20 Beacon Street, Boston, Mass.:

Gentlemen.—Replying to yours of July 27 it is apparent that the tar on the seal under the stones of the dome of the bandstand has melted through action of the sun and oozed down through the joints around the cornice.

The only suggestion that I can make regarding same would be to remove tar and stains that show on the outside, cut hack joints and repoint same with neat Portland cement.

I have written a party to see if the tar can be removed from the stones without showing stains. This seems to be the only practical way to handle this matter as it would be very expensive to try to remove stones to get at the seal.

Yours respectfully,
WILLIAM CRANE,
J. S. HUMPHREY, Engineer.

August 6, 1914.

Mr. William Crane,
Cambridge, Mass.:

Dear Sir.—In your letter to us, dated August 5, in reference to the bandstand, you failed to take any notice of the second question asked you in our letter of July 27.

As this question, the matter of the cracked stones in the dome, was raised by the city, we feel that we ought to again call your attention to it and get your opinion as to the cause, etc.

Thank you for your letter in regard to the tar.

Very truly yours,
DERBY & ROBINSON, Architects.

Messrs. Derby & Robinson,
20 Beacon Street, Boston, Mass.:

Gentlemen.—The writer personally investigated the stones on the dome of the bandstand and found three or four stones that had shaled off on the upper joint of the lower course of stones of the dome, due either to expansion in the stones of the dome above or by uneven loading, causing the top of these stones to shale off about 2 inches below joint.

There is no danger of these stones falling off and I would advise same to be cut out and rejointed and possibly leaded at these joints.

Yours respectfully,
WILLIAM CRANE,
J. S. HUMPHREY, Engineer.

In conclusion, the chairman of this commission states he will have the roof placed in proper condition as outlined by the architects and contractor who built the bandstand.

Yours very truly,
PARK AND RECREATION COMMISSIONERS,
D. J. BYRNE, Secretary.

Placed on file.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Albert C. Smith, to be refunded the amount paid for an alleged invalid tax deed of estate on Mellich road.

Margaret V. Hickey, for compensation for damages at 144 Westville street by the hursting of a fire hose.

Mary A. Corbett, for compensation for injuries to her minor daughter, Mary J. Corbett, by a fall in front of 50 Greenwich street.

Fred Theise Manufacturing Company, for compensation for damages to property at 9-11 Ferry street by break in water pipe.

Herman G. Protze, to be paid for a window screen broken by a city ash cart in alleyway adjoining 168 West Newton street.

Nathan Goldberg, for compensation for injuries to his minor son, Max, by a city garbage team.

Mrs. Catherine F. Sullivan, for compensation for damages at 975 Cantherbury street by overflow of sewage.

John E. Fleming, to be paid for loss of salary occasioned by injuries while he was a member of the Fire Department.

Executive.

Hyman Levine, for license to sell, rent or lease firearms at 148 Merrimac street, Ward 8.

CONSTABLE'S BOND.

The City Treasurer, after having duly approved of the same, submitted the constable's bond of Daniel P. Sullivan.

Approved by the City Council.

TRACK LOCATION.

A copy of order was received from the Street Commissioners granting the West End Street Railway Company location for additional curved tracks on Harvard avenue, 43rd location.

Ordered printed and placed on file.

STORAGE OF EXPLOSIVES.

Notices were received of intention to continue the use of premises for explosives or inflammable fluids, as follows:

Perry Brothers (2), keeping and sale of gasoline, 35 Stanhope street.

Patrick J. Brady, keeping of gasoline, rear of 406 Arborway.

C. H. K. Skillen, keeping and sale of gasoline, 240 Adams street.

Placed on file.

REMOVAL OF BOARD OF APPEAL.

The following was received:

City of Boston,
Office of the Mayor, August 15, 1914.
Hon. James Donovan,
City Clerk:

Dear Sir,—Under the provisions of section 14 of the Charter Amendments, chapter 486 of the Statutes of 1909, I hereby remove the members of the Board of Appeal as at present constituted, consisting of James R. Murphy, chairman; Neil McNeil, Edward H. Eldridge, Dennis J. Sullivan, William D. Austin, secretary, for decisions rendered in the following cases, reports of which are now on file in the office of the Building Commissioner:

Numbers 36, 49, 65, 86, 106, 188, 287, 319, 328, 397, 414, 445, 513, covering a period from 1908 to May 2, 1914, inclusive. Also cases numbered 4, 6, 8, 11, 21, 92, 93, 94, 95, 96, 103, 112, 128, 151, 220, 245, 265, 298, 317, 393, 417, 441, 495, 496, 501, 516, 519, 526 and 541, covering a period from 1907 to 1909, inclusive, in all of which cases the action taken by the said Board of Appeal was contrary to public policy, which requires the providing of lawful adequate sanitary requirements for building construction and suitable means for the protection of life and property in the event of fire, as required and in accordance with statute and ordinances.

Respectfully,

JAMES M. CURLEY, Mayor.

Placed on file.

BOARD OF APPEAL.

The City Clerk received communications from Neil McNeil, William B. Austin and James R. Murphy, members of the Board of Appeal, stating that they maintain their standing as members of the Board of Appeal and shall continue to do so, and further stating they have been advised and contend that the Mayor has no authority to remove them from the Board of Appeal.

Placed on file.

MINORS' LICENSES.

President McDONALD submitted reports on petition for minors' licenses for seven newsboys, five vendors and one bootblack—recommending that licenses be granted on the usual conditions.

Report accepted; licenses granted on the usual conditions.

CONFIRMATION OF APPOINTMENTS.

President McDONALD called up unfinished business, Nos. 1 and 2, viz.:

1. Action on appointments submitted by the Mayor August 10, of Edward A. Burt, Patrick F. Garrity and Harland J. Lowe to be Constables of the City of Boston.

2. Action on appointments submitted by the Mayor August 10, of James B. Shaw to be a Weigher of Beef and Barnett E. Gordon to be a Weigher of Coal.

The question came on confirmation. Committee—Coun. Watson and Ballantyne. Whole number of ballots cast 5, yeas 5, and the appointments were confirmed.

CLAIMS.

President McDONALD called up unfinished business, Nos. 3 and 4, viz.:

3. Ordered, That there be allowed and paid to David M. Biggs the sum of \$300 for compensation for loss of colt killed by dogs, said sum to be charged to the Income from Dog Licenses.

The order was passed.

4. Ordered, That there be allowed and paid to Charles W. Miller the sum of \$2,116.50 for expense incurred by him in a suit on account of his acts as a police officer, said sum to be charged to the appropriation for Police Department.

The order was passed.

ABOLITION OF TUNNEL TOLLS.

Coun. ATTRIDGE offered an order—That his Honor the Mayor be requested to take the necessary steps to put into effect chapter 667 of the Acts of 1913, which was accepted by the voters at the last city election, as follows:

An Act to Authorize the City of Boston to appropriate Money to be Added to the Rental of the East Boston Tunnel.

Be it enacted, etc., as follows:

Section 1. The city of Boston may appropriate from the tax levy each year until the tenth day of June, nineteen hundred and twenty-two, the sum of one hundred and twenty-five thousand dollars to be added to the rental received from the Boston Elevated Railway Company for the lease of the East Boston tunnel; provided, that the holders of the bonds issued to pay for the construction of said tunnel consent to a waiver of the pledge, expressed on the face of the said bonds as one of the terms thereof, to the effect that the whole amount of the tolls collected from persons passing through said tunnel should be used to meet the principal and interest of the said bonds, and shall release the city from the said pledge.

Sec. 2. This act shall be submitted to the voters of the city of Boston at the next city election and the vote shall be in answer to the following question to be placed upon the ballot: "Shall the city of Boston be authorized to appropriate money to be added to the rental of the East Boston tunnel?", and this act shall take effect if a majority of the voters voting thereon vote in the affirmative.

Coun. ATTRIDGE—Mr. President, I trust that this order will not be referred to the Executive Committee. It is similar in a way to the order which was introduced by myself on July 27, in which I offered an order that his Honor the Mayor be requested to take the necessary steps, etc. I am putting in this order to-day because of the fact that the opinion that was submitted by the Corporation Counsel was in my opinion an unsatisfactory one, and I am putting that order in to-day in a changed form so that the Mayor can take the necessary steps to put that act into operation, and in my opinion that act gives the Mayor of the city and the Corporation Counsel and the treasurer of the city implied power to reach the bondholders and get or try to get the waivers and releases.

The order was passed.

EMPLOYMENT OF LAMPLIGHTERS.

President McDONALD offered an order—That chapter 440 of the Acts of 1914, entitled "An Act to Extend the Time Within Which Lamplighters May be Appointed to Positions in the Labor Service of any Department of the City of Boston" be and the same hereby is accepted.

Referred to the Executive Committee.

RECESS TAKEN.

The Council voted at 4.15 p. m., on motion of Coun. WATSON, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 4.30 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Report on petition of Hyman Levine (referred to-day) for license to sell, rent or lease firearms at 148 Merrimac street, Ward 8—that license be granted.

Report accepted; license granted on the usual conditions.

(2) Report on order (referred to-day) accepting chapter 440 of the Acts of 1914, entitled "An Act to Extend the Time Within Which Lamplighters May be Appointed to Positions in the Labor Service of any Department of the City of Boston"—that the order ought to pass.

Report accepted; order passed.

(3) Report on order (referred August 10) accepting chapter 641 of the Acts of 1911, entitled "An Act to Provide for the Reconstruction of Washing-

ton Street in the West Roxbury District of the City of Boston"—recommending reference to the Finance Commission for report.

Report accepted; said reference ordered.

GENERAL RECONSIDERATION.

Coun. BALLANTYNE moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 4.35 p. m., on motion of Coun. BALLANTYNE, to meet on Monday, August 24, at three o'clock p. m.

CITY OF BOSTON.

NOTICE TO CONTRACTORS.

Sealed bids for furnishing labor and materials required for bronze and other metal work for two entrances to Dartmouth Street Lobby, Copley Station, Boylston Street Subway, will be received by the undersigned until 12 o'clock noon of Wednesday, September 2, 1914. Specifications and forms of contract can be obtained at the office of Fox & Gale, Architects, 3 Park street. The right to reject any and all bids and to award the contract as is deemed to be for the best interest of the City of Boston is reserved.

By order of the BOSTON TRANSIT COMMISSION.
B. LEIGHTON BEAL, Secretary.
(Aug. 22.)

CITY OF BOSTON.

PROPOSALS FOR SOAP AND SOAP POWDER.

The Supply Department of the City of Boston invites proposals for furnishing to the various departments of the city throughout the next twelve months:

500 boxes of soap.
35,000 pounds soap powder.
7,300 pounds soft soap.
8 tons common soap.
25 barrels soap chips.

Samples of the above must be left with proposal at the office of the Supply Department, Room 808, City Hall Annex. A copy of the proposal to be used and other information can be obtained at above office. The bidder must leave his proposal at the above office with a certified check for \$200, payable to and to become the property of the City of Boston if the said proposal is not carried out. Bidders may quote on one or all of the above items. A bid in duplicate, without check, must be filed with the City Auditor prior to the time named for opening bids. The bids will be publicly opened and read on Monday, August 31, 1914, at 12 m., at Room 808, City Hall Annex. The successful bidder must furnish a bond for one-quarter the amount of the contract of a surety company authorized to do business in Massachusetts. The Superintendent reserves the right to reject any or all proposals, or any part of a proposal and award the contract as he deems it for the best interest of the city. All contracts are made subject to appropriations to meet payments thereunder.

FRANCIS I. ROCK,
Acting Superintendent of Supplies.
(Aug. 22-29.)

CITY OF BOSTON.

PROPOSALS FOR HAY, STRAW, OATS, SHORTS AND CORN.

Sealed proposals will be received at the office of the City of Boston Supply Department, Room 808, City Hall Annex, until 12 o'clock, Friday, August 28, for the hay, straw, oats, shorts and corn needed in the different departments for September, 1914. The bidder must cover the cost of delivery. The bidder is requested to bid on both No. 1 and No. 2 hay. The hay to be Timothy hay, clean and sweet; the straw to be No. 1 straight rye straw. The grade of hay and straw must comply with the rules of the National Hay Association and shall be weighed and inspected by a weigher appointed under the ordinances of the City of Boston. The bidder is requested to bid on No. 1 oats, to test 38 to 40 pounds; No. 2 clipped white oats, to test not less than 34 pounds to the bushel. Samples of the oats must be given with the proposal, and must conform to the grade adopted by the Chamber of Commerce. The bidder must use the form to be obtained at Room 808, City Hall Annex. A bid in duplicate, without check, to be deposited with the City Auditor previous to the time named for opening bids. The successful bidder must deposit a certified check for one-quarter the amount of the contract as security that the terms of the contract will be carried out. The proposals will be publicly opened and read on Friday, August 28, at 12 m. The Superintendent reserves the right to accept or reject any or all proposals or any part of a proposal and to award the contract as he deems for the best interests of the city. All contracts are made subject to appropriations to meet payments thereon.

FRANCIS I. ROCK,
Acting Superintendent of Supplies.
(Aug. 22.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

NOTICE.

The Board of Street Commissioners in accordance with chapter 393 of the Acts of 1906 have passed orders for the laying out and construction of the following highways:

SOUTH BOSTON.

East First street, from H street to West First street.

EAST BOSTON.

Frankfort street, from Neptune road to Bennington street.

BRIGHTON.

Long avenue, from Commonwealth avenue to Allston street.

WEST ROXBURY.

Barbara street, from Centre street to South Huntington avenue.

Chapin avenue, from Mt. Vernon street to Preston street.

Edgemont street, from South street to Ainsworth street.

Houston street, from Crest street to Montview street.

Jewett street, from Neponset avenue to Mt. Hope street.

Kittredge street, from Norfolk street (now Rosecliff street) to Metropolitan avenue.

Rosecliff street, from Washington street to Kittredge street.

DORCHESTER.

Trescott street, from Pleasant street to Bakersfield street.

Washington street, from Armandine street to Mora street.

CITY PROPER.

Boylston street, on the northerly side easterly from Arlington street.

Notice is hereby given that the Public Works Department is about to do the work contemplated in said orders, and that all work to be done in said highways by all persons or corporations having rights in the same to lay or repair either sewer, gas, water or other pipes must be done before Saturday, September 19, 1914, as after that time no permits for openings will be granted until two years after said highways are completed.

L. K. ROURKE,
Commissioner of Public Works.
Boston, August 13, 1914.
(Aug. 22-29, Sept. 5.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWER AND APPURTENANCES IN MILTON AND HAMILTON STREETS, HYDE PARK.

The Commissioner of Public Works of the City of Boston, office 511, fifth floor, City Hall Annex, invites proposals for pipe sewer and appurtenances in Milton street, from Hyde Park avenue, 1,879 feet southeasterly, and Hamilton street, between Milton street and Trotting Park, Hyde Park, and giving bond therefor of a surety company approved by the commissioner in the sum of five thousand (\$5,000) dollars to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 511, fifth floor, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposals for Sewerage Works, Milton and Hamilton Streets," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Friday, September 4, 1914, with a certified check for one thousand (\$1,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. A deposit of ten (10) dollars will be required for each set of drawings and specifications taken for estimating purposes. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, August 20, 1914.

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWER AND DRAINS IN HUNTER STREET, DORCHESTER.

The Commissioner of Public Works of the City of Boston, office 511 fifth floor, City Hall Annex, invites proposals for pipe sewer and drains in Hunter street, between Norfolk and Morton streets, Dorchester, and giving bond therefor of a surety company approved by the commissioner in the sum of one thousand (1,000) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 511, fifth floor, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works, Hunter Street," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Wednesday, September 2, 1914, with a certified check for four hundred (400) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, August 20, 1914.
(Aug. 22.)

PROPOSALS FOR LAYING WATER PIPE.

The Commissioner of Public Works of the City of Boston, office 511, fifth floor, City Hall Annex, invites proposals for laying about 1,450 linear feet of 8 and 12 inch water pipe in Beach, India, Milk and Washington streets, city proper; Frankfort street, East Boston; C and Frederick streets, South Boston, and giving bond therefor of a surety company approved by the commissioner in the sum of five hundred dollars (\$500), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 49, fifth floor, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Laying Water Pipe," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Friday, August 28, 1914, with a certified check for two hundred dollars (\$200), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, August 20, 1914.
(Aug. 22.)

PROPOSALS FOR PIPE SEWER AND APPURTENANCES IN WATERFORD STREET, CITY PROPER.

The Commissioner of Public Works of the City of Boston, office 511, fifth floor, City Hall Annex, invites proposals for pipe sewer and drains in Waterford street, between Washington street and a point about 167 feet northwesterly, city proper, and giving bond therefor of a surety company approved by the commissioner in the sum of seven hundred (700) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 511, fifth floor, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works, Waterford Street," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Monday, August 31, 1914, with a certified check for three hundred (300) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, August 20, 1914.

DELINQUENT TAX SALES.

CITY OF BOSTON.

CITY COLLECTOR'S NOTICE.

The owners and occupants of the following described parcels of real estate situated in the City of Boston, in the County of Suffolk and Commonwealth of Massachusetts, and the public, are hereby notified that the taxes and assessments thereon severally assessed for the years hereinafter specified, according to the lists committed by the assessors of taxes of said City to me as collector of taxes for said City, including assessments for the suppression of gypsy and brown-tail moths, remain unpaid, and that the smallest undivided part of said land sufficient to satisfy said taxes and assessments, with interest and all legal costs and charges, or the whole of said land if no person offers to take an undivided part thereof, will be offered for sale by public auction at the City Collector's office, room numbered eleven, in the basement of City Hall, in said City of Boston, on Wednesday, September 2, A. D. 1914, at 9.30 o'clock a. m., for the payment of said taxes and assessments with interest, costs and charges thereon, unless the same shall be previously discharged.

The sums set against the following descriptions of the several parcels of land show the amounts due thereon respectively for the taxes and assessments for the nonpayment of which each of said parcels of land is to be sold, but not including the costs and interests thereon and costs and charges incident to this sale:

JOHN J. CURLEY,
Collector of Taxes for the City of Boston.

CITY OF BOSTON.

CITY COLLECTOR'S NOTICE.

SALE OF REAL ESTATE FOR UNPAID EGESTONE AND SIDEWALK ASSESSMENTS.

The owners and occupants of each of the parcels of real estate hereinafter described, situated in the City of Boston, in the County of Suffolk and Commonwealth of Massachusetts, and the public are hereby notified that the assessments made by the Board of Aldermen of said city prior to February 7, A. D. 1910, or the assessments made by the City Council of said city since the first Monday in February, A. D. 1910, on each of said parcels, respectively, for the benefit and advantage received by the parcel by the construction of an edgestone and sidewalk according to the list committed to me as Collector of Taxes of said city by said Board, or by said City Council, respectively, remain unpaid and that the smallest undivided part of each parcel sufficient to satisfy said assessments thereon with interest and all legal costs and charges, or the whole of the parcel if no person offers to take an undivided part thereof, will be offered for sale at public auction at the City Collector's office, room numbered eleven, in the basement of City Hall, in said City of Boston, on Wednesday, September 2, A. D. 1914, at 9.30 o'clock a. m., for the payment of said assessment and the costs and charges thereon unless the same be paid prior to the sale.

The sums set against the following descriptions of the several estates show the amounts due thereon respectively for the assessments for the nonpayment of which each of said estates is to be sold, but not including the costs and interests thereon, and costs and charges incident to this sale.

Lawrence Norton—About 4,500 feet of land on the northerly side of Hall street, adjoining an estate of Thomas H. and Mary E. Mitchell (numbered 54)..... 35 00
Also about 4,500 feet of land on the northerly side of Hall street, being lot 53, J. Edwin Jones plan, August 1, 1891, recorded Suffolk Deeds..... 35 00
Albert E. Pillsbury—About 5,000 feet of land on the southerly side of Catherine street, adjoining an estate of Nina M. Keefe (numbered 26)..... 35 00
Also about 5,000 feet of land on the northerly side of Catherine street, adjoining an estate of John Woodruff (numbered 21 and 23)..... 35 00

WARD TWENTY-FOUR.

Minnie F. Allen—Buildings and about 3,728 feet of land, numbered 9 Flint street..... \$26 60
Lorana T. Cole—Buildings and about 6,200 feet of land, numbered 124 Ashmont street..... 25 62
James V. Devine (supposed present owner Katie Fritz)—About 2,585 feet of land on the southerly side of Talbot avenue, being lot 5, T. J. McCarthy plan, February 20, 1909, recorded Suffolk Deeds..... 45 96
Catherine Doherty—Buildings and about 16,375 feet of land, numbered 123 Ashmont street..... 30 67
William Douse—About 4,589 feet of land on the northwesterly side of Maxwell street, adjoining an estate of Annie M. Williams (numbered 19)..... 59 00
Frederick L. Duncanson—Building, and about 3,231 feet of land, numbered 171 Talbot avenue..... 59 87
Rose J. Gallagher, Trustee under will of Maria M. Gallagher—Buildings and about 10,500 feet of land, numbered 13 and 15 Fuller street..... 31 57
Harriet B. Gilbert—About 4,763 feet of land on the southeasterly side of Centre street, being lot F, F. A. Foster plan, October 21, 1903, recorded Suffolk Deeds..... 52 04
Also about 4,766 feet of land on the southeasterly side of Centre street, being lot D, same plan..... 52 98
Also about 4,765 feet of land on the southeasterly side of Centre street, being lot E, same plan..... 52 98
Louis Greenblatt—Buildings and about 2,844 feet of land, numbered 297, 299, 301 and 303 Talbot avenue..... 61 88
Mary G. Griffin—Buildings and about 11,880 feet of land, numbered 628 River street..... 72 75
Winifred C. W. Harrington, Trustee of Adolph Wolff (assessed as Winifred C. W. Harrington)—Buildings and about 2,404 feet of land, numbered 287 Talbot avenue..... 17 46
Also buildings and about 2,775 feet of land, numbered 291 Talbot avenue, Lillian M. Harvey—Buildings and about 5,286 feet of land, numbered 156 Calender street..... 11 77
Ada T. Hayden—Buildings and about 3,774 feet of land, numbered 566 and 568 River street..... 50 62
James A. Hersey—Buildings and about 8,532 feet of land, numbered 516, 520, 522 and 524 River street..... 38 43
Ella F. Kimball—Buildings and about 5,668 feet of land, numbered 754, 756, 758 and 760 Washington street..... 96 94
Frederick L. Leach—Buildings and about 10,500 feet of land, numbered 9 Fuller street..... 87 91
Ida D. Lewis—Buildings and about 3,440 feet of land, numbered 167 Talbot avenue..... 31 64
John E. Poland—About 6,818 feet of land on the southerly side of Talbot avenue, being lot 44, Frank A. Foster plan, May 1, 1891, recorded Suffolk Deeds, excepting 40 feet taken by the City of Boston..... 44 15
Also about 4,860 feet of land on the southerly side of Talbot avenue, being lot 43, same plan..... 49 75
Also about 5,150 feet of land on the southerly side of Talbot avenue, being lot 42, same plan..... 38 66
Martha A. Poole—Buildings and about 3,150 feet of land, numbered 12 Hill-side terrace (now Clermont street).... 40 94
James H. and Mary V. Quinn (supposed present owner Margaret Fay)—Buildings and about 5,250 feet of land, numbered 21 Fuller street, registered in the Court of Land Registration, certificate number 4527..... 30 08
12 00

Annie E. Riley—Buildings and about 3,460 feet of land, numbered 93 Ashmont street.....	\$21 15
Walter H. Roberts—About 1,134 feet of land on the southeasterly side of Maxwell street, adjoining an estate of Sarah E. Whitney (numbered 40) ..	11 44

WARD TWENTY-FIVE.

Daniel T. Ring—Buildings and about 3,600 feet of land, numbered 16 and 18 Brackett street.....	\$22 27
Susan R. Romney—Buildings and about 3,200 feet of land numbered 15 and 17 Brackett street.....	21 83

JOHN J. CURLEY,

Collector of Taxes for the City of Boston.

THE SALEM FIRE.—A WARNING AND A LESSON.

BY JOHN E. LATHROP.

While handling gun-cotton some one lighted a cigarette in the laboratory of the Korn Leather Company's artificial leather factory in Salem, Mass. Three hours later, 250 acres of closely built territory had been burned over, swept bare of all structures; from \$10,000,000 to \$15,000,000 of property had been destroyed, 10,000 persons had been thrown out of employment, almost as many had been homeless, and industry in that busy manufacturing town of 45,000 population was paralyzed.

The Korn factory stood at 57 Boston street, on the northwest side of the city, at the base of the historic "Gallows Hill," where persons suspected of witchcraft were hanged in colonial times. The flames, licking up the combustible structure occupied by the Korn company, swept onward, fanned by a strong northwest wind. The conflagration gained power as it roared through the city, generating the terrible degrees of heat which characterize great urban fires, and ended only when, at the water front on the eastern side, it had devoured everything above the earth, to the famous old Elias Haskett Derby dock. In the early years of the nation there laid and thence sailed the ships which first conquered the Oriental trade for the United States.

As usual, instantly arose a great outcry by citizens of Salem and of other towns: "Why were not certain precautions taken to prevent such an awful catastrophe?" The lesson to be learned from the Salem conflagration, however, in answer to that frenzied query, is a lesson which practically every manufacturing town or city may at any time learn in New England, New York, Ohio and the other states which produce most of the goods of the country. It is a lesson of the evil results of a policy of procrastination, false economy, selfishness by some and negligence by all, which, taught by Salem this time, has been taught by every city which has burned, and will be taught by every city which is to burn in the future.

All the conditions which existed in Salem before the fire exist in almost every city of similar relationship to the country's industries. These conditions, now admitted to have existed, will be largely corrected if the ardor and enthusiasm for city planning remain in even a modicum of their present potency.

Besides the awful lesson, there is in the story of the Salem conflagration and the events which immediately followed, some comfort to humanity for the terrible losses entailed there. First, a relief fund of half a million flowed in during the eighteen days ensuing; the work of caring for the homeless was taken up vigorously, and the Legislature of Massachusetts enacted a law creating a Rebuilding Commission invested with complete authority over the

destroyed district, and with power to requisition the City Council for all funds needed, in the Commission's judgment, to remake the stricken portion of the municipality.

The Korn factory had no sprinkler system; adjoining were wooden dwellings; the streets were narrow; the water pressure was low; practically every house and manufacturing structure was of highly inflammable construction; most of the roofs of dwellings, and some factory roofs, were of shingles; many elevator wells were not enclosed; and with the intense heat thus generated—estimated in such conflagrations to approximate 3000 degrees Fahrenheit—almost every work of man that stood in the pathway of the flames was crumpled as though it had been made of paper.

The exceptions in this instance powerfully enforce the lesson. The part-wooden factory building of the Wilkinson Counter Company, on Margin street, on the edge of the holocaust, with the northwest wind sweeping the hottest flames directly toward it, remained standing, only the roof burned off, and the contents of the floors below the top one not destroyed. This building had an efficient sprinkler system.

Down in the "Point District," the site of the factories and homes of workmen of the Naumkeag Cotton Mills, had been erected a warehouse of reinforced concrete, with windows of wire-screen glass, fitted with iron shutters to close automatically by 150-degree thermostats. Inside, ten feet from the walls, was a second line of thermostats, connected with the sprinkler system. Back of the Naumkeag mills roared the whole force of the conflagration. The wind blew powerfully toward the mills; overhead, high in air, were heard those explosions common to such holocausts, and it seemed as though no work of man's hand could withstand the rush of that consuming heat. Nevertheless, the wire-screen glass and automatic iron shutters protected the reinforced concrete structure. The warehouse stands to-day, eloquent proof of the value of modern construction and equipment, and pleader for Salem's rebuilding on the same principle.

Another structure which escaped destruction was the electric lighting station, as nearly fireproof as a brick building can be made. It was in operation immediately after the flames which had raged around it had subsided.

It was, however, only by good fortune the historic "House of the Seven Gables," made famous by Nathaniel Hawthorne, was not destroyed, and many other treasured edifices were not swept away.

The lesson of the Salem disaster divides into two parts—the need for precautions against the starting of fires, and the need for means to prevent fires spreading into conflagrations.

A study of the Naumkeag warehouse shows how wire-screen glass withstood the heat. Although in places actually melted and twisted, it did not fall in or seriously expose the interior to the terrific heat of the outside air. Wherever the wire glass was used, in whatever character of building, it proved its worth in resisting the heat and saving property. The sprinkler systems were invaluable. In instance after instance contents of buildings were saved, even although the outside was scorched and in cases partly destroyed.

As a matter of course the presence of shingle roofs in the center of a city was an instant menace. This was so obvious that, even in the midst of the confusion following the disaster, the Common Council adopted an ordinance, without objection from any quarter, prohibiting any but slate or metal roofs in future construction.

To move traffic in narrow, congested streets is difficult enough. But to fight spreading fire in such streets is both inconvenient and dangerous, as well as virtually futile. Some of the roadways were not more than 20 feet wide, and many were less than 40. This only partially accounts for the spread of the fire; for certainly it was not proximity which caused the flames to jump several hundred feet across the Boston & Maine tracks into East Salem. However, it is sufficiently obvious to be almost axiomatic that too narrow streets invite conflagrations, and that Salem's destruction is in part due to its lack of thoroughfares of sufficient width.

The normal pressure of the water system was 40 pounds; during the conflagration it fell at times to 13 pounds. Men told me they were compelled to stand and see their dwellings burned, the water dribbling from the nozzles and failing to reach the second stories of the building, when it was evident that normal pressure would have enabled the salvage of their homes. On the fringe of the fire center these conditions permitted further spread. Had the pressure been maintained, it is estimated that at least a third of the destruction would have been prevented, or from \$3,500,000 to \$5,000,000. A high pressure system could have been installed and an auxiliary fire system constructed for much less than the smaller of the two sums.

Nearby lies a 140-square mile watershed, available for Salem's improved protection, and along Salem's bulkheads flow the ocean waters, convenient supply for an auxiliary fire-fighting system similar to that one which San Francisco installed, following its 1906 conflagration.

In Salem, as in all fire-swept cities, the lesson was impressed that it is not enough to have one system, but that some sort of auxiliary supply is needed, to be called into use if the ordinary system be crippled. For Salem, one proposal is to erect and equip an electric pump on the harbor front, to be started into operation at any moment by instructions over the telephone or otherwise so that, if the regular supply be cut off by the bursting of principal mains, and pressure lowered to a point rendering it useless, the auxiliary system may be cut in and the fire-fighting continue unimpeded.

It is proposed, too, to connect this auxiliary pumping station with an independent system of mains, which, in the light of experience, seems to be almost indispensable and the future method for all cities.

In the Korn factory an open elevator well, admittedly menacing to life and property, daily invited disaster. When that explosion took place in the laboratory of that concern, it shot through an opening of the wooden door, formed by the absence of two boards, into a shed filled with sheepskins and in which stood three barrels containing gun-cotton in small quantities.

Flames climbed the open elevator well, carrying the fire to the third story, where there was more inflammable material and a floor saturated with quick-burning substances.

It is true, of course, that much of the causation of the Salem conflagration was not essentially germane to city planning—for it is from lax operation of factories and entrusting to low-paid, unskilled labor the handling of an explosive of terrific power and constant menace that such fires often start.

But it is obvious, from a study on the ground, that had there been modern construction, modern requirements of all kinds that appertain to city planning, the

Korn fire probably would not have leaped onward to such dire results.

It has been agreed that the attempt to check the fire by dynamiting buildings was futile. This was true also in the San Francisco and Baltimore conflagrations. One reason is that there was none at hand who understood how to use dynamite. From the Salem disaster the suggestion came that all fire chiefs deputize a squad of men to learn the use of explosives, so that, when needed, they can blow up buildings effectively.

A three-story frame dwelling house stood a few feet from the Korn factory. Other dwellings were contiguous. These were as tinder. In fact, Salem's industrial and residential districts were intermixed in a sort of jumble, familiar, indeed, in all manufacturing towns; so that the portions burned were checker-boarded, the general area of highly inflammable structures being only occasionally dotted with fire-proof buildings. Of course, in most instances, the companies which had resorted to fireproof construction lost their property, because so many of their neighbors had not been compelled by law and its enforcement to safeguard their own property in the same manner.

The interdependence of one on the other finds brilliant illustration in this instance of the principle now coming into late acceptance, that "A man has the right to do with his own as he wills, but only in so far as the exercise of that right does not infringe the equal right of others to health, comfort and happiness."

PUBLIC IMPROVEMENTS AND ASSESSMENTS.

By HENRY S. CURTIS.

I cannot see why any city should boast of a low tax rate or a low assessment.

The revenues of many of the cities, especially in the South and Southwest, are not sufficient to run a city according to the standards of the twentieth century. Boards of trade are pushing for a low tax rate as an incentive for business to settle in the town, and there seems to be a feeling that a low tax rate will mean that the city will be a cheap city to live in. In actual fact, the city with low taxes will always be a second rate city municipally, but it will not necessarily be an economical city to live in. If the government is efficient and honest it should be able to furnish the common requirements cheaper by a collective bargain than the individual can by an individual bargain. This has certainly proved to be true in the case of the schools, of the police and fire departments, of the parks, and so forth. All of these improvements have added to the value of all the property in the city, and they have made the city more attractive as a place of residence.

The whole tendency in government everywhere is toward the addition of municipal functions. It seems reasonable to think that, in general, these new functions will add to the attractiveness of the city as a place of residence, and will hence increase the value of property; that they will furnish the common comforts and pleasures of life to very many who have heretofore gone without, and will hence raise the level of the citizenship; and where these new facilities are furnished to those who have secured them privately before it will be at much less cost.

A city cannot afford to put off to the future the improvements that are needed now. This imposes an unfair burden on the years to come, as they will have to bear both their own legitimate expenses

and the expenses which have been shirked by the present. All of the property in the city will be less valuable because the improvements have not been made. Prospective buyers will find the city unattractive, and they will also realize that the property they purchase will have to bear the burden of delayed improvements.

The great trouble lies with the assessment of the property. There are many wealthy men who always fight for a reduction of their assessment if it is brought up to a reasonable rate. In many of the Colorado towns the assessed valuation is not more than 10 per cent of the actual value. In many other places it is not more than 20 or 25 per cent. This would make little difference if the property were uniformly under-assessed and the tax rates were adjusted to this under-assessment; but often this is not the case. There are places in Colorado where the tax rate is nine cents on the dollar, and there still is not money enough to run the government. The city keeps down its portion of state taxes by a low assessment. It endeavors to raise the money for local purposes by having a high rate. Our American cities average about \$1,000 assessed valuation to each member of the population, and where a city is found to be assessed for \$400 or \$500 per person it must be suspected at once that something is wrong. In such cities the tax dodgers and the boards of trade, with their narrow ideas about prosperity, are often preventing the improvements that would mean a larger prosperity to the town.

The state of Ohio has recently passed a law placing the assessment of property in the hands of state assessors. This seems both the wise and natural method. The state is levying a very considerable proportion of the tax in any case, but it often does not get its due from certain sections on account of the under-assessment of the property. Local assessors cannot resist the pressure of friends and neighbors to keep their assessments down. The very chance of the re-election of the assessor depends mainly on his under-assessing the property. If any particular city would put its assessment up where it belongs, while the remaining cities of the state keep theirs where they are at present, this would mean in many cases that this particular city would bear from two to ten times its just share of the state taxes. As the government of our cities becomes more efficient and honest it is reasonable to suppose that the citizens will intrust larger and larger communal enterprises to the city, and that the taxes will constantly increase. It would not matter much surely if water, light and even street car service were put into the tax rate and furnished without individual charge. If the city government were efficient and honest we should probably get better service at no greater cost than at present. At the present time, however, a change of attitude toward taxation on the part of the public and a different method of assessment seem to be conditions that are essential to the larger success of the new social movements in many cities.

GOOD ROADS AND STREET PAVING.

During the year 1913 approximately \$206,000,000 was spent on good roads in the United States, according to the United States Department of Agriculture. Ten years ago the total expenditure was \$79,000,000, or a little over one-third that amount. Of the 1913 expenditure the individual states appropriated \$38,755,088 or about 19 per cent of the total, the other 81 per cent being furnished by counties, townships and other districts.

It seems safe to say, however, that without the state aid, which in most cases requires local appropriations before it becomes available, the amount spent would have been very much smaller.

This idea of state aid is now about twenty-three years old. It began when New Jersey in 1891 passed its state highway law, which quickly brought to that state a high reputation for its highways. In the following year Massachusetts and Vermont adopted state aid laws, but the idea did not extend rapidly until the automobile gave it an impetus. In 1904 fifteen states had state highway departments, while at present there are only six states which have not such departments or their equivalent.

But even more important than the fact that state appropriations have resulted in greatly increased mileage of road improvement is the effect of state aid upon the character of the work done. Probably an expenditure equal to at least double the state appropriation has been made under direct supervision of experts furnished by the state, while in a great many states such supervision is granted when asked for and in some is required to be accepted for all improved road work outside of municipalities. The effect of this upon the character of the work done has undoubtedly been of the greatest importance.

As so much good has resulted from the assistance given by the states and by the Federal government in planning and constructing good roads, there would seem to be equally good reason why state and Federal advice and aid could be given advantageously to municipalities in connection with street pavements, especially to the smaller cities and towns which cannot afford to employ the highest grade of engineering talent. The farmer now has at his disposal the best expert service available to advise him concerning his crops, his live stock, and now concerning the roads which he uses; but the cities, with their enormous populations, cannot look to the Federal government for advice on any of those subjects which are of peculiar interest to them. Possibly the nearest approach to this are the public service commissions which now exist in several states.

Why should not the Federal government maintain a bureau of public utilities, which should have at least as much authority and available funds as the Bureau of Roads of the Department of Agriculture? Our city officials need advice concerning street pavements, sewers, water works, street lighting and numerous other of the public utilities and functions which form so important a part of the life and activities of a modern city. Those cities which can and are wise employ expert advice on these branches of applied science; but many are not wise and many small municipalities are too poor and the Federal Bureau could render service in such cases. It could also conduct investigations which are greatly needed, but which no one individual or city could carry through—such as studying the run-off from sewered areas and other subjects which committees of engineering societies investigate from time to time.—*Municipal Journal*.

BOSTON STREET LIGHTING.

Total lamps, January 10, 1914, 18,493; i. e., 4,718 arc, 3,507 tungsten incandescent, 10,268 gas. Increase over 1913, 380 arc lamps, 1,364 tungsten incandescent, and a decrease of 1,506 gas lamps. Cost of electric lighting for year 1913, \$513,165, or \$41,983 more than in 1912; of gas lighting, \$264,682, or \$15,748 less than in 1912.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 6.

SATURDAY, AUGUST 29, 1914.

No. 35

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By SUBSCRIPTION \$1.00 Per Year.
SINGLE COPIES 5 Cents.

IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 25, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO ROOM 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS at 6 Beacon street, Room 725, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, August 31, at 3 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

LICENSING OF ELEVATOR OPERATORS.

Applications for licenses to operate passenger elevators, as required by recently enacted statute, may be obtained at the office of the Building Department, City Hall Annex.

PUBLIC HEARING.

The Board of Street Commissioners announce a public hearing, relative to the taking of land for park purposes on Hemenway street, Huntington Entrance and the Fenway, Roxbury, at the office of the Board, City Hall Annex, upon Monday, September 14, at 11 a. m.

NOTICE OF LAYING OUT AND CONSTRUCTION WORK.

Especial attention is called to the advertisement of the Public Works Department in the current issue of the *City Record* relative to the laying out and construction of highways in Dorchester, Roxbury and Hyde Park, and that all work in said highways relative to sewer, gas, water or other pipes must be accomplished before September 25, as after that time no permits for openings will be granted until two years after the said highways are completed.

BIDS FOR NAVAL SUPPLIES.

The present activity in Army and Navy circles has resulted in the opening of bids for many supplies. The attention of Boston merchants is particularly called to the following bids advertised by the Navy Department:

Bids will be received until September 1 for furnishing the following supplies: Schedule 7114, asphalt for use in repairing roads; schedule 7140, white ash, white oak; schedule 7125, night binoculars, deck clocks; schedule 7116, brass bolts and nuts, steel bolts and nuts, stud bolts; schedule 7139, rubber ferrules for chairs, galvanized sheet steel, porcelain tiles, pig tin; schedule 7138, high shoes; schedule 7172, automobile ambulance; schedule 7163, scrubbing brushes, self-closing bibb cocks, handles for deck scrubbing brushes, steam-jacketed kettles, hydraulic leather; schedule 7143, fire extinguishers; schedule 7166, composition-pipe fittings, water-tight portables, fire sand, composition unions, brass nuts; schedule 7175, grinding machine; schedule 7173, Roentgen-ray machine; schedule 7177, nainsook; schedule 7176, hand planer and jointer; schedule 7167, cotton canvas; schedule 7161, chopping axes, bits, gimlets, calipers, glass cutters, wire cloth, screw eyes, copper tacks, nails, brads, hinges, drawer locks, mortise locks, Arkansas oilstones, padlocks, measuring tapes; schedule 7168, galvanized iron or steel buckets; schedule 7159, oak crossing plank; schedule 7164, domestic oak, white pine, spruce; schedule 7174, steel armor plates; schedule 7165, open-hearth steel, steel plates; schedule 7160, metallic brown in oil, chrome green in oil, aluminum paint, tallow, artificial vermilion in oil. Tenders are invited until September 8 for the following supplies: Schedule 7178, track bolts, bolted frogs, rails, crossties, steel ties; schedule 7147, western bituminous coal; schedule 7171, copper, prismatic reflectors, brass pipe, boiler tubes, steel tubes; schedule 7170, Douglas fir; schedule 7150, water meters, angle valves, hose gate valves, elbows, flanges, tees, wrought-iron pipe; schedule 7148, oxygen in tanks; schedule 7169, drawer pulls, white gum shellac; schedule 7149, pipe fittings, lap-welded steel tubing.

Boston firms desiring to bid should make immediate application to the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., and give the schedule number of all bids for information desired, as printed above.

SOUTH END SEWER PROBLEMS.

By LOUIS K. ROURKE, *Commissioner of Public Works.*

A short story of the troubles of the South End sewerage system and what the city proposes to do to afford relief is as follows:

The portion of the South End in which the most trouble has been experienced is that part west of Washington street. Washington street is the old original Roxbury Neck, a very narrow strip of natural ground. All west of this was a part of the Back Bay and has been reclaimed by filling. While the streets have been filled to a reasonable height, the system of alleys and yards has been kept unusually low, and this was made possible and came about through the existence of what was known as the "Empty Basin," one of the basins into which the Back Bay was divided, and in which the water was kept very low, to wit, not above grade 3, this being a part of the tide-mill scheme which obtained for many years in the Back Bay. This "Empty Basin" afforded an artificial low outlet for this whole territory, and while it remained in existence allowed of this low filling, without the floods which would have ensued had the basin been subject to tidal conditions. When, however, the Back Bay came to be filled, in the 60's and 70's, the South End lost the benefit which it had enjoyed from the low level of water maintained in the "Empty Basin." It had no outlet left except the South Bay, which, of course, is under tidal conditions. When, therefore, a heavy rain occurred at high tide, the storm water, unable to escape into the South Bay, was stored in the low yards, alleys and cellars of this region west of Washington street, and the South End has suffered from this condition for many years.

It is obvious that there is but one course to pursue to afford relief, namely, to put in a powerful pumping plant to raise the water and eject it into the South Bay, at such times as those described above, when it will not flow by gravity. This is what the city is about to do—putting in a pumping station at the corner of Albany and Union Park streets, and a line of low level sewer running through Union Park street, Clarendon street, Montgomery street, along Alley 501, west of Tremont street, between Canton street and Massachusetts avenue, West Canton street, from this alley to Columbus avenue, in the alley between Concord square and Worcester street, thence through Alley 503, across Columbus avenue to Greenwich park.

These are the main lines which it is hoped will give adequate outlets to the existing sewers and obviate any further flooding without any very extensive sewer reconstruction.

The sewer in Union Park street is the main sewer for the relief of those portions of the South End which have suffered most from flooding by storm water. Most of these are within the drainage area of the Union Park street sewer or can be reached and drawn into this district by lateral sewers from the Union Park street system. The sewer consists in reality of two sewers, one superimposed upon the other. The upper one is built at about the same grade as the existing Union Park street sewer. It is more capacious and is designed to drain all those portions of the district which can be drained by gravity. The lower sewer is connected by laterals with those portions of the district which will not drain satisfactorily by gravity but require the assistance of

pumps. Both sewers receive both house sewage and storm water, and in dry weather the upper sewer will drain into the interceptor in Albany street through a regulator. The lower sewer will have a direct connection with the interceptor through a pair of tide gates, the object of which is to allow the water in the lower sewer to be pumped to a lower level than that in the interceptor, as the water in the interceptor rises too high to drain the low districts. In time of storm the upper sewer will discharge as the existing sewer now does directly into the South Bay, and the lower sewer as soon as its flow ceases to be carried off by the interceptor will have its contents lifted and discharged into the South Bay by a pumping station to be built at the junction of Union Park street and Albany street. This double sewer will drain an area roughly bounded by Dedham, Tremont and Northampton streets, the New York, New Haven & Hartford Railroad, Tremont and Dover streets.

The total expenditure upon the system, including the pumping station, will be about \$385,000. The pumping station will cost about \$96,000; will have 525 horse power and a capacity of 105,000 gallons per minute. It should be ready to go into operation late this year or early next year, and will be the largest of its kind in the world.

It is interesting to consider this proposition from a purely financial point of view, that is, as a business proposition for the city. Of course this is not the only point of view; the people of this district have a moral right to call upon the city to furnish them with as good sewerage facilities as other parts of the city have.

The total valuation of the land along the district is \$24,632,400, of which \$4,067,000 is exempt, the balance, \$20,564,800 is taxable.

Assuming that the benefit accruing from a good sewer system, the relief from constant floodings, would be reflected in the land value, the city can well afford to spend \$385,000 in improving the sewer system of the South End. An increase in land valuation of 10 or 15 per cent during, we will say, the next five years, would be a very conservative estimate. Ten to 15 per cent would mean \$2,000,000 to \$3,000,000.

It seems obvious, therefore, that the improvement of the South End sewerage system cannot fail to be a paying investment for the city.

The reason that this district has been allowed to suffer so long—fifty years—without relief is that each successive investigation led to the same conclusion, that no relief was practicable except by pumping, and the great cost, particularly of maintenance of a steam-power station, kept constantly in condition, with steam up, for only occasional use staggered the city government. This difficulty has been surmounted by the adoption of electrically driven and automatically controlled centrifugal pumps. For this kind of a plant no large maintenance force, in three shifts a day, will be necessary, as would be the case with a steam-driven pumping plant.

CITY BUYS FENWAY LANDS.

On the 26th instant Mayor Curley instructed the Street Commissioners to close the arrangements for taking over the land owned by former Governor Foss, in the Back Bay Fens, adjoining the Forsyth Dental Institute, at a cost of \$140,600.

COCOANUT TREE.

By CAPT. JOHN H. DILLON, *Chairman of the Park and Recreation Department.*

One of the most interesting, as well as useful, of the family of palms, is the coconut tree, both as regards the variety and the utility of its products. It is a native of the tropics and flourishes best when grown near the seashore, although it can be cultivated inland. On almost all the coral islands in the tropics this tree can be found; the nuts, growing near the water's edge, fall into the sea, and are washed upon the islands where they quickly vegetate.

The nut or fruit is put to many uses — the fiber which covers the outside for making cordage, mats, brushes, bags, a kind of cloth, etc., and the shell, which takes a very high polish, for drinking cups, etc. The meat of the nut is white, of a very pleasant taste and is much used by confectioners. The nut also contains a liquid, called "the milk," a cooling and refreshing drink, and, in addition, produces the cocoanut oil.

Some parts of the trunk of this tree are quite hard, take a fine polish and are used for inlaying. The natives use the trunk for hut building and other construction work.

The leaves are used for thatching roofs of the native huts, making baskets for holding fish or fruit, and many other articles. When burned, the leaves yield a goodly quantity of potash, which is used for washing, instead of soap. From the flower stems is made a drink called "arrack," a very ardent spirit. In the tropics no part of the tree is wasted.

OPENING OF COMMERCIAL OFFICE.

Hon. Albertus H. Baldwin, Chief of the Bureau of Foreign and Domestic Commerce, Washington, D. C., sends out formal notice this week of the opening of a branch office of the Bureau in Boston, in charge of Mr. F. L. Roberts. There will be a wide distribution of commercial information relative to Boston, Massachusetts and New England. The temporary quarters of the branch office of the Bureau will be at the Boston Chamber of Commerce.

CHILDREN EXHIBIT AT PLAY-GROUNDS.

Dr. Thomas F. Harrington, Director of School Hygiene, announces that demonstrations will be made by the children of the Boston Public Schools at the playgrounds of the city, and under the auspices of the Boston School Committee, as follows:

Saturday, August 29, Franklin Field, Dorchester, 3.30 p. m., by the children from the following playgrounds:

Dorchester Park; Neponset; Christopher Gibson; Ashmont; Franklin Field; Ripley; Comins; Crocker; Parker Hill; School Street; John Winthrop; Marcella; Nathan Hale; Phillips Brooks.

Wednesday, September 2, Wood Island Park, East Boston, 3 p. m., by the children from the following playgrounds:

Plummer; Cottage Street; Theodore Lyman; Emerson.

Friday, September 4, Boston Common, 3 p. m., by the children from the following playgrounds:

Boston Common; William Eustis Park; William Eustis School; Charlesbank; Washington Roof; Orchard Park; Fellows Street; Lafayette; Hancock; Prince Street; Columbus avenue; Franklin Square; Randolph Street; Wendell Phillips.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

BOSTON TRANSIT COMMISSION.

Advertisers for proposals for furnishing labor and materials required for bronze and other metal work for the two entrances to the Dartmouth street lobby, Copley Station, Boylston Street Subway. Specifications and forms of contract may be obtained at the office of Fox & Gale, architects, 3 Park street, Boston. Bids to be filed at the office of the Boston Transit Commission, 15 Beacon street, Boston.

Bids close Wednesday, September 2, at 12 m.

PUBLIC WORKS DEPARTMENT (Paving Service).

Advertisers for proposals for artificial stone sidewalks in Anawan avenue (westerly side), from Park street to West Roxbury Parkway; Oriole street (southerly side), from Park street to Bellevue street; Park street (southerly side), from Gilmore terrace to Boxford terrace, West Roxbury. Surety bond will be required in the amount of \$1,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, September 8, at 12 m.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Advertisers for proposals for pipe sewer and drains in Waterford street, between Washington street and a point about 167 feet northwesterly, city proper. Surety bond will be required in the amount of \$700. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, August 31, at 12 m.

Advertisers for proposals for pipe sewer and drains in Hunter street, between Norfolk and Morton streets, Dorchester. Surety bond will be required in the amount of \$1,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$400, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, September 2, at 12 m.

Advertisers for proposals for pipe sewer and drains in City square, Charlestown, between Main and Harvard streets. Surety bond will be required in the amount of \$300. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$100, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Thursday, September 3, at 12 m.

Advertisers for proposals for pipe sewer and appurtenances in Milton street, from Hyde Park avenue 1,879 feet southeasterly, and Hamilton street, between Milton street and Trotting Park, Hyde Park district. Surety bond will be

required in the amount of \$5,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$1,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, September 4, at 12 m.

SUPPLY DEPARTMENT.

Advertisers for proposals for furnishing the various departments of the City of Boston for the next twelve months:

500 boxes of soap.
35,000 boxes of soap powder.
7,300 pounds of soft soap.
8 tons of common soap.
25 barrels of soap chips.

Surety bond will be required in an amount equivalent to one-quarter of the contract. Samples of the supplies must be left with the proposals. Blank forms for proposals may be obtained at the office of the Superintendent of Supplies, SOS City Hall Annex. Bids, accompanied by a certified check in the amount of \$200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, August 31, at 12 m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending Thursday, August 27, 1914:

COLLECTING DEPARTMENT.

James W. Gibbons, at present a clerk in the department, has been appointed to the position of Deputy Collector, at the same salary which he is now receiving, namely \$1,200 per annum, taking effect August 22, 1914.

FINANCE COMMISSION.

The employment of Florence Larkin, stenographer, and Helen Campbell, visitor, have been extended for a further period of ten days and two weeks, respectively, from the 21st instant.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital during the past week:

To Fill Vacancies.

Permanent.—William H. Wood, kitchenman, \$34 per month; Bridget Donahue, ward helper, \$5 per week; David P. Dilks, orderly, \$35 per month; Mary R. Smith, head nurse, re-employed, \$35 per month; George Manradian, sculleryman, \$25 per month; Martha Urholt, cook, \$30 per month; Ellen Hope, cook, re-employed, \$30 per month.

Temporary.—Dr. Richard S. Austin, assistant pathologist, re-employed, \$133.33 per month; Sadie Cronin, kitchenwoman, \$20 per month; Jennie Ireland, chambermaid, \$4.50 per week.

The following employees have had increase of wages:

Onofrid D. Loiacono, porter, \$25 to \$30 per month; Mary Dillon, vegetable cook, \$20 to \$21 per month; Ruth C. Reilly, nurse, \$5 to \$8.33 per month; Margaret T. Crotty, nurse, at \$12.50, to head nurse, at \$35 per month.

PENAL INSTITUTIONS DEPARTMENT.

James E. Perry has been appointed to the position of temporary pilot on the

steamer "Monitor" for four weeks, beginning September 8, 1914, at a salary of \$3 the day.

POLICE DEPARTMENT.

The Mayor has approved the retirement of Patrolman William J. Healey of Division 7, who for twenty-one years has served as a member of the department, and his name will be placed upon the pension roll, and he will be allowed the sum of \$700 the year, the said sum being one-half of the amount of compensation received at the time of retirement.

Patrolman Healey is fifty-four years of age, and is suffering from heart trouble and blood pressure which incapacitates him for further active service in the department.

General Order No. 884.

The Board of Health of the City of Boston having made requisition, under the provisions of chapter 287, Acts of 1911, for the transfer to its service of Patrolman John S. Donahue of Division 11, such transfer is hereby ordered, to take effect Wednesday, August 26, at 7.45 a. m.

General Order No. 885.

A Trial Board, consisting of Captains Kimball, Goodwin and Lee, having heard by reference a complaint against Patrolman Charles M. Houghton of Division 7, charging him with unbecoming conduct, has reported a finding of not guilty, in accordance with which it is hereby ordered that the complaint against the said Patrolman Houghton be dismissed, and that he be restored to duty.

PUBLIC WORKS DEPARTMENT (Sanitary Service).

Patrick J. Donovan has been employed in the service as laborer with wages at \$2.50 the day.

OVERTIME ALLOWED.

The heads of various departments whose employees have received payment for overtime state in connection therewith that if any laborer has been allowed to work more than eight hours per day it has been only in case of emergency under the law.

Hospital Department.

For the week ending Thursday, August 27, 1914:

Main Department.—B. J. Sandiford, assistant engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; W. T. Slater, assistant engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; N. MacPherson, assistant engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; R. W. Jaeger, assistant engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; E. F. Cochrane, assistant engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; W. E. Thompson, laundry engineer, 8 hours at \$0.37 $\frac{1}{2}$ per hour, \$3. Total, \$20.50.

Public Works Department (Ferry Service).

For the week ending Monday, August 24, 1914:

Overtime involving no extra expense to the city, being payment for services of men taking places of men absent from duty:

William H. Harding, gateman, 3 hours at \$3.25 per day, \$1.22; Christopher T. Leonard, gateman, 5 hours at \$3.25 per day, \$2.03; John H. McInnis, regular extra deckhand, 8 hours at \$2.50 per day, \$2.50; Thomas L. Cody, lamplighter, 8 hours at \$2.30 per day, \$2.30. Total, \$8.05.

Public Works Department (Paving Service).

For the week ending Thursday, August 27, 1914:

Henry J. O'Neil, inspector, $3\frac{1}{2}$ days at \$3.50, \$13.56; Patrick H. Connolly, inspector, 3 days at \$3.50, \$10.50. Total, \$24.06.

Public Works Department (Sanitary Service).

For the week ending Monday, August 24, 1914:

Patrick O'Rourke, veterinary assistant, $\frac{1}{2}$ day at \$2.75, \$1.38.

Public Works Department (Sewer Service).

For the week ending Monday, August 24, 1914:

Office.—Michael J. Dagle, inspector, $3\frac{1}{2}$ days at \$3.50, \$12.25; George A. Chase, inspector, $1\frac{1}{2}$ days at \$3.50, \$5.25; John F. Mullin, inspector, $1\frac{1}{2}$ days at \$3.50, \$6.13.

Districts 1, 7 and 8.—Timothy Reardon, sewer cleaner, 2 days at \$3, \$6; Michael Patten, laborer, $1\frac{1}{2}$ days at \$2.75, \$4.13; Martin Tynan, teamster, $1\frac{1}{2}$ days at \$2.50, \$3.75; James Clancy, sewer flusher, $1\frac{1}{2}$ days at \$3, \$4.50; Michael Mulvey, laborer, $1\frac{1}{2}$ days at \$2.75, \$4.13; Cornelius Sullivan, teamster, 2 days at \$2.75, \$5.50; Timothy Kennedy, teamster, $1\frac{1}{2}$ days at \$2.50, \$3.75; John O'Connor, laborer, $1\frac{1}{2}$ days at \$2.75, \$4.13; Peter Keenan, laborer, $1\frac{1}{2}$ days at \$2.75, \$4.13. Total, \$63.65.

Public Works Department (Water Service).

For the week ending Monday, August 24, 1914:

P. Foley, inspector, $2\frac{1}{2}$ days at \$3.50, \$7.44; D. Sullivan, transitman, 3 days at \$1.40 per year, \$9.37; J. Begley, repairer, $\frac{3}{4}$ day at \$3, \$2.25; J. Breen, laborer, $\frac{3}{4}$ day at \$2.50, \$0.94; D. Burke, laborer, $\frac{3}{4}$ day at \$2.50, \$1.88; H. Campbell, repairer, $\frac{3}{4}$ day at \$3, \$1.13; M. F. Daly, laborer, $\frac{3}{4}$ day at \$2.50, \$0.94; M. Durand, inspector, $\frac{1}{2}$ day at \$3.50, \$3.06; J. Hourihan, laborer, $\frac{3}{4}$ day at \$2.50, \$1.88; J. W. Kelly, laborer, $\frac{3}{4}$ day at \$2.50, \$0.94; P. Kelly, inspector, $3\frac{1}{2}$ days at \$3.50, \$11.16; J. Lyons, laborer, $1\frac{1}{2}$ day at \$2.50, \$1.48; J. McCarthy, repairer, $1\frac{1}{2}$ day at \$2.75, \$1.46; W. O'Connor, inspector, $1\frac{1}{2}$ day at \$3.50, \$3.28; M. O'Day, laborer, $1\frac{1}{2}$ day at \$2.50, \$1.33; T. Riley, laborer, $1\frac{1}{2}$ day at \$2.50, \$1.48; I. Saperstein, repairer, $1\frac{1}{2}$ day at \$3, \$1.78; C. Sullivan, laborer, $\frac{3}{4}$ day at \$2.50, \$1.88; J. Morrissey, plumber, $1\frac{1}{2}$ days at \$3.50, \$5.25; J. Ryan, plumber, $1\frac{1}{2}$ days at \$3.50, \$5.25; P. Coleman, laborer, $1\frac{1}{2}$ days at \$2.50, \$2.81; H. Cauley, repairer, $1\frac{1}{2}$ days at \$2.75, \$3.09; P. Cassen, laborer, $\frac{1}{4}$ day at \$2.50, \$0.63; P. Doherty, laborer, $\frac{1}{4}$ day at \$2.50, \$0.63; F. Skaynor, repairer, $1\frac{1}{2}$ day at \$2.75, \$1.89. Total, \$73.23.

IMPROVING DORCHESTER BAY.

The dredging of Commercial Point channel, Dorchester Bay, is to begin immediately, for the Port Directors at their regular meeting voted to award the work to the lowest bidder, Charles M. Cole of Fall River, whose bid, received with the others last Friday, was almost \$3,000 less than the figures of the next lowest bidder, the Eastern Dredging Company. The amount of \$58,000 was appropriated by the last Legislature for this dredging and the bid of C. M. Cole was 23 cents a cubic yard for 228,500 cubic yards to be removed, a total of \$52,555.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending August 27, 1914:

PUBLIC WORKS DEPARTMENT (Sewer Service.)

Upon August 26 the Mayor approved a contract with Antony Cefalo for sewerage works in Bellvista road and Matchett street, Brighton. Bids for the work, opened August 14, were as follows:

Antony Cefalo, \$1,972.90; M. De Sisto, \$2,150.10; William L. Dolan, \$2,178.70; Louis Balboni, \$2,261; T. J. O'Connell, Company, \$2,289.30; Charles J. Jacobs Company, \$2,334.70; John F. Lynch,

\$2,341.80; John J. Lane, \$2,442.75; George J. Regan, \$2,650.50.

Upon August 27 the Mayor approved a contract with Louis Balboni for sewerage work in Long avenue, between Commonwealth avenue and Allston street, Brighton. Bids for the work, opened August 20, were as follows:

Louis Balboni, \$459.50; T. J. O'Connell Company, \$476.05; Charles J. Jacobs Company, \$560.50; R. Cartullo, \$750.06.

PUBLIC WORKS DEPARTMENT (Water Service.)

Upon August 27 the Mayor approved a contract with Charles M. Callahan for laying 500 linear feet of 10-inch water pipe in Pitts street, city proper. Bids for the work, opened August 10, were as follows:

Charles M. Callahan, \$453; John Guarino, \$467; John T. Shea, Jr., \$536.76.

SCHOOLHOUSE DEPARTMENT.

Upon August 27 the Mayor approved a contract with Kenney Brothers & Wolkins for furnishing pupils' furniture in various schoolhouses in the city. Bids for the supply, opened July 21, were as follows:

Item 1.

	Heywood Brothers & Wakefield Company.	Kenney Brothers & Wolkins.	American Seating Company.

The primary school desk irons were awarded to the same firm at \$1.05 on account of superior workmanship and material.

SCHOOLHOUSE DEPARTMENT.

Upon August 27 the Mayor approved a contract with the W. A. Snow Iron Works for fire escapes at the Frothingham School, Prospect and Edgeworth streets, Charlestown. Bids for the work, opened August 21, were as follows:

W. A. Snow Iron Works, \$5,151; American Architectural Iron Works, \$5,585; Market Forge Company, \$6,965.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC BUILDINGS DEPARTMENT.

By reason of the facts presented by Superintendent Richard A. Lynch of the Department of Public Buildings, the Mayor has approved a contract with the Somerset Company, Inc., for furnishing electric current for the Suffolk County Courthouse.

The communication of Superintendent Lynch is as follows:

CITY OF BOSTON,

PUBLIC BUILDINGS DEPARTMENT,
August 24, 1914.

HON. JAMES M. CURLEY,
Mayor of Boston:

DEAR SIR,—Authority is respectfully requested to award a contract, without advertising, to the Somerset Company, Inc., for furnishing electric current for the Suffolk County Courthouse for the term of five (5) years, for the price of four (4) cents per kilowatt.

This authority is requested because the only other concern from whom the electric current can be purchased is the Edison Company, at a price of six (6) cents per kilowatt.

The proposed contract will effect a large saving to the city.

Respectfully yours,

RICHARD A. LYNCH,
Superintendent of Public Buildings.

PUBLIC WORKS DEPARTMENT.

The Commissioner of Public Works states his intention to construct a sanitary sewer of 10-inch earthen pipe and a surface drain of 12, 18 and 20 inch earthen pipe in Museum road, between Huntington avenue and the Fenway, Roxbury, at an estimated cost of \$7,374.

The Commissioner of Public Works states his intention to construct a sanitary sewer of 12-inch earthen pipe and a surface drain of 12-inch earthen pipe and one basin in Chestnut street, between Brimmer street and the Charles River Embankment, city proper, at an estimated cost of \$3,290.

The Commissioner of Public Works states his intention to construct a surface drain and 10 and 15 inch earthen pipe and three basins in Folsom street, between Mt. Hope street and Neponset avenue, West Roxbury, at an estimated cost of \$2,020.

The Commissioner of Public Works states his intention to construct surface drains of 10, 15, 18 and 20 inch earthen pipe, and eleven basins in Jewett street, between Mt. Hope street and Neponset avenue; in Mt. Hope street, between Bradstreet and Hyde Park avenues; in Neponset avenue, between Stony brook and Folsom street, West Roxbury, at an estimated cost of \$8,735.

The Commissioner of Public Works states his intention to construct a surface drain of 10-inch earthen pipe (four basins

between Commonwealth avenue and Allston street) in Long avenue, between Price road and Allston street, Brighton, at an estimated cost of \$1,250.

The Commissioner of Public Works states his intention to construct a surface drain of 10 and 12 inch earthen pipe and four basins in Houston street, between Montview and Crest streets, West Roxbury, at an estimated cost of \$960.

The Commissioner of Public Works states his intention to construct a surface drain of 15-inch earthen pipe in Montview street, between a point 30 feet northeast of Kirk street and Park street, West Roxbury, at an estimated cost of \$855.

The Commissioner of Public Works states his intention to construct a surface drain of 10 and 12 inch earthen pipe and two basins in Barbara street, between Centre street and South Huntington avenue, West Roxbury, at an estimated cost of \$725.

The Commissioner of Public Works states his intention to construct a surface drain of 10-inch earthen pipe in Edgemont street, between South and Ainsworth streets, West Roxbury, at an estimated cost of \$980.

The Commissioner of Public Works states his intention to construct a surface drain of 20-inch earthen pipe and of concrete 2 feet 3 inches in diameter in Hillside avenue, between Poplar street and Clarendon avenue, West Roxbury, at an estimated cost of \$2,575.

The Commissioner of Public Works states his intention to construct a surface drain of concrete 2 feet 6 inches in diameter in Clarendon avenue, between Hillside and Augustus avenues, West Roxbury, at an estimated cost of \$2,425.

The Commissioner of Public Works states his intention to construct surface drains of 10, 12, 18 and 24 inch earthen pipe and seven basins in Whitford street, between Augustus avenue and Kittredge street; in Kittredge street, between Whitford street and Metropolitan avenue; in Rosecliff street, between Kittredge and Washington streets, West Roxbury, at an estimated cost of \$3,560.

The Commissioner of Public Works states his intention to construct a sanitary sewer of 12-inch earthen pipe in Waterford street, from Washington street about 193 feet westerly, city proper, at an estimated cost of \$1,367.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

PUBLIC WORKS DEPARTMENT.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force, without advertising for competitive bids:

Resurface with asphalt macadam Blue Hill avenue, from Seaver street to Columbia road. The estimated cost for labor and materials being \$2,800.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by his Honor the Mayor:

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$39, on contract with McGahey & O'Connor for work at the Oliver Wendell Holmes lower school. For change of swing of windows and hardware upon windows, in fan room, and cutting down the size of brick piers and plaster ends of piers. Original contract, \$68,000; total additions, \$1,674; total deductions, \$9,260; contract as standing, \$60,414.

CLAIMS.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of the Orange Street Market, Incorporated, in the amount of \$13.15, for compensation for damage to wagon, upon East Boston ferryboat, February 25, 1914.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Merrifield & Co., in the amount of \$102, for compensation for injury to horse, caused by broken catch-basin cover, opposite 105 Rutherford avenue, Charlestown, July 20, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Marshall G. Wright, in the amount of \$12.15, for damage to his property, 128 Gold street, South Boston, caused by overflow of sewer, December 28, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of J. W. Brion, in the amount of \$80, for damage to his property, caused by backing up of sewer, at 145 G street, South Boston, August 27, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Cora V. Hutchins, in the amount of \$73.83, for compensation for expenses incurred by break in main sewer at 192-194 West Selden street, Dorchester, August and September, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Annie E. Dwyer, in the amount of \$75, for compensation for damage to property at 32 Chestnut street, Jamaica Plain, caused by backing up of sewer, in June, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Mary T. Qualters, in the amount of \$7, for compensation for curtains destroyed by an ash cart of the city, in yard at 27 Hampden street, Roxbury, December 8, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of J. Rush Green, in the amount of \$18.65, for compensation for damage to property, caused by backing up of sewer, at 100 Arlington avenue, Charlestown, March 2, 1914.

The Mayor has approved the claim of Lydia S. Walker, in the amount of \$175, for damages occasioned her estate in Mascot street, Dorchester, by the laying out of this street, and in confirmation of the order of the Board of Street Commissioners.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Herbert E. Phinney, in the amount of \$68, for expense incurred by him in repairing house drains at 7 and 8 Williams-street terrace, West Roxbury, caused by break in water main, in January, 1914.

STREET COMMISSIONERS.

The Mayor has formally approved the order of the Board of Street Commissioners in the taking of land for sewerage works in Hemman street, West Roxbury.

The first parcel of land contains 1,315 square feet, more or less, and is supposed to be the property of Michael J. Crowley.

The second parcel of land contains 500 square feet, more or less, and is supposed to be the property of Ellen S. Murphy.

The third parcel of land contains 9,670 square feet, more or less, and is supposed to be the property of Benjamin S. Wells, Elizabeth Perkins, James W. Sargent and the trustees of John D. Bryant.

The sewerage works to be constructed are as follows: A 10-inch pipe sanitary sewer, a 20-inch pipe surface drain and a 2-foot 3-inch concrete surface drain.

The Board of Street Commissioners determines that no person sustains damages in his estate by the taking for and construction of the sewerage works and awards no damages therefor.

The Mayor has approved the order of the Board of Street Commissioners in the taking of land for sewerage works in Museum road, Roxbury, being part of a private way.

The parcel of land contains 4,700 square feet, more or less, and is supposed to belong to owners unknown.

The sewerage works to be constructed are as follows: About 585 feet of 10-inch pipe sanitary sewer, about 585 feet of 12, 18 and 20 inch sewer pipe surface drain, in the above described premises, in the said private way, Museum road, from Huntington avenue to the Fenway.

The Board determines that no person sustains damages to his estate by the taking for and construction of the sewerage works, and awards no damages therefor.

The Mayor has approved the order of the Board of Street Commissioners in the taking of land for sewerage works in the private ways known as Augustus, Clarendon and Hillside avenues.

The parcels of land contain 14,016 square feet, more or less, and are supposed to belong to owners unknown.

The sewerage works to be constructed are as follows: about 424 feet of 2-foot 6-inch circular concrete surface drain in Clarendon and Augustus avenues; about 142 feet of 20-inch pipe surface drain and 389 feet of 2-foot 3-inch circular concrete surface drain in Hillside avenue, being parts of the private ways known as Augustus avenue, at Clarendon avenue, of Clarendon avenue, from Augustus to Hillside avenues, and of Hillside avenue, between Clarendon avenue and Poplar street.

The Board determines that no person sustains damages to his estate by the taking for and construction of the sewerage works and awards no damages therefor.

OPENING OF SCHOOLS.

The Boston School Committee announce that the public schools of the city will reopen upon Wednesday, September 9, 1914.

Examinations for admission to the high and Latin schools will be held as follows:

Latin Schools.—On Tuesday, September 8, 1914, at 9 o'clock a. m., boys will be examined at the Public Latin Schoolhouse, Warren avenue; girls at the Girls' Latin Schoolhouse, Huntington avenue, near Longwood avenue. Candidates are required to pass an examination equivalent to that required for admission to the seventh grade of the elementary schools. The subjects of examination will be English language, including reading, writing and spelling; geography and arithmetic.

High Schools.—On Tuesday and Wednesday, September 8 and 9, 1914, at 9 o'clock a. m., boys and girls will be examined at the Normal Schoolhouse on Huntington avenue, near Longwood avenue. The subjects of examination will be English language, including reading, writing, spelling; grammar and composition; history and civil government of the United States; geography and arithmetic.

Attendance will be required both days.

FIRE DEPARTMENT ORDERS.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, August 24, 1914.

General Orders No. 119.

I. LICENSES AND PERMITS.

1. Under authority of chapter 795, Acts of 1914, the Acting Fire Prevention Commissioner has delegated his authority to issue permits for blasting, transportation of explosives, and discharge, storage and sale of fireworks to the Fire Commissioner. He has adopted the current regulations issued at different times by the chief of district police under authority of chapter 370, Acts of 1904, and chapter 565, Acts of 1910, and until further orders the above permits will be issued as at present.

2. The Acting Fire Prevention Commissioner has delegated his authority to issue licenses for the storage of explosives, the storage, handling, sale or use of gasoline to the Board of Street Commissioners. Hereafter it shall not be necessary to hold a permit from the Fire Commissioner or district police to store explosives, or to store, handle or sell or use gasoline. The foregoing licenses, however, before being issued by the Street Commissioners, must be approved by the Fire Commissioner, which will be done in the same manner as the garage licenses are now handled by the Board on Gasoline Licenses.

II. PLACES OF BUSINESS IN DOORWAYS, ETC.

1. Hereafter, before licenses are granted for business locations in doorways, or entrances to buildings or courts, the application for such license will be forwarded to this office by the Board of Street Commissioners for approval or disapproval. This application will be sent to the district chiefs, who will approve or disapprove same and return it to headquarters immediately. If the application is returned disapproved, the district chief will state, on a separate communication, the reasons for such disapproval.

By order of the Fire Commissioner,
PETER F. McDONOUGH,
Chief of Department.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, August 24, 1914.

General Orders No. 120.

HEARING.

A hearing was held July 27, 1914, on a charge preferred by the Boston Finance Commission against Lieutenant Francis J. Dermody of Ladder Company 14:

Charge.—Conduct unbecoming a member of the department.

Plea.—To charge and specifications. Not guilty.

Finding.—To charge and specifications: It appearing to the commissioner that sufficient evidence has not been adduced to sustain the charges brought, the charges are hereby dismissed.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, August 24, 1914.

General Orders No. 121.

I. CHANGES IN FIRE ALARM BOX NUMBERS.

1. The following changes in fire alarm box numbers are hereby ordered to become effective on and after 12 o'clock noon (the striking of the meridian blow on the gongs in the houses) on Thursday, August 27, 1914:

LOCATION.	Present Number.	New Number.
Washington and West streets.....	43	1461
R. H. White Company.....	745	1462
Chauncy street and Rowe place...	752	1463
W. & A. Bacon Company.....	743	1465
Washington street, opposite Bovlston street.....	53	1471
Gordon's Olympia Theater.....	732	1472
Globe Theater.....	757	1473
Gaiety Theater.....	756	1474
Hotel Touraine.....	722	1475
Washington and Hollis streets.....	67	1481
Hollis Street Theater.....	737	1482
Boston Industrial School, Common street.....	1477	1483
Harrison avenue and Kneeland street.....	751	1491
Hudson and Oak streets.....	57	1493
Quincy School, Tyler street.....	2146	1494

2. Changes on circuit cards will be made to conform to the new numbers.

3. These changes will be made in the small fire alarm books.

4. Old assignment cards will be returned to these headquarters not later than Monday, August 31, 1914. Company commanders will mark the company number on the back of each card.

5. This order will be posted at the patrol desk for five days.

II. CHANGE IN AUTOMATIC SIGNAL.

1. On and after 12 o'clock noon (the striking of the meridian blow on the gongs in the houses) Wednesday, August 26, 1914, the automatic alarms sent out to the department will consist of two rounds only, instead of three as at present.

III. COMMENDATION.

1. Lieut. Henry Krake of Ladder Company 17 is hereby commended for responding to an alarm from box 946, Thursday, August 20, 1914, while on vacation.

By order of the Fire Commissioner,
PETER F. McDONOUGH,
Chief of Department.

ARLINGTON STREET ASSESSMENTS.

The Board of Street Commissioners has levied the following assessments for the laying out and construction of the extension of Arlington street, city proper:

	Amount.
Virgil C. Pond.....	\$656 25
Charles E. Cotting <i>et al.</i> , trustees....	2,625 50
Willard Dalrymple <i>et al.</i> , trustees....	38,000 00
Samuel Vaughan, trustee, $\frac{1}{2}$, Henry Parkman, $\frac{1}{2}$	30,000 00
Oliver Ames <i>et al.</i> , trustees.....	8,260 00
Charles S. Rackeman <i>et al.</i> , trustees....	3,150 00
Robert W. Hill.....	1,289 50

PERMISSION TO SELL OLD IRON.

The Mayor has granted permission to sell, after advertisement, old iron, not to exceed \$500 in value, the property of the Street Lighting Service of the Public Works Department, and stored at the yards of the Boston Consolidated Gas Company, as follows:

Keyes street yard, Jamaica Plain, 5 to 6 tons; Freeport street yard, Dorchester, 5 to 6 tons; Hilton street, Roxbury, 6 to 7 tons; Dorchester street, South Boston, 1 ton.

FOREIGN COMMERCE OF BOSTON.

The commerce of the Port of Boston shows that 185 vessels engaged in the foreign trade entered the harbor during the month of July, 1914, as against 155 for the same period last year, a gain of 30 vessels, or over 19 per cent. The gain of these 30 vessels in one month made the shipping tonnage 34,389 net tons greater last month than it was for July of last year, a gain of over 10 per cent.

Increase in the coastwise trade was not so marked, only 1 per cent, or 12 more vessels, entering the port in July, 1914, than July, 1913. It represented an increase from 982 to 994 vessels and an increase in shipping tonnage of 52,293 gross tons, or over 4 per cent.

A GOOD VETO.

(Current Affairs.)

The Mayor's veto, as exercised last Thursday, is in the interest of better fire prevention in Boston. It should not be overridden. The City Council's order repealing the ordinance extending the area within which wooden buildings may be erected was a surprise to the community, and the prompt rallying of many organizations of citizens to the support of the threatened ordinance is evidence of the importance in which it is held. Should such a repeal of the ordinance become a law, the wooden "three-decker" would have more territory within which to extend its peculiarly dangerous fire hazard. Every consideration of safety to life and property, economy in fire-protection, and economy in insurance rates, demands that the

extension of the limits be maintained, and the laws prohibiting wooden construction of buildings be enforced rigidly.

THE SUNDAY MUNICIPAL CONCERTS.

Capt. John H. Dillon, Chairman of the Park and Recreation Department, announces the Sunday municipal concerts for the 30th instant, as follows:

8. Light Opera. "The Firefly." Friml
9. Remick's Hits. Lampe
10. Patriotic Airs. Hosmer

EXAMINATIONS FOR LIGHTHOUSE SERVICE.

United States civil service examinations for the following mechanical trades and noneducational positions in the Lighthouse Service, Engineer Department at Large and the Quartermaster Corps, U. S. A., and the various branches of the government service in Boston, Mass., and vicinity, will be held on October 1, 1914.

Positions.—Assistant marine steam engineer (including positions on lighthouse tenders), carpenter, marine fireman, mate (including positions on lighthouse tenders), * oiler, stationary fireman.

Age limits, Lighthouse Service: 18 years or over, except for positions requiring license from U. S. Steamboat Inspection Service, for which the minimum age is 21. Maximum age for officer of tender, 45 years. Persons honorably discharged from the U. S. Army, Navy or Marine Corps and persons already in the Lighthouse Service in classified positions will be examined without regard to their age.

No educational tests will be given and applicants will therefore not be called upon to appear at any place to be examined. They will be rated according to their physical condition and experience as indicated in their applications and the medical certificate and vouchers furnished.

All statements relating to training and experience are accepted subject to verification. No applicant will be eligible for appointment who fails to attain a rating of at least 70 per cent in the subject of training and experience. Applicants should name in their applications, as references, employers or other persons who are competent to furnish information relative to the applicants' fitness for the positions sought, and these persons will be communicated with. Unless answers are received from these persons within two weeks from the date of sending the communications the applications may be canceled.

The following physical defects will debar applicants from any examination: Insanity, tuberculosis, paralysis, epilepsy, blindness, loss of both arms or both legs, loss of arm and leg; badly crippled or deformed hands, arms, feet, or legs; uncompensated valvular disease of the heart, locomotor ataxia, cancer, Bright's disease, and diabetes. In addition, persons who have lost an arm or a leg, or who are ruptured, are ineligible for appointment to positions in the Custodian Service. Other physical defects will render applicants ineligible for any particular service or position when, in the judgment of the Commission, such defects would disqualify them from the duties required.

An applicant who is unable to write may have his application filled in by another and sign it by mark, which must be properly witnessed; but only those eligibles will be certified for appointment in the Custodian Service whose applications are in their own handwriting.

The age limits for the different branches of the service are as follows: Quartermaster Corps, men, 20 to 50 years; women, 18 to 50 years; Engineer Department at Large, 18 years or over; Custodian Service, 20 to 50 years; other branches, 20 years or over. The age limits are waived in the case of persons honorably discharged from the military or naval service of the United States by reason of

* A vacancy now exists as oiler on the steamer "Anderson," Fort Warren, Mass., at \$780 per annum. To be considered for this position, application should be filed on or before August 19.

disability resulting from wounds received or sickness incurred in the line of duty.

In filling vacancies certification will be made of eligibles readily available for employment—that is, of those who live in the place, or in the vicinity of the place, of employment, and of those who do not live in the place or vicinity, but who have presented themselves to a member of the local board of civil service examiners (or to the employing officer when there is no local board member) at the place at which employment is desired. An eligible who does not live at the place where he desires employment will not be certified for appointment there until he has personally appeared before a member of the local board of examiners (or the employing officer) at that place, has secured a certificate from the board member (or the employing officer) showing the date on which he appeared, and has filed such certificate with the district secretary. In this connection vicinity is defined as the territory within the usual commuting distance. An employing officer is the official in charge of an office or other establishment.

This examination is open to all citizens of the United States who meet the requirements. For application and examination blank, Form 1800, address the secretary of the board of civil service examiners at the post office or customhouse in the city named at the head of this announcement, or the district secretary.

No application will be accepted unless properly executed and filed with the district secretary prior to the hour of closing business on September 15, 1914.

CITY OF BOSTON. PUBLIC WORKS DEPARTMENT.

NOTICE.

The Board of Street Commissioners in accordance with chapter 393 of the Acts of 1906 have passed orders for the laying out and construction of the following highways:

DORCHESTER.

Browning avenue, from Bernard street to Wales street.
Fabyan street, from Blue Hill avenue to Harvard street.
Dorchester avenue, at Adams street, Field's Corner.
Queen street, King street to southeast line of Claymont terrace extended.
Whitfield street, from Talbot avenue to Norfolk street.

ROXBURY.

Greendale street, from Leon street to Huntington avenue.
Howland street, to Harold street.

HYDE PARK.

Lockwood street (formerly Hubbard street), from Metropolitan avenue to Huntington avenue.

Notice is hereby given that the Public Works Department is about to do the work contemplated in said orders, and that all work to be done in said highways by all persons or corporations having rights in the same to lay or repair either sewer, gas, water or other pipes must be done before Friday, September 25, 1914, as after that time no permits for openings will be granted until two years after said highways are completed.

L. K. ROURKE,
Commissioner of Public Works.

Boston, August 27, 1914.
(Aug. 29-Sept. 5-12-19.)

CITY OF BOSTON.

NOTICE OF LAND TAKING.

In Board of Street Commissioners of the City of Boston, August 26, 1914.

Ordered, That due notice be given that this Board is of the opinion that public necessity and convenience require that there should be a taking of land for park purposes on Hemenway street, Huntington Entrance and Fenway, Roxbury, substantially as shown on a plan in the office of this Board, that it intends to pass an order for making said taking, and that it appoints 11 o'clock a. m. of September 11, 1914, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest: J. J. O'CALLAGHAN,
(Aug. 29.) Secretary.

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

BOSTON PUBLIC SCHOOLS.

The Boston public schools will reopen on Wednesday, September 9, 1914. Examinations for admission to the high and Latin schools will be held as follows:

Latin Schools.—On Tuesday, September 8, 1914, at 9 o'clock a. m. Boys will be examined at the Public Latin Schoolhouse on Warren avenue; girls at the Girls' Latin Schoolhouse on Huntington avenue, near Longwood avenue. Candidates are required to pass an examination equivalent to that required for admission to the seventh grade of the elementary schools. The subjects of examination will be English Language, including Reading Writing and Spelling; Geography, and Arithmetic.

High Schools.—On Tuesday and Wednesday, September 8 and 9, 1914, at 9 o'clock a. m. Boys and girls will be examined at the Normal Schoolhouse on Huntington avenue, near Longwood avenue. The subjects of examination will be English Language, including Reading, Writing, Spelling, Grammar and Composition; History and Civil Government of the United States; Geography, and Arithmetic.

Attendance will be required both days.

THORNTON D. APOLLONIO,
Secretary School Committee.

(Aug. 29.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWER, CITY SQUARE, CHARLESTOWN.

The Commissioner of Public Works of the City of Boston, office 511 fifth floor, City Hall Annex, invites proposals for pipe sewer in City square, Charlestown, between Main street and Harvard street, and giving bond therefor of a surety company approved by the commissioner in the sum of three hundred (300) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 511, fifth floor, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Pipe Sewer, City Square," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Thursday, September 3, 1914, with a certified check for one hundred (100) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.

Boston, August 27, 1914. (Aug. 29.)

CITY OF BOSTON.

PROPOSALS FOR ARTIFICIAL STONE SIDEWALKS IN ANAWAN AVENUE, ORIOLE STREET AND PARK STREET, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 511 fifth floor, City Hall Annex, invites proposals for artificial stone sidewalks in Anawan avenue (westerly side) from Park street to West Roxbury Parkway; Oriole street (southerly side) from Park to Bellevue streets; Park street (southerly side), from Gilmore terrace to Boxford terrace, West Roxbury, and giving bond therefor of a surety company approved by the commissioner in the sum of one thousand dollars (\$1,000), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 511, fifth floor, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Artificial Stone Sidewalks, Anawan avenue, Oriole and Park streets," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Tuesday, September 8, 1914, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.

Boston, August 27, 1914. (Aug. 29.)

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

NOTICE.

The Board of Street Commissioners in accordance with chapter 393 of the Acts of 1906 have passed orders for the laying out and construction of the following highways:

SOUTH BOSTON.

East First street, from H street to West First street.

EAST BOSTON.

Frankfort street, from Neptune road to Bennington street.

BRIGHTON.

Long avenue, from Commonwealth avenue to Allston street.

WEST ROXBURY.

Barbara street, from Centre street to South Huntington avenue.

Chapin avenue, from Mt. Vernon street to Preston street.

Edgemont street, from South street to Ainsworth street.

Houston street, from Crest street to Montview street.

Jewett street, from Nepouset avenue to Mt. Hope street.

Kittredge street, from Norfolk street (now Rosecliff street) to Metropolitan avenue.

Rosecliff street, from Washington street to Kittredge street.

DORCHESTER.

Trescott street, from Pleasant street to Bakersfield street.

Washington street, from Armandine street to Mora street.

CITY PROPER.

Boylston street, on the northerly side easterly from Arlington street.

Notice is hereby given that the Public Works Department is about to do the work contemplated in said orders, and that all work to be done in said highways by all persons or corporations having rights in the same to lay or repair either sewer, gas, water or other pipes must be done before Saturday, September 19, 1914, as after that time no permits for openings will be granted until two years after said highways are completed.

L. K. ROURKE,
Commissioner of Public Works.

Boston, August 13, 1914. (Aug. 29—Sept. 5.)

CITY OF BOSTON.

PROPOSALS FOR SOAP AND SOAP POWDER.

The Supply Department of the City of Boston invites proposals for furnishing to the various departments of the city throughout the next twelve months:

500 boxes of soap.
35,000 pounds soap powder.
7,300 pounds soft soap.
8 tons common soap.
25 barrels soap chips.

Samples of the above must be left with proposal at the office of the Supply Department, Room 808, City Hall Annex. A copy of the proposal to be used and other information can be obtained at above office. The bidder must leave his proposal at the above office with a certified check for \$200, payable to and to become the property of the City of Boston if the said proposal is not carried out. Bidders may quote on one or all of the above items. A bid in duplicate, without check, must be filed with the City Auditor prior to the time named for opening bids. The bids will be publicly opened and read on Monday, August 31, 1914, at 12 m., at Room 808, City Hall Annex. The successful bidder must furnish a bond for one-quarter the amount of the contract of a surety company authorized to do business in Massachusetts. The Superintendent reserves the right to reject any or all proposals, or any part of a proposal and award the contract as he deems it for the best interest of the city. All contracts are made subject to appropriations to meet payments thereunder.

FRANCIS P. ROCK,
Acting Superintendent of Supplies.

(Aug. 29.)

COMMERCE OF PORT OF BOSTON.

The statement showing commerce of Boston for week ending August 14, 1914:

	1914.	1913.	Increase.	Decrease.
Imports.....	\$2,496,984	\$512,391	\$1,954,593	
Exports.....	1,594,823	1,278,840	315,983	
For the last thirty-three weeks:				
Imports.....	122,372,554	86,463,053	35,909,501	
Exports.....	37,936,255	46,069,953		\$8,133,698

WAR DEPARTMENT APPROVES
BRIDGE SPAN.

Hon. Lindley M. Garrison, Secretary of War, has formally approved the plans and location for the new draw span to be constructed by the City of Boston in the Malden Bridge, across the Mystic river, and as presented by Mayor Curley, upon the twenty-fifth day of June, 1914.

The bridge connects the cities of Boston and Everett.

The indenture of the Department of War presented Mayor Curley, reads as follows:

Whereas, by section 9 of an Act of Congress, approved March 3, 1899, entitled "An act making appropriations for the construction, repair and preservation of certain public works on rivers and harbors, and for other purposes," it is provided that bridges, dams, dikes or causeways may be built under authority of the legislature of a state across rivers and other waterways, the navigable portions of which lie wholly within the limits of a single state, provided the location and plans thereof are submitted to and approved by the Chief of Engineers and by the Secretary of War before construction is commenced.

And whereas, the City of Boston, Massachusetts, having authority of the Legislature of the State of Massachusetts, to construct a new draw span in the Malden Bridge across the Mystic river, between the City of Boston and Everett, Massachusetts, under authority of an act of the State of Massachusetts, approved June 13, 1913, has submitted a map of the location and plans of the same, which have been approved by the Chief of Engineers.

Now therefore, This is to certify that the map of location and plans of said bridge, are hereby approved by the Secretary of War, subject to the following conditions:

1. That the engineer officer of the United States Army, in charge of the district within which the bridge is to be rebuilt, may supervise its reconstruction, in order that said plans may be complied with.

2. That the existing channel through, and immediately upstream from the Malden Bridge be kept available to navigation until the necessary dredging has been done under the permit of January 27, 1914, in the relocated channel, and such new channel made available for navigation through the new draw opening of the Malden Bridge and the corresponding opening in the new railway bridge.

3. That the plans hereto attached are approved only so far as they relate to the Malden Bridge.

4. That this approval shall cease and be null and void unless the actual construction of the new draw span be commenced within one year and completed within three years from the date hereof.

JOHN C. SCHOFIELD,
Chief Clerk.

TO CARE FOR WOMEN AND
CHILDREN.

Mayor Curley assumed the initiative in a well-defined movement for the care of women and children among the refugees arriving from Europe at the Port of Boston, in calling a public meeting at the Aldermanic Chamber, City Hall, upon the 24th instant, for the purpose of organizing a general executive committee to care for the immediate need of the travelers.

The members of the Women's Branch of the National Civic Federation are greatly interested in the success of the present movement as an imperative public need.

The call issued by Mayor Curley declared:

"The necessity of the immediate organization of a strong Boston committee to personally care for women and children among the American refugees arriving from abroad is imperative.

"In order that ways and means may be properly presented for the prosecution of this important work of relief, I have called a public meeting of the men and women of Boston and Massachusetts, to assemble in the Aldermanic Chamber, City Hall, Boston, upon August 24, at 3 p. m., for a general discussion of work and organization needed.

"I shall esteem as very much of a personal favor your attendance at this meeting.

Faithfully yours,
JAMES M. CURLEY,
Mayor of Boston."

The Mayor further sent the following message to the Hon. William J. Bryan, Secretary of State:

"The Woman's Branch of the London Relief Committee for American refugees cables necessity of a strong Boston committee to personally care for women and children arriving in Boston from abroad. Arrangements will be made for organization of Boston committee, to be under personal supervision of the Mayor. The active cooperation and financial assistance of the State Department is necessary.

JAMES M. CURLEY,
Mayor of Boston."

In response to the call issued by Mayor Curley a large and representative gathering of men and women assembled at the Aldermanic Chamber.

The entire subject matter of providing suitable care for the women and children was discussed, and definite plans were made for the reception of the refugees and their care in Boston until arrangements can be made for their transportation to their homes in other parts of the country.

Mayor Curley assured the meeting that free medical attendance will be provided the refugees during their stay in Boston whenever the same may be necessary.

A general committee in behalf of the

women and children refugees was appointed and to be known as the Mayor's Committee of Boston, as follows:

Mrs. Roger Wolcott, Jr., *Chairman*, Readville; Mrs. James M. Curley, Boston; Mrs. Homer Richardson, Nahant; Miss Katherine Loring, Prides Crossing; Mrs. Samuel E. Winslow, Worcester; Mrs. L. Carteret Fenno, Rowley; Mrs. John J. Dowling, Boston; Miss Elizabeth Needham, Boston; Mrs. Joseph H. O'Neil, Boston; Mrs. Godfrey L. Cabot, Beverly Farms; Miss Charlotte Reed, Manchester; Mrs. William Lowell Putnam, Beverly Farms; Miss Harriet Broad, Boston; Mrs. Robert Russell, Swampscott; Mrs. William E. McNamara, Boston.

The necessity of adopting both ways and means for the relief of those persons arriving at the Port of Boston, and who are in need of employment, as well as immediate aid, is well related in the following communication, presented to his Honor the Mayor, by Mr. Godfrey L. Cabot of Boston.

The statement of Mr. Cabot is as follows:

August 25, 1914.

To his Honor the Mayor:

DEAR SIR,—Two English merchantmen, namely the "Manitou" and "Marquette," have arrived at this port since the beginning of the war, with German and Austrian seamen, who have thought it prudent to leave their employment on these vessels, for fear that if they continued they would be held as prisoners of war upon arrival at an English port. Consequently, such of them as have not since obtained employment are in a more or less destitute condition.

There were twenty-six on the "Manitou," of whom a considerable number have since obtained employment, but there are still twenty-seven men at the Sailors' Haven, 46-48 Washington street, Charlestown, telephone No. 747-W.

These men are receiving pilot bread and coffee twice a day, and getting one meal a day, at an expense of 15 cents apiece, at a restaurant. I have personally guaranteed the expense for a month, but shall, nevertheless, try to have some of the German-American citizens share in it.

They are bunked upon the floors, benches, etc., at this Haven, have a complete bath every day, and everything is being held on what seems to me to be an admirable basis by Mr. Stanton H. King, in charge of the Haven.

I inclose a list of the men from the "Manitou" who had not yet obtained employment at the date of my visit, August 15, and will, if you wish, obtain a list of the twenty-seven men now on hand, showing their present employment and their past experience in their occupations.

It is my purpose, unless you have a better plan, to appeal through the Boston Transcript to our German-American citizens to subscribe the small fund that is necessary to give these men the bare necessities of life, and to give them what is more to the point,—future occupation.

It would certainly be a great error to coddle these men in any way or remove the proper incentive for seeking employment.

There are also some 1,200 sailors on the "Amerika," "Cincinnati" and one or two other German steamers, who are not occupied or come under the German law, that are being cared for by the respective steamship lines to which these boats belong.

It would be a desirable thing, it seems to me, to help these men also in obtaining employment.

I stated in German, the language with which I am familiar, to the crew of the "Manitou" that we would not intentionally assist them with a view that they should during the continuance of the war go back to take part in the hostilities, and they expressed a general sentiment that they did not have the slightest intention of returning to Germany during the continuance of the war. I mention this point to make it clear that there is nothing inconsistent in people, who, like myself, think the Germans are at fault in this controversy, to nevertheless help these individual Germans, who are in nowise responsible for the present situation in Europe.

Respectfully yours,
GODFREY L. CABOT.

FOR PROTECTION FROM FIRE LOSSES.

Mayor Curley assembled a large meeting of Boston citizens at the Aldermanic Chamber, City Hall, upon the 25th instant, for the consideration of a forward movement for increased fire protection in the City of Boston.

The call of the meeting was as follows:
BOSTON, August 22, 1914.

MY DEAR SIR,—The imperative need for cooperation upon the part of the cities and towns of the metropolitan district, in the matter of legislation for the protection from fire of life and property, is such that a meeting has been arranged at the old Aldermanic Chamber, City Hall, for Tuesday, August 25, at 2 p. m.

The chief executives of the cities in the metropolitan district, Boards of Selectmen, chiefs of Fire Departments, Chamber of Commerce, Rotary Club, Pilgrim Publicity Club, Insurance Underwriters and all organizations having a common interest in the public weal, have been invited to attend, and present their views with reference to the adoption of a general policy of legislation, to be presented at the incoming session of the Legislature, and I sincerely trust that you will find it possible to be present.

Sincerely yours,
JAMES M. CURLEY, Mayor.

The meeting was called by the Mayor to decide on some definite action to reduce the great fire loss in the metropolitan district. The Mayor believes it possible to obtain, through the General Court, building laws of benefit, not only to the district, but also to the entire state. With proper fire protection the annual losses could easily be reduced one-third.

Of the cities and towns in Metropolitan Boston, those in which nothing has been done toward bettering fire protection are, the Mayor said, Somerville, Chelsea and the town of Brookline. All the other cities and towns had made some advance in the line of better protection. As for Boston, the Mayor hoped, he said, to make it a first-class district.

Henry J. Cunningham, Commissioner of Public Safety of Cambridge, said because of the huddling together of wooden dwellings near workshops and factories of similar construction in Cambridge a fire could get beyond control there and the city would be doomed just as were Chelsea and Salem.

His first work as commissioner was a survey which showed appalling conditions. Triple apartment houses, through the manipulation of building speculators, had

been growing up on every hand for at least twenty years. Speculators would buy six-lot pieces and convert them into eight.

The water pressure is only sixty-five, which after much of a draw may drop to ten, the conditions of things in Salem and the cause of such widespread conflagration.

President Lester K. Winchenbaugh of the Rotary Club, said, speaking as an individual and a householder, that he was in hearty accord with the movement started by the Mayor and hoped that all who had homes to safeguard like himself would cooperate in the great work for universal fire protection.

Deputy Chief and State Fire Marshal George Neal also applauded the movement started by the Mayor. He said that the trouble with many is that insurance makes them careless in regard to fire protection. The fire fighting forces, as a general thing, are not prepared to meet conditions once the fire gets beyond control. This was evidenced by the fires in Chelsea and Salem. He said further that he knew of no place that needs regulations more than Lynn, his home city.

Francis R. Bangs, former alderman and subsequently a member of the State Fire Hazard Commission, advocated more stringent measures. The new law adopted this year, he said, embodied many of the provisions his commission had reported in a bill to the Legislature, but, while his commission recommended or provided for a commission of three members, the present commission is limited to one. This he considered a weakness of the present law.

Gorham Dana, secretary of the Board of Fire Underwriters, said that Brookline, apart from the three-deckers, had the best building laws of any of the towns about Boston. He suggested that cities and towns cut out the three-deckers completely and permit no building higher than two and a half stories five feet from the line.

On motion of Councilor William H. Woods of Brighton, which was unanimously carried, Mayor Curley appointed a committee of five to consider the general question of fire protection, with powers to hold meetings when advisable, and subsequently to prepare and report a bill to the Legislature as follows: Francis R. Bangs, Chairman; William J. Hennessey, Franklin H. Wentworth, Building Commissioner Patrick O'Hearn and C. H. J. Kimball. The committee will act at once.

TO AID IN FIRE PREVENTION.

Mayor Curley declared during the week:

"The necessity of adopting a comprehensive plan to successfully combat our great annual losses by fire, make it to-day imperative that the prevention of possible conflagration should not cease with the extension of the building limits.

"With a view of lessening the present danger of conflagration, I instructed Commissioner Patrick O'Hearn of the Building Department, about a month ago, to ascertain what structures throughout the city might serve as a possible means of increasing the danger from fire.

"Commissioner O'Hearn submitted a list of such buildings, accompanied by photographs, and a statement with reference to the same, and which I have duly approved.

"My opinion is that a continuance of this policy will effectually rid the city not only of a possible source of conflagration but also remove many old, unsightly and dilapidated structures, which mar the

beauty of our city and tend to impair property values wherever such buildings may be located."

The formal communication of Commissioner O'Hearn was as follows:

CITY OF BOSTON,
BUILDING DEPARTMENT,
August 24, 1914.

HON. JAMES M. CURLEY,
Mayor of Boston:

DEAR SIR,—In conformity with your request I am causing an examination to be made of such buildings throughout the city as I find to be in an insecure and dilapidated condition, affording easy access to evil disposed persons and not protected against the spread of fire.

I have called the attention of the owners of such buildings as I have already examined to their condition and have informed them of the desirability of safeguarding the city against fire and I have found a ready cooperation on their part to assist you in removing these fire risks, thus proving their citizenship was above personal consideration.

There are more than a dozen of such buildings that are now being taken down.

Yours respectfully,
PATRICK O'HEARN,
Building Commissioner.

THE NEW FENWAY GARDEN.

The new garden in the Fenway will become the center of a beautiful park, laid out with banks of rhododendrons and coves dotted with water lilies, according to the plan of Mayor Curley.

The cost has been estimated by Capt. John Dillon, Superintendent of Parks, at \$50,000, with \$20,000 a year for maintenance.

Park employees this winter are to build embankments along the 40-foot stream through the park where the rhododendrons transplanted from the Jamaica Plain Parkway will be set.

In discussing the plan, Mayor Curley said:

"I have asked the Park Commission to make a study and report on the cost of maintaining the convention park and a tract of land adjacent about as large again in the rear as a permanent Boston park.

"Such a park would have the advantage of two beautiful bridges, the brownstone bridge on the lower side and the five-arch bridge on the other end.

"The park will contain an Italian sunken garden surrounded by flowers, and containing beautiful areas of water lilies.

"It would supply a beauty spot for 800 children a day who visit the Forsyth Dental Infirmary, which adjoins the convention garden and also the Art Museum.

"My idea is to construct stone steps leading from the Parkway road for the convenience of the children and the museum visitors. On the other side of this proposed beauty spot is the baseball park."

HEARING UPON PUMPING STATION.

Mayor Curley has protested to Governor Walsh against the assessment of \$33,500 levied against the city by the Port Directors for the use of a location at Fort Point channel for the pumping station of the high water pressure service. The Mayor also complained that the Port Directors had said that the permit would be issued only on the payment of \$33,500. The Mayor asked for a hearing before the Governor's Council, which the governor granted, setting the date as September 2.

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announce an open competitive examination for plant physiologist, experienced in plant metabolism, for men only, on August 31, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary of \$3,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to plan and lead research work dealing primarily with questions of plant metabolism.

The commission announce that applications will be accepted at any time for the examination for office helper (typewriter) at Watertown Arsenal, Watertown, Mass., from both men and women. Examinations will be held at Room 141, Post Office Building, Boston, Mass., whenever it becomes necessary to provide eligibles. Persons who apply will be notified of the date of examination. As a result of this examination vacancies will be filled as they occur in the position of office helper, qualified in typewriting, in the Watertown Arsenal, Watertown, Mass.

The usual entrance salary is \$480 a year. The duties of the position are routine clerical work, requiring ability to use the typewriter.

The commission announce an open competitive examination for graduate nurse and dietitian, for women only, on September 2, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the United States Public Health Service, for duty in the Pellagra Hospital at Spartanburg, S. C., at a salary not exceeding \$1,200 a year (in addition to board and room or compensation therefor), and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to assist in making metabolic and dietetic studies in relation to pellagra and to supervise the nursing. No administrative work will be required.

The commission announce an open competitive examination for entomological ranger, for men only, on September 2, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Entomology, Department of Agriculture, for service in the Rocky Mountains and Pacific Coast States, at salaries ranging from \$840 to \$1,200 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to collect specimens and information, locate and mark trees infested with destructive insects, and give instructions and assistance to private owners on the practical details of the methods recommended for the control and prevention of insect depredations on living timber.

The commission announce an open competitive examination for junior engi-

neer (experimental plant and machine testing), for men only, on September 2 and 3, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Chemistry, Department of Agriculture, at a salary ranging from \$1,200 to \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The headquarters for this position will be in Washington, D. C., but the duties of the position will eventually necessitate temporary transfers to various parts of the United States for indefinite periods, and applicants must be willing to accept appointment anywhere in the United States in order to receive consideration.

The duties of this position will consist of designing, constructing and operating plants for experimental and demonstration purposes in the preparation of certain fruit and vegetable products, especially fruit and vegetable drying and refrigeration, the computing and compiling of technical and cost data on the operation of such plants; and a limited amount of mechanical drafting.

It is desired to obtain the services of someone who has had experience in the design or operation of experimental plants, or who has had technical laboratory work along the lines of machine testing and refrigeration.

The commission announce an open competitive examination for business principal, for men only, on September 2 and 3, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in the position of principal, Business Department, Haskell Institute, Lawrence, Kans., at \$1,200 per annum and quarters, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for expert radio aid (for administration and operation), for men only, on September 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in the position of expert radio aid in the office of the Superintendent of Radio Service at the Naval Radio Station, Radio, Va., at a salary of \$10 per diem, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will involve assisting in the supervision of the administrative details of the Naval Radio Service, including both the operating and accounting features; the inspection of radio stations, so far as relates to their operation and management, and advising in regard to their improvement in both technical and administrative matters. The duties of the position will require a thorough knowledge of all the essential features of a communication system, and the details of land wire, cable and radio systems in the United States and foreign countries, including their organization both for administrative and other purposes. There will be required a knowledge of laws, rulings and precedents established by such systems, both United States and international.

It is desired to secure the services of a man having a broad training in both administrative and technical matters of radio, and one who has had considerable experience in dealing with other systems of communication. He must also be an experienced and efficient operator.

The commission announce an open competitive examination for junior physical chemist, for men only, on September 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Chemistry, Department of Agriculture, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be chiefly research work in the preparation and investigation of sugars, their occurrence, identification and properties, and the importance of the various sugars in various foods.

The commission invites attention to the open competitive examination for clerk in the Panama Canal Service scheduled to be held on September 9, 1914.

It is especially desired to secure eligibles from this examination who are qualified as bookkeepers.

The usual entrance salary for this position is \$1,200 a year.

The commission invites attention to the open competitive examination for junior engineer draughtsman, for men only, scheduled to be held on September 9, 1914. In addition to other vacancies to be filled from the register of eligibles resulting from this examination, it is expected that certification will be made to fill a vacancy in this position in the Engineer Department at Large, Wheeling, W. Va., at a salary ranging from \$1,800 to \$2,100 a year, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

For the vacancy at Wheeling, W. Va., mentioned above, the department requires the services of a person with experience in the independent design of steel structures.

The commission invites attention to the open competitive examination for library cataloguer, for both men and women, scheduled to be held on September 9, 1914, at all places marked "(D)" in section 2 of the Manual of Examinations for the fall of 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Departmental Service, Washington, D. C., at entrance salaries ranging from \$720 to \$1,000 per annum, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The following vacancies in positions which may be filled as the result of this examination exist at the present time:

One in the position of library assistant (male) qualified for bibliographical and reference work in educational literature, and to serve as administrative assistant in the library of the Bureau of Education, Department of the Interior, at \$1,000 per annum.

One in the position of library cataloguer (female), Smithsonian Institution, at \$75 a month.

The commission invites attention to the open competitive examination for junior chemist, for both men and women, scheduled to be held on September 9 and 10, 1914. In addition to vacancies in positions in the Bureau of Chemistry, Bureau of Mines, Bureau of Soils and Bureau of Standards, to be filled from the register of eligibles resulting from this examination, it is expected to fill vacancies in the position of junior chemist in the Bureau of Animal Industry and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The usual entrance salary for these positions ranges from \$1,000 to \$1,440 a year, but persons showing in the examination that they are unusually qualified are occasionally appointed at higher salaries, not to exceed \$1,740 a year. Certification to fill vacancies in positions paying more than \$1,440 will be made only from those attaining the highest averages in the examination.

The following vacancies in such positions exist at the present time:

One junior chemist, qualified in biological chemistry, Bureau of Animal Industry, Washington, D. C., at \$1,200 a year.

One junior chemist, qualified in biological chemistry, Bureau of Chemistry, Washington, D. C., \$1,200 to \$1,620 a year.

One chemist, qualified in pharmaceutical chemistry, Bureau of Chemistry, Washington, D. C., \$1,200 to \$1,440 a year.

Two chemists, qualified in pharmaceutical chemistry, Bureau of Chemistry, Washington, D. C., \$1,620 to \$1,740 a year.

The commission announce an open competitive examination for district inspector, under the migratory bird law, for men only, on September 16, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Biological Survey, Department of Agriculture, for service in the field, at \$1,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Vacancies exist in districts 4, 5, 8, 9, 10, 11 and 12, covering the following states: Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Mississippi, Montana, Nevada, New Mexico, North Dakota, Ohio, South Carolina, South Dakota, Tennessee, Texas, Utah and Wyoming.

The duties of district inspector will be general supervision of the migratory bird wardens appointed for the district, cooperating with local authorities in protection and propagation of game and diffusion of information regarding conservation of wild life.

The commission announce an open competitive examination for expert radio aid, for men only, on September 16, 1914. From the register of eligibles resulting from this examination certification will be made to fill one vacancy in this position at \$6 per diem in the Navy Yard, New York, N. Y.; five vacancies at either \$8 or \$6 per diem in the Navy Yards at Boston, Mass., Philadelphia, Pa., Norfolk, Va., Charleston, S. C., and Puget Sound, Wash.; and vacancies as they may occur in positions requiring similar qualifications, throughout the United States, unless it is found to be in the interest of the

service to fill any vacancy by reinstatement, transfer or promotion.

The duties of these positions will be: To direct and assist in the laboratory tests of all circuits, instruments and apparatus pertaining to and used in radio signaling; the practical installation, repair and adjustment of radio apparatus both in shore stations and in ships; the development and design of special apparatus and methods of radio signaling suited to special conditions, and of new forms of sending and receiving circuits; to analyze the data which may accrue from observations of the operation of different radio installations and to plan and execute experimental investigations as indicated; to inspect the various radio stations when called upon and to make the necessary measurements of their electrical constants; and, in general, to carry out advanced technical work in radio research, design and development and practical work in construction and repair of radio apparatus. They will be required to prepare technical reports of inspections, tests and research work.

The commission announce an open competitive examination for statistical editor, for both men and women, on September 16 and 17, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at an initial salary ranging from \$1,200 to \$1,400 a year, in the Children's Bureau, Department of Labor, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

This position affords excellent opportunity for entrance into the field of statistical work, and the person who is appointed as a result of this examination and who proves competent to perform the duties of the position may expect reasonable promotion.

The commission announce an open competitive examination, September 21, 1914, for assistant superintendent of construction, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$100 a month, when employed, at the United States Penitentiary, Leavenworth, Kan., and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Employment in this position at Leavenworth, Kan., will be intermittent and will aggregate probably not over eight months in a year.

A general knowledge of building operations of all kinds, sound health, active habits, and good judgment are necessary qualifications. Applicants must have had not less than four years of building experience, excluding apprenticeship, either as building mechanic, supervisor, or superintendent, or any combination of these, but not less than one year of supervisory work is necessary.

The commission announce an open competitive examination, September 21, 1914, for specialist in industrial education, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Education, Department of the Interior, Washington, D. C., at a salary of \$3,500 a year, and vacancies as they may occur in positions

requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be performed at Washington, D. C., and elsewhere, and will include the study of vocational education, the collection and compilation of information relating thereto and the giving of advice to education officers throughout the United States for the establishment of courses of study in vocational education.

The commission invites attention to the open competitive examinations for ship draftsman and copyist ship draftsman, for men only, to be held on October 14 and 15, 1914. From the registers of eligibles resulting from these examinations certification will be made to fill vacancies as they may occur in these positions in the Bureau of Construction and Repair, Navy Department, Washington, D. C., and at navy yards and other establishments of the Navy Department outside of Washington, D. C., unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The entrance salaries for the position of ship draftsman range from \$3.28 to \$5.04 per diem. Persons appointed from this examination are eligible to promotion in the service of the Navy Department to salaries of \$7.52, \$8, and in a few cases as high as \$10 and \$12 per diem, depending upon the efficiency shown.

The entrance salaries for the position of copyist ship draftsman range from \$2 to \$2.80 per diem.

The opportunity for appointment of qualified eligibles is excellent, as difficulty has been experienced in securing a sufficient number of eligibles to meet the needs of the service. The following vacancies exist at the present time:

One, Navy Department, Washington, D. C., \$5.04 per diem.
One, Navy Department, Washington, D. C., \$3.28 per diem.
One, Navy Yard, New York, N. Y., \$4.48 per diem.
Two, Navy Yard, New York, N. Y., \$4 per diem.
One, Navy Yard, New York, N. Y., \$3.28 per diem.
Two, Navy Yard, Philadelphia, Pa., \$5.04 per diem.
Two, Navy Yard, Philadelphia, Pa., \$4.48 per diem.
One, Navy Yard, Philadelphia, Pa., \$3.28 per diem.
One, Navy Yard, Washington, D. C., \$4 per diem.
One, Navy Yard, Norfolk, Va. (Copyist), \$2.40 per diem.
One, Navy Yard, Mare Island, Cal., \$4.48 per diem.
One, Navy Yard, Mare Island, Cal. (Copyist), \$2.80 per diem.

THE SALEM FIRE.

The National Fire Protection Association of Boston have presented their report upon the Salem fire, and a very graphic sketch of the conflagration is pictured by the secretary of the organization, Mr. F. H. Wentworth. He declares in part:

Salem, Mass., famed in American history, exhibits her scarred and blackened face to her sister cities asking for alms with which to feed her children while she draws together with characteristic American good temper the broken threads of her crippled existence. And the sister cities respond with open purse, masking with their generosity their sly and silent consciousness of equal culpability, of equal niggardliness in protection of their common life, of equal complacency in the midst of dangers known but yet unrealized—Dorchester, Roxbury, Somerville, Everett, Cambridge, Lynn, Boston her-

self, with conflagration possibilities, values considered, probably greater than any other equal area in the world.

Sixteen hundred buildings in thirteen hours; two hundred and fifty-three acres of desolate ruins; fourteen millions of dollars of value in the work of men's hands—that is the first cost of Salem's disaster. Over \$11,700,000 of this is to be replaced involuntarily by the American people. This vast sum, spread over the continent through fire-insurance premiums as a tax upon clothing, shoes, hats and food, must make the struggle of life harder for millions of Americans who thus contribute to rebuild a city which without their sacrifices could not cover its nakedness in half a century.

Salem has put her hand in every American pocket to collect the cost of a devastation and ruin she might easily have avoided. With the example of Chelsea glaringly before her she could not plead ignorance—she knew her danger and she had ample time in which to modify it. She assumed no responsibility to protect the lives and livelihood of her common people, and her property-owning class was content to run its daily risk because it knew it could saddle its fire losses upon the country.

Forty-five thousand people in a wooden city, with roofs of tinder, with a municipal water system that would shatter at a pressure of 60 pounds and a starvation fire department defeated at the outset by a fire from a cause the commonest inspection precautions would have eliminated—that is an exhibit before which unlimited censure is restrained only by charity for human weakness.

Salem was of wood, and there is enough of it left for another conflagration. From the small cottage with its plot of ground to the crowded three and four deckers housing the mill workers she had her stage admirably set for the thing that happened. Wooden factory buildings without individual fire protection were strategically located to feed the fire where it needed such encouragement.

It was a slow-burning conflagration; the wind was light. If it had not been for this the business district also, with its unprotected window openings, would have been snuffed out along with the factories and dwellings. Federal street (which still has the fuel for it) would have led the fire to the city's heart. The devastation would have been complete.

Water from hose streams never yet stopped nor extinguished a conflagration. Conflagrations are stopped only by physical barriers, otherwise they burn themselves clear. The Atlantic Ocean stopped this one. The water thrown at Salem was over 10,000,000 gallons. Perhaps 10 per cent of it was effective—in harassing the conflagration along its northern edges and in preventing it from taking a back track into the mercantile district at Derby street, where a few open spaces helped by the South river reduced the area of superheated air and enabled the engine companies to make a stand at a point where the wind was not against them. Water was effective in preventing the second fire in North Salem from reaching conflagration proportions.

The cement-lined water mains did not burst until after the fire had spent its force, but the constant fear of their known weakness paralyzed all effort to use water except by the steamers supplying their own pressure. The abundant water supplies of Peabody, Danvers and Beverly were gingerly tied into the

Salem system in fear that the pressure they had to contribute would shatter Salem's obsolete old mains and end the water-throwing for good. The water supplies of four cities contributed a combined hydrant pressure of from 10 to 20 pounds. With water enough to raft Salem out to sea her citizens on the borders of the fire zone threw away their garden hose and extinguished the sparks on their shingle roofs with tree-spraying outfits.

The usual diverting American comedy of fire engines from neighboring cities unable to couple their drafting lines to the hydrants because of nonstandard, non-uniform hose couplings and hydrant fittings was not lacking. Boston, Lawrence and Beverly have the Lowry flush hydrant and their companies brought with their engines the chucks necessary to use them. The companies from other towns and cities spent their time in looking for spare outlets on chucks already in use, or in preserving their engines from destruction. Horse-drawn apparatus was about half as mobile in dodging as the motor apparatus, and the steam engines exhausted their fuel and took to burning fences and box boards, while the gasoline-consuming apparatus had fuel reserves and threw their water steadily at the heat.

Modern fire departments are agencies of conservation. They make inspections and remove the causes of fire. The Salem fire department is not modern. The Salem conflagration should never have spread beyond the Korn factory (where it started). A few thousand dollars spent there for automatic fire protection would have saved fourteen millions.

If the chief of the Salem department knew that hazardous processes were conducted in an unprotected wooden factory in a conflagration district he should have forbidden it. If he did not know it, Salem's confidence in him as the guardian of her safety was misplaced. If he had no authority to forbid it he should have publicly told the Salem people of their danger. Modern fire departments extinguish unnecessary fires with intelligence—before they occur. That the Salem, and the twenty-one companies of visiting firemen worked hard and bravely no one will gainsay; no criticism is directed at them. The work and the courage demanded by this conflagration were needed higher up before it started. A commissioner of public safety, or a fire commissioner, or a fire chief, with modern ideas of responsibility and service, would have located the hazard which started this fire and eliminated or safeguarded it.

The shortcomings emphasized are not set down to shame Salem. They are assembled as a warning to other cities which are equally culpable. They show the futility, the impotence, of fire departments and fire department apparatus with a sweeping fire under way. They demand attention to three cardinal needs of the modern city:

1. Improved building construction, with especial regard to sweeping fires. The entire abolition of the shingle roof within city limits. (It is futile to exclude the wooden shingle from congested fire limits merely and allow its use on surrounding a res of wooden dwellings.)

2. A modern and reliable water supply under adequate pressure, and well distributed post hydrants with standard connections common to all neighboring cities.

3. Proper municipal housekeeping under the administration of a commissioner or fire chief possessing modern ideas

with authority to maintain cleanliness, regulate the storage and use of inflammables, and compel the proper automatic fire protection of all buildings endangering the public safety.

Following his own report, not here reproduced, Mr. Wentworth quotes in full the report of the Associated Factory Mutual Fire Insurance Companies on the destruction of the Naumkeag mills, the greatest single loss of the conflagration. The following portion of this report in particular is worth the careful consideration of industrial engineers. It is as follows:

The only buildings in the entire plant (of more than twenty buildings) that escaped destruction were No. 10 Storehouse and No. 1 Storehouse. The former building originally was a gasometer, has joisted roof covered with asbestos roof covering, noncombustible cornice and brick walls. These had but two openings protected by double fire doors. Very likely, owing to the fact that they were double, fire did not enter, as the outer door was somewhat warped. It is a low building, and although the platform around it was burned it probably was rather sheltered, and in this way escaped destruction. It contained 1,300 to 1,500 bales of cotton, which is undamaged.

Number 1 Storehouse is of reinforced concrete construction, walls, roof and floors. There are some small wired glass windows in metal sash, mostly fixed, which are protected in addition by wood tin-clad shutters on the inside of the building, hinged at the top and swinging vertically, and these were held open normally by fusible links. These links all melted and allowed the shutters to close. Two stories of this building contained finished goods in cases, but, although the building was exposed to the full force of the conflagration on the west side, so completely did the window protection do its work, and so well did the concrete walls stand up against the flame, that fire did not enter the building. Not a sprinkler opened, and the contents are intact. The damage to the building is so slight as to be almost negligible, and while the wired glass windows in several cases suffered so much heat that they softened and bulged out at places, and in one case completely melted out, yet the interior shutters withstood the attack, and did not allow the fire to enter the building.

The Naumkeag property stood on a point of land bounded on three sides by Salem Harbor. During the early years of its development the land on the fourth side was vacant, or sparsely settled. Gradually this territory became covered with wooden buildings; and this fact had been appreciated but it was felt that the protective equipment available could safeguard the mill.

The chief lesson is that to defend a property successfully against a conflagration all buildings must be fire resistant toward the point of attack. There should also be a liberal water supply at good pressure, and ample equipment to bring the water to any point. It should be remembered that when a conflagration is raging the public fire department will probably be unable to give assistance, so that the protected property is likely to be thrown on its own resources.

The tremendous power of an advancing conflagration with the fire-brands, flame, smoke and heat carried before it will overcome anything except the best construction protected with reliable apparatus and defended by courageous men, disciplined to do good team work.

PROCEEDINGS OF CITY COUNCIL.

August 24, 1914.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President McDONALD in the chair. Absent—Coun. Collins, Coulthurst, Kenny.

The Council voted, on motion of Coun. ATTRIDGE, to dispense with the records of the last meeting.

APPOINTMENT BY THE MAYOR.

The following was received:

City of Boston,
Office of the Mayor, August 24, 1914.
To the City Council:
Subject to your confirmation I have this day appointed to be a constable Mr. Harlow J. Lowe, 562 Massachusetts avenue, Ward 12, for the term ending April 30, 1915.

Respectfully,
JAMES M. CURLEY, Mayor.

Laid over under the law.

FIRE HAZARD, VETO.

The following was received:

City of Boston,
Office of the Mayor, August 18, 1914.
To the City Council:
I return herewith, without my approval, the order passed by your honorable body on August 10 which provides for the repeal of the act extending the building limits within the City of Boston.

It is unfortunate that a large element of the community, and an extremely active one, opposes every proposition for the good of the entire people, simply because Providence has been sufficiently kind to refrain from accepting the invitation to enter and destroy.

The fact that Boston has never experienced a destructive fire in the section to-day covered with inflammable structures is not good ground for the assumption that it is to be permitted to escape in perpetuity. In my opinion it is absolutely imperative that no backward steps be taken in the matter of reducing the unwarranted per capita now borne by the entire people for the benefit of real estate speculators and misguided altruists, who neither own nor live in three-apartment wooden houses.

The recent removal of the Board of Appeal for failure to comply with statutes and ordinances enacted for the protection of life and limb and the preservation of public health was, in my opinion, as necessary a step as the veto of the pending legislation.

The fire losses of Boston last year represented a total in excess of four millions of dollars; the cost of maintaining the Fire Department, a total of two millions of dollars; the installation of the high pressure service approximately two millions of dollars; the enlargement of water mains throughout the city, primarily for added fire protection, and the maintenance of the same, two million dollars, or a total tax for protection from fire in excess of \$14 upon every man, woman and child in the entire City of Boston, which, through the enactment of proper laws, might well be reduced more than one-half.

The splendid constructive work at present being undertaken of replacing small water mains with larger ones, installing a high pressure water service, motorizing the Fire Department and insisting in every case that the building laws be honestly complied with will prove of little value without an extension of the building laws and other necessary legislation which necessity demands and the future requires.

Respectfully,
JAMES M. CURLEY, Mayor.

Placed on file.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

William Gately, for compensation for damage to property at 93 St. Alphonsus street by break in sewer.

Joseph Wilson, for compensation for injuries caused by his being knocked down by an auto of the Public Works Department.

Mary Murphy, to be paid for expense of cleaning drain at 57 Silver street caused by stoppage of sewer.

Charles J. H. Fitzgerald, for compensation for injuries caused by his being struck by a hydrant which was being repaired.

James L. Johnson, for compensation for injuries caused by his being knocked down by a city tip-cart.

M. Louise Hastings, for compensation for damages at 1119-1125 Harrison avenue by stopping up of sewer.

Elizabeth Frost, for compensation for damages at 189 Metropolitan avenue by construction of sidewalk.

Holland System (Inc.), to be paid for damage to truck by a runaway team of the Cemetery Division.

John F. Burke, for compensation for damage to clothing by an alleged defect in Dorchester avenue.

Executive.

James Toland, to be retired under the provisions of chapter 765, Acts of 1914.

Edward McGuinness, for retirement under the provisions of chapter 765, Acts of 1914.

STORAGE OF EXPLOSIVES.

Notice was received from the following-named parties of storage of gasoline at the hereinafter named locations, and of intention to use same for the ensuing year, viz.:

Walter H. Collins, 51 Tonawanda street.
Frank J. Enos, 122 Melville avenue.
Walter S. Weaver, 30 Branch street.
Charles J. McCarthy & Co., 65 Oliver street.
Placed on file.

TRACK LOCATIONS.

Copies of orders were received from the Board of Street Commissioners, viz.:

Alteration of tracks of West End Street Railway Company on Washington street, near Egleston square, 440th location.

Relocation of tracks of West End Street Railway Company at Tremont and Eliot streets, 441st location.

Placed on file and ordered printed.

NOTICE OF HEARING.

Notice was received from the Public Service Commission of hearing on 440th and 441st locations for West End Street Railway Company on August 26, at 10.30 o'clock a. m.

Placed on file.

NOTICE OF APPEAL.

The City Clerk submitted a notice received from Edward H. Eldredge protesting against his removal as a member of the Board of Appeal.

Placed on file.

CLERK HIRE.

W. T. A. Fitzgerald, Register of Deeds, submitted a report in accordance with the provisions of section 33, chapter 22, of the Revised Laws, certifying that certain persons had been employed in his office and that work had been performed from July 27 to August 24 to the amount of \$3,626.97.

Referred to the Committee on County Accounts.

MINORS' LICENSES.

President McDONALD submitted reports on petitions for minors' licenses for eight newsboys and three vendors—recommending that the same be granted.

Reports severally accepted; licenses granted on the usual conditions.

CONFIRMATION OF APPOINTMENTS.

President McDONALD called up unfinished business, No. 1, viz.:

1. Action on appointments submitted by the Mayor August 17, of Antonio Gallo and Arthur Nickerson to be Constables of the City of Boston.

The question came on confirmation. Committee—Coun. Attridge and Ballantyne. Whole number of ballots cast 5, yeas 5, and the appointments were confirmed.

IMPROVEMENTS, SMALL PARKS, ETC.

Coun. ATTRIDGE offered an order—That the Park and Recreation Department be requested, through his Honor the Mayor, to furnish the City Council with an itemized statement as to the amount of money expended and contemplated to be spent for the improvements of small parks and squares as provided for by the appropriation of \$10,000 from the income of the Parkman Fund, passed by the City Council on July 7, 1913.

Passed.

MONEY FOR HIGH PRESSURE FIRE SERVICE.

Coun. ATTRIDGE offered an order—That the Commissioner of Public Works, through his Honor the Mayor, be requested to furnish the City Council with an itemized statement of all money expended, or authorized to be expended, to August 15 for the High Pressure Fire Service, said statement to contain length of water pipe purchased; streets, if any, where same has been laid, with length therein and cost; also what provision has been made for furnishing the power in the High Pressure Fire Service Station to be located on Fort Point channel.

Passed.

SOUTH END BRANCH LIBRARY.

Coun. ATTRIDGE offered an order—That the Library Trustees be requested, through his Honor the Mayor, to furnish the City Council with information as to what arrangements have been made for the continued occupancy of the premises on Shawmut avenue as the South End Branch of the Public Library, the lease having expired July 31, 1914.

Passed.

EXTENSION OF BUILDING LIMITS.

President McDONALD for Coun. Woods offered the following:

City of Boston.

In the Year Nineteen Hundred and Fourteen.
An Ordinance Concerning the Building Limits.
Be it ordained by the City Council of Boston, as follows:

Section 1. Section twenty-seven of chapter forty-five of the Revised Ordinances of 1898, as amended by chapter four of the Ordinances of 1913, and chapters one and four of the Ordinances of 1914, is hereby further amended by striking out said section and inserting in place thereof a new section, as follows:

Sect. 27. The whole of the City of Boston is hereby established and defined as the area, known as the building limits, within which every building hereafter built shall be of the first or second class construction, except as otherwise provided by chapter 550 of the Acts of 1907 and chapter 782 of the Acts of 1914.

Sect. 2. This ordinance shall take effect on October 5, 1914.

Referred to the Committee on Fire Hazard.

PUBLIC LANDING, SPRING STREET.

Coun. WATSON offered an order—That his Honor the Mayor be requested to cause a public landing to be placed at the Charles river, Spring street, on the so-called Parental School land, for the use of canoeists and the public.

Referred to the Executive Committee.

RECESS TAKEN.

The Council voted at 4.15 o'clock p. m., on motion of Coun. ATTRIDGE, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 5.29 o'clock p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Reports on petitions (referred to-day) for retirement of city employees under the provisions of chapter 765 of the Acts of 1914—recommending the passage of the following:

Ordered, That the Retirement Board for Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, Edward McGuinness, employed in the Labor Service of the City of Boston in the Public Works Department.

Ordered, That the Retirement Board for Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, James Toland, employed in the Labor Service of the City of Boston in the Public Works Department.

Reports accepted; orders passed.

(2) Report on order (referred to-day) that the Mayor cause a public landing to be placed at Spring street, Charles river—that the order ought to pass.

Report accepted; order passed.

(3) Report on petition of Edward McLaughlin (referred February 9) that the city maintain dental service for the pupils in the public schools—that the same be referred to the Board of Health for report.

Report accepted; said reference ordered.

(4) Report on opinion of Corporation Counsel (referred June 15) transmitting forms of contracts for electric lighting of streets—that the same be placed on file.

Report accepted; papers placed on file.
(5) Report on order (referred July 13) for employment of expert on the street lighting question—that no further action is necessary.

Accepted.

(6) Report on opinion of Corporation Counsel (referred July 13) concerning employment of expert on subject of electric lighting—that the same be placed on file.

Report accepted; opinion placed on file.

(7) Report on communication from Mayor and contract (referred March 23) for street lighting to be done by the Edison Electric Illuminating Company—that the contract be rejected.

The report was accepted and the question came on the approval of the contract.

Coun. ATTRIDGE—Mr. President, after a careful study of the electric light contract, the various communications from his Honor the Mayor and the Corporation Counsel, the minutes

of the public hearings and the reports of the Finance Commission, Chamber of Commerce and United Improvement Association, it appears to me that the contract should not be approved by the City Council because of the conditions regarding the following:

1. Price.
2. Arbitration.
3. Term.
4. Test.
5. Labor.
6. Form.

1. PRICE.

So far as the price of magnetite arc lamps is concerned, I am not qualified to say whether it is fair or not, but I do feel that if such a substantial reduction can be made in the price of them, that the cost of the small incandescence lights—the 40 and 60 candle power—could be slightly if not correspondingly decreased.

There are 4,511 magnetite lamps in the City of Boston and 589 in the other 30 odd cities and towns served by the Edison Electric Illuminating Company. There are 1,171 60 candle power lamps in Boston and 1,129 in the other cities and towns, and of the 40 candle power supplied by the company, 2,787 in Boston and 10,213 in the other cities and towns previously mentioned.

It has been brought out at the hearings that if any lower rates were obtained from the Edison Company for Boston, its largest consumer, corresponding rates could be secured by the other 30 odd cities and towns through the Board of Gas and Electric Light Commissioners. Therefore, it is only fair to suppose that Boston is compelled to pay the same price for the smaller candle power lamps as under the contract of 1909, in order to keep up the price in the smaller cities and towns, thus protecting the company's interests at the expense of this city.

As to the price of the magnetite arc lamps, the reports from the Chamber of Commerce and the United Improvement Association state that the committees appointed by these two bodies to investigate the contract did not feel qualified to say that the price of \$87.53 per lamp was a reasonable one. The Finance Commission in its report made no mention as to whether the price was a fair one or not. At the public hearing on the question, Commissioner Rourke said the matter of fixed cost was the company's "say so," and in his report, Mr. Emerson begins his answer to the question, "Are the prices reasonable under the conditions existing in Boston?" by stating, "It is extremely difficult to determine what is a fair price for street lighting by arc lamps in Boston." He then goes on to his conclusion that \$87.53 is fair by calculations based upon the returns of the Edison Company for the year ending June 30, 1913, as filed at the office of the Board of Gas and Electric Light Commissioners.

Who then is competent to determine what is the proper price that the City of Boston should pay for the electric street lighting? My answer to that question is the Board of Gas and Electric Light Commissioners. The Revised Laws, chapter 121, section 24, as amended by chapter 742 of the Acts of 1914, provides:

"Upon the complaint in writing of the Mayor of a city or the selectmen of a town in which a corporation or company engaged in the manufacture or sale of gas or electricity for light or heat is located, or of twenty customers thereof, either of the quality or price of the gas or electric light sold and delivered, the board shall notify the corporation or company by leaving at its office a copy of such complaint, and shall thereupon, after notice, give a public hearing to such petitioner, and such corporation or company, and after said hearing may order a reduction in the price of gas or electricity or improvement in quality thereof."

This board would not have to base its conclusions upon figures furnished them by the company, for the law provides that the books be kept in prescribed form and records kept at the manufacturing stations and that upon application these books and records shall be submitted for inspection by the Board of Gas and Electric Light Commissioners. As the law also provides that all the expenses of this board are to be paid by the gas and electric light companies, there would be no cost to the City of Boston for such an expert investigation.

2. ARBITRATION.

The contract as drawn provides that any board of arbitration be made up of three disinterested persons, selected one by the municipality, one by the company and the third party by the other two. The agreement for electric street lighting service accepted and signed by the company substitutes that the personnel of the arbitration board be the "then head professors of applied electricity" in the Massachusetts Institute of Technology and Harvard University.

In a communication received from his Honor the Mayor, under date of July 27, 1914, he states that the company has no objection to the former clause for "it has already stated in writing its willingness to abide by that method." The contract before the Council for its approval, however, does not provide for the removal of the objectionable arbitration clause substituted by the company.

3. TERM.

The term of ten years is too long, because, first, to judge from past experiences each new contract means a lower price, and second, new and revolutionary improvements in apparatus and manufacture are bound to cause a reduction in market values. During recent years there has been a

great reduction in the price per lamp year for arc lamps. Under the contract of 1887, the price of \$237.25 per lamp year, under the 1888 contract, the price was reduced to \$118.39, the 1909 contract gave the price of \$103.54, and a still further reduction of \$87.53 is provided by the contract now pending. There has also been a great increase in the amount of illumination furnished on account of the adoption of the improved lamps.

At the time the 1909 contract was under negotiation, the Edison Company desired to make it for a ten-year term. Had such been accepted the city would still be bound by it and not have the opportunity to secure the reduction that the making of a new contract now affords.

As far as new improvements are concerned, the one promising the most is the nitrogen lamp. This, Commissioner Rourke said, has already proven a success. It gives double the candle power with the same wattage. Consequently, the present candle power, which gives all the illumination required, could be produced with less wattage and this less consumption of power would mean a reduction in cost. This is only one improvement. The changes in electricity are rapid at present and promise to be still more so during the next few years. In 1909 a five-year contract was insisted upon as best safeguarding the interests of the city, and with the anticipated improvements a short-term contract is more imperative to-day. Besides which the Edison Company has given no valid reason why it should not make a five-year contract.

4. TEST.

The contract as drawn provides that the municipality may at all times, with or without the company's knowledge, employ a competent person to examine and test the electrical currents and apparatus, etc. The agreement accepted and signed by the company substitutes that the municipality may at any time, by written notice, require the company to employ a competent and disinterested person connected with either the Massachusetts Institute of Technology or the scientific department of Harvard University to examine and test, etc. The substitution clause further provides that if the examination shows the company is not furnishing the electric energy or light required, that the company shall pay the expense of the tests; otherwise, the city will meet the costs.

This is manifestly unfair, in the first place, for obvious reasons, that a written notice should be given the company, and secondly, it takes from the city the right to select its own official to make the tests and states that a certain person shall be employed by the company.

5. LABOR.

The inserted clause regarding labor says, "The contractor shall give preference in employment, first, to citizens of Massachusetts, second, to other citizens of the United States, and shall allow all employees on said work to lodge, board and trade where they choose, etc." This should be amended so as to read, "The Contractor shall give preference in employment, first, to citizens of Boston (as they are the ones who are paying the bills for lighting the streets), second, to citizens of Massachusetts, and after that to other citizens of the United States, etc."

6. FORM.

The contract, as submitted to the City Council for its approval, is not properly drawn to safeguard the interests of the city. It consists of two parts, the original contract drawn by city officials, and the company's acceptance of it with numerous substituted clauses, besides which there are letters from the company accepting certain important changes, which are not incorporated as a part of the contract.

Then there are some sections which admit of different interpretations. The most important of these is the lamp substitution clause which says, "Lamps of any type may be substituted for lamps of any other type if the municipality pays the total expense of making the change and the total amount of payments by the municipality hereunder at the then standard rate is not thereby diminished." On the face of this it would appear that the city would pay the entire expense of making the substitution, but would get no benefit from any saving resulting therefrom.

In the communication received from his Honor the Mayor, on July 27, he says, "The Corporation Counsel, however, has stated that this is not a proper interpretation of the contract, but that the city, under the arbitration clause, can get the benefit of two-thirds of any reduction effected by the substitution." The company has written a letter agreeing to be bound by the interpretation of the Corporation Counsel. This substitution clause is one of the most important in the entire contract, yet this letter from the company agreeing to the interpretation which would safeguard the city's interest is not incorporated in the contract.

CONCLUSIONS.

Therefore no contract should be accepted by the city unless:

First.—A fair price is obtained for all the lights of the various candle powers, the Board of Gas and Electric Light Commissioners being the proper body to determine that price.

Second.—The arbitration clause provides that any board of arbitration be made up of three dis-

interested persons, one chosen by the city, one by the company, and the third by the other two.

Third.—The term be for a period not longer than five years.

Fourth.—The city has the right to select its own official to make tests and investigations without written notice to the company.

Fifth.—That preference in employment be given to citizens of Boston.

Sixth.—The entire contract be reframed so as to safeguard the interests of the city and to admit of but one interpretation, the form to be approved by the city's Law Department.

And for these various reasons which I have stated, Mr. President, I shall vote against the approval of the contract by the City Council.

Coun. WATSON.—Mr. President, with the limited knowledge that I have of electric lighting and with the limited amount of information that has been presented to me by the different people on the different sides of this question, I am free to confess that I am much at sea as to what I ought to do to-day. One thing, if no other, has turned me a little mite on the side of voting against the approval of the contract. That is the question of the saving of \$2,337 by the City of Boston over the old price given by the Edison Company for lighting of the Suffolk County Courthouse. The newspapers of recent date inform us that his Honor the Mayor has signed a five-year contract with the Somerset Company to furnish lighting to the courthouse on Pemberton square at a saving of \$2,337 per year. In place of paying six cents per kilowatt hour to the Edison Illuminating Company under this new contract the city will pay but four to the Somerset Company. That reduction, I presume, is brought about because the Edison Company was not willing to meet the price of the Somerset Company, because they would be compelled to reduce their price all along the line in the public buildings. That is their contention in the question of giving us a lower price on the arc lighting, the magnetite light. The moment they give the City of Boston less than \$87.53 per lamp per year they will have to give some adjoining town or city, no matter how few lamps of the same type they have, the same price. Quantity, in their opinion, cuts no figure. Now, Mr. President, this body is terrifically handicapped because of lack of power to secure information,—experts to act for us who will be connected neither with his Honor the Mayor nor with the Edison Company. We are in the dark. One day we are prevailed upon to listen to the side of the Edison Company and we are impressed. The next day someone representing the opposite side comes and we are impressed with their side. And I am free to confess that between the two I have been at sea entirely on the contract. There is one thing certain: If I was voting in the interest of to-morrow or six months from to-day or one year from to-day, perhaps this contract of \$87.53 per lamp, as drawn, might be a good one. But my action, if I should vote with a majority, and a majority should vote to approve this contract, ties up the City of Boston for ten years at \$87.53 per light in my opinion. I am not prepared to vote away the rights of the future citizens of this city. Mr. President, if I might be allowed to suggest a solution I have in mind I think I could do it, if it were to be here acted on. Why not reject this contract, as I shall vote to-day to do, and, if his Honor acts on my suggestion, in place of the arbitration clause he now has in the contract, make the arbitrators the Gas and Electric Light Commission. They are acting up there in a judicial capacity and in the interest of the Commonwealth and the city as well as of the corporation. And as was well said by Coun. Kenny at an early stage in the discussion, no contract is a fair contract that is not fair to both sides. If the Edison Company are only earning, as they claim in their letter to-day, 6½ per cent on their investment, which includes depreciation—and I believe, with the limited knowledge I have of the depreciation in their plant, I believe that it is not less than 3 per cent,—if that is true the net earnings on their investment are less than 3½ per cent—less than they could get for their money in the savings banks. Another thing: The contract we have been told, time and time again, the same identical contract, was drawn by Mr. Babson five years ago. I am not fortunate enough to have an automobile, but if I were purchasing a new machine to-day, I would not buy a 1908 model instead of a 1913. I believe that Mr. Sullivan should have drawn that contract, should have investigated it thoroughly and looked over it and seen if there weren't some changes to be made, as he has since suggested might be made. Because you must remember, Mr. President and members of this body, that Mr. Sullivan has said to us in conferences that certain changes ought to have been made in the contract and would be made in a better contract. Now, Mr. President, I know I am voting to-day to compel the city, for a while at least, to pay more for its arc lights than the Edison Company is willing to furnish them for. I am satisfied that my position will be criticised, and justly so,—justly so. It will be hard work for me to explain why I am committing the city a while longer to \$103, I believe it is, a light in place of the \$87.53. But my point is that with the public sentiment that has been gathered together against this contract the people have waked up, as it were,—it is the first time that a lighting contract has been considered,—and we are bound to get a different treatment from the Edison Company. I believe when the Mayor considers the new contract with the Edison Company and Mr.

Rourke, they will certainly get all the information possible as to the wisdom of the way in which the contract is drawn and the justice of the price. As his Honor the Mayor told us, or as Mr. Rourke told us, there wasn't any conference before the contract was signed excepting on the question of the price to be paid. I am not a lawyer, but knowing the Edison Company a little, knowing the methods of these great public service corporations on Beacon Hill, knowing that no legislation gets on the books that is not on their side of the question, and that they usually have their way, knowing that when they make reports they are liable to make the same kind of reports as have been made by the New Haven Railroad, knowing that they are liable to purchase plants that perhaps are akin to the Westchester Road and the Hampden Road, whereby the directors of those corporations, the bondholders, were practically robbed—when I hear that they report to the State House 61 per cent as their earnings on their investment, which includes depreciation, I am inclined to believe that there is a darky in the woodpile. I am glad that I am prepared to-day to vote definitely on this matter. I believe every member of this body is glad that it has been brought to a head. I know that the people will be glad that it has been brought to a head. And I am satisfied that when the matter is taken up again by his Honor the Mayor and Mr. Rourke and by the Edison Company there will be a great deal more care used in the drawing of the contract and more information will be furnished to the Council after it is drawn than has been furnished to us up to date. And therefore, Mr. President, I think—I am not sure—but to the best of my knowledge and belief, I am doing my duty by my constituents, the people of Boston, by myself, and even by the Edison Company, when I vote to-day not to approve of the contract.

Coun. COLEMAN—Mr. President, it has not been an easy thing, we will all grant, to determine which was the right and which was the wrong in this matter, and I think it has been due very largely to the fact that we have under consideration, without fully realizing it, two very distinct methods of determining the matter—one, the old method of making a business dicker, and the other, the more modern method of ascertaining the facts from the scientific point of view with perfect frankness and fairness on both sides as between the city and the company, and thus determining what a fair price and fair conditions are, mutually. It is because the Mayor and the Corporation Counsel have been proceeding on one basis and the members of the City Council have been trying to proceed on another basis, that we find it so confusing and so difficult to arrive at a result. When this contract was first brought to us for our consideration—and I am not sure but what it is true at the present time—everybody outside of City Hall and the company seemed to be against it, including the Chamber of Commerce and the United Improvement Association, and more lately the workmen as represented by organized labor. I want to say for myself, in deciding to vote against the contract, I do so with full recognition of the ability and public spirit of the Mayor, in his desire to save to the city treasury the immediate sums that would be saved by the acceptance of this contract. I also want to acknowledge my appreciation and admiration of the business ability and fairness and seeming probity of the president of the Edison Company in the way in which he has answered all the questions that have been directed to him by members of this body. And yet in the face of both of those statements I want to call your attention also to the fact that the contract has been so confusingly drawn with reference to three or four very vital matters that it has been found necessary to ask the Edison Company to write, under the direction of the Corporation Counsel, letters to the city government giving their interpretation of certain important elements in the contract, which is evidence, certainly, of the fact that the contract was not drawn with the carefulness that should have been given to it in view of the fact that it involved so much money, and also in view of the fact that it covers such a length of time. I think we are all agreed that a contract for ten years for electric lighting involves a great deal of a gamble, either on the part of the city or on the part of the company, and perhaps on the part of both. And not a single fact has been adduced before us so far as my memory serves me to show whereby the company would be put to any added expense on a one-year contract as against a five-year contract or a ten-year contract, and the only reason assigned for giving a lower rate for a ten-year contract is on the basis of a long habit which has prevailed in commercial circles and is due simply to the arbitrary decision of the Edison Company and is not based upon any material facts which affect the cost of the Edison Company in giving lights to the City of Boston for one year or five years or ten years. For my own part, I am perfectly willing that a price should be made for the lighting of the city with the Edison Company that would give it 6 per cent, or a little rising 6 per cent, if need be, return to its stockholders. I think we are all agreed that that would be a legitimate return to the people who had invested their money in this public service corporation. Nothing has been shown to us that has been demonstrated, that is conclusive, that the price of \$87.50 is necessary in order to give to the stockholders of that company a 6 per cent return on their investment. We haven't had all the facts in the case. So far as the attitude of the executive end of the city government is concerned, it has been

a mere business trade or dicker, and as the Commissioner of Public Works admitted himself, it was a near guess. In making this statement I do not criticize the Mayor nor the Commissioner of Public Works because, as I understand, that has been the method by which a trade has been made with the public service corporations—the gas company and the electric light company—in the past. And in the past very likely that was the only way that it could be done. But in the light of events to-day I think the time has come, certainly it is very near, anyway, when in the matter of a corporation dicker or trade an attempt to see which can be the smarter and put up the bigger bluff, the Edison Company or the city, is not the method for determining a city lighting contract, but that the two parties should come together in perfect frankness and openness, the company showing its figures, the city expressing its willingness to give an adequate return on the money invested, and with experts on both sides determine what the proper price is that the city should pay in order to give the city adequate service and to give the stockholders of that company a proper return on their money. And it seems to me that it is worth, if it so turn out, losing some considerable money on the part of the city immediately if we can lay down this principle for the future in deciding contracts of this kind, so that we may have them decided on a scientific basis instead of on the basis of a dicker. And in deciding what this scientific basis of costs should be, two fundamental elements, of course, must be taken into consideration—in the first place, the investment; and in the second place, the operating expense. We have had nothing here to indicate to us what is the physical or insurable or replacement valuation of the assets of the Edison Company. We simply have to take their figures, which no doubt are given to us honestly enough, based upon the way in which such figures have been understood in the past, but all that the City of Boston ought to be compelled to pay interest on would be the actual assets of the Edison Company, averaged, perhaps, from the point of view of replacement or physical valuation or insurable valuation. We have had nothing of that sort presented to us at all. Then in the matter of the cost of operating: We have had to leave it entirely to the Edison Company, not only as to their figures and their interpretation of the figures, but also as to the elements of the costs that are practically applicable to the lighting given to the City of Boston. Take two items alone, for example, to illustrate—the matter of selling cost, which must be something of an item with a company doing as large a commercial business as the Edison Company, and the cost of advertising, which may be large or small but illustrates my point just as well. Now undoubtedly both of those costs, or very possibly, I will say, because I am not sure, very possibly both of those costs and the costs of a similar nature which are applicable to other portions of the business and not applicable at all to the service rendered to the city, are placed over on the expense account in figuring what the operating expense is, or the overhead expense, in serving the City of Boston. Now it seems to me we ought to have experts to give us a proper presentation and interpretation of the figures, and a statement as to what is directly applicable to the cost of furnishing lights to the City of Boston. The reason I think we ought to proceed along those lines instead of simply trying to make a business dicker is this,—that the company is a monopoly—necessarily so and properly so. We have no other company that can be put in competition with it by which the price can be brought down to a hard pan basis. Therefore the only way to meet that situation is either one of two: either for the city to own its own plant and operate it or to have this frank, open, fair, honest, mutual consideration of the facts and arrive at a decision that would be satisfactory to both parties. Now, I believe myself in municipalization but I do not think that any city of the size of Boston, as cosmopolitan as Boston is, ought to go to it until we are forced to it; and I do not believe that a company as efficient as the Edison Company seems to be is going to adopt a policy, even though we refuse this contract, in negotiating another contract with us, that is going to force us to take up seriously the matter of municipalization. Then in connection with that subject of municipalization comes in another question in reference to the term limit of the contract. If the company had no agreement with the city beyond a year at a time, still the company would nevertheless have a guaranty of practically four years, because we can't do without electric lights and we can't supply them in any way other than taking over the Edison Company's plant or building one of our own, which, according to the operation of law, would require about four years, anyway. So that the Edison Electric Company have a four-year term limit by the very necessities of the case even though there is no contract between us at all. Now just a word in closing with reference to the position manifested before this Council in the hearing that was given to the labor men. Whereas I recognize entirely the fact that whether the Edison Company treats its workmen in the way that it should or not may not be an element which we have a right to consider in accepting or rejecting this contract, I think there is a side of it which has a bearing on the situation. A very considerable element in the cost of furnishing electric lights must be the labor cost, and judging by the statements that were made here in this Council by responsible representatives of organized labor, the treatment of men in the labor unions by the Edison

Company does not commend the Edison Company to an up-to-date business man. And it leaves one to feel that if they are so far behind the times in their attitude towards organized labor, they may also be very far amiss in some other phases of their business. And we have one very obvious illustration of that fact in their figures. According to all the statements that have been made to us the only item for depreciation which the Edison Company have given in their figures is an item of 1 per cent, which appeals to every member of this Council and every business man who has heard it as mysterious, as needing to be explained, as almost impossible,—that the depreciation of a plant that is as varied and as expensive as theirs is, is only 1 per cent a year. Now if their figures are made up on that basis, and it was hinted to us that the way that 1 per cent depreciation was put into their figures was because after allowing the proper amount for interest that is all there was left and it was put in that way, if the figures are arrived at with that sort of a juggle on the matter of depreciation, we have a right to question how some of the other figures may be arrived at. And in that particular and in their attitude toward labor it seems to me we are given a right to question whether they are absolutely efficient and absolutely correct in all their figures and in all their interpretations. And so I should favor by all means the rejection of this contract and the establishment of a figure under scientific conditions instead of based upon a dicker.

Coun. BALLANTYNE—Mr. President, I am not going to take more than a few moments of the Council's time on this contract. We have heard from one-half of the members present, and judging from the remarks they have made I should think that anyone who would vote in favor of this contract would be liable to be in a hopeless minority. This is, perhaps, the most important contract that has ever been brought to this Council to pass upon, and we have given a great deal of time and a great deal of consideration to it. We have had many public hearings. We have heard the question of price, the form of the contract, the question of labor and the term of the contract discussed for many weeks. Unfortunately this Council has nothing to do with the form of the contract. That matter is left to the Corporation Counsel. And so far as I am concerned as a member of this Council I am perfectly willing to place responsibility for the form of the contract upon the Corporation Counsel. I believe that it would be practically impossible for any two men, one representing a corporation trying to make a contract with the City of Boston and the Corporation Counsel representing the city, no matter how much time they took for it, to draft a contract that would be entirely satisfactory to this body. We have a body, nine men here, and every one would be liable to place a different construction on separate sections of that contract. There is one section of the contract that has been alluded to a good many times and the statement has been made here to-day that the contract was drawn by the late Corporation Counsel Babson. I never heard that statement made at any of the hearings. I never heard that statement made by the Corporation Counsel or by the representatives of the Edison people. But I have heard the statement made that that clause so much referred to, the arbitration clause, was identically the same as that drawn by Corporation Counsel Babson in 1909, and that that clause was placed in there because it was thought by our Corporation Counsel and his Honor the Mayor that that was the strongest clause for the City of Boston. Now in my opinion the only question before this Council, with our limited powers as to the drafting of a contract or the making of a contract, the only question for us to decide is as to whether or not the price offered is fair price for services rendered to the city. And we have heard the reports of the Chamber of Commerce, the United Improvement Association, and many other bodies, and while we have heard some of them say that they could not say that the price was a fair one, we have not had anyone come here and say that they considered the price unfair. I am just as much interested in the City of Boston getting a low price for its electric lighting as any other member of this Council. I would very much prefer a five-year contract to a ten-year contract if that could be had at the same price. But after hearing the statements made by the company and all the arguments offered to try to show that the price was unfair, I have come to the conclusion that the price as offered to the city to-day is the best price we can make at the present time. And even if we reject this contract and in a year from now we get a lower price, in my opinion the reduction will be very small indeed, if we get any. But if there should be any reduction we are taking the chance to-day of squandering at least \$130,000 of the city's money, and I for one, am not going to be a party to that unwise expenditure of money.

I am not going to take but a moment more. There is one point I want to touch upon. It was mentioned in the heading by the first speaker—but I failed to notice any reference to it in his prepared address—neither did I hear it referred to by the second speaker—my colleague on the right here who spoke last has mentioned it—and that is the question of labor. And I want to say right here now that I yield to no member of this Council in my loyalty to labor. And I think my attitude all through my public service will prove that to the satisfaction of any fair-minded labor man. And

there is no one in this body that regrets more than I do the attitude which the Edison people have taken towards labor. I believe that every laboring man in this Commonwealth has just as good a right to organize as any corporation has, and that is no new statement of mine. I have not prepared that to-day for this special contract, but I want to refer you to the meeting of this body on June 10, 1912, when—and I read from the records here. This was during the time of the strike of the Boston Elevated Railroad, and if you will remember that strike was declared on Friday, and on the following Monday, on June the 10th, I offered this resolution in the body, and that resolution was passed:

"Resolved, That it is the opinion of the members of the City Council of Boston that the Elevated Railway Company should withdraw its opposition to its employees forming a union."

"The question came on the resolution offered by Coun. BALLANTYNE."

That resolution was passed. On July the 8th Coun. SMITH offered the following resolution:

"Whereas, Our city is daily the scene of violence and riots caused by the strike on the Boston Elevated Railroad; and

"Whereas, The only question in issue is the right of the employees to join such a union as they desire; and

"Whereas, The Boston Elevated Railway Company has refused to arbitrate in spite of the request of this body voted unanimously on June 10; and

"Whereas, The City of Boston and the Boston Elevated are partners in so far as they share dividends above 6 per cent, and also in furnishing the capital for construction of the subways;

"Now, therefore, we, the elected representatives of the people of Boston, sitting as a City Council, do demand that you grant the right to your employees to organize even as you have been given the right by public bodies to organize your capital."

"Coun. BALLANTYNE—Mr. President, I am heartily in favor of the resolution. I will state now, as I stated at the meeting a month ago, that I believe the men in the employ of the Boston Elevated have a perfect right to organize, the same right that any other body of men has. That is all the men ask for, and they should have that privilege. While our powers are very limited, I, as a member of the Council, am willing to do what I can to bring about that end, and if that resolution will have any effect I shall be very glad to vote for it."

I stand in the same position to-day towards labor and the same position towards the Edison Company. Our powers are limited here but anything that I can do as a member of this Council or as a citizen of Boston to induce the Edison Company to waive its objections to men having unions I shall certainly do and be very glad to do. Now the only question I am dealing with is the question of price, and from all the evidence brought before me I have come to the conclusion that the price offered is the best we can have at the present time, and I am going to vote for the contract for the purpose of saving that \$50,000 already accumulated and the \$80,000 that we will have to pay during the term of one year's notice that we have to give the company.

Coun. WOODS—Mr. President, if I desired to be cozy I could sit in my seat and not vote, or vote with the majority. But I believe this is a question where every man should go on record and give his views, whatever they may be. I for one have carefully watched this matter during all the hearings. I attended every hearing we held. And I want to say that I think this is the fairest contract the City of Boston will ever get from the Edison Company. Their reduction from \$103 a lamp to \$87 a lamp is based on what? It is based on the presumption that with the improvements they can get in the next ten years they can lower their rate. Otherwise what excuse have they to-day for charging \$103, unless they have the benefit of the improvements? They also propose to give the city two-thirds of the benefits of any improvements that may come. And then we have the arbitration by which if any reduction in price comes we get the benefit of it. Now I do not see, for the life of me, why we should squander \$130,000,—\$80,000 a year. That would put 100 men to work for the City of Boston for a year, \$80,000 alone. I do not propose to stand here and vote to squander that \$80,000. I believe that the Commissioner of Public Works was appointed as a competent and an efficient man. This man made the contract, and if he is not efficient he ought to be removed. I think he made the best possible price that he could get. I think the Mayor has indorsed it and gone over this situation carefully and has tried to arrive at the lowest cost. Now I want to say right here that I propose to uphold Mayor Curley in anything that he may want from this City Council as long as he is right. But if he is wrong I am ready to vote against him as well as any other member. But I was elected on the Curley platform and I propose to uphold him in anything that may come up for the benefit of the interests of the whole City of Boston as long as it is right. But if he proposes to put up anything here that is wrong I am ready to vote against him, and the first one to do it. Now as far as the labor question goes in this matter, I want to say this: I will take my hat off to nobody in the matter of labor. In my experience in politics and my dealings with labor I have always had union labor working for me; and in the last campaign I got into union meetings that no one

else could get into. I was always the first one to consider the raising of the price of labor when it was brought to me in connection with my coal business; I want to say that the use of my theatre was open to the Boston Elevated workmen at all times, and the use of my halls. And I have always been for labor. If I could help the labor men to-morrow to get their rights from the Edison Company I would vote against this contract. But no matter whether you vote against this or for it, that isn't going to right their situation with the Edison Company. If there was anything that could be done to help the labor men I would do it. And it is the first time in history I ever heard labor men advocate labor-saving devices to put themselves out of work, as they did at the meetings here, to put in nitrogen lamps. The "Wage Earner" says that there are three classes of labor,—the men that belong to the unions and pay their dues and go along peacefully; and then there are the delegates that all the time are making disturbances and trying to create disaffection amongst the members; and then there is a class of people that won't belong to any labor organization and upset the principles of the others." That is from a labor paper, and I think it is true in a great many cases. But I want to say that my action in voting for this contract—I know I am in the minority, but I always believe in upholding what I believe in—I don't think it will make a particle of difference to labor unions or to labor men that know me. There is no question but that \$87.53 is a fair price—nobody disputes that. They talk about the Chamber of Commerce. That is all right, talking about the Chamber of Commerce being against it. I am a member of the Chamber of Commerce and I am not against it, even if my brother Coleman is, and he is against it. That is one against one and we are even. But I want to say that this same body of men will vote to pay a larger price for electric lighting to the same Edison Company. Now I think the Edison Company is inclined to be fair in this, if they were never fair in anything else. I disagree with them on their labor methods. As my brother over there says the action of the Edison Company towards the labor men is wrong, and I agree with him. I wish to-morrow I could go to the Edison Company and see if we couldn't straighten it out. But that we can't do. If there was any means of voting for it I would vote for it to-day—if I could bring that to a head—but I can't. We are confronted with \$130,000 loss to the city and I don't know what excuse any man can give to the people of Boston why he voted \$80,000 away when he could have saved it. I don't know what excuse I could give to labor organizations or anybody else. Here is the opportunity to save \$80,000,—there is no question about that in anybody's mind,—and as representing the taxpayers of Boston I don't see how any man can vote against it. But that is merely a matter of opinion. They have that right. I think the contract is a good one, and I am sorry that the members of this body do not think as I do because I think if the contract was passed we could go to the Edison Company, or pass a resolution, and say, "Here, take the hand of fellowship with the organizations; put unionism in there and try and do what is right by them; we are willing to go the limit with you." I think there is no question that that would help. But this doesn't better the situation. I can't see for a minute that it does. If it did, as I said before, it would be all right. Now the counsel for the Electrical Workers' Union is one of the dearest friends I have on earth, and I would go a great ways for him, but I couldn't conscientiously stand up here and vote to do away with \$80,000 when we have a chance to save it. Now, Mr. Chairman, I want to say that I am going to put myself on record as voting for it because I think I am conscientiously, honestly, doing the duty I was elected to do.

Coun. ATTRIDGE—The gentleman on my left, on this side of the Chamber, said that I made no statement regarding labor. I desire to correct him and say that I did make a statement regarding labor. I said that the original contract as drawn did not provide for citizens of Boston, and I said that the contract should provide for citizens of Boston to get preference in employment because the citizens of Boston pay the bill. And further, regarding the attitude of this company toward union labor all I have to say is this, that I think the officials of the company are very unwise in discriminating against these men. If they were sensible they would allow these men to join their respective craft organizations without discrimination. I think that will correct the statement that the gentleman made on this side.

Coun. BALLANTYNE—I am perfectly satisfied with the correction as made, but I quite understood that the gentleman had made reference to the labor clause of the contract. I may not have made myself clearly understood. The reference that I intended to make was to the union labor. I failed to hear anything with reference to the union laborers who had appeared before this body at the hearings claiming that the Edison Company was unfair to labor.

Coun. ATTRIDGE—All I desire to say, Mr. President, is that in my opinion every man should be allowed the right to affiliate without discrimination the organization of his respective craft.

The question came on approving the contract. Yeas 2, nays 4, Coun. Ballantyne and Woods voting yea and Coun. Attridge, Coleman, McDonald and

Watson voting nay, and the contract was rejected.

Coun. WATSON—I would like to ask unanimous consent to make a statement.

President McDONALD—No objection being heard, Coun. Watson is given consent.

Coun. WATSON—I would like to suggest this: I understood that one of the councilors who is ill at home had left a message with one member of the Council to make a statement in the event of this contract being considered in his absence.

LEGAL NOTICE. LIGHTING CONTRACT.

Coun. COLEMAN called up assignment No. 3, viz.:

3. Ordered, That his Honor the Mayor be requested to give to the Edison Electric Illuminating Company the legal notice required under the terms of the contract between the City of Boston and said company for lighting the streets of said city, dated May 5, 1909, that is required to terminate said contract. The clause in said contract requiring said notice is as follows: "And Said Municipality Agrees to be bound by the Street Lighting Terms and Conditions of the Company, printed herewith, except as aforesaid, and to pay the prices called for in the Company's Schedule M C 5, printed herewith, until April 1, 1914, and thereafter until one year after written notice by either party to the other of its election to terminate this agreement, which notice may be given at any time after the beginning of the one-year period next preceding the expiration of the original period above fixed."

The question came on the passage of the order.

Coun. BALLANTYNE—I would like to ask the councilor on my right, Mr. Coleman, if in the event of the Mayor acting upon the request of the Council it would be binding upon the city to take the electric lighting at that price for one year or whether or not further investigation would be made in the matter? It says, "To give the Edison Company one year's notice in accordance with the terms of the contract."

Coun. COLEMAN—Mr. President, I presume that we would have to pay the price of \$103, that we are paying now, but I should hope that the Executive Committee would take some action to take up the matter further with the Edison Company at once.

Coun. WATSON—I think, the hour being late and we not being very well acquainted with the matter—I am not—I move to refer it back again to the Executive Committee.

Coun. ATTRIDGE—I trust that this matter will not be so referred, Mr. President. The City Council to-day took definite action. It refused to approve the contract which was proposed by the Edison Company, by the Mayor and the Commissioner of Public Works. Now it is time for the Council to take some action and they request the Mayor to give to the Edison Company the notice to terminate this contract, this one-year contract. Then if that order passes I will put in an order calling upon his Honor the Mayor to petition the Board of Gas and Electric Light Commissioners to investigate the matter of street lighting in Boston, under chapter 742 of the Acts of 1914. Now is the time for the Council to act. We have refused to approve the contract. Now let us go further and get some results to the city.

Coun. WATSON—I do not desire to contest with the gentleman opposite me in the matter. I do not see any harm to come from passing it or referring it. But as to the order that will follow it I don't see why we should pass an order requesting the Mayor to do it. He and I and eight of the citizens can do it. It isn't necessary to request the Mayor, I understand.

Coun. WOODS—Mr. President, I hope this matter will be referred to the Executive Committee. I don't believe in tying the city up for another year for \$103 a lamp. I believe if this was referred to the Executive Committee, now that the contract has been rejected, that we could get the Mayor and probably the Edison Company will waive its rights and cancel the contract and get a new contract that will meet with the wants of the Council. If we pass this order the Edison Company can hold us for another year. Now I don't propose to pay \$103 to the Edison Company or help them to get it. I don't know what the idea of some people is, to pass such an order. I hope it will be referred to the Executive Committee and we will get in touch with the Mayor at that meeting, because I think the Mayor wants to save the city some money. We probably will make some terms with the Edison Company. We may have to pay \$90 for a five-year contract. I hope this will be referred to the Executive Committee.

Coun. ATTRIDGE—Regarding the statement made by the gentleman on the other side of the Chamber that ten citizens of Boston could petition the Board of Gas and Electric Light Commissioners, I desire to read, and I will read, quoting a section of the Acts of 1914, chapter 742, which says that his Honor the Mayor may petition the Board of Gas and Electric Light Commissioners to investigate the price of electricity sold and delivered to the City of Boston, and it is as follows:

Chapter 121 of the Revised Laws, section 34, as amended by chapter 742 of the Acts of 1914:

"Upon the complaint in writing of the Mayor of a city or the selectmen of a town in which a gas or electric company is operated, or of twenty customers thereof, either as to the quality or price of the gas or electricity sold and delivered, the board shall notify said company by leaving at its

office a copy of such complaint and shall thereupon, after notice, give a public hearing to such petitioners and said company, and after said hearing may order any reduction in the price of gas or electricity or an improvement in the quality thereof."

Mr. President, this distinguishes in my opinion between the city, which is a public corporation, and the individuals who might be using electricity for their own particular purpose. That is chapter 742 of the Acts of this year, Mr. President, and it is very specific, that the mayor of a city must petition the Board of Gas and Electric Light Commissioners for the investigation.

Coun. COLEMAN—No one supposes that a new contract, when it is made, will be for this same amount, \$103.47, but for a lesser amount, and if it should be made for \$87.50 or any amount less than that, the amount saved per week would be about a thousand dollars. Now if we pass this motion now, so far as our responsibility is concerned, we will be relieved from the obligation of paying out on account of the city at the rate of a thousand dollars a week more than we need to pay. The Mayor may not accept our suggestion, but as far as our responsibility is concerned our skirts will be cleared.

Coun. WATSON—In view of what the councilor opposite has said of the method whereby the Gas and Electric Light Commissioners can be petitioned, I agree with him that the Mayor alone has power. I am willing to withdraw my motion to refer to the Executive Committee if there is no objection.

Coun. WOODS—I object.

Coun. WATSON—I will vote against the motion then.

The question came on the motion to refer to the Executive Committee, and the motion was lost.

The question then came on the passage of the order, and the order was passed.

PURCHASE OF LAND.

President McDONALD called up unfinished business, No. 2, viz.:

2. Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and he hereby is authorized to transfer the sum of one hundred forty thousand six hundred dollars (\$140,600) from the receipts from the sale of city property to an appropriation for the purchase of land bounded by Hemenway street, Huntington entrance to the Back Bay Park, the Fenway, the Forsyth Dental Infirmary, and a common passageway extending from Hemenway street, containing 43,263 square feet, more or less, to be used for park purposes.

On August 10 the foregoing order was read once and passed, yeas 6, nays 0.

The order was given its final reading and passed, yeas 6.

VESSELS AND BALLAST.

President McDONALD called up assignment, No. 4, viz.:

4. An Ordinance Concerning Vessels and Ballast. Be it ordained by the City Council of Boston, as follows:

Chapter forty-one of the Revised Ordinances of 1898 is hereby amended by adding at the end thereof the following, to be numbered section 11, viz.:

Section 11. Whoever violates any of the provisions of sections six or seven of this chapter shall be punished by a fine not exceeding one hundred dollars for each offence.

The ordinance was passed.

FINANCE.

Coun. BALLANTYNE, for the Committee on Finance, submitted a report on message of Mayor and order (referred July 13) for loan of \$150,000 for high pressure fire service—that the order ought to pass.

The report was accepted and the order was given its first reading and passed, yeas 6.

The order will take its final reading not less than fourteen days from date.

COUNTY ACCOUNTS.

Coun. ATTRIDGE, for the Committee on County Accounts, submitted report on pay roll of Register of Deeds (referred to-day) for approval of pay roll from July 27 to August 24, amounting to \$3,626.97—that the same be approved.

Report accepted; pay roll approved and ordered paid.

PRICE OF LIGHTING.

Coun. ATTRIDGE offered an order—That under the provisions of chapter 742 of the Acts of the year 1914 his Honor the Mayor be requested to petition the Board of Gas and Electric Light Commissioners to investigate the price of electricity sold and delivered to the City of Boston by the Edison Electric Illuminating Company.

Coun. COLEMAN—I move that the order be referred to the Executive Committee.

Coun. ATTRIDGE—I trust that this order will not be referred to the Executive Committee. I think this is the next step that the City Council could take. It first rejected the proposed contract. It then called upon the Mayor to give notice to the Edison Company of the termination of the contract which has been in existence since 1909. Now this Council should say to the Mayor, "We desire that you petition the Board of Gas and Electric Light Commissioners for an investigation of the price." Mr. President, I trust that this reference will not prevail.

Coun. COLEMAN—This may be the next step but, on the other hand, we may want to proceed by means of an investigation that is our own, as was suggested in the discussion in the Executive Committee to-day, and nothing would be lost by postponing the matter for a week or two until the Council meets.

Coun. WOODS—Mr. President. I hope because we are in the majority we are not going to try to force everything down our throats. I hope we will get a chance to look at this. The councilor may have had time and had it all prepared—the gentleman who introduced the order—but I think, in fairness, we ought to have a chance to look into it.

The question came on the motion to refer the order to the Executive Committee, and the motion was passed and the order referred.

PRINTING OF ORDINANCES.

Coun. BALLANTYNE offered an order—That the Corporation Counsel be authorized to prepare and submit, in print, to the City Council, a revision of the ordinances of the City of Boston, the expense of printing the same to be charged to the Appropriation for City Documents.

Passed.

GENERAL RECONSIDERATION.

Coun. BALLANTYNE moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 6.45 p. m., on motion of Coun. ATTRIDGE, to meet on Monday, August 31, at three o'clock p. m.

EXAMINATIONS FOR WATERTOWN ARSENAL.

United States Civil Service examinations for the following mechanical trades and non-educational positions in the Ordnance Department at large, U. S. A., at the Watertown Arsenal, will be held on October 1, 1914.

The positions are blacksmith, carpenter, craneman, blacksmith's helper, carpenter's helper, machinist's helper, molder's helper, all around machinist, medium and small planer and lathe machinist, large planer and lathe machinist, drill hand machinist, floor and bench machinist, turret lathe machine operator, molder, pattern maker, toolmaker, toolgrinder and laborer.

Unskilled laborer (Form 1300 required)—age limit, twenty to fifty years, except that honorably discharged veterans of the Civil War may be examined without regard to age.

No educational tests will be given and applicants will therefore not be called upon to appear at any place to be examined. They will be rated according to their physical condition and experience as indicated in their applications and the medical certificate and vouchers furnished. Age limit twenty to fifty-five years on date of filing papers. Applicants must be citizens of the United States.

BOSTON PUBLIC LIBRARY.

On February 1, 1914, total number of volumes, 1,067,103, or 813,533 in Central Library, and 253,570 in 13 branch libraries. Reading rooms, 17, besides those in the 14 libraries, and each of them is also a delivery station. Periodicals and newspapers in various reading rooms, 2,152. Number of books circulated in 1913, 1,848,973. Endowment funds, \$473,304. Cost of maintenance for 1913, \$380,849, or \$8,293 more than in 1912. Expenditure for new branch libraries in 1913, \$112,231. Valuation of property, \$6,000,000.

LOCAL EXAMINATIONS FOR WORK IN BOSTON HARBOR.

The United States Civil Service Commission announce an open competitive examination for the position named above. As a result of this examination certification will be made to fill a vacancy in the position specified, and vacancies in positions requiring similar qualifications in the different branches of the Federal classified service at the place, or in the vicinity of the place, named above, unless it should be found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

No educational test will be given and applicants will not be assembled for a mental examination. The examination will consist of the subjects mentioned below, which will have the relative weights indicated.

Subjects.	Weights.
1. Physical ability.....	40
2. Training and experience.....	60
Total.....	100

Applicants must have had actual experience as marine firemen.

All statements relating to training and experience are accepted subject to verification. No applicant will be eligible for appointment who fails to attain a rating of at least 70 per cent in the subject of training and experience. Applicants should name in their applications, as references, employers or other persons who are competent to furnish information relative to the applicants' fitness for the positions sought, and these persons will be communicated with. Unless answers are received from these persons within two weeks from the date of sending the communications the applications may be canceled.

The following physical defects will debar applicants from any examination: Insanity, tuberculosis, paralysis, epilepsy, blindness, loss of both arms or both legs, loss of arm and leg; badly crippled or deformed hands, arms, feet, or legs; uncompensated valvular disease of the heart, locomotor ataxia, cancer, Bright's disease, and diabetes. In addition, persons who have lost an arm or a leg, or who are ruptured, are ineligible for appointment to positions in the Custodian Service. Other physical defects will render applicants ineligible for any particular service or position when, in the judgment of the Commission, such defects would disqualify them from the duties required.

An applicant who is unable to write may have his application filled in by another and sign it by mark, which must be properly witnessed; but only those eligibles will be certified for appointment in the Custodian Service whose applications are in their own handwriting.

The age limits for the different branches of the service are as follows: Quartermaster Corps, men, 20 to 50 years; women, 18 to 50 years; Engineer Department at Large, 18 years or over; Custodian Service, 20 to 50 years; other branches, 20 years or over. The age limits are waived in the case of persons honorably discharged from the military or naval service of the United States by reason of disability resulting from wounds received or sickness incurred in the line of duty.

No application will be accepted unless properly executed and filed with the district secretary prior to the hour of closing business on September 8, 1914.

Address all inquiries to Secretary, First Civil Service District, 141 Postoffice Building, Boston, Mass.

THE PREVENTION OF DISEASE.

Western health authorities send the *City Record* very interesting information relative to the determined effort that is being made in Denver and other cities, to prevent the feeding to cows of brewers' malt, which is literally alive with maggots.

It is declared that the custom of feeding this brewers' malt to dairy cows, especially during the summer months, constitutes a great danger.

Samples of malt collected from the dairies showed handfuls of maggots and as a result contaminated milk seemed certain. Furthermore, it is held that dairymen are breeding millions of flies daily by the practice of feeding malt.

In Denver dairymen feeding brewers' malt to cows were haled into the municipal court and fined.

In reference to the above report of Western authorities, Dr. Francis X. Mahoney, Chairman of the Board of Health, states that the feeding of distillers' refuse to cows is prohibited by statute law in Massachusetts, which reads as follows:

CHAPTER 56, REVISED LAWS.

"Section 55. Whoever, himself or by his servant or agent, or the servant or agent of another person, sells, exchanges or delivers, or has in his custody or possession with intent to sell, exchange or deliver or exposes or offers for sale or exchange, adulterated milk or milk produced from cows which have been fed on refuse of distilleries, or from sick or diseased cows, or, as pure milk, milk from which the cream or a part thereof has been removed, and whoever sells, exchanges or delivers or has in his custody or possession with intent to sell, exchange or deliver, skimmed milk containing less than nine and three-tenths per cent of milk solids exclusive of fat, shall for a first offence be punished by a fine of not less than fifty nor more than two hundred dollars, for a second offence by a fine of not less than one hundred nor more than three hundred dollars and for a subsequent offence by a fine of fifty dollars and by imprisonment for not less than sixty nor more than ninety days."

There is no prohibition, however, to the feeding of brewers' grains, although this practice is dying out in New England. The producers of milk found that cows fed on brewers' grains will not give milk that will come up to the Massachusetts statutory standard for solids and fats. These animals are more liable to disease and generally in poor condition. Close observers state that animals fed on brewers' grains make poor return in milk. There is no doubt that milk from animals fed on brewers' grains would be unsafe to be used by infants or the sick. The fattening of animals for the market by the use of distillers' refuse does not obtain in this part of the country, but is practiced extensively in the Middle West, especially in Illinois. These distillery-fed cattle, placed on the market, do not bring as high a price as corn fed. The flesh has a heated appearance, is watery, and can only be used for mess beef or similar product. Formerly all these distillery bulls were sent to Europe and slaughtered there by a concern who had a contract to supply mess beef to the English and Continental armies.

In regard to the feeding of brewers' malt in which maggots were found, would state that a regulation of the Board of Health compels that all food

given to milch cows must be of a clean, wholesome character, and prosecution would follow if it was found that any milk producer was feeding his cows on maggoty brewers' grain.

RESIDENTIAL DISTRICTS AND THE COURTS.

BY ALFRED BETTMAN.

Every once in a while a court hands down a decision invalidating some municipal ordinance or statute designed to protect residential districts against the invasion of factories and industrial establishments. These decisions show that the battle for city planning will have to be largely fought out in the courts. This battle is simply a contemporary phase of the constant conflict between the demands, on the one hand, for the free and untrammelled use of private property, and, on the other hand, the desire of the community to restrict such use for community benefit. The opportunity to protect private property against unreasonable restrictions and interference was found by the courts in the two provisions of the federal and state constitutions which prohibit the deprivation of property without due process of law and the taking of property for public use without due compensation. At first all the emphasis was laid upon the protection of property. As, however, the modern developments of industry and urban life disclosed the need of protecting the community against the evils arising from the unrestrained use of private property, the courts developed the doctrine known as the "police power," by virtue of which new forms and methods of restraint of the use of property come from time to time to be justified in the interest of community welfare.

The police power is generally defined in very comprehensive language as the power to provide for, guard or regulate public health, public safety, public comfort and public welfare. "Public welfare" is itself so comprehensive a phrase that it would seem at first glance to give an almost unlimited freedom to legislative bodies. "The care of the public welfare," says Professor Freund in his authoritative book on "Police Power," "has for its object the improvement of social and economic conditions affecting the community at large and collectively." As new needs are disclosed and new conditions in which public welfare or health or comfort demand new forms of restraint upon the free use of private property, the tendency of the courts will inevitably be to justify these new restraints as an exercise of the police power. As stated by Professor Freund, "Police power is not a fixed quantity, but the expression of social and political conditions." Therefore, while the police power may not expand as speedily as the impatient social workers and city planners may desire, it will be found to be capable of development so as to permit such restriction of the use of private property as enlightened public opinion deems necessary for the promotion of the safety, the health, the comfort and the welfare of the community.

Looking at the ordinances and court proceedings on the subject of the protection of residential districts, the impression one gets is that the legislators, attorneys and courts have generally discussed the issues from too narrow a point of view. Certain kinds of industries, such as rendering plants or foundries, have, when located in residence districts and by reason of the offensiveness of the smells or noises produced, come to be technically known as "nuisances," and the courts have

recognized the right to protect residential districts against nuisances. Court proceedings upon residential district legislation are generally conducted as though the only question involved were whether the particular industrial establishments which the ordinance or statute proposes to keep out are or are not in fact nuisances. The police power is, however, not merely the power to abate nuisances, but the power to promote public health, safety, comfort and welfare. Attorneys engaged in defending such legislation should bring to the attention of the courts the various ways in which the protection of a residence district against the invasion of commercial and industrial plants, some of which may individually be of an inoffensive character, will tend to increase the health and comfort of the community.

At the present stage of the court decisions there is one limitation of the police power which is somewhat rigidly enforced, namely, that "general welfare" may not be defined so as to include the enjoyment of purely esthetic satisfactions. Many an ordinance has been set aside because the court concluded that its sole design was to produce the city beautiful. In promoting residential district and other city-planning legislation, it would be well to have the ordinance follow and be based upon some systematic city planning study, including a study of the relation of the city plan to the city's health, comfort and safety. Suppose, for instance, that a study is made by competent neurologists of the extent to which the noises, smells and turmoil in and about factories and large mercantile establishments in residence districts tend to increase the spread of nervous diseases in communities, and of the extent to which the zoning of the city would tend to reduce the growth of nervous diseases. If a city council should establish residential zones on the basis of such a report, the legislation could be supported on the ground of its promotion of public health, and the courts could certainly not ascribe its passage to esthetic motives. Suppose, again, that a study is made of a city's congestion problem, as it bears upon pedestrian and vehicle and street railroad traffic on the streets, and particularly as it bears upon the growth of transportation facilities to care for the growth of the city. If such a study should demonstrate that a particular distribution of residential and industrial districts, by directing the flow of travel, will tend to lessen congestion and make better transportation possible, the establishment of the proposed residential districts would be shown to have a direct relation to public comfort. Legislation logically based upon such a study and report could not be accused of being born solely of esthetic motives. In short, if that form of study and report of a city's social and sanitary conditions, which we know as city planning, is made antecedent to the passage of legislation regarding residential zones and the like, legislation based on the report will have a strong chance of success before the courts, for the history of the legislation would demonstrate that its design is to promote safety, or comfort, or health or welfare, or all of these. The courts are particularly prone to set aside ordinances which look upon their face as though they were arbitrary, unscientific, haphazard. Legislation to carry out and intelligently formed city plan is simply a new form of exercise of the police power, and will surely, sooner or later, come to be so recognized by the courts; especially as a scientific zoning of the city can be shown to preserve, rather than impair, property values.

OFFICIAL DIRECTORY.

MAYOR'S OFFICE.

Room 27, City Hall. Tel. Fort Hill 3000.
 JAMES M. CURLEY, Mayor.
 CORNELIUS A. REARNON, Assistant Secretary.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 6.

SATURDAY, SEPTEMBER 5, 1914.

No. 36

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

BY SUBSCRIPTION \$1.00 Per Year.
SINGLE COPIES 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 25, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance or permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS at 6 Beacon street, Room 725, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Tuesday, September 8, at 3 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

LICENSING OF ELEVATOR OPERATORS.

Applications for licenses to operate passenger elevators, as required by recently enacted statute, may be obtained at the office of the Building Department, City Hall Annex.

PUBLIC HEARINGS.

The Board of Street Commissioners announce a public hearing, relative to the taking of land for park purposes on Hemenway street, Huntington Entrance

and the Fenway, Roxbury, at the office of the Board, City Hall Annex, upon Monday, September 14, at 11 a. m.

Lieut.-Col. W. E. Craighill, U. S. A., Corps of Engineers, Department of War, announces a public hearing upon the petition of the City of Boston, for approval of plans for construction of a high pressure fire service pumping station in Fort Point channel, between Summer street and Mt. Washington Avenue Bridge, Boston, at the United States Engineer Office, 1017 Barristers Hall, 25 Pemberton square, Boston, upon Friday, September 11, at 11 a. m.

BOARD OF HEALTH.

A summary of the weekly reports of the Board of Health for the first 35 weeks of the present year show the health situation in Boston to be in excellent condition. The total number of deaths for this period is 8,173, exactly the number for the same period for 1913, but there is an increased population of 15,000 people for 1914 to be considered in this connection.

Especially gratifying to the Board of Health is the fact that deaths from diseases directly under the control of the Board show a marked decrease for the period of 1914 over 1913, with the exception of typhoid fever. The death rate for the period of 1914 per 1,000 population is 16.22 against 16.56 per 1,000 population for 1913. Deaths of nonresidents make a corrected death rate of 14.22 for 1914. Boston is affected very materially by deaths in public institutions and hospitals of people from all over New England, and even Canada, who come to these institutions for treatment. Boston, in proportion to its population, is the greatest hospital center in the United States. The number of hospitals for the care and treatment of the sick is constantly increasing. Boston has the largest nonresident death rate of any city in the country.

The Health Department attributes this excellent health showing to the work being done by the different divisions of the department. Constant measures are being taken to prevent overcrowding and to better housing conditions in the congested parts of the city, and the effect of this has been shown in the reduced number of deaths from communicable diseases occurring in the congested districts. This is especially shown in the diminution of deaths from pulmonary tuberculosis.

Boston's milk and food inspection is a most excellent and thorough one, and ranks with the best in the country. There is probably no city in the country whose milk supply is better protected.

Practising physicians of Boston are giving hearty cooperation to the department by early reports on cases of communicable diseases and assisting in the isolation of the cases.

A statement of deaths from specified causes and of infant mortality for the first 35 weeks of 1913 and 1914 will be found on page S18.

	FIRST 35 WEEKS.	
	1914.	1913.
Diphtheria.....	103	120
Measles.....	45	83
Scarlet fever.....	52	59
Pulmonary tuberculosis.....	723	751
Typhoid fever.....	39	28
Whooping cough.....	26	73
Pneumonia.....	1,028	1,117
Diarrhea and enteritis (under 2 years).....	244	300
Infant mortality (under 1 year).....	1,305	1,440

The deaths from heart disease have shown a remarkable increase; for the first 35 weeks of 1914 there were 1,368 deaths and for the same period of 1913, 1,151 deaths from this cause.

MAYOR CURLEY'S TRIBUTE TO THE NEW POPE.

Mayor Curley declared, upon the 3d instant, relative to the elevation of Cardinal Chiesa to the Papacy:

"The election of the noted scholar of Bologna, Cardinal Chiesa, as Pope marks a signal victory for the conservative forces of the Roman Catholic Church. The late Cardinal Rampolla in his vigorous administration against the forces of modernism had no stronger, more loyal or vigorous supporter than Cardinal Chiesa, and his assuming the See of Peter means a tremendous gain for Holy Church along the strongest religious lines.

"As an intellectual leader the newly elected Pope will bring to the Church a tremendous awakening of the religious spirit among all classes, a world-wide strengthening of the faith by reason of his lifelong policy of conservatism, and a tremendous moral argument for the necessity of the political independency of the See of Peter.

"Never in the history of the Church will the sublime dignity of the Papacy have a more striking evidence than under the administration of Pope Benedict XV., who has long enjoyed a world-wide reputation as one of the greatest scholars of Europe.

"Piety and learning go hand in hand with the elevation of the new Pope to the Chair of Peter, and the prayer of the faithful the world over will be today: '*Lux perpetua luceat ei.*'—'Let perpetual light shine upon him.'

"As a great Catholic writer has so beautifully declared: 'The new Pope looks down from his window upon the Court of St. Peter's. He stands for a long time in deep meditation, his head bowed upon his breast. And then raising his eyes he observes the obelisk in the center of St. Peter's Court, the same slender marble needle that saw the martyrs die in the days of Nero. Now it triumphantly bears aloft upon its summit the cross, the symbol of Christianity. Carved upon its granite pedestal are the words: '*Christus vincit, Christus regnat, Christus imperat.*'—'Christ is Victor, Christ is King, Christ is Commander.' Benedict XV. folds his hands and raises his eyes heavenward. Even though every day of his Pontificate be marked by cares, sufferings, trials and persecutions, the obelisk with the cross upon its summit reminds him of the cross of his Saviour. And this mighty herald of stone encourages him also with the gladsome message: 'Christ conquers.'"

THE BANANA PLANT.

By CAPT. JOHN H. DILLON, *Chairman of the Park and Recreation Department.*

The banana (*Musa, Paradisica* or *Sapientum*) is one of our most familiar fruits, and unlike others of the tribe is not confined to any particular country of the torrids, but offers its fruit, indifferently, to the people of Asia, America, Africa and the islands of the Pacific and Atlantic Oceans. Its produce is enormous. The banana, for a great portion of mankind, is what wheat and rye are for the people of Western Asia and Europe. Many of the inhabitants of both Indies, to whom it supplies their principal food, find it not only satisfying for the time being, but permanently nutritive.

The facility with which the banana can be cultivated and gathered, it filling almost all the requirements for food for the natives of the tropics, tends to keep them in idleness just a little elevated above the inferior animal, while the people of colder climates, and a less fertile soil, being forced by necessity to become industrious, called forth their intellectual powers, which when developed enabled them to subdue to their use all the treasures of the earth, by labor and skill, and surround themselves with society, its comforts, and the blessings that follow.

The tree grows upon an herbaceous stem about six or eight inches thick, and from twelve to twenty feet high. The leaves spread out at the top, and are from six to eight feet long, and about twelve to fifteen inches broad, with a stiff mid-vein. The rest of the leaf is tender, and easily torn by the wind.

The leaves grow very fast after the stalk has arrived at its proper height. The flower rises from the center of the leaves about four feet, and the clusters of fruit produced on a plant will vary from one hundred to one hundred eighty on a single stem, and weigh from forty to seventy pounds.

The variety which is much used by horticulturists to give their tropical bedding a real effect is the *Musa Ensete*, the Abyssinian variety.

THE EAST BOSTON TUNNEL.

The East Boston Tunnel situation has apparently narrowed itself down to a point where the bondholders have it in their power to say whether or not the one cent toll shall be abolished. If owners of the tunnel bonds can be persuaded to waive part of their rights for a consideration the toll will be discontinued.

At present there are \$3,193,000 East Boston Tunnel and \$2,100,000 East Boston Tunnel Extension bonds outstanding, a total of \$5,293,000. They bear interest as follows: \$2,100,000 4s, \$2,743,000 3½s and \$450,000 3s. On the face of each bond is the stipulation that the whole amount of tolls collected from persons passing through the tunnel shall be used to meet the principal and interest of the said bonds. The city now proposes to ask the holders to waive this pledge, and in return the city will appropriate \$125,000 a year to be added to the rental received from the Boston Elevated for lease of the tunnel. This would provide the interest on the \$5,293,000 bonds, amounting to \$193,505 all told.

Ordinarily it would be a little difficult to induce the holders of such a large amount of bonds to consent to this proposition. It now seems as if few bondholders will care to obstruct the consummation of the plan, to which voters of the city gave their approval at the January election.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

HOSPITAL DEPARTMENT.

The Trustees of the Boston City Hospital advertise for proposals for coal-handling machinery and tower for the hospital. Bidders will be required to give the Trustees satisfactory assurance of their competency, experience and responsibility. Blank forms for proposals may be obtained at the office of Densmore & LeClear, engineers, 88 Broad street, Boston. Bids, accompanied by a certified check in the amount of \$500, to be filed at the Boston City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, September 9, at 12 m.

The Trustees of the Boston City Hospital advertise for proposals for coal pocket and sea wall at the hospital. Bidders will be required to give the Trustees satisfactory assurance of their competency, experience and responsibility. Blank forms for proposals may be obtained at the office of Densmore & LeClear, engineers, 88 Broad street, Boston. Bids, accompanied by a certified check in the amount of \$500, to be filed at the Boston City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending Thursday, September 3, 1914:

AUDITING DEPARTMENT.

By reason of the resignation of Charles L. Sullivan, a clerk in the department, the following adjustments of salaries have been made, to date from September 1, 1914:

Daniel J. Falvey, from \$1,300 to \$1,500 the year; John F. Woods, from \$1,300 to \$1,400 the year; William D. Nagle, from \$1,200 to \$1,300 the year; Thomas M. Lannon, from \$1,200 to \$1,300 the year; James E. Gallivan, from \$1,100 to \$1,200 the year.

These changes of salary do not increase the total amount paid for salaries in the department.

Charles J. McCarthy, Jr., clerk in the Fire Department, has been transferred to the Auditing Department, at a salary of \$1,000 per year. The appointment of Mr. McCarthy is made to fill a vacancy caused by the resignation of Charles L. Sullivan.

CHILDREN'S INSTITUTIONS DEPARTMENT.

John R. Salisbury has been appointed to the position of engineer at the Suffolk School for Boys, at a salary of \$720 the year, to fill the vacancy caused by the resignation of William G. Murphy.

Sarah O. Doll has been appointed to the position of seamstress at the Suffolk School for Boys, at a salary of \$300 the year, to fill the vacancy caused by the resignation of Emma J. Shaw.

ELECTION DEPARTMENT.

Jacob B. Basch has been appointed as assistant registrar and employee of this department for the year ending September 30, 1914, at a salary at the rate of \$4 a day, to fill the vacancy caused by the resignation of Francis J. Brennan.

FINANCE COMMISSION.

The term of employment of Florence Larkin and Helen Campbell, in the office of the commission, has been extended until September 15, 1914.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital during the past week:

To Fill Vacancies.

Permanent.—William S. Bloom, orderly, \$25 per month; Joseph Werland, orderly, \$25 per month; Whitney P. Clydesfold, orderly, \$25 per month; Margaret Walsh, scrubber, \$5 per week; Elizabeth Firth, scrubber, \$5 per week; Mary F. Simpson, scrubber, \$5 per week; Anna Mikuleicz, laundress, \$16 per month; Mary Haven, chambermaid, \$15 per month; Alice M. Rockwell, ward helper, \$5 per week; Sarah Burke, cook, \$30 per month; Anna Seaparatic, scullery woman, \$20 per month; Stanislaw Zdonezyk, housecleaner, \$1 per day; John Sodowski, housecleaner, re-employed, \$1 per day.

Temporary.—Emma Wahl, head nurse, re-employed, \$40 per month.

Probationers, No Pay.—Mary E. Currier, Julia B. Converse, Edna M. Lane, Roberta V. Gunn, Gertrude W. Dexter, Ethel A. Jewell, Muriel E. Wallace, Ethel M. Walsh, Eva M. Price.

The following employees have had increase of wages:

Christine Homme, laundress, \$16 to \$18 per month; Emily Conrad, laundress,

\$16 to \$18 per month; Antonia Conrad, laundress, \$16 to \$18 per month; Lena Sweeder, laundress, \$16 to \$18 per month; Alexander McLean, orderly, \$30 to \$35 per month; John H. Cashman, orderly, \$25 to \$30 per month; Amelia Sowle, ward maid at \$15 per month to scrubber at \$24 per month; Mabel Roberts, supply woman at \$16 per month to ward attendant at \$5 per week; Elizabeth G. Mahoney, Boston State Hospital nurse, \$8.33 to \$12.50 per month; Elizabeth B. Walls, New England Hospital nurse, \$10 to \$12 per month; Dora G. Coakley, nurse, \$5 to \$8.33 per month; Helen B. Noonan, nurse, \$5 to \$8.33 per month.

PENAL INSTITUTIONS DEPARTMENT.

James Kelly, an officer at the House of Correction, Deer Island, has received an increase of salary, from \$660 to \$800 the year.

PUBLIC BUILDINGS DEPARTMENT.

Margaret M. Miller, telephone operator, employed in the Schoolhouse Department, has been transferred to the Public Buildings Department.

Thomas J. Finnerty has been appointed to the position of laborer, at the rate of \$2.50 the day.

Ida Hindle has been appointed to the position of telephone operator of the department at a salary of \$2 the day.

Patrick A. Sheehan has been appointed to the position of first class engineer of the new City Hall Annex. Mr. Sheehan has been provisionally employed in the position named.

PUBLIC WORKS DEPARTMENT (Paving Service).

Charles McGowan has been appointed a laborer in the Paving Service, with wages at \$2.50 the day, to take effect August 28, 1914.

PUBLIC WORKS DEPARTMENT (Water Service).

George W. Gilmore, clerk in the Water Service, has received an increase of wage, from \$3 the day to \$1,000 the year, to take effect August 28, 1914.

John P. Gately has been employed as a meter tester in the service, with wages at the rate of \$2.50 the day.

SCHOOLHOUSE DEPARTMENT.

The following persons have been discharged from the service of the department: Eva A. Duplessis, stenographer; George H. Grueby, inspector; Henry C. Pickering, inspector; William O'Toole, superintendent of plumbing; Joshua B. Blair, architect.

Nellie E. Aldrich, janitress, has been discharged from the department by reason of the removal of the offices to the New City Hall Annex where janitor service is provided.

STREET LAYING-OUT DEPARTMENT.

Alfred M. Sheehan, a rodman in the department, and suspended upon May 20, 1914, has been reinstated in the service.

OVERTIME ALLOWED.

The heads of various departments whose employees have received payment for overtime state in connection therewith that if any laborer has been allowed to work more than eight hours per day it has been only in case of emergency under the law.

Hospital Department.

The extra time on the pay roll for the week ending September 3, 1914, is accounted for, viz.:

Main Department.—W. E. Thompson, laundry engineer, 8 hours at \$0.37½ per hour, \$3; E. F. Cochrane, assistant engineer, 8 hours at \$0.43¼ per hour, \$3.50; W. T. Slater, assistant engineer, 8 hours at \$0.43¼ per hour, \$3.50; R. W. Jaeger, assistant engineer, 8 hours at \$0.43¼ per hour, \$3.50; N. MacPherson, assistant engineer, 8 hours at \$0.43¼ per hour, \$3.50; J. Deery, assistant engineer, 16 hours at \$0.43¼ per hour, \$7; Edward Darcy, fireman, 8 hours at \$0.40½ per hour, \$3.25. Total, \$27.25.

Penal Institutions Department.

For the week ending Thursday, August 27, 1914:

Humphrey J. Donovan, watchman, 1 day, \$2.19.

For the week ending Thursday, September 3, 1914:

Hugh J. McKenna, watchman, 1 day \$2.19.

Public Works Department (Bridge Service).

For the week ending Monday, August 31, 1914:

Patrick F. Murphy, machinist, 2 days at \$3.75, \$7.50; Joseph V. Maddock, electrician, ½ day at \$4, \$3. Total, \$10.50.

Public Works Department (Ferry Service).

For the week ending Monday, August 31, 1914:

Patrick J. Kelly, captain, 6 hours at \$3.62 per day, \$2.72; Charles Stafford, deckhand, 6 hours at \$3 per day, \$2.25; James Kearney, deckhand, 6 hours at \$3 per day, \$2.25; John McInnis, deckhand, 6 hours at \$2.50 per day, \$1.88; Ernest Yocum, temporary engineer, 5 hours at \$4.22 per day, \$3.17; Horatio L. Nelson, quartermaster, 5 hours at \$3 per day, \$1.88. Total, \$14.15.

Public Works Department (Paving Service).

For the week ending Monday, August 31, 1914:

Patrick H. Connolly, inspector, 3½ days at \$3.50, \$11.38; Henry J. O'Neil, inspector, 4½ days at \$3.50, \$14.88. Total, \$26.26.

Public Works Department (Sewer Service).

For the week ending Monday, August 31, 1914:

Office.—John F. Mullin, inspector, 1½ days at \$3.50, \$6.13; James J. Fitzgerald, inspector, 4½ days at \$3.50, \$16.19; Michael J. Dagle, inspector, 3 days at \$3.50, \$10.50; George A. Chase, inspector, 3 days at \$3.50, \$10.50.

Districts 1, 7 and 8.—Timothy Reardon, sewer cleaner, 1½ days at \$3, \$4.50; Michael Patten, laborer, 1½ days at \$2.75, \$4.13; Martin Tynan, teamster, 1½ days at \$2.50, \$3.75; Stephen Connolly, laborer, 1½ days at \$2.75, \$4.13.

District 12.—John Kirk, engineer, 1 day at \$4.66½, \$4.67; George W. Emerson, engineer, 1 day at \$4.66½, \$4.67; John McCarthy, engineer, 1 day at \$4.66½, \$4.67. Total, \$73.84.

Public Works Department (Water Service).

For the week ending Monday, August 31, 1914:

J. Begley, repairer, 1½ days at \$3, \$5.63; J. Breen, laborer, 1½ days at \$2.50, \$4.69; D. Burke, laborer, 1½ days at \$2.50, \$4.69; H. Campbell, repairer, 1½ days at \$3, \$5.63; M. Daly, laborer, 1½ days at \$2.50, \$4.69; M. Durand, inspector, 7½ days at \$3.50, \$26.03; N. Hogarty, repairer, 1½ day at \$2.75, \$2.23; J. Hourihan, laborer, 1½ days at \$2.50, \$4.69; J. J. Kelly, inspector, 3½

days at \$3.50, \$11.16; C. Monagle, laborer, 1½ day at \$2.50, \$2.03; W. O'Connor, inspector, 2½ days at \$3.50, \$7.88; C. Quigley, laborer, 1½ day at \$2.50, \$2.03; C. Sullivan, laborer, 1½ days at \$2.50, \$4.69; W. Donovan, laborer, ¾ day at \$2.50, \$0.47; J. Morrissey, plumber, ½ day at \$3.50, \$1.75; H. Cauley, laborer, ¾ day at \$2.50, \$1.09; P. Coleman, laborer, 1½ days at \$2.50, \$3.98; G. Greer, repairer, ¾ day at \$3.50, \$1.97; C. McDermott, laborer, ¾ day at \$2.50, \$1.95; D. McGowan, laborer, 1½ day at \$2.50, \$0.86; W. Shields, laborer, ¾ day at \$2.50, \$1.95; J. Williamson, laborer, ¾ day at \$2.50, \$1.41; T. Lyden, laborer, ½ day at \$2.50, \$0.31; P. Clougherty, laborer, ¾ day at \$2.50, \$0.31; O. Gilloon, plumber, ¾ day at \$3.50, \$1.53; E. Mahoney, laborer, ½ day at \$2.50, \$0.31; J. Mahoney, laborer, ¾ day at \$2.50, \$2.27; P. Russell, laborer, ¾ day at \$2.50, \$1.88; T. Sullivan, plumber, ¾ day at \$3.50, \$0.44; M. Welch, plumber, ¾ day at \$3.50, \$3.17; G. Coleman, transitman, 3 days at \$1.140 per year, \$9.37; W. Gallivan, rodman, 1 day at \$900 per year, \$2.46; E. Godvin, rodman, 2 days at \$900 per year, \$4.93; D. Sullivan, transitman, 2½ days at \$1.140 per year, \$7.81; P. Foley, inspector, 3½ days at \$3.50, \$12.03. Total, \$148.32.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending September 3, 1914:

FIRE DEPARTMENT.

Upon August 31 the Mayor approved a contract with John Bowen for alterations to the house of Engine Company 41, Harvard avenue, Brighton. Bids for the work, opened August 10, were as follows:

John Bowen, \$8,777; M. F. McDonald & Son, \$9,973; P. J. Cantwell & Co., \$10,620; Thomas H. Hanlon, \$10,894.

PUBLIC WORKS DEPARTMENT (Bridge Service).

Upon August 31 the Mayor approved a contract with M. S. Kelliher for renewing the wooden flooring of the roadways of the draw span of the Charlestown Bridge. Bids for the work, opened August 19, were as follows:

M. S. Kelliher, \$7,339; W. H. Ellis & Son Company, \$8,393; Lawler Brothers, \$8,620.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Upon September 4 the Mayor approved a contract with the T. J. O'Connell Company for sewerage works in Museum road, between Huntington avenue and the Fenway, Roxbury. Bids for the work, opened August 21, were as follows:

T. J. O'Connell Company, \$5,192.25; Antony Cefalo, \$5,772.65; Charles J. Jacobs Company, \$5,930.95; John Guarino, \$5,997.95; Charles R. Gow Company, \$6,310.75; Martino DeMatteo, \$6,328.14; McCarthy & Walsh, \$6,684; John McCourt Company, \$6,783.55; Louis Balboni, \$7,127; George J. Regan, \$8,035.75.

PUBLIC WORKS DEPARTMENT (Water Service).

Upon September 4 the Mayor approved a contract with R. Cartullo for laying water pipe in Beach, India, Milk and Washington streets, city proper; Frank-

fort street, East Boston; C and Frederick streets, South Boston. Bids for the work, opened August 28, were as follows:

R. Cartullo, \$1,321.50; Louis Balboni, \$1,670; Thomas F. Broderick, \$1,777; John Guarino, \$1,963.50; John T. Shea, Jr., \$2,172.50; J. L. Bryne, \$2,302.50.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

PUBLIC WORKS DEPARTMENT.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force, without advertising for competitive bids:

Resurface and regulate with tar macadam Bellflower street, from Dorchester avenue to Adams street, Dorchester. Estimated cost for labor and materials, \$1,300.

Resurface with tar macadam Cambridge street, Brighton, from railroad bridge to the river. Estimated cost for labor and materials, \$10,000.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by his Honor the Mayor:

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$20, on contract with William J. Rafferty Company for tar macadam roadway in St. Lukes road, between Brighton and Commonwealth avenues, Brighton on account of constructing driveway not shown on plan; cutting guttermouth as directed. Original contract, \$3,232.92; total addition, \$20; contract as standing, \$3,252.92.

An addition, amounting to \$10, on contract with James Doherty for tar macadam roadway in Potosi street, between Mt. Ida road and Percival street, Dorchester, on account of furnishing extra stone for concrete base where directed. Original contract, \$1,785.65; total addition, \$10; contract as standing, \$1,795.65.

PUBLIC WORKS DEPARTMENT (Sewer Service).

An addition, amounting to \$10, on contract with Antony Cefalo for sewerage works in Pinehurst street, between Dudley and Belgrade avenues, West Roxbury, on account of cutting two guttermouths in existing edgestone. Original contract, \$2,594.45; total addition, \$10; contract as standing, \$2,604.45.

PUBLIC WORKS DEPARTMENT (Water Service).

An addition, amounting to \$854, on contract with Coffin Valve Company for furnishing labor necessary for assembling post hydrants and gates on account of assembling fifty additional post hydrants. Original contract, \$5,412.50; total addition, \$865; contract as standing, \$6,277.50.

An addition, amounting to \$101.30, on contract with James H. Ferguson for laying water pipe in Dillaway street, Dix place, Hollis, Sears and Traverse streets, St. James avenue, Washington street and Washington Street North, city

proper, on account of laying fire pipes and moving material on Dix place; extra teaming and repairing leaky gates, Hollis street; laying water pipe and removing obstructions, Washington street. Original contract, \$2,735; total addition, \$101.30; contract as standing, \$2,836.30.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$450, on contract with the John McCourt Company for performing the following work at the Wells School: Face of granite cut work, dimension stone, \$300; boulder concrete for backing above, \$40; set face granite, \$90; cutting and facing present stone, \$20. Original contract, \$1,383; total addition, \$450; total deductions, \$100; contract as standing, \$1,733.

An addition, amounting to \$101.60, upon contract with John McCourt Company for performing the following work at the William Bacon School: For repair and painting of two iron gates, \$22.50; for cutting stone bumpers, \$9.10; sod around two trees, \$35; concrete steps, \$35. Original contract, \$1,816; total addition, \$101.60; contract as standing, \$1,917.60.

An addition, amounting to \$208, upon the contract with the John F. Griffin Company for work at the Bennett District School. For cutting away the bank at the corner of the building along the lines of the first plan of grading. Original contract, \$37,379; total additions, \$497.30; total deductions, \$712; contract as standing, \$37,164.30.

An addition, amounting to \$536, upon the contract with Patrick Rich for work at the George Frisbie Hoar School. For cleaning out all the old wells and filling same with broken stone, up to approximately grade 2; over stones spread 5-ply of tar paper and cover same with 4 inches of concrete; provide sewer connection with 6-inch Akron drain, entering sewer at approximately grade 9. Original contract, \$66,944; total additions, \$2,770.10; total deductions, \$2,033; contract as standing, \$67,681.10.

An addition, amounting to \$24, on contract with James P. Landers for work at the B. F. Tweed School, for painting the present portion of teachers' room, including walls, ceiling and bronze coils. Original contract, \$3,645; total addition, \$24; contract as standing, \$3,669.

EAST BOSTON TUNNEL BONDS.

Mayor Curley has instructed City Treasurer Slattery to furnish the Corporation Counsel with a list of the East Boston Tunnel bondholders that they might be asked whether or not they would waive their rights under the law, that the city might by an appropriation of \$125,000 reimburse them for any losses they may suffer as result of doing away with the East Boston Tunnel tolls. The Mayor stated that unless they did waive their rights the tunnel toll charge could not be abolished. This step was taken in compliance with an order passed by the City Council requesting him to take such action.

EMERGENCY CURRENCY FOR BOSTON.

About \$18,000,000, or two-thirds of the \$27,305,970 emergency currency received at the Boston sub-treasury, has been distributed to the National Currency Association of Boston, which in turn has distributed the bulk of this currency to Boston and Massachusetts national banks.

PLANS TO IMPROVE SOUTH BOSTON.

Elaborate plans for the beautification of the Strandway and Farragut road in South Boston have been submitted to Mayor Curley by Park Commissioner John Dillon. The plans followed a request from Mayor Curley last month that some attractive method of treatment should be found for the Strandway.

Captain Dillon proposes a walk and driveway from the headhouse to Castle Island pier, lined on both sides by trees and cut off from the beach by an ornamental concrete balustrade. On the shore side of the roadway Captain Dillon wants a row of silver poplar trees and on the sea side a double row of Lombardy poplars, in the belief that the poplar, as a dignified and upstanding tree, would fit in with the whole plan most artistically.

Captain Dillon declares that he can do most of the work with his own department force. About 2,000 feet is included in the portion between Castle Island pier and the headhouse which will be the first part to be treated.

After this Mayor Curley wants a complete roadway constructed from the headhouse right across to Castle Island, which is now reached by a bridge. Even more elaborate was the plan advanced at the conference by the Mayor himself, and for which he appointed a committee, consisting of Commissioner Rourke, Dr. F. X. Mahoney and Park Commissioner Dillon, to investigate and report to him. The Mayor thinks that a breakwater can be erected from the Calf Pasture, so called, across to the Mosquito Fleet Yacht Clubhouse, and all this part filled in with the dredgings of the channel outside. It would mean the reclamation of 5,000,000 square feet of land and at the same time mean the doing away with the nuisance caused by sewage and flats that now exist there.

ANNOUNCEMENT OF STREET IMPROVEMENTS.

The Board of Street Commissioners, with the approval of the Mayor, announce the following street improvements in the city:

Walley street, East Boston, extended, grade established and construction ordered to Waldemar avenue.

St. Andrew road, formerly Collins street, East Boston, laid out, grade established and construction ordered from Bayswater street to Washburn avenue.

Castlegate road, Dorchester, laid out, grade established and construction ordered from Blue Hill avenue to Normandy street.

Ronald street, formerly Bowdoin avenue, Dorchester, laid out, grade established and construction ordered from Brinsley street, southeasterly.

Philbrick street, formerly Folsom street, West Roxbury, laid out, grade established and construction ordered.

Langdon street, Roxbury, laid out, grade established and construction ordered from George street to Norfolk avenue.

C street, South Boston, extended, grade established and construction ordered to Old Colony avenue.

REJECTION OF CLAIM.

The Law Department has disapproved a claim against the Fire Department of the City of Boston amounting to \$137.10. This claim was rejected on the ground that there was no legal liability against the city.

CLAIMS.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Goodman Kostuik, in the amount of \$50, for compensation for damage to goods and property, at 320 Harrison avenue, caused by the breaking of a water pipe, July 9, 10 and 11, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Catherine Phelan, in the amount of \$75, for compensation for personal injuries, caused by a hole in the crosswalk, next to and adjoining the northerly rail of the Boston Elevated Railway Company, opposite 9 Boylston street, city proper, August 31, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Mary T. Morse, in the amount of \$200, for personal injuries caused by a defective flagstone in sidewalk opposite 223 Columbia road, Dorchester, November 4, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Mary A. Kelley, in the amount of \$38.10, as a reimbursement for the amount expended for imperfect work of the Sewer Department in making connection with house drain, 114 Ruggles street, Roxbury, May, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Rose Footnick, in the amount of \$125, for compensation for personal injuries caused by a hole in the sidewalk, directly or nearly opposite 30 Lowell street, November 6, 1913.

TAKING OF LAND FOR SCHOOL PURPOSES.

The Mayor has approved the order of the Commissioners of the Schoolhouse Department, in the taking of land for the purpose of extending the school yard of the Thomas Gardner School, Allston.

The parcel of land taken comprises 15,692 square feet of land more or less, and is bounded and described as follows: Beginning at a point on Brentwood street, at the southerly corner of land of the City of Boston, and occupied by the Thomas Gardner School; thence northeasterly, by land of the city, 206 feet to land now or formerly of one Tucker; then turning, and running southeasterly, by land of Tucker, 50 feet to line of Prescott place; then turning, and running southeasterly, by line of Prescott place, by a curved line, 38 feet to land of one Sweeney; thence turning, running southwesterly, by land of Sweeney, 48 feet to land of one Dolan; thence turning, and running southwesterly, by land of Dolan, 134 feet, to line of Brentwood street; thence turning and running northwesterly, by line of Brentwood street, 82 feet to the point of beginning.

MAYOR OFFERS REWARD FOR INCENDIARIES.

Mayor Curley has offered a personal reward of \$1,000 for information that will lead to the arrest and conviction of the incendiary responsible for the Huntington avenue fire of the past week and the Melvin apartment house fire of several months ago.

APPOINTMENTS AND CONFIRMATIONS.

APPOINTMENT.

August 31, John F. Stephens, to be a member of the Board of Appeal.

MEETING OF RETIREMENT BOARD.

A meeting of the Retirement Board for City Laborers voted to retire the following employees, to date from Friday, September 4, 1914.

PUBLIC WORKS DEPARTMENT.

NAME.	Division.	Age.	Length of Service.	Salary.
Douglas Forbes.....	Water.....	66	19 years.	\$782 50
James Toland.....	Street Cleaning.....	70	23 years.	782 50
Edward McGuinness.....	Street Cleaning.....	68	27 years.	782 50

THE NECESSITY OF PASSING THE RIVER AND HARBOR BILL.

Mayor Curley, upon the 3d instant, directed vigorous communications to Senator Weeks and Congressman Gallivan, relative to the imperative necessity of enacting the 1914 River and Harbor Bill prior to the adjournment of the Sixty-third Congress.

Mayor Curley, in his communication, calls particular attention to the fact that the measure now pending carries an appropriation of \$600,000 for Boston Harbor, \$123,000 for Beverly harbor, \$7,500 for Salem harbor, \$80,000 for the Malden river, \$21,000 for the Weymouth Fore river, \$125,000 for the Pollock Rip channel, \$67,000 for the New Bedford and Fairhaven harbor and \$12,000 for Fore river harbor; and further that the measure provides for surveying of Dorchester bay, Neponset river, Lynn harbor, Mystic river, Gloucester harbor, Onset bay and Manchester harbor.

CITY OF BOSTON,

OFFICE OF THE MAYOR, Sept. 3, 1914.

My dear Senator:

My dear Congressman:

I regret to learn that there is serious danger of the 1914 River and Harbor Bill failing enactment prior to the adjournment of the Sixty-third Congress.

I am duly appreciative of the weariness that has resulted from the continuous session of Congress during the past two years, and the important character of the legislation that has preceded, but, nevertheless, I sincerely trust that, for the welfare of Boston and New England, a quorum can be maintained in the House and Senate until the River and Harbor Bill is passed.

A failure to enact this measure would result in disaster for Boston and New England, for since 1910 it has been the policy of the government to pass a bill each year, and the army engineers of the Department of War have acted in consonance with this agreement.

Already it appears that a vast number of men have been thrown out of employment and hundreds of thousands of dollars worth of valuable engineering machinery has remained idle for failure to prosecute the important work incident to a liberal policy for the promotion of river and harbor improvements.

The improvements of Boston Harbor, Malden river, the Weymouth Fore river, Dorchester bay and the Mystic and Neponset rivers are vastly important items included in the present measure.

I sincerely trust that you will do everything within your power for the enactment of the River and Harbor Bill in order that there may be averted a repetition of disasters, the shoaling of harbors and rivers, and the stoppage of commerce and navigation in many places.

I further desire to call your particular attention to the fact that the preservation of human life as well as property is involved in this bill, and it is vitally necessary that an appropriation should be immediately continued for prosecuting the work of the engineers of the United States Army.

Sincerely yours,
JAMES M. CURLEY, Mayor.

MAYOR'S PROTEST IS EFFECTIVE.

The protest of Mayor Curley to Governor Walsh against the charge of \$33,500 made by the Boston Port Directors against the city for 10,000 square feet of land at Fort Point channel for the erection of a high pressure pumping station has proved effective, and the Mayor has secured the city a saving of the amount. The Executive Council has decided that the city pay the state the nominal sum of \$1 for the land, with the understanding that if, at any time, the land should not be used for public purposes it shall revert to the state.

It was a signal victory for the Mayor.

ARGENTINE OFFICERS CALL ON MAYOR.

Admiral Betbender of the Argentine Navy and Capt. Jose Moneta of the new battleship Rivadavia, now at the Charlestown Navy Yard, made an official call on Mayor Curley at City Hall, upon the 31st ultimo, and expressed their thanks for many courtesies extended. They were accompanied by William McKissock, vice consul.

BOSTON'S MUNICIPAL GYMNASIA.

The following is a list of the free Park and Recreation gymnasias and instructors in charge:

Curtis Hall, Jamaica Plain.—Joseph J. McNamara.

Cabot Street, Roxbury.—Matthew M. Leary.

Columbia Road.—George E. Fraser and William E. Mullen.

Ward 9, Harrison Avenue.—Henry J. Brennan.

Ward 7, Tyler Street.—John A. Lane.

D Street, South Boston.—Leo C. Knebel.

North Bennet Street, North End.—James F. Winston.

Paris Street, East Boston.—John J. Driscoll.

Bunker Hill Street, Charlestown.—Maurice R. Smith.

All of them are conducted entirely free of charge. Membership in a class in any one of them may be obtained by making application to the instructor. The requirements are simple. Each applicant must agree to observe the rules of the gymnasium, and must provide himself with proper gymnasium costume.

Classes for men will be held on Tuesday and Friday mornings at 10.30 and in the evenings at 8 o'clock. The morning

lessons are devoted largely to men who are preparing for civil service examinations for Police and Fire Departments, but in the night classes all grades of instruction are offered.

Classes for women are held on Mondays and Thursdays. At 10.30 in the morning instruction is given in calisthenics, general upbuilding exercises and in gymnastic and aesthetic dancing. At 8 o'clock in the evening similar instruction is given to young ladies and working girls. And at 4.30 in the afternoon school girls' classes are formed for games, dancing and calisthenics.

Wednesday and Saturday afternoons and Saturday mornings classes are held for school boys. They are given gymnastic drills, athletics and play. And on Wednesday and Saturday nights classes are formed for working boys. They are given recreational exercise and athletics. Both school boys and working boys are given much time for free play.

GYMNASIUM HOURS AND CLASSES.

MONDAY — WOMEN AND GIRLS.

Women, 10 a. m. to 12 m.; class at 10.30. School Girls, 3 to 6 p. m.; class at 4.30. Women, 7.30 to 10 p. m.; class at 8.

TUESDAY — MEN AND HIGH SCHOOL BOYS.

Civil Service Class, 10 a. m. to 12 m.; class at 10.30. High School Boys, 3 to 6 p. m. Men, 7 to 10 p. m.; class at 8.

WEDNESDAY — MEN, SCHOOL AND WORKING BOYS.

Men, 10 a. m. to 3.30 p. m.; School Boys, 4 to 6 p. m.; class at 4.30. Working Boys, 7.30 to 10 p. m.; class at 8.

THURSDAY — WOMEN AND GIRLS.

Same as Monday.

FRIDAY — MEN AND HIGH SCHOOL BOYS.

Same as Tuesday.

SATURDAY — SCHOOL AND WORKING BOYS AND MEN.

Junior Boys, 10 a. m. to 12 m. Senior Boys, 2 to 4 p. m.; class at 2.30. Men, 4 to 6 p. m. Working Boys, 7.30 to 10 p. m.; class at 8.

NEW CHART OF LOCAL WATERS.

The attention of Boston maritime interests is called to the fact that the United States Coast and Geodetic Survey have just issued a very excellent new hydrographic chart of Vineyard Sound and Buzzards Bay. These waters include the southern approaches to the Cape Cod Canal, the rocks and shoals of which were located last season by the wire-drag party of the Coast Survey.

AUTOMOBILES.

From January 1 to September 1 the Massachusetts Highway Commission has issued 73,367 ordinary automobile registrations, comparing with 59,569 during the corresponding period of 1913 and 46,381 in 1912. During the entire 1913 year 62,660 registrations were issued.

BOSTON OARSMEN AT EXPOSITION.

The directors of the Panama-Pacific Exposition are to invite the City of Boston to send an eight-oared crew to San Francisco for the rowing regatta and to meet the crack oarsmen of Philadelphia, New York, Baltimore, Cleveland, San Francisco, Portland, Seattle, Los Angeles and Tacoma.

STREET COMMISSIONERS.

The Mayor has approved the following orders of the Board of Street Commissioners relative to the laying out and construction of streets:

The Board determines that the under-mentioned estate sustains damages by the making of the public improvement consisting of the laying out and construction of an extension of C street, South Boston, as a highway, to Old Colony avenue, to the amount hereinafter respectively set against it, and awards said amount therefor:

Moses Williams and Moses Williams, Jr., trustees of the Alger Land Trust, 5,107 square feet..... \$2,553 50

The Board estimates that the estates hereinafter specified are all the estates which will receive benefit or advantage from the improvement above specified, beyond the general advantage to all real estate in said city, each to the amount hereinafter set against it:

Moses Williams and Moses Williams, Jr., trustees of the Alger Land Trust..... \$500 00
Dennis Keohane heirs..... 50 00
Catherine Troy..... 50 00
Mary A. Crowley..... 50 00
Thomas Lavery and Margaret B. Lavery..... 50 00
Annie L. Redfearn, trustee..... 50 00

The Mayor has formally approved the order of the Board of Street Commissioners in the taking of land for sewerage works in Bellvista road, Brighton.

The parcel of land contains 4,038 square feet, more or less, and is supposed to be the property of owners unknown.

The sewerage works to be constructed are as follows:

About 403 linear feet of 10-inch pipe surface drain, and about 403 linear feet of 10-inch pipe sanitary sewer, and extending in Bellvista road, from Allston street to Woodstock avenue.

The Board determines that no person sustains damages in his estate by the taking for and construction of the sewerage works and awards no damages therefor.

NINE MILLION CITY BONDS UNSALEABLE.

The amount of municipal bonds advertised for sale since the first of August and not disposed of is estimated at \$9,000,000. In a majority of cases not a single bidder appeared. Bonds actually placed amounted to only \$5,500,000, while those withdrawn from the market after a date for receiving tenders had been fixed, amounted to \$6,250,000. The list of cities, towns and counties which offered bonds without success during the month contains 122 names. There has been difficulty also in negotiating temporary loans.

Municipalities in Canada had some trouble in floating new issues before the outbreak of war in Europe. This latter has imposed a further embargo. An instance is found in the case of Ottawa, which advertises for tenders for \$965,950 4½ per cent and \$190,000 5 per cent debentures. Not a single offer was received. Bankers who made advances to the city, pending the opening of bids, will not give further loans, it is said, until the debentures are disposed of, and in the meantime it is feared that municipal work will have to be suspended. Other recent offerings by Canadian municipalities have been unsuccessful and much contemplated borrowing has been curtailed.

Municipalities in United States disposed of only \$8,673,412 long term bonds last month, against \$31,280,924 in July, \$41,106,495 in June and \$19,192,732 in August, 1913. Sales of permanent obligations since January 1 still compare favorably with other years, at \$358,884,285, compared with \$267,219,619 for first eight months of 1913.

NOTICE OF LAYING OUT AND CONSTRUCTION WORK.

Especial attention is called to the advertisement of the Public Works Department in the current issue of the *City Record* relative to the laying out and construction of highways in Dorchester, Roxbury and Hyde Park, and that all work in said highways relative to sewer, gas, water or other pipes must be accomplished before September 25, as after that time no permits for openings will be granted until two years after the said highways are completed.

MAYOR STRONGLY UPHOLDS CHARTER.

Mayor Curley strongly upheld the retention of the present city charter of Boston, before the Recess Committee on City Charters of the Massachusetts Legislature, at the State House, upon the 2d instant, and declared that it was a public duty to defeat the amendment of the Legislature, submitted to the people, for increasing the membership of the City Council from nine to seventeen members.

The Mayor declared:

"I believe it would be distinctly a step backward for this committee to attempt to change the Boston charter at present. We are bringing city administration nearer to a business system every day under this system, and I think that in the next two years we will have equalized the distribution of our overhead charges so that they will be divided properly among the various departments of the municipality.

"We are gradually reaching a business basis in the conduct of city affairs in Boston. It is impossible to have a perfect system, however, when there are representatives in the City Council from one or two distinct wards. Under such circumstances logrolling is inevitable. There is bound to be trading and dickering in the interest of each section locally.

"Boston, in spite of an increased state tax, increased school and other necessary expenses, has this year a lower tax rate than any other city in the Commonwealth, with one exception, and yet Boston is supposed to be a corrupt center."

The Mayor pointed out how savings had been made in many ways under his administration despite the burdens of a \$750,000 increase in salaries by the previous administration and other unnecessary expenses.

The Mayor expressed confidence that the voters of the city will reject the Lomasney-Robinson bill, passed at the last session of the Legislature, and vote in favor of continuing the present charter.

"If the people will this fall allow us to keep a small council, and I am in hopes they will," said the Mayor, "We can continue to accomplish many of the things that everyone agrees are desirable. If we have a larger council it is going to be much harder than ever. In a larger council the members will deliver an ultimatum to the mayor, one by one, saying: 'If you want your appropriation bill to go through and if you don't want your administration to be made a failure you must reinstate Jones, or O'Brien or Smith.' And what is a mayor going to do? How is he to reduce expenses by removing already overloaded departments when thus confronted by opposition of the council?"

"I do not believe that the superintendent of schools should have the same salary as the governor of the State or the mayor of the city, and more than the corporation counsel and the police commissioner. I believe that the mayor should have control over the school department; that he should have, so far as the entire city is concerned, full financial responsibility.

"The Department of Public Works, for instance, is carrying an overhead charge that is 60 per cent too large. The clerks, foremen and high-class employees cannot be discharged, but I am transferring them to other departments whenever the opportunity presents itself, instead of making new appointments. In this way, in about two years, these charges should be reduced to the proper proportion."

Corporation Counsel Sullivan suggested classifying cities into three classes as follows: Cities with less than 50,000 population, those with 50,000 to 100,000 and cities of more than 100,000. He said that Boston should be exempted from general legislation because it is in a class by itself. For the smaller cities he suggested the commission form of government. For the second class he suggested a mayor with a large council, and for the third class a concentration of responsibility, a small legislative body and absolute veto power for the mayor.

THE WATERWORKS CONVENTION.

The sponsors of the thirty-third annual convention of the New England Waterworks Association, to be held at the Copley-Plaza Hotel, in this city, September 9-11, inclusive, state that its aim has been to make the convention of particular value to waterworks superintendents—the men who are directly responsible for the daily operation of the plant. The program is replete with technical papers and committee reports. The ballroom of the Copley-Plaza has been secured for the exhibit of equipment by the associate members, and a number of entertainments have been arranged.

Of particular interest will be the report by Chairman George C. Whipple of the committee on statistics of filter operation, the first of its kind in the history of waterworks conventions in this country. Frank A. McInnes, Division Engineer, and Clarence Goldsmith, engineer associated with the High Pressure Service of the Boston Water Department, will tell of the lessons to be learned from the great Salem fire.

It is apparent that the committee has made a particular effort to serve the interests of the waterworks superintendent. Two entire sessions are to be devoted to the discussion of the so-called practical problems of management. While the highly technical paper—dealing, for example, with formulæ for the flow of water in pipes—has its place at all waterworks meeting, a judicious allotment of time between theory and practice is more desirable than an overbalancing of highly technical information. It is interesting also to learn from the program that the committee on filter operating statistics—the first of its kind to be created by any waterworks association in this country—will submit its first report. There is at present nothing which approaches uniformity in methods of reporting filter operating results. If the work establishes uniformity the profession will again be indebted to the association.

At the "superintendents' sessions" there will be papers by George W. Batchelder of Worcester; F. F. Forbes of Brookline; William F. Sullivan of Nashua; Patrick Gear of Holyoke; Daniel T. Higgins of Waltham; Frank E. Merrill of Somerville; D. A. Heffernan of Milton, and E. D. Eldredge of Onset.

There are to be presented the following additional committee reports: "Standard Specifications for Cast-iron Pipe," by Frank A. McInnes; "Meter Rates," by Allen Hazen, and "Low Water Yields," by Frederic P. Stearns.

The committee on arrangements consists of Frank A. Barbour, chairman; Charles W. Sherman, vice-chairman; F. I. Winslow, secretary; George A. Stacy, W. A. Hersey, W. F. Sullivan and A. R. Taylor.

FINANCE COMMISSION.

BOSTON, August 25, 1914.

HON. JAMES M. CURLEY, Mayor:

SIR,—The Finance Commission desires to call your attention to a violation of the law relating to the award of a contract for laundry machinery by the Penal Institutions Department, apparently acting under orders from your office.

The evidence shows that the matter of installing new machinery in the laundry building of the reformatory at Deer Island, had been discussed in the summer of 1913 by Mr. Gore, the commissioner of the Penal Institutions Department, and Mr. Cronin, the master at Deer Island, with various representatives of laundry machinery companies; in particular with Mr. Nelson, the then Boston manager of the American Laundry Machinery Company, and with Mr. Mahoney of the Poland Laundry Machinery Company.

On January 3, 1914, a fire occurred in this laundry building destroying the laundry machinery therein, and making it imperative for the Penal Institutions Department to install a new equipment of laundry machinery. The head of the department, Commissioner Gore, discussed the replacement of the destroyed machinery with former Mayor Fitzgerald, but the latter declined to entertain the proposition, inasmuch as his term of office was about to end. With the advent of your Honor, the matter was taken up actively by Commissioner Gore with the result that \$10,000 was transferred by the City Council from the industry fund to the laundry machinery account.

As a result of the conferences with Mr. Nelson and Mr. Mahoney, and an unnamed representative of another laundry machinery company, Commissioner Gore, in the early spring, was enabled to draw up specifications calling for bids for furnishing laundry machinery under nine items.

Bids were requested in the *City Record* of March, 1914, and were opened on April 6, 1914. There were four bidders as follows:

American Laundry Machinery Company, \$5,700, as per City of Boston specifications; \$8,368, as per company's specifications.

Troy Laundry Machinery Company, Ltd., \$5,849.95.

Poland Laundry Machinery Company, \$5,877.

Henrici Laundry Machinery Company, \$2,500.

The bid of the Henrici Laundry Machinery Company can be disregarded because it covered only one of the items of the specifications—a washing machine.

All of the bids were rejected on April 16 and the certified checks which had been deposited by the bidders were returned.

Since the date of the rejection of these bids the Commissioner of the Penal Institutions Department, Mr. Gore, has given oral orders to the Poland Laundry Machinery Company for the furnishing of various laundry machinery to the amount of \$2,117.50, and on June 12, 1914, the commissioner requested permission of the Mayor to award a contract without advertising for one Royal calender flat work ironer to the Poland Laundry Machinery Company in the sum of \$2,800, a total of \$4,917.50.

The department also bought on orders a tumbler dryer for \$600 from the Atlas Laundry Company and a hot water heater for \$324.84 from the George A. Weld Company. If these amounts (\$924.84) are added to the sum of money (\$4,917.50) paid to the Poland Laundry Machinery

Company it will show that the department has already paid \$5,842.34 for laundry machinery which the American Laundry Machinery Company was ready to furnish on the department's own specifications at a cost of \$5,700. Furthermore, if the Penal Institutions Department had not changed two items of the specifications after the bids were rejected, the total cost to the city would have been \$6,232.34, or \$532.34 more than the lowest bid on the competition of April 6.

In addition to these amounts the bookkeeper of the department (Mr. Graham), testified that prior to the opening of the bids on April 6, a washing machine at a cost of \$135 had been purchased from the Poland Laundry Machinery Company, also twelve ironing boards at a cost of \$150, and an electric extractor at a cost of \$350, shafting, pulleys, etc., \$240, a total of \$875.

Mr. Pope, the secretary of the Penal Institutions Department, testified that his connection with the whole transaction was very slight, and that the matter rested entirely with Commissioner Gore. Neither Mr. Graham nor Mr. Pope could inform the representative of the Finance Commission what orders had been given for furnishing the total supply of laundry machinery at Deer Island, but stated that the order books of the department might be the source to learn what orders had been given. A search of the books however, failed to show that any orders had been given by the department for furnishing laundry machinery other than the contract of \$2,800, the goods purchased before April 6, the order for the tumbler dryer, and a few immaterial items for equipment and power to electrical companies.

The commissioner, Mr. Gore, upon being requested to state the reasons for the rejection of the lowest bidder in the competition of April 6 said that he could not obtain from Mr. Nelson any guaranty of quick delivery of the machinery and that the American Laundry Machinery Company was not a Boston company. It is to be noted, however, that the commissioner in drawing up the specifications, evidently did not regard the time of delivery as a matter of extreme importance for nothing whatever is stated therein as to the date of delivery. It is therefore to be assumed that time was not regarded as of the essence of the contract at the time the bids were requested. He further testified that he was of the opinion that the bid of the Poland Laundry Machinery Company, even though it was the highest bidder, should have been accepted and so informed your Honor, but was requested by your Honor to take such action as would in effect circumvent the law by giving orders below \$1,000, so that the business might be given to the Poland Laundry Machinery Company. The testimony of Commissioner Gore as to what was said in his interview with your Honor, is set forth below:

"Q. I want to ask you, Mr. Gore, about this conversation with the Mayor?

"A. As near as I can remember I took the contract over there and the figures and explained to him about the American Laundry Machinery Company and about what I said about here, that they could not say when they would be able to make delivery to me, and the Poland Laundry Machinery was here on the job, the machinery ready to put up and in my opinion they were the best ones, as near as I can recall.

"Q. What was his reply to that statement of yours?

"A. To reject the bid.

"Q. And do what?

"A. To buy the machinery.

"Q. Without advertising? Without competition?

"A. He wanted to know how I could do that and I told him I could order this machinery, and that anything over \$1,000 I would have to get his approval, and he said that would be all right."

If Commissioner Gore is correct in his recollection, he places the blame for this seeming violation of the law upon your Honor.

An employee of the American Laundry Machinery Company stated that shortly after the bids were opened at the office of the Penal Institutions Department, the American Laundry Machinery Company's office was called on the telephone and was informed that it was the lowest bidder. Mr. Nelson evidently received information that the bid of his company had been approved, for on April 11, 1914, he wrote the following letter to the vice-president of the company:

"April 11, 1914.

"MR. T. D. WEBB, E. S. M.:

"DEAR SIR,—Beg to advise that I have got the Deer Island job on low bid and am working to get some changes, Mayor 'O K'd' the bid Friday—other bidders trying to get our bid rejected but there is no chance.

Yours,

R. E. NELSON.

"You will not hear from me in regard to this until the middle of the week."

Mr. Miller, the new representative of the American Laundry Machinery Company (Mr. Nelson having died), stated that the bid of the American Laundry Machinery Company of \$5,700 was in strict conformity to the specifications, but that Mr. Nelson submitted an alternative bid for furnishing better materials at a higher price because he recognized that the material and machinery called for in the specifications were not of the best quality. Upon learning, however, that the business was to be given without competition, to the Poland Laundry Machinery Company, Mr. Nelson is said to have announced that he would have nothing further to do with the City of Boston.

In answer to the objection of Commissioner Gore that Mr. Nelson of the American Laundry Machinery Company would not give a definite time for delivery of the machinery, Mr. Miller, the present manager, said that Mr. Nelson could have had no difficulty in promising speedy delivery as his company could make a delivery in one or two weeks. He also said that while his company was not incorporated in Massachusetts, it had maintained a Boston office and paid taxes to the City of Boston for many years. On the other hand, the Poland Laundry Machinery Company is not a corporation, and has not filed a certificate with the city clerk as the law requires that persons doing business under a name other than their own, should do.

From all the evidence, the commission is of the opinion that the oral orders given the Poland Laundry Machinery Company are a violation of section 30, chapter 486, Acts of 1909.

The commission is of the further opinion that this purchase of laundry machinery has been made by "split contracts," a method which has been extremely detrimental in the past to the City of Boston.

The Finance Commission recommends that in awarding contracts, the practice of accepting the lowest responsible bidder

be followed hereafter, and that the heads of the various departments be instructed to comply with the law as set forth in section 30, chapter 486, Acts of 1909.

Respectfully submitted,

THE FINANCE COMMISSION,
JOHN R. MURPHY,
Chairman.

In reference to the above report of the Finance Commission, Mayor Curley declared:

"I have read the testimony of Penal Institutions Commissioner Gore, since the publication of the Finance Commission's report, criticising Mr. Gore and myself for having participated, in what the Commission calls a violation of law, in relation to the award of a contract for laundry machinery.

"In my opinion, there is nothing in the testimony given to the Finance Commission which warrants the statement that Commissioner Gore was requested by me to take such action, as would, in effect, circumvent the law.

"The fact is that I know very little about the laundry machinery contract or the parties who obtained the contract, and I am in no way interested in their affairs.

"When Commissioner Gore received bids from the three companies, he advised me that it would be unwise to award the contract to the lowest bidder (\$5,700), as the representative of that bidder refused to make any definite statement as to the time when he would deliver the laundry machinery, whereas the highest bidder (\$5,877) stood ready to make delivery immediately.

"When the Commissioner rejected the bids he started to purchase various articles of machinery wherever he thought he could make the best bargain, and all that I know about the transaction, after it was decided to reject the bid, is what was contained in a letter from the Commissioner requesting my permission to award, without advertising, the contract for \$2,800, for a Royal calendar flat work Ironer, with accessories.

"There is no claim by the Finance Commission or anybody else that this purchase could be made for a dollar less, and in fact it was the lowest possible price.

"The Commissioner wanted it installed at once so as to cut off excessive laundry bills. He states that the city has saved nearly two thousand dollars by this process.

"The subsequent orders placed by the Commissioner for other parts of the machinery were for amounts involving less than one thousand dollars in each case and were not brought to my attention.

"There is no claim that these subsequent purchases were made at an excessive price or that the quality was inferior, and there is no doubt that the city was protected absolutely both as to price and quality.

"These subsequent purchases were for different machines, not different parts of one machine, and in making these purchases, I do not think that Mr. Gore intended to violate the law or that he did so, in fact.

"I know that I have not violated the law in any way, and if I believed that Mr. Gore, in his testimony before the Finance Commission, intended to convey the impression that I had done so, I would remove him at once because such an impression would be absolutely false.

"I believe it but fair to state, however, that concerns doing business in Boston should receive special consideration as against those located elsewhere, and had

Mr. Gore recommended to me that the award be made to the highest bidder where the difference in the bids was less than \$200, between a Boston concern and one located in another section of the country than Massachusetts, other things being equal, I should have considered it my duty to award in favor of the Boston concern.

"Personally, I believe that it is not sound business policy to divide a contract, where it is advantageous to make one as a whole, and while in this case the city profited by the action of the Penal Institutions Commissioner, through his purchase of the items, as required separately, than as a whole, there is no reason to believe that a continuance of this policy would do other injury to the best interests of the municipality, and I shall instruct the department heads to that effect so that there shall be no recurrence of this character.

Commissioner Gore's statement is as follows:

August 20, 1914.

The Mayor of Boston:

SIR,—Your attention is called to the proceedings of this department for the purchase of laundry machinery since January 3, 1914, at which time our laundry at Deer Island was totally destroyed by fire.

March 26 there was transferred from the "Industry Account" at Deer Island to the "Penal Institutions Department, House of Correction Laundry Equipment," \$10,000.

March 28 bids were advertised for machinery to equip the laundry.

April 6 bids were opened.

April 16 all bids were rejected.

There has been charged against the above-named appropriation the following items:

POLAND LAUNDRY MACHINERY COMPANY.		
Jan. 21.	One 35 by 48 washing machine, large gear, left-hand movement—outlet.	\$135 00
Jan. 30.	Twelve ironing boards with sleeve attachments at \$12.50.	150 00
Feb. 10.	One 26-inch electric extractor, 110 volts, direct, including motor and electric starter.	350 00
Mar. 26.	Shafting pulleys, belting as per agreement.	240 00

BLAKE ELECTRIC MANUFACTURING COMPANY.		
Jan. 20.	One 8 p. 125 V. Crocker wheel compound wound motor, with base pulley and starter,	125 00

City Record — Issue 1913.		
	Advertising laundry machinery.	3 10

PETTINGELL-ANDREWS COMPANY.		
Feb. 10.	Electrical supplies.	17 32
Feb. 12.	Electrical supplies.	19 00
Feb. 18.	Electrical supplies.	265 19
Feb. 27.	Electrical supplies.	9 72
Mar. 17.	Electrical supplies.	3 15

WALDO BROTHERS.		
April 29.	Conduit pipe.	6 66

DALY PLUMBING SUPPLY COMPANY.		
April 30.	Pipe and fittings.	110 09

PETTINGELL-ANDREWS COMPANY.		
June 3.	Miscellaneous electrical supplies (as per proposal).	329 84

ATLAS LAUNDRY MACHINERY COMPANY.		
May 23.	One 40 by 60 Atlas tumbler dryer.	600 00

H. S. CLARK.		
June 24.	Carpenter work, etc., building platform for motor, etc.,	240 00

BUCHANAN FORWARDING COMPANY.		
June 10.	Carting machinery, etc., to Eastern Avenue Wharf.	86 74

LEWIS E. TRACY COMPANY.		
June 24.	Belting and installing same.	79 31

PETTINGELL-ANDREWS COMPANY.		
June 8.	Wire.	\$52 52
WALDO BROTHERS.		
May 4.	Conduit.	13 80
POLAND LAUNDRY MACHINERY COMPANY.		
August 4 draft.	One Royal calendar flat work ironer.	2,800 00
L. A. HALL & Co.		
July 24.	Two clocks.	32 00
GEORGE A. WELD COMPANY.		
May 28.	One heater.	\$338 00
	Less freight.	13 16
		324 84
July 27.	One tablegauge thermometer.	15 00
FORT WAYNE ELECTRICAL WORKS.		
May 6.	(Proposal of.)	
	One motor.	\$429 30
	Less freight.	10 80
		418 50
HERBERT S. POTTER.		
May and June.	Electrical work.	840 78
		\$7,267 56
Laundry machinery, etc., purchased from Poland Laundry Machinery Company —not yet passed for payment.		2,267 50
		<u>\$9,535 06</u>

Immediately after the fire occurred it became necessary for us to have our laundry work done outside, which entailed an expense at the start, of \$154 per week. When I considered this large expense I thought it advisable to immediately purchase some new machinery which we could install in our new laundry building which was completed, and I therefore bought from the Poland Laundry Machinery Company about nine hundred dollars (\$900) worth of machinery, which enabled me to reduce the expense of outside laundry work.

On the opening of the bids on April 6 it appeared that the American Laundry Machinery Company bid in accordance with our specifications, \$5,700; the Poland Laundry Machinery Company, \$5,877.

At the same time the American Laundry Machinery Company made an alternate bid of \$5,368 for machinery which they specified differently from what we called for.

At this time all the bids were taken under advisement and while I was considering them, Mr. Nelson (representing the American Laundry Machinery Company) had several interviews with me and I attempted to ascertain the probable time that I could get the machinery installed, if the contract was awarded to him, but I could not get a satisfactory answer and the delay would continue my expense of having outside laundry work done. I made up my mind that it would be advisable to reject all bids, which I did on April 16.

Immediately after taking this action I started in to buy, after the thorough investigation that I had made of the different machines necessary for our purposes, of the Poland Laundry Machinery Company with an idea to purchase the best machinery for our use at the lowest price, in order to stop the expense of the outside laundry work, and placed the orders for the different machines which would give us satisfactory work.

During my investigation I had ascertained that all the laundry machinery is made by different concerns under special patents and that it was only a matter of comparison of prices that I could obtain as each concern manufactures a machine for a special purpose themselves and their price was in variance. For instance, most of the machines were built to run with a belt which connected the motor to the

machine. It is my desire and I believe that it is for the best interests of our laundry to have a machine with the motor attached direct, thus obviating the additional attachments.

Further, I was impressed with the fact that the Poland Laundry Machinery Company was a Boston concern, which maintained a factory in this city and employed Boston help in their business, thus enabling me to obtain machinery at once that was needed, as well as the fact that in the future, in case of necessary repairs, I could call on this firm and receive immediate service.

I was somewhat delayed in the placing of the order for the Royal Calendar flat work ironer because I was a little in doubt on account of the difference in price as to which would be advisable to purchase, but I learned that the Royal Calendar had a pump and air receiver for raising the rolls to adjust the pressure, which was not included in the lowest price machine.

In this case I also visited the laundries and interviewed the proprietor of one as well as the employees where the Royal Calendar machine was in operation alongside of the one specified by the lowest bidder in accordance with our specifications. My answer from both of them, that is, from the proprietor and the employees, was a decided preference for the Royal Calendar machine.

I thought it best for the interest of the city and for the laundry at Deer Island to buy this machine and accordingly contracted with the Poland Laundry Machinery Company to buy the Royal Calendar machine, without advertising, for the sum of \$2,800. Although this price is some \$550 more than I could have bought a machine from the Poland people in accordance with the one they proposed to furnish under our specifications, I made up my mind to make this contract.

In relation to this purchase, I also received from the home office of the Royal Calendar people a proposition to furnish this machine for \$2,850 and also received from the agent of the Poland Laundry Machinery Company the price of \$2,800 for the same machine.

If I had purchased this laundry machinery from the lowest bidder it would have been August the first, if not later, before I could have received the machinery and, it is well to call your attention to the fact that in purchasing as I have, item for item as specified, would have cost \$5,682.34, and that as a matter of fact, the price is \$6,232.34, which covers the increased cost (\$550) of the Royal Calendar flat work ironer that was purchased after careful investigation, instead of the \$2,250 machine.

Further, by taking the action that I have in the purchase of this machinery I have saved the city in round figures \$2,000 as is shown by the fact that immediately after the fire the first week's bill for laundry work was \$154 and if this continued with twenty-six weeks up to July the first, it would have cost this department, in the same proportion, \$4,004. These bills have been reduced by the purchase of machinery, some of it immediately after the fire and the rest since, and as it was practical to do so thus enabling us to start our laundry and saved just about 50 per cent.

Your attention is called to the fact that in preparing the building and ground for this machinery the same method has been pursued as in other labor work done at Deer Island, that is, the excavating, con-

duit drains, plumbing, concrete floors and steam fittings were all done by our own labor, and in no case is labor employed except where expert services are required and which we cannot furnish.

In this matter, I have been handicapped by not having a chief engineer; if I had a competent man for this position undoubtedly the outside expense would have been very small in this respect.

The purchase of this machinery has been made strictly in accordance with the provisions of the Revised City Charter which gives me the right, as head of any department has, to purchase any article which is necessary for the conduct of our institution, with due care in such purchase, to an amount which does not exceed \$1,000 and in the case of the purchase of the Royal Calendar machine, after an explanation to your Honor as to my investigations and my desire, I believed that this particular machine was the one we should purchase and I awarded the contract to the Poland Laundry Machinery Company, without advertising, and with your approval, for the sum of \$2,800.

The following is a copy of my proposition and which you approved:

May 29, 1914.

The Mayor of Boston:

SIR,—I respectfully request your approval to contract, without advertising, with the Poland Laundry Machinery Company at a price of twenty-eight hundred (2,800) dollars, for one 24-inch by 120-inch Royal Calendar flat work ironer with air compressor and tank, with direct connected current motor, and two Anderson steam traps to take care of condensation, one for each cylinder.

This is a matter to which I have given considerable attention and after conference, and receiving prices from several laundry machinery concerns, I believe that this machine is the best suited for our work and the prices as stated above, is the lowest that I have been able to obtain, and as it is very necessary that the machine should be installed at once as we are put to a large expense because of lack of machinery caused by the loss by fire last January, are my reasons for requesting that the contract may be made at once.

Respectfully,

FRED S. GORE, *Commissioner.*

FIRE DEPARTMENT ORDERS.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, August 31, 1914.

General Orders No. 122.

I. CHANGES IN FIRE ALARM BOX NUMBERS.

1. The following changes in fire alarm box numbers are hereby ordered to become effective on and after 12 o'clock noon (the striking of the meridian blow on the gongs in the houses) on Wednesday, September 2, 1914:

LOCATION.	Present Number.	New Number.
Tremont street and Van Rensselaer place.	55	1,511
Colonial Theater.....	734	1,512
Majestic Theater.....	738	1,513
Tremont street, near Warrenton street.	61	1,515
Shubert Theater.....	723	1,516

LOCATION.	Present Number.	New Number.
Church and Winchester streets....	60	1,521
Skinner School, Fayette and Church streets.	2,142	1,522
Castle Square Theater.....	766	1,524
Tremont and Berkeley streets....	71	1,525
Park square.....	62	1,531
Arlington and Boylston streets....	95	1,534
Berkeley and Marlboro streets....	63	1,537
Tremont and Paul streets.....	85	1,612
Compton and Emerald streets....	66	1,613
Washington and Compton streets..	72	1,621
Washington and Motte streets....	64	1,622
Theater, Washington and Motte streets.	739	1,623
Albany and Way streets.....	65	1,625

2. Changes on circuit cards will be made to conform to the new numbers.

3. These changes will be made in the small fire alarm books.

4. Old assignment cards will be returned to these headquarters not later than Saturday, September 5, 1914. Company commanders will mark the company number on the back of each card.

5. This order will be posted at the patrol desk for five days.

II. COMMENDATIONS.

1. Hoseman John J. Katwick of Engine Company 11 is hereby commended for assisting the Brockton Fire Department at a general alarm fire in Brockton, Mass., August 21, 1914, while on vacation.

2. Hoseman Daniel W. O'Leary of Engine Company 37 is hereby commended for responding to an alarm from box 882, August 23, 1914, while on a day off.

3. Hoseman Charles R. MacLachlan of Engine Company 47 is hereby commended for responding to an alarm from box 642, August 23, 1914, while on a day off.

4. Hoseman Patrick J. Darcy of Engine Company 26-35 is hereby commended for responding to an alarm from box 501, August 24, 1914, while on a day off.

III. CHANGES IN BOX ASSIGNMENTS.

1. The following changes in covering for ladder companies are hereby announced to take effect at 10 a. m., Saturday, August 29, 1914. Company commanders will make these changes on assignment cards:

2. Boxes 1441, 1451, 1452:

Second alarm.—Ladder 3 to Ladder 17, Ladder 5 to Ladder 3. Ladder 19 to Ladder 5, Ladder 24 to Ladder 1.

Third Alarm.—Ladder 4 to Ladder 3, Ladder 5 to Ladder 17, Ladder 18 to Ladder 8, Ladder 23 to Ladder 4.

3. Box 1447:

Second Alarm.—Ladder 3 to Ladder 17, Ladder 4 to Ladder 3, Ladder 5 to Ladder 18, Ladder 18 to Ladder 14, Ladder 19 to Ladder 5, Ladder 23 to Ladder 4.

IV. EXPLANATION.

1. Referring to section 4, paragraph 1, General Orders No. 118, box No. 818 is not considered in the Brighton district. This box is in District No. 8.

By order of the Fire Commissioner,

PETER F. McDONOUGH,
Chief of Department.

PROCEEDINGS OF CITY COUNCIL.

Thursday, August 27, 1914.

Meeting of the City Council, held in the Council Chamber, City Hall, at 11.30 a. m., for the purpose of drawing jurors, President McDONALD in the Chair and a quorum present.

Jurors were drawn in accordance with the provisions of the law (the Mayor being present), viz.:

Forty-one traverse jurors, Superior Criminal Court, to appear September 9, 1914:

John F. Parkinson, Ward 15; Myer Dana, Ward 21; Henry H. Sutter, Ward 16; Percy A. Chandler, Ward 5; Dennis J. Driscoll, Ward 16; Leroy V. Phinney, Ward 12; John L. Webster, Ward 25; William J. English, Ward 20; Andrew J. Keller, Ward 1; James Donovan, Ward 13; James Spellman, Ward 23; Wilson H. Leaser, Ward 25; Patrick J. Rogers, Ward 4; Christopher S. Plague, Ward 17; Antonio Bacigalupo, Ward 6; Leibish Glickstern, Ward 8; James S. Landers, Ward 22; James J. Boyd, Ward 16; Henry R. Kittredge, Ward 21; Gustav Fischer, Jr., Ward 22; Israel Stone, Ward 13; Alexander Kossa, Ward 13; Frank H. Robie, Ward 11; Adolph T. Cellarious, Ward 23; Henry F. Hastings, Ward 15; Edgar Simonds, Ward 21; F. Augustus Curtis, Ward 23; Herman L. Hunt, Ward 19; Herbert Irwin, Ward 8; Albert B. Walsh, Ward 16; Ellsworth F. Lathrop, Ward 21; Patrick B. Dillon, Ward 8; John E. Jackson, Ward 21; Edward M. Fletcher, Ward 20; Henry N. Locklin, Ward 24; Thomas F. Brody, Ward 8; Joseph Gallagher, Ward 4; Frank J. Batchelder, Ward 2; John J. Carter, Ward 13; Julius B. North, Ward 14; William E. Bragdon, Ward 9.

Adjourned at 11.44 a. m.

Monday, August 31, 1914.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President McDONALD in the chair. Absent—Coun. Collins and Kenny.

The Council voted, on motion of Coun. WATSON, to dispense with the reading of the records of the last two meetings.

APPOINTMENTS BY THE MAYOR.

The following were received:

City of Boston,
Office of the Mayor, August 31, 1914.

To the City Council:

Subject to the confirmation of your honorable body I have this day appointed William E. Cronin, 426 Saratoga street, Ward 1, and John W. Wilkinson, 251 Columbus avenue, Ward 10, to be constables, for the term ending April 30, 1915.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Office of the Mayor, August 31, 1914.

To the City Council:

Subject to the confirmation of your honorable body I have this day appointed Mr. Martin Bruder, of 10 High street, to be a Weigher of Goods for C. J. Southwick & Co.; Hector McLean, yardmaster, 25 Antrim street, Cambridge, Mass., and William Vincent Kenney, clerk, 11 Waverly place, Newton Lower Falls, employed by the Boston & Albany Railroad, to be Weighers of Goods, for the term ending April 30, 1915.

Respectfully,
JAMES M. CURLEY, Mayor.

Severally laid over under the law.

PAYMENT TO POLICE OFFICER—VETO.

The following was received:

City of Boston,
Office of the Mayor, August 31, 1914.

To the City Council:

I return herewith without my approval, for the reasons hereinafter stated, the order of the City Council for the payment of \$2,116.50 to Charles W. Miller, a police officer, as reimbursement for fees of attorneys who defended him in a criminal prosecution growing out of the performance of his duties. In the inclosed opinion of the Corporation Counsel he states that there is no legal authority for such payment by the city, which is unfortunate, as Miller's case is a meritorious one.

It is just as much of a hardship upon a police officer to pay expenses of a criminal prosecution as it is to pay the expenses of a civil suit arising from the same cause, and as a city is authorized to reimburse an officer for the expenses of a civil suit, there should be authority to pay the expenses of a criminal prosecution. I think it would be proper to introduce a general bill in the next Legislature authorizing cities and towns to pay such expenses, and if the City Council agrees with me I shall have such a bill introduced.

Respectfully,
JAMES M. CURLEY, Mayor

City of Boston,
Law Department, August 28, 1914.
Hon. James M. Curley,

Mayor of Boston:

Dear Sir,—On August 26, 1914, I received a letter from your secretary as follows:

"The City Council, at its meeting August 10, passed an order reimbursing Patrolman Charles W. Miller for expenses incurred by him in suit on account of expenses to the amount of \$2,116.50 in connection with suit on account of acts as a police officer. Will you please submit opinion as to legal liability of city in this instance?"

In response thereto I submit the following opinion: There is no authority for the payment by the city of the bills of the attorneys for legal services rendered to Patrolman Miller in his defence against a criminal charge unless it is found in Statutes 1906, chapter 291, sections 8, 9, or Revised Laws, chapter 26, section 21. Under section 8 of the Statute of 1906 the city is required to pay, upon requisition by the Police Commissioner, all incidental expenses incurred in the performance of the duties of the Police Commissioner, or in the administration of police. I do not think that the hiring of attorneys to defend patrolmen on criminal charges is one of the duties of the commissioner, or is legally a part of the administration of the police; therefore the city is not authorized to pay under the provisions of section 8 of said statute.

Under section 9 of said Statute of 1906 the city is required to pay, on requisition by the Police Commissioner, for legal assistance, deemed necessary by him, in the performance of his duties. The defence of a patrolman on criminal charges does not seem to be part of the duties of the commissioner, and in this case evidently it was not deemed by him part of his duty as he did not hire the attorneys who defended Patrolman Miller. Consequently the city is not authorized to pay under the provisions of section 9 of said statute. Under Revised Laws, chapter 26, section 21, the city is authorized to indemnify a police officer for expenses or damages sustained by him while acting as a police officer, or incurred by him in the defence or settlement of an action brought against him for acts done by him in the performance of his duty as a police officer. I think this statute was intended by the Legislature to provide for the reimbursement of a police officer for expenses incurred or paid by him on account of injuries received while performing his duty, and for expenses or damages incurred or paid by him in the defence or settlement of an action for damages. If the Legislature had intended to provide for reimbursement of police officers for expenses incurred in defending a criminal prosecution it could have made its meaning clear by adding a few words to said section, but it did not do so, and in my opinion the word "action" as used in this statute cannot be construed to include criminal prosecutions.

In my opinion there is no authority for the payment of this claim by the city under any of these statutes.

Yours respectfully,

JOHN A. SULLIVAN,
Corporation Counsel.

Placed on file.

ELECTRIC LIGHTING CONTRACT.

The following was received:

City of Boston,
Office of the Mayor, August 31, 1914.

To the City Council:

With reference to the order passed by your honorable body on August 24, 1914, relative to the lighting contract with the Edison Illuminating Company, I beg to state that a compliance with this order would make necessary the payment by the City of Boston during the next year of \$103.54 per lamp, even though the Gas and Electric Light Commission on investigation should determine this price to be excessive.

I am not responsible for the unfortunate predicament in which the city is at present placed.

Under the existing contract it was the duty of the municipality, through its chief executive, in the twelve months prior to April of 1913, to request the Gas and Electric Light Commission to fix a lower rate than \$103.54. If the city's rights had been protected by such action it would be unnecessary to pay the present rate of \$103.54 for another year.

The increase in the cost of conducting the various activities of the municipality resulting from the depression occasioned by the war in Europe demands that every effort be made to conserve the people's money, with which you and I are charged with expending, and I do not propose that political consequences or manufactured clamor shall force me to hastily accept and act upon a question of such financial importance to the people as the pending one.

Certain members of the Gas and Electric Light Commission who have been absent from the city upon vacations are expected to return during the coming week, and I have requested Corporation Counsel John A. Sullivan and Commissioner of Public Works Louis K. Rourke to confer with the Gas and Electric Light Commission with a view to securing the fullest possible information relative to the pending question. Upon receipt of such information I will again take up with the officials

of the Edison Illuminating Company the question of a new contract that will merit the approval of your honorable body and myself.

Respectfully,
JAMES M. CURLEY, Mayor.

Referred to the Executive Committee, on motion of Coun. COULTHURST.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Henry F. Brady, to be paid wages lost on account of injuries received while employed in Fire Department.

Rayolite Company, to be paid for tire core furnished for car of the Fire Department.

Heirs of Francis P. O'Bryan, to be paid for damage to property 117 Metropolitan avenue in construction of sidewalk.

Lena K. Sarinovitsh, for compensation for injuries received from a fall at 36 Spring street.

Ellen Twomey, for compensation for damage to property 544 Saratoga street by break in water main.

Frank Fopiano, for compensation for damage to property 42 North Bennet street by overflow of sewer.

Otto Feist et al., for compensation for damage to property 975 Canterbury street, by stoppage of sewer.

Mrs. L. E. Davis, for compensation for damage to property in the construction of Puritan avenue

Executive.

Lithuanian Socialist Club, for children to appear at Dahlgren Hall on September 19.

S. J. Diab, for permit to sell, rent or lease firearms at 741 Washington street.

Richard M. Walsh, to be retired under the provisions of chapter 765, Acts of 1914.

Andrew Sullivan, to be retired under the provisions of chapter 765, Acts of 1914.

Thomas Hoar, to be retired under the provisions of chapter 765, Acts of 1914.

Jeremiah Gallivan, to be retired under the provisions of chapter 765, Acts of 1914.

TRACK LOCATIONS.

Copies of orders were received from the Board of Street Commissioners granting the following relocations of tracks to the West End Street Railway Company, viz.:

Boylston street, 442d location.
Tremont street, 443d location.
Dorchester avenue, 444th location.
Federal street, 445th location.
Columbia road, Hancock street and Blue Hill avenue, 446th location.
Causeway street, 447th location.
Ordered printed and placed on file.

POLE LOCATION.

A copy of order was received from the Board of Street Commissioners granting the West End Street Railway Company permission to relocate pole at 274 Seaver street.

Placed on file.

TRACK LOCATION, C STREET.

A copy of order was received from the Street Commissioners granting permission to Tarrant P. King to locate tracks for private use on C street, South Boston.

Ordered printed and placed on file.

STORAGE OF EXPLOSIVES.

Notices were received from the following named parties of storage of explosives at the hereinafter named locations, and of intention to use same locations for the ensuing year:

Thomas C. Kelly, 192 Belgrade avenue.
Cadillac Company, 664 Commonwealth avenue.
Mary V. Brandegee, Allandale street, Jamaica Plain.
Lawrence & Stanley, 527 Columbia road.
Placed on file.

MINORS' LICENSES.

President McDONALD submitted reports on petitions for minors' licenses for sixteen newsboys and five vendors—recommending that licenses be granted.

Reports accepted; licenses granted on the usual conditions.

MARKET PLACES, CITY YARDS.

Coun. WATSON offered an order—that his Honor the Mayor be requested to consider the advisability of establishing market places for the direct sale of produce, etc., in the various city yards, instead of at one central place, such as Haymarket square.

Referred to the Executive Committee.

COMPENSATION FOR ELECTION OFFICERS.

Coun. WATSON offered an order—That the Election Commissioners be requested, through his Honor the Mayor, to make the necessary arrangements to pay the election officers additional compensation for the four hours extra which they will be obliged to work at the coming primary election on September 22, 1914.

Referred to the Executive Committee.

RECESS TAKEN.

The Council voted at 3.28 p. m., on motion of Coun. WATSON, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 4.04 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Reports on petitions of Richard M. Walsh, Thomas Hoar, Andrew Sullivan and Jeremiah Gallivan, employees of the Public Works Department, for retirement under the provisions of chapter 765 of the Acts of 1914—recommending the passage of the following:

Ordered, That the Retirement Board of Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, Richard M. Walsh, employed in the Labor Service of the City of Boston in the Public Works Department.

Ordered, That the Retirement Board for Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, Thomas Hoar, employed in the Labor Service of the City of Boston in the Public Works Department.

Ordered, That the Retirement Board for Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, Andrew Sullivan, employed in the Labor Service of the City of Boston in the Public Works Department.

Ordered, That the Retirement Board for Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, Jeremiah Gallivan, employed in the Labor Service of the City of Boston in the Public Works Department.

Reports accepted; orders passed.

(2) Reports on various papers (referred 1912)—that the same be placed on file, viz.:

Frohman, Rich & Harris, relative to assessing system.

Meyer Jonasson & Co., relative to assessing system.

R. H. White Company, relative to assessing system.

A. L. Levering, relative to assessing system.

Henry Siegel Company, relative to assessing system.

Shepard Norwell Company, relative to assessing system.

Hallett & Davis Company, relative to assessing system.

Reports accepted; papers placed on file.

(3) Report on communication from John H. Donovan *et al.* (referred 1913) relative to real estate assessments—that the same be placed on file.

Report accepted; communication placed on file.

(4) Reports on various papers (referred 1913)—that no further action is necessary, viz.:

Order that the Garment Workers' strike be submitted to arbitration.

Order that architects for public buildings be chosen by competition.

Resolve that architects for public buildings be chosen by competition.

Message of Mayor, preamble and resolve concerning coal monopoly.

Resolve in favor of certain statutes in accordance with chapter 214 of the Acts of the 33d General Assembly of the State of Iowa.

Reports severally accepted.

Order (referred 1913) concerning assessed valuations on Beacon and other streets.

Order (referred 1913) concerning assessed valuations of Boston & Albany Railroad yards.

Order (referred 1913) concerning assessed valuations of buildings on Cornhill.

Order (referred 1913) concerning assessed valuations on Claxton and other streets.

Order (referred 1913) concerning assessed valuations on Georgia and other streets.

Order (referred 1913) concerning assessed valuations on Prince and other streets.

Order (referred 1913) concerning assessed valuations on Dorchester avenue and other streets.

Order (referred 1912) concerning assessments on Decatur and other streets.

Order (referred 1912) for changes in the methods of assessing.

Order (referred 1912) concerning assessment in Pleasant street.

Order (referred 1912) concerning assessed valuation on Canal and other streets.

Order (referred 1912) concerning assessments on buildings on Somerset street.

Order (referred 1912) concerning assessments on Chauncy and other streets.

Order (referred 1912) concerning assessments on Atlantic avenue, etc.

Reports severally accepted.

(10) Report on order (referred to-day) establishing market places in the various city yards—that the order ought to pass.

Report accepted; order passed.

(11) Report on order (referred to-day) for additional compensation for election officers—that the order ought to pass.

Report accepted; order passed.

NEXT MEETING.

The Council voted, on motion of Coun. ATTRIDGE, that when it adjourns it be to meet on Tuesday, September 8, at three o'clock p. m.

SIDEWALK ORDERS.

Coun. BALLANTYNE presented the petition of Monsignor P. Ronan for sidewalks on Everett avenue, Cushing avenue, Windemere road and Jerome street.

In connection with the petition Coun. BALLANTYNE offered an order—That the Commissioner of Public Works make a sidewalk along Cushing avenue, Windemere road and Jerome street at St. Mary's Infant Asylum and St. Margaret's Hospital, Ward 20, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestones, under the provisions of chapter 437 of the Acts of 1893.

Referred to the Executive Committee.

Coun. BALLANTYNE offered an order—That the Commissioner of Public Works make a sidewalk along both sides of Aspen street, between Copeland and Montrose streets, Ward 21, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestones, under the provisions of chapter 437 of the Acts of 1893.

Referred to the Executive Committee.

Coun. BALLANTYNE offered an order—That the Commissioner of Public Works make a sidewalk along 11-17 Blue Hill avenue, Ward 17, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestones, under the provisions of chapter 137 of the Acts of 1893.

Passed.

GENERAL RECONSIDERATION.

Coun. COLEMAN moved a general reconsideration, hoping that the same would not prevail. Lost.

Adjourned at 4.07 p. m., on motion of Coun. WOODS, to meet on Tuesday, September 8, at three o'clock p. m.

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWERS AND DRAINS IN FABYAN, WHITFIELD AND QUEEN STREETS, DORCHESTER.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for pipe sewers and drains in Fabyan street, from Blue Hill avenue to Harvard street; Whitfield street from Talbot avenue to Southern avenue; Queen street, from King street to Rosemont street, Dorchester, and giving bond therefor of a surety company approved by the commissioner in the sum of eight hundred (\$800) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 511, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked, "Proposal for Pipe Sewers and Drains, Fabyan, Whitfield and Queen Streets," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Friday, September 11, 1914, with a certified check for five hundred (\$500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, September 3, 1914. (Sept. 5.)

CITY OF BOSTON.

PROPOSALS FOR COAL HANDLING MACHINERY AND TOWER.

The trustees will receive sealed proposals for coal handling machinery and tower for the Boston City Hospital, the same to be addressed to "The Trustees, the Boston City Hospital, Boston, Mass.," and indorsed "Proposal for Coal Handling Machinery and Tower for the Boston City Hospital." Proposals will be received at the office of the superintendent of the hospital on Wednesday, September 9, 1914, at 12 o'clock noon, at which time the said proposals will be publicly opened and read. All proposals must be made upon blank forms to be had at the office of the engineers of the work, Densmore & LeClear, 88 Broad street, Boston, on and after 9 a. m., Tuesday, September 1, 1914, where the form of proposal in duplicate, the form of contract, specifications, etc., may also be obtained. The duplicate copy of the proposal must be filed out by the bidder and deposited with the City Auditor before 12 o'clock noon on the date given above for receiving proposals. Bidders will be required to give the trustees satisfactory assurance of their competency, experience and responsibility. Proposals must be accompanied by a certified check on a Boston bank for five hundred dollars (\$500), made payable to the City of Boston. The right is reserved to reject any and all bids and to waive any defect or informality at the discretion of the trustees.

FRANK H. HOLT, M. D.,
Acting Superintendent.
(Sept. 5.)

CITY OF BOSTON.

PROPOSALS FOR THE PURCHASE OF ABOUT 20 TONS OF OLD IRON.

The Commissioner of Public Works of the City of Boston, office Room 511, City Hall Annex, invites proposals for the purchase of about 20 tons of old iron, the property of the Street Lighting Service and stored at the following yards of the Boston Consolidated Gas Company:

Kewes street, Jamaica Plain, about 6 tons.
Freeport street, Dorchester, about 6 tons.
Hilton street, Roxbury, about 7 tons.
Dorchester street, South Boston, about 1 ton.

The purchaser shall remove the old iron (which is to be the property of the purchaser) within a reasonable time. Only proposals obtained at said office, filled out, signed by the bidder, and left at Room 511, fifth floor, City Hall Annex, before 12 o'clock m. of Thursday, September 10, 1914, will at said hour and place be publicly opened and read. The bidder must deposit in cash or certified check made payable to the City of Boston an amount equal to the total bid. The proposals must be made in duplicate, the sealed duplicate, without check, to be deposited with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award as he deems best. The proposals should be enclosed in an envelope, sealed and marked "Proposal for the Purchase of Old Iron."

L. K. ROURKE,
Commissioner of Public Works.
Boston, September 3, 1914. (Sept. 5.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

L. K. ROURKE,

Commissioner of Public Works.

Boston, September 3, 1914. (Sept. 5.)

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announce an open competitive examination for expert radio aid (for administration and operation), for men only, on September 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in the position of expert radio aid in the office of the Superintendent of Radio Service at the Naval Radio Station, Radio, Va., at a salary of \$10 per diem, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will involve assisting in the supervision of the administrative details of the Naval Radio Service, including both the operating and accounting features; the inspection of radio stations, so far as relates to their operation and management, and advising in regard to their improvement in both technical and administrative matters. The duties of the position will require a thorough knowledge of all the essential features of a communication system, and the details of land wire, cable and radio systems in the United States and foreign countries, including their organization both for administrative and other purposes. There will be required a knowledge of laws, rulings and precedents established by such systems, both United States and international.

It is desired to secure the services of a man having a broad training in both administrative and technical matters of radio, and one who has had considerable experience in dealing with other systems of communication. He must also be an experienced and efficient operator.

The commission announce that applications will be accepted at any time for the examination for office helper (typewriter) at Watertown Arsenal, Watertown, Mass., from both men and women. Examinations will be held at Room 141, Post Office Building, Boston, Mass., whenever it becomes necessary to provide eligibles. Persons who apply will be notified of the date of examination. As a result of this examination vacancies will be filled as they occur in the position of office helper, qualified in typewriting, in the Watertown Arsenal, Watertown, Mass.

The usual entrance salary is \$480 a year. The duties of the position are routine clerical work, requiring ability to use the typewriter.

The commission announce an open competitive examination for junior physical chemist, for men only, on September 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Chemistry, Department of Agriculture, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be chiefly research work in the preparation and investigation of sugars, their occurrence, identification and properties, and the importance of the various sugars in various foods.

The commission invites attention to the open competitive examination for clerk

in the Panama Canal Service scheduled to be held on September 9, 1914.

It is especially desired to secure eligibles from this examination who are qualified as bookkeepers.

The usual entrance salary for this position is \$1,200 a year.

The commission invites attention to the open competitive examination for junior engineer draughtsman, for men only, scheduled to be held on September 9, 1914. In addition to other vacancies to be filled from the register of eligibles resulting from this examination, it is expected that certification will be made to fill a vacancy in this position in the Engineer Department at Large, Wheeling, W. Va., at a salary ranging from \$1,800 to \$2,100 a year, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

For the vacancy at Wheeling, W. Va., mentioned above, the department requires the services of a person with experience in the independent design of steel structures.

The commission invites attention to the open competitive examination for library cataloguer, for both men and women, scheduled to be held on September 9, 1914, at all places marked "(D)" in section 2 of the Manual of Examinations for the fall of 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Departmental Service, Washington, D. C., at entrance salaries ranging from \$720 to \$1,000 per annum, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The following vacancies in positions which may be filled as the result of this examination exist at the present time:

One in the position of library assistant (male) qualified for bibliographical and reference work in educational literature, and to serve as administrative assistant in the library of the Bureau of Education, Department of the Interior, at \$1,000 per annum.

One in the position of library cataloguer (female), Smithsonian Institution, at \$75 a month.

The commission invites attention to the open competitive examination for junior chemist, for both men and women, scheduled to be held on September 9 and 10, 1914. In addition to vacancies in positions in the Bureau of Chemistry, Bureau of Mines, Bureau of Soils and Bureau of Standards, to be filled from the register of eligibles resulting from this examination, it is expected to fill vacancies in the position of junior chemist in the Bureau of Animal Industry and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The usual entrance salary for these positions ranges from \$1,000 to \$1,440 a year, but persons showing in the examination that they are unusually qualified are occasionally appointed at higher salaries, not to exceed \$1,740 a year. Certification to fill vacancies in positions paying more than \$1,440 will be made only from those attaining the highest averages in the examination.

The following vacancies in such positions exist at the present time:

One junior chemist, qualified in biological chemistry, Bureau of Animal Industry, Washington, D. C., at \$1,200 a year.

One junior chemist, qualified in biological chemistry, Bureau of Chemistry, Washington, D. C., \$1,200 to \$1,620 a year.

One chemist, qualified in pharmaceutical chemistry, Bureau of Chemistry, Washington, D. C., \$1,200 to \$1,440 a year.

Two chemists, qualified in pharmaceutical chemistry, Bureau of Chemistry, Washington, D. C., \$1,620 to \$1,740 a year.

The commission announce an open competitive examination for district inspector, under the migratory bird law, for men only, on September 16, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Biological Survey, Department of Agriculture, for service in the field, at \$1,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Vacancies exist in districts 4, 5, 8, 9, 10, 11 and 12, covering the following states: Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Mississippi, Montana, Nevada, New Mexico, North Dakota, Ohio, South Carolina, South Dakota, Tennessee, Texas, Utah and Wyoming.

The duties of district inspector will be general supervision of the migratory bird wardens appointed for the district, cooperating with local authorities in protection and propagation of game and diffusion of information regarding conservation of wild life.

The commission invites attention to the fact that in addition to the districts for which the open competitive examination for district inspector, under the migratory bird law, for men only, is to be held on September 16, 1914, this examination will also be held for District 1, which comprises the states of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island and Connecticut. Legal residents of these states will therefore be admitted to the examination upon filing applications in due time showing them to be eligible.

The scope and character of and requirements for this examination, as well as the list of places at which it will be held, are contained in original Announcement No. 780, a copy of which, together with the proper application form, may be obtained from the United States Civil Service Commission, Washington, D. C., or from the Secretary of the First Civil Service District, Post Office, Boston, Mass.

The commission announce an open competitive examination for expert radio aid, for men only, on September 16, 1914. From the register of eligibles resulting from this examination certification will be made to fill one vacancy in this position at \$6 per diem in the Navy Yard, New York, N. Y.; five vacancies at either \$8 or \$6 per diem in the Navy Yards at Boston, Mass., Philadelphia, Pa., Norfolk, Va., Charleston, S. C., and Puget Sound, Wash.; and vacancies as they may occur in positions requiring similar qualifications, throughout the United States, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of these positions will be: To direct and assist in the laboratory tests of all circuits, instruments and apparatus

pertaining to and used in radio signaling; the practical installation, repair and adjustment of radio apparatus both in shore stations and in ships; the development and design of special apparatus and methods of radio signaling suited to special conditions, and of new forms of sending and receiving circuits; to analyze the data which may accrue from observations of the operation of different radio installations and to plan and execute experimental investigations as indicated; to inspect the various radio stations when called upon and to make the necessary measurements of their electrical constants; and, in general, to carry out advanced technical work in radio research, design and development and practical work in construction and repair of radio apparatus. They will be required to prepare technical reports of inspections, tests and research work.

The commission announce an open competitive examination for statistical editor, for both men and women, on September 16 and 17, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at an initial salary ranging from \$1,200 to \$1,400 a year, in the Children's Bureau, Department of Labor, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

This position affords excellent opportunity for entrance into the field of statistical work, and the person who is appointed as a result of this examination and who proves competent to perform the duties of the position may expect reasonable promotion.

The commission announce an open competitive examination, September 21, 1914, for assistant superintendent of construction, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$100 a month, when employed, at the United States Penitentiary, Leavenworth, Kan., and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Employment in this position at Leavenworth, Kan., will be intermittent and will aggregate probably not over eight months in a year.

A general knowledge of building operations of all kinds, sound health, active habits, and good judgment are necessary qualifications. Applicants must have had not less than four years of building experience, excluding apprenticeship, either as building mechanic, supervisor, or superintendent, or any combination of these, but not less than one year of supervisory work is necessary.

The commission announce an open competitive examination, September 21, 1914, for specialist in industrial education, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Education, Department of the Interior, Washington, D. C., at a salary of \$3,500 a year, and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be performed at Washington, D. C., and else-

where, and will include the study of vocational education, the collection and compilation of information relating thereto and the giving of advice to education officers throughout the United States for the establishment of courses of study in vocational education.

The commission announce an open competitive examination, September 28, 1914, for specialist in educational systems, for women only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Education, Department of the Interior, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will consist of investigations concerning the organization and administration of elementary schools in cities and towns and the preparation of teachers for such schools.

The commission announce an open competitive examination, September 28, 1914, for chief petroleum technologist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Mines, for service in San Francisco, Cal., at a salary of \$4,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to supervise and participate in the technologic and other scientific and economic work of the Bureau of Mines in relation to petroleum and natural gas, as to production (which involves a consideration of the oil and gas bearing strata), storage, transportation and refining; the prevention of waste; the prevention of loss from underground water encroachment, and other economic problems affecting the industry.

The commission announce an open competitive examination, September 28, 1914, for associate engineer-physicist, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Standards, Department of Commerce, Washington, D. C., or Pittsburgh, Pa., at salaries ranging from \$2,000 to \$3,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to investigate structural and engineering materials, especially rails and railroad material.

It is desired to secure eligibles who are proficient in mathematics and its application to physical and engineering problems, and who are able to initiate and carry on independent research in the field of engineering physics.

The commission announce an open competitive examination, September 28, 1914, for agronomist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary ranging from \$2,000 to \$2,500 a year, and

vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to conduct investigations in the New England States, Michigan, New York, Ohio, Pennsylvania, New Jersey, Maryland, Virginia and West Virginia, having for their object the development of improved methods of pasture management with a view to increasing the carrying capacity of permanent pastures and the development of new pastures.

It is desired to secure the services of a person who has had considerable experience in pasture investigations.

The commission invites attention to the open competitive examinations for ship draftsman and copyist ship draftsman, for men only, to be held on October 14 and 15, 1914. From the registers of eligibles resulting from these examinations certification will be made to fill vacancies as they may occur in these positions in the Bureau of Construction and Repair, Navy Department, Washington, D. C., and at navy yards and other establishments of the Navy Department outside of Washington, D. C., unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The entrance salaries for the position of ship draftsman range from \$3.28 to \$5.04 per diem. Persons appointed from this examination are eligible to promotion in the service of the Navy Department to salaries of \$7.52, \$8, and in a few cases as high as \$10 and \$12 per diem, depending upon the efficiency shown.

The entrance salaries for the position of copyist ship draftsman range from \$2 to \$2.80 per diem.

The opportunity for appointment of qualified eligibles is excellent, as difficulty has been experienced in securing a sufficient number of eligibles to meet the needs of the service. The following vacancies exist at the present time:

One, Navy Department, Washington, D. C., \$5.04 per diem.
 One, Navy Department, Washington, D. C., \$3.28 per diem.
 One, Navy Yard, New York, N. Y., \$4.48 per diem.
 Two, Navy Yard, New York, N. Y., \$4 per diem.
 One, Navy Yard, New York, N. Y., \$3.28 per diem.
 Two, Navy Yard, Philadelphia, Pa., \$5.04 per diem.
 Two, Navy Yard, Philadelphia, Pa., \$4.48 per diem.
 One, Navy Yard, Philadelphia, Pa., \$3.28 per diem.
 One, Navy Yard, Washington, D. C., \$4 per diem.
 One, Navy Yard, Norfolk, Va. (Copyist), \$2.40 per diem.
 One, Navy Yard, Mare Island, Cal., \$4.48 per diem.
 One, Navy Yard, Mare Island, Cal. (Copyist), \$2.80 per diem.
 Four, Navy Yard, Puget Sound, Washington, \$3.28 per diem.
 One, Office of Naval Constructor, Quincy, Mass., \$3.28 per diem.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

Competitive examinations of applicants for positions in the classified service will be held in Boston as follows:

FOR THE SERVICE OF THE COMMONWEALTH.
 1914.
 Oct. 21. Foreman of Laborers, Inspectors of Work, Class 22.
 Oct. 27. Drafttenders, Assistant Drafttenders, Class 25.
 Nov. 2. Clerks, Messengers, Class 3.
 Nov. 16. Stenographers, Class 9.
 Dec. 7. Civil Engineers, Class 27.
 Dec. 17. Metropolitan Park Policemen, Class 16.
 1915
 Jan. 19. Prison Watchmen, Class 17.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply.

Blank applications (Form No. 1) can be obtained by applying to the Civil Service Commission, State House, Boston, and when filled out, should be filed in the office of the commission at once.

In order to receive a notice to appear at any of the above-scheduled examinations, an applicant should have his application on file at least ten days before the date set for holding the examination.

EXAMINATIONS FOR LIGHT-HOUSE SERVICE.

United States civil service examinations for the following mechanical trades and noneducational positions in the Light-house Service, Engineer Department at Large and the Quartermaster Corps, U. S. A., and the various branches of the government service in Boston, Mass., and vicinity, will be held on October 1, 1914.

Positions.—Assistant marine steam engineer (including positions on lighthouse tenders), carpenter, marine fireman, mate (including positions on lighthouse tenders), * oiler, stationary fireman.

Age limits. Lighthouse Service: 18 years or over, except for positions requiring license from U. S. Steamboat Inspection Service, for which the minimum age is 21. Maximum age for officer of tender, 45 years. Persons honorably discharged from the U. S. Army, Navy or Marine Corps and persons already in the Light-house Service in classified positions will be examined without regard to their age.

No educational tests will be given and applicants will therefore not be called upon to appear at any place to be examined. They will be rated according to their physical condition and experience as indicated in their applications and the medical certificate and vouchers furnished.

All statements relating to training and experience are accepted subject to verification. No applicant will be eligible for appointment who fails to attain a rating of at least 70 per cent in the subject of training and experience. Applicants should name in their applications, as references, employers or other persons who are competent to furnish information relative to the applicants' fitness for the positions sought, and these persons will be communicated with. Unless answers are received from these persons within two weeks from the date of sending the communications the applications may be canceled.

The following physical defects will debar applicants from any examination: Insanity, tuberculosis, paralysis, epilepsy, blindness, loss of both arms or both legs, loss of arm and leg; badly crippled or deformed hands, arms, feet, or legs; uncompensated valvular disease of the heart, locomotor ataxia, cancer, Bright's disease, and diabetes. In addition, persons who have lost an arm or a leg, or who are ruptured, are ineligible for appointment to positions in the Custodian Service. Other physical defects will render applicants ineligible for any particular service or position when, in the judgment of the Commission, such defects would disqualify them from the duties required.

An applicant who is unable to write may have his application filled in by another and sign it by mark, which must be properly witnessed; but only those eligibles will be certified for appointment in the Custodian Service whose applications are in their own handwriting.

The age limits for the different branches of the service are as follows: Quartermaster Corps, men, 20 to 50 years; women, 18 to 50 years; Engineer Department at Large, 18 years or over; Custodian Service, 20 to 50 years; other branches, 20 years or over. The age limits are waived in the case of persons honorably discharged from the military or naval service of the United States by reason of disability resulting from wounds received or sickness incurred in the line of duty.

In filling vacancies certification will be made of eligibles readily available for employment—that is, of those who live in the place, or in the vicinity of the place, of employment, and of those who do not live in the place or vicinity, but who have presented themselves to a member of the local board of civil service examiners (or to the employing officer when there is no local board member) at the place at which employment is desired. An eligible who does not live at the place where he desires employment will not be certified for appointment there until he has personally appeared before a member of the local board of examiners (or the employing officer) at that place, has secured a certificate from the board member (or the employing officer) showing the date on which he appeared, and has filed such certificate with the district secretary. In this connection vicinity is defined as the territory within the usual commuting distance. An employing officer is the official in charge of an office or other establishment.

This examination is open to all citizens of the United States who meet the requirements. For application and examination blank, Form 1800, address the secretary of the board of civil service examiners at the post office or custom-house in the city named at the head of this announcement, or the district secretary.

No application will be accepted unless properly executed and filed with the district secretary prior to the hour of closing business on September 15, 1914.

* A vacancy now exists as oiler on the steamer "Anderson," Fort Warren, Mass., at \$780 per annum. To be considered for this position, application should be filed on or before August 19.

EXAMINATIONS FOR WATERTOWN ARSENAL.

United States Civil Service examinations for the following mechanical trades and non-educational positions in the Ordnance Department at large, U. S. A., at the Watertown Arsenal, will be held on October 1, 1914.

The positions are blacksmith, carpenter, craneman, blacksmith's helper, carpenter's helper, machinist's helper, molder's helper, all around machinist, medium and small planer and lathe machinist, large planer and lathe machinist, drill hand machinist, floor and bench machinist, turret lathe machine operator, molder, pattern maker, toolmaker, toolgrinder and laborer.

Unskilled laborer (Form 1300 required)—age limit, twenty to fifty years, except that honorably discharged veterans of the Civil War may be examined without regard to age.

No educational tests will be given and applicants will therefore not be called upon to appear at any place to be examined. They will be rated according to their physical condition and experience as indicated in their applications and the medical certificate and vouchers furnished. Age limit twenty to fifty-five years on date of filing papers. Applicants must be citizens of the United States.

LOCAL EXAMINATIONS FOR WORK IN BOSTON HARBOR.

The United States Civil Service Commission announce an open competitive examination for the position named above. As a result of this examination certification will be made to fill a vacancy in the position specified, and vacancies in positions requiring similar qualifications in the different branches of the Federal classified service at the place, or in the vicinity of the place, named above, unless it should be found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

No educational test will be given and applicants will not be assembled for a mental examination. The examination will consist of the subjects mentioned below, which will have the relative weights indicated.

<i>Subjects.</i>	<i>Weights.</i>
1. Physical ability.....	40
2. Training and experience.....	60
Total.....	100

Applicants must have had actual experience as marine firemen.

All statements relating to training and experience are accepted subject to verification. No applicant will be eligible for appointment who fails to attain a rating of at least 70 per cent in the subject of training and experience. Applicants should name in their applications, as references, employers or other persons who are competent to furnish information relative to the applicants' fitness for the positions sought, and these persons will be communicated with. Unless answers are received from these persons within two weeks from the date of sending the communications the applications may be canceled.

The following physical defects will debar applicants from any examination: Insanity, tuberculosis, paralysis, epilepsy, blindness, loss of both arms or both legs, loss of arm and leg; badly crippled or deformed hands, arms, feet, or legs; uncompensated valvular disease of the heart, locomotor ataxia, cancer, Bright's disease, and diabetes. In addition, persons who have lost an arm or a leg, or who are ruptured, are ineligible for appointment to positions in the Custodian Service. Other physical defects will render applicants ineligible for any particular service or position when, in the judgment of the Commission, such defects would disqualify them from the duties required.

An applicant who is unable to write may have his application filled in by another and sign it by mark, which must be properly witnessed; but only those eligibles will be certified for appointment in the Custodian Service whose applications are in their own handwriting.

The age limits for the different branches of the service are as follows: Quartermaster Corps, men, 20 to 50 years; women, 18 to 50 years; Engineer Department at Large, 18 years or over; Custodian Service, 20 to 50 years; other branches, 20 years or over. The age limits are waived in the case of persons honorably discharged from the military or naval service of the United States by reason of disability resulting from wounds received or sickness incurred in the line of duty.

No application will be accepted unless properly executed and filed with the district secretary prior to the hour of closing business on September 8, 1914.

Address all inquiries to Secretary, First Civil Service District, 141 Postoffice Building, Boston, Mass.

A CLEAN CITY—RULES FOR THE HOME.

BY MISS HENRIETTA W. BERG of the South Boston High School.

In order that we may have a clean city there are a few rules which we must all observe. The five following are the right rules that we must follow and get others to do the same:

1. Place all papers in the paper barrel or rubbish box; not in the street.
2. Keep all back yards and alleys free from ashes, dirt and other refuse that may block a passageway in case of fire.
3. Convince the little children to be careful not to throw papers in the street; for it gets full of dust, and, when it is windy they blow into people's faces. Teach them to put all playthings where they find them and not to throw them into the middle of the street.
4. When sweeping cellars be just as careful as when sweeping the kitchen. Clean out all corners. If your hands get dirty, it won't hurt you. The cellar is just as important as any other room.
5. When on your way to school, be careful that you do not get a bad name for marking on buildings or sidewalks. You should have outgrown that stage. This is one of the first things that makes a city dirty looking.

There are five rules that tell us what we should not do:

1. Don't go to hear lectures on a "Clean City" unless you are going to follow the rules and do all in your power to make other people obey them.
2. After sweeping be careful and don't have the dirt lying around for people to step in instead of burning it.
3. When you sweep your sidewalk and steps, don't sweep it upon your neighbor's sidewalk. This only makes yours clean and your neighbor's dirty, which is just as bad as not to sweep it at all.
4. Don't sweep dirt into streets, because dirty streets make dirty cities. Burn it up.
5. If you see paper lying in the streets and other people don't know enough to pick it up, don't pass by it yourself, but pick it up and set the good example for others.

After these rules have been observed we may be able to have a clean city, but not before.

A CLEAN CITY—CIVIC SPIRIT.

BY PETER J. MIKALASKAS of the South Boston High School.

The people of Boston demonstrated by a clean-up and paint-up campaign that they realize the fact that a city should be kept clean. Before this, people, in general, sought to keep only their own personal property free from dirt. Now they are beginning to realize that the motto, "Do unto others as you would have others do unto you," applies also to keeping steps, yards and streets clean. All people should help their neighbor by good example. No home, back yard or small street should be overlooked. Such places are not particularly noticeable, but should be kept as clean as the most prominent avenues and thoroughfares.

There are several methods for preserving cleanliness in and about the city, such as the city giving prizes for the best looking lawn, back yard and windows. We could also form Anti-Dirt Leagues in our schools and other places; a league such as the Anti-Cruelty League and several others.

The cleanliness in our surroundings has an effect in the cleanliness of our morals. We should keep our moral character very clean. If the young fellows, many of them well and neatly dressed, who are loafing about corners, were really clean in their moral character, they would not be idle.

Good business firms want boys who are as clean in the moral character as they are in appearance. The cleanliness for the moral character of every boy or girl, man or woman, is even more important than the cleanliness of the city. Indeed one helps to bring about the other. For no one who hates idleness, loafing, lying and stealing is apt to like filth, rubbish and litter in his surroundings. Neatness, good order and physical cleanliness usually go with good morals.

BOSTON'S FREE RECREATION OPPORTUNITIES.

RECREATION AND HEALTH AGENCIES, MAINTAINED BY CITY OF BOSTON.

Three Swimming Pools—Admission, 15 cents; lessons free.

Ten Free Public Gymnasias.—With instruction in all branches of physical education.

Free Public Shower Baths.—With hot and cold showers and comfortable dressing closets.

Free Golf Course in Franklin Park.—With small course for beginners.

Excellent Tennis Courts.—At Franklin Park, Franklin Field and Wood Island Park. Many good tennis courts on other grounds.

Franklin Park.—With its beautiful drives and walks, its Zoo, including largest bird house in the country and an exceptional collection of bears.

Beautiful Aquarium.—At Marine Park, City Point. Fine collection of varied species of fish.

Public Gardens.—With beautiful walks and seasonal floral exhibitions.

Arnold Arboretum.—With its wonderful collection of trees and shrubs.

Olmsted Park.—With its beautiful scenery, fine walks, and its Children's Museum.

GAMES AND SPORTS.

Basketball.—Courts in most of the gymnasias.

Handball.—Finest court in New England at East Boston Gymnasium.

Squash.—Can be played in the East Boston Handball Court.

Football and Soccer.—Numerous fields throughout the city.

Ice Hockey.—Many rinks kept in condition during season.

Skating.—On many parks and on most playgrounds during season.

Tobogganing.—Slide at Franklin Park in season.

Park Walks with Guide.—Weekly when weather is favorable.

BOSTON'S MUNICIPAL SHOWER BATHS.

Free public shower baths may be taken in these buildings:

East Boston Gymnasium, Paris street, East Boston.

D Street Gymnasium, South Boston. Municipal Building, Columbia road, Dorchester.

Cabot Street Gymnasium, Roxbury. North Bennet Street, North End.

Tyler Street Gymnasium, South End. Harrison Avenue Gymnasium, Ward 9

Curtis Hall Gymnasium, Jamaica Plain. Dover Street Bath House, 249 Dover street.

Copley School, Bartlett street, Charlestown.

Municipal Building, corner Bunker Hill and Lexington streets, Charlestown.

Bathing facilities are entirely free of charge. Persons having no towels and soap may procure them at each building office for one cent each. Comfortable private dressing closets are free in all places. Hot and cold water may be had for baths. At the Dover Street Bath House women and men have separate accommodations and each may bathe there any day in the week. In the other houses women have exclusive use of baths on Mondays and Thursdays, and men have the remaining days. There is telephone connection in each building.

A SUGGESTION FOR CITY CHARITY.

By REYNOLD E. BLIGHT.

Applicants for charity relief may be roughly divided into four classes, the sick, the unemployed, the "hobos" and the deserving poor.

The first class—the sick, the physically, mentally, morally defective—must be cared for by the hospital and similar institutions.

The second group are not charity applicants at all, properly speaking, but present an increasingly serious problem of the "out-of-works," men and women who are able and willing to work. There is no question that the community must make an earnest effort to meet and solve this problem, but essentially it is not a matter of charity.

The "hobo" is a problem for the police.

But after this process of elimination we still find a very large group of people who for the lack of better expression we may call "the deserving poor," who need and must have immediate and temporary assistance to relieve their pressing needs.

Why not let the board of education do this work?

The school system covers the entire city and touches every district. It is well organized, well-equipped, well-officered. Every school could be an investigating, relief and distributing center for its district.

The large salary roll which at present constitutes a scandal in so many charity organizations would be eliminated. We have been told of charity societies where 60 per cent of the receipts were disbursed in salaries. The only officers necessary would be a director, under the supervision of the superintendent, and his clerical assistants in the central office. Volunteers from the teaching staff would constitute a large, organized, trained force of willing workers who would investigate needy cases, assist individuals intelligently, and maintain a sympathetic supervision so long as assistance was needed. Nearly all needy families send children to the schools and in this way close touch could be kept with the families. It would not be a big dinner on Christmas and neglect starvation the rest of the year.

The use of volunteer helpers and the school buildings would reduce expenses to a minimum. Philanthropic citizens who desire to contribute to the needs of their less fortunate neighbors would know that every dollar so given would do its full work, economically and efficiently. This knowledge would go far toward stimulating philanthropy on the part of well-to-do people.

The impostor and the habitual beggar would soon be located. Each school would watch over its own district and the "working" of charity organizations by clever fakery would soon cease.

No extra burden would be added to any teacher. The work would be wholly voluntary and one or two teachers in each school giving two or three hours a week would be sufficient for all requirements.

This arrangement would also insure sympathetic handling of the charity applicants. In most cases sympathy and practical advice are more needed than money. The curse of professionalism would be lifted.

There would be no more "Institutionalized charity, frigid and dead, dispensing a formal, statististical Christ."

The spirit of the relief work would be thoroughly humanitarian.

Many of our teachers are to-day doing a great deal of charity work. I know of teachers who give away a great part of

their monthly salaries, relieving the needs of the children under their care. The children will confide in the teacher and accept assistance from and through her, when organized charity relief would be refused.

Relief coming through the schools is free from the humiliation of private charity. Experience has shown that needy people do not feel any degradation in accepting help through school principals and teachers. The frigidity of institutionalized charity and the pauperization that attends promiscuous, sentimental and unintelligent giving would be avoided.

LABOR LAWS AND FACTORY INSPECTION.

In view of the attention now being given in Boston and Massachusetts relative to the administration of labor laws and factory inspection, the reports of the Bureau of Statistics of Labor upon conditions abroad is both timely and instructive.

Recognition of the fact that the administration and enforcement of labor laws involve much more than a mere system of detecting violations of law is becoming more and more apparent in efforts for the protection of the working classes. The establishment of definite rules and standards for the safety and health of workers, higher specialization of the functions of inspectors, and the creation in a number of states of industrial commissions with large powers are indications of the progress made. The report on this subject, covering Great Britain, Germany, France, Austria, Switzerland and Belgium, has just been published by the Department of Labor.

In the countries named labor laws date back to the beginning of the nineteenth century, but the first measures for their enforcement were not passed until 1833, when factory inspection was established in England, while similar action was not taken elsewhere until 1874, when France created a labor inspection department, followed by Switzerland in 1877, Germany in 1878, Austria in 1883 and Belgium in 1888.

While experience has shown that labor laws without provisions for enforcement are practically futile as protective measures, emphasis must also be placed upon the importance of efficiency in the administrative machinery, its scope and functions, its methods of work, the character of its personnel, and the provision of definite standards of safety and sanitation. In only one of these phases of administrative work was marked superiority found in the countries visited as compared with the United States. This was in the training and character of the inspectorial force. In Europe, the position of factory inspector can be obtained only after long technical training and severe tests. The occupation is classed as a profession, ranking with law, medicine and engineering. Tenure of office is secure and pensions are given for long service and old age. Men who seek these positions are of exceptional character and attainments and their work is correspondingly efficient.

In France and Belgium the whole work of labor-law enforcement is centered in the labor-inspection departments, but in England the local authorities have jurisdiction over the enforcement of all sanitary provisions in workshops. In Germany the factory laws are administered by the industrial inspectors, inspectors of insurance associations and police authorities, and in Austria by the industrial inspectors and the local industrial authorities. In

Switzerland there is division of jurisdiction between the Federal factory inspectors and the cantonal inspectors, while the enforcement of the laws is entirely in the hands of the local police and the cantonal authorities.

Medical factory inspection is still an undeveloped field, England and Belgium being the only countries having separate medical divisions, and even there the number of physicians is small.

Women inspectors number twenty in England, where they occupy the unique position of being practically independent in their work and functions. France has eighteen women inspectors, Austria five, Belgium one, Prussia and Switzerland none, and the German states but few. Outside of England the work of women inspectors is limited to small shops where women and children are employed.

There is great demand among the laboring classes for workmen inspectors. This has met with considerable opposition from some of the governments as well as from regular inspectors. England has fifty-five workmen inspectors, but their functions are limited, their salaries low and their status entirely different from that of regular inspectors. Prussia, France, and Switzerland have no such inspectors as yet and there are only a few in Austria, Belgium and some of the German states.

Two extremes of organization are found, the highly centralized and the decentralized. England furnishes an example of the former, with a chief inspector, division inspectors, district inspectors, and the lower grades of inspectors. In England is also found much specialization of functions among medical inspectors, dangerous-trades inspectors, electrical inspectors, etc. In the inspection departments of Prussia and Switzerland, which are examples of the decentralized type, there are no chief inspectors, each district inspector having the whole field of industrial inspection under his jurisdiction. Austria has a central industrial inspector, but his supervision does not extend as far as that of the chief inspector in England. In France there is practically no head to the inspection department, the division inspectors being charged with much of the inspectorial work.

Little progress in scientific standardization of safety and sanitation has been made in Europe, and labor laws in many instances fail to give exact standards for the guidance of inspectors and for the use of manufacturers and employees. Inspection to detect violations of law is still the method used by most inspectors, and most European inspection departments are far behind the more progressive departments in the United States in the matter of keeping records of inspections, violations, etc.

MUNICIPAL MOVING PICTURES.

The city of St. Louis has converted Columbus square, a sunken city block, into a free moving picture theater, poured into it 10,000 children of many nationalities and taught them more about their adopted city, state and nation than they could have learned otherwise in months. Scenes of St. Louis, the Zoo, the industries of America, instructive and entertaining pictures were shown free to the residents of the district. Four blocks away a free municipal band concert competes with the moving picture show for the popularity prize, but less than two thousand attend the concert. The only reason more persons did not see the free "movies" was the lack of more standing space.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 6.

SATURDAY, SEPTEMBER 12, 1914.

No. 37

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By Subscription \$1.00 Per Year.
Single Copies 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 25, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquees, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance or permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS at 6 Beacon street, Room 725, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, September 14, at 3 p. m.

Meeting of School Committee, Monday, September 14, at 7 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

LICENSING OF ELEVATOR OPERATORS.

Applications for licenses to operate passenger elevators, as required by recently enacted statute, may be obtained at the office of the Building Department, City Hall Annex.

PUBLIC HEARINGS.

The Board of Street Commissioners announce a public hearing, relative to the taking of land for park purposes on Hemenway street, Huntington Entrance

and the Fenway, Roxbury, at the office of the Board, 401 City Hall Annex, upon Monday, September 14, at 11 a. m.

The Board of Street Commissioners announce a public hearing, relative to the taking of land for schoolhouse purposes, upon Auburn street, Roxbury, at the office of the Board, 401 City Hall Annex, upon Monday, September 28, 1914, at 11 a. m.

NOTICE OF LAYING OUT AND CONSTRUCTION WORK.

Especial attention is called to the advertisement of the Public Works Department in the current issue of the *City Record* relative to the laying out and construction of highways in South Boston, East Boston, Roxbury, Dorchester and West Roxbury, and that all work in said highways relative to sewer, gas, water or other pipes must be accomplished before Friday, October 16, 1914, as after that time no permits for openings will be granted until two years after the said highways are completed.

THE SALEM FIRE.

During the sessions of the 33d annual convention of the New England Waterworks Association, held at the Copley-Plaza Hotel, in this city, September 9-11, inclusive, Frank A. McInnes, division engineer, and Clarence Goldsmith, engineer of the High Pressure Service, Water Service Division, Boston Department of Public Works, presented, mutually, a very instructive and entertaining report upon the Salem fire, and which was received with marked favor by the delegates.

Messrs. McInnes and Goldsmith have very courteously presented the *City Record* with a verbatim copy of their report, and which is as follows:

The comparative equanimity with which such a disaster as the recent Salem fire is received by the community in general is little short of marvelous. For a short space of time there is intense interest; the reasons therefor are pointed out; methods of prevention are freely discussed; sympathy is extended in a substantial manner; and yet, the necessary lesson is not learned. What a travesty upon our civilization the story is! The direct fire loss in the United States and Canada in twenty months amounts to a sum of money sufficient to build the Panama Canal. The indirect loss cannot be estimated but must be largely in excess of the actual property loss. In addition enormous sums are spent in maintaining fire departments throughout the country, which, owing to conditions obtaining, are powerless to prevent the criminal loss of life and money. With the exception of the present barbaric war in Europe, is there elsewhere throughout the world such an example of preventable waste. It is perfectly obvious to any thinking or unthinking man that the first step to prevent this terrible economic loss

is to improve existing conditions; nevertheless, the danger confronting all of our cities and towns is allowed not only to continue but to very greatly increase each succeeding year.

It is the intention of the writers to make an analysis of certain conditions which have neither been touched on by news items nor by reports already published, but which, nevertheless, are of vital importance to those who are devoting their lives to maintaining water supplies adequate for preventing fires from reaching conflagration proportions.

Before the fire was subdued by the flank attack of 27 engine companies, 253 acres were burned over, involving the destruction of over 1,700 buildings, at a loss in excess of \$14,000,000, all in the short period of thirteen hours. The rapid progress of the fire can best be shown by the statement that flying embers set fire in South Salem in forty minutes, and by the further fact that the military call was sounded in fifty-four minutes from the time the first alarm was given.

The point of origin of the fire, in Boston street, between Proctor and Pope streets, was immediately adjacent to a 20-inch main of the Salem distribution system, where a normal pressure of a little more than 50 pounds obtained. The building in which the fire started, and those surrounding it, were of frame construction and mutually exposed each other, thus enabling the fire to spread with such rapidity that the adjoining buildings

were almost immediately involved. Two of these were protected by automatic sprinklers. Before the first hour had lapsed, ten engines were at work and a conservative estimate based on a careful study of lengths of hose lines, sizes of nozzles, and water pressures maintained at the engines, shows that at no time during this period was more than 2,500 gallons of water per minute pumped from the distribution system, yet the recording pressure gauge maintained by the water department on Church street registered a drop in pressure from its normal of 42 pounds to 20 pounds at the end of the hour.

The Marblehead engine arriving at 2.15 p. m. was unable to get water either from the hydrant on Broad street, between Flint and Jackson streets, or from the hydrant at Broad and Jackson streets, while the Swampscott engine, arriving at 2.10 p. m., and the first Lynn engine, arriving at 2.25 p. m., were seriously handicapped by lack of water. That these engines with an aggregate rated capacity of 6,750 gallons were delivering this apparently small quantity of water may at first thought seem incredible when the exigency of the occasion is considered, yet a review of actual performances in Boston, where the engines are well maintained and are operated in a skillful manner, where hydrants are closely spaced and much 3-inch hose is used, and where the water supply is ample, shows the following quantities delivered at several large fires:

DATE.	Location and Alarms.	GALLONS PER MINUTE.	
		Capacity of Engine.*	Maximum Delivery of Engine.
July 5, 1904.....	Boston & Maine Grain Elevator, 4 alarms.....	12,900	3,500
July 30, 1904.....	Boston & Albany Grain Elevator, 4 alarms.....	12,000	5,556
Nov. 17, 1904.....	Hoosac Docks, 4 alarms.....	12,500	4,653
March 5, 1910.....	New England Building, 5 alarms.....	16,300	* 10,400 † 8,330
Aug. 9, 1910.....	Albany and Dover streets, general alarm.....	27,700	‡ 11,670 § 15,500
June 11, 1914.....	Condor and Border streets, 4 alarms.....	13,100	6,458

* Maximum for 10 minutes. † Average for one hour. ‡ For one-half hour. § For a few minutes.

In the above figures the amount of water pumped was determined by Venturi meter measurement.

At the beginning of the fire, the 20,000,000 gallon reservoir was practically full, the two 5,000,000 gallon pumping engines were in operation under a full head of steam, the 20-inch and 30-inch supply mains were in service and no breaks occurred in the street mains during the progress of the fire.

A test of the carrying capacity of the Distribution System was made on August 31, 1914; the method of making this test was as follows:

Four chucks were set on hydrants along Boston and Federal streets, east of Proctor streets. These hydrants were opened, two discharging through three 2½-inch outlets and two through four 2½-inch outlets, and, in addition, a post hydrant in an adjacent alley was discharging through two 2½-inch outlets. The flow from each of the sixteen outlets was measured by Pitot tubes and showed a total of 8,585 gallons per minute. The drop in pressure in the 20-inch main at the point where the test was made was observed on the pressure gauge attached to

a hydrant which was not discharging. This gauge showed a pressure of 54 pounds prior to opening the hydrants, and while they were discharging a pressure of 22 pounds, giving a drop of 32 pounds. The recording gauge on Church street showed a pressure of 47 pounds before the test and a pressure of 27 pounds while the hydrants were discharging. The quantity of water obtained shows an abundant supply at this point, an amount in excess of the combined capacity of the engines working at the end of the first hour. A draft from the mains equal to the previously estimated quantity pumped by the engines, namely, 2,500 gallons per minute, would cause a local drop in pressure of less than 4 pounds. On the date of the fire the recording gauge on Church street showed 42 pounds pressure when the first alarm was received. In 30 minutes the pressure had dropped to 33 pounds, and at the end of the hour to 20 pounds. From this record it is evident that a quantity of water approximately equal to the quantity obtained at the flow test was being withdrawn from the system, and the principal object of this investigation is to account for this large

rate of flow. One 8-inch and two 6-inch connections supplying the two sprinkler risks already referred to must bear the blame. The 8-inch connection from the 20-inch main was through 25 feet of pipe to the sprinkler equipment in the Charles H. Keefe plant, and the two 6-inch connections supplying the sprinkler equipment in the Carr Leather Company's plant were fed through 200 feet of 8-inch main connected to the 20-inch pipe. These buildings ignited immediately and a large number of sprinkler heads opened in a very short time but were powerless to check the fire, and the collapse of the buildings resulted in the breaking of the sprinkler pipes, allowing the capacity of the three large connections to be wasted from the 20-inch main. To determine the actual effect of these three broken pipes they were opened shortly after the flow test above referred to was made, with the following result:

A gauge on a hydrant on the 20-inch main showed a normal pressure of 54 pounds, and when the connections were open and flowing, a pressure of 31 pounds, which, from the previous flow test, enabled the discharge from these pipes to be accurately determined at 7,200 gallons per minute; a quantity of water in excess of the entire supply required for the fire protection of a city the size of Salem according to the best modern practice. The Church street gauge fell during this test from 46 pounds to 33 pounds. The effect of these broken connections is further evidenced by the record of this gauge, which continued to drop during the fire until it registered 13 pounds, about 3 p. m., at which time a supply at the rate of 8,000,000 gallons per day was delivered from the Peabody system without improving the pressure; at about five o'clock the heat abated so that these connections, together with a post hydrant, which had been discharging through two 2½-inch outlets, were closed and the pressure immediately rose to a little over 21 pounds in spite of the fact that many service pipes were broken at this time. From the previously recited facts it is evident that the broken connections had so depleted the supply of water that the fire department, of metropolitan size, was seriously crippled within one-half hour and rendered almost impotent as the fire progressed.

The lesson to be learned from the experience in Salem is that the existence of connections from a distribution system of such size that their failure destroys the pressure at the hydrant is a mistake that surely invites disaster to all water-works systems and doubly so to those depending upon hydrant hose streams. We recognize the absolute necessity of better building laws, well manned and properly equipped fire departments, uniformity in hydrants and hose threads, the proper care of explosives and inflammables, provision for effective direction of the fire fighting forces when the emergency arises, and of an adequate and reliable water supply. How shall this latter be safeguarded against such failure as resulted in Salem without detracting from the service which it can safely supply to sprinkler equipments which we believe are invaluable?

The record of fires occurring in sprinkler risks during the past sixteen years shows that in a total of 14,353 fires, 13,691 were controlled by the opening of less than 51 sprinklers, and only 662, or 4.6 per cent, were not controlled by this number of sprinklers, which number can be supplied by a 4-inch connection. All standard sprinkler equipments are fitted with

local alarms and may, through supervisory service, with connections to fire alarm headquarters; in either case the fire department should be promptly notified, and in most closely built-up sections the first piece of apparatus will be on the ground within three minutes and additional water may be immediately delivered to the sprinklers through outside siamese connections with which all sprinkler equipments should be provided. The fire department would then have the supply under their control, be able to deliver the water at the seat of the fire rather than use it with little effect as is so often done. Such a method of operation would preclude the possibility of a single large connection menacing the entire community; if any risk is of such special hazard that additional protection is necessary, this should be provided apart from the public supply, either by tanks or other storage. It must be borne in mind that the actual breaking of large connections is not necessary to bring disaster as the opening of too many sprinkler heads may be sufficient to cause serious results, as might occur in a modern fireproof building which would not collapse and break the connections.

Three buildings are now standing practically unharmed in the midst of the ruins in Salem although subject to a fierce trial by fire. They constitute an object lesson in building construction which cannot be forgotten. The three connections broken at the beginning of the Salem fire should prove an object lesson of equal force.

MAYOR CURLEY DEMANDS NEUTRALITY IN SCHOOLS.

The absolute necessity of maintaining an absolute neutrality in the Boston Public Schools, by reason of the cosmopolitan character of the school population of the city, resulted in Mayor Curley sending the following communication to Chairman Brock of the School Committee, upon the opening of the fall term:

CITY OF BOSTON,

MAYOR'S OFFICE, September 8, 1914.

MR. GEORGE E. BROCK,

Chairman School Committee:

MY DEAR MR. BROCK,—The school population of Boston, cosmopolitan in character and recruited from substantially every race, suggests and demands that during the continuance of the war abroad educators in our public schools refrain from the expression publicly at the sessions thereof of any sentiment, favorable or otherwise, to any of the nations involved.

A strict compliance with the recommendation of President Woodrow Wilson would undoubtedly relieve the School Department of the municipality from embarrassments which might result from the pursuance of any course other than a strictly neutral one.

Respectfully,

JAMES M. CURLEY, Mayor.

PERMISSION TO ERECT GARAGES.

The Board of Street Commissioners has granted, and the Mayor has formally approved, permission to erect garages to the following persons:

Thomas Reynolds, at 12 Sunnyside street, Ward 22.

L. Rosenberg, at 68 Elm Hill avenue, Ward 21.

Patrick J. Brady, at rear of 406 Arborway, Ward 23.

Edward L. Gilson, at 738 Hyde Park avenue, Ward 23.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

HOSPITAL DEPARTMENT.

The Trustees of the Boston City Hospital advertise for proposals for coal handling machinery and tower for the hospital. Bidders will be required to give the Trustees satisfactory assurance of their competency, experience and responsibility. Blank forms for proposals may be obtained at the office of Densmore & LeClear, engineers, 88 Broad street, Boston. Bids, accompanied by a certified check in the amount of \$500, to be filed at the Boston City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, September 16, at 12 m.

The Trustees of the Boston City Hospital advertise for proposals for coal pocket and sea wall at the hospital. Bidders will be required to give the Trustees satisfactory assurance of their competency, experience and responsibility. Blank forms for proposals may be obtained at the office of Densmore & LeClear, engineers, 88 Broad street, Boston. Bids, accompanied by a certified check in the amount of \$500, to be filed at the Boston City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, September 16, at 12 m.

Advertises for proposals for changes and additions to heating of East and West Pavilions, Domestic and Laundry Buildings, South Department. Surety bond will be required in an amount equivalent to 25 per cent of the contract. Blank forms for proposals may be obtained at the office of Architect Joseph McGinniss, 112 Water street, Boston, on and after September 15, 1914. Bids, accompanied by a certified check in the amount of \$300, to be filed at the office of the Trustees, City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, September 23, at 12 m.

Advertises for proposals for changes and additions to East and West Pavilions, Domestic and Laundry Buildings, South Department. Surety bond will be required in an amount equivalent to 25 per cent of the contract. Blank forms for proposals may be obtained at the office of Architect Joseph McGinniss, 112 Water street, Boston, on and after September 15, 1914. Bids, accompanied by a certified check in the amount of \$750, to be left at the office of the Trustees, City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, September 23, at 12 m.

Advertises for proposals for changes and additions to plumbing of East and West Pavilions, Domestic and Laundry Buildings, South Department. Surety bond will be required in an amount equivalent to 25 per cent of the contract. Blank forms for proposals may be obtained at the office of Architect Joseph McGinniss, 112 Water street, Boston, on and after September 15, 1914. Bids, accompanied by a certified check in the amount of \$300, to be filed at the office of the

Trustees, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, September 23, at 12 m.

PARK AND RECREATION DEPARTMENT.

The Commissioners of the Park and Recreation Department advertise for proposals for building a reinforced concrete and hollow tile elephant house in Franklin Park. Blank forms for proposals may be obtained at the office of G. Henri Desmond, 15 Beacon street, Boston. Bids, accompanied by a certified check in the amount of \$500, to be filed at the office of the Park and Recreation Department, 33 Beacon street, Boston. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, September 18, at 12 m.

PUBLIC WORKS DEPARTMENT (Paving Service).

Advertises for proposals for artificial stone sidewalks in Washington street, from Cambridge to Union streets; in Cambridge street, southerly side, from Washington to Warren street, Brighton. Surety bond will be required in the amount of \$2,500. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, September 14, at 12 m.

Advertises for proposals for furnishing and laying bitulithic pavement in Station street, between Columbus avenue and Parker street, Roxbury. Surety bond will be required in the amount of \$2,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, September 14, at 12 m.

Advertises for proposals for furnishing and laying bitulithic pavement in Prescott street, between Pleasant and Bakersfield streets, Dorchester. Surety bond will be required in the amount of \$1,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, September 14, at 12 m.

Advertises for proposals for bituminous macadam roadway in Rowe street, from Ashland street to Brown avenue, West Roxbury. Surety bond will be required in the amount of \$3,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, September 21, at 12 m.

Advertises for proposals for furnishing and laying bitulithic pavement in Washington street, between Armandine and Mora streets, Dorchester. Surety bond will be required in the amount of \$3,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the

amount of \$1,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, September 21, at 12 m.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Advertises for proposals for pipe sewers and drains in Huntington avenue, between Jefferson and Safford streets; Lockwood street, between Metropolitan and Huntington avenues, Hyde Park. Surety bond will be required in the amount of \$1,500. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, September 18, at 12 m.

SCHOOL COMMITTEE.

The School Committee of the City of Boston invite bids for furnishing and delivering lumber at the Mechanic Arts High School as per schedule. Surety bond will be required in the amount of \$500. Blank forms for proposals may be obtained at the office of William T. Keough, Business Agent of the School Committee, Room 801, City Hall Annex. Bids, accompanied by a certified check in the amount of \$100, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, September 15, at 12 m.

SCHOOLHOUSE DEPARTMENT.

Advertises for proposals for installing a domestic science room in the Hyde Park High School, Harvard avenue and Everett street, Hyde Park. Surety bond will be required in the amount of \$300. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 1007 City Hall Annex. Bids, accompanied by a certified check in the amount of \$100, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, September 18, at 12 m.

Advertises for proposals for installing a domestic science room in the Brighton High School, Cambridge and Warren streets, Brighton. Surety bond will be required in the amount of \$300. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 1007 City Hall Annex. Bids, accompanied by a certified check in the amount of \$100, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, September 18, at 12 m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending Thursday, September 10, 1914:

CHILDREN'S INSTITUTIONS DEPARTMENT.

Ellen F. McCarthy, rated as stenographer in the Placing Out and Office Division, has received an increase in salary from \$850 to \$900 the year.

Anna M. Callaghan, rated as stenographer and clerk in the Placing-Out and Office Division, has received an increase in salary from \$850 to \$900 the year.

Alice M. Adams, rated as visitor in the Placing-Out and Office Division, has received an increase in salary from \$750 to \$800 the year.

FINANCE COMMISSION.

Helen Campbell, visitor, has resigned, and Dorothy Whitley has been employed for a period of ten days, as visitor, at a salary of \$15 the week. Miss Whitley's employment began September 9, 1914.

FIRE DEPARTMENT.

John J. Coholan, rated as a clerk in the Fire Alarm Branch of the department, has been transferred to the position of clerk in the repair shop, to fill the vacancy caused by the transfer of Charles J. McCarthy, Jr., to the Auditing Department. Mr. Coholan will receive an increase of salary from \$850 to \$900 the year.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital during the past week:

To Fill Vacancies.

Permanent.—John Sodowski, house cleaner, re-employed, \$1 per day; Charles Celecki, house cleaner, \$1 per day; Annie Curley, chambermaid, \$15 per month; Gertrude Maguire, chambermaid, \$15 per month; Catherine Kenney, scrubber, \$5 per week; Eliza McGrory, scrubber, \$5 per week; Mary Norton, ward maid, \$16 per month; Sarah McEleney, ward maid, \$15 per month; Marian Nado, ward maid, \$16 per month; Arthur B. Searle, apothecary assistant, \$25 per month; Edna D. Haynes, laundress, \$16 per month; Grace McEachern, head nurse, re-employed, \$35 per month; Carolyn B. Ranger, nurse, re-employed, \$5 per month.

Temporary.—Dr. Walter T. Garfield, executive assistant, re-employed, \$100 per month; Fred Clarke, desk orderly, \$25 per month; Ethel Wheeler, Leonard Morse Hospital, \$9 per month.

The following employees have had increase of wages:

Austin A. Waldo, orderly, \$25 to \$30 per month; Anna J. Angus, nurse, \$8.33 to \$12.50 per month; Elizabeth M. Leary, kitchen woman at \$7 per week to temporary cook at \$9 per week.

INFIRMARY DEPARTMENT.

The pay rolls of this department for the week ending September 3, 1914, show the following changes:

Long Island Hospital.

To Fill Vacancies.—Mary F. Casey, nurse, \$10 per month; Rose S. McVeigh, nurse, \$10 per month.

Temporary Employment.—Florence E. Higgins, nurse, \$10 per month; Jennie M. Nelson, nurse, \$10 per month; Agnes B. Shea, nurse, \$10 per month.

The pay rolls of this department for the week ending September 10, 1914, show the following change:

Long Island Hospital.

Increase in Salary.—Alice M. Handrahan, nurse, \$10 to \$12 per month.

LAW DEPARTMENT.

Andrew A. Porter has been appointed assistant counsel in the office of the department, to serve as a special investigator in causes and to assist in the preparation of cases for trial.

The communication of Corporation Counsel Sullivan relative to the appointment of Mr. Porter is as follows:

CITY OF BOSTON,

LAW DEPARTMENT, September 9, 1914.

HON. JAMES M. CURLEY,

Mayor of Boston:

DEAR SIR,—With the approval of the Civil Service Commission, and subject to

your approval, I have this day appointed to the Law Department Andrew A. Porter of 64 Collins street, East Boston, as special investigator and assistant in the preparation of cases for trial, at a salary of \$2,000 a year.

This is nominally a new appointment, but in reality it is a continuation of the employment of Mr. Porter in the same capacity in which he has acted for this department for the last fourteen years. Under the former practice, which will end with this appointment, Mr. Porter has been paid on bills rendered to the Law Department and charged to the Reserve Fund and his annual compensation has been in excess of the amount now fixed. The appointment will result in increased expenditures by the Law Department but in reduced expenditures by the city and the system of accounting will also be improved.

Yours respectfully,

JOHN A. SULLIVAN,
Corporation Counsel.

PENAL INSTITUTIONS DEPARTMENT.

Daniel Scott, an officer at the House of Correction, Deer Island, has received an increase in salary from \$540 to \$600 the year.

Patrick Gorman has been appointed as a temporary fireman at the House of Correction, Deer Island, at a salary of \$720 the year.

PUBLIC BUILDINGS DEPARTMENT.

Michael Bath, rated as a fireman in the department, and assigned to the Roxbury Courthouse, has received an increase in wages from \$62.50 the month to \$84.50 the month.

William H. Harrison has been employed as laborer in the department, at a wage of \$2.50 the day.

PUBLIC WORKS DEPARTMENT.

Commissioner Louis K. Rourke is enjoying his annual vacation for a period of two weeks, and James H. Sullivan, Division Engineer of the Highway Division, is serving as Commissioner of Public Works *pro tempore*.

PUBLIC WORKS DEPARTMENT (Sanitary Service).

David F. Connors and Timothy J. Driscoll, rated as inspectors in the service, have mutually received an increase in wage from \$3 to \$3.50 the day.

John S. York, rated as a whitewasher in the department, has received an increase in wage from \$3 to \$3.50 the day.

STATISTICS DEPARTMENT.

The Trustees of the Statistics Department have elected John Koren, Chairman of the Board.

SUPPLY DEPARTMENT.

George E. Carroll, rated as clerk and stenographer in the department, has been discharged from the service.

James F. Casey, rated as temporary stenographer in the department, has been discharged from the service.

OVERTIME ALLOWED.

The heads of various departments whose employees have received payment for overtime state in connection therewith that if any laborer has been allowed to work more than eight hours per day it has been only in case of emergency under the law.

Election Department.

For the week ending Thursday, September 10, 1914:

Jacob B. Basch, assistant registrar, 1 evening at \$4, \$4; Alexander L. Brown, assistant registrar, 1½ evenings at \$4, \$6; William M. Humphreys, assistant registrar, 1 evening at \$4, \$4; George H. Norton, assistant registrar, 1 evening at \$4, \$4; John H. Quinlan, assistant registrar, 1½ evenings at \$4, \$6; Charles H. Snow, assistant registrar, 1 evening at \$4, \$4; Matthew F. Foley, assistant registrar, 1½ evenings at \$4, \$6; Thomas J. McMackin, assistant registrar, 2 evenings at \$4, \$8. Total, \$42.

Hospital Department.

For the week ending Thursday, September 10, 1914:

Main Department.—B. J. Sandiford, assistant engineer, 8 hours at \$0.43½ per hour, \$3.50; W. T. Slater, assistant engineer, 8 hours at \$0.43½ per hour, \$3.50; R. W. Jaeger, assistant engineer, 8 hours at \$0.43½ per hour, \$3.50; N. MacPherson, assistant engineer, 8 hours at \$0.43½ per hour, \$3.50; John Deery, assistant engineer, 8 hours at \$0.43½ per hour, \$3.50.

Public Works Department (Bridge Service).

McCarthy, stableman, 1 day at \$2.50, \$2.50; J. C. McCarthy, stableman, 1 day at \$2.50, \$2.50; J. Begley, repairer, 2 $\frac{1}{2}$ days at \$3, \$6.09; J. Breen, laborer, $\frac{1}{8}$ day at \$2.50, \$1.09; J. Broderick, emergency, 1 day at \$2.75, \$2.75; F. Cadigan, emergency, 1 day at \$2.75, \$2.75; M. Carney, emergency, 1 $\frac{1}{8}$ days at \$2.75, \$3.09; H. Campbell, repairer, $\frac{3}{8}$ day at \$3, \$1.31; D. Burke, laborer, 2 $\frac{1}{2}$ days at \$2.50, \$5.08; M. Daly, laborer, $\frac{1}{8}$ day at \$2.50, \$1.09; J. Doherty, emergency, 1 day at \$3, \$3; James Doherty, inspector, 1 day at \$3.50, \$3.50; P. Douglas, emergency, 1 day at \$3, \$3; M. Donahue, emergency, 1 day at \$2.75, \$2.75; M. Durand, inspector, 1 day at \$3.50, \$3.50; P. Feeney, inspector, 1 day at \$3.50, \$3.50; M. Fleming, laborer, 1 day at \$2.50, \$2.50; M. Grady, laborer, 1 $\frac{1}{8}$ days at \$2.75, \$3.09; P. Heffernan, repairer, $\frac{1}{4}$ day at \$3, \$0.75; J. Hourihan, laborer, 2 $\frac{1}{2}$ days at \$2.50, \$5.08; J. Kelly, emergency, 1 day at \$2.75, \$2.75; J. W. Kelly, laborer, $\frac{1}{8}$ day at \$2.50, \$1.09; R. Lambert, emergency, 1 day at \$2.50, \$2.50; J. Looney, emergency, 1 day at \$2.75, \$2.75; J. Lyons, laborer, 1 day at \$2.50, \$2.50; J. McCarthy, repairer, $\frac{1}{4}$ day at \$2.75, \$0.69; C. McKenna, emergency, 1 $\frac{1}{8}$ days at \$2.75, \$3.09; R. McLaughlin, emergency, 1 day at \$2.83, \$2.83; M. Mulkern, laborer, 1 day at \$2.50, \$2.50; M. Mulloy, laborer, $\frac{1}{4}$ day at \$2.50, \$0.31; W. O'Connor, inspector, 3 $\frac{1}{4}$ days at \$3.50, \$7.88; M. O'Day, laborer, $\frac{1}{4}$ day at \$2.50, \$0.63; T. Riley, laborer, 1 day at \$2.50, \$2.50; F. Saperstein, repairer, 1 day at \$3, \$3; W. Scanlon, repairer, 2 $\frac{1}{2}$ days at \$2.75, \$5.59; C. Sullivan, laborer, 2 $\frac{1}{2}$ days at \$2.50, \$5.08; W. Abbott, engineer, $\frac{1}{8}$ day at \$3, \$2.81; J. Horgan, machinist, $\frac{1}{8}$ day at \$2.75, \$1.20; W. F. Donovan, laborer, $\frac{1}{8}$ day at \$2.50, \$2.03; T. Hannon, laborer, 1 day at \$2.50, \$2.50; E. Hasenfus, plumber, 1 day at \$3.50, \$3.50; T. Murphy, laborer, $\frac{1}{8}$ day at \$2.50, \$2.03; J. J. Welch, plumber, $\frac{1}{4}$ day at \$3.50, \$0.88; H. Cauley, repairer, $\frac{3}{8}$ day at \$2.75, \$1.03; P. Coleman, laborer, 1 $\frac{1}{2}$ days at \$2.50, \$4.53; P. Carty, laborer, $\frac{1}{4}$ day at \$2.50, \$0.63; P. Cassidy, laborer, 1 day at \$2.75, \$2.75; J. Cunningham, laborer, 1 day at \$2.75, \$2.75; E. Dillon, laborer, 1 day at \$2.75, \$2.75; O. McDermott, laborer, $\frac{1}{4}$ day at \$2.50, \$0.63; J. McMahon, laborer, $\frac{1}{8}$ day at \$2.50, \$1.09; D. Buckley, laborer, 1 day at \$2.50, \$2.50; J. Concannon, laborer, 1 $\frac{1}{4}$ days at \$2.50, \$3.13; E. Gray, laborer, $\frac{1}{4}$ day at \$2.50, \$0.63; P. Halligan, laborer, $\frac{1}{4}$ day at \$2.50, \$0.63; J. McKenney, laborer, 1 $\frac{1}{2}$ days at \$2.50, \$3.75; J. McNulty, repairer, 1 $\frac{1}{4}$ days at \$2.75, \$3.44; P. J. McKenna, laborer, $\frac{1}{4}$ day at \$2.50, \$0.63; D. Shea, laborer, 1 day at \$2.50, \$2.50; A. Thompson, plumber, $\frac{1}{4}$ day at \$3.50, \$0.88; J. Welch, laborer, $\frac{1}{4}$ day at \$2.50, \$0.63; J. Cummings, repairer, $\frac{3}{8}$ day at \$3.50, \$1.31; T. Dolan, laborer, 1 day at \$2.50, \$2.50; P. McCarthy, laborer, 1 day at \$2.50, \$2.50; W. Regan, laborer, 1 day at \$2.50, \$2.50; J. Hayes, laborer, 1 day at \$2.50, \$2.50; N. McPhee, laborer, 1 day at \$2.50, \$2.50; E. Sullivan, laborer, 1 day at \$2.50, \$2.50; F. Skaynor, laborer, 1 $\frac{1}{8}$ days at \$2.75, \$5.33; J. Skaynor, laborer, $\frac{1}{8}$ day at \$2.50, \$1.09; J. Callahan, laborer, 4 $\frac{1}{8}$ days at \$2.75, \$11.52; J. McKeon, laborer, 4 $\frac{1}{8}$ days at \$2.75, \$11.52; D. Rull, plumber, 4 $\frac{1}{8}$ days at \$3.50, \$14.66; G. Coleman, instrument-

man, 2 $\frac{1}{8}$ days at \$1,140 per year, \$6.64; P. Kelly, inspector, 4 $\frac{1}{4}$ days at \$3.50, \$16.63; E. Godvin, rodman, 2 $\frac{1}{4}$ days at \$900 per year, \$5.55; W. Gallivan, rodman, 1 day at \$900 per year, \$2.46; D. Sullivan, rodman, 5 $\frac{1}{4}$ days at \$1,140 per year, \$16.40; A. McClure, inspector, 2 $\frac{1}{2}$ days at \$1,140 per year, \$7.81; P. Foley, inspector, 3 $\frac{5}{8}$ days at \$3.50, \$11.59. Total, \$292.70.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending September 10, 1914:

PUBLIC WORKS DEPARTMENT (Sewer Service).

Upon September 10 the Mayor approved a contract with John Guarino for pipe sewer and drains in Waterford street, between Washington street and a point about 167 feet northeasterly, city proper. Bids for the work, opened August 21, were as follows:

John Guarino, \$548.37; Martino De Mateo, \$669.12; T. F. Broderick, \$725.65; M. H. Kelley, \$749; Louis Balboni, \$775.70; A. E. Daddario, \$951.30.

Upon September 10 the Mayor approved a contract with Martino De Matteo for pipe sewer and drains in Station street, between Columbus avenue and Parker street, Roxbury. Bids for the work, opened August 24, were as follows:

Martino De Matteo, \$1,754.05; George J. Regan, \$1,879.70; Charles J. Jacobs Company, \$2,028.70; M. De Sisto, \$2,091.40; Timothy Coughlin, \$2,137.90; Antony Cefalo, \$2,196; Anthony Baruffaldi, \$2,396.80; McCarthy & Walsh, \$2,538.10; Louis Balboni, \$2,632.50.

Upon September 10 the Mayor approved a contract with Antony Cefalo for sewerage works in Barbara, Edgemont and Houston streets, and outlet in Montview, Roseliff and Kittredge streets, and outlet in Whitford and Clarendon streets and Hillside avenue, West Roxbury. Bids for the work, opened August 25, were as follows:

Antony Cefalo, \$7,497.50; John F. Lynch, \$8,000.85; William L. Dolan, \$8,334.90; Charles J. Jacobs Company, \$8,379.50; M. De Matteo, \$8,394.50; M. De Sisto, \$8,525.72; James Driscoll & Son Company, \$9,019.94; Anthony Baruffaldi, \$9,452.53; John Guarino, \$9,536.90; Charles R. Gow Company, \$10,516.05; James L. Byrne, \$10,663.

Upon September 10 the Mayor approved a contract with M. H. Kelley for pipe sewers in City square, between Main and Harvard streets, Charlestown. Bids for the work, opened September 3, were as follows:

M. H. Kelley, \$398.50; Louis Balboni, \$472.10; Thomas F. Broderick, \$499.42; Anthony Baruffaldi, \$591.01.

Upon September 10 the Mayor approved a contract with the C. J. Jacobs Company for pipe sewers and drains in Hunter street, between Norfolk and Norton streets, Dorchester. Bids for the work, opened September 2, were as follows:

C. J. Jacobs Company, \$1,393.10; T. Coughlin, \$1,444.58; J. L. Bryne, \$1,451.65; Alberta & Rosetta, \$1,455.19; Louis Balboni, \$1,467.10; W. L. Dolan, \$1,493.85; T. F. Broderick, \$1,532.81; George J. Regan, \$1,587.15; M. H.

Kelley, \$1,606.95; M. De Sisto, \$1,617.41; John Guarino, \$1,687.96; F. Drinkwater, \$1,696.01; Martino De Matteo, \$1,748.03.

Upon September 10 the Mayor approved a contract with Antony Cefalo for sewerage works in Mt. Hope street, Neponset avenue and Folsom and Jewett streets, West Roxbury. Bids for the work, opened August 25, were as follows:

Antony Cefalo, \$6,345.35; Martino De Matteo, \$6,378.30; William L. Dolan, \$6,580.75; F. Drinkwater, \$6,691.45; M. De Sisto, \$6,812.86; John F. Lynch, \$6,874.18; Louis Balboni, \$7,061; Charles J. Jacobs Company, \$7,593.85; Anthony Baruffaldi, \$7,704.92; John Guarino, \$7,768; John H. Broderick, \$7,990.40; James Driscoll & Sons Company, \$8,453.60; McCarthy & Walsh, \$8,907.25; James L. Bryne, \$9,898.

Upon September 10 the Mayor approved a contract with Louis Balboni for sewerage works in Huntington avenue and Riverway, between the Brookline town line and a point 750 feet northeast of Huntington avenue, Roxbury. Bids for the work, opened August 24, were as follows:

Louis Balboni, \$2,093.40; Charles J. Jacobs Company, \$2,139.10; M. De Sisto, \$2,425.20; Timothy Coughlin, \$2,566.64; Martino De Matteo, \$2,617.68; J. C. Coleman & Sons Company, \$2,759.90; McCarthy & Walsh, \$3,055.50; Antony Cefalo, \$3,339.20.

PUBLIC WORKS DEPARTMENT (Water Service).

Upon September 10 the Mayor approved a contract with the Coffin Valve Company for furnishing all the labor necessary in the assembling of 100 6-inch gates. Bids for the work, opened August 14, were as follows:

Coffin Valve Company, \$490.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts; also contracts for sidewalks.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

PUBLIC WORKS DEPARTMENT.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force, without advertising for competitive bids:

Resurface with asphalt macadam Bennington street, from Belle Isle inlet to 120 feet beyond Leverett avenue, East Boston. Estimated cost of labor and materials, \$8,000.

Resurface with asphalt macadam Saratoga street, from Butler to Washburn avenue, East Boston. Estimated cost of labor and materials, \$5,000.

Repave with granite block with pitch joints, gravel base, Friend street, from Washington to Sudbury street, city proper. Estimated cost of labor and materials, \$2,600.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by his Honor the Mayor:

PUBLIC WORKS DEPARTMENT (Paving Service).

A deduction, amounting to \$819, on contract with Jeremiah J. McCarthy

Company for asphalt macadam roadway in Ballou avenue, between Woodrow avenue and Willowwood street, Dorchester, on account of omitting artificial stone sidewalks and substituting crushed stone sidewalks. Original contract, \$12,424.35; total additions, \$524.50; total deductions, \$2,615.40; contract as standing, \$10,333.45.

An addition, amounting to \$15, on contract with Jeremiah J. McCarthy Company for asphalt macadam roadway in Ballou avenue, between Woodrow avenue and Willowwood street, Dorchester, on account of rebuilding catch-basins where directed. Original contract, \$12,424.35; total additions, \$539.50; total deductions, \$2,615.40; contract as standing, \$10,348.45.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$22.71, on contract with C. S. Cunningham & Sons Construction Company for work at the E. P. Tileston School. For repaving sunken portion of old driveway and bringing it up to the level of the new driveway. Original contract, \$66,700; total additions, \$6,345.46; total deductions, \$3,750; contract as standing, \$69,295.46.

An addition, amounting to \$138.60, on contract with Thomas H. Hanlon for work at the English High School. For repair and covering steam pipes in the lunch room in basement, \$77; also repair of cold air ducts by putting new fronts and ends on same, \$61.60. Original contract, \$1,440; total addition, \$138.60; contract as standing, \$1,578.60.

An addition, amounting to \$137.50, on contract with M. S. Kellihier for work at the Drake School. For ten doors, \$40; hardware, \$25; slate division and standard, \$20; painting, \$10; labor, \$30; 10 per cent commission, \$12.50. Original contract, \$1,369; total addition, \$137.50; contract as standing, \$1,506.50.

An addition, amounting to \$40, upon contract with Thomas H. Hanlon for work at Austin School, for furnishing nine cellar windows, heavy wire screens and painting same with lead and oil. Original contract, \$2,631; total addition, \$40; contract as standing, \$2,671.

An addition, amounting to \$247.31 on contract with the John F. Griffin Company for work at the Bennett District School, for performing extra foundation work. Excavation, 32½ yards at \$1.25, \$40.63; concrete foundation, 24 yards at \$7.50, \$180; blasting 6½ yards at \$4, \$26.68. Original contract, \$37,379; total additions, \$761.11; total deductions, \$712; contract as standing, \$37,428.11.

CONTRACTS FOR SIDEWALKS.

Upon September 10 the Mayor approved a contract for the construction of artificial stone sidewalks to C. C. Chisholm. The contractor is not selected by the city, but by the abutters, and the expense of construction is divided by the city and the abutters.

Upon September 10 the Mayor approved an award of contract for the construction of artificial stone sidewalks to John McCourt Company. The contractor is not selected by the city but by the abutters, and the expense of construction is divided by the city and the abutters.

CLAIMS.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Cyrene E. Young, in the amount of \$250 for damages occasioned her estate by the taking made for play-

ground purposes, upon Delhi street, Dorchester, and in confirmation of the order of the Board of Street Commissioners.

The Mayor has approved the claim of Patrick Ward, in the amount of \$114, for damages occasioned his estate in Calumet street, Roxbury, by the laying out of the street, and in confirmation of the order of the Board of Street Commissioners.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Irving Burrows, in the amount of \$350, for sewer assessment, in Arbutus street and Blue Hill avenue, Dorchester, paid inadvertently.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Mrs. L. McKay, in the amount of \$50, for damage occasioned property, 5, 7 and 9 Cottage terrace, Dorchester, caused by the backing up of sewer October 12, 1913.

APPEAL TO SECRETARY BRYAN.

Mayor Curley, upon the 8th instant, addressed an earnest message to Secretary of State Bryan, requesting that the exhibits designated by President Menocal of Cuba, and to be displayed at the Boston Domestic Science and Pure Food Exposition, October 5-31, inclusive, may be admitted to the United States free of duty.

Secretary McAdoo has ruled that there is no way in which the United States Treasury Department can aid the Republic of Cuba in the premises.

Mayor Curley's message to Secretary Bryan read as follows:

HON. WILLIAM J. BRYAN,

Secretary of State, Washington, D. C.:

Boston will open upon October 5 the largest food fair and domestic science exposition in the history of the nation. The Republic of Cuba, through President Menocal, has mutually joined in the success of the exposition. The benefit to accrue to Boston, Massachusetts and New England from a hygienic standpoint will be tremendous. Considering the generous character of the offer made gratuitously by the Republic of Cuba to aid the exposition, I will be grateful if you can issue a brief to the Senate and House, that the character of the present enterprise warrants the exhibits from Cuba, and which are a vital factor in the exposition, to be entered in the United States, free of duty. The time is very short and immediate action is imperative.

JAMES M. CURLEY,

Mayor of Boston.

CURTAILMENT OF INSURANCE RATES.

By HON. JOHN H. COLE, *Chairman of the Boston Industrial Development Board.*

"The Mayor has reason to be very much pleased with the result of his objection to the attempt of the underwriters to raise insurance rates in Boston.

"The change in the term rule was something to be expected inasmuch as it is placed in line with every other section of the country.

"The flat refusal of the underwriters to remove the 15 per cent increase placed upon certain sections of Boston property, after the San Francisco fire, was fought by the Mayor's committee and with excellent results.

"The agreement on the part of the underwriters to revise rates, and remove this increase at once, means a practical saving of over \$100,000 a year in insurance premiums to the business section of Boston."

FINANCE COMMISSION.

BOSTON, September 8, 1914.

To the Honorable the City Council:

GENTLEMEN,—The following order has been received from the City Council: "Ordered, That chapter 641 of the Acts of 1914, entitled 'An Act to Provide for the Reconstruction of Washington street in the West Roxbury District of the City of Boston'—be and the same hereby is accepted by the City Council of the City of Boston."

In connection therewith the commission respectfully submits the following report:

The matter of widening Washington street in the West Roxbury district, extending northerly from La Grange street, has been a matter of extended consideration by the Finance Commission in connection with previous acts of the Legislature and bills before legislative committees. The Finance Commission has recognized the urgent necessity of improving that portion of the street between La Grange street and Metropolitan avenue, but has been obliged to oppose previous legislative acts and bills authorizing such improvement on the ground that such bills contemplated an unnecessarily wide street with consequent excessive expense, and because the provisions of such bills placed an undue share of the expense of construction of the street on the City of Boston.

Two exhaustive reports have been submitted by the Finance Commission as follows:

1. A communication to the Mayor and City Council relating to the question whether chapter 527, Acts of 1910, requiring the construction as a state highway of a part of Washington street, West Roxbury, should be accepted by the City Council. This report, dated December 8, 1910, may be found on pages 175 to 192 inclusive, of Volume VI. of the Finance Commission's report for the year 1910.

2. Report to the Committee on Roads and Bridges of the Massachusetts Legislature in relation to the extension of Washington street, West Roxbury, as a state highway, contained on pages 53 to 55 inclusive, of Volume IX., Finance Commission's Report for the year 1913.

A reading of the reports referred to will show that the Finance Commission's objections to the improvement of the street were because it considered that the acts provided for a street of excessive width, and because an undue portion of the expense of the construction, as provided, would accrue to the City of Boston, rather than because it considered the improvement of the street unnecessary.

The commission believed that whenever the street was widened it should be constructed by the City of Boston under the act providing for laying out of streets by the Street Commissioners, chapter 393 of the Acts of 1906, and that a width of 60 feet, including sidewalks, would be sufficient for the demands of future traffic.

The principal reasons for the commission's recommendations are given in the reports above referred to, and there seems to have been no recent developments to warrant a change in the commission's recommendations.

There is, however, a particular reason which has not been mentioned in any of the previous reports of the Finance Commission, why the portion of the street whose widening is contemplated in the act under consideration should not be as great as for other parts of the street, especially those portions between La

Grange street and the Dedham line, and between Forest Hills and South and Ashland streets.

The portion of the street between Ashland and La Grange streets, which includes the portion in question, has no connecting thoroughfares which contribute materially to the traffic. It has unavoidably steep grades, so that teaming and automobile traffic will take other routes between the points mentioned if possible. As a result, much of the traffic of Washington street enters the street through La Grange and Grove streets, and when the proposed parkway through West Roxbury is constructed it will enter Washington street at the corner of La Grange street. It is clear that this parkway will divert practically all pleasure vehicle traffic from that portion of Washington street, north of La Grange street.

The only authority conferred by the act under consideration, beyond that already possessed by the city under chapter 393 of the Acts of 1906, is the power to take a portion of the park lands near the corner of La Grange street. The city already owns the land which will allow the construction of the street at a width of 60 feet without taking such park lands.

The commission recommends that the act under consideration be rejected and that the portion of Washington street in question be constructed under the general law, chapter 393, of the Acts of 1906, with a width of 60 feet, and that an appropriation for the work be made by the City Council whenever money is available.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN R. MURPHY,
Chairman.

BOSTON, September 9, 1914.

HON. JAMES M. CURLEY, Mayor:

SIR,—The Finance Commission reports as follows on the complaint made to your Honor by Michael Meehan, that the Boston Transit Commission has awarded a contract (for enlarging the Park Street Subway Station) to Coleman Brothers for \$8,873 more than he, Michael Meehan, had bid for doing the same work.

As a result of interviews with members of the Transit Commission and its chief engineer, and a brief filed with the contract by the Transit Commission, the Finance Commission finds the reasons for awarding the contract to Coleman Brothers to be as follows:

1. The time of completion in the bid of Coleman Brothers, December 1, 1914, is fifteen days earlier than the time named by Mr. Meehan, December 15, 1914.

2. The contract is of a nature requiring great care and skill in order not to interfere with the present subway traffic. The Transit Commission believed that the greater experience of Coleman Brothers in subway work would enable them to do the work with less interruption of traffic than if done by Mr. Meehan.

3. Mr. Meehan's bid is unbalanced, one of the items at least being much lower than the cost of doing the work called for under the particular item.

4. The experience of the Transit Commission with Mr. Meehan's firm, as regards previous contracts, has not been satisfactory.

The Finance Commission further finds that the Transit Commission desired to have all the necessary work completed in connection with the Park Street Station, so that the station could be used during the rush of the Christmas holidays. The forfeit by the contractor for not

finishing the work at the specified time, under the terms of the contract, was at the rate of \$100 a day, which for fifteen days would amount to \$1,500; whereas the amount which would have been saved had the contract been awarded to the lowest bidder would have been \$8,873. It appears that the financial effect of the delay, as estimated by the Transit Commission, was not as much as the difference between the bid of the lowest bidder and the bid that was accepted.

The contract is undoubtedly of a nature which requires great care and skill by the contractor to maintain the traffic of the Elevated Railway while changes are in progress. Coleman Brothers, on account of long experience in subway work, have had more experience than has Mr. Meehan, and they have a force of trained men available for the work.

The contention that Mr. Meehan's bid is unbalanced is technically true. This was probably a mistake on Mr. Meehan's part. The low cost of two of the items in the bid is offset by the amount bid for the other items.

It is true that Mr. Meehan has had differences with the Transit Commission in his performance of previous contracts, but those troubles between the Transit Commission and the former firm of Jones & Meehan appear to have been settled amicably.

The Boston Transit Commission had three courses of action open to it; first, it could have accepted Meehan's bid; second, it could have rejected all bids and readvertised the contract; third, it could have done as it did, awarded the contract to Coleman Brothers.

The Finance Commission is of the opinion that the better course would have been to have called for new bids, but, as the ultimate cost of the work is to fall upon the Boston Elevated Railway Company under the terms of its lease, as that company has not entered a protest against the action of the Transit Commission, and as the Transit Commission had a substantial reason for its decision, the Finance Commission does not believe that the interests of the city require any action on its part in this instance.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN R. MURPHY,
Chairman.

FIRE DEPARTMENT ORDERS.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, September 8, 1914.

General Orders No. 123.

I. NEW FIRE ALARM BOXES.

1. The following new fire alarm boxes will shortly be established:

Box 896.—Allston Theater, connected into circuit No. 14; assignments will be the same as for box 813.

Box 1335.—Somerset and Allston streets, connected into circuit No. 3; assignments will be the same as for box 1334.

Box 2627.—Bellevue street and Howitt road, connected into circuit No. 23; assignments will be the same as for box 551.

II. COMMENDATIONS.

1. Hoseman John F. Horgan of Engine Company 27 is hereby commended for responding to an alarm from box 424, August 27, 1914, while on a day off.

2. Ladderman William H. D. Nichols of Ladder Company 22 is hereby commended for responding to an alarm from box 493, August 28, 1914, while on a day off.

3. Lieut. Dennis J. Bailey of Ladder Company 10, Ladderman Thomas E. Flannagan of Ladder Company 4 and Ladderman James A. Wall of Ladder Company 12 are hereby commended for responding to and working at the three-alarm fire, box 216, August 28, 1914, while on a day off.

4. Machinist William H. Baldwin of the Repair Division is hereby commended for responding to and working at the three-alarm fire, box 216, August 28, 1914, while off duty.

5. Hoseman James Wall of Engine 11 is hereby commended for responding to an alarm from box 614, August 31, 1914, while on a day off.

By order of the Fire Commissioner,
PETER F. McDONOUGH,
Chief of Department.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, September 9, 1914.

General Orders No. 126.

I. TRANSFERS.

1. The following transfers are hereby announced to take effect at 10 a. m., Friday, September 11, 1914:

James H. Lettmann, from Engine 18 to Engine 34.

Philip S. Bates, from Engine 34 to Engine 18.

Thomas W. Devney, from Engine 45 to Chemical 13.

Thomas F. McGowan, from Chemical 13 to Engine 45.

Joseph O. Allen, from Engine 24 to Engine 28.

Thomas Finneran, from Engine 28 to Engine 24.

II. COMMENDATION.

1. Ladderman James J. Smith of Ladder Company No. 28 is hereby commended for responding to an alarm from box 1211, September 7, 1914, while on a day off.

By order of the Fire Commissioner,
PETER F. McDONOUGH,
Chief of Department.

THE POTATO.

BY CAPT. JOHN H. DILLON, *Chairman
Park and Recreation Department.*

The potato, botanically *Solanum Tuberosum*, is kindred to the narcotic family, all of which contain poisonous matter to a certain degree. It is the most cultivated and valuable of all the edible tubers, and is a native of South America. The potato was introduced into Spain from Peru about the sixteenth century. In the year 1586 the chronicler says the potato was introduced into England. Soon after 1772 it was known in Germany as a field crop, and was found to be a very welcome substitute for the bread corn, owing to the failure of the German grain crops. About 1840 the potato became the great field crop of Ireland, as the returns were greater than any other crop on an equal amount of land; and the potato being the principal crop sown when the blight came on them in 1846, the result was the three great famine years of Ireland, which almost depopulated the island.

The very many ways in which the potato is served as a diet, and its easy culture now in almost every land, causes the potato to take rank amongst the very first of the food producing vegetables, and an excellent starch is produced from the tubers, as also a fair brand of liquor.

HEALTH DEPARTMENT.

The following is a summary of the work done by the different divisions of the Department for the week ending September 5, 1914:

COMMUNICABLE DISEASES.

Number visits by inspectors.....	73
Number visits by nurses.....	203
Vaccination.....	212

Complaints investigated.....	250

NEW LIGHTING CONTRACT CONSIDERED.

Mayor Curley, upon the 8th instant, submitted a statement to the members of the City Council, relative to a tentative contract for the lighting of the city by the Edison Electric Illuminating Company. The Mayor declared:

"I feel that in this new draft every reasonable objection has been met and that the new form of contract should receive the approval of the City Council. If the contract should be terminated the city would then begin to pay immediately \$108.54 for such lamps.

"In the new contract the price is \$87.53, the same price as that in the contract recently rejected by the City Council, but the highly important provision is added that within ten days of the approval of the contract the city and the company shall jointly request the Board of Gas and Electric Light Commissioners to investigate and decide whether the prices named in the contract for the various kinds of lamps are fair, taking the schedule of prices as a whole, it being provided that if the Gas and Electric Light Commissioners shall find a fair price to be less than the price named in the contract, the fair price as thus determined shall be substituted for the contract price.

"This ought to settle all questions regarding the fairness of the price, and at the same time it will give the city immediately a price \$16.01 less than the price now paid for the large lamps and \$21 less than the price which the city would have to pay at once if the existing contract should be terminated by notice.

"After the contract price is established by the Gas and Electric Light Commissioners, further reductions will be made whenever the cost of furnishing the service is reduced, the city getting two-thirds of the savings effected and the company one-third. This clause has been made clearer in the new draft.

"Another provision to which objection was made was that the arbitrations on the question of the reduction in the cost of furnishing the services were to be conducted by a professor of Harvard University, a professor of Technology and a third to be chosen by the first two named.

"Some members of the Council believed that the city should be free to select any person as an arbitrator, likewise the company, and that the third member should be chosen by the first two appointed. This latter provision for arbitration is provided in the new draft.

"Another provision has been made in the new draft, increasing the amount of the deductions made for lamps which go out in service. In the old draft there was a reduction of 1 cent an hour for each incandescent lamp, but as the contract provides for high power incandescent lamps a new provision has been inserted, fixing a deduction of 1 cent an hour on all lamps of 100 candle power or less and 5 cents an hour for all other lamps, thereby taking care of the larger incandescent lamps.

"In the new draft the contract may be terminated in ten years provided six months' notice is given by the city or the company, and if notice is not given then the contract shall run on for six months after the date when such notice is given.

"While I cannot give any assurance that the contract as redrafted will be accepted by the Edison Company I feel certain that the company will agree to the conclusions I have suggested, providing I can show to the company that the Council is ready to take up the consideration of the question in a businesslike manner and promptly dispose of it."

A SERIOUS PROBLEM OF UNEMPLOYMENT.

Mayor Curley received during the week a copy of the report of Brig.-Gen. Daniel C. Kingman, U. S. A., Chief of the Office of Engineers, Department of War, Washington, relative to the problem of unemployment that will result in the failure to enact the River and Harbor Bill of 1914.

Mayor Curley said:

"The serious character of the economic problem involved in failure to pass the River and Harbor Bill, now pending in Congress, is but little understood in Boston and New England.

"The estimates prepared by the statisticians in the office of General Kingman show that if the present measure is not passed about 30,000 persons will be thrown out of employment October 1, or in exact number, 29,169, with later additions to be supplemented to the list.

"These men are employed as engineers, inspectors, foremen and laborers of all classes, skilled and unskilled, and if we assume the average family as consisting of five persons, we have nearly 150,000 deserving persons who will vitally suffer in the event that a furlough comes to pass by failure of enactment of the River and Harbor Bill.

"With half the world engaged in a war of conquest, involving hundreds of thousands of men, it is manifestly the duty of the American nation in this hour of emergency to increase the earning force and capacity of our wage earners rather than allow any curtailment of industry.

"I desire to call particular attention to the fact that the question of unemployment is by no means the only economic factor involved in the present situation.

"Every form of business that has to do with the countless branches of trade engaged in the construction of locks and dams upon our waterways, the deepening and widening of rivers, the improvement of harbors, the dredging of channels, the revetment of banks, all will suffer tremendously by the inactivity of Congress provided this bill fails to pass.

"I further desire to call particular attention to the fact that had the River and Harbor Bill passed Congress prior to June 30, 1914, nearly 45,000 men would now be provided a means of industry.

"The situation now before Congress involves a tremendous wage earning problem, country wide in its significance, and it is pre-eminently the duty of every Boston citizen who has a due and just regard for the commercial interests of our city and country to write Senator Weeks and Congressman Gallivan and urge them to lend every effort within their power, mutually, to secure the enactment of the important measure now within their keeping.

"A serious loss will result to the entire North Atlantic Coast, and at a most

inopportune hour, for by reason of the war abroad food prices have so far advanced that the average wage earner has difficulty to provide for his family under present conditions, to say nothing of adding 30,000 idle men to the already large force of deserving men who are unable to find a means of employment.

"It is the manifest duty of the United States Government in the present crisis to promote every possible public work with a renewed vigor insofar that the economic problem may be lessened in its severity."

OUR TRADE WITH PAN-AMERICA.

Hon. Albertus H. Baldwin, Chief of the Bureau of Foreign and Domestic Commerce, Washington, sends the *City Record* a very interesting summary of our trade with Pan-America for the fiscal year 1914.

He declares:

Trade of the United States with other American countries in the fiscal year ended June 30, 1914, aggregated \$1,303,000,000, or 33 per cent below the high record of 1913, and constituted 30 per cent of the entire commerce handled by domestic ports. Of this large New World commerce \$956,000,000 was with North America and \$347,000,000 with South America.

Our imports from North American countries, valued at \$427,000,000 in the fiscal year, were chiefly from Canada, Cuba, Mexico, the Central American States and the British West Indies. Our exports to North American countries, \$529,000,000 in value, were chiefly to Canada, \$345,000,000; Cuba, \$69,000,000, and Central America and Mexico, each about \$39,000,000. The United States supplies a larger proportion of the leading countries of North America than any other nation, and in the case of Canada, Central America and Cuba more than all other parts of the world combined.

Of our \$223,000,000 worth of imports from South America, nearly one-half were from Brazil, about 20 per cent from Argentina, and the remainder chiefly from Chile, Colombia, Venezuela and Peru. The notable features of this trade were the large and increasing shipments of Argentine beef into the domestic market (59,000,000 pounds in the first nine months following the transfer of meats to the free list) and the enlarged arrivals of Brazilian coffee (74 per cent of our entire supply) at substantially lower prices. Nearly one-fourth of our total exports of \$125,000,000 value to South America went to Brazil and over one-third to Argentina. In sharp contrast with the high position of the United States in the North American markets is its low rank among the nations selling goods in South America, where, in the case of such important countries as Argentina, Brazil and Chile, only about 15 per cent of the imports were from this country. South America, as a whole, imported in 1912 over \$965,000,000 worth of foreign goods, our share being about 14 per cent.

The relatively small contributions of American manufacturers and exporters to the requirements of the South American markets draw attention to the publication of Commercial Agent Otto Wilson outlining the conditions necessary for the successful sale of goods, the lines of manufactures required in South America, and the standing of the leading nations as contributors to those requirements. It is pointed out, for example, that Argentina imports large quantities of manufactures of the class produced in the United States, but that the United Kingdom and

Germany supply more of them, as a whole, than this country, while France sells there five times as many automobiles, Germany twenty times as many iron beams and three times as many cotton goods, and England twenty-five times as much coal and twice as much machinery in that market as the United States. This disparity in favor of European countries extends to many other articles and practically all countries of South America, each of which is interestingly discussed in the monograph named.

A mere enumeration of a few of the principal articles imported by Brazil will serve to illustrate the opportunities that await American exporters in that and other South American fields: Arms and ammunition, cars, automobiles, cotton goods, pharmaceutical preparations, electrical apparatus, cutlery, machinery, leather, printing paper, perfumeries, tin plate, soap and wearing apparel, all of which are bought in large quantities and in practically every case are obtained more largely from England, Germany and France than from the United States. The Daily Consular and Trade Reports are also presenting cable dispatches from South America that indicate the special needs of those markets, due to the cutting off of supplies from Europe.

STREET COMMISSIONERS.

The Mayor has approved the order of the Board of Street Commissioners, in the taking for schoolhouse purposes, a parcel of land in Athens street, South Boston, belonging to Ada T. Hayden, and containing 739 square feet of land, more or less. Damages are awarded for the taking of the said land in the amount of \$2,000.

The Mayor has formally approved the order of the Board of Street Commissioners as follows:

The Board determines that the undermentioned estates sustain damages by the making of the public improvement consisting of the widening of Washington street, Boston proper, as a highway, between Warrenton and Pleasant streets in the amounts hereinafter respectively set against them, and awards said amounts therefor.

William White, 138 square feet.....	\$9,048 00
William White, trustee under the will of John C. Hubbard, 133 square feet....	7,128 00
Fred F. Blanchard, trustee of the Associated Trust, 272 square feet.....	13,352 00
Fifty Associates, 245 square feet.....	7,400 00
	<u>\$36,928 00</u>

The Board estimates that the estates hereinafter specified are all the estates which will receive benefit or advantage from the improvement above specified, beyond the general advantage to all real estate in said city, each to the amount hereinafter set against it.

Lot.	
1. Edward L. Bartlett.....	\$989 10
2. Fifty Associates.....	1,584 45
3. Fred F. Blanchard, trustee of the Associated Trust.....	1,662 30
4. William White, trustee under will of John C. Hubbard.....	916 65
5. William White.....	648 00
6. Herbert Nash, trustee of the John Flint Estate.....	675 00
	<u>\$6,475 50</u>

The Board finds the amount hereinafter set against the undermentioned estate to be, in the opinion of the Board, a just estimate of the amount that should be paid to said estate for the damage occasioned it by the taking made for schoolhouse purposes on Ceylon street, Dorchester.

Dora O. Thompson, 452 square feet....	<u>\$150 00</u>
---------------------------------------	-----------------

BOSTON REAL ESTATE MARKET INJURED.

Activities in the local real estate market contracted materially in August as a result of the war. The value of mortgages recorded at the Suffolk Registry of Deeds for that month shrunk to less than half the July total. Actual figures were \$3,542,112 in August, compared with \$7,698,735 in July. Only in one other month of the year so far—February—did the amount fall below \$5,000,000.

Neither the number of real estate transfers nor number of mortgages decreased in proportion to the value of mortgages. There were 1,845 transfers recorded, compared with 2,158 in July and 1,583 a year ago. Mortgages recorded numbered 891, against 1,112 in July and 761 in the same month a year ago. The figures show that the total value of mortgages dropped in August, largely as the result of a reduction in average value, as will be noted from the table following:

MONTH, 1914.	Transactions.	Mortgages.	Value of Mortgages.	Average Values.
August.....	1,845	891	\$3,542,112	\$3,975
July.....	2,158	1,112	7,698,735	6,923
June.....	2,360	1,225	6,501,812	5,307
May.....	2,267	1,175	7,824,466	6,659
April.....	2,047	1,004	6,560,793	6,534
March.....	2,013	990	8,918,702	9,069
February.....	1,610	842	4,889,890	5,807
January.....	1,972	988	5,173,972	5,236
August, 1913.....	1,583	761	5,279,187	6,937
August, 1912.....	2,032	1,004	5,049,580	5,029
August, 1911.....	2,086	1,041	6,044,318	5,806

The drift towards smaller average mortgages continues. For the first week of September 248 mortgages were recorded of a total value of \$814,909, or an average

of \$3,285. The average for the same week of 1913 was \$4,444, and for the same week of 1912, \$5,941.

APPOINTMENTS AND CONFIRMATIONS.

APPOINTMENT.

September 9, Carl Gerstein, to be a member of the Board of Appeal.

SALE OF MUNICIPAL BONDS WILL REVIVE.

The large and ever-growing list of municipal bond offerings which since the war have failed to elicit bids places that class of securities in undeserved notoriety. Municipal bonds have been the recipients of a good deal of unwelcome publicity, when as a matter of fact, all borrowers—government and private—are in the same boat. If the financial transactions of private corporations were consummated under the white light of publicity it would probably be found that many would-be borrowers have been disappointed in recent weeks. That so many municipal issues have failed is explained by a special set of circumstances. The investment houses, which are the wholesalers of municipals, are taking an enforced holiday. For the good of the financial situation no general efforts to sell bonds are being made, and naturally enough no new issues are being purchased. The object is to reduce rather than increase loans.

It may be accepted as fact that the disinclination of bankers to buy municipals, as evidenced in the past few weeks, is entirely unrelated to the question of security. Capital is worth more than it was in July, and may be worth more in the future, yet it would be a mistake to consider that any decline in municipal bonds which takes place during the readjustment reflects any undermining of their security. Until trading in bonds begins on something near a normal scale no one can give with exactitude the market on municipal bonds.

BOSTON'S RANK AMONG AMERICAN CITIES.

First in value of property per capita, first in municipal assets per capita, first in banking power per capita, the first shoe and leather center, the first wool market, the second importing seaport, the second textile center, third in amount of bank clearings, the fourth postal district, fourth (close to third) in total assessed valuation, fifth (close to fourth) in population, the fifth exporting seaport, and seventh in the value of its manufactures.

WATER SERVICE, PUBLIC WORKS DEPARTMENT.

Miles of supply and distributing mains, \$25.44 on February 1, 1914; number of fire hydrants, 8,858. Total receipts for year 1913, \$3,014,600, or \$36,790 more than in 1912; cost of maintenance for 1913, \$899,339 (including extension of mains), or \$64,267 more than in 1912; Metropolitan assessment for 1913, \$1,842,128, or \$50,004 more than in 1912. Daily average amount of water used during 1913, 79,390,600 gallons (i. e., 10,646,900 gallons less daily than in 1912) or 108 gallons per capita; net water debt, February 1, 1914, \$532,187, or \$116,071 less than in 1913.

CITY OF BOSTON.

PROPOSALS FOR ELEPHANT HOUSE.

Proposals on blanks obtained at the office of G. Henri Desmond, Architect, 15 Beacon street, for building a reinforced concrete and hollow-tile elephant house on Franklin Park, signed by bidder and left before 12 o'clock a. m. of Friday, September 18, 1914, at the office of the Park and Recreation Department, 33 Beacon street, with a certified check for \$500, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the bids. The commissioners reserve the right to reject any or all proposals.

JOHN H. DILLON,
CHARLES GIBSON,
THOMAS F. GALVIN,

(Sept. 12.) Park and Recreation Commissioners.

CITY OF BOSTON.

TO CARPENTER CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for installing a domestic science room in the Hyde Park High School, Harvard avenue and Everett streets, Hyde Park, Mass., and giving bond of a surety company therefor in the sum of \$300. Only proposals obtained at the office of the commissioners, tenth floor, City Hall Annex, signed by the bidder and left before 12 o'clock m. of Friday, September 18, 1914, at said office, with a certified check for \$100 payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

J. P. LOMASNEY,

Castlegate road, from Blue Hill avenue to Normandy street.
Ronald street (formerly Bowdoin avenue), from Brinsley street southeasterly.

ROXBURY.

Langdon street, from George street to Norfolk avenue.

Notice is hereby given that the Public Works Department is about to do the work contemplated in said orders, and that all work to be done in said highways by all persons or corporations having rights in the same to lay or repair either sewer, gas, water or other pipes must be done before Friday, October 16, 1914, as after that time no permits for openings will be granted until two years after said highways are completed.

L. K. ROURKE,
Commissioner of Public Works.
Boston, September 10, 1914.
(Sept. 12-19-26, Oct. 3.)

CITY OF BOSTON.

PROPOSALS FOR BITUMINOUS MACADAM ROADWAY IN ROWE STREET, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for bituminous macadam roadway in Rowe street, from Ashland street to Brown avenue, West Roxbury, and giving bond therefor of a surety company approved by the Commissioner in the sum of three thousand dollars (\$3,000), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Bituminous Macadam Roadway in Rowe Street," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Monday, September 21, 1914, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, September 10, 1914. (Sept. 12.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWERS AND DRAINS IN HUNTINGTON AVENUE AND LOCKWOOD STREET, HYDE PARK.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for pipe sewers and drains in Huntington avenue, between Jefferson and Safford streets; Lockwood street, between Metropolitan avenue and Huntington avenue, Hyde Park, and giving bond therefor of a surety company approved by the Commissioner in the sum of fifteen hundred (\$1,500) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Pipe Sewers and Drains, Huntington Avenue and Lockwood Street," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Friday, September 18, 1914, with a certified check for five hundred (\$500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, September 10, 1914. (Sept. 12.)

CITY OF BOSTON.

PROPOSALS FOR FURNISHING AND LAYING BITULITHIC PAVEMENT, WASHINGTON STREET, DORCHESTER.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for furnishing and laying bitulithic pavement in Washington street, between Armandine and Mora streets, Dorchester, and giving bond therefor of a surety company approved by the Commissioner in the sum of three thousand dollars (\$3,000), to secure the due performance of the contract and the full protection of the city. Only proposals obtained at said office, filled out, signed by the bidder, and left at Room 511, fifth floor, City Hall Annex, before 12 o'clock m. of Monday, September 21, 1914, with a certified check for one thousand dollars (\$1,000), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The contractor will furnish his own specification and attach same to the proposal. The Commissioner reserves the right to reject any or all proposals or to award the contract as he may deem in the best interests of the city. If the price of any item appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Bitulithic Pavement, Washington Street."

L. K. ROURKE,
Commissioner of Public Works.
Boston, September 10, 1914. (Sept. 12.)

A CLEAN CITY.—CLEAN STREETS.

BY MISS EMILY L. FANNON, *Freshman Class, South Boston High School.*

We have all joined in a great campaign, that is, the cleaning of our city streets, houses, yards, and so forth.

Dirty streets are a disgrace to any city. They lower the reputation of the people holding offices, and also of the people who voted for them. Clean streets are not only hygienic, but also add to the beauty of a city, make people care more for the beauty of a city in nature and in everything. To have healthy citizens we must have clean streets, for as in the most crowded parts of our city children have no other playgrounds than the streets, therefore they should be kept clean. In other words, the streets are the only obtainable breathing places for both old and young. The filth in a dirty street

contains thousands of germs which spread disease.

We have many street cleaners in our city. Each street cleaner is provided with a large, coarse broom with which he sweeps the dirt into piles. These piles are then thrown into wagons. The late Colonel Waring of New York suggested the use of bags instead of cans for the cleaning of streets, because, when the bag is full, it can be tied up and then the dirt will not fly around.

We must also get rid of garbage, rubbish, ashes, and so forth. We have men go around to collect these because they spread disease. Snow is another nuisance, but we manage to have that taken away and dumped into the harbor.

The streets of Paris are extremely clean, because instead of sprinkling the streets they flood them with water very early

every morning. In 1853, when modern Paris was beginning, a rule required thorough cleansing of the streets every day. That it might not lay too heavily on the people, the city undertook to do part of it, until, little by little, the citizens of Paris found themselves doing the whole of the street cleaning.

In Glasgow the cleaning of streets, collecting of garbage, and so forth, is under charge of the inspectors of dwellings. Munich and other different cities have different ways of cleaning their streets.

Colonel Waring also suggested that the street cleaners should wear neat, white uniforms, which dignify their work and also increase their respect for themselves.

The expense of a clean city may be a little more but it is well worth it, from its healthful effect.

So let us all work for a bigger, better and cleaner Boston with our motto, like the Star of the East, shining out, "Cleanliness is next to godliness."

A CLEAN CITY.—REQUIREMENTS.

BY MISS LILLIAN M. HANRAHAN, *Freshman Class, South Boston High School.*

A clean city is absolutely necessary for the establishment and maintenance of good health to the people.

A proper sanitary regulation should be one of first consideration of any community for its own health and convenience, that the death rate may be diminished to a minimum.

A city cannot be termed clean until its inhabitants are afforded proper housing in well ventilated, spacious homes containing bath facilities.

Where such modern structures do not prevail, complete destruction of the old and substitution of the new should be the fact.

A clean city presupposes clean streets, totally and constantly freed from all rubbish and the usual city street dust. The streets should be properly and modernly constructed to aid cleanliness. They should be cleaned often and systematically. A sufficient amount of men should be employed for this purpose as clean streets are absolutely necessary. The streets should be flushed with water at least once a week. Salt water could be pumped from harbors in coast cities.

A city to be clean should prohibit the use of cushion seats in street cars; should require floors of all street cars to be properly cleaned and flushed with water sufficiently to keep them constantly clean. It should require a proper ventilating system on all closed cars.

A city to be clean should demand all steam railroads to use electricity instead of steam within city limits.

A city to be clean should have an active and sufficiently large Board of Health to exercise due care that all meat, milk, etc., are pure and wholesome and should demand a thorough system of factory inspection and the enforcing of all sanitary laws.

BOSTON BANK STATISTICS, 1914.

Bank clearings or exchanges in year, 1913, \$8,116,213,999, a decrease from 1912 of \$847,594,531, or 9.46 per cent. Number of national banks, 17, with \$28,700,000 capital and \$35,011,345 surplus and undivided profits; trust companies, 24, with \$17,450,000 capital, and \$29,412,910 surplus and undivided profits, nine trust companies each have a savings department, with deposits amounting to \$6,740,424; savings banks, 22, with \$273,924,995 deposits; cooperative banks, 31, with \$17,832,315 assets.

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announce an open competitive examination for district inspector, under the migratory bird law, for men only, on September 16, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Biological Survey, Department of Agriculture, for service in the field, at \$1,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Vacancies exist in districts 4, 5, 8, 9, 10, 11 and 12, covering the following states: Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Mississippi, Montana, Nevada, New Mexico, North Dakota, Ohio, South Carolina, South Dakota, Tennessee, Texas, Utah and Wyoming.

The duties of district inspector will be general supervision of the migratory bird wardens, appointed for the district, cooperating with local authorities in protection and propagation of game and diffusion of information regarding conservation of wild life.

The commission invites attention to the fact that in addition to the districts for which the open competitive examination for district inspector, under the migratory bird law, for men only, is to be held on September 16, 1914, this examination will also be held for District 1, which comprises the states of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island and Connecticut. Legal residents of these states will therefore be admitted to the examination upon filing applications in due time showing them to be eligible.

The scope and character of and requirements for this examination, as well as the list of places at which it will be held, are contained in original Announcement No. 780, a copy of which, together with the proper application form, may be obtained from the United States Civil Service Commission, Washington, D. C., or from the Secretary of the First Civil Service District, Post Office, Boston, Mass.

The commission invites attention to the open competitive examination for rodman and chainman, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in these positions in the Interstate Commerce Commission under the act providing for the valuation of the property of common carriers, at salaries ranging from \$720 to \$1,080 per annum, with necessary expenses when absent from headquarters in the discharge of official duties, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce that applications will be accepted at any time for the examination for office helper (typewriter) at Watertown Arsenal, Watertown, Mass., from both men and women. Examinations will be held at Room 141, Post Office Building, Boston, Mass., whenever it becomes necessary to provide eligibles. Persons who apply will be notified of the date of examination. As a result of this examination vacancies will be filled as they occur in the position of office helper, qualified in typewriting, in the Watertown Arsenal, Watertown, Mass.

The usual entrance salary is \$480 a year. The duties of the position are routine clerical work, requiring ability to use the typewriter.

The commission announce an open competitive examination for expert radio aid, for men only, on September 16, 1914. From the register of eligibles resulting from this examination certification will be made to fill one vacancy in this position at \$6 per diem in the Navy Yard, New York, N. Y.; five vacancies at either \$8 or \$6 per diem in the Navy Yards at Boston, Mass., Philadelphia, Pa., Norfolk, Va., Charleston, S. C., and Puget Sound, Wash.; and vacancies as they may occur in positions requiring similar qualifications, throughout the United States, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of these positions will be: To direct and assist in the laboratory tests of all circuits, instruments and apparatus pertaining to and used in radio signaling; the practical installation, repair and adjustment of radio apparatus both in shore stations and in ships; the development and design of special apparatus and methods of radio signaling suited to special conditions, and of new forms of sending and receiving circuits; to analyze the data which may accrue from observations of the operation of different radio installations and to plan and execute experimental investigations as indicated; to inspect the various radio stations when called upon and to make the necessary measurements of their electrical constants; and, in general, to carry out advanced technical work in radio research, design and development and practical work in construction and repair of radio apparatus. They will be required to prepare technical reports of inspections, tests and research work.

The commission announce an open competitive examination for statistical editor, for both men and women, on September 16 and 17, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at an initial salary ranging from \$1,200 to \$1,400 a year, in the Children's Bureau, Department of Labor, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

This position affords excellent opportunity for entrance into the field of statistical work, and the person who is appointed as a result of this examination and who proves competent to perform the duties of the position may expect reasonable promotion.

The commission announce an open competitive examination, September 21, 1914, for assistant superintendent of construction, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$100 a month, when employed, at the United States Penitentiary, Leavenworth, Kan., and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Employment in this position at Leavenworth, Kan., will be intermittent and will aggregate probably not over eight months in a year.

A general knowledge of building opera-

tions of all kinds, sound health, active habits, and good judgment are necessary qualifications. Applicants must have had not less than four years of building experience, excluding apprenticeship, either as building mechanic, supervisor, or superintendent, or any combination of these, but not less than one year of supervisory work is necessary.

The commission announce an open competitive examination, September 21, 1914, for specialist in industrial education, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Education, Department of the Interior, Washington, D. C., at a salary of \$3,500 a year, and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be performed at Washington, D. C., and elsewhere, and will include the study of vocational education, the collection and compilation of information relating thereto and the giving of advice to education officers throughout the United States for the establishment of courses of study in vocational education.

The commission announce an open competitive examination, September 28, 1914, for specialist in educational systems, for women only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Education, Department of the Interior, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will consist of investigations concerning the organization and administration of elementary schools in cities and towns and the preparation of teachers for such schools.

The commission announce an open competitive examination, September 28, 1914, for chief petroleum technologist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Mines, for service in San Francisco, Cal., at a salary of \$4,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to supervise and participate in the technologic and other scientific and economic work of the Bureau of Mines in relation to petroleum and natural gas, as to production (which involves a consideration of the oil and gas bearing strata), storage, transportation and refining; the prevention of waste; the prevention of loss from underground water encroachment, and other economic problems affecting the industry.

The commission announce an open competitive examination, September 28, 1914, for associate engineer-physicist, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Standards, Department of Commerce, Washington, D. C., or Pittsburgh, Pa., at salaries ranging from \$2,000 to \$3,000 a year, and

vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to investigate structural and engineering materials, especially rails and railroad material.

It is desired to secure eligibles who are proficient in mathematics and its application to physical and engineering problems, and who are able to initiate and carry on independent research in the field of engineering physics.

The commission announce an open competitive examination, September 28, 1914, for agronomist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary ranging from \$2,000 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to conduct investigations in the New England States, Michigan, New York, Ohio, Pennsylvania, New Jersey, Maryland, Virginia and West Virginia, having for their object the development of improved methods of pasture management with a view to increasing the carrying capacity of permanent pastures and the development of new pastures.

It is desired to secure the services of a person who has had considerable experience in pasture investigations.

The commission announce an open competitive examination September 28, 1914, for clinical psychiatrist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Government Hospital for the Insane, Washington, D. C., at a salary of \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

It will be the duty of the clinical psychiatrist to act as consultant to the different medical services of the hospital, with the particular end in view of assisting, especially the younger members of the staff, in analyzing and understanding their patients, with a view to outlining a concrete course of action looking to their betterment. He will also be expected to instruct the younger members of the staff in psychological methods and in the technique of case analysis and presentation. He will specifically undertake analytic and therapeutic measures in special functional cases that it would appear possible to benefit in this way. In addition to this work he will be expected to avail himself of the clinical material and laboratory opportunities for special observation and research.

It is desired to secure the services of a person familiar with the modern therapeutic movements in the practice of mental medicine, particularly those that have to do with functional conditions and involve the application of psychotherapeutic principles. He must not only be familiar with these movements but he must be capable of an analytic and interpretative application of psychological principles to the individual case, especially for therapeutic ends.

The commission announce an open competitive examination for translator, for both men and women, on September 28 and 29, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Foreign and Domestic Commerce, Department of Commerce, Washington, D. C., at a salary of \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for translator, for both men and women, on October 7, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Education, Department of the Interior, at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for automatic scale expert, for men only, on October 7, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$1,500 a year, in the Customs Service, Philadelphia, Pa., and vacancies as they may occur in positions requiring similar qualifications at other customs ports or in other branches of the service, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for statistical clerk, for both men and women, on October 7, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Departmental Service, Washington, D. C., at salaries ranging from \$900 to \$1,200 per annum, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The commission announce an open competitive examination for clerk-draftsman, for men only, on October 7 and 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at \$1,200 per annum in the offices of the Surveyors General at the places named below, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

One at Boise, Idaho; two at Denver, Col.; two at Helena, Mont.; two at Phoenix, Ariz.; two at Salt Lake City, Utah; three at Santa Fe, N. Mex.

The commission announce an open competitive examination for torpedo engineer, for men only, on October 7 and 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill one vacancy in this position at \$9.60 per diem in the Naval Torpedo Station, Newport, R. I., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

This position requires the services of a well-trained engineer, preferably a skilled torpedo specialist. The duties will require the performance of such work as torpedo designing, developing torpedo tests, designing torpedo attachments, simplifying torpedo mechanisms, and making the necessary calculations in connection therewith. A thorough knowledge of thermodynamics and especially of steam and gas turbine machinery, and familiarity with the principles and practice of gear design, propeller design, the use of thermostats and the testing of fuels, etc., will be necessary.

The commission announce an open competitive examination October 12, 1914, for sawyer and carpenter, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$900 per annum in the Indian Service, Shoshone Agency, Wyoming, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination, October 12, 1914, for dairy husbandman, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at an entrance salary ranging from \$1,800 to \$2,500 per annum in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, and vacancies as they may occur in position requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

As insufficient eligibles were secured from the examination for this position held on June 29, 1914, qualified persons are urged to enter this examination.

The duties of this position will include cooperative work with dairy farmers; advice and assistance with reference to instituting the keeping of records of production of herds, the construction of silos, the construction and remodeling of dairy buildings, the feeding of dairy herds, the management of dairy farms, the care and handling of milk and cream, and the making of butter on farms; the organization and supervision of farmers' associations, bull associations, and cow-testing associations; demonstrations at fairs, judging dairy cattle and dairy products, lecture work on subjects connected with dairy farming, and other forms of dairy-farming extension work; collection of information concerning the dairy industry, and experimental work along dairy-farming lines. The performance of these duties will involve considerable traveling, usually within one state.

The commission invites attention to the open competitive examinations for ship draftsman and copyist ship draftsman, for men only, to be held on October 14 and 15, 1914. From the registers of eligibles resulting from these examinations certification will be made to fill vacancies as they may occur in these positions in the Bureau of Construction and Repair, Navy Department, Washington, D. C., and at navy yards and other establishments of the Navy Department outside of Washington, D. C., unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The entrance salaries for the position of ship draftsman range from \$3.28 to

\$5.04 per diem. Persons appointed from this examination are eligible to promotion in the service of the Navy Department to salaries of \$7.52, \$8, and in a few cases as high as \$10 and \$12 per diem, depending upon the efficiency shown.

The entrance salaries for the position of copyist ship draftsman range from \$2 to \$2.80 per diem.

The opportunity for appointment of qualified eligibles is excellent, as difficulty has been experienced in securing a sufficient number of eligibles to meet the needs of the service. The following vacancies exist at the present time:

One, Navy Department, Washington, D. C., \$5.04 per diem.
 One, Navy Department, Washington, D. C., \$3.28 per diem.
 One, Navy Yard, New York, N. Y., \$4.48 per diem.
 Two, Navy Yard, New York, N. Y., \$4 per diem.
 One, Navy Yard, New York, N. Y., \$3.28 per diem.
 Two, Navy Yard, Philadelphia, Pa., \$5.04 per diem.
 Two, Navy Yard, Philadelphia, Pa., \$4.48 per diem.
 One, Navy Yard, Philadelphia, Pa., \$3.28 per diem.
 One, Navy Yard, Washington, D. C., \$4 per diem.
 One, Navy Yard, Norfolk, Va. (Copyist), \$2.40 per diem.
 One, Navy Yard, Mare Island, Cal., \$4.48 per diem.
 One, Navy Yard, Mare Island, Cal. (Copyist), \$2.80 per diem.
 Four, Navy Yard, Puget Sound, Washington, \$3.28 per diem.
 One, Office of Naval Constructor, Quincy, Mass., \$3.28 per diem.

The commission announce an open competitive examination, October 21, 1914, for entomological ranger, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Entomology, Department of Agriculture, for service in the Rocky Mountains and Pacific coast states, at salaries ranging from \$840 to \$1,200 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of this position will be to collect specimens and information, locate and mark trees infested with destructive insects, and give instructions and assistance to private owners on the practical details of the methods recommended for the control and prevention of insect depredations on living timber.

NAVY YARD EXAMINATIONS.

United States civil service examinations for the following noneducational positions in Group 1 in the United States Navy Yard, Boston, Mass., will be held on October 1, 1914.

Laborers; hod carriers; janitors; stable-keepers; teamsters.

Age limit: Seventeen years or over.

INFORMATION TO APPLICANTS FOR THE POSITION OF MERE UNSKILLED LABORER.

Applicants must be citizens of the United States.

Applicants will be physically examined and rated as regards ability and fitness to perform manual labor.

No educational test will be given.

Applicants must be capable of shouldering and carrying with ease 125 pounds weight. Boys not required to take strength test.

A notice of standing will be sent to each applicant when his name is entered on the eligible list.

Eligibles will remain on the register for one year from the time of entry.

The required application form, No. 1642, with further information in regard

to the examination, may be obtained from the Labor Board, with whom it must be filed on or before September 16, 1914.

United States civil service examinations for the following mechanical trades and noneducational positions in the United States Navy Yard, Boston, Mass., will be held on October 1, 1914.

No educational test will be given and applicants will not be assembled for a mental examination. The examination will consist of the subjects mentioned below, weighted as indicated:

Subjects.	Weights.
1. Physical ability.....	40
2. Training, experience and fitness...	60
Total.....	100

All statements relating to training, experience and fitness are subject to verification. Applicants should name in their applications, as references, employers or other persons who are competent to furnish information relative to the applicants' fitness for the position sought, and these persons will be communicated with. Unless answers are received from these persons within two weeks from the date of sending the communications, the applications may be canceled.

An applicant is required to show to the satisfaction of the Labor Board that he has the following qualifications in order to have his name placed on the eligible list of appointments:

That he is a citizen of or owes allegiance to the United States.

That he has the necessary knowledge of and experience in the occupation or trade in which he seeks employment.

That he is industrious and of good character.

That he is physically able to perform the work of his occupation or trade, and that he has no physical defect that will, as a contributory cause, tend to prolong a disability resulting from an accident or injury received in the performance of his work, or which would render him more liable to such accident or injury.

Age Limits.

Group II.—Rivet heaters, 14 to 18; smith's helpers, 21 or over; others, 17 or over.

Group III.—Riveters, 18 or over; ordnance men, 23 or over; others, 20 or over.

Application Form 1800 is required and may be obtained from the Labor Board, with whom it must be filed on or before September 16, 1914. Complete instructions are issued with each application form.

List of Trades.

Group II.—Helpers, general; helpers, boilermakers; helpers, chairmakers; helpers, coppersmiths; helpers, electricians; helpers, machinists; helpers, molders; helpers, ordnance; helpers, painters; helpers, plumbers; helpers, riggers; helpers, ropemakers; helpers, shipfitters; helpers, smiths; helpers, woodworkers; holders on.

Group III.—Acetylene welder; block makers; boat builders; boilermakers; box makers; cabinet makers; calkers, wood; calkers and chippers, iron; carpenters; carmen, finishers; chain makers; concrete workers; coopers; coppersmiths; core-makers; die sinkers; divers; drillers; electroplaters; engine tenders; engine tender in charge; engine tenders, locomotive; fasteners; firemen; flange turners; forgers, heavy; galvanizers; gardeners; hammer runners; heaters, furnace; hod carriers; joiners, ship; machinists; masons,

brick; masons, stone; melters; millmen; molders, greensand, iron or brass; molders, loam; molders, steel; oakum spinners; ordnance men; packers; painters; pattern-makers; pavers; pipefitters; plasterers; plumbers, house; plumbers, ship; pressmen; punchers and shearers; riggers; riveters; roofers; ropemakers; rope-makers, wire; sailmakers; sand blasters; saw filers; sheet metal workers; shipfitters; shipwrights; smiths; sparmakers; stone cutters; tool dressers; tool makers, machine; trackmen; upholsterers; varnishers and polishers; wharf builders; wheelwrights; wiremen.

The wage schedule of the above-named occupations is based upon the rates of pay for similar duties in local establishments.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

Competitive examinations of applicants for positions in the classified service will be held in Boston as follows:

FOR THE SERVICE OF THE COMMONWEALTH.
 1914.
 Oct. 21. Foreman of Laborers, Inspectors of Work, Class 22.
 Oct. 27. Drawtenders, Assistant Drawtenders, Class 25.
 Nov. 2. Clerks, Messengers, Class 3.
 Nov. 16. Stenographers, Class 9.
 Dec. 7. Civil Engineers, Class 27.
 Dec. 17. Metropolitan Park Policemen, Class 16.
 1915.
 Jan. 19. Prison Watchmen, Class 17.

FOR THE SERVICE OF THE CITY OF BOSTON.
 1914.
 Oct. 1. Policemen, Class 14.
 Oct. 21. Foreman of Laborers, Inspectors of Work, Class 22.
 Oct. 27. Drawtenders, Assistant Drawtenders, Class 25.
 Nov. 2. Clerks, Messengers, Class 3.
 Nov. 12. Firemen, Class 20.
 Nov. 16. Stenographers, Class 9.
 Dec. 7. Civil Engineers, Class 27.
 1915.
 Jan. 14. Janitors and Engineers of Public Buildings, Class 24.
 Jan. 19. Prison Watchmen, Class 17.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply for the service of the Commonwealth, and only citizens of the United States who have been residents of Massachusetts for the past year and of Boston for the six months last past have a right to apply for the service of Boston.

Blank applications (Form No. 1) for the Commonwealth and Boston services can be obtained by applying to the Civil Service Commission, State House, Boston, and when filled out, should be filed in the office of the commission at once.

In order to receive a notice to appear at any of the above-scheduled examinations, an applicant should have his application on file at least ten days before the date set for holding the examination.

EXAMINATIONS FOR WATERTOWN ARSENAL.

United States Civil Service examinations for the following mechanical trades and non-educational positions in the Ordnance Department at large, U. S. A., at the Watertown Arsenal, will be held on October 1, 1914.

The positions are blacksmith, carpenter, craneman, blacksmith's helper, carpenter's helper, machinist's helper, molder's helper, all around machinist, medium and small planer and lathe machinist, large planer and lathe machinist, drill hand machinist, floor and bench machinist, turret lathe machine operator, molder, pattern maker, toolmaker, toolgrinder and laborer.

Unskilled laborer (Form 1300 required)—age limit, twenty to fifty years, except that honorably discharged veterans of the Civil War may be examined without regard to age.

No educational tests will be given and applicants will therefore not be called upon to appear at any place to be examined. They will be rated according to their physical condition and experience as indicated in their applications and the medical certificate and vouchers furnished. Age limit twenty to fifty-five years on date of filing papers. Applicants must be citizens of the United States.

PROCEEDINGS OF CITY COUNCIL.

Tuesday, September 8, 1914.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President McDONALD in the chair. Absent—Coun. KENNY.

The Council voted, on motion of Coun. WOODS, to dispense with the reading of the records of the last meeting.

APPOINTMENTS BY THE MAYOR.

The following were received:

City of Boston,

Office of the Mayor, September 8, 1914.

To the City Council:

Subject to the confirmation of your honorable body I have this day appointed Charles M. Griffin, of 32 Monument street, Ward 3, a Constable, to serve with bonds for the term ending April 30, 1915, and Arthur R. Towle, 822 Centre street, Ward 23, to be a Constable to serve without bonds, to serve the city in an official capacity, for the term ending April 30, 1915.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,

Office of the Mayor, September 8, 1914.

To the City Council:

Subject to the confirmation of your honorable body I have this day appointed John Carpinella (207 Salem street, Ward 6) to be a Constable for the City of Boston for the term ending April 30, 1915.

Respectfully,

JAMES M. CURLEY, Mayor.

Severally laid over under the law.

PUBLIC LIBRARY BRANCH, SOUTH END.

The following was received:

City of Boston,

Office of the Mayor, September 8, 1914.

To the City Council:

In compliance with the order of your honorable body passed August 24, 1914, I transmit herewith communication from the trustees of the Boston Public Library conveying the information requested relative to the South End Branch of the Boston Public Library.

Respectfully,

JAMES M. CURLEY, Mayor.

The Boston Public Library
of the City of Boston,
September 3, 1914.

Hon. James M. Curley,

Mayor of Boston:

Dear Sir,—Replying to you to the request of the City Council for information as to what arrangements have been made for the occupancy of the premises on Shawmut avenue at the South End Branch of the Public Library, I have to say that the trustees have provided for a renewal of the lease of the premises for three years, at a rental reduced from \$2,500 to \$2,250.

Respectfully yours,

THE TRUSTEES OF THE PUBLIC LIBRARY
OF THE CITY OF BOSTON,
by WILLIAM F. KENNEY,
Vice President.

Placed on file.

HIGH PRESSURE FIRE SERVICE.

The following was received:

City of Boston,

Office of the Mayor, September 8, 1914.

To the City Council:

In compliance with the accompanying order of your honorable body passed August 24, 1914, I transmit herewith the information requested therein.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,

Public Works Department, September 4, 1914.

To the Honorable the Mayor:

In reply to the inclosed order of the City Council of August 24, "That the Commissioner of Public Works, through his Honor the Mayor, be requested to furnish the City Council with an itemized statement of all money expended, or authorized to be expended, to August 15, for the high pressure fire service, said statement to contain length of water pipe purchased, streets, if any, where same has been laid, with lengths therein and cost, also what provision has been made for furnishing the power in the high pressure fire service station to be located on Fort Point channel," I beg leave to submit the following:

Appropriations to September 1.....	\$685,000 00
Expenditures to September 1.....	376,056 48
Balance unexpended September 1....	<u>\$308,943 52</u>

Itemized Statement of Expenditures.

Salaries and wages.....	\$42,754 86

No arrangements have been made for furnishing power at the station to be located in Fort Point channel, but it is assumed that the arrangements made with the Edison Electric Illuminating Company for supplying power at the Charles street station will apply.

Respectfully,

L. K. ROERKE,
Commissioner of Public Works.

Placed on file.

BETTERING OF FIRE PROTECTION.

The following was received:

City of Boston,

Office of the Mayor, September 8, 1914.

To the City Council:

The condition of many water mains throughout the city is such that it is extremely difficult to provide adequate fire protection without the replacement of water mains generally throughout the city, and the necessity for the completion of the high pressure system at the earliest date warrants the submission to your honorable body of the accompanying order, of which I respectfully recommend the adoption.

Respectfully,

JAMES M. CURLEY, Mayor.

Ordered, That the sum of two hundred thousand dollars (\$200,000) be appropriated from the Water Revenue to be expended by the Commissioner of Public Works as follows:

For the completion of the high service from Heath street to the city proper.....	\$47,000
For the extension of the high service in South Boston to the South Boston flats.....	15,000
For relaying inadequate mains throughout the city.....	138,000
	<u>\$200,000</u>

Referred to the Executive Committee.

SALE OF WATER MACHINERY, HYDE PARK.

The following was received:

City of Boston,

Office of the Mayor, September 8, 1914.

To the City Council:

I transmit herewith communication from the Commissioner of Public Works relative to the disposal of machinery now located at the pumping station on Water street, Hyde Park, and at the pumping station, Paradise lane, Dedham. Inasmuch as this machinery is of no further use to the department, I would respectfully request that the permission desired to dispose of the same be granted by your honorable body.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,

Public Works Department,

September 5, 1914.

To the Honorable the Mayor:

This department has at the pumping station on Water street, Hyde Park, the following machinery:

One return tubular Blake lap seam boiler, 16 feet 4 inches; shell, 72 inches in diameter, with 112 3-inch tubes, installed in 1885.

One return Blake lap seam tubular boiler, 16 feet 4 inches; shell, 60 inches in diameter, with 64 3½-inch tubes, installed in 1889.

One Blake boiler feed pump.

One Blake tandem compound duplex steam pump.

One jet condenser and Blake air pump.

Two Nason steam traps.

Two Blake air pumps on suction lines, one installed in 1889, the other in 1908.

One 3½ horse power, 20-light, 110-volt, Westinghouse dynamo engine.

Also at the pumping station on Paradise lane, Dedham, the following machinery:

One Davidson tandem compound duplex steam pump, with plungers 14 inches diameter and 24 inches stroke, installed in 1889.

One Davidson jet condenser and air pump.

One U. S. compound feed water heater.

One Davidson hoiler feed pump.

One upright steam engine, cylinders 3 by 5 inches.

One 50-pound oil separator.

One Sturtevant 20-light, 110-volt dynamo.

One Howe platform scale.

Two Cunningham & Sons return tubular boilers, 60 inches; shells, 17 feet 4 inches long.

This department has no further use for said machinery, and I would recommend that the permission of the City Council be secured for the sale of the same.

Respectfully,

L. K. ROERKE,
Commissioner of Public Works.

Ordered, That the Commissioner of Public Works be granted permission to sell the pumping machinery located at the pumping station on Water street, Hyde Park; and the pumping machinery and platform scales located at the pumping station on Paradise lane, Dedham, the proceeds received from the sale of this material to be credited to Water Revenue.

Referred to the Executive Committee.

REPAIR OF STREET OPENINGS.

The following was received:

City of Boston,

Office of the Mayor, September 8, 1914.

To the City Council:

The policy of permitting corporations and individuals to whom permits have been issued for street openings to restore the street surface in whatever manner they may deem it results in a loss annually to the municipality in impaired street surface of approximately two hundred thousand dollars.

With a view to in some measure reducing this loss I respectfully recommend the adoption of the accompanying ordinance, which will, in my opinion, result in a considerable saving to the city in the matter of street surface.

Respectfully,

JAMES M. CURLEY, Mayor.

In the Year Nineteen Hundred and Fourteen.
An Ordinance Relating to Permits for Street Openings.

Be it ordained by the City Council, etc.:

Section 1. Section nine of chapter nine of the ordinances of 1910 is hereby amended by substituting the following new section:

Sect. 9. The commissioner may issue permits to persons having authority in the premises to open, occupy, obstruct and use portions of the streets. Such permits shall specify the time, place, size and use of such opening, occupation or obstruction, and shall be granted upon a condition, the terms of which shall be those stated in section twenty-one of chapter three of the Revised Ordinances of 1898, and upon further conditions as follows:

1. That the restoration of the paving or other surface of such streets shall be effected by the city as directed by the commissioner, the work to be done by city employees or by contract at his discretion, the standard, type and extent of the repairs necessary to effect such restoration to be determined by him and to be paid for by the person receiving the permit, such payment to be made in advance on the basis of the commissioner's estimate or during the progress or after the completion of the restoration as the commissioner may elect.

2. That the person receiving the permit shall place and maintain from the beginning of twilight, through the whole of every night, over or near the place so occupied, opened, obstructed or used, and over or near any dirt, gravel or other material placed in or near such place, a light or lights sufficient to protect travelers from injury; shall place and maintain a safe and convenient way, satisfactory to the commissioner, for the use of foot travelers and for vehicles around or over such place; shall protect such trees as shall be designated by the park and recreation department in such manner as said department shall specify; shall provide suitable sanitary accommodations for his employees, and shall deliver the coupon attached to the permit to an officer of the police force of said city on or before the expiration of the time fixed in the permit for completing the work, such coupon to be returned by said officer to the public works department.

3. That the commissioner may detail an inspector, at the expense of the person receiving the permit, to supervise said opening, occupation and use, and to see that the backfilling is properly done.

4. That the commissioner may require the person receiving the permit to inclose the place in the streets so opened, occupied or used, with a rail, fence or other guard as specified by the commissioner.

All amounts paid to the city under the provisions of this section shall be credited to, and used as a part of, the appropriation for the public works department.

Referred to the Committee on Ordinances.

IMPROVEMENT OF PARKS AND SQUARES.

The following was received:

City of Boston,
Office of the Mayor, August 31, 1914.

To the City Council:

In conformity with the order of your honorable body passed August 24, 1914, and reading as follows:

"Ordered, That the Park and Recreation Department be requested, through his Honor the Mayor, to furnish the City Council with an itemized statement as to the amount of money expended and contemplated to be spent for the improvements of small parks and squares as provided for by the appropriation of \$10,000 from the income of the Parkman Fund, passed by the City Council of July 7, 1913."

I beg to submit report received this day from the Park and Recreation Department.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park and Recreation Department,
August 31, 1914.

To the Honorable the City Council:

In reply to your order of August 24 that the Park and Recreation Department be requested, through his Honor the Mayor, to furnish the City Council with an itemized statement of the amount of money expended and contemplated to be spent for the improvements of small parks and squares, as provided for by the appropriation of \$10,000 from the income of the Parkman Fund passed by the City Council of July 7, 1913, I am directed by the chairman of this commission to state that the following amounts have been expended on the various squares as stated below:

	From July 8, 1913, to Jan. 31, 1914.	From Feb. 1, 1914, to Aug. 31, 1914.	Totals.
Blackstone square.....	\$339 41	\$9 45	\$348 86
Columbus square.....	232 32	27 42	259 74
Concord square.....	1 13	* 1,411 26	1,412 39
Fort Hill square.....	292 59		292 59
Franklin square.....	429 45	8 15	437 60
Madison park.....	788 32	46 10	834 42
Massachusetts avenue.....	543 83	7 40	551 23
Oak square.....	597 55	10 20	607 75
Orchard park.....	1 14		1 14
Rutland square.....	1 13	* 1,437 35	1,438 48
Washington park.....	6 00	331 17	337 17
Worcester square.....	186 07	7 40	193 47
	\$3,418 94	\$3,295 90	\$6,714 84
Balance due on contract for work done on iron fences at Concord and Rutland squares.			502 69
			\$7,217 53

* Paid on contract for iron fences made by the previous Board.

This leaves a balance of \$2,782.47, and at the present time it is the intention of this commission to expend that money for the improvement of Bromley park and Madison park.

Yours very truly,
BOARD OF PARK AND RECREATION COMMISSIONERS,
by D. J. BYRNE, Secretary.

Placed on file.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Catherine Ryan, for compensation for damages at rear of 1284 Dorchester avenue, by backing up of sewer.

Executive.

Franz J. Protz, employee of the city, to be retired under the provisions of chapter 765, Acts of 1914.

Army and Navy Goods Store Company, to sell, rent or lease firearms at 95 Summer street, Ward 7.

RECONSTRUCTION OF WASHINGTON STREET, WEST ROXBURY.

The following was received:

September 5, 1914.
To the Honorable the City Council:

Gentlemen,—The following order has been received from the City Council:

"Ordered, That chapter 641 of the Acts of 1914, entitled 'An Act to Provide for the Reconstruction of Washington street in the West Roxbury District of the City of Boston,' be and the same hereby is accepted by the City Council of the City of Boston."

In connection therewith the commission respectfully submits the following report:

The matter of widening Washington street in the West Roxbury district, extending northerly from La Grange street, has been a matter of extended consideration by the Finance Commission in connection with previous acts of the Legislature and hills before legislative committees. The Finance Commission has recognized the urgent necessity of improving that portion of the street between La Grange street and Metropolitan avenue, but has been obliged to oppose previous legislative acts and bills authorizing such improvement, on the ground that such bills contemplated an unnecessarily wide street with consequent excessive expense, and because the provisions of such hills placed an undue share of the expense of construction of the street on the City of Boston.

Two exhaustive reports have been submitted by the Finance Commission as follows:

1. A communication to the Mayor and City Council relating to the question whether chapter 527, Acts of 1910, requiring the construction as a state highway of a part of Washington street, West Roxbury, should be accepted by the City Council. This report, dated December 8, 1910, may be found on pages 175 to 192, inclusive, of Volume VI. of the Finance Commission's Report for the year 1910.

2. Report to the Committee on Roads and Bridges of the Massachusetts Legislature in relation to the extension of Washington street, West Roxbury, as a state highway, contained on pages 53 to 55, inclusive, of Volume IX., Finance Commission's Report for the year 1913.

A reading of the reports referred to will show that the Finance Commission's objections to the improvement of the street were because it considered that the acts provided for a street of excessive width, and because an undue portion of the expense of the construction, as provided, would accrue to the City of Boston, rather than because it considered the improvement of the street unnecessary.

The commission believed that whenever the street was widened it should be constructed by the City of Boston under the act providing for laying out of streets by the Street Commissioners, chapter 393 of the Acts of 1906, and that a width of 60 feet, including sidewalks, would be sufficient for the demands of future traffic.

The principal reasons for the commission's recommendations are given in the reports above referred to, and there seems to have been no recent developments to warrant a change in the commission's recommendations.

There is, however, a particular reason which has not been mentioned in any of the previous reports of the Finance Commission, why the portion of the street whose widening is contemplated in the act under consideration should not be as great as for other parts of the street, especially those portions between La Grange street and the Dedham line, and between Forest Hills and South and Ashland streets.

The portion of the street between Ashland street and La Grange street, which includes the portion in question, has no connecting thoroughfares which contribute materially to the traffic. It has unavoidably steep grades, so that teaming and automobile traffic will take other routes between the points mentioned if possible. As a result, much of the traffic of Washington street enters the street through La Grange street and Grove street, and when the proposed parkway through West Roxbury is constructed it will enter Washington street at the corner of La Grange street. It is clear that this parkway will divert practically all pleasure vehicle traffic from that portion of Washington street north of La Grange street.

The only authority conferred by the act under consideration, beyond that already possessed by the city under chapter 393 of the Acts of 1906, is the power to take a portion of the park lands near the corner of La Grange street. The city already owns the land which will allow the construction of the street at a width of 60 feet without taking such park lands.

The commission recommends that the act under consideration be rejected and that the portion of Washington street in question be constructed under the general law, chapter 393 of the Acts of 1906, with a width of 60 feet, and that an appro-

priation for the work be made by the City Council whenever money is available.

Respectfully submitted,
THE FINANCE COMMISSION,
by JOHN R. MURPHY,
Chairman.
Referred to the Executive Committee.

STORAGE OF EXPLOSIVES.

Notices were received of intention to continue the use of premises for explosives or inflammable fluids, viz.:

The Roessle Brewery, keeping of gasoline at 1250 Columbus avenue, Ward 19.
Frank E. Peabody, keeping of gasoline at 328 Newbury street, Ward 11.
Cemetery Department of the City of Boston, keeping of gasoline at Mount Hope Cemetery.
H. E. Blaisdell, keeping and sale of gasoline at rear of 46 Rexford street, Ward 24.
Placed on file.

TRACK LOCATION.

A copy of order was received from the Street Commissioners granting the West End Street Railway Company track location on Dorchester avenue, 448th location.
Placed on file.

CARE OF SCHOOL CHILDREN'S TEETH.

The following was received:

Health Department,
Boston, September 2, 1914.

To the City Council:

Gentlemen,—The Board of Health directs me to say in relation to the petition of Edward F. McLaughlin, referred to it by the City Council for a report, that the Board has had a conference on this matter with representatives of the Forsyth Dental Institute. This institution opens in October, and the directors confidently anticipate that it will be able to care for all worthy cases among school children not already provided for by other charities.

It is the opinion of the Board that no steps should be taken such as are proposed by this petition until there has been opportunity to determine just what the Forsyth Dental Institute can accomplish.

Very respectfully,
F. H. SLACK, Secretary.

The communication and the petition of Edward F. McLaughlin referred to therein were placed on file.

SIDEWALK SCHEDULES.

The Commissioner of Public Works submitted reports on the cost of sidewalk construction on various streets, and recommended the passage of the following:

Ordered, That the persons named in the foregoing schedule be assessed the sums set against their respective names, as their proportional parts of the cost of constructing sidewalks in front of their estates on the following-named streets, and the same is ordered to be certified and notice given to the parties as aforesaid, viz.:

Alban street (artificial), \$890.98.
Pope's Hill street (artificial), \$564.72.
Nightingale street (artificial), \$259.83.
Minot street (artificial), \$3,036.55.

The order was passed.

MINORS' LICENSES.

President McDONALD submitted reports on petitions for minors' licenses for nine newsboys and two vendors—recommending that the same be granted.

Reports severally accepted; licenses granted on the usual conditions.

CONFIRMATION OF APPOINTMENTS.

President McDONALD called up unfinished business, Nos. 1 and 2, viz.:

1. Action on appointments submitted August 31 of William E. Cronin and John W. Wilkinson to be Constables of the City of Boston.

2. Action on appointments submitted August 31 of Martin Bruder, Hector McLean and William V. Kenney to be Weighers of Goods.

The question came on confirmation. Committee—Coun. Attridge and Woods. Whole number of ballots cast 7, yeas 7, and the appointments were confirmed.

HIGH PRESSURE FIRE SERVICE.

President McDONALD called up unfinished business, No. 3, viz.:

3. Ordered, That the sum of one hundred and fifty thousand dollars (\$150,000) be and hereby is

appropriated, to be expended under the direction of the Commissioner of Public Works, for High Pressure Fire Service, and that to meet said appropriation the City Treasurer be and hereby is authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On August 24 the foregoing order was read once and passed, yeas 6, nays 0.

The order was given its final reading and passed, yeas 8.

RECESS TAKEN.

The Council voted at 3.13 p. m., on motion of Coun. ATTRIDGE, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 5.40 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Report on petition of Army and Navy Goods Store Company (referred to-day) for permit to sell, rent or lease firearms at 95 Summer street, Ward 7—that a permit be granted.

Report accepted; permit granted on the usual conditions.

(2) Report on petition of Franz J. Protz (referred to-day), employee of the Public Works Department, for retirement—recommending the passage of the following:

Ordered, That the Retirement Board of Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, Franz J. Protz, employed in the Labor Service of the City of Boston in the Public Works Department.

Report accepted; order passed.

(3) Report on communication from Finance Commission (referred to-day) relative to acceptance of chapter 641, Acts of 1914, concerning Washington street, West Roxbury—that the same be placed on file.

Report accepted; communication placed on file.

(4) Report on order (referred August 10) to accept chapter 641, Acts of 1914, relative to Washington street, West Roxbury—that the order ought to pass.

President McDONALD—The question comes on passing the order.

Coun. ATTRIDGE—Mr. President, I move, sir, that the order accepting the act be recommitted to the Executive Committee. I do that simply for the purpose of getting more information regarding this particular act and the working of it. I also would like to find out from the Board of Street Commissioners what it would cost the city to build a street of varying widths, from 60 to 100 feet. I understand that if a street 60 feet in width were built no city land or no private land would be taken. I understand that if it were over 60 feet in width some private land would have to be taken. I would like to know from the Board of Street Commissioners if a street were to be built to a width exceeding 60 feet what the cost would be. Under this particular act, if it is accepted by the city or the City Council, the treasurer has the right, without the approval or vote of the City Council, to issue bonds to the extent authorized by the taking made by the Board of Street Commissioners. Simply for the purpose of getting some more information regarding this act and its operation I move you, sir, that the order be recommitted to the Executive Committee.

Coun. WOODS—I have no objection to its laying over for a week. The only reason I rise at this time is that Coun. Watson asked to have it reported back and he is very much interested in it but he has been obliged to leave, and I wanted to make the suggestion in deference to him.

The order was recommitted to the Executive Committee.

SIDEWALK ORDER.

Coun. WOODS offered an order—That the Commissioner of Public Works make a sidewalk along the northerly side of Washington street, between Cambridge and Minot streets, and Cambridge street, south side, between Washington and Minot streets, Ward 25, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestones, under the provisions of chapter 437 of the Acts of 1893.

Passed.

GENERAL RECONSIDERATION.

Coun. BALLANTYNE moved a general reconsideration of all business transacted at the meeting to-day, hoping that the same would not prevail. Lost.

Adjourned, at 5.50 p. m., on motion of Coun. BALLANTYNE, to meet on Monday, September 14, at three o'clock p. m.

BOSTON'S FREE RECREATION OPPORTUNITIES.

RECREATION AND HEALTH AGENCIES, MAINTAINED BY CITY OF BOSTON.

Three Swimming Pools—Admission, 15 cents; lessons free.

Ten Free Public Gymnasias.—With instruction in all branches of physical education.

Free Public Shower Baths.—With hot and cold showers and comfortable dressing closets.

Free Golf Course in Franklin Park.—With small course for beginners.

Excellent Tennis Courts.—At Franklin Park, Franklin Field and Wood Island Park. Many good tennis courts on other grounds.

Franklin Park.—With its beautiful drives and walks, its Zoo, including largest bird house in the country and an exceptional collection of bears.

Beautiful Aquarium.—At Marine Park, City Point. Fine collection of varied species of fish.

Public Gardens.—With beautiful walks and seasonal floral exhibitions.

Arnold Arboretum.—With its wonderful collection of trees and shrubs.

Olmsted Park.—With its beautiful scenery, fine walks, and its Children's Museum.

GAMES AND SPORTS.

Basketball.—Courts in most of the gymnasias.

Handball.—Finest court in New England at East Boston Gymnasium.

Squash.—Can be played in the East Boston Handball Court.

Football and Soccer.—Numerous fields throughout the city.

Ice Hockey.—Many rinks kept in condition during season.

Skating.—On many parks and on most playgrounds during season.

Tobogganing.—Slide at Franklin Park in season.

Park Walks with Guide.—Weekly when weather is favorable.

BOSTON'S MUNICIPAL SHOWER BATHS.

Free public shower baths may be taken in these buildings:

East Boston Gymnasium, Paris street, East Boston.

D Street Gymnasium, South Boston.
Municipal Building, Columbia road, Dorchester.

Cabot Street Gymnasium, Roxbury.
North Bennet Street, North End.

Tyler Street Gymnasium, South End.
Harrison Avenue Gymnasium, Ward 9

Curtis Hall Gymnasium, Jamaica Plain.
Dover Street Bath House, 249 Dover street.

Copley School, Bartlett street, Charlestown.

Municipal Building, corner Bunker Hill and Lexington streets, Charlestown.

Bathing facilities are entirely free of charge. Persons having no towels and soap may procure them at each building office for one cent each. Comfortable private dressing closets are free in all places. Hot and cold water may be had for baths. At the Dover Street Bath House women and men have separate accommodations and each may bathe there any day in the week. In the other houses women have exclusive use of baths on Mondays and Thursdays, and men have the remaining days. There is telephone connection in each building.

LIGHTING RATES IN THE STATE.

The *Municipal Journal* has just completed a table of lighting and power rates as charged by the municipal plants of Massachusetts, giving both maximum and minimum rates where there is more than one, the limits of the rates where these were reported, the source of the current distributed, and whether lamps are renewed free. The rates given are in each case the net rates, after deducting any discounts allowed for prompt payment or large consumption.

It will be noted that of the 35 plants, 20 renew no lamps free, 8 renew all lamps free, and the balance a part free.

The maximum net rates charged by these plants average 11.65 cents per kilowatt-hour, the maximum being 20 cents and the minimum 6 cents. Comparing these with the commercial rates charged by the 83 private plants, we find the latter to be 14 cents, 20 cents and 9.5 cents for average, maximum and minimum of the maximum net rates. These plants, both municipal and private, are under the supervision of the State Board of Gas and Electric Light Commissioners, and the rates are supposed to be such as will yield to the private companies, on the one hand, only a reasonable profit and enable the municipal plants, on the other hand, to cover operating expenses, maintenance, repairs, interest, depreciation and sinking fund. The 6-cent municipal rate is that of Holyoke (a water power and steam plant), and the report shows that city to have made a profit, over the items named, of \$39,268, or about 12 per cent of the operation, maintenance and repair expenditures during the fiscal year, or 7½ per cent of the total income. Another plant operated entirely by steam has a seven-cent maximum rate.

These figures are from plants all in one state and under very similar conditions as to cost of fuel, state and local laws, topography and other circumstances which would effect price other than size of town, personal equation and business conditions. When, therefore, we find municipal rates nominally varying nearly 100 per cent and private rates about 50 per cent and consider that difference in cost of fuel and the use of water power may easily cause the differences in rates to be very much greater, it is apparent that a table of maximum rates is of little assistance in showing what the rate should be in any given case.

As a matter of fact the maximum rate tells only part of the story. The two towns having the lowest maximum rate make no reduction to large users—their maximum rate is also their minimum. On the other hand, the town having a 20-cent maximum rate has a 6½-cent minimum lighting rate and a 4-cent cooking rate. These tend to bring the average rates per kilowatt-hour more closely together. Other items such as free lamp renewals, free wiring, minimum monthly charge, etc., may tend to still further decrease the inequality. Where rates given are gross and not net, the discounts allowed—in some cases 75 per cent—would have an enormous effect on the real rate.

All of which serves to demonstrate that, while a list of maximum rates in various cities is interesting and has a certain value, it should not be used as the sole or chief basis in establishing rates in a city; should in fact be given little consideration unless the conditions affecting the rates are pretty generally known and their effect fully allowed for.

The table shows that of the thirty-five plants seventeen purchase their current from other plants, fifteen use steam

alone for generating it, two use both steam and water, and one uses fuel oil. The practice of purchasing current from large generating plants is increasing, and is undoubtedly wise economy in many cases, especially of small plants, or of those which have no water power available while the current purchased is generated by such cheap power. Any business man can readily appreciate that in many cases to fail to do so would be foolishly uneconomical.

It has frequently been offered, however, as proof of the failure of municipal ownership that certain plants have ceased generating their own power and have purchased from large producers. As well to say that a blacksmith is a failure who buys horseshoes ready-made instead of making them from the bar, as his grandfather did. It is more probable that such a move was the most economical one possible, and creditable rather than otherwise to the municipal officials.

Aside from this argument is the fact that in the same state twenty-two private lighting companies purchase current from other companies. In addition, 204 towns are served by forty-six private companies in most cases a single plant generating the current for all the places served by that company. No stronger argument is needed to prove the true economy of distributing the current from one plant to several municipalities. It would be foolish to permit local pride or other equally unimportant reasons to interfere with the exercise of such economy.

Of the plants generating their own current, 78 per cent of the private ones and 83 per cent of the municipal ones use steam power; 10 per cent of the private and 11 per cent of the municipal use water alone or as an auxiliary, the remainder using fuel oil or gasolene.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 6.

SATURDAY, SEPTEMBER 19, 1914.

No. 38

City of Boston.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

By Subscription \$1.00 Per Year.
Single Copies 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 25, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance or permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS, 1001 City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, September 28, at 3 p. m.

Meeting of School Committee, Monday, October 5, at 7 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

LICENSING OF ELEVATOR OPERATORS.

Applications for licenses to operate passenger elevators, as required by recently enacted statute, may be obtained at the office of the Building Department, City Hall Annex.

PUBLIC HEARING.

The Board of Street Commissioners announce a public hearing, relative to the taking of land for schoolhouse purposes, upon Auburn street, Roxbury, at the office of the Board, 401 City Hall Annex, upon Monday, September 28, 1914, at 11 a. m.

NOTICE OF LAYING OUT AND CONSTRUCTION WORK.

Especial attention is called to the advertisement of the Public Works Department in the current issue of the *City Record* relative to the laying out and construction of highways in South Boston, East Boston, Roxbury, Dorchester and West Roxbury, and that all work in said highways relative to sewer, gas, water or other pipes must be accomplished before Friday, October 16, 1914, as after that time no permits for openings will be granted until two years after the said highways are completed.

IMPORTANT MERCHANDISE DECISION.

The attention of Boston merchants is particularly called to the decision of Hon. Andrew J. Peters, Assistant Secretary of the Treasury, providing that by reason of the European war merchandise may be examined prior to the receipt of invoice papers.

The decision of First Assistant Secretary Peters is as follows:

TREASURY DEPARTMENT,
WASHINGTON, D. C.

To Collectors and Other Officers of the Customs:

It has come to the attention of the department that, owing to disturbed conditions by reason of the war in Europe, merchandise sometimes arrives prior to receipt of the consular invoices or other papers on which entry can be made.

In view of these conditions, collectors of customs are hereby authorized, until further instructed, to permit a consignee or owner to open the cases and inspect the goods under customs supervision for the purpose of preparing a *pro forma* invoice, when it shall satisfactorily appear that, owing to the war conditions in Europe, the importer has been unable to obtain the necessary papers on which to make entry, and that he cannot otherwise obtain such information.

A bond for the production of a certified invoice will be required in all cases where the value of the merchandise is more than \$100.

ANDREW J. PETERS,
Assistant Secretary.

BILLS OF HEALTH FOR PANAMA CANAL.

The editor of the *City Record* calls the particular attention of Boston maritime interests to the order of Secretary of the Treasury McAdoo, just issued, stating that upon application on the part of masters of vessels bound from the Port of Boston to ports in the Panama Canal Zone, both original and supplemental bills of health will be issued, upon special forms.

These forms are issued by the Federal Bureau of Public Health and may be obtained in Boston upon application to Hon. Edmund Billings, Collector of Customs.

SCHOOLHOUSE IMPROVEMENTS.

By Commissioner William F. Kearns
of the Schoolhouse Department.

The public generally do not appreciate the large amount of work involved in the care of the schoolhouses of the City of Boston. The enormous detail will possibly be better understood by a study of a brief summary of the number of contracts, and the cost of same, which have been executed under the supervision of the present Schoolhouse Commissioners during the vacation period just closed.

The character of the work accomplished is revealed in the following table:

EXPENDITURES DURING THE SUMMER VACATION OF 1914.

<i>Architectural Division. Alterations and Repairs.</i>	
General alterations (10 schools).....	\$4,829 00
Additional class rooms (3 schools).....	12,048 70
Alterations, Continuation School.....	3,879 00
Alterations, 2 Prevocational Centers.....	4,615 00
Cooking rooms (4 schools),	5,995 20
Fire escapes (3 schools),	9,540 00
Fireproofing (33 schools),	11,828 50
Laboratory work, Mechanic Arts High School.....	2,757 00
Master's and teachers' rooms (2 schools)....	9,290 00
New floor (1 school)....	694 00
New sanitation (7 schools).....	9,128 00
	\$74,604 40
<i>Heating Division.</i>	
Automatic control system changes (1 school),	\$600 00
Boiler mason work (10 districts—11 schools)...	4,370 28
Furnace repairs (9 districts—3 schools)....	3,390 24
New boilers (4 schools)...	7,222 00
New heating coil (1 school).....	1,261 00
New heating systems (2 schools).....	14,840 00
Retubing boilers (miscellaneous schools)....	1,187 00
Steam heating apparatus repairs (12 districts—4 schools).....	5,334 48
	38,205 00
<i>Civil Engineering Division.</i>	
Cleaning catch basins (miscellaneous schools),	\$1,778 35
Garden work (miscellaneous schools).....	886 69
Gymnasium supplies (miscellaneous schools),	879 74
Destroying gypsy moths (miscellaneous schools)	640 00
Mason work (4 schools)...	1,754 00
Various items (miscellaneous schools).....	2,070 95
Moving portables (6 buildings).....	4,082 00
Painting outdoor gymnasium apparatus (miscellaneous schools)...	198 00
Patch paving (miscellaneous schools).....	1,595 27
Paving yards (10 schools),	10,107 90
Resurfacing yards (5 schools).....	2,664 00
	26,656 90
<i>Electrical Division.</i>	
Electric and gas work (29 schools).....	\$11,627 65
Electric and gas work (miscellaneous schools),	3,224 80
Electrical supplies (miscellaneous schools)....	3,357 86
Equipment, Continuation School.....	1,137 43
Equipment, Industrial, Mechanic Arts High..	6,037 00
Equipment, 2 Prevocational Centers.....	2,837 82
Fire alarm work (11 schools).....	2,748 13
Motors (4 schools)....	555 48
Reflectoscopes, curtains and opaque shades (5 schools).....	963 27
Vacuum cleaning apparatus (1 school).....	115 93
	32,605 37
<i>Inspectors.</i>	
Carpentry (13 schools)...	\$2,179 11
General repairs (miscellaneous schools)....	32,920 96
Mason work (3 schools)...	571 55
New floors (9 schools)...	3,285 50

New furniture (8 schools),	\$1,847 28
Painting (68 schools)....	23,698 00
Plumbing (4 schools)...	402 20
Resurfacing blackboards (10 schools).....	1,504 49
Repairing and refinishing furniture (37 schools)...	7,461 99
Roofing (25 schools)....	11,280 92
Shades (4 schools).....	493 00
	\$85,645 00
Total.....	\$257,716 67

It is a great pleasure for the writer to be able to say that all of this work has been executed in a first-class manner, and practically all of it completed before the schools opened on September 9. In a few cases there was some overcrowding, but these cases have been remedied, and today, a week after the opening of the schools, a seat has been provided for every scholar in the City of Boston wishing to attend the public schools.

In addition to the alteration and repair work, there are a number of contracts now under way for the construction of several large and important school buildings, viz.: High School of Commerce.

Quincy E. Dickerman School, Dorchester.

Mary Lyon School, Brighton.

E. P. Tileston Addition, Mattapan.

George Frisbie Hoar School, South Boston.

Two of these schoolhouses, the E. P. Tileston and the Mary Lyon, have just been completed and turned over for the use of the School Committee, and are now occupied by the pupils. The George Frisbie Hoar School and the Quincy E. Dickerman School will be completed on or before November 20, and will relieve the very critical condition in the Norcross District, South Boston, and the Phillips Brooks District, Dorchester, respectively. The High School of Commerce will probably be completed in about twelve months. The contractors are making splendid progress on this building, and are doing first-class work, and the architects are untiring in their efforts to push the work along as rapidly as possible consistent with getting the best work that can possibly be done.

The Board has now under consideration plans for a large 28-room building for lower elementary grades, on Blossom street, West End, and it is hoped to have the contract for this building let before the 1st of October, and to have it entirely completed and ready for occupancy within twelve months. Another large school, to contain thirty-two rooms for lower elementary grades, is also under consideration for the North End. The site for this has not yet been selected, but sketches are being made by Mr. Joseph McGinniss, the architect, which will be placed before the Board within a few weeks, and a site will then be determined upon, and it is hoped that the contract will be let before the first of the year. The contract for the Industrial School for Boys, in Roxbury, will also probably be let before the first of the year; and this also applies to a new 16-room schoolhouse for lower elementary grades in the Oliver Wendell Holmes District.

Since becoming a member of the Schoolhouse Commission I have made it a practice to visit the different schoolhouses under construction, and also a number of the minor alteration and repair jobs, and in the first few months I was surprised to find among the inspectors and some of the architects and builders a feeling that there was supposed to be considerable leeway allowed in carrying out the terms of the contracts and specifications, and repeatedly I have called attention to different parts of the work,

where it seemed to me it was not being done in accordance with the plans and specifications, and the general reply was "Well, that is the customary way of doing the work." I am pleased to say now, however, this system has been completely changed, and the architects, contractors and inspectors now understand that the contracts and specifications are to be carried out both in the letter and the spirit. The work is being much better done, and the orders of the Commission are carried out promptly and effectively.

Another point which has been a matter of very great surprise to me was the manner in which contracts have been let under previous Boards, the sole object apparently being to get the contracts for the different buildings let at the lowest possible price, by eliminating essential parts of the construction of the building from the original contract, and afterwards adding on these parts as extras. In future, the entire work necessary to complete the school building, with its yards, fences, etc., ready for occupancy, will be included in the original contract price, so that the City of Boston will know, when the contract is signed, that the price agreed upon will be the total cost of the school, so far as it is possible to do this.

One of the items that surprised me particularly I found had occurred in two cases, where it must have been known that a ledge existed under the proposed location of the school buildings, but the contract in both cases was made on the basis of ordinary earth excavation. The extra cost for blasting out these ledges, amounting to many thousands of dollars, has since been added to the original cost of these buildings on extra orders, and the only advantage that seems to have been gained was that the former Board could advertise the fact that they were building schoolhouses more cheaply than their predecessors.

One feature of the equipment of a modern school is what is known as a tackboard. These tackboards occupy the space on the walls of the schoolrooms formerly occupied by the blackboards. They are used by the teachers for hanging cards, pictures, etc., on them, to illustrate the subjects for the children. These tackboards occupy a space about nine feet high, measured from the floor, and are generally about fifteen or twenty feet long, depending on the width of the room. They have been constructed of wood sheathing covered with burlap tacked on loosely over the sheathing. In several schoolhouses I noticed that this bagging was very dusty and dirty and looked very unsightly, and it appeared to me to be a very unsanitary arrangement, and the Board has now under discussion, and will probably adopt, a different method of construction for these tackboards, using what is known as cork carpet for the surface, to which the cards and pictures can be easily and quickly attached. These tackboards will then be built exactly the same as the blackboards, with chalk rail and moldings around them, and will have the same appearance as the blackboards, with the exception of the color. The Board believes that this will make a very much better and more sanitary tackboard, and the extra cost will be trifling, as the tackboards will be built only to go as low as the chalk rail of the blackboards, and the extra space underneath, which was formerly wasted, will be finished in the usual manner with plaster. The appearance of the rooms with this innovation will be decidedly improved in every particular.

Another important matter which was called to my attention was the unsatisfactory and unsightly appearance of the basement floors in the different buildings. The City of Boston is supposed to get first-class granolithic and asphalt floors in the basement, but the specifications were so loosely drawn that the results have been far from satisfactory. The specifications have now been revised, so as to get in future floors that will be satisfactory and worth all that the City of Boston will be required to pay.

Another innovation will consist of having all the wood trim made with as few moldings and as simply as possible. The practice of using paneled doors for schoolrooms and wardrobes will be eliminated, and smooth heavy veneered doors used instead. The doors and the trim will then have much the same appearance as those used in the modern up-to-date steel sleeping cars, as made by the Pullman Company.

By the elimination of these moldings and panels, there will be no places for dust to lodge, and the work of the janitors will be very much simplified; and we will have schoolhouses that are up to date and modern in every particular.

The Board has under consideration also a new style of metal baseboard, or mopboard, as it is more familiarly known. This new mopboard will be made entirely of rolled steel, formed like a hospital base, and put on in such a manner that the plastering and the mopboard will appear as one piece, without any projection or joint appearing. This also will eliminate one very bad feature of the old style method of constructing mopboards.

After twenty-five years' experience as contractor for all classes of buildings, it has seemed to me that fireproof construction is the only form of construction that should be used in public buildings, and particularly schoolhouses, and it is my belief that first-class fireproof buildings can be built at a cost not to exceed 10 per cent over the ordinary second-class construction; and the Board has under way plans for a very large schoolhouse which will be entirely first class in every particular, and which we believe will show conclusively that such buildings, if properly planned, can be built nearly as cheaply as those built of second-class construction under former administrations.

CLAIMS.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Margaret V. Hickey in the amount of \$20, for compensation for damages to property, 144 Westville street, Dorchester, by bursting of fire hose, September 23, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Hulda Peterson, in the amount of \$50, for compensation for injuries caused by a fall upon the sidewalk in front of 63 Lexington street, Charlestown.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of David M. Biggs, in the amount of \$300, for compensation for the loss of a valuable colt, killed by dogs, June 14, 1914.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Thomas J. Fitzgerald, in the amount of \$100, for compensation for personal injuries caused by a hole in the curbstone at the northeast corner of Washington and East Newton streets, July 27, 1913.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

CEMETERY DEPARTMENT.

The Cemetery Trustees advertise for proposals for erecting a fireproof garage at the Superintendent's House, Mount Hope Cemetery, Boston. Surety bond will be required in the amount of \$300. Blank forms for proposals may be obtained at the office of the Cemetery Trustees, 1001 City Hall Annex. Bids, accompanied by a certified check in the amount of \$100, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor. Supplemental information relative to this contract may be obtained at the office of the architects, Berry & Davidson, 29 Central street, Boston.

Bids close Monday, September 28, at 12 m.

HOSPITAL DEPARTMENT.

Advertises for proposals for changes and additions to heating of East and West Pavilions, Domestic and Laundry Buildings, South Department. Surety bond will be required in an amount equivalent to 25 per cent of the contract. Blank forms for proposals may be obtained at the office of Architect Joseph McGinniss, 112 Water street, Boston, on and after September 15, 1914. Bids, accompanied by a certified check in the amount of \$300, to be filed at the office of the Trustees, City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, September 23, at 12 m.

Advertises for proposals for changes and additions to East and West Pavilions, Domestic and Laundry Buildings. Surety bond will be required in an amount equivalent to 25 per cent of the contract. Blank forms for proposals may be obtained at the office of Architect Joseph McGinniss, 112 Water street, Boston, on and after September 15, 1914. Bids, accompanied by a certified check in the amount of \$750, to be left at the office of the Trustees, City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, September 23, at 12 m.

Advertises for proposals for changes and additions to plumbing of East and West Pavilions, Domestic and Laundry Buildings, South Department. Surety bond will be required in an amount equivalent to 25 per cent of the contract. Blank forms for proposals may be obtained at the office of Architect Joseph McGinniss, 112 Water street, Boston, on and after September 15, 1914. Bids, accompanied by a certified check in the amount of \$300, to be filed at the office of the Trustees, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, September 23, at 12 m.

The Trustees of the Boston City Hospital advertise for proposals for the purchase of seven tons, more or less, of old iron, mixed metals, now stored upon the grounds of the main hospital. The purchaser must remove the materials within a reasonable time. Proposals

should state the price for the entire lot. The bidder must deposit, in cash or certified check, an amount equal to the total bid and to be filed with the Superintendent, Boston City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending Thursday, September 17, 1914:

ASSESSING DEPARTMENT.

At a meeting of the Board, it was voted to elect the following-named first assistant assessors in place of the eight provisional appointees employed last April, and Mayor Curley has formally approved the same:

Charles A. Murphy, John H. Nout, Alonzo F. Andrews, Edward E. McGrath, Henry W. Reynaud, James F. Maguire, John S. McDonough, James F. Eagan.

AUDITING DEPARTMENT.

Julien C. Haynes has been designated to act as auditor at such times as J. Alfred Mitchell, City Auditor, may be absent during the four weeks beginning Monday, September 14, 1914.

CHILDREN'S INSTITUTIONS DEPARTMENT.

The Mayor has approved a payment to Michael J. Murphy, in the amount of \$15, for extra service at the Parental School. Mr. Murphy has been night watchman at the institution at a wage of \$35 the month. During the month of August Mr. Murphy performed added day labor, for which he has been compensated at the rate of \$2 the day.

COLLECTING DEPARTMENT.

John J. McCarthy has been designated to serve as Acting City Collector at such times as City Collector John J. Curley may be absent during the four weeks commencing September 17, 1914.

CONSUMPTIVES' HOSPITAL DEPARTMENT.

The following have been appointed to fill vacancies:

Nora Melville, cook, at \$18 a month; Lizzie Keene, cook, at \$35 a month; Nellie Roche, promoted from \$20 to \$25 a month (laundress); Antonio Sudnart, promoted from \$18 to \$20 a month (laundress); Kathleen Lynch, laundress, at \$18 a month; James McNally, choreman, at \$18 a month; Annie Cosgrove, maid, at \$18 a month; Bridget McKinley, maid, at \$18 a month; Mary Simpson, maid, at \$18 a month; Mollie Benjamin, maid, at \$18 a month; Ellen M. Dolan, nurse, at \$40 a month; Mary A. Sullivan, temporary nurse, at \$40 a month.

FINANCE COMMISSION.

The employment of Miss Florence Larkin as stenographer in the office ceased on September 15, 1914.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital during the past week:

To Fill Vacancies.

Permanent.—Sadie Cronin, kitchen woman, re-employed, \$14 per month; Alice Jennings, assistant table girl, \$14 per month; Charles E. Davis, center orderly, \$20 per month; Norman Hobart, center orderly, \$20 per month; Edward L. Fitzgerald, orderly, \$25 per month; George L. Whorf, orderly, \$25 per month; Eliza Bernard, ward helper, \$5 per week; Mary Manning, ward helper, \$5 per week; Bridget Kenney, ward helper, \$14 per month; May O'Brien, ward helper, \$5 per week; Annie J. Addison, cook, \$35 per month; Margaret Bailey, kitchen maid, \$15 per month; Nellie Fowler, scrubber, \$5 per week; Lena West, laundress, \$16 per month.

Temporary.—Margaret Johnson, table girl, re-employed, \$5 per week; Ethel Wheeler, nurse, \$9 per month; Marion Jackson, X-ray attendant, re-employed, \$15 per week.

The following employees have had increase of wages:

Patrick T. Mahoney, ambulance driver, \$14 to \$17.50 per week (in lieu of meals); Joseph A. McCarthy, center orderly at \$20 to orderly at \$25 per month; Mary P. Pollycutt, nurse, \$8.33 to \$12 per month; Annie McDonough, laundress, \$28 to \$30 per month; Mattie M. Dolan, laundress, \$26 to \$28 per month.

LAW DEPARTMENT.

George A. Flynn of the Law Department has been designated to act as Corporation Counsel for two weeks, beginning Tuesday, September 15, 1914, during which time John A. Sullivan, the Corporation Counsel, may be absent from the city from time to time.

LIBRARY DEPARTMENT.

The trustees have authorized the following service changes in the Library Department:

Grade Increases in Pay.—John Barry, Executive Department, \$7 to \$8 per week, September 12; Catherine L. Kennedy, Issue Department, \$6 to \$6.25 per week, September 16; Elizabeth M. Rosemond, Issue Department, \$5.50 to \$6.25 per week, September 16; Sophy R. Phillips, Catalogue Department, \$12 to \$13 per week, September 20; George McCarthy, Periodical Room, \$5 to \$6 per week, September 22.

OVERSEEING OF POOR DEPARTMENT.

At a meeting of the Board of Overseers of the Poor it was voted that the Civil Service Commission be asked to authorize the Board to continue indefinitely the services of Daniel Murphy, whose employment was authorized for eight weeks, from July 9, in the Supply Department.

His name has been received from the Civil Service Commission, being first on a list of three, and he has received appointment at a salary of \$12 the week, with the approval of the Mayor.

George F. A. Mulcahy having been given, by advice of his physician, two weeks' extra vacation without pay, the Civil Service Commission has authorized the extension of provisional clerk David F. Leahy's services for two weeks from September 15, 1914.

PARK AND RECREATION DEPARTMENT.

Anthony S. McNealy has been appointed assistant curator of the Zoological

Garden at Franklin Park, at a salary of \$1,500 the year.

PENAL INSTITUTIONS DEPARTMENT.

Patrick J. Tully has been employed as a fireman temporarily on the steamer "Monitor," beginning September 14, 1914, and to continue for one month at a salary of \$3.25 the day.

Francis H. Harrold has been appointed to the position of helper on the steamer "Monitor," at a salary of \$800 the year, to date from September the 18th.

PUBLIC BUILDINGS DEPARTMENT.

Michael B. Kenney has been appointed to the position of watchman at the Roxbury Courthouse at a salary of \$2.50 the day, same to take effect on Monday, September 14, 1914.

Agnes Fetherston, employed in the Wire Department as a telephone operator at a salary of \$700 the year, has been transferred to the Public Buildings Department. Employment in this department to be with a similar rating, and wage at the rate of \$12 the week.

Katherine E. McManus, employed in the Public Works Department as a telephone operator at a salary of \$800 the year, has been transferred to the Public Buildings Department, with a similar rating, and wage at the rate of \$12 the week.

Agnes Daley, employed in the Public Works Department as a telephone operator at a salary of \$800 the year, has been transferred to the Public Buildings Department. Employment in this department to be with a similar rating, and wage at the rate of \$12 the week.

PUBLIC WORKS DEPARTMENT (Paving Service).

Patrick A. Dolan of the department has received an increase of wages from \$3.50 the day to \$1,200 the year, with change of rating from inspector to subforeman, to take effect September 18, 1914. This increase is to be subject to the present reduction of 5 per cent, making his net salary \$1,140.

SOLDIERS' RELIEF DEPARTMENT.

John D. Connors having passed the Civil Service examination successfully has been appointed clerk and visitor in the department at a salary of \$1,500 the year.

TREASURY DEPARTMENT.

Benjamin S. Turner has been designated to serve as Acting City Treasurer at such times as C. H. Slattery, City Treasurer, may be absent during the four weeks commencing September 14, 1914.

WIRE DEPARTMENT.

James T. McKenney, at present employed as assistant watchman in the Penal Institutions Department, steamer "Monitor," has been transferred to the Wire Department, under the rating of laborer, at a wage of \$2.50 the day, same to take effect Thursday, September 17, 1914.

OVERTIME ALLOWED.

The heads of various departments whose employees have received payment for overtime state in connection therewith that if any laborer has been allowed to work more than eight hours per day it has been only in case of emergency under the law.

Election Department.

HEARTY ASSURANCES TO REDMOND.

Mayor Curley sent the following cablegram of hearty congratulation to John E. Redmond, the Irish leader, upon the 18th instant:

MAYOR'S OFFICE.

CITY OF BOSTON,

September 18, 1914.

HON. JOHN E. REDMOND,
Commons, London:

Irishmen throughout the world rejoice that public opinion and progress have proven more powerful than armies and navies, and that Home Rule for Ireland has been made possible without further sacrifice of human life.

JAMES M. CURLEY.

ERECTION OF GARAGES.

The Mayor has approved the order of the Board of Street Commissioners in the erection of private garages as follows:

Sarah J. Probert, 46 Lincoln street, Ward 26.

Jacob G. Elz, 86 Orchard street, Ward 22.

Joseph Ventola, 1 Jackson street, Ward 26.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts; contract for moving school-houses; also contracts for sidewalks

PUBLIC WORKS DEPARTMENT.

The Acting Commissioner of Public Works states his intention to construct a sanitary sewer of 10-inch earthen pipe and a surface drain of 10, 12 and 15 inch earthen pipe in Hunter street and private land, between Norfolk and Morton streets, Dorchester, at an estimated expense cost of \$2,300.

The Acting Commissioner of Public Works states his intention to construct a sanitary sewer of 8-inch earthen pipe, a surface drain of 10 and 12 inch earthen pipe and three catch-basins in Fabyan street, between Blue Hill avenue and Harvard street, Dorchester, at an estimated cost of \$2,210.

The Acting Commissioner of Public Works states his intention to construct a sanitary sewer of 8-inch earthen pipe in Caton street, between Hollingsworth street and a point 370 feet easterly, Hyde Park district, at an estimated cost of \$1,010.

The Acting Commissioner of Public Works states his intention to construct a sanitary sewer of 12-inch earthen pipe in City square, north and west sides, between Main and Harvard streets, Charlestown, at an estimated cost of \$465.

The Acting Commissioner of Public Works states his intention to construct a surface drain of concrete, 2 feet 6 inches in diameter, of 24-inch earthen pipe, and a sanitary sewer of 10-inch earthen pipe, in takings of land made by the Board of Street Commissioners, in private land, between Hyde Park avenue and Rowe street, West Roxbury, at an estimated cost of \$2,500.

The Acting Commissioner of Public Works states his intention to construct a sanitary sewer of 8, 10, 15 and 20 inch earthen pipe and an automatic sewage ejector in Milton street, from Hyde Park avenue about 1,879 feet southeasterly, and Hamilton street, between Milton street and the Trotting Park, in the Hyde Park district, at an estimated cost of \$14,318.

The Acting Commissioner of Public Works states his intention to construct a

sanitary sewer of 12-inch earthen pipe, and a surface drain of 18 and 24 inch earthen pipe, in a taking made by the Board of Street Commissioners in Dunbar street, from Walker street 590 feet northeast and in private land, between Dunbar and Weld streets, West Roxbury, at an estimated cost of \$10,725.

The Acting Commissioner of Public Works states his intention to construct a sanitary sewer of 8-inch earthen pipe in Huntington avenue, between Jefferson and Safford streets, in the Hyde Park district, at an estimated cost of \$3,267.

The Acting Commissioner of Public Works states his intention to construct a sanitary sewer of 8-inch earthen pipe in Lockwood street, between Metropolitan and Huntington avenues, in the Hyde Park district, at an estimated cost of \$1,752.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

PUBLIC WORKS DEPARTMENT.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force, without advertising for competitive bids:

Resurface with asphalt macadam Saratoga street, from Putnam to Shelby street, East Boston. Estimated cost for labor and materials, \$2,700.

Relay existing granite block, on gravel base, with grout joints, Dix place, from Washington street to Tremont street, city proper. The estimated cost for labor and materials is \$3,000.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by his Honor the Mayor:

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$264.37, on contract with Coleman Brothers for constructing Avery street, between Washington and Tremont streets, on account of furnishing and setting in place 4,416 feet B. M. 8 by 6 timber; moving pipe at South Bay Avenue Yard; adjusting test plug; setting additional high pressure fire hydrant at Washington street. Original contract, \$9,215.60; total additions, \$3,364.37; contract as standing, \$12,579.97.

An addition, amounting to \$25, on contract with Martino De Matteo for constructing Kittredge street, from Metropolitan avenue to Cornell street, West Roxbury, on account of raising one manhole over 6 inches and lowering one manhole over 6 inches. Original contract, \$4,603.83; total addition, \$25; contract as standing, \$4,628.83.

Coleman Brothers have been ordered to omit pitch joints for granite block paving and substitute grout joints under their contract dated September 12, 1913, for bitulithic pavement in Harvard street, between Commonwealth avenue and Cambridge street, Brighton. No extra charge to be paid for same.

An addition, amounting to \$170, on contract with Frank J. Gallagher for artificial stone sidewalks in Metropolitan avenue, from Kittredge street to beyond Granada avenue, West Roxbury, on account of constructing artificial stone steps where directed; setting and resetting return stones for driveways and grading banks, as directed. Original contract, \$1,945.73; total addition, \$170; contract as standing, \$2,115.73.

PUBLIC WORKS DEPARTMENT (Sewer Service).

An addition, amounting to \$80, on contract with Antony Cefalo for sewerage works in Kittredge street, Denton terrace, Hemman street extension, Washington and Auburn streets, Roslindale avenue, Alder street and Fresno street, West Roxbury, on account of raising old man-holes; lowering about 90 feet of old house drain. Original contract, \$23,868.26; total addition, \$80; contract as standing, \$23,948.26.

An addition, amounting to \$73, on contract with M. De Sisto for sewerage works in Navillus terrace and Pleasant street, Dorchester, on account of building one extra catch-basin and laying 24 feet of extra 10-inch pipe catch-basin drain at Victoria street. Original contract, \$861; total addition, \$73; contract as standing, \$934.

PUBLIC WORKS DEPARTMENT (Water Service).

An addition, amounting to \$70, on contract with the Lockwood Manufacturing Company for furnishing and replacing two water ends on salt water pumps Nos. 1 and 2 at the Calf Pasture pumping station, Dorchester, on account of installing two sets of counterweights. Original contract, \$2,115; total addition, \$70; contract as standing, \$2,185.

An addition, amounting to \$42.61, on contract with James L. Bryne for laying and relaying water pipes in Dale, Elmore and Kensington streets, Roxbury, on account of regulating two 10-inch catch-basin drains and replacing one length of defective 12-inch pipe, Elmore street; regulating one 10-inch catch-basin drain, Kensington street. Original contract, \$5,336; total addition, \$42.61; contract as standing, \$5,378.61.

An addition, amounting to \$105.32, on contract with Roger P. Cushing for laying water pipes in various streets in Brighton and Dorchester, on account of grading Colorado street, Dorchester; setting gate and removing obstructions, Gorham street, Brighton; building embankment and furnishing extra joints, Seattle street, Brighton; furnishing lead for joints, Stratton street, Dorchester. Original contract, \$10,626.50; total additions, \$179.53; contract as standing, \$10,806.03.

An addition, amounting to \$232.79, on contract with John Guarino for laying water pipes in various streets in West Roxbury, Roxbury and Hyde Park, on account of repairing defective hydrant, Greateon road; extra work at Stony brook, Hyde Park avenue, Hyde Park; setting gate and extra pumping, Kittredge street, West Roxbury; repairing drain, Vose avenue, Hyde Park. Original contract, \$10,374; total additions, \$413.73; contract as standing, \$10,787.73.

Additions, amounting to \$341.85, on contract with Thomas Burke for excavating and refilling trenches and openings, setting and regulating boxes, establishing hydrants, gates, etc., on account of hauling, handling and laying 102 linear feet 6-inch pipe, Heath avenue, Roxbury; 230 linear feet 12-inch pipe, Parker Hill avenue, Roxbury; 127 linear feet 6-inch pipe, Bolster street, West Roxbury; 108 linear feet 6-inch pipe, Adelaide street, West Roxbury; 33 linear feet 8-inch pipe, Ashcroft street, West Roxbury; 274 linear feet 8-inch pipe, Gore street, Roxbury; 114 linear feet 6-inch pipe, Concord place, city proper; replacing defective branch, Ellingwood street, Roxbury. Original contract, \$16,382.75; total additions, \$1,162.76; contract as standing, \$17,545.51.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$15, upon contract with the Charles D. Redmond Company for work at the Dorchester High School. For changing platforms in Rooms 13, 16, 24, 25 and 26. Original contract, \$1,852.70; total additions, \$15; contract as standing, \$1,867.70.

An addition, amounting to \$583.41, on contract with C. S. Cunningham & Sons Construction Company for work at the E. P. Tileston School. For extra finish hardware, assembly hall, \$25; for changing of conduit under assembly hall doors, \$19.41; for removing tar from wall in game room, \$25; for smoothing and pointing brickwork in lavatories, \$10; for relaying part of asphalt floor in lavatories, \$40; for paving yards with brick, \$500. A deduction of \$36, upon the same contract, for omitting furring and plastering of heat duct in boiler room. Original contract, \$66,700; total additions, \$6,928.87; total deductions, \$3,750; contract as standing, \$69,878.87.

An addition, amounting to \$193.84, on contract with the C. S. Cunningham & Sons Construction Company for work at the E. P. Tileston School. For extra work on conductor, hung to basement ceiling, instead of under basement floor, plumbing, \$151.62; extra cutting, patching and refilling, \$24.60; 10 per cent, \$17.62. Original contract, \$66,700; total additions, \$7,122.71; total deductions, \$3,750; contract as standing, \$70,072.71.

An addition, amounting to \$225, upon the contract of McGahey & O'Connor for work at the High School of Commerce. For refilling with bank gravel the boiler room floor. Original contract, \$469,995; total additions, \$260; total deductions, \$2,750; contract as standing, \$467,505.

CONTRACTS FOR SIDEWALKS.

Upon September 16 the Mayor approved a contract with C. C. Chisholm, Hyde Park district, for the construction of artificial stone sidewalks. The contractor is not selected by the city but by the abutters and the expense of construction is divided between the city and the abutters.

Upon September 16 the Mayor approved a contract with the John McCourt Company for the construction of artificial stone sidewalks. The contractor is not selected by the city but by the abutters and the expense of construction is divided between the city and the abutters.

Upon September 18 the Mayor approved an award of contract for the construction of artificial stone sidewalks to The Urban Concrete Company. The contractor is not selected by the city, but by the abutters, and the expense of construction is divided by the city and the abutters.

CONTRACTS FOR MOVING SCHOOL-HOUSES.

In view of the facts presented by Chairman Joseph P. Lomasney in a communication setting forth the immediate necessity of moving portable schools, the Mayor has approved a contract for moving schools Nos. 60 and 61 from the Noble School, East Boston, to the Lyman School, East Boston, with Peter F. Lamont, and in the amount of \$1,200.

The letter of Chairman Lomasney is as follows:

September 14, 1914.

HON. JAMES M. CURLEY, Mayor:

DEAR SIR,—As per my conversation with you on Saturday last, I respectfully request your official approval to the contract between this Board and Peter F.

Lamont for moving two portable schools, Nos. 60 and 61, from the Noble School, East Boston, to the Lyman School, East Boston, for the sum of twelve hundred (1,200) dollars.

The reason for this request is that as each portable will cost \$600 to move, the amount is over \$1,000, and the Board is therefore compelled to request your Honor's approval; and as per my conversation with you on Saturday, the need for moving these portables is very great, in order to accommodate school children in that section who will be without quarters if the portables are not moved with great dispatch.

Respectfully yours,

J. P. LOMASNEY,
Chairman.

FINANCE COMMISSION.

BOSTON, September 17, 1914.

HON. JAMES M. CURLEY, Mayor:

SIR,—The Finance Commission, as a result of an investigation made by its representative, would report upon a lot of land at the corner of Tower and Washington streets, Forest Hills.

Previous to April 11, 1910, this lot was owned by R. E. Cochrane, contained 4,240 square feet, and was assessed for \$7,500. The buildings on the land consisted of an old one-story building, used as a real estate office, and in the rear an old one-story building, used for a pool and lunch room.

On April 11, 1910, the Street Commissioners of the City of Boston took 1,740 square feet, leaving the Cochrane land 17 feet back from Washington street. Later, the Street Commissioners made an additional, temporary, one-year taking of the balance of the Cochrane lot for the purpose of using it during the construction period of the Stony brook channel. The City of Boston, by agreement, paid as damages for the takings \$9,000 with costs, or a total of \$9,882. In addition, the Sewer Division of the Public Works Department paid \$935 to Soley & Blair for removing and replacing the old buildings mentioned above.

The two one-story buildings in question, that were moved back, are now situated partly on the city's land and partly on private land, one occupied by Mr. Cochrane as a real estate office and the other used for a public lunch room. Mr. Cochrane is not paying for the privilege of occupying the city's land, but claims that at the time the land was taken from him for the purpose of widening Stony brook channel it was orally agreed between the Chairman of the Street Laying-Out Department and Mr. Cochrane that the latter could occupy the land rent free.

In reply to a request of the Finance Commission for information in reference to the claim, the chairman of the Board of Street Commissioners sent the following letter:

"Your letter of September 9 is at hand. This Board has never made any agreement with the occupant of land at the corner of Tower and Washington streets, Forest Hills, for an indefinite possession and use of the land. This Board has no power to make any such agreement. At the request of the Sewer Department we made a taking of this land and settled the damages. I am informed that the building remains over a part of the land at present, although I am not absolutely certain of this. I think you will find there are other parts of Stony brook where buildings extend over the city's

land somewhat. I remember distinctly calling to the attention of the Superintendent of Public Works that at least once in twenty years some one should go the whole length of this brook and post the notices required by law so that no one would gain any rights by adverse possession.

"In regard to the facts that we possess concerning this property, there are no facts except the order of taking and the award. These you are undoubtedly acquainted with at the present time.

"If there is anything further that I can do to assist you in this matter I shall be very happy to do so."

The Finance Commission is of the opinion that Mr. Cochrane is occupying land of the City of Boston unlawfully.

It recommends that the necessary steps be taken, through the Law Department, to compel Mr. Cochrane to vacate the city's land, and that such further steps be taken as are necessary to protect the rights of the City of Boston wherever buildings extend over on the city's land in other parts of the Stony brook district.

Respectfully submitted,

THE FINANCE COMMISSION,

by JOHN R. MURPHY,
Chairman.

POLICE REGULATIONS FOR PRIMARY DAY.

General Order No. 887.

September 14, 1914.

The Superintendent of Police is hereby directed to make the following details for duty at the State Primary in this city on the 22d instant:

1. Three patrolmen for duty in the office of the Election Commissioners from 4 o'clock p. m., September 21, until relieved.

2. A sergeant and ten patrolmen for duty in Court square, keeping carriages in line, from 4 o'clock a. m. and from 8 o'clock p. m., September 22, until relieved.

3. The necessary number of patrolmen from the several police divisions to attend the several polling places in this city on State Primary Day, to preserve order and protect voters in the full exercise of their rights.

4. Two hundred and twenty-five patrolmen to convey the registering ballot boxes, voting lists and other documents from the Election Commissioners' office, City Hall Annex, Court square, to the polling places, and deliver them to the warden or clerk of the precinct, allowing no person to take or examine them before such delivery. They will report promptly as follows: Patrolmen from the First, Second, Third and Fourth Divisions at office of the Board of Election Commissioners, City Hall Annex, at 5 o'clock a. m.; patrolmen from the Seventh, Ninth, Tenth, Eleventh, Twelfth, Thirteenth and Fourteenth Divisions will report at their respective station houses at 4 o'clock a. m.; patrolmen from the Fifth, Sixth, Fifteenth and Sixteenth Divisions at 4.30 o'clock a. m.; and those of the Seventeenth Division to report at the station house of Division 13 at 3.30 o'clock a. m. (excepting the patrolmen for Ward 23, Precinct 4, who will report at the station house of Division 13 at 4 o'clock a. m.) and proceed thence in carriages to the Election Commissioners' office.

5. Two patrolmen from Division 18 to report at the Election Commissioners'

office on Monday, 21st instant, at 3 o'clock p. m.; thence to proceed in a vehicle provided for the purpose to the station house of Division 18 with the ballot boxes and paraphernalia required for the primary in Ward 26.

6. Seven patrolmen from Division 18 to report at the station house of that division at 4.45 o'clock a. m., September 22, 1914; thence to proceed in a vehicle provided for the purpose, with ballot boxes and other paraphernalia, and distribute the same to the various precincts in Ward 26.

7. On arriving at the polling places to which they are assigned, officers will deliver to the warden or clerk of the precinct the registering ballot box, voting lists and such other documents as may be received from the Election Commissioners, and hand the key of the registering ballot box to the warden. On delivery of the ballots to the warden, the police officer will take from him a receipt for the ballots, which receipt will be returned to the Election Commissioners.

8. After the warden has opened the box and allowed the election officers and the public to see that it is empty, the box is to be again locked and the key given to the police officer, who is to retain it until after the polls have closed, except that the warden may be allowed to open the box for the purpose mentioned in section 3 of the circular issued by the Board of Election Commissioners, entitled: "Instructions to Police Officers on Primary Day." They will remain on duty at the polling places during such hours as their superior officers may designate. Commanding officers will exercise their judgment in relieving officers during the day, but will see that one or more officers are always on duty at the polls.

9. When the polls close the officers detailed for the purpose will receive the unused and spoiled ballots, registering ballot box and key thereof, voting lists envelope, signed by the warden and other election officers, receipts for ballots, stamps for marking spoiled ballots, carry them to the Election Commissioners' office, and deliver them to some member

of the Board of Election Commissioners in person.

10. When the ballots are sorted and counted the officers detailed for the purpose will receive in the box sent for the purpose the tally sheets and ballots, which box is to be sealed and signed by the election officers. The officers will bring the box, official return, precinct seal, press return and stamps for marking defective ballots to the office of the Election Commissioners, and deliver same to some member of the Board of Election Commissioners.

11. After the close of the polls a vehicle, provided for the purpose, will be sent to the various precincts in Ward 26 to bring police officers with regular ballot boxes, unused ballots, etc., to the station house of Division 18, from which place only two officers need accompany the vehicle with the regular ballot boxes, unused ballots, etc., to the office of the Election Commissioners.

12. While the polls remain open an officer of rank will visit the polling places in each division at stated intervals, to be designated by the captain, and in case of any disturbance will report the fact to the commanding officer at the station house without delay. If additional men are needed beyond the number available in that division, the officer in charge will communicate immediately with headquarters.

13. Special attention is called to the circular issued by the Board of Election Commissioners, entitled: "Instructions to Police Officers on Primary Day," and commanding officers of divisions will see that each officer detailed for duty on Primary Day is furnished with a copy.

14. A list of the names of the officers detailed for duty on State Primary Day and the police stations to which they are attached will be furnished to the Board of Election Commissioners.

Note.—Refreshments, consisting of coffee and sandwiches, will be provided by the Board of Election Commissioners in Station House No. 2 for the officers detailed to report at the office of the Election Commissioners on the morning of September 22.

MEETING OF RETIREMENT BOARD.

A meeting of the Retirement Board for City Laborers was held on Wednesday, September 16, at 12.30 p. m. The following employees were retired, the retirements to date from Friday, September 18, 1914, at the rate of \$360 per annum.

CHAIRMAN CLARK VISITS BOSTON.

Hon. Edgar E. Clark, Chairman of the Interstate Commerce Commission, was the guest of Mayor Curley, upon the 15th instant, and was extended the freedom of the city.

A luncheon was tendered at the Parker House by the Mayor in honor of Chairman Clark, and among the guests were Lieutenant Governor Barry, Hon. John A. Sullivan, President James H. Hustis of the Boston & Maine Railroad, President P. F. Sullivan of the Bay State Street Railway Company and Vice-President Mathew C. Brush of the Boston Elevated Railway Company and Commissioner Charles Gibson of the Park and Recreation Department.

During the afternoon Chairman Clark was driven through the park system of Boston, dined by Commissioner Gibson and entertained as a guest at the Shubert Theater.

It was Chairman Clark's first visit in Boston and he stated that it was also the first time that he had left his desk in Washington since last March owing to the labors involved in the railroad rate decision.

Chairman Clark addressed the passenger and traffic agents of the railroad and steamship lines of the United States and Canada at the Copley-Plaza Hotel.

Prior to his departure for Washington, Chairman Clark prepared exclusively for the *City Record* the following statement relative to the position of the Interstate Commerce Commission as a court of arbitrament in railroad affairs:

"During my Boston visit, I hope to lay the basis for better relations with the Interstate Commerce Commission.

"In some quarters the Commission is accused of being unduly friendly to the railroads, and in other quarters it is accused, at the same time, of being totally hostile to the railroads. As is generally true of declarations coming from extremists on either side, none of these accusations is true or in any sense accurate.

"Facts disclosed by investigation are our guide. In so far as we exercise our judgment, we do it in a judicial spirit. And having satisfied our consciences that a decision is just and right, we are free from worry as to whether that decision will be popular.

"The Commerce Commission is composed of conservatives who believe in making for progress in the transportation industry by degrees without resorting to precipitate steps that would mean destruction. All railroads cannot be equally profitable to their owners, but we desire to help you in rendering an efficient service with profits that are fair and liberal to the railroads. We desire to do a constructive and not a destructive work.

"Since the so-called 5 per cent rate case arose, there has been a great deal of misunderstanding in which I can see nothing but harm to all concerned. If the commission changes its mind as a result of the railroads' petition for reconsideration of that case, it will be on the basis of new facts and new circumstances which they declare they can prove to have arisen since last fall. They have no desire to reopen the old record.

"We have known for several days that the railroads intended to come forward with the formal petition they have just filed. While it may be possible even before October 1 for the commissioners to come to some decision as to whether or not we will reopen the case, it is unlikely that there will be any meeting of the full

board until the first of October and therefore, if the case is reopened, that there can be any hearings before next month.

"The fear of onslaughts on American railroad credit coincident with the opening of the stock exchanges is, of course, natural, for the outlook for railroads successfully and satisfactorily to finance themselves and refund their maturing obligations has been very seriously complicated by the financial conditions resulting from the European war.

"The Interstate Commerce Commission has no more desire than anybody else to see the railroads crippled financially or otherwise. We realize the importance and the necessity of well-equipped, well-maintained and thoroughly efficient railroads and we know that they cannot be constructed, maintained or operated without money.

"If transportation costs more and there are no unreasonable profits, it will necessarily have to be sold at a higher price.

"So far as passenger fare increases, on mileage books, are concerned, the bulk of those recently filed are scheduled by the railroads to become effective October 1. We have given no consideration to the question of suspending these tariffs, and if any protests are filed we shall try to take them up with the railroads before resorting to any suspension of the effective date of the new tariffs, provided, of course, that there is time to do so.

"I congratulate the railroad men of the country upon the part they have played in building up the most comfortable and luxurious passenger service in the world, and when quality of service is considered, it is the cheapest.

"The railroad business is necessarily done in a hurry. Nearly everything except safety is subordinated to expedition, and unfortunately sometimes safety is given second place. The questions that must be decided are multitudinous in number. Frequently they must be decided quickly to make room for others that are treading on their heels.

"Our railroads were not built to serve sections of developed country or of established towns and industries. They have, as a rule, been projected into undeveloped territory upon the faith of the resources to be developed. Government, states, counties and municipalities often extended aid. The great part which railroads were to play in development of our vast domain was recognized and the advent of a new road was hailed with joy.

"For a long time it seems to have been the generally accepted idea that the railroad had transportation to sell and that, like a private concern, it could sell it to whom it chose and at any price it chose. Each railroad sought to encourage and assist development along these lines. Rates, sometimes overdone, were made to afford the shippers on its line access to widely separated competitive markets. Naturally, discriminations grew up, and having sprung into being, grew apace. Finally it became necessary for the Government to put forth a restraining hand and to assume regulations to some extent of these arteries of communication upon which industrial and commercial life of the nation depends, and which serve in every walk and phase of private life.

"The railroads were created and exist by virtue of grant of authority extended by organized government. They never could have been built without the right of eminent domain. From the beginning they and their operations were subject to the Constitutional provision that the jurisdiction of Congress over commerce between the states is plenary. Certain

powers to be exercised with definite limits are delegated by the Congress to an administrative commission. There are many, many angles to the many questions that are presented, or that present themselves, in connection with the administration of the act to regulate commerce and yet the fundamental principles of the law and its requirements are few and simple.

"All charges for services rendered by the carrier must be reasonable and just, that is, they must be reasonable and just to the carrier and to the carrier's patrons. Unjust discrimination in any form or through any device is prohibited. There can be but one lawful charge for a given service and that charge must be collected alike from all for whom that service is rendered.

"The reasonableness and justice of a charge and the discriminatory or non-discriminatory character of a charge, rule or practice are questions of fact upon which widely divergent views might, and probably would be, entertained by those whose interests are involved on either side; hence the necessity for a forum in which such controversies may fully be presented and decided. The Supreme Court of the United States has said that the uniformity required by the law would be destroyed if the several courts in different jurisdictions were to pass upon findings of fact by the commission and that, therefore, the finding of the commission on a question of fact is not reviewable by the courts if there is substantial testimony in the records to support the finding.

"In some quarters we are accused of being unduly friendly to the railroads. In other quarters, at the same time, we are accused of being bitterly hostile to the railroads. The terms and principles of the law and our own sense of justice and right under the facts disclosed by the investigations are our guides. In so far as we exercise our judgment, we do it in a judicial spirit and having satisfied our consciences as to what is right, just and lawful, we are free from worry as to whether or not the decision will be popular.

"Among the terms which are frequently used to describe men's dispositions or natures is the word 'conservative.' If, however, you ask those who use that description to define it, you find that the word means one thing to one and another thing to another. There is a conservatism which means to get in a rut and stay there. There is a conservatism which means nothing but laziness. Another form of conservatism is nothing short of cowardice. And still another form of conservatism means to move along with and help the progress of the age approaching important and far-reaching changes in such a way as to reach the desired end by degrees, never losing sight of the goal sought, but avoiding precipitate steps, which, if taken, will work unnecessary destruction or do irreparable injury. I am that kind of a conservative and of such conservatives the Interstate Commerce Commission is composed.

"Some of the extremists on one side suggest freely that a commission composed of others than experienced railroad officials cannot be competent to deal with these questions. And yet we have the satisfaction of knowing from the mouths of railroad officials that our work is and has been helpful in many ways to the railroads.

"We desire to assist the railroads in making their service in the United States the safest, the best, the cleanest, the fairest and the most efficient in the world, and to render that service to patrons at charges that are as low as possible, com-

mensurate with fair and liberal returns to the owners of the railroads. We know full well that the American people demand and will demand efficient railroads. Everyone knows that the railroads' revenue must come from selling transportation. Everyone should be willing, and if he is not willing he can be compelled, to pay what the service is worth, including a reasonable profit. On the other hand, the railroad being a public servant, operating and existing under public franchise, has another right to expect, and should not be permitted to extort more than, a reasonable return upon the investment of the property devoted to the public service.

"Some day we will have better understandings between the railroads and the public, between the railroads and the commission and between the commission and the public. When that day comes, it will be generally realized that much apprehension was based entirely in misunderstandings or in lack of understandings as to facts, intentions, inclinations and policies. We desire to do a constructive, not a destructive work. We hope to help in bringing about those better understandings.

"All civil law is necessitated by a minority who are unwilling to do right or by the necessity for a common rule of action. A custom recognized by a community as representing the right and just course often becomes a rule of law. There is, in the railroad business, a lot of competition that, in some ways, to some extent, is inexorable. The most direct way to the poorhouse would be an effort to charge more on desirable competitive business than is asked by competitors. All railroads cannot be equally profitable to their owners. Differences of location, development, capitalization, management and physical condition all have their effect.

"The effort of every loyal officer and employee is to make a success of the operation of his road. The law requires only that all patrons shall be accorded just and equal treatment under similar conditions of service rendered by the same carrier. If we can be helpful in bringing about conditions satisfactory to the great majority of their patrons and satisfactory to the owners of those roads that are operating and capitalized upon sound business principles and not as businesses running as stock-jobbing concerns, we shall feel that the world will be better for our having lived, and so shall be done."

DANGER FOR PORT APPROPRIATION.

Mayor Curley conferred upon the 17th instant with Conrad W. Crooker, a State street attorney, and formerly secretary of the Massachusetts Real Estate Exchange, who has been in Washington in the interest of the \$400,000 appropriation in behalf of Boston in the River and Harbor Bill, and providing for the dredging of a 40-foot channel.

As the result of the conference, Mayor Curley declared that if the interests of the Port of Boston are to be protected it is vitally necessary that the New England delegation in Congress, both Democratic and Republican, should unite for both vigorous and harmonious action.

Mr. Crooker presented Mayor Curley a letter received from United States Senator Gallinger of New Hampshire, and which strikingly reveals the manner in which the appropriation in behalf of Boston Harbor has been jeopardized.

Senator Gallinger declares:

"I am safely in receipt of your letter of the 15th in which you call my attention to the appropriation for Boston Harbor, and express fear that the \$400,000 appropriation, which was added to the bill by the Senate Committee, has been dropped.

"You are correct in that, so far as the substitute to section one of the bill reported by Mr. Simmons yesterday is concerned. The \$200,000 for the improvement, maintenance of Boston Harbor, is retained. As you know the bill is yet to pass the Senate, and it would be futile for me to prophesy what will be the final result.

"In reporting the substitute from which the \$400,000 item for Boston Harbor is omitted every miserable little river in the South is retained in the bill. Such streams as Shallotte river, Newbegun Creek, Pedee River, Tuckahoe River, Oyster Channel, Locklies Creek, Fishing Creek, Contentia Creek, Smith's Creek, Trinity River and a score of other items of that kind, all of them in the Southern States, are left in the bill.

"I note your suggestion that the New England delegation as a whole might well insist upon a more equitable adjustment of the various appropriations made available in this bill, and in that you are entirely correct, except that there are very few New England Senators here at this time to do that work. I have twice entered a protest against the appropriations for Boston Harbor being disturbed, but have each time been met by a statement that the appropriations should not be allowed to remain in the bill because the railroads had control of the terminals. It is such asinine talk as that which seems to sway our legislation at the present time.

"I am scheduled to leave here on Friday, and will probably not be back during the further consideration of the bill. In addition to myself, the only New England Senators now here are Weeks of Massachusetts, Page of Vermont and Colt of Rhode Island. If a fight is to be made Senator Weeks will have to lead it and I presume he will be willing to do so. I will take the liberty of handing your letter to him and urge him to make the best fight possible.

"It is a matter of sincere regret to me that I must leave Washington at this time but it is imperative."

"Senator Gallinger's letter clearly reveals how critical is the situation relative to Boston Harbor improvements," declared Mayor Curley, "and if defeat is suffered in this instance the defeat will be placed where it belongs upon the leaders in legislation and those who have failed to accomplish their full duty in behalf of Boston."

FAREWELL TO SUMMER PLANTING.

By CAPT. JOHN H. DILLON, *Chairman, Park and Recreation Department.*

This is the season of the year when the gardener realizes that summer is gone and he must prepare for another year. The greenhouses are being made ready for the reception of the plants, which were so pleasing to look upon in their summer beauty—they must be cared for, and to do so is no trivial task. Cuttings are taken from all plants that he desires; these are properly bed and either put into a propagating bed specially prepared for them, or into small pots on benches in

the greenhouse. Then the weather must be carefully watched and at the first signs of frost all available help is put at work digging up plants and packing them in boxes, which are loaded on teams, and sent to the greenhouses, where they are all handled over, repotted and grown for the next season, with all the care this work implies. The plants being all housed, the labor of preparing the beds for the following spring display of flowering bulbs begins.

On the first of November all traces of the summer planting have disappeared. The plants have been removed and sent to winter quarters; the beds in which they flourished have been spaded and manured in readiness for the annual fall planting of bulbs which have been selected according to the color of their flowers, each color separate. And now comes the good taste of the gardener! His skill and common sense are brought into action so that when the flowers appear in the spring-time, the proper blending of many shades into a harmony of color is the reward of his efforts, appreciated alike from an artistic point of view and by the general public.

AN EXCELLENT APPOINTMENT.

Mayor Curley warmly commends the appointment of Congressman John J. Mitchell of Marlboro, by the Democratic Caucus at Washington, as a member of the Ways and Means Committee, to succeed Hon. Andrew J. Peters, who has assumed the position of First Assistant Secretary of the Treasury, in charge of fiscal matters.

"The appointment of Congressman Mitchell to the Committee on Ways and Means" said Mayor Curley, "assures the ranking committee of the House of Representatives at Washington, the service of a conservative, intelligent and most industrious member of Congress.

"It is vitally important that the industries of Boston and New England should be able to command the service of an honest and conscientious member who will carefully weigh every argument presented in the deliberations of the Ways and Means Committee, and this privilege is eminently assured in the selection of Congressman Mitchell.

"During the sessions of the Sixty-third Congress, Congressman Mitchell has given a most deserving labor as a member of the Judiciary Committee of the House, and rendered a most loyal and excellent service in the deliberations of this important committee.

"There can be no question but what the Marlboro Congressman will carry to the Committee on Ways and Means the same high character of service.

"I regard this appointment as the certain forerunner of Congressman Mitchell's re-election by the largest majority that has as yet been given him.

"The appointment of Congressman Mitchell, so far as I have been able to learn, meets the unqualified approval of the Democratic leaders of Boston and the Commonwealth."

BOSTON STREET LIGHTING.

Total lamps, January 10, 1914, 18,493; *i. e.*, 4,718 arc, 3,507 tungsten incandescent, 10,268 gas. Increase over 1913, 380 arc lamps, 1,364 tungsten incandescent, and a decrease of 1,506 gas lamps. Cost of electric lighting for year 1913, \$513,165, or \$41,983 more than in 1912; of gas lighting, \$264,682, or \$15,748 less than in 1912.

The Mayor has approved the order of the Street Commissioners in the taking

of land for sewerage works in the private ways known as Augustus avenue, Clarendon avenue and Hillside avenue, West Roxbury.

The owners of the parcel of land taken are unknown. The land taken comprises 14,016 square feet, more or less.

The sewerage works to be constructed are as follows: About 424 feet of 2-foot 6-inch circular concrete surface drain in Clarendon avenue and Augustus avenue, and about 142 feet of 20-inch pipe surface drain and 389 feet of 2-foot 3-inch circular concrete surface drain in Hillside avenue.

The Board determines that no person suffers damages in his estate in the taking for and construction of the sewerage works and awards no damages therefor.

FIRE DEPARTMENT ORDERS.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, September 14, 1914.
General Orders No. 127.

I. DEPARTMENT DRILL SCHOOL.

1. The regular department drill school will commence Monday, September 14, 1914, at 10 a. m., and will be in charge of Lieut. James Mahoney of Tower Company 2, as drill master. He will be obeyed and respected accordingly.

2. Company commanders will have the following men report to the drill master at the house of Tower Company 2, Bristol street, at 10 a. m., Monday, September 14, and at such other times as the drill master may direct.

Joseph W. Murray, Engine 5; James J. Eagan, Ladder 2; Robert F. Mackie, Engine 2; Philip S. Bates, Engine 18; James F. Ryan, Engine 29; John J. Devine, Engine 11; Charles D. Robertson, Engine 9; James J. Gagan, Ladder 18; William H. Cuddy, Jr., Ladder 24; Eugene J. Doherty, Ladder 2; John P. O. Craig, Tower 2.

II. INSTRUCTION ON MOTOR APPARATUS.

1. Hereafter no member of the department will be instructed in the handling of automobile apparatus unless he is recommended by the officer in charge of the apparatus, and said recommendation is approved by the Chief of Department.

III. HYDRANT SALT FOR WINTER.

1. Company Commanders will forward to headquarters on or before September 15, 1914, their estimate of the amount of salt needed by them for salting hydrants during the coming winter.

IV. COMMENDATION.

1. Hoseman Edward B. Johnson of Engine Company 19 is hereby commended for responding to an alarm from box 391, September 9, 1914, while on a day off.

By order of the Fire Commissioner,
PETER F. McDONOUGH,
Chief of Department.

MEDICAL INSPECTION IN THE SCHOOLS.

Dr. Talifero Clark of the Federal Bureau of Health, after an exhaustive investigation of the children of the rural public schools, and their individual needs relative to medical service for the arrest of disease, sends the *City Record* a copy of his report, which presents many noteworthy facts.

Dr. Clark's report is as follows:

In connection with recent field investigations opportunity was presented to make observations of the sanitary condition of a large number of rural schools, over an extended area.

The main object of these investigations, however, was to determine the prevalence of certain diseases, especially trachoma. In all, 199 schools, 138 rural and 61 urban, were thus inspected by the writer and a total of 859 schools in nine states by all the service officers, engaged in this work. It is very evident as revealed by these inspections, that in the territory covered there is a general lack of sanitary supervision in the construction and maintenance of rural school buildings and of medical supervision of the pupils.

The prevention and correction of physical and mental disabilities that may embarrass a child in taking advantage of the education offered by the state is a prime duty of the state toward the child. It is this phase of the educational problem that lends so great importance to school hygiene in general and to its application to rural communities in particular. According to the census report there were 10,529,871 pupils in attendance in rural schools and 7,480,000 in the urban. Of these there were 793,710 more pupils from six to nine years of age, and 1,376,052 more from ten to fourteen years of age in rural school attendance than in urban. It is to be regretted that there is such a large proportion of children of impressionable age attending school without the advantages of sanitary and medical supervision. This is all the more regrettable because of the presence in rural communities of numerous children who are suffering from curable defects by reason of the want of skilled medical advice.

Organized health work in schools until the present time has been largely confined to cities. Our investigations demonstrate the necessity of the extension of this work to country districts, where reside so large a number of people without the advantage of instruction relative to sanitary measures essential to health. In many districts the element of expense is a serious consideration, and it will be necessary to demonstrate the money value of school hygiene in the resulting increased efficiency of the child and improved community sanitation. The general adoption of hygienic measures, however, will be gradual, and considerable time must elapse before any noticeable effect on community health will be observed except in restricted localities. The need for some properly constituted authority to make intensive studies of rural school conditions in different sections of the country for educational value to the country at large is apparent.

Our knowledge of the principles of school hygiene is far in advance of the actual practice. State boards of health and education may adopt rules and regulations in relation to the construction of school buildings, but their acceptance by communities poorly provided with funds, indifferently supplied with medical

services and entirely without trained sanitary advisers, is another question. It is necessary to educate rural communities in these matters. There is need for studies of rural schools from the standpoint of the child engaged in an occupation which in most states is a compulsory one.

One of the gravest situations observed in connection with schools of remote districts was the small attendance, though the child population of these districts was relatively large. Due attention to the construction, equipment and maintenance of school buildings with respect to location, playground facilities, a proper regard for heating, lighting, ventilating and seating equipment and sanitary toilet conveniences will result in lessening juvenile delinquency and improving the health of the community.

The conviction arises from the investigation of trachoma in a number of heavily infected remote districts that this eye affection can be controlled therein only by education, yet these are the districts where the observance of sanitation in connection with school life is least evident, and the necessity therefor the most apparent.

The economic loss to communities suffering from this communicable disease of the eyes is very great through diminished earning capacity of those attacked. The value of improved sanitation and increased educational facilities to these infected communities cannot be measured in dollars and cents, but the necessity therefor was revealed by the investigations just completed.

The educational facilities provided by a community for its children is a reliable index of the culture and prosperity of that community. The sanitary provisions for schools is likewise a fairly accurate measure of community knowledge of sanitary matters. Our investigations have revealed a widespread need for instruction in rural sanitation, which can be given in large measure through rural schools. Certainly no better means can be devised for determining the endemicity of certain communicable diseases, for tracing and controlling foci of tuberculosis, for the control of the so-called contagious diseases of childhood, and for the eradication of smallpox in rural districts than a general and properly conducted medical supervision of the schools. For example, in the course of these investigations the writer found over 10 per cent of the pupils suffering from trachoma in twenty-one rural schools, and over 20 per cent in eleven schools. In four schools the rate of trachoma infection was 35.29, 43.20, 43.75 and 46.15 per cent, respectively.

The adult population represented by these school children is fixed in the habits and mode of life so largely responsible for heavy community infection. The neglect of sanitary precautions will favor the continued spread of this disease, and the only hope for complete eradication lies in the education of the rising generations. It is along such lines that the greatest benefit is to be derived from the sanitary supervision and medical inspection of the schools of rural districts.

It is unfortunate that the school year in rural districts seldom exceeds six months. In many communities it is even less. Any loss of time in school attendance to a child of such limited opportunity for education is a serious matter, and is the more regrettable because absences due to sickness are largely preventable.

The sanitary needs revealed by these surveys are many. In general, they are due to lack of skilled advice, and are those

of location, construction and equipment as applied to school buildings.

With respect to the child, rural education is a practical illustration of the survival of the fittest. There is no uniform medical supervision of rural school children, and in many sections only an indifferent adaptation of intellectual training to the physical and mental necessities of the child. That men come from the country and in the course of time, in spite of the disadvantages of early training, take prominent places in medicine, law, theology and finance in urban communities is further evidence of the desirability of extending to such people all the benefits of education and hygiene.

These rural communities are also denied the benefits to be derived indirectly from the application of the principles of hygiene to schools and school life. With the extension of the movement to consolidate several schools into one the school year will be lengthened, better schools will be provided, medical inspections become possible, the district school nurse will evolve, sick children will be visited, and the principles of correct sanitary living will be taught in the homes. The benefits to be derived from such measures are obvious, but not fully appreciated even in communities where they are in force. It can not be expected, therefore, that these conditions are to be brought about at once. There is necessity for much painstaking effort and actual demonstration before these measures, no matter how urgently needed, can obtain in many sections of our country.

Lastly, the study of the sanitary condition of the schools and the medical supervision of the pupils in rural districts will be of the greatest value to the state at large and the State Board of Health in particular, because such studies bring to light most clearly the public health needs of such communities.

Furthermore, where full-time health officers are not available because of lack of funds, the rational combination of such duties with that of the medical supervision of schools would make the employment of such an officer practicable and profitable.

MONEY FOR FREE MARKET PROVIDED.

Hon. John A. Sullivan, the Corporation Counsel, has ruled that the appropriation of city money for free market purposes is permissible under an old statute, and immediately upon receipt of the ruling Mayor Curley sent a special message to the City Council asking that \$500 be transferred from the Reserve Fund to be used in establishing the free market at Shawmut avenue and Castle street. This is the plot of land George S. Smith offered the Mayor to be used for free market purposes.

TRANSACTIONS IN PROPERTY.

The transactions at the Suffolk Registry of Deeds for the week were as follows:

	Transactions.	Mortgages.	Amount of Mortgages.
1914.....	321	161	\$822,720
1913.....	440	201	990,582
1912.....	372	180	4,595,403

ECONOMIC RESOURCES OF THE UNITED STATES.

The European War, now raging, has resulted in many inquiries relative to the position of the United States as a commercial factor, and what would be our resources in meeting adversity.

The Bureau of Foreign and Domestic Commerce, Washington, has made a very careful investigation, and the report sent the *City Record* declares:

A partial inventory of the national assets of the United States in area, population, and the fundamental factors of economic life reveals the fact that it is not only practically self-supporting but that it possesses, in many lines, a large surplus available for protection against famine and temporary adversity or for use in meeting unusual demands from the outside world. Recently the Bureau of Foreign and Domestic Commerce has been receiving hundreds of letters from American producers and manufacturers making inquiries regarding possible markets abroad for their surplus products and as to the ability of the United States to supply the raw materials necessary to their industries. Investigations in connection with the replies to these inquiries have developed the fact that in many instances materials now imported from abroad are of a class found in this country, the production of which, however, is still in the initial stages. This is particularly true of numerous basic materials used in the chemical industries, which were formerly wasted, but are now partly utilized.

The peculiarly fortunate position of the United States in its ability to supply its own needs is clearly seen from a survey of its production and relative contributions to the world of the great requirements of man—food, clothing, and shelter. It is found, for example, that the people of the United States may be readily fed by home-produced foodstuffs, our vast area of 3½ million square miles representing every variety of climate and production and nearly equal in extent to all Europe with a population five times that of this country. Agriculture in the United States has not yet reached the stage of scientific development common to many countries of Europe, and the present domestic production may therefore be expected to increase greatly with more attention to improved methods of culture. Nevertheless our country already produces over 2½ billion bushels of corn, or two-thirds of the world's supply. This year's wheat crop is estimated at the high-record figure of 911 billion bushels, about 20 per cent of the world's harvest. The United States also produces annually over 1 billion bushels of oats, or one-fourth of the international yield, and 197 million gallons of cottonseed oil, representing most of the annual output of this article, whose food value as a substitute for olive oil is becoming more and more recognized. Fifteen per cent of the world's cattle are on American farms, the number in this country being 59 million, or twice as many as in Argentina or European Russia and half in number those of India. Our country also has 60 million swine, or three times as many as Germany; 50 million sheep and 24 million horses. We import, however, 5 billion pounds of sugar (chiefly Cuban), or one and one-half times the amount produced in continental United States and its island territories.

In clothing material the United States is also favored, producing annually over 14 million bales of cotton, a sum ten times

that for India, and representing over one-half of the world's supply. Of wool we produce a little less than 300 million pounds a year, our home requirements being supplemented by 238 million pounds of foreign wool and 34 million dollars' worth of woollen goods.

In the mineral kingdom the pre-eminent position of the United States is unquestioned. We produce, for example, 534 million short tons of coal, 40 per cent of the world's output, and nearly twice as much as the United Kingdom or Germany; 238 million barrels of petroleum, two-thirds of the world's total, and three times as much as Russia; and 57 million tons of iron ore, out of a world's total of 132 million, the production in this country being twice that of Germany. One-half of the world's copper is taken from American mines, which turned out 1½ million tons in 1912. Of the world's output of 466 million dollars' worth of gold, the United States produced about 20 per cent, being exceeded only by South Africa. About 28 per cent of the world's silver and

30 per cent of its lead are produced in this country.

In the value of manufactures the United States leads the world, though the product of American factories is chiefly consumed at home. Of the 20.7 billion dollars' worth of manufactures produced in the United States in 1909 only about 5 per cent were sold to foreign countries, the world's market for iron and steel products, cotton goods, chemicals, and other important products of industry being thus far largely held by England, Germany, and other European nations.

The foregoing are indicative of the strong position of the United States in its supply of the factors of national wealth, the details of which are found in the Statistical Abstract of the United States and various reports of the Departments of Commerce, Agriculture, and Interior.

The following table presents statistics showing a few of the great factors of our national wealth and suggests the foundations upon which a greater American commerce may be built up:

	United States.	Approximate per Cent Share of United States in World's Total.
Area, square miles.....	3,600,000	7
Population.....	102,000,000	6
Corn product, bushels.....	2,600,000,000	68
Wheat product, bushels.....	911,000,000	20
Cotton product, bales.....	14,000,000	56
Sugar product, pounds.....	3,995,000,000	10
Tobacco, pounds.....	791,000,000	35
Cattle on farms, number.....	59,000,000	15
Coal product, short tons.....	534,000,000	40
Petroleum product, barrels.....	238,000,000	63
Copper product, pounds.....	1,243,000,000	55
Iron ore, long tons.....	57,000,000	44
Gold product, dollars.....	93,000,000	20
Stock of gold, dollars.....	1,887,000,000	22
Value of all farm products, dollars.....	9,751,000,000	No data.
Value of manufactures, dollars.....	20,672,000,000	No data.
Imports in fiscal year 1914, dollars.....	1,894,000,000	9
Export in fiscal year 1914, dollars.....	2,365,000,000	12
Foreign trade fiscal year 1914, dollars.....	4,259,000,000	10
Domestic trade fiscal year 1914, dollars.....	40,000,000,000	No data.
Railways, miles.....	259,000,000	38
Aggregate wealth, estimated, dollars.....	140,000,000,000	No data.

NECESSITY FOR ACTION.

Mayor Curley feels that an irreparable injury has been suffered by the City of Boston in the striking out of the appropriation, involving some \$400,000, for the dredging and improvement of Boston Harbor.

The Mayor addressed a message, upon the 14th instant, to the members from Massachusetts, of both Senate and House, suggesting the imperative necessity of presenting a suitable amendment to the River and Harbor Bill, after the same is reported in Congress.

Mayor Curley's message read as follows: "The City of Boston suffers an irreparable loss in the striking out of the appropriation providing for the dredging of Boston Harbor in the River and Harbor Appropriation Bill. Our Commonwealth

has expended \$9,000,000 for a Boston dock system, and the cooperation of the Federal Government is an absolute necessity if the commerce of the great Port of Boston is to be properly developed and due advantage taken of the present crisis abroad for the safeguarding and extension of our commerce upon the sea. The question is one that must not suffer defeat. Boston's development will be retarded a full generation if this item for Boston Harbor is emasculated from the River and Harbor Bill. It is the manifest duty of Massachusetts senators and representatives in Congress to unite upon an amendment to the present measure, when reported, in so far that \$400,000 may be appropriated for the dredging of Boston Harbor, and have the same presented at the earliest possible moment."

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announce an open competitive examination, September 21, 1914, for assistant superintendent of construction, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$100 a month, when employed, at the United States Penitentiary, Leavenworth, Kan., and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Employment in this position at Leavenworth, Kan., will be intermittent and will aggregate probably not over eight months in a year.

A general knowledge of building operations of all kinds, sound health, active habits, and good judgment are necessary qualifications. Applicants must have had not less than four years of building experience, excluding apprenticeship, either as building mechanic, supervisor, or superintendent, or any combination of these, but not less than one year of supervisory work is necessary.

The commission invites attention to the fact that in addition to the districts for which the open competitive examination for district inspector, under the migratory bird law, for men only, is to be held on September 16, 1914, this examination will also be held for District 1, which comprises the states of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island and Connecticut. Legal residents of these states will therefore be admitted to the examination upon filing applications in due time showing them to be eligible.

The scope and character of and requirements for this examination, as well as the list of places at which it will be held, are contained in original Announcement No. 780, a copy of which, together with the proper application form, may be obtained from the United States Civil Service Commission, Washington, D. C., or from the Secretary of the First Civil Service District, Post Office, Boston, Mass.

The commission invites attention to the open competitive examination for rodman and chainman, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in these positions in the Interstate Commerce Commission under the act providing for the valuation of the property of common carriers, at salaries ranging from \$720 to \$1,080 per annum, with necessary expenses when absent from headquarters in the discharge of official duties, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination, September 21, 1914, for specialist in industrial education, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Education, Department of the Interior, Washington, D. C., at a salary of \$3,500 a year, and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be performed at Washington, D. C., and else-

where, and will include the study of vocational education, the collection and compilation of information relating thereto and the giving of advice to education officers throughout the United States for the establishment of courses of study in vocational education.

The commission announce an open competitive examination, September 28, 1914, for specialist in educational systems, for women only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Education, Department of the Interior, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will consist of investigations concerning the organization and administration of elementary schools in cities and towns and the preparation of teachers for such schools.

The commission announce an open competitive examination, September 28, 1914, for chief petroleum technologist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Mines, for service in San Francisco, Cal., at a salary of \$4,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to supervise and participate in the technology and other scientific and economic work of the Bureau of Mines in relation to petroleum and natural gas, as to production (which involves a consideration of the oil and gas bearing strata), storage, transportation and refining; the prevention of waste; the prevention of loss from underground water encroachment, and other economic problems affecting the industry.

The commission announce an open competitive examination, September 28, 1914, for associate engineer-physicist, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Standards, Department of Commerce, Washington, D. C., or Pittsburgh, Pa., at salaries ranging from \$2,000 to \$3,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to investigate structural and engineering materials, especially rails and railroad material.

It is desired to secure eligibles who are proficient in mathematics and its application to physical and engineering problems, and who are able to initiate and carry on independent research in the field of engineering physics.

The commission announce an open competitive examination, September 28, 1914, for agronomist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary ranging from \$2,000 to \$2,500 a year, and vacancies as they may occur in positions

requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to conduct investigations in the New England States, Michigan, New York, Ohio, Pennsylvania, New Jersey, Maryland, Virginia and West Virginia, having for their object the development of improved methods of pasture management with a view to increasing the carrying capacity of permanent pastures and the development of new pastures.

It is desired to secure the services of a person who has had considerable experience in pasture investigations.

The commission announce an open competitive examination September 28, 1914, for clinical psychiatrist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Government Hospital for the Insane, Washington, D. C., at a salary of \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

It will be the duty of the clinical psychiatrist to act as consultant to the different medical services of the hospital, with the particular end in view of assisting, especially the younger members of the staff, in analyzing and understanding their patients, with a view to outlining a concrete course of action looking to their betterment. He will also be expected to instruct the younger members of the staff in psychological methods and in the technique of case analysis and presentation. He will specifically undertake analytic and therapeutic measures in special functional cases that it would appear possible to benefit in this way. In addition to this work he will be expected to avail himself of the clinical material and laboratory opportunities for special observation and research.

It is desired to secure the services of a person familiar with the modern therapeutic movements in the practice of mental medicine, particularly those that have to do with functional conditions and involve the application of psychotherapeutic principles. He must not only be familiar with these movements but he must be capable of an analytic and interpretative application of psychological principles to the individual case, especially for therapeutic ends.

The commission announce an open competitive examination for translator, for both men and women, on September 28 and 29, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Foreign and Domestic Commerce, Department of Commerce, Washington, D. C., at a salary of \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for translator, for both men and women, on October 7, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Education, Department of the Interior, at a salary of \$1,800 a year, and vacancies as they may occur in

positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for automatic scale expert, for men only, on October 7, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$1,500 a year, in the Customs Service, Philadelphia, Pa., and vacancies as they may occur in positions requiring similar qualifications at other customs ports or in other branches of the service, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for statistical clerk, for both men and women, on October 7, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Departmental Service, Washington, D. C., at salaries ranging from \$900 to \$1,200 per annum, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The commission announce an open competitive examination for clerk-draftsman, for men only, on October 7 and 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at \$1,200 per annum in the offices of the Surveyors General at the places named below, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

One at Boise, Idaho; two at Denver, Col.; two at Helena, Mont.; two at Phoenix, Ariz.; two at Salt Lake City, Utah; three at Santa Fe, N. Mex.

The commission announce an open competitive examination for torpedo engineer, for men only, on October 7 and 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill one vacancy in this position at \$9.60 per diem in the Naval Torpedo Station, Newport, R. I., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

This position requires the services of a well-trained engineer, preferably a skilled torpedo specialist. The duties will require the performance of such work as torpedo designing, developing torpedo tests, designing torpedo attachments, simplifying torpedo mechanisms, and making the necessary calculations in connection therewith. A thorough knowledge of thermodynamics and especially of steam and gas turbine machinery, and familiarity with the principles and practice of gear design, propeller design, the use of thermostats and the testing of fuels, etc., will be necessary.

The commission announce an open competitive examination October 12, 1914, for sawyer and carpenter, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$900 per annum in the Indian Service, Shoshone Agency, Wyoming, and vacancies as they may occur in positions

requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination, October 12, 1914, for dairy husbandman, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at an entrance salary ranging from \$1,800 to \$2,500 per annum in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, and vacancies as they may occur in position requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

As insufficient eligibles were secured from the examination for this position held on June 29, 1914, qualified persons are urged to enter this examination.

The duties of this position will include cooperative work with dairy farmers; advice and assistance with reference to instituting the keeping of records of production of herds, the construction of silos, the construction and remodeling of dairy buildings, the feeding of dairy herds, the management of dairy farms, the care and handling of milk and cream, and the making of butter on farms; the organization and supervision of farmers' associations, bull associations, and cow-testing associations; demonstrations at fairs, judging dairy cattle and dairy products, lecture work on subjects connected with dairy farming, and other forms of dairy-farming extension work; collection of information concerning the dairy industry, and experimental work along dairy-farming lines. The performance of these duties will involve considerable traveling, usually within one state.

The commission announce an open competitive examination, October 12, 1914, for ferryman, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$1,080 a year for nine months in a year, at the Cheyenne River Indian Agency, South Dakota, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission invites attention to the open competitive examinations for ship draftsman and copyist ship draftsman, for men only, to be held on October 14 and 15, 1914. From the registers of eligibles resulting from these examinations certification will be made to fill vacancies as they may occur in these positions in the Bureau of Construction and Repair, Navy Department, Washington, D. C., and at navy yards and other establishments of the Navy Department outside of Washington, D. C., unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The entrance salaries for the position of ship draftsman range from \$3.28 to \$5.04 per diem. Persons appointed from this examination are eligible to promotion in the service of the Navy Department to salaries of \$7.52, \$8, and in a few cases as high as \$10 and \$12 per diem, depending upon the efficiency shown.

The entrance salaries for the position of copyist ship draftsman range from \$2 to \$2.80 per diem.

The opportunity for appointment of qualified eligibles is excellent, as difficulty

has been experienced in securing a sufficient number of eligibles to meet the needs of the service. The following vacancies exist at the present time:

One, Navy Department, Washington, D. C., \$5.04 per diem.
One, Navy Department, Washington, D. C., \$3.28 per diem.
One, Navy Yard, New York, N. Y., \$4.48 per diem.
Two, Navy Yard, New York, N. Y., \$4 per diem.
One, Navy Yard, New York, N. Y., \$3.28 per diem.
Two, Navy Yard, Philadelphia, Pa., \$5.04 per diem.
Two, Navy Yard, Philadelphia, Pa., \$4.48 per diem.
One, Navy Yard, Philadelphia, Pa., \$3.28 per diem.
One, Navy Yard, Washington, D. C., \$4 per diem.
One, Navy Yard, Norfolk, Va. (Copyist), \$2.40 per diem.
One, Navy Yard, Mare Island, Cal., \$4.48 per diem.
One, Navy Yard, Mare Island, Cal. (Copyist), \$2.80 per diem.
Four, Navy Yard, Puget Sound, Washington, \$3.28 per diem.
One, Office of Naval Constructor, Quincy, Mass., \$3.28 per diem.

The commission announce an open competitive examination, October 20, 1914, for auto machinist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$4 per diem in the Bureau of Engraving and Printing, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination, October 21, 1914, for entomological ranger, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Entomology, Department of Agriculture, for service in the Rocky Mountains and Pacific coast states, at salaries ranging from \$840 to \$1,200 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of this position will be to collect specimens and information, locate and mark trees infested with destructive insects, and give instructions and assistance to private owners on the practical details of the methods recommended for the control and prevention of insect depredations on living timber.

NAVY YARD EXAMINATIONS.

United States civil service examinations for the following noneducational positions in Group 1 in the United States Navy Yard, Boston, Mass., will be held on October 1, 1914.

Laborers; hod carriers; janitors; stable-keepers; teamsters.

Age limit: Seventeen years or over.

INFORMATION TO APPLICANTS FOR THE POSITION OF MERE UNSKILLED LABORER.

Applicants must be citizens of the United States.

Applicants will be physically examined and rated as regards ability and fitness to perform manual labor.

No educational test will be given.

Applicants must be capable of shouldering and carrying with ease 125 pounds weight. Boys not required to take strength test.

A notice of standing will be sent to each applicant when his name is entered on the eligible list.

Eligibles will remain on the register for one year from the time of entry.

The required application form, No. 1642, with further information in regard to the examination, may be obtained from the Labor Board, with whom it must be filed on or before September 16, 1914.

United States civil service examinations for the following mechanical trades and noneducational positions in the United States Navy Yard, Boston, Mass., will be held on October 1, 1914.

No educational test will be given and applicants will not be assembled for a mental examination. The examination will consist of the subjects mentioned below, weighted as indicated:

Subjects.	Weights.
1. Physical ability.....	40
2. Training, experience and fitness...	60

Total..... 100

All statements relating to training, experience and fitness are subject to verification. Applicants should name in their applications, as references, employers or other persons who are competent to furnish information relative to the applicants' fitness for the position sought, and these persons will be communicated with. Unless answers are received from these persons within two weeks from the date of sending the communications, the applications may be canceled.

An applicant is required to show to the satisfaction of the Labor Board that he has the following qualifications in order to have his name placed on the eligible list of appointments:

That he is a citizen of or owes allegiance to the United States.

That he has the necessary knowledge of and experience in the occupation or trade in which he seeks employment.

That he is industrious and of good character.

That he is physically able to perform the work of his occupation or trade, and that he has no physical defect that will, as a contributory cause, tend to prolong a disability resulting from an accident or injury received in the performance of his work, or which would render him more liable to such accident or injury.

Age Limits.

Group II.—Rivet heaters, 14 to 18; smith's helpers, 21 or over; others, 17 or over.

Group III.—Riveters, 18 or over; ordnance men, 23 or over; others, 20 or over.

Application Form 1800 is required and may be obtained from the Labor Board, with whom it must be filed on or before September 16, 1914. Complete instructions are issued with each application form.

List of Trades.

Group II.—Helpers, general; helpers, boiler-makers; helpers, chair-makers; helpers, copper-smiths; helpers, electricians; helpers, machinists; helpers, molders; helpers, ordnance; helpers, painters; helpers, plumbers; helpers, riggers; helpers, ropemakers; helpers, shipfitters; helpers, smiths; helpers, woodworkers; holders on.

Group III.—Acetylene welder; block makers; boat builders; boiler-makers; box makers; cabinet makers; calkers, wood; calkers and chippers, iron; carpenters; carmen, finishers; chain makers; concrete workers; coopers; copper-smiths; core-makers; die sinkers; divers; drillers; electroplaters; engine tenders; engine tender in charge; engine tenders, locomotive; fasteners; firemen; flange turners; forgers, heavy; galvanizers; gardeners; hammer runners; heaters, furnace; hod

carriers; joiners, ship; machinists; masons, brick; masons, stone; nielters; millmen; molders, greensand, iron or brass; molders, loam; molders, steel; oakum spinners; ordnance men; packers; painters; pattern-makers; pavers; pipefitters; plasterers; plumbers, house; plumbers, ship; pressmen; punchers and shearers; riggers; riveters; roofers; ropemakers; rope-makers, wire; sailmakers; sand blasters; saw filers; sheet metal workers; shipfitters; shipwrights; smiths; sparmakers; stone cutters; tool dressers; tool makers, machine; trackmen; upholsterers; varnishers and polishers; wharf builders; wheelwrights; wiremen.

The wage schedule of the above-named occupations is based upon the rate of pay for similar duties in local establishments.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

Competitive examinations of applicants for positions in the classified service will be held in Boston as follows:

FOR THE SERVICE OF THE COMMONWEALTH.

1914.	
Oct. 21.	Foreman of Laborers, Inspectors of Work, Class 22.
Oct. 27.	Drawtenders, Assistant Drawtenders, Class 25.
Nov. 2.	Clerks, Messengers, Class 3.
Nov. 16.	Stenographers, Class 9.
Dec. 7.	Civil Engineers, Class 27.
Dec. 17.	Metropolitan Park Policemen, Class 16.
1915.	
Jan. 19.	Prison Watchmen, Class 17.

FOR THE SERVICE OF THE CITY OF BOSTON.

1914.	
Oct. 1.	Policemen, Class 14.
Oct. 21.	Foreman of Laborers, Inspectors of Work, Class 22.
Oct. 27.	Drawtenders, Assistant Drawtenders, Class 25.
Nov. 2.	Clerks, Messengers, Class 3.
Nov. 12.	Firemen, Class 20.
Nov. 16.	Stenographers, Class 9.
Dec. 7.	Civil Engineers, Class 27.
1915.	
Jan. 14.	Janitors and Engineers of Public Buildings, Class 24.
Jan. 19.	Prison Watchmen, Class 17.

Only citizens of the United States who have been residents of Massachusetts for

the past year have a right to apply for the service of the Commonwealth, and only citizens of the United States who have been residents of Massachusetts for the past year and of Boston for the six months last past have a right to apply for the service of Boston.

Blank applications (Form No. 1) for the Commonwealth and Boston services can be obtained by applying to the Civil Service Commission, State House, Boston, and when filled out, should be filed in the office of the commission at once.

In order to receive a notice to appear at any of the above-scheduled examinations, an applicant should have his application on file at least ten days before the date set for holding the examination.

EXAMINATIONS FOR WATERTOWN ARSENAL.

United States Civil Service examinations for the following mechanical trades and non-educational positions in the Ordnance Department at large, U. S. A., at the Watertown Arsenal, will be held on October 1, 1914.

The positions are blacksmith, carpenter, craneman, blacksmith's helper, carpenter's helper, machinist's helper, molder's helper, all around machinist, medium and small planer and lathe machinist, large planer and lathe machinist, drill hand machinist, floor and bench machinist, turret lathe machine operator, molder, pattern maker, toolmaker, toolgrinder and laborer.

Unskilled laborer (Form 1300 required)—age limit, twenty to fifty years, except that honorably discharged veterans of the Civil War may be examined without regard to age.

No educational tests will be given and applicants will therefore not be called upon to appear at any place to be examined. They will be rated according to their physical condition and experience as indicated in their applications and the medical certificate and vouchers furnished. Age limit twenty to fifty-five years on date of filing papers. Applicants must be citizens of the United States.

Hayes, Ward 9; Joseph Ziskend, Ward 8; Martin Scully, Ward 16; Frederick Anderson, Ward 24; Patrick F. McCarron, Ward 6; George W. Sheridan, Ward 1; Thomas L. H. Finn, Ward 9; Martin R. Lee, Ward 19; Stephen A. Douglas Munroe, Ward 20; Michael J. Heaney, Ward 14; William P. Collins, Ward 20; Joseph W. Shaw, Ward 23; Charles H. Lord, Ward 23; George E. McLeod, Ward 26; Patrick Mahoney, Ward 2; John P. Doherty, Ward 1; Martin Heffernan, Ward 3; William T. Howell, Ward 20; Edward S. Stroup, Ward 21; Edward T. Timmins, Ward 25; William J. Ceyne, Ward 9; John J. Murphy, Ward 10; Charles H. Morrison, Ward 1; Michael Fadden, Ward 15; Victor W. Parker, Ward 21; John H. Ricker, Ward

20; James L. Pushaw, Ward 1; James Wilson, Ward 1; Arthur M. Graham, Ward 15; Frederic W. Alexander, Ward 1; George M. Mulvey, Ward 19; John T. McBaron, Ward 21; John J. Driscoll, Ward 6; Fred Hausmann, Ward 21.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named:

Catherine A. Sullivan, for compensation for damages at 30 Prospect street, Charlestown, by a street oiling machine.

G. Albino, for compensation for damages at 75 77 Endicott street by the stoppage of sewer in Stillman street.

Fannie E. Collins, for compensation for damages to automobile by being run into by a city cart.

Cecelia J. Adams, for compensation for injuries caused by a defect in Charles street, opposite No. 15.

Russell Bradford, to be paid for expense incurred on account of leak in water pipe at 1 Lynn street, Ward 6.

Executive.

Owen Mullaney, to be retired under the provisions of chapter 765 of the Acts of 1914.

CONSTABLE'S BOND.

The City Treasurer, having duly approved of the same, submitted the constable's bond of Arthur Nickerson.

Approved by the City Council.

NOTICE OF HEARINGS.

Notice was received from the Public Service Commission of hearings on petitions of West End Street Railway Company for 442d, 443d, 44th, 445th, 447th and 448th location; said hearings to take place on September 16, at 10.30 o'clock a. m.

Placed on file.

TRACK LOCATIONS.

Copies of orders were received from the Board of Street Commissioners granting the West End Street Railway Company the following:

Additional locations, Alford street, 449th location.

Relocation of tracks, Hanover street, 445th location.

Placed on file and ordered printed.

RAILROAD POLICE.

Communications were received from the Police Commissioner, in accordance with law, as follows:

Appointment by the New York, New Haven & Hartford Railroad Company of Edward Barrett Atwood as railroad police officer.

Appointment by the Boston, Revere Beach & Lynn Railroad Company of Thomas F. McNulty as railroad police officer.

Placed on file.

STORAGE OF EXPLOSIVES.

Notices were received from the following-named parties of storage of explosives at the hereinafter named locations, and of intention to use said locations for the ensuing year, viz.:

Taylor-Palmer Garage Company, 171 Huntington avenue.

Wyman & Hodgkins, 153 Liverpool street.

Dodge Motor Vehicle Company, 25 Irvington street, Ward 11.

George R. Bascom Company, Inc., 31-33 Stanhope street.

John Beck, agent, 22-24 Piedmont street, and 13-15 Winchester street.

Placed on file.

APPOINTMENTS BY THE MAYOR.

Notices were received by the City Clerk of the following appointments by the Mayor, viz.:

Carl Gerstein, member of Board of Appeal.

John F. Stephens, member of the Board of Appeal.

Placed on file.

MINORS' LICENSES.

President McDONALD submitted reports on petitions for minors' licenses for five newsboys and four vendors—recommending that licenses be granted on the usual conditions.

Report accepted; licenses granted on the usual conditions.

LICENSING OF PORTERS.

Coun. WOODS offered an order—That the Corporation Counsel be requested to submit to the City Council his opinion as to the legality of licens-

ing any persons who carry, transport or convey baggage, goods or other things from place to place for hire, said licensing not to prevent any person or persons employed in an hotel, boarding house, or railroad or railway station from acting as porters. Also as to the legality of charging license fees to persons receiving a license, if said license is legal.

Passed.

MONEY FOR SOLDIERS' RELIEF.

Coun. WATSON offered an order—That there be allowed and paid to the Soldiers' Relief Commissioner, and charged to the appropriation for Soldiers' Relief Department, the sum of three hundred dollars (\$300), said sum to be expended, subject to the approval of the Committee on Soldiers' Relief, by said commissioner in affording immediate relief to persons entitled to aid under chapter 79 of the Revised Laws and acts in amendment thereof and addition thereto.

Referred to the Committee on Soldiers' Relief.

SIDEWALK, WAIT STREET.

Coun. WATSON offered an order—That the Commissioner of Public Works make a sidewalk along both sides of Wait street, between Huntington avenue and Hillside street, Ward 19, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of brick with granite edgestones, under the provisions of chapter 437 of the Acts of 1893.

Referred to the Executive Committee.

INFORMATION CONCERNING WARD 12 MUNICIPAL BUILDING.

Coun. ATTRIDGE offered an order—That the proper department officials be requested, through his Honor the Mayor, to furnish the City Council information as to the amount of annual interest now being paid on the bonds issued for the Municipal Building, Ward 12, also an itemized statement as to rents received to September 1, 1914, from the occupants of the building on the proposed site of the Municipal Building, and all amounts expended upon said building.

Passed.

COST OF WIDENING NORTHAMPTON STREET.

Coun. ATTRIDGE offered an order—That the Board of Street Commissioners be requested, through his Honor the Mayor, to submit to the City Council an estimate of the cost of widening Northampton street, between Harrison avenue and Washington street, to a width of 60 feet.

Passed.

ELECTRIC LIGHT, DORCHESTER.

Coun. COLLINS offered an order—That the Commissioner of Public Works be requested, through his Honor the Mayor, to place and maintain a suitable arc electric light at or near the junction of Bradley and School streets, Dorchester, in the vicinity of the Oliver Wendell Holmes School.

Passed.

SOLDIERS' RELIEF.

Coun. WATSON, for the Committee on Soldiers' Relief, submitted a report recommending the passage of an order for payment of aid to soldiers and sailors and their families in the City of Boston for the month of September.

Report accepted; order passed.

NEXT MEETING.

The Council voted, on motion of Coun. BALANTYNE, that when it adjourns it be to meet on Monday, September 28, at three o'clock p. m.

GENERAL RECONSIDERATION.

Coun. COULTHURST moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 3.14 o'clock p. m., on motion of Coun. COULTHURST, to meet on Monday, September 28, at three o'clock p. m.

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

TO CONTRACTORS.

The Cemetery Trustees of the City of Boston invite sealed proposals for erecting a fireproof garage at Superintendent's house, Mt. Hope Cemetery, Boston, and giving bond of a surety company therefor in the sum of \$300. Only proposals obtained at the office of the Trustees, 1001 City Hall Annex, signed by the bidder and left before 12 o'clock m. of Monday, September 28, 1914, at said office, with a certified check for \$100, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The Trustees reserve the right to reject any and all proposals. Information may be obtained at the office of the architects, Berry & Davidson, 29 Central street, Boston.

CHARLES E. PHIPPS,
(Sept. 19-26.) *Chairman Cemetery Trustees.*

CITY OF BOSTON.

PROPOSALS FOR PLANKING MILTON STREET BRIDGE, HYDE PARK.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for planking Milton Street Bridge over New York, New Haven & Hartford Railroad, near Readville Station, Hyde Park, and giving bond therefor of a surety company approved by the Commissioner in the sum of two thousand dollars (\$2,000), to secure the due performance of the contract and the full protection of the city. Specifications and forms of proposals may be obtained at Room 511, City Hall Annex, on and after Tuesday, September 22, 1914. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Planking Milton Street Bridge," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Friday, October 2, 1914, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, September 17, 1914. (Sept. 19-26.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWERS AND DRAINS IN BLUE HILL AVENUE AND DEERING ROAD, DORCHESTER.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for pipe sewers and drains in Blue Hill avenue, between Morton and Stratton streets; Deering road, between Blue Hill avenue and Harvard street and outlet in Blue Hill avenue, between Deering road and Morton street, Dorchester, and giving bond therefor of a surety company approved by the Commissioner in the sum of three thousand (3,000) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Pipe Sewers and Drains, Blue Hill Avenue, Etc.," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Thursday, September 24, 1914, with a certified check for one thousand (1,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, September 17, 1914. (Sept. 19.)

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

NOTICE.

The Board of Street Commissioners in accordance with chapter 393 of the Acts of 1906 have passed orders for the laying out and construction of the following highways:

DORCHESTER.

Browning avenue, from Bernard street to Wales street.
Fabyan street, from Blue Hill avenue to Harvard street.
Dorchester avenue, at Adams street, Field's Corner, Queen street, King street to southeast line of Claymont terrace extended.

SOUTH BOSTON.

C street, to Old Colony avenue.

EAST BOSTON.

St. Andrew road (formerly Collins street), from Bayswater street to Washburn avenue.
Walley street, to Waldemar avenue.

WEST ROXBURY.

Philbrick street (formerly Folsom street), from Jewett street to Neponset avenue.

DORCHESTER.

Castlegate road, from Blue Hill avenue to Normandy street.
Ronald street (formerly Bowdoin avenue), from Brinsley street southeasterly.

ROXBURY.

Langdon street, from George street to Norfolk avenue.

Notice is hereby given that the Public Works Department is about to do the work contemplated in said orders, and that all work to be done in said highways by all persons or corporations having rights in the same to lay or repair either sewer, gas, water or other pipes must be done before Friday, October 16, 1914, as after that time no permits for openings will be granted until two years after said highways are completed.

L. K. ROURKE,
Commissioner of Public Works.

Boston, September 10, 1914.

(Sept. 19-26, Oct. 3.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWERS AND DRAINS IN MT. IDA ROAD, DORCHESTER

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for pipe sewers and drains in Mt. Ida road, from Marie street to a point about 269 feet southerly, Dorchester, and giving bond therefor of a surety company approved by the Commissioner in the sum of five hundred (500) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Pipe Sewers and Drains, Mt. Ida Road," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Friday, September 25, 1914, with a certified check for two hundred (200) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, September 17, 1914. (Sept. 19.)

CITY OF BOSTON.

TO PLUMBING CONTRACTORS.

The Trustees of the Boston City Hospital of the City of Boston invite sealed proposals for erecting and completing a plumbing system in the new Ward Pavilion at the Boston City Hospital, Boston, Mass., and giving bond of a surety company therefor in the sum of \$4,000. Only proposals obtained at the office of the architect, Edward P. Dana, 29 Central street, signed by the bidder, and left before 12 o'clock m. of October 5, 1914, at the office of the superintendent, 818 Harrison avenue, with a certified check for \$1,000, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The proposal must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, before the time of opening the proposals. The Trustees reserve the right to reject any and all proposals. A deposit of \$10 will be required for each set of plans taken for estimating purposes, said sum to be refunded upon return of plans to the Board in good condition.

FRANK H. HOLT, M. D.,
Acting Superintendent.
(Sept. 19.)

CITY OF BOSTON.

TO HEATING AND VENTILATING CONTRACTORS.

The Trustees of the Boston City Hospital of the City of Boston invite sealed proposals for erecting and completing heating and ventilating system in new Ward Pavilion, Harrison avenue and Northampton street, at the Boston City Hospital, Boston, Mass., and giving bond of a surety company therefor in the sum of not less than 25 per cent of the contract price. Only proposals obtained at the office of the architect, Edward P. Dana, 29 Central street, signed by the bidder, and left before 12 o'clock m. of October 5, 1914, at the office of the Superintendent of the Boston City Hospital, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be left as above, the other to be filed with the City Auditor, City Hall, before 12 o'clock noon on the date given above for receiving proposals. The trustees reserve the right to reject any and all proposals. A deposit of \$5 will be required for each set of plans taken out for estimation, same to be refunded upon return of plans in good condition to the architect.

FRANK H. HOLT, M. D.,
Acting Superintendent.
(Sept. 19.)

CITY OF BOSTON.

TO GENERAL CONTRACTORS.

The Trustees of the Boston City Hospital of the City of Boston invite sealed proposals for erecting and completing new Ward Pavilion and Tunnel, Harrison avenue and Northampton street, at the Boston City Hospital, Boston, Mass., and giving bond of a surety company therefor in the sum of \$50,000. Only proposals obtained at the office of the architect, Edward P. Dana, 29 Central street, signed by the bidder, and left before 12 o'clock m. of October 5, 1914, at the office of the Superintendent of the Boston City Hospital, with a certified check for \$2,000, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be left as above, the other to be filed with the City Auditor, City Hall, before 12 o'clock noon on the date given above for receiving proposals. The trustees reserve the right to reject any and all proposals. A deposit of \$15 will be required for each set of plans taken out for estimation, same to be refunded upon return of plans in good condition to the architect.

FRANK H. HOLT, M. D.,
Acting Superintendent.
(Sept. 19.)

CITY OF BOSTON.

TO ELECTRICAL CONTRACTORS.

The Trustees of the Boston City Hospital of the City of Boston invite sealed proposals for installing and completing a wiring system in new Ward Pavilion, Harrison avenue and Northampton street, Boston, Mass., and giving bond of a surety company therefor in the sum of \$2,000. Only proposals obtained at the office of the Architect, Edward P. Dana, No. 29 Central street, signed by the bidder, and left before 12 o'clock m. of October 5, 1914, at office of the Superintendent, 818 Harrison avenue, with a certified check for \$500, payable to the City if the proposal is not carried out, will then and there be publicly opened and read. The proposal must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, before the time of opening the proposals. Only bids for the entire group of buildings will be considered. The Trustees reserve the right to reject any or all proposals and to contract for such buildings only as may be completed within the appropriation. A deposit of \$10 will be required for each set of plans taken for estimating purposes, said sum to be refunded upon return of plans to the Architect in good condition.

FRANK H. HOLT, M. D.,
Acting Superintendent.
(Sept. 19.)

CITY OF BOSTON.

PROPOSALS FOR IRON FENCE.

Proposals on blanks obtained at the Secretary's office, Park and Recreation Department, 33 Beacon street, after September 19, 1914, for furnishing and erecting an iron fence around the elephant yard on Franklin Park, signed by bidder and left before 12 o'clock m. on September 25, 1914, at the said office, with a certified check for \$200, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the proposals. The Commissioners reserve the right to reject any or all proposals.

JOHN H. DILLON, Chairman.
CHARLES GIBSON,
THOMAS F. GALVIN,
Commissioners.
(Sept. 19.)

CITY OF BOSTON.

PROPOSALS FOR THE PURCHASE OF OLD IRON AND MIXED METALS.

The Trustees of the Boston City Hospital invite proposals for the purchase of 7 tons, more or less, of old iron, and 2½ tons, more or less, of mixed metals now stored on the grounds of the Main Hospital. The purchaser shall remove the old iron and mixed metals (which are to be the property of the purchaser) within a reasonable time. Proposals should state the price for the entire lot, and must be left at the office of the Superintendent of the Hospital not later than September 24, 1914, at 12 o'clock noon, at which time and place they will be publicly opened and read. The bidder must deposit in cash or certified check, made payable to the City of Boston, an amount equal to the total bid. The proposals must be made in duplicate, the sealed duplicate, without check, to be deposited with the City Auditor previous to the time named for opening the bids. The Trustees reserve the right to reject any or all proposals, or to award as they deem best. The proposal should be inclosed in an envelope, sealed and marked "The Boston City Hospital, Proposal for the Purchase of Old Iron and Mixed Metals."

By order of the Trustees,

FRANK H. HOLT, M. D.,
Acting Superintendent.
(Sept. 19.)

BOSTON'S FREE RECREATION OPPORTUNITIES.

RECREATION AND HEALTH AGENCIES, MAINTAINED BY CITY OF BOSTON.

Three Swimming Pools—Admission, 15 cents; lessons free.

Ten Free Public Gymnasias.—With instruction in all branches of physical education.

Free Public Shower Baths.—With hot and cold showers and comfortable dressing closets

Free Golf Course in Franklin Park.—With small course for beginners.

Excellent Tennis Courts.—At Franklin Park, Franklin Field and Wood Island Park. Many good tennis courts on other grounds.

Franklin Park.—With its beautiful drives and walks, its Zoo, including largest bird house in the country and an exceptional collection of bears.

Beautiful Aquarium.—At Marine Park, City Point. Fine collection of varied species of fish.

Public Gardens.—With beautiful walks and seasonal floral exhibitions.

Arnold Arboretum.—With its wonderful collection of trees and shrubs.

Olmsted Park.—With its beautiful scenery, fine walks, and its Children's Museum.

GAMES AND SPORTS.

Basketball.—Courts in most of the gymnasias.

Handball.—Finest court in New England at East Boston Gymnasium.

Squash.—Can be played in the East Boston Handball Court.

Football and Soccer.—Numerous fields throughout the city.

Ice Hockey.—Many rinks kept in condition during season.

Skating.—On many parks and on most playgrounds during season.

Tobogganing.—Slide at Franklin Park in season.

Park Walks with Guide.—Weekly when weather is favorable.

AREA OF BOSTON.

Area to ward lines (26 wards), 30,295 acres (i. e., 47.34 square miles), 2,517 acres being filled land and 1.137 acres water area. Original Boston contained about 780 acres of land. Of the twelve leading American cities, five are larger in land area than Boston, viz., New York, Chicago, Philadelphia, St. Louis and San Francisco.

THE PEOPLE'S PART IN REDUCING THE TAX RATE.

Everybody claims that the municipal government belongs to the people. Some people argue that the municipal government is somewhat similar to a business corporation, and should be so conducted. All people agree that a municipal government should be so operated that the greatest measure of meritorious results will be accomplished at the lowest possible cost to the taxpayer.

While this philosophy is perfectly sound, it is surprising how few of the general body of our citizenship put into everyday practice what they are so glib to proclaim as a wholesome and valuable theory.

The great weakness in many cases of popular government is the attitude of the people themselves towards the various functions of the government itself. Instead of assisting to make the operations of government easy, there is too often a neglect or indifference which, in effect, multiplies the difficulties of municipal officials.

Many of the present functions of city government, which have become so perplexing because of their volume, could be reduced both in size and public cost if the people would but trouble themselves to cooperate effectively.

Take, for instance, the health of a city. A large portion of the unsanitary conditions are due directly to avoidable filth. That filth is not the result of self-creation. It is chargeable specifically to the neglect or flagrant carelessness of the people themselves. The city government has to combat the conditions, be they avoidable or not. But much of the enormous cost of operating the Health Department could be eliminated if the people who preach the doctrine of good government would themselves practice the requirements of ordinary property cleanliness.

An analysis of nearly all the other functions of city government would disclose the same truth. It would show that much of the top-heaviness of municipal costs is traceable directly to the people's own acts of omission or commission. Many of these acts seem trifling or unimportant, but all of them build up an expensive aggregate of tasks which the city government is compelled to perform.

Every loyal citizen believes in the lowest obtainable tax rate. There are three ways of reducing the tax rate. One is to find more property to tax; another is to find more sources of revenue; the third is to reduce the measure of tasks which the municipality is required to shoulder and solve.

The first two items are problems which rest primarily in the laps of the city officials. The third is a proposition for the people alone. The people are the ones who make the measure of municipal responsibilities. The more they force the city government to do, the higher necessarily will be the cost of that city government. And the cost of that government must be borne solely and unavoidably by the taxpayer.

That is why the problem of taxes is very largely one of popular fixing and regulation. If the people, in the handling of their multifarious relationships, make no effort to minimize the municipal responsibilities, they cannot expect a low tax rate. Properties and public highways, for instance, which are made dirty unnecessarily only add so much to the otherwise avoidable duties and costs of city government. If every taxpayer would but do his share towards checking the many deeds or neglects which help to multiply our municipal responsibilities, he

would be an active and worthy servitor in the campaign of bringing down the tax rate. There are thousands of ways in which this can be done. There is hardly a function of the city government, whose duties are not made more ponderous by inexcusable acts of omission or commission on the part of the people themselves. There is too ready a disposition to dump all kinds of avoidable things into the lap of the municipality. It may be but a little thing here and a little thing there; but it is the piling up of the thousands of these self-same little things which piles up coincidentally our vexatious tax rate. On the other hand, an exercise of even a moderate degree of care on the part of each and every taxpayer would make possible a substantial clipping of this tax rate.

The fixing of a tax rate is no easy task. The public little realizes the intensely trying labor that is incident to this duty. To the casual observer it looks simple. But to the man on the inside; to the official who is confronted with the overwhelming rush of items connected with the city government; to the person who knows the difficulty of reconciling unlimited results with a low rate; to the individual, indeed, who has to wrestle with the very problem itself, the task of fixing a tax rate is a most herculean proposition.

Public officials deserve more sympathy than they get. It is a nerve-racking undertaking to grapple with the contending demands of "results" and "low taxes." Everybody wants "results," and, yet, nobody wants high taxes.

The public makes the municipal government fritter away much of its available funds in taking care of the things which the people themselves could have avoided. It is this unfortunate frittering away of otherwise available sums which cuts down the measure of what ought to be each year's substantial results. More money, on a low tax rate, would be obtainable for constructive improvements, if the public, by close cooperative attention, would but help to minimize the measure of avoidable municipal work. If everyone would but do his part it would make a tremendous difference in municipal expenses.

At this season of the year, just prior to the making up of our ordinance of estimates, the public begins to take special interest in the taxation question. Speculation as to what will be the next tax rate is both prevalent and natural. Inquiry relative to the various items that play a big part in making up the tax rate is to be noticeable everywhere. And it is a good and wholesome sign when this public interest is thus active.

The knowledge of that truth should establish a relationship of confidence between the public and city officials whereby the people themselves can become active assistants in the work of handling and solving municipal propositions. If people would only discard caustic and irresponsible flings at municipal men and municipal matters, and would substitute sensible suggestions as a better and more patriotic practice, it would prove helpful to public officials and would add greatly to the progress of the public service.

One intelligent, practical suggestion will do more for the betterment of the municipal service than will a million tons of slander or invective. The heads of a big city's population should teem with ideas. There should be available at any time a superabundance of wholesome suggestion on any proposition. If the men who believe in good government, who are hopeful for the best results,

would but put those ideas into concrete form, and submit them in a suggestive or advisory way to the city officials in charge of any given municipal problem, they would be doing a public service of very great value.

And there is no problem that ever pends that does not find a plentitude of good ideas lodged in the brains of the people at large. If the people would but offer these ideas with the same liberal freedom that some elements offer their invective, the municipal situation would improve most wholesomely.

That is what the municipal service needs. A more intimate cooperation should mark the relationship between city officials and the people. The people should be free to offer suggestions and recommendations; the city officials should be glad to receive them, and should convert them into beneficial use.

The more the public studies municipal affairs, the more will it sympathize with those who have to wrestle with its problems. The more our people want the best government and the biggest results at the lowest cost in the form of a tax rate, the more will they attend to the avoidance of the little things that pile up unnecessary costs on the city treasury.

The more the people and the city officials work together, the better the municipal government in all of its functions.—*Editor Goldsborough, Baltimore Municipal Journal.*

GLOBES FOR STREET LIGHTING.

BY JAMES R. CRAVATH.

Most of the street lighting in this country is done with clear glass globes. The wisdom of this policy is dependent altogether upon conditions. The reasons for the use of clear glass are probably about as follows:

- (1.) It is cheaper than any other kind.
- (2.) It is more easily cleaned than any other kind.
- (3.) It absorbs less light than any other kind.
- (4.) It shows when it is dirty and when it needs cleaning to prevent loss of light.

All of these are good reasons for its use. Against its use the following arguments may apply in some cases:

It is not as pleasing in appearance as some of the diffusing glasses such as ground glass or opal. The source of light as seen through the clear glass looks harsh and unpleasant. If the source of light is powerful and concentrated as is the case in the electric arc, the glare is annoying and hard on the eyes. In some cases the clear glass does not give as useful a distribution of light as would some other kind of glass. This may seem strange but it is true that the opal globes under some conditions act to increase the candle power in certain directions where it is most wanted, even though the total amount of light given through the opal globe is less than would be given through a clear globe.

Within the last few years much more attention has been given than formerly to diffusing or softening the light so as to reduce the glare and make it more pleasant for the eye. The necessity for this has been emphasized by the recent introduction of very powerful or intense sources of light such as the flame arc lamp and the nitrogen filled tungsten incandescent lamp. None of these is less than 1,000 candle power per square inch and most of them are at least 500 times as bright per square inch as an equal area of the old open fish tail gas flame with

which city streets were commonly lighted twenty years ago. It should be remembered that this refers to brightness or candle power per square inch and not to the total candle power emitted. It will therefore be seen that there is much more necessity for diffusing and softening the light for the eye of the street user than there was formerly, to say nothing of the question of artistic appearance.

There are a number of varieties of diffusing glass which are sold under a multitude of trade names, but for the purposes of this article they may be divided into five general classifications as follows:

(1.) Ground glass, as it is commonly called, which is roughened either by the process of etching with acid so as to produce a slightly frosted appearance or by means of a sand blast which produces a much coarser roughening.

(2.) Opaline glass, which contains minute white particles in sufficient quantity to reduce the intensity of the light but nevertheless shows a distinct image of the lamp flame or filament through the glass. Such image is usually of a dull red color. It is, however, a clear cut image, in which respect opaline glass differs from light density opal of the next classification.

(3.) Light density opal glass, which has come upon the market the past five years under a variety of trade names, which gives somewhat the same effect as ground or etched glass except that when used as a thin blown globe it will show a blurred image of an incandescent lamp filament through the globe. This image instead of being dull red and clear cut as in the case of opaline glass is practically as white as the original light from the filament and is somewhat blurred. When used in thicker bowls this light density opal glass does not show the lamp filament or source of light through the glass.

(4.) Dense opal glass, which has been used many years, is milk white in appearance and gives such perfect diffusion that when a lamp is placed inside of an opal globe the globe appears equally bright at all portions. The source of light is not visible. The appearance of the glasses classified as "light density opal" and "dense opal" in this article is considerably different on close inspection. The dense opal glass, which has been produced for so many years, is milk white in appearance and the finely divided particles in the glass which give it this white appearance are so small that they are not visible to the naked eye. On the other hand, in the glasses classified as "light density opal," it is almost possible to see the particles in suspension in the glass.

(5.) Prismatic globes where the diffusion is by means of clear glass prisms.

Of the foregoing, ground glass is not much used at the present time for street lighting for the excellent reason that it is so hard to clean once it becomes thoroughly dirty. The roughening of the glass makes it impossible to remove the dirt.

Opaline glass is seldom seen for street lighting and is deservedly unpopular because of the crude appearance of the source of light showing through the glass.

Most of the diffusing globes used for street lighting at the present time are either light density or heavy density opal. The amount of light absorbed by the light density opal globes is usually between 15 and 25 per cent, while that by the heavier density opal is from 20 to 50 per cent. The constant aim of the glass

manufacturer and the illuminating engineer is to secure a glass which will give good diffusion (or in other words will not show the source of light through the globe), and at the same time will absorb as little light as possible. As a general rule the better the diffusion the greater the absorption of light. However, this matter has received considerable study and some kinds of opal globes have been found which apparently can be relied upon to give fairly good diffusion with about 20 per cent absorption. It is hardly necessary to say that the test sometimes applied to street globes of putting them up on the street on adjacent posts and looking at them gives no idea of the actual absorption of the glass. Such an absorption test can be made only in a well-equipped laboratory with accurate instruments and methods.

The shape of the globe has some influence on the distribution of light about the lamp-post, as does also the kind of glass of which it is composed; but these influences are comparatively minor. The most important changes in light distribution are accomplished by means of reflectors and special prismatic refracting globes. However, the effect of shape of globe is worth considering. It was found after considerable experimenting on the best shape for ornamental gas lamp globes in Chicago that a certain shape of globe gave considerably more candle power in the most desirable direction than some other shapes.

The performance of most of the common kinds of globes as to absorption and their influence on the distribution of light are well known to competent illuminating engineers at the present time and no competent engineer will order globes of a new kind in large quantity without first having a test made to determine the photometric performance of the globes. It is just as necessary to do this as to test other kinds of material purchased.

I have already referred briefly to the influence of reflectors and refracting globes upon the distribution of light about a street lamp. It is well known among illuminating men that many street illuminants, particularly electric incandescent lamps and gas mantle burners, give more illumination near the post than is necessary, and less midway between then is needed and it is desirable to increase as much as possible the illumination at some distance from the post or midway between posts. In doing this, reflectors have been an important aid. It is important, however, that these reflectors be of the proper shape, as some so-called reflectors are of slight value. Another successful way of increasing the candle power in certain directions so as to increase the illumination midway between the lamp-posts is to use globes having refracting prisms cut in such a way as to catch some of the light which would otherwise be wasted and turn it in the directions where it is most needed. The great difficulty with previous attempts in this direction was that the prisms were such dust catchers and were so difficult to clean in street lamp globes that they found very limited application. Recently this difficulty has been overcome by a double globe sealed together with the prisms on the inside where the dirt cannot get at them, thus leaving smooth exterior and interior globe surfaces to clean. This form has been much more successful. It acts both to diffuse and to redirect.

There is now a fairly general agreement among illuminating engineers that the flame arc lamp and the new nitrogen filled tungsten lamps are so intense as to

require some kind of a diffusing globe. Doubtless some could be found who could take exception to this, but general practice seems so have settled down to diffusing globes for those kinds of lamps. Diffusing globes are generally used on ornamental posts for electric light and might well be used on gas mantle street lamps also to a greater extent than at present.

OPPORTUNITIES FOR BATHING.

The Park and Recreation Commissioners have provided every possible facility for the enjoyment of bathing during the present season.

The list of houses are as follows and are open from 2 p. m. until 10 p. m. daily:

Curtis Hall, Jamaica Plain (swimming pool).
Cabot Street, Roxbury (swimming pool).
Columbia Road, Dorchester.
Ward 7 Gymnasium, Tyler street.
Ward 9 Gymnasium, Harrison avenue.
Dover Street Bath, city.
D Street Baths, South Boston.
North Bennet Street Baths, city.
East Boston Baths, Paris street, East Boston.
Ward 3 Baths, corner Lexington and Bunker Hill streets, Charlestown.

The beaches of the city are opened from three hours before to three hours after high tide, with the exception of L street, from 6 a. m. until 10 p. m., and they are as follows:

L Street Beach, South Boston.
Tenean Beach, Neponset.
Freeport Street, Dorchester.
Savin Hill Beach, Dorchester.
McKenzie Beach, South Boston.
North End Park, city, Ward 6.
Dewey Beach, Charlestown.
Wood Island Beach, East Boston.

Instructors and lifeguards are present at all times during the bathing period.

The list of floating houses and their locations are as follows:

Jeffries Point, East Boston.
Border Street, East Boston, 2 houses, men and women.
Warren Bridge, Charlestown, 2 houses, men and women.
Charlesbank, city, West End, 2 houses, men and women.
Dover Street Bridge, city, 2 houses, men and women.
Fort Point Channel, city, near South Station, men only.

BOSTON'S MUNICIPAL SWIMMING POOLS.

Beautiful swimming pools are open to the public in these three buildings: Curtis Hall Gymnasium, Jamaica Plain; Columbia Road Gymnasium, Dorchester; Cabot Street Gymnasium, Roxbury. Modern methods are employed in keeping these pools perfectly clean. Admission costs fifteen cents, but this includes the use of bathing costume. Private bathing costumes are not allowed. A swimming instructor is always in charge of the pool and will give instruction free of charge.

SCHEDULE OF HOURS.

Monday.—Women, 10 a. m. to 3 p. m.; School Girls, 3 to 6 p. m.; Women, 6 to 10 p. m.
Tuesday.—Men, 10 a. m. to 3 p. m.; High School Boys, 3 to 6 p. m.; Men, 6 to 10 p. m.
Wednesday.—Women, 10 a. m. to 3 p. m.; School Boys, 3 to 6 p. m.; Working Boys, 6 to 10 p. m.
Thursday.—Same as Monday.
Friday.—Same as Tuesday.
Saturday.—Grammar School Boys, 10 a. m. to 12 m.; High School Boys, 12 m. to 6 p. m.; Working Boys, 6 to 10 p. m.

INSTRUCTORS.

Curtis Hall.—Colin McDonald, Joseph Good.
Columbia Road.—George T. Cuddihy, Dennis J. Swanson.
Cabot Street.—Harry A. Grainger, William C. Rowe.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 6.

SATURDAY, SEPTEMBER 26, 1914.

No. 39

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By Subscription \$1.00 Per Year.
Single Copies 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 25, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS, 1001 City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, September 28, at 3 p. m.

Meeting of School Committee, Monday, October 5, at 7 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

PUBLIC HEARINGS.

The Board of Street Commissioners announce a public hearing, relative to the taking of land for schoolhouse purposes, upon Auburn street, Roxbury, at the office of the Board, 401 City Hall Annex, upon Monday, September 28, 1914, at 11 a. m.

The Directors of the Port of Boston announce a public hearing upon the application of the directors of the Boston Elevated Railway Company for a license to dump snow and ice into the tide water of Boston Harbor, at the office of the Directors, Marshall Building, 40 Central street, Boston, Tuesday, October 6, at 10 a. m.

NOTICE OF LAYING OUT AND CONSTRUCTION WORK.

Especial attention is called to the advertisement of the Public Works Department in the current issue of the *City Record* relative to the laying out and construction of highways in City Proper, Roxbury, Dorchester, West Roxbury and East Boston, and that all work in said highways relative to sewer, gas, water or other pipes must be accomplished before Saturday, October 31, 1914, as after that time no permits for openings will be granted until two years after the said highways are completed.

AN EARNEST APPEAL NEEDED.

Mayor Curley was gratified to receive word from Washington on the 23d instant that the River and Harbor Bill, in the form of one general appropriation, had passed the Senate, and would be expended under the direction of the Hon. Lindley M. Garrison, Secretary of War.

The Mayor has been an untiring advocate in behalf of an appropriation providing for the dredging of a 40-foot channel and improvements in Boston Harbor, and is by no means undaunted as the result of placing the entire appropriation within the discretion of Secretary Garrison.

The message sent to Boston by Senator Weeks read as follows: "Rivers and Harbor Bill passed Senate carrying lump sum of twenty million, to be expended under the direction of the Secretary of War."

Mayor Curley said: "I have striven first and last at Washington, by appeal to our New England senators and representatives, to see that Boston received a fair consideration in the River and Harbor Appropriation Bill. Despite constant discouragement, the outlook is now hopeful for a fair consideration in behalf of Boston Harbor, by Secretary Garrison, provided the representative business organizations of our city will cooperate and present to the War Department's chief executive the imperative need that confronts us in the matter of harbor development.

"It is obvious that no further material aid will be received from the Commonwealth unless the Federal Government shows a disposition to perform its adequate share in the matter of a necessary appropriation.

"The Secretary of War is a most distinguished jurist, who weighs carefully and well every just claim presented him, and I am certain that if mutual appeal is directed by our Boston merchants he will not turn a deaf ear to our message.

"I can but feel that an important duty rests upon our citizens in this regard for to lose a Boston Harbor appropriation now will establish a very dangerous precedent and retard our harbor development work for many years to come.

"The duty of the hour is manifest, and I trust that vigorous aid by Boston organizations will be immediately forthcoming."

PUBLIC NECESSITY IN CLEAN STREETS.

By JOSEPH J. NORTON, *Supervisor Street Cleaning and Oiling Service, Public Works Department.*

The greatest deterrent to clean streets in any community, particularly a cosmopolitan one, is the constant, unrestrained and promiscuous throwing of rubbish and waste materials into the streets.

This littering of the streets minimizes the effect of the work of the Street Cleaning Service immensely, and of the problems that the department must meet there are none perhaps more difficult of solution. No matter how well machines or push cart men may broom a street surface and clean it of all that is unsanitary, it presents an unsightly appearance if paper, litter or rubbish of any kind be thrown upon it. While it is apparently impossible for the police force to prevent the violation of the ordinances regarding the sweeping of house or store litter into the street, it is especially annoying to note the average citizen throwing his newspaper, empty boxes and fruit peelings upon its surface, and this, too, in the presence of, or at least within the knowledge of, those whose duty it is to see that the city ordinances are respected.

The duty of the Street Cleaning Service is to reduce, as far as possible, this annoyance and to this end the paper patrol or push cart system was organized to give attention to those sections where refuse and litter gather continually. A marked improvement at once followed the introduction of the patrol system, but before there may be attained and preserved a degree of cleanliness in our streets, satisfactory to the public, a more strict, constant and cooperative police enforcement of the ordinances must be had, otherwise more stringent laws are needed to cover the matter.

Another great cause of unclean streets is found in the almost universal practice of express and teaming companies, contractors, and even city teams, carrying loose material, such as straw, paper, dirt, ashes, etc., through the streets without providing proper covers or tail boards. Again it is indisputable that much of the litter that befouls our streets comes directly from stores, the receptacles for holding store dirt varying in size, material and cleanliness. It is a common sight to see hat boxes, soap boxes, dilapidated barrels and packing cases on sidewalks, piled high with loose refuse of every description, blown by every gust of wind over the neighboring streets. The insistence upon a proper receptacle and a third separation, including the tying up of the bulkiest material, would go far in remedying this condition. Many nuisances are committed where push carts and peddlers are allowed to congregate to dispose of their wares. Many of them dispose of their decayed fruit, vegetables and other filth by throwing it under their cart or wagon whereas they should be compelled to take the same away. This condition is especially true in the market district and some of the storekeepers, taking advantage of the peddlers' carts being in the streets, sweep or throw the refuse out of their stores, into the gutters. Advertising bills and cards, delivered by boys or unreliable distributors, causes the littering of the street to some extent. Generally these handbills are put on the doorstep and from there find their way to the street.

The large amount of new construction work constantly going on, entailing the continuous tearing up of our streets by

the building of a subway, the installation of high pressure water service, the excavations of the quasi-public corporations, the indiscriminate digging up of streets by numerous private contractors and the immense amount of loose sand and gravel used in this construction work, increases the difficulties of maintaining clean streets. This construction work naturally necessitates the hauling to and from the work of large amounts of material, considerable of which is deposited along the streets, in transit, and is blown about the streets while being used. Like street cleaning itself, this is dirty work, and the citizen whose business is carried on in the neighborhood must hope for nothing more than the lessening of the nuisance.

The alleys, both public and private, are aptly called the filth tributaries of the public streets. Over the private alleys the Street Cleaning Service has no jurisdiction. The abutting tenants think nothing of casting all manner of refuse into them. Even when the abutters try to clean them, the public often uses them for a dump. Under the Public Alley Act of 1898, the municipality is required to keep public alleys free from any substance which is liable to cause sickness or a nuisance. Section 3 of this act reads: "Whoever drops or places or suffers to remain in any public alley any snow or ice or any rubbish or obstruction of any kind shall be fined not exceeding fifty dollars for each offence." The abutters seem to think that notwithstanding the provisions of this act they are privileged to throw and deposit all kinds of house and store refuse into the alley and that the duty devolves on the city to remove the same. The public alley does not have the same standing in law as the public highway and the duty of the city toward it is not the same. After construction, it is to all intents and purposes a private way, repairs to which, and the removal of snow and ice from which, the city does not assume, but agrees only to keep in a healthful condition. Over 80 per cent of the public alleys are located in the lodging house sections of the South End and the Back Bay. They conveniently become the receptacles for all sorts of refuse matter which, becoming the plaything of every wind, eventually finds its way into the adjoining public street, nullifying the work of the Street Cleaning Service and producing complaints from abutters who unconsciously started the refuse on its way.

The many poor and uneven pavements throughout the city proper make the work of the Street Cleaning Service much harder, especially where there are car tracks. The tendency of pavements in Europe for many years and recently in this country has been toward smoother surfaces and fewer joints. Macadam and dirt streets are not desirable within the city limits; the wear of heavy traffic and the effect of wet, dry and freezing weather disintegrate them rapidly. Smooth and durable pavements upon the streets would encourage efforts to clean them and the entire neighborhood is influenced to a better appearance. Streets in the tenement and like sections should be laid with asphalt or a similar pavement, as the surface would then be without joints and is easily cleaned and now that flushing or washing has been successfully introduced, could be easily washed free from germs of all kinds. In localities like the North and West Ends and part of the South End, where some of the streets are used as playgrounds by the children, while it is impossible to keep

them free from litter, if the pavement was of a smooth material, the flushing of these streets would greatly improve their appearance.

In short, the great hindrances to the Street Cleaning Service in its work are the thoughtless and unrestrained littering of the streets and private and public alleys by pedestrians and traffic; the careless and slothful methods of abutters in disposing of their refuse; the evils of the push cart nuisance and the carelessness of public and private contractors. The overcoming of these hindrances is in the power of the people, and if prompted by a feeling of civic pride, they would exercise more care and consideration in the disposal of litter and refuse, otherwise they will be a nuisance and menace until better conditions be insisted upon by the enactment and enforcement of more stringent laws such as we find in continental cities.

AMERICAN FLAG UPON BOSTON SHIPS.

Mayor Curley received a hearty message of felicitation upon the 21st instant from M. B. Suzerant, General Manager of the New Orleans Association of Commerce, in the raising of the American flag at New Orleans upon the steamship "Cartage" of the United Fruit Company of Boston.

The event was the occasion of a great maritime celebration in the Crescent City.

General Manager Suzerant sent the following message to Mayor Curley:

"We have the honor to notify you that the American flag was to-day raised at New Orleans over the first ship sailing out of a southern port of the United States, being the steamship "Cartage" of the United Fruit Company, operating between New Orleans and the Panama Canal.

"We desire to felicitate the American people in so liberalizing our navigation laws that we have to-day a manifestation of a practicable revival of the American Merchant Marine. New Orleans, a port which has consistently fought for this accomplishment, realizes her responsibility as the nearest great American seaport to the Panama Canal, serving as the ocean gateway for the great industrial exporting region of the Mississippi, Ohio and Missouri Valleys and Central West.

"With her extensive municipally owned wharf and belt railroad systems, and strategic position at the juncture of the Mississippi river and Gulf of Mexico, New Orleans is in position to act as the warehouse of the Western Hemisphere and afford those port facilities needed to place the middle section of the United States in command of the suddenly developed South American trade opportunities made possible by the European war situation.

"A definite conjunction between New Orleans and the Middle West is now being effected with this end in view, adding to the prestige of American commerce abroad and to the glory of the American flag on the high seas."

CHANGE OF PLANS.

Superintendent of Public Buildings Richard A. Lynch and the Whiton-Haynes Company, contractors for erecting and completing the South Boston Police Station, have agreed upon a change of plans for the building, without involving additional expense to the city.

There will be substituted plain oak finishing stock for ash finishing stock and the counter and desk tops will be made with quartered oak.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

CEMETERY DEPARTMENT.

The Cemetery Trustees advertise for proposals for erecting a fireproof garage at the Superintendent's House, Mount Hope Cemetery, Boston. Surety bond will be required in the amount of \$300. Blank forms for proposals may be obtained at the office of the Cemetery Trustees, 1001 City Hall Annex. Bids, accompanied by a certified check in the amount of \$100, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor. Supplemental information relative to this contract may be obtained at the office of the architects, Berry & Davidson, 29 Central street, Boston.

Bids close Monday, September 28, at 12 m.

HOSPITAL DEPARTMENT.

The Trustees of the Boston City Hospital advertise for proposals for erecting and completing a plumbing system in the new Ward Pavilion at the Boston City Hospital. Surety bond will be required in the amount of \$1,000. Blank forms for proposals may be obtained at the office of architect, Edward P. Dana, 29 Central street, Boston. Bids, accompanied by a certified check in the amount of \$1,000, to be filed with the Superintendent, Boston City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, October 5, at 12 m.

The Trustees of the Boston City Hospital advertise for proposals for erecting and completing heating and ventilating system in new Ward Pavilion, Harrison avenue and Northampton street, Boston. Surety bond will be required in an amount equivalent to 25 per cent of the contract price. Blank forms for proposals may be obtained at the office of architect, Edward P. Dana, 29 Central street, Boston. Bids, accompanied by a certified check in the amount of \$500, to be filed with the Superintendent, Boston City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, October 5, at 12 m.

The Trustees of the Boston City Hospital advertise for proposals for erecting and completing new Ward Pavilion and Tunnel, Harrison avenue and Northampton street, Boston. Surety bond will be required in the amount of \$50,000. Blank forms for proposals may be obtained at the office of architect, Edward P. Dana, 29 Central street, Boston. Bids, accompanied by a certified check in the amount of \$2,000, to be filed with the Superintendent, Boston City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, October 5, at 12 m.

The Trustees of the Boston City Hospital advertise for proposals for installing and completing a wiring system in new Ward Pavilion, Harrison avenue and Northampton street. Surety bond will be required in the amount of \$2,000. Blank forms for proposals may be obtained at the office of architect, Edward P. Dana, 29 Central street, Boston. Bids,

accompanied by a certified check in the amount of \$500, to be filed with the Superintendent, Boston City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, October 5, at 12 m.

PUBLIC WORKS DEPARTMENT (Bridge Service).

Advertises for proposals for rebuilding the draw fender pier and fender guard and building a wharf at Broadway Bridge, over Fort Point channel. Surety bond will be required in the amount of \$4,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Thursday, October 8, at 12 m.

PUBLIC WORKS DEPARTMENT (Paving Service).

Advertises for proposals for bituminous macadam roadway in Frankfort street, from Neptune road to Bennington street, East Boston. Surety bond will be required in the amount of \$1,800. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, September 28, at 12 m.

Advertises for proposals for building sea wall across water passageway on the northerly line of East First street, South Boston. Also for furnishing about 8,500 cubic yards of filling back of said wall. Surety bond will be required in the amount of \$5,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$1,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, October 7, at 12 m.

PUBLIC WORKS DEPARTMENT (Sanitary Service).

Advertises for proposals for building a refuse receiving station on Ward street, between Halleck street and New York, New Haven & Hartford Railroad. Surety bond will be required in the amount of \$10,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$1,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, October 14, at 12 m.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Advertises for proposals for pipe sewers and drains in St. Andrew road, between Bayswater street and Washburn avenue, and outlet in Washburn avenue, and catch-basins in Frankfort street, between Neptune road and Swift street, East Boston. Surety bond will be required in the amount of \$800. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, October 2, at 12 m.

Advertises for proposals for pipe sewers and drains in Cummings road, between Edgemont road and Commonwealth avenue, and catch-basins in Gardner street at Gardner terrace, Brighton. Surety bond will be required in the amount of \$700. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, October 2, at 12 m.

Advertises for proposals for pipe sewers and drains in Commonwealth avenue, northerly side, between outlet 600 feet west of Essex street and existing sewer 200 feet east of St. Paul street, Brighton. Surety bond will be required in the amount of \$300. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, October 2, at 12 m.

PUBLIC WORKS DEPARTMENT (Water Service).

Advertises for proposals for laying about 2,070 linear feet of 6, 8, 10 and 12 inch water pipe in Goodwin place and Tuckerman street, South Boston; Walley street and Washburn avenue, East Boston; Assabet, Fabyan, Norwood and Olney streets, Dorchester; Huntington avenue, city proper. Surety bond will be required in the amount of \$500. Bids, accompanied by a certified check in the amount of \$300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Thursday, October 1, at 12 m.

SCHOOLHOUSE DEPARTMENT.

Advertises for proposals for grading yard of the Normal School, Longwood and Huntington avenues, Back Bay. Surety bond will be required in the amount of \$500. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 1009 City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, October 2, at 12 m.

Advertises for proposals for selling to the city land for an elementary school in the Oliver Wendell Holmes District, Dorchester. The property to be in the territory bounded and described as follows: Beginning at the junction of Blue Hill avenue and Talbot avenue, thence by the center of Blue Hill avenue to Glenway street, thence by the center of Glenway street to York street, thence by the center of York street and straight line continued to the New York, New Haven & Hartford Railroad, thence by center of railroad to Harvard street, thence by center of Harvard street to place of beginning. Proposals to be filed at the office of the Schoolhouse Commissioners, 1009 City Hall Annex. A public hearing will be given by the commissioners upon Tuesday, October 13, 1914, at 12 m., to consider the suitability of the land offers.

Bids close Tuesday, October 6, at 12 m.

SUPPLY DEPARTMENT.

Advertises for hay, straw, oats, shorts and corn needed in the different departments of the city for one month com-

mening October 1, 1914, and for six months commencing October 1, 1914. The bidder must cover the cost of delivery. Blank forms for proposals may be obtained at the office of the Superintendent of Supplies, 808 City Hall Annex. The bidder is requested to bid upon both No. 1 and No. 2 hay; the hay to be timothy hay, clean and sweet; the straw to be No. 1 straight rye straw. The bidder is requested to bid on No. 1 oats, to test 38 to 40 pounds; No. 2 clipped white oats, to test not less than 34 pounds to the bushel. Bidders upon one month's supply must accompany the same with a certified check in the amount of \$200. Bidders upon six months' supply must accompany the same with a certified check in the amount of \$500. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, September 30, at 12 m.

Advertises for proposals for furnishing 450 winter uniforms and 450 winter hats to the Street Cleaning and Oiling Service of the Public Works Department. Surety bond will be required in an amount equivalent to one-quarter of the contract price. Samples of the uniforms and hats required may be seen at the office of the Superintendent of Supplies, 808 City Hall Annex. Bids, accompanied by a certified check in the amount of \$200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, October 9, at 12 m.

MAYOR AIDS SAILORS.

The members of the U. S. S. "Rhode Island," a battleship crew with whom Mayor Curley was upon especially intimate terms during his service in Congress, telegraphed the Mayor from Old Point Comfort, Virginia, upon the 23d instant, earnestly requesting that the executive order of Hon. Joseph Daniels, the Secretary of the Navy, instructing the commander of the vessel to proceed to dock at Norfolk, instead of Charlestown, may be superseded by another making Boston the home port, and giving the Boston and New England members of the crew an opportunity of visiting mothers, fathers, wives and sweethearts.

The crew believe that the present docking will be but a temporary matter and that reassignment will be ordered to Mexican waters. And every member of the crew is desirous of reaching "dear old Boston."

Mayor Curley accordingly sent the following message to Secretary Daniels in behalf of the crew of the U. S. S. "Rhode Island."

CITY OF BOSTON,
MAYOR'S OFFICE, September 23, 1914.
HON. JOSEPH DANIELS,
Secretary of the Navy,
Washington, D. C.:

Sincerely trust that you can amend order for docking the U. S. S. "Rhode Island" in so far that vessel may come to Boston instead of Norfolk as at present ordered. Boston members of the crew are very anxious to visit their homes before departure for Mexican waters.

JAMES M. CURLEY,
Mayor of Boston.

APPOINTMENTS AND CONFIRMATIONS.

APPOINTMENT.

September 23, Frank Seiberlich, to be Election Commissioner of Boston, *vice* Tilton S. Bell, resigned.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts:

PUBLIC WORKS DEPARTMENT.

The Commissioner of Public Works states his intention to construct a surface drain of 10, 12 and 15 inch earthen pipe and a sanitary sewer of 12-inch earthen pipe, in private land and Hunter street, between Norfolk and Morton streets, Dorchester, at an estimated cost of \$2,256.

PERMISSION TO DO WORK WITH
DEPARTMENT FORCE.

PUBLIC WORKS DEPARTMENT.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force, without advertising for competitive bids:

Resurface with tar macadam River street, from Business street to Dedham line, Hyde Park district, the estimated cost for labor and materials being \$11,000.

Construct Dorchester avenue widening, at Adams street, Dorchester. Estimated cost for labor and materials, \$1,200.

ADDITIONS TO AND DEDUCTIONS FROM
CONTRACTS.

The following additions to and deductions from contracts have been approved by his Honor the Mayor:

PUBLIC WORKS DEPARTMENT (Paving
Service).

An addition, amounting to \$150, on contract with Charles J. Jacobs Company for artificial stone sidewalks in Anawan avenue, Oriole and Park streets, West Roxbury, on account of extending contract to Beech street. Prices to be the same as those in original contract. Original contract, \$2,437.24; total addition, \$150; contract as standing, \$2,587.24.

An addition, amounting to \$100, on contract with Connolly Construction Company for rebuilding wall on Albe-marle street, on account of reconstructing wall with extra thickness where directed. Original contract, \$305; total addition, \$100; contract as standing, \$405.

PUBLIC WORKS DEPARTMENT (Sewer
Service).

An addition, amounting to \$35, on contract with Frank Drinkwater for

sewerage works in Clement avenue, Kenneth street, Anawan avenue and Beech street, West Roxbury, on account of cutting guttermouth in existing curb; laying about 60 feet of 6-inch house drain for roof water from three houses upon which construction was begun after contract was advertised. Original contract, \$4,294.70; total addition, \$35; contract as standing, \$4,329.70.

An addition, amounting to \$40, on contract with M. H. Kelley for sewerage works in Thompson street, between Warren and Main streets, Charlestown, on account of building one cubic yard of extra brick masonry; connecting old house drains with new sewer; removing about 55 square yards of old cobble-stone pavement from trench. Original contract, \$278; total addition, \$40; contract as standing, \$318.

An addition, amounting to \$58, on contract with Charles J. Jacobs Company for sewerage works in Ulmer street, between Minden and Arklow streets, Roxbury, on account of building one extra catch-basin and laying 8 feet of 10-inch pipe catch-basin drain in Heath place. Original contract, \$602.50; total addition, \$58; contract as standing, \$660.50.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$778, upon contract with M. S. Kelliher for work at the Continuation School. For painting the present walls upon the second, third, fourth and fifth floors, three coats, lead and oil, whitening the ceilings two coats upon the second, third, fourth and fifth floors, \$500; providing new chair rail and easing on all doors, all new partitions on the second, third, fourth and fifth floors; lowering the present chair rails upon second, third, fourth and fifth floors and repairing all plastering disturbed, \$278. Original contract, \$3,879; total additions, \$778; contract as standing, \$4,657.

An addition, amounting to \$100, upon contract with McGahey & O'Connor for work at the High School of Commerce. For installing a floor cabinet switch board in addition to the telephone system. Original contract, \$469.995; total additions, \$360; total deductions, \$2,750; contract as standing, \$467,605.

SALE OF HOGS.

Permission has been granted the Trustees of the Infirmary Department to barter and sell hogs for the Long Island Hospital to the amount of \$500.

FIRE DEPARTMENT ORDERS.

HEADQUARTERS FIRE DEPARTMENT,

BOSTON, September 21, 1914.

General Orders No. 131.

I. POLL TAXES.

1. The attention of the members of the department is hereby called to the following letter from his Honor the Mayor, dated September 16, 1914:

To the Heads of Departments:

My attention has been directed to the fact that employees of your department have failed to pay their poll taxes.

I would appreciate your posting a notice where it may be available to the men in your department notifying them that their taxes must be paid on or before December 1, 1914.

Respectfully,
JAMES M. CURLEY, Mayor.

II. CARE IN THE USE OF HYDRANTS.

1. Engineers and assistant engineers are cautioned to use great care in opening and closing hydrants, as several hydrants have been put out of commission by the breaking of the spindle through carelessness and the use of unnecessary force. Judgment must be used in the opening and closing of hydrants.

2. All hydrant wrenches known as the "Porter" wrench will be returned to the Repair Shop as soon as possible.

III. COMMENDATION.

1. Daniel J. O'Leary of Ladder Company 12 is hereby commended for assisting Engine Company 30 at a still alarm of fire at Grove and Centre streets, September 17, 1914, while on a day off.

IV. ELECTION OF OFFICERS, BOSTON FIREMEN'S RELIEF FUND.

1. The following report of the election of members of the corporation of the Boston Firemen's Relief Fund is hereby published for the information of the department:

Lieut. James Mahoney, Tower 2, 447 votes; Alexander F. Mitchell, Engine 1, 486 votes; Joseph W. Fix, Engine 23, 484 votes; Bartholomew J. Dowd, Ladder 29, 480 votes; Lieut. John P. Lane, Boston Protective Department, Company No. 1, 27 votes.

By order of the Fire Commissioner,
PETER F. McDONOUGH,
Chief of Department.

THE COMMERCE OF BOSTON.

The statement of the commerce of Port of Boston for week ending September 18, 1914, was as follows:

	1914.	1913.	Increase.	Decrease.
Imports.....	\$2,105,295	\$2,774,616		\$669,321
Exports.....	600,033	568,877	\$31,156	
For the last thirty-seven weeks:				
Imports.....	132,806,256	96,930,830	35,875,426	
Exports.....	40,025,551	50,492,287		10,466,736

ARACHIS HYPOGÆA.

By CAPT. JOHN H. DILLON, Chairman
Park and Recreation Department.

Just the classical name—and yet how much easier it is to say, if you intended to buy some of this popular, edible and delectable nutriment, "Please give me a pint of peanuts."

The peanut is a native of the tropics and grows under the soil on rootlets just like the potato and is very much cultivated in our southern states. When roasted, the peanut has a pleasant flavor and is much eaten by young and old. The confectioners make use of it in many ways. Peanut butter is not to be despised and oil of peanut has quite a value, commercially.

SCHOOL ORDERS APPROVED.

Mayor Curley has approved orders of the Boston School Committee as follows:

For lectures for non-English speaking people, during the evening school term of 1914 and 1915, in buildings occupied by evening elementary schools, and at a cost not to exceed \$1,500.

Establishing the compensation of Ellen M. Gleason, temporary assistant in the office of the Superintendent of Schools, at \$2.25 the day.

A grant of \$125 to Frederick W. Turner, master of the Mechanic Arts High School, for extra service rendered during the summer months of 1914.

Establishing the salary of the chief attendance officer at the rate of \$2,004 the year.

For payment of salary due the late Charles A. Devney, janitor of the Henry Vane and Old Baker Street schoolhouses, to his widow, Katharine Devney.

An appropriation not to exceed \$1,000, for lectures and educational motion picture entertainments, in school buildings, not used as school centers.

For compensation of managers and assistant managers in school centers at the following rate, for the year ending August 15, 1915: Managers, \$1,500; assistant managers, \$1,200.

PERMITS TO BUILD GARAGES.

The Mayor has approved the order of the Board of Street Commissioners in granting permits to erect garages to the following persons:

Frederick C. Frech, 222 Parker Hill avenue, Ward 19.

Caroline von G. Digney, 19 Whitman street, Ward 24.

Maurice E. Finn, 73-75 Waumbec street, Ward 21.

Fred R. E. Dean, 70 Tonawanda street, Ward 20.

Rev. Joseph F. Faber, S. J., 26 Hawthorne street, Ward 21.

Adaline H. Smith, 51 Burroughs street, Ward 23.

SALE OF HORSES.

Permission has been granted Fire Commissioner Grady to sell old horses to an amount not exceeding \$500; the same to be in part payment for new horses.

NOTICE OF ADJOURNED HEARING.

The public hearing held on September 11, 1914, in the matter of the petition by City of Boston for approval of plans for construction of a high pressure fire service pumping station in Fort Point channel, between Summer street and Mount Washington Avenue Bridge, Boston, will be continued at the United States Engineer Office, War Department, 1017 Barristers Hall, 25 Pemberton square, Boston, at 11 o'clock a. m., October 2, 1914. Plans of the proposed structure may be seen at this office.

As all papers will be laid before the Secretary of War for his action, it is desired that statements to be presented be submitted in writing at the hearing.

W. E. CRAIGHILL, U. S. A.,
Lieut.-Colonel, Corps of Engineers.

APPEAL FOR MAYOR'S AID.

Mayor Curley received upon the 22d instant from President F. A. Rozienné of the National Association of Vicksburg Veterans an earnest request for cooperation in the securing of a Federal appropriation for the National Celebration and Peace Jubilee in commemoration of the semi-centennial ending of the civil war between the states and the 52d anniversary of the investment and campaign of Vicksburg.

The idea of the jubilee comes from Major Leo Rassier, of Missouri, Past Commander-in-Chief of the Grand Army of the Republic, and is strongly indorsed by civil war veterans the country over.

It is proposed to have the jubilee celebrated at the Vicksburg National Military Park.

President Rozienné declares in his communication to Mayor Curley as a reason for applying for a Federal grant:

"The surviving veterans of the civil war, from the North and from the South, desire the celebration to be carried out in the spirit of devoutly commemorating the aforesaid events and in the advancement of returning brotherly amity that shall more closely cement all the sister states in an inseparable Nation of States for the perpetuity of happiness and prosperity to its people.

"It is the desire of the veterans that no individual state or associated states shall be burdened with or assume a greater responsibility or be placed in greater honor as host of the occasion than any other sister state, but that the United States Government shall be the host of the occasion.

"It is desired that the Federal Government provide the required tentage, camp equipage and the necessary supplies for the sustenance and comfort of the attending veterans."

Mayor Curley will confer with Major Gilman, the Soldiers' Relief Commissioner, relative to the jubilee.

TUITION FOR CHILDREN IN BROOKLINE.

The Mayor has formally approved an order of the Boston School Committee, providing that Business Agent Keough shall be allowed to issue permits to children belonging in kindergartens and elementary grades, and who reside in that section of the Prince District lying west of Charlesgate West, extended to the Back Bay Fens; to children belonging in the first three grades, residing within that part of Brighton bounded by the easterly side of Harvard avenue, the center of

Commonwealth avenue, and the westerly side of Cummings road, east to the Brookline line; and to children belonging in the first four grades, residing within that part of Brighton bounded by the easterly side of Summit avenue, the Brookline line, the westerly side of Cummings road, and the center of Commonwealth avenue, to attend school in the town of Brookline, the City of Boston to pay tuition for such attendance.

SUPPLIES TO BE MADE IN BOSTON.

The Mayor has formally approved the request of the Commissioners of the Schoolhouse Department that the wood mill work, steel and iron, and cut stone to be used in the schools of Boston be supplied by manufacturers having a place of business within a radius of ten miles of Boston.

The communication of Chairman Lomasney of the Schoolhouse Department is as follows:

CITY OF BOSTON,
SCHOOLHOUSE DEPARTMENT,
September 22, 1914.

HON. JAMES M. CURLEY, Mayor:

YOUR HONOR,—The Board of Schoolhouse Commissioners desire to incorporate into the specifications for all new schoolhouses a clause requiring the contractor to have all wood mill work, steel and iron, and cut stone manufactured from the raw material in shops located within ten miles of the City of Boston.

The Board has had considerable trouble in the past in the construction of new buildings because of the fact that these materials have been manufactured in shops located a great distance from Boston, and needless expense and delay are caused by the fact that no proper supervision and inspection can be made under these conditions.

It is very necessary that all of these materials be inspected in the shops before they are sent to the buildings, and the Board intends, with the approval of your Honor, to require the contractors to allow the Board's inspectors to make frequent inspection of all materials entering into the construction of the school buildings while they are in process of manufacture in the shops.

The Board believes that there will be no additional expense incurred by following this practice, and is strongly of the opinion that the City of Boston will be greatly benefited.

Respectfully yours,
JOSEPH P. LOMASNEY,
Chairman.

PAYMENT OF DOG OFFICERS.

The dog officers of the City of Boston, appointed under chapter 182 of the Acts of 1908, have been paid for 123 days' service, from May 1, 1914 to August 31, 1914, inclusive, as constables.

NAME.	Number of Days.	Rate per Diem.	Amount.
Huntington Smith.....	123	\$3 29	\$404 67
Frank J. Sullivan.....	123	3 29	404 67
Julian Codman.....	123	3 29	404 67

ELECTRIFICATION OF TRAINS TO SUBURBS.

The question of the cost of maintenance of electrifying the steam roads running from Boston to the suburbs has been determined by a railroad expert as follows: "The upkeep of electric engines is on the order of 5 cents to 7 cents per locomotive mile per 100 tons of weight. Steam locomotive maintenance runs anywhere from 8 cents to 25 cents, depending upon nature of the coal and water used—an average figure of 11 cents would not be bad. Thus electric locomotive maintenance should be about one-half that of steam. With regards to pounds of coal burned for electric engine versus steam engine haul, fuel costs are also halved, or in other words, a pound of coal burned under boilers of a central electric station for such traffic, for instance, as is on the rails of the New Haven, will develop twice the drawbar pull that would be developed if the same pound of coal was burned in the firebox of the steam locomotive." Electric locomotives are built much heavier than steam locomotives.

INTERESTING SEWER EXPERIMENT.

An interesting method of sewer construction is reported from Somerville where in the building of a house sewer advantage was taken of the fact that the sewer could be laid at about the grade of the invert of an existing storm sewer, and 1,430 feet of 12-inch vitrified clay pipe with Portland cement joints was laid in the invert of an existing 3½-foot storm drain structure (built in 1898), the storm water to a certain depth flowing in newly made channels constructed with Portland cement on either side of the 12-inch pipe sewer, which in times of heavy storms is completely submerged. A number of thousand dollars was saved by this method of construction, for an open cut of about 13 feet in depth would otherwise have had to be made in a narrow, asphalt surfaced street, where double ear tracks exist and many underground pipes and conduits would have been encountered, as well as a large amount of rock excavation; also great inconvenience to travel and business would have been occasioned.

BOSTON'S MUNICIPAL SWIMMING POOLS.

Beautiful swimming pools are open to the public in these three buildings: Curtis Hall Gymnasium, Jamaica Plain; Columbia Road Gymnasium, Dorchester; Cabot Street Gymnasium, Roxbury. Modern methods are employed in keeping these pools perfectly clean. Admission costs fifteen cents, but this includes the use of bathing costume. Private bathing costumes are not allowed. A swimming instructor is always in charge of the pool and will give instruction free of charge.

SCHEDULE OF HOURS.

Monday.—Women, 10 a. m. to 3 p. m.; School Girls, 3 to 6 p. m.; Women, 6 to 10 p. m.
Tuesday.—Men, 10 a. m. to 3 p. m.; High School Boys, 3 to 6 p. m.; Men, 6 to 10 p. m.
Wednesday.—Women, 10 a. m. to 3 p. m.; School Boys, 3 to 6 p. m.; Working Boys, 6 to 10 p. m.
Thursday.—Same as Monday.
Friday.—Same as Tuesday.
Saturday.—Grammar School Boys, 10 a. m. to 12 m.; High School Boys, 12 m. to 6 p. m.; Working Boys, 6 to 10 p. m.

INSTRUCTORS.

Curtis Hall.—Colin McDonald, Joseph Good.
Columbia Road.—George T. Cuddihy, Dennis J. Swanson.
Cabot Street.—Harry A. Grainger, William C. Rowe.

STREET COMMISSIONERS.

The Mayor has formally approved the orders of the Board of Street Commissioners relative to the laying out and construction of streets in Dorchester, Brighton and East Boston.

No damages are awarded and assessments are levied upon property owners for improvements and betterments.

The orders approved are as follows:

The Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the laying out and construction of Paisley park, Dorchester, as a highway, from Upland street to Bournside street, and awards no damages therefor.

The Board estimates that the estates hereinafter specified are all the estates which will receive benefit or advantage from the improvement above specified, beyond the general advantage to all real estate in said city, each to the amount hereinafter set against it:

	Amount.
Margaret H. Milligan.....	\$165 00
Annie E. Holland.....	200 00
Mary T. Donovan.....	200 00
Catherine M. O'Neil.....	200 00

INCREASED PAY FOR HOSPITAL EMPLOYEES.

Mayor Curley has announced a radical change in the salaries of the employees of the Boston City Hospital, in so far that these attachés occupying the smaller positions in the institution may receive a material increase in wage.

During his days as a member of the City Council Mayor Curley was a sponsor for an increase of wage for those persons doing laborious hospital work, and his present effort in behalf of these employees is in line with his firm conviction that these attachés have been underpaid.

Thirty women at the City Hospital, employed as scrubbers, will receive an increase in wage from \$5 the week to \$30 the month. The table girls, 12 in number, will receive an increase of pay from \$14 to \$20 the month; the 12 chambermaids from \$15 to \$20 the month; the 20 ward-maids from \$16 to \$20 the month.

In the laundry, the supervisor will receive an increase from \$1,080 to \$1,140 the year; the salary of the head laundress has been increased from \$1,050 to \$1,150 the year; the general worker receives an increase from \$7 to \$9 the week; and the shaker and elevator man is increased from \$7 to \$9 the week.

The woman employed as head sorter receives an increase in pay from \$25 to \$30 the month; the assistant laundress from \$35 to \$40 the month; 16 laundry body ironers from \$22 to \$30 the month; six fancy ironers from \$22 to \$30 the month; two fancy ironers from \$25 to \$30 the month; three all-around hands from \$25 to \$30 the month; eight mangle workers from \$22 to \$30 the month; four shakers from \$20 to \$30 the month.

The salary of the superintendent of nurses is increased from \$1,200 to \$1,500 the year; the first assistant superintendent of nurses from \$728 to \$840 the year; the second assistant superintendent of nurses from \$600 to \$720 the year; the night superintendent from \$660 to \$720 the year; the teacher of the probation nurses from \$600 to \$720 the year; the assistant matron from \$600 to \$720 the year; the sterilizing room nurse from \$540 to \$600 the year; the three graduate nurses upon the floor from \$540 to \$600 the year.

The six graduate nurses in Wards A, K and L, E, S, H, receive an increased compensation from \$540 to \$600 the year; the five first-year nurses from \$420 to \$480 the year; five head nurses in second year from \$480 to \$540 the year; six third-year nurses from \$540 to \$600 the year.

In the South Department the assistant superintendent of nurses receives an added compensation from \$800 to \$840 the year; the day superintendent of nurses from \$600 to \$720 the year; five head nurses from \$480 to \$540 the year; the night superintendent of nurses from \$600 to \$660 the year.

At the Haymarket Square Relief Station the matron receives an added salary from \$720 to \$780 the year; the graduate nurse from \$540 to \$600 the year.

At the East Boston Relief Station the matron receives an increase from \$600 to \$660 the year.

At the Convalescent Home the matron receives an increase from \$720 to \$780 the year; the head nurse receives an increase from \$540 to \$600 the year.

At the City Hospital, in the South Department, the ward supervisor receives an increase from \$540 to \$600 the year and the graduate orderlies, some 30 in number, receive an increase from \$420 to \$540 the year. The laundryman receives an increase from \$50 to \$55 the month.

In the hospital proper the messenger is increased from \$10 to \$12 the week; the center orderly from \$25 to \$30 a month.

At the entrance office the first, second, third and fourth assistants are increased from \$25 to \$30 the month. The night orderly of the Out-Patient Department is increased from \$35 to \$50 the month.

In the South Department the night lodge orderly is increased from \$25 to \$30 the month.

In the hospital proper the secretary is increased from \$18 to \$19 the week; the head bookkeeper from \$17 to \$18 the week; the copyist from \$15 to \$16 the week; the second copyist from \$11 to \$12 the week; the third copyist from \$11 to \$12 the week; the fourth copyist from \$10 to \$12 the week; the fifth copyist from \$10 to \$11 the week.

The head clerk receives an increase from \$14 to \$16 the week; the first and second copyist under the clerk from \$10 and \$12 to \$14 the week; in the pathological laboratory the stenographer receives an increase from \$12 to \$14 the week; the pathologic director from \$75 the month to \$1,000 the year.

In the X-Ray Department the assistant photographer receives an increase from \$15 to \$16 the week.

In the hospital proper the electrician receives an increase of wage from \$20 to \$22 the week; the electrician's helper from \$20 to \$25 the month; the plumber's helper from \$15 to \$25 the month; the gardener from \$9 to \$12 the week.

In the South Department the head cook receives an increase from \$60 to \$65 the month; the baker from \$55 to \$60 the month; the jobber from \$35 to \$40 the month.

In the executive assistants' division, hospital proper, the two physicians receive an increase as follows: First assistant, from \$1,500 to \$1,600 the year; second assistant, from \$1,200 to \$1,300 the year.

LECTURES AT THE LIBRARY.

The course of free public lectures to be given at the Boston Public Library during the coming season are announced. The Thursday evening lectures will begin at 8 p. m., and the Sunday afternoon lectures will be given at 3.30 p. m.

The entrance is from Boylston street only. The doors will be opened two hours before each lecture and closed when the hall is filled. The Thursday lectures are all with lantern illustrations unless otherwise mentioned. The Sunday lectures are not illustrated unless so mentioned. The lectures on the second Thursdays (*) of each month are given under the auspices of the Field and Forest Club.

The lectures will be delivered as follows:

LIBRARY COURSE.

Sunday Afternoons at 3.30 P. M.

- Oct. 11. The Possibilities of Pageantry for Holiday Observances. Frank Chouteau Brown. With lantern illustrations.
Oct. 18. The Music of the Bible. Louis C. Elson. With musical illustrations.
Oct. 25. Historic Boston and Vicinity. Colonial and Revolutionary Landmarks. John K. Lacock. With lantern illustrations.

Nov. 1. John Masefield. "The Man of To-day and To-morrow in Poetry." Anna Johnson, A. M.

Nov. 8. The Critic and his Tribulations. Olin Downes. With musical illustrations.

Nov. 15. Hunting with Canoe and Camera in New Brunswick. W. Lyman Underwood. With lantern illustrations.

Nov. 22. Reading: Monna Vanna, by Maurice Maeterlinck. Cora Marecau Holahan. With selections from the opera of Henry Févier. Misses Anna B. Eichhorn, Violin; Florence M. Colby, Cello; Eleanor G. Flinn, Piano.

Nov. 29. The Library Story Hour. What It is. Mary W. Cronan. With illustrative story telling by Mrs. Cronan and J. J. Cronan. With lantern illustrations.

Dec. 6. The Art of the Theatre. Frank W. C. Hersey, A. M. With lantern illustrations.

Dec. 13. The Country of George Eliot. Charles S. Olcott. With lantern illustrations.

Dec. 20. Lecture Recital: Old Songs of Old France. A. T. M. de Andria.

Dec. 27. How to Listen to Plays. Alice Howard Spaulding, A. B. Kind of Plays—Comedy and Tragedy; Story Plays, Character Plays—Illustrations—Writers.

1915.
Jan. 3. Jean Sibelius and his Music. Olin Downes. With musical illustrations.

Jan. 10. A Tour from Mexico City to Vera Cruz. Lula Blake Hamer. With lantern illustrations.

Jan. 17. Lecture Recital: Folk Song and Art Song. Henry L. Gideon, A. M. With musical illustrations by Constance Ramsay Gideon.

Jan. 24. A Trip through the Great Lakes in a Freighter. W. Lyman Underwood. With lantern illustrations.

Jan. 31. Reading: Jeanne d'Arc, by Percy Mackaye. Margaret Wilson Shipman.

Feb. 7. Some Contemporary French Dramatists. Samuel M. Waxman, Ph. D. I. Revolutionary Movement in the Modern French Drama. Théâtre-Libre, Becque, de Curel, Brieux, de Porto-Riche.

Feb. 14. The Development of Art in the United States from the Viewpoint of the American Federation of Arts. Anna Scaton Schmidt. With lantern illustrations.

Feb. 21. Sir Walter Scott. E. Charlton Black, LL. D.

Feb. 28. The Appreciation of Music and the Oratorio as a Form. Maud Wallingford Downs. With musical interpretation.

March 7. Some Contemporary French Dramatists. Samuel M. Waxman, Ph. D. II. Hervieu, Lemaître, Lavedan, Donnay, Bernstein, Bataille.

BUTCHERS DEMAND CHANGE OF LAWS.

Mayor Curley received upon the 25th instant from John A. Kotal of Chicago, secretary of the United Master Butchers of America, an appeal for aid in materially changing the laws of the country relative to live stock.

The United Master Butchers Association is the largest organization of its kind in the country and the fourth vice-president is Andrew Ronald of Roxbury and George G. Ormon of Dorchester is one of the trustees.

The butchers believe that Congress should during the coming session in December pass a law for the subsidizing of land for farming purposes and the raising of live stock.

That state Legislatures and the governors of the states should be memorialized for messages in advocacy of the raising of greater amounts of live stock.

That a Federal law should be enacted that will prevent the slaughter of any calf weighing less than 150 pounds, live weight, or will weigh less than 100 pounds, dressed.

That the custom of giving trading stamps be abolished unless they are redeemable for cash at the very place of business where issued and that the cash value be printed upon each stamp.

That President Wilson appoint a commission upon all food products, fresh or frozen.

That Congress pass a cold storage law, placing the same under government control.

The butchers in discussing the food situation in their communication to Mayor Curley declare that if food products could be put upon the market in fresh condition, lower prices would rule throughout the year, and that the constitution of the United States should be so amended that the President could place a 5 per cent duty upon exports.

DESIRES BILL AMENDED.

Mayor Curley sent the following telegram, requesting an amendment of the River and Harbor Bill, to Congressmen Gallivan, Murray, Treadway, Gillett, Paige, Winslow, Rogers, Gardner, Phelan, Deitrick, Roberts, Mitchell, Gilmore, Greene and Thacher, upon the 24th instant:

"A great service will be accomplished if you can have word 'existing' in the sixth line of H. R. One, Three, Eight, One, One, eliminated from the Bill, in order that the Secretary of War may enjoy wider latitude in expending appropriation and needs of Boston Harbor be conserved."

THE LOCAL TRANSPORTATION STATEMENT.

The annual statement of the Boston Elevated Railway Company, operating the elevated and surface lines of transportation in Greater Boston, announced during the week, presents many interesting facts.

The number of persons employed is 9,842, and the division of the expense of transportation is as follows: For wages of conductors, motormen and trainmen, \$3,854,191; for power expense, \$1,183,109; for conducting transportation, \$353,612; miscellaneous charges, \$1,138,711.

The number of car miles was 57,990,436, and the number of passengers, 343,181,049. The gross income, \$17,629,616; operating expenses, \$11,297,861; net, \$6,331,755; other income, \$156,361; total net, \$6,488,116; all charges, \$5,230,948; balance, \$1,257,168; dividends, \$1,193,970; surplus, \$63,198.

During the last two years nearly 40 per cent of the increase in Boston Elevated's gross has been awarded to labor. This is a record for any Massachusetts public utility.

During the twelve months to June 30 last Boston Elevated showed some real operating efficiency. Statistically this is expressed by an increase of but 206,000, or less than $\frac{1}{2}$ per cent in the number of car miles run, while at the same time the number of revenue passengers carried increased by 16,829,000, or 5.1 per cent. From the standpoint of gross the test is about the same. Gross earnings increased from \$16,808,908 to \$17,629,616, a gain of \$820,708 or 4.88 per cent.

The ability to reduce car miles and still carry 5 per cent more passengers is always in any transportation enterprise the ultimate test of operating efficiency. That it has been accomplished with no diminution of public facilities, but on the contrary with a steady advance in this direction, is one of the highly satisfactory features of the late year's results.

NEW METHODS DESIRED FOR WASTE.

Mayor Curley has directed Commissioner Rourke of the Department of Public Works and Captain Dillon, chairman of the Park and Recreation Department, to make careful investigation of all systems in vogue in the metropolitan cities of the country relative to removing from the public streets unsightly waste and scavenger barrels.

The Mayor greatly deprecates the appearance of so many barrels in Boston streets, and is of the opinion that a method can be found for the maintenance of waste and scavenger receptacles beneath the street level.

The question of public health and the maintenance of fly-breeding places is also involved in the Mayor's recommendation.

BOSTON'S LOW DEATH RATE.

In the first eight months of 1914 there were 8,015 deaths in Boston against 8,062 for the corresponding period last year. Such a decrease for the year 1914 would mean a rate of 15.71, a new low rate for the city.

For the same eight months, deaths under one year numbered 1,287 this year against 1,428 in 1913, and deaths from typhoid fever, whooping cough, measles, scarlet fever and diphtheria numbered only 262 this year against 352 in 1913.

For the same period, deaths from pulmonary and military tuberculosis numbered 705, this year against 747 a year ago.

CITY OF BOSTON. PUBLIC WORKS DEPARTMENT.

NOTICE.

The Board of Street Commissioners in accordance with chapter 393 of the Acts of 1906 have passed orders for the laying out and construction of the following highways:

SOUTH BOSTON.

C street, to Old Colony avenue.

EAST BOSTON.

St. Andrew road (formerly Collins street), from Bayswater street to Washburn avenue.
Walley street, to Waldemar avenue.

WEST ROXBURY.

Philbrick street (formerly Folsom street), from Jewett street to Neponset avenue.

DORCHESTER.

Castlegate road, from Blue Hill avenue to Normandy street.
Ronald street (formerly Bowdoin avenue), from Brinsley street southeasterly.

ROXBURY.

Langdon street, from George street to Norfolk avenue.

Notice is hereby given that the Public Works Department is about to do the work contemplated in said orders, and that all work to be done in said highways by all persons or corporations having rights in the same to lay or repair either sewer, gas, water or other pipes must be done before Friday, October 16, 1914, as after that time no permits for openings will be granted until two years after said highways are completed.

L. K. ROURKE,
Commissioner of Public Works.

Boston, September 10, 1914. (Sept. 26, Oct. 3.)

PROPOSALS FOR UNIFORMS AND HATS.

The Supply Department of the City of Boston invites proposals for furnishing 450 winter uniforms and 400 winter hats to the Street Cleaning and Oiling Service of the Public Works Department. Samples of the uniforms and hats may be seen at the office of the Superintendent of Supplies, Room 808, City Hall Annex. The bidder must leave his proposal at the above office with certified check for \$200, payable to and to become the property of the City of Boston if said proposal is not carried out. A bid in duplicate, without check, must be filed with the City Auditor prior to the opening of bids. The bids will be publicly opened and read on Friday, October 9, 1914, at 12 noon, at Room 808, City Hall Annex. The successful bidder must furnish a bond for one-quarter the amount of contract of a surety company authorized to do business in Massachusetts. The Superintendent reserves the right to accept or reject any or all proposals or any part of a proposal and to award the contract as he deems for the best interests of the city. All contracts are made subject to appropriations to meet payments thereunder.

D. FRANK DOHERTY,
Superintendent of Supplies.

(Sept. 26.)

PROPOSALS FOR HAY, STRAW, OATS, SHORTS AND CORN.

Sealed proposals will be received at the office of the City of Boston Supply Department, Room 808, City Hall Annex, until 3 o'clock, Wednesday, September 30, for the hay, straw, oats, shorts and corn needed in the different departments for one month commencing October 1, 1914, and for six months commencing October 1, 1914. Bidders on six months' supply must furnish a certified check for \$500 with their proposal. Bidders on one month's supply must furnish a certified check for \$200 with their proposal. The bidder must cover the cost of delivery. The bidder is requested to bid on both No. 1 and No. 2 hay. The hay to be timothy hay, clean and sweet; the straw to be No. 1 straight rye straw. The grade of hay and straw must comply with the rules of the National Hay Association and shall be weighed and inspected by a weigher appointed under the ordinances of the City of Boston. The bidder is requested to bid on No. 1 oats, to test 38 to 40 pounds; No. 2 clipped white oats, to test not less than 34 pounds to the bushel. Samples of the oats must be given with the proposal, and must conform to the grade adopted by the Chamber of Commerce. The bidder must use the form to be obtained at Room 808, City Hall Annex. A bid in duplicate, without check, to be deposited with the City Auditor previous to the time named for opening bids. The successful bidder must deposit a certified check for one-quarter the amount of the contract as surety that the terms of the contract will be carried out. Proposals will be publicly opened and read on Wednesday, September 30, at 3 p. m. The Superintendent reserves the right to accept or reject any or all proposals or any part of a proposal and to award the contract as he deems for the best interests of the city. All contracts are made subject to appropriations to meet payments thereunder.

D. FRANK DOHERTY,
Superintendent of Supplies.

(Sept. 26.)

CITY OF BOSTON. PUBLIC WORKS DEPARTMENT.

NOTICE.

The Board of Street Commissioners in accordance with chapter 393 of the Acts of 1906 have passed orders for the laying out and construction of the following highways:

EAST BOSTON.

Westbrook street (formerly West street), from Bennington street to Saratoga street.

WEST ROXBURY.

Albano street, from Washington street to Amherst street.

DORCHESTER.

Juliette street, from Fox street to the southeasterly line of Homes avenue.
Lorenzo street, from Walnut street to Wood street.
Powellton road, from Columbia road to Glenarm street.

Woodworth street (formerly Wood street), from Walnut street to New way.

ROXBURY.

Dempster street (formerly Duncan street), from Ruggles street to Halleck street.

CITY PROPER.

Lucas street, from Washington street to Shawmut avenue.

Washington street, from Warrenton street to Pleasant street.

Notice is hereby given that the Public Works Department is about to do the work contemplated in said orders, and that all work to be done in said highways by all persons or corporations having rights in the same to lay or repair either sewer, gas, water or other pipes must be done before Saturday, October 31, 1914, as after that time no permits for openings will be granted until two years after said highways are completed.

L. K. ROURKE,
Commissioner of Public Works.

Boston, September 24, 1914. (Sept. 26, Oct. 3-10-17.)

PROPOSALS FOR REBUILDING DRAW FENDER PIER AND FENDER GUARD AND BUILDING WHARF AT BROADWAY BRIDGE.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for rebuilding the draw fender pier and fender guard and building a wharf at Broadway Bridge, over Fort Point channel, and giving bond therefor of a surety company approved by the Commissioner in the sum of four thousand dollars (\$4,000), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Broadway Bridge," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Thursday, October 8, 1914, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.

Boston, September 24, 1914. (Sept. 26-Oct. 3.)

PROPOSALS FOR LAND.

The Schoolhouse Commissioners of the City of Boston will receive sealed proposals for selling to the city land for an elementary school in the Oliver Wendell Holmes District, Dorchester, Boston, Mass., in the territory bounded and described as follows:

Beginning at the junction of Blue Hill avenue and Talbot avenue, thence by the center of Blue Hill avenue to Glenway street, thence by the center of Glenway street to York street, thence by the center of York street and straight line continued to the New York, New Haven & Hartford Railroad, thence by center of railroad to Harvard street, thence by center of Harvard street to point of beginning, to contain 33,000 square feet of land, more or less.

All proposals must be submitted on or before 12 o'clock m. of Tuesday, October 6, 1914, at the office of the Commissioners, Room 1009, City Hall Annex, Court square, Boston. Said proposals will at that time be publicly opened and read, and thereafter a public hearing will be given by the Commissioners at said office Tuesday, October 13, 1914, at 12 o'clock m., at which hearing the proposals and suitability of the land offers therein will be considered. The Commissioners reserve the right to reject any or all proposals.

J. P. LOMASNEY,
CHARLES B. PERKINS,
WILLIAM F. KEARNS,
Commissioners.

(Sept. 26.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

TO CONTRACTORS.

The Cemetery Trustees of the City of Boston invite sealed proposals for erecting a fireproof garage at Superintendent's house, Mt. Hope Cemetery, Boston, and giving bond of a surety company therefor in the sum of \$300. Only proposals obtained at the office of the Trustees, 1001 City Hall Annex, signed by the bidder and left before 12 o'clock m. of Monday, September 28, 1914, at said office, with a certified check for \$100, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The Trustees reserve the right to reject any and all proposals. Information may be obtained at the office of the architects, Berry & Davidson, 29 Central street, Boston.

CHARLES E. PHIPPS,
Chairman Cemetery Trustees.
(Sept. 26.)

CITY OF BOSTON.

PROPOSALS FOR PLANKING MILTON STREET BRIDGE, HYDE PARK.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for planking Milton Street Bridge over New York, New Haven & Hartford Railroad, near Readville Station, Hyde Park, and giving bond therefor of a surety company approved by the Commissioner in the sum of two thousand dollars (\$2,000), to secure the due performance of the contract and the full protection of the city. Specifications and forms of proposals may be obtained at Room 511, City Hall Annex, on and after Tuesday, September 22, 1914. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Planking Milton Street Bridge," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Friday, October 2, 1914, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,

L. K. ROURKE,
Commissioner of Public Works.
Boston, September 24, 1914. (Sept. 26.)

TO STOP TUBERCULOSIS RAVAGE.

Dr. Thompson Frazer, the eminent authority upon tuberculosis, has upon request of the Federal Government prepared a very entertaining paper upon the ravage of tuberculosis and its financial aspect upon the sick leaving home in search of improved health and a beneficial climate.

Doctor Frazer very kindly sends the *City Record* a copy of his report.

The report is as follows:

The financial responsibility which the tuberculous individual leaving home and seeking health will be called upon to assume merits greater consideration than it usually receives. A large proportion of people, including the medical profession, seem to be uninformed on this most important phase of the tuberculosis situation. It is unfortunate that under existing conditions money plays the part that it does in recovery from this disease.

There are three striking characteristics distinguishing tuberculosis, a brief survey of which may help make clear the relation that exists between income and recovery:

1. In the first place, tuberculosis is a disease of the many, not of the favored few. Although it spares no class, it is the workingman on whom the heaviest tax is levied. And, as his ability to exist depends on his ability to work, quite often the disease is found to have made considerable progress before work was abandoned. Then, too, the man of small income has but scant opportunity to put aside any large amount against the day when his health may be crippled.

2. Tuberculosis is a disease of the relatively young. While no age is exempt, tuberculosis is preeminently a disease of the first half of life. The maximum percentage of deaths from this cause is between the ages of twenty and thirty, when one-third of all deaths are due to tuberculosis. The disease plucks the individual in his very prime—during his productive years, but too often before he has been able to make any provision for future emergencies.

3. The chronicity—the slowness—of tuberculosis is the third feature to be stressed. Just as the disease may exist for a long period in a dormant state, unsuspected, and giving rise to no symptoms, just so does it take a long time—months or years—to accomplish a “cure,” a “recovery,” or an “arrest of disease.” Probably in no other disease does time play the important role it does in tuberculosis.

We have no one specific treatment for the disease. The only dependable method of treatment is the building up of the resistance by means of rest, fresh air, good food, and careful supervision. Now rest—which means the giving up of work—good food, and medical attention constitute of themselves a heavy demand on the purse, and no individual should contemplate a trip to this or that resort for the sake of climatic advantages unless he is fully prepared to defray the additional expenses which such a course entails.

It is not my intention to discredit the value of “climate” in the management of tuberculosis, for I believe that rest, proper food, and medical attention plus favorable climatic conditions are more to be desired than the same treatment under less desirable climatic conditions. The fact cannot be too strongly emphasized, however, that of all the factors that make for improvement in tuberculosis climate is the least important, and unless supported by the essentials—fresh air, good food,

proper care—the most perfect climate must prove valueless.

Again, the length of time necessary to enable one to profit by more favorable climatic conditions should be considered before any trip is advised. Improvement is very slow, and a few weeks' stay at the resort confers no lasting benefit; in fact it may be said that but little improvement can be expected under six months, while a stay of a year would be a safer average for most of the early cases. Unless the individual is prepared to provide himself at the resort with the proper requisites he had much better stay at home than undertake a trip which not only exhausts his resources but does him no good.

I shall not attempt to discuss all the other conditions which should be taken into account—such as the character of the patient and the progress of the disease—before a trip is decided upon, nor to enumerate all the pros and cons of “home” treatment and “climatic” treatment. If, on the advice of the physician in attendance, or because home conditions are not satisfactory, it is decided to pursue the “cure” at a resort, this step should be taken only with a full knowledge of the additional obligations which must be met.

The cost of room and board varies within wide limits. From the observations I have made at Asheville, N. C., board of fair quality with room costs from \$10 to \$12 a week at the houses which are licensed to take tuberculous cases.

The price depends to some extent on the location of the rooms, the more desirable ones on the first and second floors adjacent to baths and porches costing from \$10 or \$12 up; less desirable rooms may be had for \$8. The location of the room is often of great importance as the trip up and down stairs, if the room is on the third floor, may be more than the patient should undertake. When confined to bed or to the room many of the boarding houses referred to serve trays to the rooms free of charge. Milk is furnished free with meals. Some houses also furnish free of charge a glass of milk and an egg at 11 and 4; others charge extra for these “diets.” If these are prescribed it would add approximately a dollar a week to the board. Milk costs 10 cents a quart; eggs can usually be had for from 30 to 40 cents a dozen.

Several of the houses have small shacks which, with board, rent for \$10 a week.

There are some extras which must be considered essentials. Thus, a proper reclining chair is indispensable to the patient. The cheaper ones may be had for \$4 to \$5; the better and more durable ones cost \$15. Allowance must also be made for medicines, for sputum boxes, thermometer, blankets in cold weather, and other adjuncts to treatment. Laundry and incidentals would amount to \$2 a week at the lowest possible estimate.

The amount to be allowed for physicians' services is difficult of estimation. Some patients are so ill as to require a great deal of attention. Others are in such straitened circumstances as to be unable to pay anything. Perhaps \$20 a month may be taken as a fair average. It is a mistake for the invalid to undertake the recovery of his health unassisted. Proper supervision is, indeed, half the battle; care must precede a “cure.”

The cost to the patient for a period of 10 months or 43 weeks, at \$8, \$10 and \$12 a week, would be \$344, \$430 and \$516, respectively, for room and board. Allowing \$100 for incidentals and \$200 for physicians' services, we should have \$644, \$730 and \$816, respectively, not including

extras, such as reclining chair, milk, eggs and other items noted. A minimum of \$700, therefore, exclusive of carfare, would be a more just estimate of the expense for the rather arbitrary period of 10 months. If the patient is accompanied by some member of the family it may be decided to keep house instead of to board. Unfurnished houses run from \$25 to \$60 a month, not including water and light. For the lower figure one should be able to secure a small house with two bedrooms, bath and porch. Desirable houses at this price are scarce, however. The same house, furnished, would bring \$40 a month. From this as a minimum, furnished houses rent up to almost any price, depending on the size, number of bedrooms, baths, sleeping porches, location and other features. The markets are good, though not especially cheap. Good meat, game and vegetables are to be had at about the usual prices.

The estimate made for room, board and treatment for a period of 10 months applies especially to those cases that can be benefited by a comparatively brief stay. If the disease has made greater progress the longer duration of the stay necessary to produce results, the cost of extras and perhaps of nursing will be prohibitive and it will be the wiser course to remain at home where suitable food, care and comforts will more than outweigh the benefits of climatic factors if unassisted by these essentials. In the estimate given an allowance is made for physicians' services. Of course no physician would refuse to treat a patient, no matter what his financial status might be, and every physician in a resort town has such patients who have come with but enough funds to pay a few weeks' board and whom he is glad to treat gratuitously. In the end, however, such patients become dependent on the charity of the town and must either be supported or sent home.

Such are the conditions which stare one in the face in the resort. Those unfamiliar with these conditions have no conception of the number of health seekers—many of them well advanced cases—who arrive all but insolvent, hoping in a few weeks' time to recover health and strength and again to join the ranks of the producers.

It has been the aim of this paper briefly to set forth the actual state of things as they affect one's recovery or improvement from tuberculosis, and to lay stress on the fact that this disease is not one to be cured or even improved in a trice; also to emphasize the greater importance of rest, good food and care as compared with the benefits to be derived from climate alone; and to point out that before seeking climatic advantages one should count the cost. If this is done much suffering will be spared the unfortunate health seeker.

PERMITS TO KEEP GASOLINE.

The Mayor has approved the order of the Board of Street Commissioners to issue permits for keeping gasoline to the following persons:

Maurice E. Finn, 73-75 Waumbek street, Roxbury.

Walter S. Campbell, 1134 Adams street, Dorchester.

M. O'Keefe, Inc., 101 Farnham street, Roxbury.

Wait & Bond, Inc., 716 Columbus avenue, Roxbury.

Caroline von G. Digney, 19 Whitman street, Dorchester.

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announce an open competitive examination, September 28, 1914, for specialist in educational systems, for women only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Education, Department of the Interior, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will consist of investigations concerning the organization and administration of elementary schools in cities and towns and the preparation of teachers for such schools.

The commission invites attention to the open competitive examination for rodman and chainman, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in these positions in the Interstate Commerce Commission under the act providing for the valuation of the property of common carriers, at salaries ranging from \$720 to \$1,080 per annum, with necessary expenses when absent from headquarters in the discharge of official duties, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination, September 28, 1914, for chief petroleum technologist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Mines, for service in San Francisco, Cal., at a salary of \$4,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to supervise and participate in the technologic and other scientific and economic work of the Bureau of Mines in relation to petroleum and natural gas, as to production (which involves a consideration of the oil and gas bearing strata), storage, transportation and refining; the prevention of waste; the prevention of loss from underground water encroachment, and other economic problems affecting the industry.

The commission announce an open competitive examination, September 28, 1914, for associate engineer-physicist, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Standards, Department of Commerce, Washington, D. C., or Pittsburgh, Pa., at salaries ranging from \$2,000 to \$3,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to investigate structural and engineering materials, especially rails and railroad material.

It is desired to secure eligibles who are proficient in mathematics and its application to physical and engineering problems,

and who are able to initiate and carry on independent research in the field of engineering physics.

The commission announce an open competitive examination, September 28, 1914, for agronomist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary ranging from \$2,000 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to conduct investigations in the New England States, Michigan, New York, Ohio, Pennsylvania, New Jersey, Maryland, Virginia and West Virginia, having for their object the development of improved methods of pasture management with a view to increasing the carrying capacity of permanent pastures and the development of new pastures.

It is desired to secure the services of a person who has had considerable experience in pasture investigations.

The commission announce an open competitive examination September 28, 1914, for clinical psychiatrist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Government Hospital for the Insane, Washington, D. C., at a salary of \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

It will be the duty of the clinical psychiatrist to act as consultant to the different medical services of the hospital, with the particular end in view of assisting, especially the younger members of the staff, in analyzing and understanding their patients, with a view to outlining a concrete course of action looking to their betterment. He will also be expected to instruct the younger members of the staff in psychological methods and in the technique of case analysis and presentation. He will specifically undertake analytic and therapeutic measures in special functional cases that it would appear possible to benefit in this way. In addition to this work he will be expected to avail himself of the clinical material and laboratory opportunities for special observation and research.

It is desired to secure the services of a person familiar with the modern therapeutic movements in the practice of mental medicine, particularly those that have to do with functional conditions and involve the application of psychotherapeutic principles. He must not only be familiar with these movements but he must be capable of an analytic and interpretative application of psychological principles to the individual case, especially for therapeutic ends.

The commission announce an open competitive examination for translator, for both men and women, on September 28 and 29, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Foreign and Domestic Commerce, Department of Commerce, Washington, D. C., at a salary of \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found

to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for translator, for both men and women, on October 7, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Education, Department of the Interior, at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for automatic scale expert, for men only, on October 7, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$1,500 a year, in the Customs Service, Philadelphia, Pa., and vacancies as they may occur in positions requiring similar qualifications at other customs ports or in other branches of the service, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for statistical clerk, for both men and women, on October 7, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Departmental Service, Washington, D. C., at salaries ranging from \$900 to \$1,200 per annum, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The commission announce an open competitive examination for clerk-draftsman, for men only, on October 7 and 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at \$1,200 per annum in the offices of the Surveyors General at the places named below, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

One at Boise, Idaho; two at Denver, Col.; two at Helena, Mont.; two at Phoenix, Ariz.; two at Salt Lake City, Utah; three at Santa Fe, N. Mex.

The commission announce an open competitive examination for torpedo engineer, for men only, on October 7 and 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill one vacancy in this position at \$9.60 per diem in the Naval Torpedo Station, Newport, R. I., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

This position requires the services of a well-trained engineer, preferably a skilled torpedo specialist. The duties will require the performance of such work as torpedo designing, developing torpedo tests, designing torpedo attachments, simplifying torpedo mechanisms, and making the necessary calculations in connection therewith. A thorough knowledge of thermodynamics and especially of steam and gas turbine machinery, and familiarity with the principles and practice of gear design, propeller design, the

use of thermostats and the testing of fuels, etc., will be necessary.

The commission announce an open competitive examination October 12, 1914, for sawyer and carpenter, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$900 per annum in the Indian Service, Shoshone Agency, Wyoming, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination, October 12, 1914, for dairy husbandman, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at an entrance salary ranging from \$1,500 to \$2,500 per annum in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, and vacancies as they may occur in position requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

As insufficient eligibles were secured from the examination for this position held on June 29, 1914, qualified persons are urged to enter this examination.

The duties of this position will include cooperative work with dairy farmers; advice and assistance with reference to instituting the keeping of records of production of herds, the construction of silos, the construction and remodeling of dairy buildings, the feeding of dairy herds, the management of dairy farms, the care and handling of milk and cream, and the making of butter on farms; the organization and supervision of farmers' associations, bull associations, and cow-testing associations; demonstrations at fairs, judging dairy cattle and dairy products, lecture work on subjects connected with dairy farming, and other forms of dairy-farming extension work; collection of information concerning the dairy industry, and experimental work along dairy-farming lines. The performance of these duties will involve considerable traveling, usually within one state.

The commission announce an open competitive examination, October 12, 1914, for ferryman, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$1,080 a year for nine months in a year, at the Cheyenne River Indian Agency, South Dakota, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission invites attention to the opportunity for appointment of qualified persons from the open competitive examination for cadet engineer, for men only, scheduled to be held on October 14, 1914. As difficulty has been experienced in securing sufficient eligibles for this position in the Lighthouse Service qualified persons are urged to enter this examination.

The usual entrance salary for this position ranges from \$600 to \$780 per annum, with quarters and subsistence. Appointees are assigned to duty on board the various vessels of the Lighthouse Service and are in training for promotion after satisfactory service.

The commission invites attention to the open competitive examinations for ship draftsman and copyist ship draftsman, for men only, to be held on October 14 and 15, 1914. From the registers of eligibles resulting from these examinations certification will be made to fill vacancies as they may occur in these positions in the Bureau of Construction and Repair, Navy Department, Washington, D. C., and at navy yards and other establishments of the Navy Department outside of Washington, D. C., unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The entrance salaries for the position of ship draftsman range from \$3.28 to \$5.04 per diem. Persons appointed from this examination are eligible to promotion in the service of the Navy Department to salaries of \$7.52, \$8, and in a few cases as high as \$10 and \$12 per diem, depending upon the efficiency shown.

The entrance salaries for the position of copyist ship draftsman range from \$2 to \$2.80 per diem.

The opportunity for appointment of qualified eligibles is excellent, as difficulty has been experienced in securing a sufficient number of eligibles to meet the needs of the service. The following vacancies exist at the present time:

One, Navy Department, Washington, D. C., \$5.04 per diem.
One, Navy Department, Washington, D. C., \$3.28 per diem.
One, Navy Yard, New York, N. Y., \$4.48 per diem.
Two, Navy Yard, New York, N. Y., \$4 per diem.
One, Navy Yard, New York, N. Y., \$3.28 per diem.
Two, Navy Yard, Philadelphia, Pa., \$5.04 per diem.
Two, Navy Yard, Philadelphia, Pa., \$4.48 per diem.
One, Navy Yard, Philadelphia, Pa., \$3.28 per diem.
One, Navy Yard, Washington, D. C., \$4 per diem.
One, Navy Yard, Norfolk, Va. (Copyist), \$2.40 per diem.
One, Navy Yard, Mare Island, Cal., \$4.48 per diem.
One, Navy Yard, Mare Island, Cal. (Copyist), \$2.80 per diem.
Four, Navy Yard, Puget Sound, Washington, \$3.28 per diem.
One, Office of Naval Constructor, Quincy, Mass., \$3.28 per diem.

The commission announce an open competitive examination, October 20, 1914, for auto machinist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$4 per diem in the Bureau of Engraving and Printing, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination, October 21, 1914, for entomological ranger, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Entomology, Department of Agriculture, for service in the Rocky Mountains and Pacific coast states, at salaries ranging from \$840 to \$1,200 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of this position will be to collect specimens and information, locate and mark trees infested with destructive insects, and give instructions and assistance to private owners on the practical details of the methods recommended for the control and prevention of insect depredations on living timber.

The commission announce an open competitive examination for quarantine

inspector, for men only, on October 21, 1914. From the register of eligibles resulting from this examination, certification will be made to fill vacancies in this position under the Federal Horticultural Board, Department of Agriculture, at salaries ranging from \$840 to \$1,320, for service in New England, and in any states or parts of states which may be hereafter quarantined on account of potato diseases, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The examination will be held at the following places:

Massachusetts.—Boston, Brockton, Fall River, Fitchburg, Lawrence, Lowell, Pittsfield, Salem, Springfield, Worcester.

The duties of this position will be to inspect potatoes presented for interstate shipment with a view to determining the presence or absence of powdery scab and to certify for interstate shipment such lots as are found free from this disease. Also to inspect warehouses and cellars where potatoes are to be stored for interstate shipment and to see that owners and tenants comply with the regulations requiring disinfection of such places and of tools and implements used in the handling of potatoes intended for shipment interstate. Also to give instructions and assistance to shippers and growers of potatoes on the practical details recommended for the control and eradication of powdery scab or other potato diseases.

The commission announce an open competitive examination for oil and gas inspector, for men only. From the register of eligibles resulting from this examination certification will be made to fill six vacancies in this position under the Commissioner to the Five Civilized Tribes in Oklahoma, at salaries ranging from \$1,400 to \$2,500 per annum, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

It is expected that the majority of the vacancies will be filled at salaries of approximately \$1,400, and only in the cases of exceptionally well qualified men will higher salaries be paid.

The commission announce an open competitive examination for linotype machinist, for men only, on October 21, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in the position of linotype machinist in the Government Printing Office, at 60 cents per hour, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for bookbinder, for men only, on October 21, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at salaries ranging from \$4 to \$5 per diem in the Government Printing Office and in the Bureau of Engraving and Printing, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The commission announce an open competitive examination for tariff assistant and assistant in foreign trade-marks, for both men and women, on October 21, 1914. From the register of eligibles

resulting from this examination certification will be made to fill vacancies in these positions in the Bureau of Foreign and Domestic Commerce, Department of Commerce, Washington, D. C., at a salary of \$1,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of the position of tariff assistant will be to read foreign official gazettes, make translations and abstracts of tariff laws, and compile statements of rates of duty in foreign countries on specified articles.

The duties of the position of assistant in foreign trade-marks will be to make a study of foreign trade-mark laws and practice, to prepare translations and abstracts of such laws, and to answer inquiries in regard to foreign trade-marks.

NAVY YARD EXAMINATIONS.

United States civil service examinations for the following noneducational positions in Group I in the United States Navy Yard, Boston, Mass., will be held on October 1, 1914.

Laborers; hod carriers; janitors; stable-keepers; teamsters.

Age limit: Seventeen years or over.

INFORMATION TO APPLICANTS FOR THE POSITION OF MERE UNSKILLED LABORER.

Applicants must be citizens of the United States.

Applicants will be physically examined and rated as regards ability and fitness to perform manual labor.

No educational test will be given.

Applicants must be capable of shouldering and carrying with ease 125 pounds weight. Boys not required to take strength test.

A notice of standing will be sent to each applicant when his name is entered on the eligible list.

Eligibles will remain on the register for one year from the time of entry.

The required application form, No. 1642, with further information in regard to the examination, may be obtained from the Labor Board, with whom it must be filed on or before September 16, 1914.

United States civil service examinations for the following mechanical trades and noneducational positions in the United States Navy Yard, Boston, Mass., will be held on October 1, 1914.

No educational test will be given and applicants will not be assembled for a mental examination. The examination will consist of the subjects mentioned below, weighted as indicated:

Subjects.	Weights.
1. Physical ability.....	40
2. Training, experience and fitness....	60
Total.....	100

All statements relating to training, experience and fitness are subject to verification. Applicants should name in their applications, as references, employers or other persons who are competent to furnish information relative to the applicants' fitness for the position sought, and these persons will be communicated with. Unless answers are received from these persons within two weeks from the date of sending the communications, the applications may be canceled.

An applicant is required to show to the

satisfaction of the Labor Board that he has the following qualifications in order to have his name placed on the eligible list of appointments:

That he is a citizen of or owes allegiance to the United States.

That he has the necessary knowledge of and experience in the occupation or trade in which he seeks employment.

That he is industrious and of good character.

That he is physically able to perform the work of his occupation or trade, and that he has no physical defect that will, as a contributory cause, tend to prolong a disability resulting from an accident or injury received in the performance of his work, or which would render him more liable to such accident or injury.

Age Limits.

Group II.—Rivet heaters, 14 to 18; smith's helpers, 21 or over; others, 17 or over.

Group III.—Riveters, 18 or over; ordnance men, 23 or over; others, 20 or over.

Application Form 1800 is required and may be obtained from the Labor Board, with whom it must be filed on or before September 16, 1914. Complete instructions are issued with each application form.

List of Trades.

Group II.—Helpers, general; helpers, boilermakers; helpers, chairmakers; helpers, coppersmiths; helpers, electricians; helpers, machinists; helpers, molders; helpers, ordnance; helpers, painters; helpers, plumbers; helpers, riggers; helpers, ropemakers; helpers, shipfitters; helpers, smiths; helpers, woodworkers; holders on.

Group III.—Acetylene welder; block makers; boat builders; boilermakers; box makers; cabinet makers; calkers, wood; calkers and chippers, iron; carpenters; carmen, finishers; chain makers; concrete workers; coopers; coppersmiths; core-makers; die sinkers; divers; drillers; electroplaters; engine tenders; engine tender in charge; engine tenders, locomotive; fasteners; firemen; flange turners; forgers, heavy; galvanizers; gardeners; hammer runners; heaters, furnace; hod carriers; joiners, ship; machinists; masons, brick; masons, stone; melters; millmen; molders, greensand, iron or brass; molders, loam; molders, steel; oakum spinners; ordnance men; packers; painters; pattern-makers; pavers; pipefitters; plasterers; plumbers, house; plumbers, ship; pressmen; punchers and shearers; riggers; riveters; roofers; ropemakers; rope-makers, wire; sailmakers; sand blasters; saw filers; sheet metal workers; ship-fitters; shipwrights; smiths; sparmakers; stone cutters; tool dressers; tool makers, machine; trackmen; upholsterers; varnishers and polishers; wharf builders; wheelwrights; wiremen.

The wage schedule of the above-named occupations is based upon the rates of pay for similar duties in local establishments.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

Competitive examinations of applicants for positions in the classified service will be held in Boston as follows:

FOR THE SERVICE OF THE COMMONWEALTH.

1914.
Oct. 21. Foreman of Laborers, Inspectors of Work, Class 22.
Oct. 27. Drawtenders, Assistant Drawtenders, Class 25.
Nov. 2. Clerks, Messengers, Class 3.
Nov. 16. Stenographers, Class 9.
Dec. 7. Civil Engineers, Class 27.
Dec. 17. Metropolitan Park Policemen, Class 16.

1915.

- Jan. 19. Prison Watchmen, Class 17.

FOR THE SERVICE OF THE CITY OF BOSTON.

1914.
Oct. 1. Policemen, Class 14.
Oct. 21. Foreman of Laborers, Inspectors of Work, Class 22.
Oct. 27. Drawtenders, Assistant Drawtenders, Class 25.
Nov. 2. Clerks, Messengers, Class 3.
Nov. 12. Firemen, Class 20.
Nov. 16. Stenographers, Class 9.
Dec. 7. Civil Engineers, Class 27.
1915.
Jan. 14. Janitors and Engineers of Public Buildings, Class 24.
Jan. 19. Prison Watchmen, Class 17.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply for the service of the Commonwealth, and only citizens of the United States who have been residents of Massachusetts for the past year and of Boston for the six months last past have a right to apply for the service of Boston.

Blank applications (Form No. 1) for the Commonwealth and Boston services can be obtained by applying to the Civil Service Commission, State House, Boston, and when filled out, should be filed in the office of the commission at once.

In order to receive a notice to appear at any of the above-scheduled examinations, an applicant should have his application on file at least ten days before the date set for holding the examination.

EXAMINATIONS FOR WATERTOWN ARSENAL.

United States Civil Service examinations for the following mechanical trades and non-educational positions in the Ordnance Department at large, U. S. A., at the Watertown Arsenal, will be held on October 1, 1914.

The positions are blacksmith, carpenter, craneman, blacksmith's helper, carpenter's helper, machinist's helper, molder's helper, all around machinist, medium and small planer and lathe machinist, large planer and lathe machinist, drill hand machinist, floor and bench machinist, turret lathe machine operator, molder, pattern maker, toolmaker, toolgrinder and laborer.

Unskilled laborer (Form 1300 required)—age limit, twenty to fifty years, except that honorably discharged veterans of the Civil War may be examined without regard to age.

No educational tests will be given and applicants will therefore not be called upon to appear at any place to be examined. They will be rated according to their physical condition and experience as indicated in their applications and the medical certificate and vouchers furnished. Age limit twenty to fifty-five years on date of filing papers. Applicants must be citizens of the United States.

EXAMINATION FOR LIGHTING PLANT.

The Massachusetts Civil Service Commission announce that a competitive examination for the position of Superintendent of Distribution in the Municipal Lighting Plant of Taunton will be held October 13, 1914. This examination will be open to male citizens of the United States who have been residents of Massachusetts for the past year. Applicants are not required to be residents of Taunton at the time of application. There is one vacancy, and the salary is \$30 per week.

Applicants must be experts on meters of all descriptions, are lamps, motors, line construction and interior wiring. They must be qualified to perform the duties of manager in the absence of the manager.

PROCEEDINGS OF SCHOOL COMMITTEE.

Sept. 14, 1914.

A deferred regular meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 7.33 o'clock P.M., the Chairman presiding.

Present: Messrs. Brock, Corcoran, Miss Curtis, Messrs. Lee and Scannell.

SECRETARY PRO TEMPORE.

In the absence of the Secretary, Ellen M. Cronin was elected Secretary pro tempore.

APPROVAL OF RECORDS.

The reading of the records of the meetings of June 11 and 12, was omitted, the Board approving them as printed.

SCHOOL ADMINISTRATION BUILDING IN CITY OF BOSTON.

The following communication was received:—

City of Boston,
In City Council,
July 27, 1914.

ORDERED: That Chapter 331 of the Acts of 1914, entitled "An Act to Provide for a School Administration Building in the City of Boston"—be, and the same is, hereby accepted.

Passed. Approved by the Mayor July 30, 1914.

Attest:
W. J. Doyle, Asst. City Clerk.
Placed on file.

ACCEPTANCE OF ACT RELATIVE TO BOSTON INDUSTRIAL SCHOOL FOR BOYS.

The following communication was received:—

City of Boston,
In City Council,
Aug. 10, 1914.

ORDERED: That Chapter 128 of the Acts of 1914, entitled "An Act Relative to the Industrial School for Boys in the City of Boston"—be, and the same hereby is, accepted.

Passed. Approved by the Mayor Aug. 11, 1914.

Attest:
W. J. Doyle, Asst. City Clerk.
Placed on file.

ADDITIONAL SCHOOL ACCOMMODATIONS.

A communication was received from the Board of Schoolhouse Commissioners, under date of July 1, 1914, with reference to Item 13 of the tax levy appropriation for additional school accommodations for the year 1914.—Thomas Gardner District, Brighton: extension of school yard—stating that the lot on the easterly side which it is proposed to take contains 29,920 square feet instead of 27,000 square feet, as originally provided for, and recommending that the lot of Martha A. Tucker, which has an outlet on Prescott place, should also be included in the taking.

Referred to the Superintendent for investigation and report.

A communication was received from the Board of Schoolhouse Commissioners, under date of Sept. 8, 1914, asking that the School Committee concur in a vote of that Board substituting for Item 15 of the tax levy appropriation for 1914 for additional school accommodations—Wells District, West End: Additional accommodations and improvement of heating system—the following:—

Item 15. 25 Lagrange st., Continuation School, remodelling and furnishing.
Placed on file.

The following was offered:—
ORDERED, That Item 15 reading as follows:—

Item 15. Wells District, West End. Additional accommodations and improvement of heating system,—included in the list of school districts designated by this Board at its meeting of Mar. 26, 1914 (see p. 40), as the districts within which additional school accommodations are to be provided from funds becoming available during the current school year under the provisions of Chapter 615 of the Acts of 1913, is hereby amended to read as follows:—

Item 15. 25 Lagrange st., Continuation School, remodelling and furnishing.
Passed unanimously.

USE OF SCHOOL-HOUSES FOR EVENING REGISTRATION PURPOSES.

A communication was received from the Board of Election Commissioners, under date of July 31, 1914, requesting permission to use rooms in the Emerson, Bunker Hill, Cushman, Mayhew, Prince, Parkman, and William Bacon School-houses, for the evenings of Sept. 5 to 12, inclusive; Oct. 7 to 14, inclusive; and Nov. 14 to 25, inclusive; from six o'clock to ten o'clock, for the purpose of evening registration.

Placed on file, and the application approved, subject to the usual conditions governing the use of other accommodations for similar purposes.

A further communication was received from the Board of Election Commissioners, under date of July 31, 1914, requesting the use of the Boys' playroom in the Edmund P. Tileston School-house on Norfolk street, for a polling place.

Placed on file, and the application approved, subject to the usual conditions governing the use of other accommodations for similar purposes.

CHANGE OF RANK OF ELIZABETH DONALDSON.

A communication was received from the Superintendent, under date of Sept. 14, 1914, reporting that, subject to the approval of the Board, and at her request, he has changed the rank of Elizabeth Donaldson, first assistant in charge, Mather District, to that of assistant, Mather District, to take effect Sept. 1, 1914.

Placed on file, and the change of rank approved.

WITHDRAWAL OF APPOINTMENT.

A communication was received from the Superintendent, under date of Sept. 14, 1914, withdrawing, subject to the approval of the Board, the following appointment by promotion as reported at the meeting of June 11, 1914, to take effect on the date stated:—

Department of Practice and Training—Mary R. Thomas, first assistant director of practice and training, Sept. 8, 1914.

Placed on file, and the appointment withdrawn.

WITHDRAWAL OF TEMPORARY ASSIGNMENT.

A communication was received from the Superintendent, under date of Sept. 14, 1914, withdrawing, subject to the approval of the Board, the temporary assignment of Emma L. Steves, assistant, Emerson District, as assistant in classes for stamperers, to take effect Sept. 1, 1914.

Placed on file, and the assignment withdrawn.

DEATHS.

The Superintendent reported the death of the following-named teacher, who had been retired on pension:—

Girls' High School—Sarah J. C. Needham, assistant, Aug. 30, 1914.

Placed on file.

The Superintendent also reported the death of the following-named teacher:—

Sewing—Ellen J. McMorro, teacher, July 16, 1914.

Placed on file.

RESIGNATIONS.

The following resignations reported by the Superintendent, to take effect on the dates stated, were presented:—

Abraham Lincoln District—John A. Russell, sub-master, Aug. 31, 1914.

Bowditch District—Jessie A. Adams, first assistant, kindergarten, Aug. 31, 1914.

Mather District—J. Annie Bense, master's assistant, Sept. 9, 1914, one-half day; Elizabeth Donaldson, assistant, from Sept. 8 to Dec. 9, 1914.

Roger Wolcott District—Hiram M. George, master, from Sept. 11 to Nov. 1, 1914.

Shurtleff District—Winnifred C. Folan, first assistant, grammar, from Sept. 8 to Oct. 30, 1914; Mary E. Morse, assistant, from Sept. 8 to Oct. 30, 1914; Margaret L. Nolan, assistant, from Sept. 8 to Oct. 30, 1914.

Thomas Gardner District—Annie L. Ziersch, assistant, Sept. 9, 1914, one day.

Washington District—Josephine T. Colagan, assistant, from Sept. 8 to Oct. 30, 1914.

Sewing—Margaret J. Murphy, teacher, from Sept. 14 to Dec. 14, 1914.

On the report of the Superintendent and under a suspension of the rules, leave of absence was granted each of the following-named teachers for the terms specified:—

Dudley District—Jessie M. G. Wilkinson, assistant, kindergarten, Sept. 8, 1914, one day, without loss of pay.

Gaston District—Mildred H. Tavender, assistant, Sept. 1, 1914, to Aug. 31, 1915, without pay.

Roger Wolcott District—Mary W. Baker, assistant, Sept. 8 to Nov. 1, 1914, without pay.

Sewing—Florence I. Waitt, teacher, Sept. 8 to Dec. 8, 1914, without pay.

On the report of the Superintendent, leave of absence, for study and travel, under the provisions of section 317 of the regulations was granted each of the following-named teachers for the terms specified:—

Dorchester High School—Mary F. Stratton, instructor in physical training, from Sept. 1, 1914, to Sept. 1, 1915, for study and travel.

South Boston High School—James Mahoney, master, head of department, from Sept. 1, 1914, to Sept. 1, 1915, for study.

Abraham Lincoln District—Josephine A. Power, assistant, from Sept. 1, 1914, to Sept. 1, 1915, for study and travel.

Hancock District—Susan S. Faden, assistant, from Sept. 17, 1914, to May 31, 1915, for study.

Ulysses S. Grant District—Eva L. Morley, assistant, from Oct. 1, 1914, to June 1, 1915, for study.

Department of School Hygiene—Alma Taylor, assistant nurse, from Oct. 1, 1914, to June 4, 1915, for study.

On the report of the Superintendent, the following leaves of absence, granted at the meeting of June 1, 1914, were cancelled, at the request of the teachers:—

Girls' Latin School—Adeline G. Simmons, Sept. 9 to Sept. 18, 1914 (eight days).

Roger Wolcott District—Anina L. Fitzsimmons, Sept. 9 to Sept. 30, 1914, without pay.

On the report of the Superintendent, the following leave of absence for study and travel under the provisions of section 317 of the regulations, granted at the meetings of Apr. 6, Apr. 21 and June 1, 1914, respectively, were cancelled at the request of the teachers:—

Charlestown High School—John W. Regan, master, head of department, from Sept. 1, 1914, to Sept. 1, 1915, for study and travel.

Sherwin District—Mary N. Regan, assistant, from Sept. 1, 1914, to Aug. 31, 1915, for study and travel.

Eliot District—Helen M. Mead, assistant, special class, from Sept. 1, 1914, to Nov. 30, 1914, for study and travel.

On motion of the Superintendent, it was ORDERED, That the following leaves of absence, granted at the meetings of Feb. 2 and Apr. 6, 1914, respectively, are hereby rescinded:—

Girls' High School—Blanche B. Sears, assistant, from Jan. 5 to Feb. 27, 1914, without pay.

Department of School Hygiene—Mary F. Downs, temporary assistant nurse, from Mar. 21 to Apr. 30, 1914.

DESIGNATION OF TEACHERS.

A communication was received from the Superintendent, under date of Sept. 14, 1914, reporting the following designations of teachers to serve in the positions indicated, until such time as they shall be filled otherwise in accordance with the rules and regulations:—

Roger Wolcott District—Henry E. Loring, submaster, as acting master, from June 1 to June 16, 1914, and from Sept. 8 to Nov. 1, 1914, all dates inclusive; vice Hiram M. George, absent on leave.

Hyde District—Jane Reid, first assistant, grammar, as acting master's assistant, from Sept. 10, 1914, vice Susan J. Ginn, absent on leave; Zelpha L. Thayer, assistant, as acting first assistant, grammar, from Sept. 10, 1914, vice Jane Reid, designated acting master's assistant.

Mather District—Elizabeth V. Cloney, assistant, as acting first assistant in charge from Sept. 8, 1914, vice Elizabeth Donaldson, rank changed.

Quincy District—Edna K. Lane, assistant, kindergarten, as acting first assistant, kindergarten, from Sept. 8, 1914, vice Caroline M. Burke, absent on leave. Placed on file.

RETIREMENT ON PENSION.

The Superintendent offered the following:—

ORDERED, That the following-named teacher be retired on pension, in accordance with the provisions of Chapter 589 of the Acts of 1908, as amended by Chapter 617 of the Acts of 1910, the date of retirement and rate of pension to be as herein-after specified:—

Dorchester High School—Laura E. Hovey, length of service 47 yrs., 8 mos., Aug. 31, 1914, \$600.

Passed, a majority of the Board voting in the affirmative.

CHANGE IN DATE OF ASSIGNMENT TO A BOYS' CLASS.

On motion of the Superintendent, it was ORDERED, That the date of assignment to a grade above the third attended ex-

clusively by boys of Margaret L. Cosgrove, assistant, Eliot District, is hereby changed from Apr. 29 to May 6, 1912.

EMPLOYMENT OF BLANCHE F. KINGSLEY IN GIRLS' LATIN SCHOOL.

On motion of the Superintendent, it was ORDERED, That the employment in the Girls' Latin School, beginning Sept. 1, 1914, of Blanche F. Kingsley, an assistant in the Samuel Adams District, is hereby authorized as an excess teacher for such portion of the school year 1914-15 as the Superintendent may deem expedient, Miss Kingsley to be paid at the same rate as if she were teaching as an assistant in an elementary school.

ASSIGNMENT OF HENRY W. POOR TO BRIGHTON HIGH SCHOOL.

On motion of the Superintendent, it was ORDERED, That the assignment of Henry W. Poor, instructor in drawing in the Normal School, is hereby authorized in the Brighton High School, vice Ida M. Curtis, absent on leave, from Sept. 15, 1914, to Aug. 31, 1915, both dates inclusive, without change of rank or salary.

EMPLOYMENT OF GRACE E. LINGHAM IN DORCHESTER HIGH SCHOOL.

On motion of the Superintendent, it was ORDERED, That the employment in the Dorchester High School, beginning Sept. 1, 1914, of Grace E. Lingham, an assistant in the Mather District, is hereby authorized for such portion of the school year 1914-15 as the Superintendent may deem expedient, Miss Lingham to be paid at the same rate as if she were teaching as an assistant in an elementary school.

EMPLOYMENT OF MARCELLINE I. MORA IN HIGH SCHOOL OF PRACTICAL ARTS.

On motion of the Superintendent, it was ORDERED, That the employment in the High School of Practical Arts of Marcelline I. Mora, a teacher of sewing in the elementary schools, is hereby authorized to take effect Sept. 1, 1914 (vice Clara S. Gay, absent on leave). Miss Mora to be paid at the same rate as if she were a teacher of sewing in the elementary schools.

APPOINTMENTS AND RESIGNATION OF ASSISTANTS, SUPERINTENDENT'S OFFICE.

A communication was received from the Superintendent, under date of Sept. 14, 1914, reporting that, subject to the approval of the Board and with the approval of the Civil Service Commission, he has appointed Ellen M. Gleason, temporary assistant in his office, for service in connection with the further conduct of arithmetic and English tests, to take effect Sept. 15, 1914.

Placed on file, and the appointment approved.

On motion of the Superintendent, it was ORDERED, That the compensation of Ellen M. Gleason, temporary assistant in the office of the Superintendent, is hereby established at the rate of two dollars and twenty-five cents (\$2.25) per day of service.

A communication was received from the Superintendent, under date of Sept. 14, 1914, reporting that Alice F. O'Neill, an assistant in his office, has tendered her resignation, to take effect Sept. 19, 1914.

Placed on file, and the resignation accepted.

A communication was received from the Superintendent, under date of Sept. 14, 1914, reporting that, subject to the approval of the Board and with the approval of the Civil Service Commission, he has appointed Mabel R. Cook assistant in his office, to take effect Sept. 1, 1914.

Placed on file, and the appointment approved.

APPOINTMENT OF CLERICAL ASSISTANTS.

A communication was received from the Superintendent, under date of Sept. 14, 1914, reporting that, subject to the approval of the Board, and with the approval of the Civil Service Commission, he has appointed

the following-named clerical assistants in the schools mentioned, appointments to take effect Sept. 8, 1914:

East Boston High School, Ethel Miller.
Continuation Schools, Theresa Appel.
Placed on file, and the appointments approved.

EMPLOYMENT OF EFFIE L. OWEN ON HALF TIME.

On motion of the Superintendent, it was ORDERED, That during the school year ending Aug. 31, 1915, Effie L. Owen, Assistant Instructor in Manual Training, be placed on half time and that she be paid one-half of her regular salary.

PAYMENT TO SPECIAL ASSISTANTS, INDUSTRIAL DEPARTMENT, HIGH SCHOOL OF PRACTICAL ARTS.

On motion of the Superintendent, it was ORDERED, That the following-named special assistants, industrial department, High School of Practical Arts, be paid for services rendered on June 13, 1914:—
Agnes L. Anderson, Pauline R. Bayne, Florence Bonney, Phyllis Bornstein, Helena Burke, Ada Courage, Jessie Guttentag, Annette E. Harris, Lois Heath, Jessie M. Howard, Josephine Stephens.

EMPLOYMENT OF SPECIAL ASSISTANTS FOR SERVICE IN CONNECTION WITH COURTIS TESTS.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to assign thirty special assistants to service in connection with the continuation of the Courtis tests.

ADDITIONAL PAYMENT TO FREDERICK W. TURNER.

The Superintendent offered the following:—

ORDERED, That the sum of one hundred twenty-five dollars (\$125) be paid to Frederick W. Turner, in addition to his regular salary as Master, Head of Department, Mechanic Arts High School, for extra services rendered during the summer of 1914.

Passed unanimously.

SCHOOL CENTERS, TERM OF 1914-15.

On motion of the Superintendent, it was ORDERED, That the names of the evening centers, authorized at the meeting of June 23, 1913 (see p. 106, 1913), are hereby changed to school centers as follows:—
Charlestown Evening Center to Charlestown School Center.

Dorchester Evening Center to Dorchester School Center.

East Boston Evening Center to East Boston School Center.

Roxbury Evening Center to Roxbury School Center.

South Boston Evening Center to South Boston School Center.

Washington Evening Center to Washington School Center.

On motion of the Superintendent, it was ORDERED, That an additional school center is hereby established for the year 1914-15 as follows: Abraham Lincoln School-house, three evenings per week.

On motion of the Superintendent, it was ORDERED, That the work at the Washington School Center be extended from one evening a week to three evenings per week.

On motion of the Superintendent, it was ORDERED, That the 1914-15 term of the school centers shall begin on the second Wednesday in October and shall continue up to and including the thirtieth day of June, except that the sessions shall be suspended on the twelfth of October, Thanksgiving Day, the twenty-second of February, Good Friday, the nineteenth of April, the seventeenth of June, for the week in which Christmas Day occurs, and for the week beginning with the first Monday in April.

On motion of the Superintendent, it was ORDERED, That the admission to school center clubs shall be restricted to persons who are over fourteen years of age, and who are not attending a regular day school; provided, however, that pupils attending a regular day school may be admitted upon the written permission of the Director of the Extended Use of the Public Schools.

On motion of the Superintendent, it was ORDERED, That lectures for non-English speaking people are hereby authorized during the evening school term of 1914-15, in buildings occupied by evening elementary schools, at an expense, including janitor service, not to exceed fifteen hundred dollars (\$1500), said amount to be charged to the appropriation for the Extended Use of the Public Schools.

On motion of the Superintendent, it was ORDERED, That, subject to the approval of the Board, the Superintendent is hereby authorized during the term 1914-15 to appoint persons holding the required licenses, to the following ranks in school centers, managers, assistant managers, special leaders, leaders, planists and helpers.

On motion of the Superintendent, it was ORDERED, That the compensation of managers and assistant managers in school centers is hereby established at the following rate for the year ending Aug. 31, 1915:—

Managers	\$1500
Assistant Managers	\$1200

The Superintendent offered the following:—

ORDERED, That the compensation of persons employed in connection with the extended use of the public schools is hereby established as follows for the year ending Aug. 31, 1915:—

Special Leaders, per evening.....	\$3.00
Leaders, per evening.....	2.50

Laid over.

On motion of the Superintendent, it was ORDERED, That the manager of each school center is hereby authorized to incur an expense for postage from Oct. 1 to Nov. 30, 1914, to an amount not to exceed eight dollars (\$8), and that he be directed to present his bill for such expenditure to the Business Agent not later than Dec. 1, 1914.

On motion of the Superintendent, it was ORDERED, That the Director of the Extended Use of the Public Schools is hereby authorized to incur an expense for lectures and educational motion picture entertainments to be conducted in school buildings not used as school centers to an amount not to exceed one thousand dollars (\$1000) during the term 1914-15.

On motion of the Superintendent, it was ORDERED, That the Business Agent is hereby authorized to issue car tickets to

the Director of the Extended Use of the Public Schools to an amount not to exceed ten dollars (\$10) for messenger service, from Oct. 1 to Nov. 30, 1914.

On motion of the Superintendent, it was ORDERED, That the Board of Superintendents is hereby authorized to issue licenses covering employment in school centers.

EMPLOYMENT OF MASTER, HEAD OF DEPARTMENT, INSTEAD OF JUNIOR MASTER IN SOUTH BOSTON HIGH SCHOOL.

The Superintendent offered the following:—

ORDERED, That a master, head of department, instead of a junior master to which the school is entitled, is hereby authorized in the South Boston High School during the school year ending Aug. 31, 1915.

Passed, under a suspension of the rules.

EMPLOYMENT OF SPECIAL ASSISTANT IN MODEL SCHOOL.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to assign a special assistant to the Model School for special work during the current school year.

AMENDMENT TO ELIGIBLE LIST.

A communication was received from the Board of Superintendents, under date of Sept. 9, 1914, reporting that it has amended School Document No. 5, 1914—List of Candidates Eligible for Appointment as Teachers—as follows:—

Page 31. Kindergarten Certificates (Examined Candidates):—

(802) Ruth Allen—name permanently removed by request.

Placed on file.

ATTENDANCE OF BOSTON PUPILS IN BROOKLINE SCHOOLS.

On motion of the Superintendent, it was ORDERED, That the Business Agent is hereby authorized, beginning Sept. 1, 1914, and until otherwise ordered, to issue permits to children belonging in kindergartens and elementary grades who reside in that portion of the Prince District lying west of Charlesgate West extended to the Back Bay Fens; to children belonging in the first three grades residing within that part of Brighton bounded by the easterly side of Harvard Avenue, the center of Commonwealth Avenue and the westerly side of Cummings Road, east to the Brookline line; and to children belonging in the first four grades residing within that part of Brighton bounded by the easterly side of Summit Avenue, the Brookline line, the westerly side of Cummings Road, and the center of Commonwealth Avenue, to attend school in the Town of Brookline, the City of Boston to pay tuition for such attendance.

TRANSFER OF APPROPRIATIONS.

The Superintendent offered the following:—

ORDERED, That there be transferred from the item "Salaries of Instructors" in the annual appropriation order, the sum of six thousand dollars (\$6,000), to the appropriation for the purpose of constructing and furnishing new buildings, including the taking of land therefor, for school yards and the preparing of school yards for use.

Passed, Mr. Corcoran voting in the negative.

PURCHASE OF CALCULATING MACHINES AND OFFICE SUPPLIES FOR DIRECTOR OF PROMOTION AND EDUCATIONAL MEASUREMENT.

On motion of the Superintendent, it was ORDERED, That the sum of seven hundred dollars (\$700) is hereby appropriated for the purchase of calculating machines and such other apparatus and office supplies as may be needed during the current financial year by the Director of Promotion and Educational Measurement.

ADMISSION TO EVENING SCHOOLS.

On motion of the Superintendent, it was ORDERED, That during the evening school term 1914-15 young persons under sixteen years of age who are not required to attend compulsory continuation schools may be admitted to the evening schools.

ACCOMMODATIONS FOR CLASSES IN PHYSICAL TRAINING, HYDE PARK HIGH SCHOOL.

On motion of the Superintendent, it was ORDERED, That the Board of Schoolhouse Commissioners is hereby requested to procure suitable accommodations for classes in physical training in connection with the Hyde Park High School during the current school year.

AUTHORIZED LIST OF TEXT AND SUPPLEMENTARY BOOKS.

The orders making changes in the authorized list of text and supplementary books, laid over at the meeting of June 11, 1914 (see pages 113-115), were taken up.

On motion of the Superintendent, it was ORDERED, That the orders authorizing certain changes in text and supplementary books for the High, Latin and Elementary Schools as presented by the Superintendent at the meeting of June 11, 1914 (pages 113, 114 and 115), are hereby amended as follows:—

Order No. 1: Substitute "Secondary School Dictionary, without Index, Webster, published by the American Book Company" for "Secondary School Dictionary, Webster, published by American Book Company."

Order No. 2: Substitute "Nutrition and Diet, by Emma Conley, published by the American Book Company" for "Nutrition and Diet, by Anna M. Cooley, published by the American Book Company."

Order No. 3: Substitute "Le Francais et sa Patrie, by L. Raymond Talbot, published by Benjamin H. Sanborn & Company" for "La Francais et sa Patrie, by L. Raymond Talbot, published by Benjamin H. Sanborn & Company."

Order No. 6: Add to the list of publishers whose editions may be selected for college entrance requirements in English the following: Charles E. Merrill Company, The Macmillan Company, D. Appleton Company, and Longmans, Green & Company.

Order No. 7: Strike out "Pearson's Essentials of Latin for Beginners."

The orders as presented at the meeting of June 11, 1914, as amended, were passed collectively and unanimously.

The Superintendent offered the following:—

ORDERED, That the following-named book is hereby authorized for use as a supplementary book in high and Latin schools:—

Dunn's The Community and the Citizen by Arthur W. Dunn, published by D. C. Heath & Company.

Laid over.

The Superintendent offered the following:—

ORDERED, That the following books are hereby authorized for use as text books in the Normal School:—

A Brief Course in the Teaching Process, by George D. Strayer, published by The Macmillan Company.

Industrial and Commercial Geography, by J. Russell Smith, published by Henry Holt & Company.

The Human Body, by H. Newell Martin, ninth edition, thoroughly revised by Ernest G. Martin, published by Henry Holt & Company.

Laid over.

The Superintendent offered the following:—

ORDERED, That the following-named book is hereby authorized for use as a supplementary book in the Normal School:—

Zoology I, printed Laboratory Notes, published by Harvard University.

Laid over.

AMENDMENTS TO RULES AND REGULATIONS.

The Superintendent offered the following: ORDERED, That the Regulations are hereby amended as follows:—

Section 297, Paragraph 3, strike out the paragraph and substitute therefor the following:—

3. Play-teachers must hold a certificate of qualification, elementary school, class B, or a higher certificate. Supervisors of schoolyard playgrounds must hold a special physical training certificate for high schools, or a playground certificate with a diploma of graduation from a school in physical education approved by the board of superintendents, and must have had one

year's successful experience as first assistant of a playground under the jurisdiction of the Boston School Committee. First assistants in playgrounds must hold a certificate of qualification, elementary school, class B, or a higher certificate, or a kindergarten certificate, or a special physical training certificate for high schools, or a playground certificate. Assistants in playgrounds and assistants in sand gardens must hold a certificate of qualification, elementary school, class B, or a higher certificate, or a kindergarten certificate, or a special physical training certificate, or a playground certificate, or be pupils in regular attendance at the Boston Normal School. Teachers of dramatics and story-telling must hold a playground certificate including the position. Teacher coaches in high, Latin or industrial schools must hold a certificate of qualification covering service in high, Latin or industrial schools, unless regularly employed as teachers in high, Latin or industrial schools, or pupils in regular attendance at the Boston Normal School.

Laid over.

A communication was received from the Board of Superintendents, under date of May 25, 1914, recommending that provision be made for the granting of the IV. High School certificate to teachers of commercial branches and of manual arts, who are permanently employed in the Boston high schools under a Valid in High Schools certificate, upon the obtaining of a degree from an approved college or university.

Placed on file.

The Superintendent offered the following:—

ORDERED, That section 133, paragraph IV. of the Rules is hereby amended by inserting in the paragraph which provides for the granting of the IV. High School certificate to teachers of commercial branches and of manual arts in high schools upon the completion of seven years of permanent service, in the sixth line to immediately follow the word "ranks," the following—and teachers permanently employed in any of these ranks under a Special, Valid in High Schools certificate, who, while so employed, obtain a degree from a college or university approved by the board of superintendents—so that the paragraph will read as follows:—

Instructors and assistant instructors in commercial branches and in manual arts in high schools who have satisfactorily completed seven years of permanent service in the Boston public schools in any of these ranks, and teachers permanently employed in any of these ranks under a Special Valid in High Schools certificate, who, while so employed, obtain a degree from a college or university approved by the board of superintendents, may thereby become eligible for the certificate of qualification IV. High School, subject to such examination as the board of superintendents may determine.

Laid over.

ADVISORY COMMITTEE ON MUSIC.

A communication was received from the Secretary, under date of Aug. 31, 1914, submitting, for the approval of the Board, the following list of the Advisory Committee on Music:—

To serve for the term ending Aug. 31, 1915:—

Thomas Surette, 21 Lexington road, Concord.

To serve for the term ending Aug. 31, 1916:—

Daniel Bloomfield, Boston Music School Settlement, 110 Salem street; Miss Mabel W. Daniels, 193 Babcock street, Brookline.

To serve for the term ending Aug. 31, 1917:—

Dr. Archibald T. Davison, Jr., 22 Francis avenue, Cambridge; Percy L. Atherton, 7 Charles River square.

Placed on file, and the appointments approved.

ESTABLISHMENT OF TUITION FOR NON-RESIDENT PUPILS, BOSTON EVENING INDUSTRIAL SCHOOL.

A communication was received from the Business Agent, under date of June 13, 1914, stating that owing to a misunderstanding on the number of pupils included in the evening industrial school the rate for tuition of non-resident pupils has been fixed at too low a rate, and recommending that the State Board of Education be requested to fix the rate of tuition for non-resident pupils in that school at \$7 per month, to take effect Sept. 1, 1914.

Placed on file.

On motion, it was

ORDERED, That the State Board of Education is hereby requested to fix the rate of tuition of non-resident pupils in the Boston evening industrial school at seven dollars (\$7) per month, to take effect Sept. 1, 1914.

APPROPRIATIONS AND EXPENDITURES TO SEPT. 1, 1914.

Communications were received from the Business Agent, under dates of July 3, Aug. 1, and Sept. 2, 1914, submitting statements showing the appropriations, expenditures and balances of the first six, seven and eight months of the current financial year, the total expenditures, and expenditures for the corresponding six, seven and eight months of the financial year 1913-14, with the increases and decreases in the several items.

Placed on file.

RESIGNATION OF MATRON, DORCHESTER HIGH SCHOOL.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, submitting the resignation of Elizabeth Hunter Smith, matron of the Dorchester High School, to take effect Sept. 11, 1914.

Placed on file, the resignation accepted, and the selection of candidates to fill the vacancy referred to Mr. Corcoran and Miss Curtis as a special committee for consideration and recommendation.

RESIGNATIONS OF JANITORS.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, submitting the resignation of Thomas J. Hatch as janitor of the Elbridge Smith School-house, to take effect June 6, 1914.

Placed on file, and the resignation accepted.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, submitting the resignation of Robert J. Walsh as janitor of Portable No. 44, located in the yard of the Minot School, to take effect Sept. 9, 1914.

Placed on file, and the resignation accepted.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, submitting the resignation of William H. Cook as janitor of Portables Nos. 22, 34 and 39, located in the yard of the Edmund P. Tileston School, to take effect Sept. 2, 1914.

Placed on file, and the resignation accepted.

LEAVE OF ABSENCE TO AND RESIGNATION OF A JANITOR.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, recommending that Henry C. Hunneman, janitor of the Hull School-house and Portables, be granted leave of absence for one year on one-half his net compensation, to begin Sept. 20, 1914, his resignation to take effect at the expiration of the leave of absence.

Placed on file, leave of absence granted Henry C. Hunneman for one year, to take effect Sept. 20, 1914, on one-half his net compensation, the amount thereof to be determined by the Secretary and the Schoolhouse Custodian, and the resignation accepted to take effect Sept. 20, 1915.

APPOINTMENTS OF JANITORS TO PORTABLES.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, recommending that John McCloskey, janitor of the Dorchester High School-house, be appointed janitor of Portables Nos. 22, 34 and 39, located in the yard of that school, to take effect Sept. 9, 1914.

Placed on file, and the appointment approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, recommending that Ewen C. Cameron, janitor of the Trescott School-house, be appointed janitor of Portable No. 1, located in the yard of that school, to take effect Sept. 1, 1914.

Placed on file, and the appointment approved, to take effect on the date stated.

CERTIFICATION AND RE-CERTIFICATION OF AREAS.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, submitting a re-certification of the areas of the Edmund P. Tilton School-house, to take effect Sept. 9, 1914, upon which the compensation for janitor service is based.

Placed on file and the Chairman authorized to approve such re-certification, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian under date of Sept. 14, 1914, submitting a certification of the areas of the premises No. 12 Isabella st., to take effect Sept. 11, 1914, upon which the compensation for janitor service is based.

Placed on file, and the Chairman authorized to approve such certification, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian under date of Sept. 14, 1914, submitting a certification of the areas of the Mary Lyon School-house, to take effect Sept. 8, 1914, upon which the compensation for janitor service is based.

Placed on file, and the Chairman authorized to approve such certification, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, submitting a re-certification of the areas of the South Boston High School-house, to take effect Sept. 4, 1914, upon which the compensation for janitor service is based.

Placed on file, and the Chairman authorized to approve such re-certification, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, submitting a re-certification of the areas of the Wells School-house, to take effect Sept. 9, 1914, upon which the compensation for janitor service is based.

Placed on file, and the Chairman authorized to approve such re-certification, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, submitting a certification of the areas of the Wells School-house Annex, to take effect Sept. 14, 1914, upon which the compensation for janitor service is based.

Placed on file, and the Chairman authorized to approve such certification, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, submitting a certification of the areas of the premises No. 627 Columbus avenue, to take effect Sept. 9, 1914, upon which the compensation for janitor service is based.

Placed on file, and the Chairman authorized to approve such certification, to take effect on the date stated.

APPOINTMENTS OF JANITORS TO ADDITIONAL BUILDINGS.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, recommending that Charles D. Gallagher, janitor of the Wells School-house, be also appointed janitor of the Wells Annex which is located on the same lot as the Wells School-house, to take effect Sept. 14, 1914.

Placed on file, and the appointment approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, recommending that Michael T. Reagan, janitor of the Shurtleff School-house, be also appointed janitor of the Clinch School-house which is located on the same lot as the Shurtleff School-house, to take effect Sept. 11, 1914.

Placed on file, and the appointment approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, recommending that Samuel A. Dodds, janitor of the Comins School-house, be also appointed janitor of the Cottage place School-house, to take effect Sept. 14, 1914.

Placed on file, and the appointment approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, recommending that Walter H. Bleckford, janitor of the Winship School-house, be also appointed janitor of the Bennett School-house and Annex, to take effect Sept. 11, 1914.

Placed on file, and the appointment approved, to take effect on the date stated.

Communications were received from the Schoolhouse Custodian, under date of Sept. 14, 1914, recommending that Patrick A. O'Brien, janitor of the Abraham Lincoln School-house, be also appointed janitor of the Skinner School-house and premises No. 12 Isabella street, compensation for the latter to be in accordance with order No. 6, Section 16, of the Salary Schedule for Janitors, 1912, namely, \$2 per week, to take effect Sept. 14, 1914.

Placed on file, and the appointment approved, to take effect on the date stated.

TRANSFERS OF CERTAIN JANITORS.

A communication was received from the Schoolhouse Custodian, under date of Sept. 8, 1914, submitting a list of applicants for transfer to the janitorship of the Aaron Davis School-house, and recommending that John L. Nolan, janitor of the Frances E. Willard School-house, who stands at the head of the list, be appointed to the position, to take effect Sept. 13, 1914.

Placed on file, and the transfer of John L. Nolan approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 8, 1914, submitting a list of applicants for transfer to the janitorship of the Bunker Hill and Thomas Starr King School-houses, and recommending that John J. Norton, janitor of the John J. Williams School-house, who stands at the head of the list, be appointed to the position, to take effect Sept. 13, 1914.

Placed on file, and the transfer of John J. Norton approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 8, 1914, submitting a list of applicants for transfer to the janitorship of the Charles C. Perkins School-house, and recommending that Ira M. Jacobs, janitor of the Mt. Vernon street School-house and Portables, who stands at the head of the list, be appointed to the position, to take effect Sept. 13, 1914.

Placed on file, and the transfer of Ira M. Jacobs approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 8, 1914, submitting a list of applicants for transfer to the janitorship of the Dwight School-house, and recommending that Simeon Robinson, janitor of Peter Faneuil School-house, who stands at the head of the list, be appointed to the position, to take effect Sept. 13, 1914.

Placed on file, and the transfer of Simeon Robinson approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, submitting a list of applicants for transfer to the janitorship of the John J. Williams School-house, and recommending that Henry J. Mahoney, janitor of the Noble School-house and Annex, who stands at the head of the list, be appointed to the position, to take effect Sept. 13, 1914.

Placed on file, and the transfer of Henry J. Mahoney approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, submitting a list of applicants for transfer to the janitorship of the Joseph Tuckerman School-house, and recommending that Daniel T. Kelly, janitor of the Capen School-house and Portable No. 63, who stands at the head of the list, be appointed to the position to take effect Sept. 13, 1914.

Placed on file, and the transfer of Daniel T. Kelly approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 8, 1914, submitting a list of applicants for transfer to the janitorship of the Joshua Bates School-house and Portable No. 43, and recommending that Jacob Mayer,

janitor of the Samuel Dexter School-house, who stands at the head of the list, be appointed to the position, to take effect Sept. 13, 1914.

Placed on file, and the transfer of Jacob Mayer approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 8, 1914, submitting a list of applicants for transfer to the janitorship of the Louisa May Alcott School-house, and recommending that John J. Murphy, janitor of the Parkman School-house, who stands at the head of the list, be appointed to the position, to take effect Sept. 13, 1914.

Placed on file, and the transfer of John J. Murphy approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, submitting a list of applicants for transfer to the janitorship of the Mt. Vernon-street School-house and Portables Nos. 54 and 106, and recommending that Joseph L. Butler, who stands at the head of the list, be appointed to the position, to take effect Sept. 13, 1914.

Placed on file, and the transfer of Joseph L. Butler approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, submitting a list of applicants for transfer to the janitorship of the Noble School-house and Annex, and recommending that John E. Egan, janitor of the Bailey-street School-house and Portables, who stands at the head of the list, be appointed to the position, to take effect Sept. 13, 1914.

Placed on file, and the transfer of John E. Egan approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, submitting a list of applicants for transfer to the janitorship of the Peter Faneuil School-house, and recommending that Peter A. Flynn, janitor of the Joseph Tuckerman School-house, who stands at the head of the list, be appointed to the position, to take effect Sept. 13, 1914.

Placed on file, and the transfer of Peter A. Flynn approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, submitting a list of applicants for transfer to the janitorship of the W. L. P. Boardman School-house and Portable No. 64, and recommending that Seth Ganong, janitor of the George T. Angell School-house, who stands at the head of the list, be appointed to the position, to take effect Sept. 13, 1914.

Placed on file, and the transfer of Seth Ganong approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, recommending that Charles N. Philbrick, janitor of the Martha A. Baker School-house, the only applicant in the service for transfer to the janitorship of the Mary Lyon School-house, be appointed to this position, to take effect Sept. 20, 1914.

Placed on file, and the transfer of Charles N. Philbrick approved, to take effect on the date stated.

JANITORSHIP, FRANCES E. WILLARD AND WILLIAM EUSTIS SCHOOL-HOUSES.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, stating that there are no applicants in the service for transfer to the janitorships of the Frances E. Willard or the William Eustis School-houses, and recommending that requisition be made upon the Civil Service Commission for names of candidates eligible to fill these vacancies.

Placed on file, and the Secretary directed to make requisition upon the Civil Service Commission accordingly.

PROVISIONAL APPOINTMENTS OF JANITORS.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, stating that there has been a great

deal of trouble in filling the janitorship of the Oak Square School-house, and recommending that John B. Pratt, who was the janitor of this school when the building first opened, be provisionally appointed janitor of the Oak Square School-house, subject to the approval of the Civil Service Commission.

Placed on file, and John B. Pratt provisionally appointed, to take effect on the date stated, subject to the approval of the Civil Service Commission.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, recommending that the Civil Service Commission be requested to certify to this Department the name of Michael J. Murphy, formerly janitor of the Parental School, thus authorizing his transfer from the Institutions Department to that of the School Committee, and further recommending that he be appointed to the janitorship of the Henry Vane School-house.

Placed on file, and the Secretary directed to make requisition on the Civil Service Commission accordingly.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, recommending that the Civil Service Commission be requested to certify to the employment of Antonio B. Thompson, who is the janitor employed by the owners of premises No. 627 Columbus avenue, which has been hired for school purposes, to take effect Sept. 4, 1914.

Placed on file, and the Secretary directed to make requisition upon the Civil Service Commission accordingly.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, recommending that the Civil Service Commission be requested to certify the appointment of Michael Keefe as janitor of the Samuel Dexter School-house, inasmuch as Mr. Keefe has been acting as temporary janitor in this Department for several years.

Placed on file, and the Secretary directed to make requisition upon the Civil Service Commission accordingly.

EMPLOYMENT OF TWO REGULAR SUBSTITUTE JANITORS.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, recommending that requisition be made upon the Civil Service Commission for the names of eligible candidates to act as regular substitute janitors in this Department during the coming winter.

Placed on file, and the Secretary directed to make requisition upon the Civil Service Commission accordingly.

JANITORSHIP, 25 LAGRANGE STREET.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, stating that he has considered the candidates certified by the Civil Service Commission as eligible for appointment to the vacancy existing in the janitorship of the premises No. 25 LAGRANGE street, and recommending that Logan A. McLean, number one on the list, be appointed to this position, to take effect July 1, 1914.

Placed on file, and the appointment of Logan A. McLean approved, to take effect on the date stated.

COMPENSATION OF JANITORS OF SUMMER REVIEW SCHOOLS.

A communication was received from the Schoolhouse Custodian, under date of Sept. 14, 1914, recommending that the rates be established for janitors of summer review schools, for the term of 1914.

Placed on file.

On motion, it was

ORDERED, That the rate of compensation of janitors of summer review schools for the term 1914 be established as follows: Two dollars (\$2) per day for attendance and daily sweeping of corridors, stairs, care of sanitariums, etc.

Fourteen cents (14c) per room for each sweeping.

SALARY DUE CHARLES A. DEVNEY.

On motion, it was

ORDERED, That the salary due Charles A. Devney, late janitor of the Henry Vane and Old Baker Street School-houses, be paid to his widow, Katharine Devney.

USE OF SUB-TARGET RIFLE MACHINES IN BOSTON SCHOOLS.

A communication was received from the Director of School Hygiene, to whom was referred at the meeting of Dec. 1, 1913 (see p. 204), a communication from Henry Breckenridge, President, National Board for Promotion of Rifle Practice, relative to the use of sub-target rifle machines in the public schools, recommending that sub-target rifle practice be not introduced into the Boston public schools.

Placed on file, and the recommendation adopted.

THANKS OF BOARD EXTENDED TO PHYSICIANS FOR SERVICES RENDERED IN CONNECTION WITH LECTURES GIVEN TO SCHOOL NURSES.

A communication was received from the Director of School Hygiene, under date of July 2, 1914, recommending that the thanks of the Board be extended each of the following-named physicians for services rendered by them in connection with a course of lectures given to school nurses during the week of June 18, 1914, which covered various branches of medical and social work met by the nurses in their duties in the schools:

Dr. C. G. Mixter, Dr. J. L. Morse, Dr. J. S. Stone, Dr. H. F. Keever, Dr. R. W. Lovett, Dr. T. E. Ely, Dr. H. C. Ernst, Dr. J. W. Sever, Dr. A. Ehrenfried, Dr. R. Soutter, Dr. E. T. Wyman, Dr. E. E. Jack, Dr. A. T. Legg.

Placed on file, and the Secretary directed to send, in behalf of the Board, a suitable expression of the appreciation of the Board to the physicians named.

APPROVAL OF THE FARM AND TRADES SCHOOL.

A communication was received from C. H. Bradley, Superintendent, The Farm and Trades School, under date of Aug. 14, 1914, requesting the approval of the Board of his school, in order that they may in all ways comply with certain Acts of Legislature relative to labor of minors, school attendance and employment of minors.

Referred to the Superintendent for consideration and report.

GROVE HALL SAVINGS BANK TO RECEIVE DEPOSITS FROM SCHOOL SAVINGS SYSTEMS.

A communication was received from Joseph L. Downey, Treasurer of the Grove Hall Savings Bank, under date of Sept. 2, 1914, stating the desire of the Bank to install and conduct a school savings system and asking permission to receive deposits from pupils in the George Putnam District.

Placed on file and the desired permission granted.

MINUTES OF THE BOARD.

On motion, it was

ORDERED, That the Secretary is hereby authorized to increase the number of copies of the minutes of each meeting of the Board, which are printed in accordance with the terms of the order passed at the meeting of Jan. 25, 1906, from six hundred to six hundred and fifty.

AUDITING BOOKS AND ACCOUNTS OF BUSINESS AGENT.

A communication was received from Patterson, Teele and Dennis, under date of June 30, 1914, submitting their report of the examination of the books and accounts of the Business Agent for the three months ending Apr. 30, 1914.

Placed on file.

ATTENDANCE OF MARION CHALMERS IN BROOKLINE SCHOOL.

On motion, it was

ORDERED, That the Business Agent is hereby authorized, during the school year 1914-15, to issue a permit to Marion Chalmers, residing at 295 Summit avenue, Brighton, to attend school in the town of Brookline, the City of Boston to pay tuition for such attendance.

EMPLOYMENT OF TEACHER MANAGERS IN PUBLIC LATIN SCHOOL AND ENGLISH HIGH SCHOOL.

A communication was received from the Head Masters of the Public Latin School

and the English High School, under date of Sept. 10, 1914, requesting that the Board consent to continue the practice of employing teacher managers for the athletic teams in these schools, inasmuch as it is impossible, in schools of their size for a teacher coach to fill the office of coach and manager.

Referred to the Superintendent for consideration and report.

UNFINISHED BUSINESS.

The order laid over at the meeting of May 18, 1914 (see p. 79), establishing the salaries of teachers in the Boston Clerical School, was taken up and placed on file.

The communication from the Women's Municipal League of Boston laid over at the meeting of May 4, 1914 (see p. 76), transmitting a report of an investigation made of sanitary conditions of various school buildings, was taken up and placed on file.

The reference at the meeting of Apr. 6, 1914 (see p. 53), requesting the Superintendent, Assistant Superintendent Thompson and Business Agent to report on cost of establishing a central clerical high school, was placed on file.

ELECTION OF CHIEF ATTENDANCE OFFICER.

On motion, the Board proceeded to the election of a Chief Attendance Officer.

A roll call being ordered, the members, as their names were called, respectively stated that they voted as follows:—

For WILLIAM H. MARNELL:—

Messrs. Brock, Corcoran, Lee and Scannell—4.

ABSENT—Miss Curtis—1.

The Chairman declared William H. Marnell duly elected Chief Attendance Officer, to take effect Sept. 15, 1914.

On motion, it was

ORDERED, That the salary of the Chief Attendance Officer is hereby established at the rate of two thousand four dollars (\$2004) per annum, until otherwise ordered.

ADJOURNMENT.

The Board adjourned at 9.12 o'clock P. M.
Attest:

ELLEN M. CRONIN.

Secretary pro tempore.

TO RELIEVE FOREIGN EXCHANGE.

A very important meeting was held in this city upon the 22d instant for the purpose of taking appropriate action relative to Boston's effort to raise \$7,000,000 as its share of the \$100,000,000 gold fund to relieve foreign exchange.

It is stated that all Boston banks and trust companies have been invited to subscribe to the \$7,000,000 fund and that virtually all have accepted this duty. Each institution will contribute in definite proportion to its total resources, the average levy figuring out around 1.3 per cent of total assets. This means that the three largest financial institutions, the First and Shawmut banks and the Old Colony Trust Company, will contribute rising \$4,000,000, or nearly 60 per cent of the total.

The ultimate success of the gold fund scheme depends upon New York's ability to raise \$45,000,000 of the total, which constitutes 45 per cent, against Boston's 7 per cent. It is also dependent upon Chicago, Philadelphia and St. Louis, as the federal reserve board does not intend to call upon the other reserve cities unless these five centers demonstrate their willingness to carry the plan through.

It is hoped that some profit will be realized on the exchange transaction in which event the banks may realize perhaps 6 per cent on their money. But at the outset the decision of American bankers to furnish \$100,000,000 gold is no more nor less than a public-spirited move to furnish a push to the wheels of finance and industry.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance or permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS, 1001 City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, October 5, at 3 p. m.
Meeting of School Committee, Monday, October 5, at 7 p. m.
Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

LICENSING OF ELEVATOR OPERATORS.

Applications for licenses to operate passenger elevators, as required by recently enacted statute, may be obtained at the office of the Building Department, City Hall Annex.

PUBLIC HEARINGS.

The Directors of the Port of Boston announce a public hearing upon the application of the directors of the Boston Elevated Railway Company for a license to dump snow and ice into the tide water of Boston Harbor, at the office of the Directors, Marshall Building, 40 Central street, Boston, Tuesday, October 6, at 10 a. m.

COLUMBUS DAY OBSERVANCE.

Secretary E. B. Mero of the Columbus Day Committee very kindly sends the *City Record* the following outline of the ceremonies of the holiday as far as arranged:

PROGRAM FOR CITY OF BOSTON OBSERVANCE OF COLUMBUS DAY, 1914.

Friday, October 9.—Exercises in schools, as arranged by school authorities.

Sunday, October 11.—Recognition of the anniversary in regular religious services.

Pan-American Meeting, 3 p. m.—To carry on the idea inaugurated on Columbus Day last year of bringing about closer relationship and better understanding between all the countries of the continent. Proposed principal speaker, the Argentine Ambassador. Proposed to invite officers and crew of the Argentine battleship now at Navy Yard. Perhaps detail of United States sailors, with band. Mayor James M. Curley to preside.

Monday, October 12. (Columbus Day.)—Sunrise salute from United States Navy Yard.

Flag Raising.—Boston Common, 9 a. m. National and City flags.

Athletic Games.—Boston Common, 10 a. m.

Concert.—Boston Common, 3 p. m., by band of forty pieces.

Mass Meeting Commemorating the 422d Anniversary of the Landing of Columbus.

—Symphony Hall, 8 p. m. Invitations to President, Governor, other prominent officials, representatives of religious and other important bodies. Mayor James M. Curley to preside.

Fireworks and Band Concerts, 7.30 p. m.—Boston Common, Franklin Field, Marine Park.

Decorations.—Proposed to continue street decorations according to scheme inaugurated last year, but this year, because there will be no parade, these features will be at Copley square and on Huntington avenue.

Public buildings decorated modestly: City Hall, Faneuil Hall, Public Library, Old State House, Parkman Bandstand and vicinity, Symphony Hall.

The Italian Columbus Day Committee will decorate the George Washington statue in the Public Garden and the two Christopher Columbus statues at Louisburg square and Cathedral of the Holy Cross, at 10 a. m., Monday, as has been their custom for a number of years. This is outside the official program for the day.

COLUMBUS DAY COMMITTEE, 1914.

John B. Graham, *Chairman*.
E. B. Mero, *Secretary*.
John S. Barrows.
William A. Boudrot.
Edward J. Bromberg.
Frank Chouteau Brown.
Charles L. Burrill.
George W. Carruth.
William H. Cuddy.
George B. Gallup.
Henry E. Hagan.
Patrick A. Kearns.

John J. Keenan.
William Kobs.
Frank Leveroni.
Daniel A. MacKay.
James P. Munroe.
Alexander I. Peckham.
James J. Phelan.
Henry Schaeffer.
Joseph Seminara.
Henry J. D. Small.
Louis Watson.
Jesse S. Wiley.
Addison L. Winship.

SUBCOMMITTEES FOR COLUMBUS DAY, 1914.

Patriotic Exercises Committee. (Flag Raising.) (National Salute.)—Addison L. Winship, *Chairman*; Daniel A. MacKay, John S. Barrows, Frank Leveroni, Edward J. Bromberg, Charles L. Burrill.

Educational and Children's Committee. (School Exercises—Sunday Recognition.)—Alexander I. Peckham, *Chairman*; Charles L. Burrill, Patrick A. Kearns.

Decorations Committee. (Street Decorations.) (Public Buildings.)—Jesse S. Wiley, *Chairman*; Frank Chouteau Brown, John J. Keenan, Henry Schaeffer.

Evening Committee. (Fireworks.) (Band Concerts.)—Henry Schaeffer, *Chairman*; James H. Phelan, Henry J. D. Small, Alexander I. Peckham.

Pan-American Committee. (Sunday Afternoon Meeting.)—James P. Munroe, *Chairman*; Daniel A. MacKay, *Secretary*; Henry Abrahams, John J. Keenan, Thomas F. Anderson, Henry E. Hagan, George B. Gallup.

American Red Cross Tag Day Committee. (Common, Monday Afternoon.)—James H. Phelan, *Chairman*; Alexander I. Peckham, *Secretary*; John J. Keenan, *Treasurer*; Joseph Seminara, Patrick A. Kearns, William A. Boudrot, George W. Carruth, Edward J. Bromberg.

Mass Meeting Committee. (Symphony Hall, Monday Evening.)—Charles L. Burrill, *Chairman*; Joseph Seminara, Henry J. D. Small, Louis Watson, William Kobs, George B. Gallup, Daniel A. MacKay.

Athletic Committee. (Common Meet, Monday Forenoon.)—Daniel A. MacKay, *Chairman*; James H. Phelan, William H. Cuddy.

MUNICIPAL BONDS LOOKING UP.

Increased business is taking place daily in tax-exempt municipal bonds. Usually the recovery from a shock to investment confidence is first noted in a gradually increasing demand for the highest grade bonds. So it is that tax-exempts are moving a little more freely. Many of the bond houses which recently took their salesmen off the road have sent them out again, not primarily with the expectation of doing a normal business, but to size up the situation and to get the views of the bond-buying public.

Several New England cities are considering the issuance of long-time bonds. One important Massachusetts municipality is planning a large issue of 4½s this month, which when it comes will be the first real test of the municipal bond market since the war. In bond circles generally it is the belief that if the bonds are fairly short, say a ten-year average, they could be sold quickly enough so that the purchaser could pay at least par and take a small profit. However, a short average maturity would be essential to a rapid turnover of the bonds. The longer bonds, while allowing a larger margin to the bond dealer, are apt to take more time for distribution.

The treasurer of a large Massachusetts city believes that in the long run it is the best policy to meet conditions such as at present obtain in the bond market rather than to wait and possibly be forced later into an even more unfavorable market. He says: "You cannot make conditions in the money market or any other market. You should meet them if not in your judgment prohibitive, for in a growing city, postponement, if only temporary, entails a double dose on the succeeding year and might find the bond market digestion impaired for your particular municipality. Keep the product of bonds sold each year and you will average better prices."

FIRE PREVENTION.

By COMMISSIONER JOHN GRADY of the Boston Fire Department.

To the average citizen "fire waste" means but a vaguely outlined danger and loss, which must be borne forever, and made good by the insurance companies; but to the well informed it represents an aggregation of highly technical subjects, as well as the useless loss of life, health, property, employment and natural resources. The loss of human life and the hazards incident thereto should be a sufficient reason for exercising rigid fire control. It is to be regretted that in the past the subject of fire prevention has received but little attention from the people, but it is gratifying to the well-spirited citizens who have interested themselves in this cause to know that the public is gradually being aroused from its lethargy.

When we try to realize the amount of property lost by fire in this country we are almost staggered. The fact that the fire loss in the United States and Canada for the past thirty years amounts to over five billion dollars stands before us in mute testimony of the carelessness and neglect of the past generations. No one generation is responsible—on no one generation can be placed the blame. The fire loss in the United States and Canada for 1913 amounted to \$224,723,350, and the fire loss for the past six years averages over two hundred and twenty-five million dollars per year. These figures do not include the cost of our fire departments, nor the loss resulting from the suspension of business. All these facts are brought home to us more forcibly when we know that our own City of Boston has contributed more than her share to this terrible tribute. The loss by fire in Boston in 1913 amounted to \$3,138,373, which does not include the marine loss of \$1,116,475. The loss per capita in the City of Boston is the highest in the world. The following table, gathered up to 1907, is based on the latest available data:

	Average per Capita Fire Loss (Annual).
Berlin.....	\$0 25
Paris.....	47
London.....	50
Cleveland.....	1 19
Philadelphia.....	1 65
New York.....	2 60
Boston.....	5 15

Surely it should be no proud boast of ours that Boston plays such an important part in bringing the average annual per capita loss from fire in the United States to \$3. One glance at the figures given above is convincing evidence that something is wrong right here at home.

Where then lies the remedy? Where can we find the antidote? The only remedy that can be obtained lies in the constant enforcement of fire prevention regulations, and increased efficiency of our fire department. Property owners and the public in general must be brought to a realization of the fact that insurance companies do not pay the losses. If insurance companies suspended business to-day the citizens would demand legislation, the enforcement of which would afford them proper protection against fire. Under the present condition the individual is not obliged to stand his own loss but the community bears it with him—the insurance companies, acting as the agents, collect and distribute the assessments among the beneficiaries. Nor are the assessments we pay confined to the immediate community in which we live. In fact, some of the losses of the San Francisco fire in 1906 are not paid yet. As soon as these facts are brought home to property holders and the people in general, just so soon will some headway be made in the right direction.

Cooperation with the Fire Department is the best insurance against fire that can be purchased. No one is better fitted, by training and experience, than the Fire Department officials, to tell you what steps you should take to protect your property against fire. These men know how fires start, they know how they spread, and any recommendations they might make should be of vital interest to you.

A systematic inspection of buildings throughout the city is now being conducted by the Fire Department. The benefits derived from these inspections are twofold. The firemen have become better acquainted with the buildings in their districts, and property holders have received the benefit of the experience of trained firefighters.

It might not be amiss to mention here a few defects that are liable to cause fire, or to facilitate the spread of fire. Property holders should make regular inspections of their property in order that any dangerous conditions might be corrected. I give below a few things to which they should pay special attention.

1. Accumulations of combustible rubbish, such as papers, cardboard, packing material, boxes, barrels, broken furniture, etc. These accumulations are usually found in cellars, basements, hallways, elevator shafts and attics.

2. The placing of ashes and rubbish in wooden barrels or boxes. Metal barrels with metal covers should be used.

3. The careless handling or storage of combustible materials, such as paints, oils, etc. Oily waste and rags should be kept in self-closing metal cans and removed from the premises as often as possible.

4. The protection of woodwork where it is in close proximity to heaters and heater pipes.

5. Defective chimneys. Holes should not be allowed in chimneys, and unused funnel holes should be kept closed with metal caps. Chimney flues and vent pipes should be kept clean.

6. Carelessness in the use of matches. They should always be kept in metal holders, and should not be lighted in closets.

7. The thawing of frozen water pipes. Hot water should be used in thawing pipes. Never use anything aflame.

8. The use of gasoline for cleansing purposes. Gasoline should never be used in a closed room, for the fumes it gives off, when confined, will ignite from a lighted match, lamp or gas.

9. Care in the lighting of swinging gas jets or lamps near curtains.

10. The use of kerosene in starting fires.

Too much care and attention cannot be given to the above matters, and a strict observance of the above rules will assist in reducing the fire loss.

Our legislators, recognizing and appreciating the value of fire prevention, have enacted legislation this year which places all jurisdiction over fire matters in one central authority, the Fire Prevention Commissioner, with power to delegate his authority to heads of fire departments. A step has been made in the right direction. If the commissioner is given enough money and enough men to enforce the law that has been passed, it will not be long before the fire loss in this city is cut in halves.

All fires are the same size at the start. Almost every fireman in the city has attended at least one large fire which he knows, with the proper precaution, could have been prevented. Hearty cooperation and a realization of the necessity of a rigid control of fire matters will abound in good results, for,

A little fire is quickly trodden out,
Which, being suffered,
Rivers cannot quench.

AMBASSADOR NAON INVITED AS CITY'S GUEST.

Mayor Curley has extended a cordial invitation to the Hon. Don. Romulo S. Naon, Ambassador of Argentina, to be the guest of the City of Boston, upon Columbus Day and participate in the observance of the holiday.

The Mayor and Ambassador Naon are old friends, having been especially intimate in Washington during the terms of the 62d and 63d Congress, when Mayor Curley was a prominent member of the Committee on Foreign Affairs.

Mayor Curley has written as follows:

CITY OF BOSTON,
MAYOR'S OFFICE, September 29, 1914.
HON. DON ROMULO S. NAON,
Ambassador of Argentina,
Argentine Embassy,
Washington, D. C.:

MY DEAR DOCTOR NAON,—In behalf of a large and representative committee of Boston citizens, I am very pleased to invite you to be the guest of the City of Boston, upon Columbus Day, and also to deliver an address upon Pan-American industrial and commercial development and the duty of the North and South American countries in the present hour, at historic Faneuil Hall, upon Sunday, October 11, 1914.

The City of Boston will extend you a hearty welcome, and I sincerely trust that we may be honored by your presence and enjoy your message upon Pan-American affairs and a fraternal greeting from the Republic of Argentina.

With many renewed assurances of my esteem,

Faithfully yours,
JAMES M. CURLEY, Mayor.

Ambassador Naon is one of the most distinguished diplomats now living. He was born at Buenos Ayres, February 17, 1875, the son of Julio C. and Felisa P.

(De Naon). He was made Doctor of Jurisprudence at the University of Buenos Ayres in 1896, and awarded the gold medal and diploma associated with this honor.

Doctor Naon was made a captain of the national guard, a secretary of the Province of Buenos Aires, a representative in the Argentine National Congress, 1902-10, and was subsequently appointed minister of justice and public instruction.

Later Ambassador Naon was made professor of philosophy at the Colegio Nacional de Buenos Aires and professor of constitutional law and member of the directive council in the faculty of law of Buenos Aires University.

He was secretary to the Argentine delegation at the second peace conference at the Hague; director of the normal school of the Argentine Republic; special ambassador to the centennial of the independence of Venezuela, and subsequently negotiated the treaties of independence between the countries of Venezuela and Ecuador. Later he was the founder of the popular libraries of the Republic of Argentina.

Ambassador Naon is the author of the law establishing the administration of justice in Buenos Aires; author of the regulations governing the present organization of the educational system of the Argentine Republic, in all high, commercial, industrial and art schools; honorary president of several educational and scientific congresses; founded forty-nine night industrial schools, and for higher education.

He bears the following decorations: Great Cross of Isabel the Catholic of Spain; Grand Officer of the Italian Crown; Commendator of the Legion of Honor of France; Cross of the Liberator Bolivar of Venezuela; Medal of the Queen of Holland.

Ambassador Naon was made a Doctor of Laws by Yale and Harvard Universities in June, 1914. He married Isabel R. M. De Naon, of Buenos Aires, July 1, 1899, and is the father of seven children.

It is generally expected Ambassador Naon will be elected as the next president of Argentina, succeeding President Pena, deceased.

NOTICE OF LAYING OUT AND CONSTRUCTION WORK.

Especial attention is called to the advertisement of the Public Works Department in the current issue of the *City Record* relative to the laying out and construction of highways in City Proper, Roxbury, Dorchester, West Roxbury and East Boston, and that all work in said highways relative to sewer, gas, water or other pipes must be accomplished before Saturday, October 31, 1914, as after that time no permits for openings will be granted until two years after the said highways are completed.

Especial attention is called to the advertisement of the Public Works Department in the current issue of the *City Record* relative to the laying out and construction of highways in East Boston, Brighton and Dorchester, and that all work in said highways relative to sewer, gas, water or other pipes must be accomplished before Saturday, November 7, 1914, as after that time no permits for openings will be granted until two years after the said highways are completed.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

BOSTON TRANSIT COMMISSION.

Advertises for proposals for plastering about 8,000 square yards of walls and ceilings in the Washington Station of the Dorchester Tunnel. Blank forms for proposals may be obtained at the office of the Boston Transit Commission, 15 Beacon street, Boston. Bids to be filed at the same office.

Bids close Tuesday, October 6, at 12 m.

Advertises for proposals for furnishing and setting about 1,500 square yards of ribbed terra cotta tile on walls, about 600 square yards of terra cotta blocks for partitions, and putting on plaster for straightening walls in the Washington Station of the Dorchester Tunnel. Blank forms for proposals may be obtained at the office of the Commissioners, 15 Beacon street, Boston. Bids to be filed at the same office.

Bids close Thursday, October 8, at 12 m.

HOSPITAL DEPARTMENT.

The Trustees of the Boston City Hospital advertise for proposals for erecting and completing a plumbing system in the new Ward Pavilion at the Boston City Hospital. Surety bond will be required in the amount of \$4,000. Blank forms for proposals may be obtained at the office of architect, Edward P. Dana, 29 Central street, Boston. Bids, accompanied by a certified check in the amount of \$1,000, to be filed with the Superintendent, Boston City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, October 5, at 12 m.

The Trustees of the Boston City Hospital advertise for proposals for erecting and completing heating and ventilating system in new Ward Pavilion, Harrison avenue and Northampton street, Boston. Surety bond will be required in an amount equivalent to 25 per cent of the contract price. Blank forms for proposals may be obtained at the office of architect, Edward P. Dana, 29 Central street, Boston. Bids, accompanied by a certified check in the amount of \$500, to be filed with the Superintendent, Boston City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, October 5, at 12 m.

The Trustees of the Boston City Hospital advertise for proposals for erecting and completing new Ward Pavilion and Tunnel, Harrison avenue and Northampton street, Boston. Surety bond will be required in the amount of \$50,000. Blank forms for proposals may be obtained at the office of architect, Edward P. Dana, 29 Central street, Boston. Bids, accompanied by a certified check in the amount of \$2,000, to be filed with the Superintendent, Boston City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, October 5, at 12 m.

The Trustees of the Boston City Hospital advertise for proposals for installing and completing a wiring system in new Ward Pavilion, Harrison avenue and Northampton street. Surety bond will be required in the amount of \$2,000.

Blank forms for proposals may be obtained at the office of architect, Edward P. Dana, 29 Central street, Boston. Bids, accompanied by a certified check in the amount of \$500, to be filed with the Superintendent, Boston City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, October 5, at 12 m.

The Trustees of the Boston City Hospital advertise for proposals for painting in South Department buildings. Blank forms for proposals may be obtained at the office of architect, Joseph McGinniss, 16 Arlington street, Boston. Bids, accompanied by a certified check in the amount of \$200, to be filed at the office of the Trustees, Boston City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, October 13, at 12 m.

Advertises for proposals for erecting and completing a refrigerating plant and for furnishing equipment of ice boxes and installing same in South Department buildings. Blank forms for proposals may be obtained at the office of architect, Joseph McGinniss, 16 Arlington street, Boston. Bids, accompanied by a certified check in the amount of \$200, to be filed at the office of the Trustees, Boston City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, October 13, at 12 m.

PARK AND RECREATION DEPARTMENT.

Advertises for proposals for furnishing and erecting a steel guard fence around the elephant yard in Franklin Park. Blank forms for proposals may be obtained at the office of the Park and Recreation Commissioners, 33 Beacon street. Bids, accompanied by a certified check in the amount of \$200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, October 9, at 12 m.

PUBLIC WORKS DEPARTMENT (Bridge Service).

Advertises for proposals for rebuilding the draw fender pier and fender guard and building a wharf at Broadway Bridge, over Fort Point channel. Surety bond will be required in the amount of \$4,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Thursday, October 8, at 12 m.

Advertises for proposals for cleaning and painting the fixed spans of Northern Avenue Bridge, over Fort Point channel. Surety bond will be required in the amount of \$1,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, October 14, at 12 m.

PUBLIC WORKS DEPARTMENT (Paving Service).

Advertises for proposals for building sea wall across water passageway on the northerly line of East First street, South Boston. Also for furnishing about 8,500 cubic yards of filling back of said wall. Surety bond will be required in the amount of \$5,000. Blank forms for proposals

may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$1,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, October 7, at 12 m.

Advertises for proposals for furnishing and laying asphalt or bitulithic pavement in Browning avenue, from Bernard to Wales street, Dorchester. Surety bond will be required in the amount of \$2,500. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, October 7, at 12 m.

Advertises for proposals for furnishing and laying asphalt or bitulithic pavement in Long avenue, from Commonwealth avenue to Allston street, Brighton. Surety bond will be required in the amount of \$2,500. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, October 7, at 12 m.

Advertises for proposals for bituminous macadam roadway in Houston street, from Montview to Crest streets, West Roxbury. Surety bond will be required in the amount of \$600. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, October 13, at 12 m.

Advertises for proposals for furnishing and laying Hassam block pavement in Langdon street, between Norfolk avenue and George street, Roxbury. Surety bond will be required in the amount of \$2,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$1,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, October 13, at 12 m.

Advertises for proposals for bituminous macadam roadway in Edgemont street, from South to Ainsworth streets, West Roxbury. Surety bond will be required in the amount of \$800. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, October 13, at 12 m.

PUBLIC WORKS DEPARTMENT (Sanitary Service).

Advertises for proposals for building a refuse receiving station on Ward street, between Halleck street and New York, New Haven & Hartford Railroad. Surety bond will be required in the amount of \$10,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$1,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, October 14, at 12 m.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Advertises for proposals for pipe sewers and drains in East First street extension, from H street to West First street, South Boston. Surety bond will be required in the amount of \$1,800. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Thursday, October 8, at 12 m.

Advertises for proposals for pipe sewers and drains in Dempster street, between Ruggles and Halleck streets, Roxbury. Surety bond will be required in the amount of \$3,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$600, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, October 9, at 12 m.

Advertises for proposals for pipe sewers and drains in Castlegate road, from Normandy street to Blue Hill avenue, and outlet in Normandy street, from Washington street to Castlegate road, Dorchester. Surety bond will be required in the amount of \$500. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, October 9, at 12 m.

Advertises for proposals for pipe sewers and drains in Boardman and Ashley streets, between East Boston low level sewer and existing sewer, near Whitby street, East Boston. Surety bond will be required in the amount of \$1,200. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Saturday, October 10, at 12 m.

Advertises for proposals for pipe sewers and drains in Albano street, between Amherst and Washington streets and outlet in private land, to Roslindale Brook Conduit, West Roxbury. Surety bond will be required in the amount of \$800. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Saturday, October 10, at 12 m.

Advertises for proposals for pipe sewers and drains in Willow street, between Centre street and Schirmer road, and Rhoda street, from Central street 180 feet westerly, West Roxbury. Surety bond will be required in the amount of \$1,200. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Saturday, October 10, at 12 m.

PUBLIC WORKS DEPARTMENT (Water Service).

Advertises for proposals for the purchase of the following old material at the Water Service Yard, 710 Albany street, city proper:

About 40 tons of iron water pipe.

About 1,500 pounds of wrought iron.

About 2,000 pounds of light brass and composition.

About 500 pounds of composition chips.

The purchaser must remove the same within a reasonable time. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in an amount equivalent to the total bid, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Thursday, October 8, at 12 m.

Advertises for proposals for laying about 3,370 linear feet of 8, 10 and 12 inch water pipe in Benner and Lovell streets, East Boston; Green street, Charlestown; Arlington, Bennett and Hobart streets, Brighton; Cleveland, Davison and Oak streets, Hyde Park. Surety bond will be required in the amount of \$500. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, October 9, at 12 m.

SCHOOLHOUSE DEPARTMENT.

Advertises for proposals for selling to the city land for an elementary school in the Oliver Wendell Holmes District, Dorchester. The property to be in the territory bounded and described as follows: Beginning at the junction of Blue Hill avenue and Talbot avenue, thence by the center of Blue Hill avenue to Glenway street, thence by the center of Glenway street to York street, thence by the center of York street and straight line continued to the New York, New Haven & Hartford Railroad, thence by center of railroad to Harvard street, thence by center of Harvard street to place of beginning. Proposals to be filed at the office of the Schoolhouse Commissioners, 1009 City Hall Annex. A public hearing will be given by the commissioners upon Tuesday, October 13, 1914, at 12 m., to consider the suitability of the land offers.

Bids close Tuesday, October 6, at 12 m.

Advertises for proposals for erecting and completing fire escapes on property Nos. 39, 40, 41 and 42 Blossom street, Boston. Surety bond will be required in the amount of \$1,000. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 1009 City Hall Annex. Bids, accompanied by a certified check in the amount of \$300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, October 9, at 12 m.

Contractors are notified that the time for opening sealed proposals for erecting and completing (all trades) upper elementary school, Wells District, Blossom street, Boston, has been extended to Friday, October 23, at 12 m.

SUPPLY DEPARTMENT.

Advertises for proposals for furnishing 450 winter uniforms and 450 winter hats to the Street Cleaning and Oiling Service of the Public Works Department. Surety bond will be required in an amount equivalent to one-quarter of the contract

price. Samples of the uniforms and hats required may be seen at the office of the Superintendent of Supplies, 808 City Hall Annex. Bids, accompanied by a certified check in the amount of \$200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, October 9, at 12 m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending Thursday, October 1, 1914:

AUDITING DEPARTMENT.

Julien C. Haynes has been designated to act as Auditor at such times as City Auditor J. Alfred Mitchell may be absent during the four weeks beginning Monday, October 12, 1914.

ELECTION DEPARTMENT.

Thomas J. McMaekin and Frederick Eaton, assistant commissioners, and Joseph A. Calkins, Jr., George W. Stevens, George H. Norton, Charles H. Snow and Paul D. Kane have been retired from the service.

Matthew F. Foley has been appointed as assistant and employee of the department, at a salary of \$2,000 the year, and the following named men as assistant registrars and employees of the department, at a salary of \$1,400.

Jacob B. Basch, John J. Capelle, Frank J. Enos, William T. Jones, Reginald H. Mair, Michael F. McLaughlin, Michael J. O'Day, John H. Quinlan, William H. Tighe, Allan H. Farnham, Alexander L. Brown, John W. Dolan, William M. Humphreys, William E. Mahoney, Thomas F. Mansfield, John F. Monahan, Henry L. Pelkus, Frank A. Sughrue, Edmund Weber, Albert F. Wigley.

The appointees have expressly agreed to work such extra time as the Election Commissioners require of them without extra compensation. There were three assistants in the department. Two of these positions have been abolished, leaving the only assistant Matthew F. Foley.

The pay roll of the Election Department for the last fiscal year was \$42,940.45. Under the new salary schedule, with the same number of employees as last year, the amount which will be paid for salaries of the office force will be \$39,800, thus making a saving in the expenses of this department of approximately \$3,000.

Herbert W. Burr has been appointed assistant registrar and employee of the Election Department for the term ending September 30, 1915, at a salary of \$1,400 per annum, with the express agreement that he shall work such extra time as the Election Commissioners may require without extra compensation.

John E. Baldwin has been appointed assistant registrar and employee of the Election Department for the term ending September 30, 1915, at a salary of \$1,400 per annum, with the express agreement that he shall work such extra time as the Election Commissioners may require without extra compensation.

FINANCE COMMISSION.

Dorothy Whitley has retired from service as clerk in the department.

PENAL INSTITUTIONS DEPARTMENT.

Henry P. Smith has been appointed to the position of officer at the House of Correction, at a salary of \$480 the year, to date from September 28, 1914, to fill a vacancy caused by the resignation of Charles F. Haskins.

POLICE DEPARTMENT.

Frank Fitzpatrick, a patrolman in the department, has been retired upon half pay, having reached the age of 65 years, and his name will be placed upon the pension roll in the amount of \$700 the year.

Michael O'Neil, a lieutenant in the department, has been retired upon half pay, having reached the age of 65 years, and his name will be placed upon the pension roll in the amount of \$1,000 the year.

PUBLIC BUILDINGS DEPARTMENT.

Frank E. Hayes has been appointed as a night watchman at the West Roxbury Court at a salary of \$2.50 the day.

John M. Walsh has been appointed as janitor at the Roxbury Courthouse, at a salary of \$2.50 the day.

SCHOOLHOUSE DEPARTMENT.

E. J. Phaneuf has been promoted to the position of Chief Clerk of Works in the department, at a salary of \$1,800 the year, to take effect October 1, 1914.

David H. Noonan, chief clerk in the department, has been suspended for a term of thirty days.

The communication of Chairman Lomasney in the premises is as follows:

October 1, 1914.

HON. JAMES M. CURLEY, Mayor:

DEAR SIR,—Under the provisions of chapter 314 of the Acts of 1904 and chapter 243 of the Acts of 1905, the Board of Schoolhouse Commissioners have this day notified Mr. David H. Noonan, 15 Hancock street, city proper, chief clerk in this department, of his suspension for thirty days, to take effect at the close of business Thursday, October 1, 1914, also of the Board's intention to discharge him from the service of the commission at the expiration of the term of said suspension, on account of the financial condition of the city and to promote economy and efficiency in the department.

The Board has also notified said employee that, under the laws above quoted, a hearing will be given by the Schoolhouse Commission at the office of said Commission, Room 1006, City Hall Annex, Court square, Boston, on Thursday, October 8, 1914, at 11.30 a. m., if so requested in writing on or before 10 a. m. on that date.

Respectfully yours,

J. P. LOMASNEY,
Chairman.

The Commissioners have voted to promote to the position of chief clerk in the department, at a salary of \$2,250 the year, Jeremiah G. Herlihy, now employed as bookkeeper in the department, said promotion to take effect on Thursday, October 1, 1914.

OVERTIME ALLOWED.

The heads of various departments whose employees have received payment for overtime state in connection therewith that if any laborer has been allowed to work more than eight hours per day it has been only in case of emergency under the law.

Election Department.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts; also a contract for sidewalks.

PUBLIC WORKS DEPARTMENT.

The Commissioner of Public Works announces his intention to construct in Blue Hill avenue a surface drain of 10 and 12 inch earthen pipe, and one catch-basin, east side, between Arbutus and Stratton streets; a surface drain of 12 and 15 inch earthen pipe and ten catch-basins, east side, between Balsam and Morton streets; a surface drain of 24-inch earthen pipe and one catch-basin, west side, between Morton street and Deering road, Dorchester, and at an estimated cost of \$7,938.

The Commissioner of Public Works announces his intention to construct a sanitary sewer of concrete, 2 feet 4 inches by 5 feet 6 inches, in Springdale street, from the New York, New Haven & Hartford Railroad, Old Colony system, about 250 feet easterly, Dorchester, and at an estimated cost of \$2,500.

The Commissioner of Public Works states his intention to construct a sanitary sewer of 10-inch earthen pipe and a surface drain of 15-inch earthen pipe, in Commonwealth avenue, north side, at a point 600 feet west of Essex street and a point 200 feet east of St. Paul street, Brighton, at an estimated cost of \$1,429.

The Commissioner of Public Works states his intention to construct a sanitary sewer of concrete, 2 feet 4 inches by 5 feet 6 inches, in Springdale street, from the New York, New Haven & Hartford Railroad Company, Old Colony System, about 250 feet easterly, Dorchester, at an estimated cost of \$2,500.

The Commissioner of Public Works states his intention to construct a sanitary sewer of 10-inch earthen pipe in Cummings road, between Egremont road and Commonwealth avenue, Brighton, at an estimated cost of \$2,036.

The Commissioner of Public Works states his intention to construct a sanitary sewer of 8-inch earthen pipe in Lockwood street, between Metropolitan and Huntington avenues, Hyde Park district, at an estimated cost of \$1,752.

The Commissioner of Public Works states his intention to construct a sanitary sewer of 8-inch earthen pipe in Huntington avenue, between Jefferson and Safford streets, Hyde Park district, at an estimated cost of \$3,267.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

PUBLIC WORKS DEPARTMENT.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force, without advertising for competitive bids:

Resurface with tar macadam Morton street, from Blue Hill avenue to Canterbury street, Dorchester. The estimated cost for labor and materials is \$7,000.

Build, with the department force, a sanitary sewer of concrete, 2 feet 4 inches by 5 feet 6 inches, in Springdale street, from the New York, New Haven & Hartford Railroad, Old Colony System, about 250 feet easterly, Dorchester district. The estimated cost for labor and materials is \$2,500.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by his Honor the Mayor:

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$20, on contract with Daniel E. Lynch for tar macadam roadway in Marlowe street, between Vinson and Park streets, Dorchester, on account of furnishing and placing waterbound macadam where directed on approach to Marlowe street. Original contract, \$1,657.95; total addition, \$20; contract as standing, \$1,677.95.

James Doherty, the contractor for constructing St. Francis de Sales street, from Cabot street to Roxbury street, Roxbury, has been ordered to omit pitch and pebble joints for granite block pavement and substitute grout joints, the price to be the same as that bid for pitch joints.

An addition, amounting to \$120, on contract with W. H. Ellis & Son Company for furnishing labor, tools and materials necessary to complete repairs at Charles River avenue, on account of reinforcing old bents on each side of the work. Original contract, \$750; total addition, \$120; contract as standing, \$870.

PUBLIC WORKS DEPARTMENT (Sewer Service).

An addition, amounting to \$1,200, on contract with William J. Barry for building pumping station and sewers in connection therewith at Union Park and Albany streets, city proper, on account of rebuilding side of building and portion of front and rear of building at No. 115 Union Park street. Original contract, \$50,520; total addition, \$1,200; contract as standing, \$51,720.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$368, on contract with J. J. Brock & Co. for work at the buildings, 39, 40, 41 and 42 Blossom street, West End. For cleaning down entire walls on property, back and front walls, one story high; also clean granite underpinning and stone steps, and point up granite underpinning and stone steps, and also repair brownstone caps over doors, \$150; furnish stock, labor and painting to match present work for fifteen panel backs in windows where heating pipes were exposed to view from street, for the sum of \$3 per window, \$45; piecing out with 40 feet of present wire fence and building about 45 feet of new wire fence to match present fence, and level, fill and regrade about 2,000 feet of yard to form a temporary yard for boys, \$100; for connecting conductors and having the same enter the soil system of houses and reconnecting the same with gutters, \$75; for cleaning the entire wall of building No. 42 from the first floor window sills to the roof, setting all broken glass in dormer windows, and nailing up tightly all dormer windows, \$55; for repair of present brick dentils where loose and setting same, \$25; for providing and setting heavy No. 6 wire grille with channel iron frame upon twelve basement windows, \$55; for building shelves in classroom, \$12; for providing and setting sixteen lights, \$7. Less deduction for eight slate blackboards, \$156. Original contract, \$8,998.75; total additions, \$368; total deductions, —; contract as standing, \$9,366.75.

An addition, amounting to \$60, on contract with Messrs. McGahey & O'Con-

nor for work at the High School of Commerce. For furnishing corner stone, copper box for same, and the set for corner stone, and providing platform. Original contract, \$469,995; total additions, \$420; total deductions, \$2,750; contract as standing, \$467,665.

An addition, amounting to \$292, on contract with Patriek Rich for work at the George Frisbie Hoar School. For making all changes necessary in the substitution of cork in place of burlap for tack boards. Burlap wainscoting will be placed in open spaces. New rabbeted moldings will be furnished wherever cork occurs. Original contract, \$66,944; total additions, \$3,062.10; total deductions, \$2,033; contract as standing, \$67,973.10.

An addition, amounting to \$400, on contract with Joseph Slotnik for work at the Quincy E. Dickerman School. For furnishing master builders' hardener for the granolithic finish upon the basement floors, and the same to be covered with sawdust, to be kept moist two weeks. Original contract, \$85,100; total additions, \$2,674.93; total deductions, \$10; contract as standing, \$87,774.93.

CONTRACT FOR SIDEWALKS.

Upon September 29 the Acting Mayor approved a contract with the Urban Concrete Company for artificial stone sidewalks. The contractor is not selected by the city but by the abutters, and the expense of construction is divided by the city and the abutters.

HEALTH DEPARTMENT.

The following is a summary of the work done by the different divisions of the department for the week ending September 26, 1914:

MORTALITY REPORT FOR THE WEEK AND SAME PERIOD IN 1913.

	1914.	1913.
Total deaths.....	223	194
Nonresidents.....	24	29
Rate.....	15.14	13.76
Corrected rate.....	13.82	11.70

Complaints investigated.....	150

FINANCE COMMISSION.

September 30, 1914.

HON. JAMES M. CURLEY, Mayor:

SIR,—Your letter of September 24, 1914, received, inclosing a copy of the proposed new contract between the city and the Edison Electric Illuminating Company, and requesting the opinion of the Finance Commission as to the advisability of accepting it.

The commission has examined it and finds that it is substantially in accordance with the first recommendation made in its former report on the same subject under date of May 25, 1914.

The commission recommends therefore that the new contract be accepted.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN R. MURPHY,
Chairman.

Edward J. Brougham, Bridge and Ferry Division, 13 years' service.
Adelbert F. Arris, Cemetery Department, 17 years' service.
Retirements to date from October 2, 1914.

FIRE DEPARTMENT ORDERS.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, September 28, 1914.
General Orders No. 134.

I. CARE OF FIRE HOSE.

The following rules have been adopted for the proper care of fire hose. In the care of hose, officers and members will be guided by these rules.

1. If wet or muddy do not allow the hose to remain on the apparatus; remove all mud by brushing and expose hose to air to dry in towers or on racks, preferably at full lengths. Mud often contains metallic or other substances which are chemically injurious to hose if allowed to remain on it.

2. Continued dampness is injurious to cotton fabric hose. If allowed to remain in that state it will cause mildew and will rot.

3. Do not permit hose to remain on apparatus for a length of time greater than ten days when not in use. It should be removed, hung up in towers or stretched on racks. Avoid short bends in hose that is stored away.

4. When necessary to store hose in folds, the folds should be changed occasionally.

5. Unless hose is likely to encounter a freezing temperature it is not necessary to thoroughly drain the water out, as the rubber lining is not injured by the dampness within. On the contrary it is

benefited by remaining in a moist condition. All rubber lined hose should have water passed through it at frequent intervals to moisten the rubber.

6. When hose is frozen it is liable to crack or break, if the fabric is bent or rolled up in that condition.

7. Avoid exposure of hose to very hot, dry air. Do not store it near engine heaters or house boilers, or expose it to the sun's rays. It must be kept in a cool, dry place.

8. On returning from fires care must be taken in washing off the under part of the wagon body. Hand hose must not be used as the lower layer of hose on wagon is liable to get wet, which will cause mildew and damage to hose. Care should be taken to see that no damp hose is carried on the hose wagon.

9. When charging or discharging chemical engines or extinguishers, see that the solutions used do not come in contact with the hose.

10. Acids and other chemicals, oils, iron rust and fumes arising from some processes are injurious to hose and contact with them is to be avoided.

11. When fire hose is being used, see that the section nearest to engine or hydrant is not being chafed at point of contact with the ground by vibration.

By order of the Fire Commissioner,

PETER F. McDONOUGH,
Chief of Department.

BOSTON CITY HOSPITAL.

The fiftieth annual report of the trustees of the City Hospital indicates that in treating 116,729 patients the expenditure for all departments was \$616,301.02.

Last year 13,419 were treated in the wards, 47,385 as out-patients, 397 at the Convalescent Home, 2,751 at the South Department, 1,252 in the Haymarket Square Relief Station wards, with 38,465 as out-patients; 258 in the East Boston Relief Station wards, with 12,802 as out-patients.

The maximum number of patients in the hospital proper on any day, from February 1, 1913, to January 31, 1914, was 674, as against 651 in the preceding year; the minimum 412, similarly compared to 449. The daily average for the year was 593. The average duration of stay, 14.7 days.

In the year 16,198 sought admission at the hospital proper. Of these 3,364 were rejected, 482 more than in the preceding year, and 206 for want of vacant beds. Admission was denied to 617 for lack of information that they were suitable cases.

Expenditures were thus divided: Hospital proper, \$408,503.47; the ten out-patient departments, \$24,733.76; South Department, \$117,845.20; Haymarket Square Relief Station, \$38,220.27; East Boston Relief Station, \$17,154.72; Convalescent Home, \$9,834.60.

"The sum was spent for 41,448 weeks' board of patients at a cost per capita of \$12.67," says the report, "but if we deduct the money collected for paying patients, interest on trust funds and other income, the net cost to the city per capita per week was \$9.95. The cost of subsistence supplies was \$150,819.66. During the year \$113,722.17 was collected for the care and treatment of patients of all classes."

The expenditure of the South Department, for infectious diseases, was \$117,854.20. This was distributed among 2,551 patients. Divided by 13,350 weeks' board, it gave \$8.85 as the cost per capita per week. The cost of subsistence supplies was \$32,508.57. In the nineteen years the department has existed 45,651 patients have been treated.

In the department for vaccine serum therapy 3,250 visits were made during the year. There were 3,047 inoculations. In the out-patient branch 47,383 patients were treated and there were 140,385 visits made during the year.

At the Haymarket Square Relief Station 39,717 patients were treated in the year, making a total of 415,095 in the last twelve years.

APPOINTMENTS AND CONFIRMATIONS.

APPOINTMENT.

October 1, William J. Hennessey, to be a Commissioner of the Schoolhouse Department, vice Charles Bruen Perkins, resigned.

PROMOTION OF JANITORS.

The Boston School Committee have adopted the following method for the promotion of janitors, the men to be marked for efficiency of service, twice each year, by the principal and the school-house custodian:

Care of building above basement, 25 points; care of basement, 5 points; care of lavatories, 5 points; care of grounds, 5 points; care and operation of heating and ventilating apparatus, 30 points; estimate of character, 10 points; length of service, 20 points.

STREET COMMISSIONERS.

The Mayor has formally approved the orders of the Board of Street Commissioners relative to the laying out and construction of streets in Brighton, Dorchester and West Roxbury.

The orders approved are as follows:

The Board determines that no person suffers damages in his estate by the making of the public improvement consisting of the laying out and construction of Lothrop (formerly School) street, Brighton, as a highway, from Market street to Portsmouth street, and awards no damages therefor.

The Board estimates that the undermentioned estates are all the estates which will receive benefit or advantage from the improvement above specified, beyond the general advantage to all real estate in said city, each to the amount hereinafter respectively set against it:

	Amount.
Thomas J. Kelly.....	\$120 00
John G. Koch.....	116 00
Mark S. Kirten.....	253 24
Margaret F. Finigan.....	196 00

POLICE DEPARTMENT.

General Order No. 888.

Reservemen Thomas W. McNamara of Division 6 and Frederick A. Whitten of Division 7 are hereby appointed patrolmen, and until otherwise ordered they will remain at the divisions to which they are now attached.

General Order No. 889.

Reservemen John Kenny of Division 10, Thomas S. McGarry of Division 9 and Michael J. Hayes of Division 16 are hereby appointed patrolmen, and until otherwise ordered they will remain at the divisions to which they are now attached.

General Order No. 890.

A trial board consisting of Captains Peabody, Hall and Bowley, having heard by reference a complaint against Patrolman Edward G. McAllister of Division 15 charging him with unbecoming conduct, has reported its finding to the commissioner. The Board returns a finding of not guilty, in accordance with which it is hereby ordered that the complaint against the said Patrolman McAllister be dismissed and that he be restored to duty.

General Order No. 891.

For the information of the department the commissioner announces that he has not now and has not had since his reappointment a thought of resigning; also, that there is no reason connected with his health, happiness or sense of duty which could suggest to him such resignation. This announcement, though not of the character usually contained in General Orders, is made in this form because of the fact that rumors of change in the administration of any public department tend to unsettle the minds of its members and divert their attention from their duties. The commissioner expects to serve out the term for which he was appointed. He expects also that all members of the force will continue to do their full duty undisturbed by rumors which the commissioner knows to be the product not of malice but of irresponsible gossip.

General Order No. 892.

Reservemen John J. McNulty and Michael J. Murphy of Division 17 are hereby appointed patrolmen, and until otherwise ordered they will remain at the divisions to which they are now attached.

General Order No. 893.

The following transfers are hereby ordered, to take effect Thursday, October 1, 1914, at 5.45 p. m.:

Patrolman Edward G. McAllister, from Division 15 to Division 9.

Patrolman John Carroll, from Division 6 to Division 11.

Reserveman James P. Carr, from Division 7 to Division 15.

Reserveman William V. Sullivan, from Division 9 to Division 7.

Reserveman Michael J. Conlin, from Division 12 to Division 6.

OPPORTUNITY FOR INCREASED SALES OF BOSTON GOODS.

Hon. James S. Benedict, United States Consul at St. John's, Newfoundland, has prepared a most excellent report relative to the opportunity for increased sales of Boston and other American-made goods in the northern colony, and in which he declares:

"Sales of American goods can be substantially increased by more persistent efforts and care in filling orders, packing the goods, etc. The fact should be borne in mind that Newfoundland is not a part of Canada, but an independent colony of Great Britain, with its own governor and Legislature, and with its own customs laws and regulations. Newfoundland merchants and importers are averse to having their inquiries and orders for goods referred to a representative or branch establishment in Canada, as they prefer to deal direct with the head office or works in the United States, claiming that it is more satisfactory as regards prices and freight rates, and that the goods come in better condition on account of less handling, especially when shipped from Boston, New York and Philadelphia.

"It is not very pleasant to the Newfoundland merchants and commission houses, and also to this office, especially when names of American firms have been furnished, to have letters answered as follows: 'We are sorry not to be able to entertain your proposition, as we already have connections in Canada;' or, 'Your letter for prices, etc., has been referred to our representative at Montreal, Canada.' This office has known of the diversion to European markets of several large orders for electrical goods, dry goods, etc., just on account of such replies.

"It is noticeable that those American manufacturers and merchants, especially those handling boots and shoes, rubber and cotton goods, hardware, etc., who send representatives, with full lines of samples, to Newfoundland to study trade conditions, are the ones who do the best business. This procedure enables the American exporters to learn at first hand the reliability and financial standing of Newfoundland merchants, which is of great assistance in making prices and arranging time limits for payment.

"There is a noticeable increase in trade inquiry letters to this office from American concerns, and from local merchants throughout the island, many of whom are now placing their orders direct with American firms, instead of through commission houses or agents, thus making the

cost of goods less to the consumer. This has been brought about by the establishment of branch banks, railway extension, improved shipping facilities, and increase in post and telegraph offices, from all of which the people are reaping a decided benefit.

"The chief reasons for the increased imports of American goods are that local merchants, manufacturers' agents and importers are taking advantage of the trade literature on file in this consulate, and of the information received from those connected with the office; that the more enterprising merchants are sending their buyers to the United States, which was not the case a few years ago; and that American manufacturers are studying the requirements of the Newfoundlanders. This has resulted in the importation of a finer line of goods as regards make, finish and style.

LETTER OF APPRECIATION.

Mayor Curley has addressed a letter to Mr. Charles Bruen Perkins, who has resigned as a Commissioner of the Schoolhouse Department, in appreciation of a splendid service extended the City of Boston.

The Mayor's communication is as follows:

CITY OF BOSTON,

MAYOR'S OFFICE, October 1, 1914.

Mr. Charles B. Perkins, St. George's,
Hurstpierpoint, Sussex, England:

MY DEAR MR. PERKINS,—I am in receipt of your letter of September 18, in which you tender your resignation as a member of the Schoolhouse Commission.

I regret exceedingly that you find it necessary to take this action, and want to thank you personally in behalf of the people of the city, for the splendid services rendered by you to the municipality.

Sincerely yours,

JAMES M. CURLEY, Mayor.

CLAIMS.

The Mayor has approved the claim of Mary Ballem, in the amount of \$400 for damages occasioned her estate in Saratoga street, East Boston, by the relocation of the said street, and in confirmation of the order of the Board of Street Commissioners.

The Mayor has approved the claim of Charles Rosnosky, attorney for Raphael Rosnosky, in the amount of \$65 for damages occasioned his estate in Puritan avenue, Dorchester, by the laying out of the avenue, and in confirmation of the order of the Board of Street Commissioners.

NOTICE OF EXAMINATION.

An examination for Grade B of the library service (highest grade) will be held on Saturday, October 17, from 9 to 1 and 2 to 4 o'clock, on the Special Libraries floor, Central Library.

HORACE G. WADLIN,
Librarian.

PERMISSION TO SELL OLD IRON.

Commissioner Rourke of the Department of Public Works has been granted permission to sell old iron, the property of the Water Service of the Sewer and Water Division of this department, at 710 Albany street, the value not exceeding \$500.

TAKING OF LAND FOR SCHOOLHOUSE.

The Mayor has formally approved the request of the Commissioners of the Schoolhouse Department for the taking of 53,000 square feet of land for a lower elementary school in the Oliver Wendell Holmes District.

The communication of Chairman Lomasney is as follows:

September 28, 1914.

HON. JAMES M. CURLEY, Mayor:

DEAR SIR,—The School Committee have agreed to authorize the Schoolhouse Commission to take, for a lower elementary school in the Oliver Wendell Holmes District, 53,000 square feet of land, more or less, at 40 cents per square foot.

Said committee has also agreed to accept the gift of 10,000 feet of land, adjoining above mentioned lot, and \$35,000 in cash, in consideration of which the School Committee have agreed to vote to name the school the Sarah Greenwood School.

Would state that before the tender of land above indicated was made, the Schoolhouse Commission had voted to take a parcel of land for a lower elementary school in the Oliver Wendell Holmes District, which taking the Schoolhouse Commission will rescind by vote at tomorrow's meeting. The Superintendent of Schools, representing the School Committee, and the Schoolhouse Commissioners, have viewed the site tendered, and all agree that it is in every way a proper site for a school building. The School Committee have also agreed that the \$35,000, which is tendered as a part of the gift of the Greenwood estate, will be utilized for the purpose of erecting the school.

Respectfully yours,
J. P. LOMASNEY,
Chairman.

THE HEAVY TAXPAYERS.

The 18 largest corporation taxpayers in Massachusetts will pay into the state treasury this year a total of \$3,168,658, a decrease of \$710,604, or 18 per cent compared with 1913 and the smallest amount since 1909.

The New Haven Railroad, which received the biggest boost in its tax bill two and three years ago, showed the greatest decline this year, the tax payment being reduced \$353,156, or 84 per cent, to only \$63,232. In the past two years the road's tax bill has been reduced \$512,166 while in the five years prior to 1913 the annual taxes were increased from \$32,943 to \$575,398 as result of purchasing instead of leasing other lines.

The corporations showing the largest decreases in franchise tax payments this year follow:

	Decrease.	Per cent Decrease.
New York, New Haven & Hartford.	\$353,156	84
Boston & Albany.....	84,395	67
New England Telephone and Telegraph.	143,231	20
Boston Elevated.....	74,214	14

The Boston Elevated Railway Company heads the list of largest taxpayers with a payment of \$456,537, which includes the West End Street Railway tax of \$353,331. The tax this year, however, is \$74,214 or 14 per cent less than in 1913, and \$318,177 or 41 per cent lower than three years ago.

APPROVAL OF GARAGE SITES.

The Mayor has formally approved the order of the Board of Street Commissioners, granting permission for public and private garages, to the following persons:

John Varnerin, 16 Maywood street, Ward 21.
John G. McLeod, 279 Bellevue street, Ward 23.
Lena Mayberger, 155 Stratford street, Ward 23.
Adelaide B. Sedgley, 19 Mt. Vernon street, Ward 23.
P. J. Cronin, 257 Northampton street, Ward 12.
Edwin S. Fields, 31 Harlem street, Ward 20.

BOYLSTON STREET SUBWAY.

The Public Service Commission certifies that all laws have been complied with relative to the construction of the Boylston Street Subway from a connection with the Tremont Street Subway tracks at or near a point under Charles street, to a point on the surface in Commonwealth avenue at Kenmore street, with two cross-overs, one near Exeter street and one between Berkeley and Arlington streets, the total length of tracks measured as single track being about 15,924 feet; and that the railway appears to be in a safe condition for operation.

THE COLLECTION OF TAXES.

There will be approximately 270,000 tax bills sent out by the Boston assessors this year which will be due for payment November 1. Of this number about 183,000 will be single poll bills, while over 86,000 bills will be issued for 105,000 real estate items and 25,000 personal items, the total valuation of the city being made up of more than 130,000 items of property.

In the past 10 years the number of items of property in the City of Boston has increased 22,000, or over 20 per cent, of which 15,000 of the increase is in real estate items and 7,000 personal estate. In the same period there has been an increase of 22,055 or about 14 per cent in the number of single poll taxes.

As the wards are at present divided the various items and bills are unequally distributed. The largest, Ward 23, has about 16,000 items of real and personal property, while the smallest, Ward 5, has only 1,400 items. Ward 20 has the largest number of polls, amounting to 18,370, while the smallest, Ward 4, has 2,631 polls.

Ward 13 showed a loss on personal property, which was due largely to the wool merchants reducing their liability by having little or no stock on hand April 1 last.

THE HERBACEOUS GARDEN.

By CAPT. JOHN H. DILLON, Chairman
Park and Recreation Department.

The old fashioned flowers of the day of our mothers were cast aside as being "too common" or "not æsthetic enough" for the embellishment of our parks or gardens, with the exception of a small number of private estates handed down from father to son. Therein could be found, from early spring to late fall, a profusion of flowers fulfilling the desire of the owners—a real flower garden, not necessarily planted in formally designed beds but rather in borders, where the plants were confined to massing, or mixed, according to the result desired.

A few years ago an herbaceous garden was planted in Franklin Park, which was much improved this spring, and became such an attraction to the many visitors to that section of the park, reviving pleasant memories of bygone days to the middle-aged, a delight to the young and an educational feature for all, that it will be further extended this season, and next spring our park system will have one of the finest herbaceous gardens in this country. Many of the old favorites will be found there under their old fashioned names—black-eyed Susans will nod a welcome to the swains; Jack-in-the-Pulpit will deliver an oration; our native asters will remind us of the stars; the sunflower will stare in large-eyed wonder at the passer-by; the poppy will recall China to memory; the bleeding heart will make the oldtime appeal and the forget-me-not will fulfill its glad mission. The peony, violet, petunia, marigolds, zinnias, cannas and gladiolus, with hosts of their kindred, may well be studied by observation classes conducted by the teachers of our schools.

A visit to the herbaceous garden will mean education, recreation and health, a splendid combination.

FREE PUBLIC LECTURES.

Announcement is made of free public lectures at the Museum of Fine Arts, upon Sunday, October 4, as follows:

In the Department of Classical Art, Mr. Henry L. Seaver, Assistant Professor of English, Massachusetts Institute of Technology, will speak on the Portrait Bust of Marcus Aurelius in the Balcony of the Classical Court at 3.15 p. m.

In the Department of Chinese and Japanese Art, Mr. Francis Stewart Kershaw will meet visitors in the Corridor of Chinese Bronzes at 4 p. m.

LIQUOR LICENSES IN BOSTON.

In Boston Proper, 603, viz.: 335 saloons, 187 wholesale stores, 72 hotels, 9 others; Roxbury, 128, viz.: 78 saloons, 36 stores, 14 others; South Boston, 78, viz.: 54 saloons, 20 stores, 4 others; Charlestown, 75, viz.: 51 saloons, 19 stores, 5 others; East Boston, 43, viz.: 30 saloons, 11 stores, 2 others; West Roxbury, 26, viz.: 14 saloons, 10 stores, 2 others; Brighton, 15, viz.: 8 saloons, 5 stores, 2 others; Dorchester, 12, viz.: 5 saloons, 7 stores. Total licenses, 980; total saloons, 575, or 9 less than in 1912. In Boston Proper, one saloon to every 556 inhabitants; in Dorchester, one saloon to every 23,820.

BOSTON — PUBLIC WORKS DEPARTMENT.

Total expenditures in year 1913-14, \$7,456,650, exclusive of metropolitan water assessment and interest on water debt, but including \$992,097 (from loans) for sewer construction, \$219,290 (from loans) for bridge construction, and \$227,824 (from loans) for High Pressure Fire Service. For maintenance in 1913, as follows: Paving Service, \$1,392,468 (i. e., \$81,766 more than in 1912); Sanitary Service, \$925,319 (i. e., \$134,510 more than in 1912); Lighting Service, \$795,881 (i. e., \$27,102 more than in 1912); Street Cleaning and Oiling Service, \$753,457 (i. e., \$67,164 more than in 1912); Sewer Service, \$387,121 (i. e., \$8,248 more than in 1912); Bridge Service, \$289,167 (i. e., \$3,024 more than in 1912); Ferry Service, \$277,727 (i. e., \$8,711 more than in 1912); Water Service \$899,339 (i. e., \$64,267 more than in 1912); central office, \$80,159 (i. e., \$2,643 more than in 1912). Total for maintenance, \$5,800,639 (i. e., \$397,435 more than in 1912.)

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announce an open competitive examination for translator, for both men and women, on October 7, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Education, Department of the Interior, at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission invites attention to the open competitive examination for rodman and chainman, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in these positions in the Interstate Commerce Commission under the act providing for the valuation of the property of common carriers, at salaries ranging from \$720 to \$1,080 per annum, with necessary expenses when absent from headquarters in the discharge of official duties, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for automatic scale expert, for men only, on October 7, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$1,500 a year, in the Customs Service, Philadelphia, Pa., and vacancies as they may occur in positions requiring similar qualifications at other customs ports or in other branches of the service, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for statistical clerk, for both men and women, on October 7, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Departmental Service, Washington, D. C., at salaries ranging from \$900 to \$1,200 per annum, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The commission announce an open competitive examination for clerk-draftsman, for men only, on October 7 and 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at \$1,200 per annum in the offices of the Surveyors General at the places named below, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

One at Boise, Idaho; two at Denver, Col.; two at Helena, Mont.; two at Phoenix, Ariz.; two at Salt Lake City, Utah; three at Santa Fe, N. Mex.

The commission announce an open competitive examination for torpedo engineer, for men only, on October 7 and 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill one vacancy in this position at \$9.60 per diem in the Naval Torpedo Station, Newport, R. I., and vacancies as they may occur in

positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

This position requires the services of a well-trained engineer, preferably a skilled torpedo specialist. The duties will require the performance of such work as torpedo designing, developing torpedo tests, designing torpedo attachments, simplifying torpedo mechanisms, and making the necessary calculations in connection therewith. A thorough knowledge of thermodynamics and especially of steam and gas turbine machinery, and familiarity with the principles and practice of gear design, propeller design, the use of thermostats and the testing of fuels, etc., will be necessary.

The commission announce an open competitive examination October 12, 1914, for sawyer and carpenter, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$900 per annum in the Indian Service, Shoshone Agency, Wyoming, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination, October 12, 1914, for dairy husbandman, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at an entrance salary ranging from \$1,800 to \$2,500 per annum in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, and vacancies as they may occur in position requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

As insufficient eligibles were secured from the examination for this position held on June 29, 1914, qualified persons are urged to enter this examination.

The duties of this position will include cooperative work with dairy farmers; advice and assistance with reference to instituting the keeping of records of production of herds, the construction of silos, the construction and remodeling of dairy buildings, the feeding of dairy herds, the management of dairy farms, the care and handling of milk and cream, and the making of butter on farms; the organization and supervision of farmers' associations, bull associations, and cow-testing associations; demonstrations at fairs, judging dairy cattle and dairy products, lecture work on subjects connected with dairy farming, and other forms of dairy-farming extension work; collection of information concerning the dairy industry, and experimental work along dairy-farming lines. The performance of these duties will involve considerable traveling, usually within one state.

The commission announce an open competitive examination, October 12, 1914, for ferryman, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$1,080 a year for nine months in a year, at the Cheyenne River Indian Agency, South Dakota, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission invites attention to the opportunity for appointment of qualified persons from the open competitive examination for cadet engineer, for men only, scheduled to be held on October 14, 1914. As difficulty has been experienced in securing sufficient eligibles for this position in the Lighthouse Service qualified persons are urged to enter this examination.

The usual entrance salary for this position ranges from \$600 to \$780 per annum, with quarters and subsistence. Appointees are assigned to duty on board the various vessels of the Lighthouse Service and are in training for promotion after satisfactory service.

The commission invites attention to the open competitive examinations for ship draftsman and copyist ship draftsman, for men only, to be held on October 14 and 15, 1914. From the registers of eligibles resulting from these examinations certification will be made to fill vacancies as they may occur in these positions in the Bureau of Construction and Repair, Navy Department, Washington, D. C., and at navy yards and other establishments of the Navy Department outside of Washington, D. C., unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The entrance salaries for the position of ship draftsman range from \$3.28 to \$5.04 per diem. Persons appointed from this examination are eligible to promotion in the service of the Navy Department to salaries of \$7.52, \$8, and in a few cases as high as \$10 and \$12 per diem, depending upon the efficiency shown.

The entrance salaries for the position of copyist ship draftsman range from \$2 to \$2.80 per diem.

The opportunity for appointment of qualified eligibles is excellent, as difficulty has been experienced in securing a sufficient number of eligibles to meet the needs of the service. The following vacancies exist at the present time:

One, Navy Department, Washington, D. C., \$5.04 per diem.
One, Navy Department, Washington, D. C., \$3.28 per diem.
One, Navy Yard, New York, N. Y., \$4.48 per diem.
Two, Navy Yard, New York, N. Y., \$4 per diem.
One, Navy Yard, New York, N. Y., \$3.28 per diem.
Two, Navy Yard, Philadelphia, Pa., \$5.04 per diem.
Two, Navy Yard, Philadelphia, Pa., \$4.48 per diem.
One, Navy Yard, Philadelphia, Pa., \$3.28 per diem.
One, Navy Yard, Washington, D. C., \$4 per diem.
One, Navy Yard, Norfolk, Va. (Copyist), \$2.40 per diem.
One, Navy Yard, Mare Island, Cal., \$4.48 per diem.
One, Navy Yard, Mare Island, Cal. (Copyist), \$2.80 per diem.
Four, Navy Yard, Puget Sound, Washington, \$3.28 per diem.
One, Office of Naval Constructor, Quincy, Mass., \$3.28 per diem.

The commission invites attention to the regular fall examinations for scientific assistant, Department of Agriculture, to be held on October 14 and 15, 1914.

Examinations will be given in the following subjects:

Agronomy, animal husbandry, dairying, entomology, farm management, forage crops, horticulture, library science, marketing and distribution, nutrition and calorimetry, plant breeding, plant pathology, plant physiology, pomology, seed testing, soil bacteriology, soil surveying.

The positions for which the examinations first referred to are held offer many attractive features. Excellent opportunities are afforded for scientific research in the laboratories of the Department of Agriculture. Furthermore, practically all of these positions require more or less

investigational work in the field outside of Washington, D. C., which enables one to obtain a broad and comprehensive view of one's special subject of investigation as related to the entire country. When traveling in the field away from either official or temporary headquarters, the expenses of the investigator are paid.

Applicants must be at least 20 years of age on the date of the examination.

This examination is open to all citizens of the United States who meet the requirements.

The commission announce an open competitive examination, October 20, 1914, for auto machinist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$4 per diem in the Bureau of Engraving and Printing, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination, October 21, 1914, for entomological ranger, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Entomology, Department of Agriculture, for service in the Rocky Mountains and Pacific coast states, at salaries ranging from \$840 to \$1,200 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of this position will be to collect specimens and information, locate and mark trees infested with destructive insects, and give instructions and assistance to private owners on the practical details of the methods recommended for the control and prevention of insect depredations on living timber.

The commission announce an open competitive examination for quarantine inspector, for men only, on October 21, 1914. From the register of eligibles resulting from this examination, certification will be made to fill vacancies in this position under the Federal Horticultural Board, Department of Agriculture, at salaries ranging from \$840 to \$1,320, for service in New England, and in any states or parts of states which may be hereafter quarantined on account of potato diseases, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The examination will be held at the following places:

Massachusetts.—Boston, Brockton, Fall River, Fitchburg, Lawrence, Lowell, Pittsfield, Salem, Springfield, Worcester.

The duties of this position will be to inspect potatoes presented for interstate shipment with a view to determining the presence or absence of powdery scab and to certify for interstate shipment such lots as are found free from this disease. Also to inspect warehouses and cellars where potatoes are to be stored for interstate shipment and to see that owners and tenants comply with the regulations requiring disinfection of such places and of tools and implements used in the handling of potatoes intended for shipment interstate. Also to give instructions and assistance to shippers and growers of potatoes on the practical details recommended for the control and eradication of powdery scab or other potato diseases.

The commission announce an open competitive examination for oil and gas inspector, for men only. From the register of eligibles resulting from this examination certification will be made to fill six vacancies in this position under the Commissioner to the Five Civilized Tribes in Oklahoma, at salaries ranging from \$1,400 to \$2,500 per annum, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

It is expected that the majority of the vacancies will be filled at salaries of approximately \$1,400, and only in the cases of exceptionally well qualified men will higher salaries be paid.

The commission announce an open competitive examination for linotype machinist, for men only, on October 21, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in the position of linotype machinist in the Government Printing Office, at 60 cents per hour, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for bookbinder, for men only, on October 21, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at salaries ranging from \$4 to \$5 per diem in the Government Printing Office and in the Bureau of Engraving and Printing, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The commission announce an open competitive examination for tariff assistant and assistant in foreign trade-marks, for both men and women, on October 21, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in these positions in the Bureau of Foreign and Domestic Commerce, Department of Commerce, Washington, D. C., at a salary of \$1,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of the position of tariff assistant will be to read foreign official gazettes, make translations and abstracts of tariff laws, and compile statements of rates of duty in foreign countries on specified articles.

The duties of the position of assistant in foreign trade-marks will be to make a study of foreign trade-mark laws and practice, to prepare translations and abstracts of such laws, and to answer inquiries in regard to foreign trade-marks.

The commission announce an open competitive examination, October 27, 1914, for assistant in rural education, for women only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Education, Department of the Interior, Washington, D. C., at salaries of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of

the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include the study of rural education, with special reference to the methods of teaching in the elementary grades and the collection and compilation of information relating thereto.

The commission announce an open competitive examination, October 27, 1914, for specialist in home economics, for women only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Education, Department of the Interior, Washington, D. C., at a salary of \$3,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include the study of education in home economics, the collection and compilation of information relating thereto and the giving of advice to education officers throughout the United States for courses of study in home economics.

The commission announce an open competitive examination, October 27, 1914, for ornamental ironworker, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$4.40 per diem, in the Bureau of Engraving and Printing, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination, on November 3, 1914, for junior physical chemist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Chemistry, Department of Agriculture, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be chiefly research work in the preparation and investigation of sugar, their occurrence, identification and properties, and the importance of the various sugars in various foods.

The commission announce an open competitive examination, on November 3, 1914, for specialist in agricultural education, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Education, Department of the Interior, Washington, D. C., at a salary of \$3,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include the study of agricultural education, the collection and compilation of information relating thereto and the giving of advice to education officers throughout the United States relating to the establishment of agricultural institutions and agricultural courses.

The commission announce an open competitive examination for teacher of vocal music, for women only, on November 4, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Indian Service, at salaries ranging from \$600 to \$720 per annum, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

Competitive examinations of applicants for positions in the classified service will be held in Boston as follows:

FOR THE SERVICE OF THE COMMONWEALTH.

1914.
Oct. 21. Foreman of Laborers, Inspectors of Work, Class 22.
Oct. 27. Drawtenders, Assistant Drawtenders, Class 25.
Nov. 2. Clerks, Messengers, Class 3.
Nov. 16. Stenographers, Class 9.
Dec. 7. Civil Engineers, Class 27.
Dec. 17. Metropolitan Park Policemen, Class 16.
1915.
Jan. 19. Prison Watchmen, Class 17.

FOR THE SERVICE OF THE CITY OF BOSTON.

1914.
Oct. 1. Policemen, Class 14.
Oct. 21. Foreman of Laborers, Inspectors of Work, Class 22.
Oct. 27. Drawtenders, Assistant Drawtenders, Class 25.
Nov. 2. Clerks, Messengers, Class 3.
Nov. 12. Firemen, Class 20.
Nov. 16. Stenographers, Class 9.
Dec. 7. Civil Engineers, Class 27.
1915.
Jan. 14. Janitors and Engineers of Public Buildings, Class 24.
Jan. 19. Prison Watchmen, Class 17.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply for the service of the Commonwealth, and only citizens of the United States who have been residents of Massachusetts for the past year and of Boston for the six months last past have a right to apply for the service of Boston.

Blank applications (Form No. 1) for the Commonwealth and Boston services can be obtained by applying to the Civil Service Commission, State House, Boston, and when filled out, should be filed in the office of the commission at once.

In order to receive a notice to appear at any of the above-scheduled examinations, an applicant should have his application on file at least ten days before the date set for holding the examination.

The Massachusetts Civil Service Commission announce a competitive examination will be held October 26, 1914, to establish an eligible list from which to certify for the position of steward in state hospitals and institutions as vacancies may occur.

The examination will include a sworn statement of training and experience, a handwriting and accuracy test, report or letter writing, arithmetic, and questions calculated to test out the applicants' knowledge of the duties of a steward. Successful candidates may be subjected to a physical examination.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply.

Persons desiring to take his examination may secure application blanks by applying, in person or by letter, on or before October 19, at the office of the Civil Service Commission, Room 151, State House, Boston, Mass.

A competitive examination for bookkeeper (male) in the service of the Boston

Transit Commission will be held on October 28, 1914. The salary will be from \$18 to \$21 a week.

An intimate knowledge of the following kinds of material handled will be essential: Reinforcing steel of various sizes and kinds, structural steel (both fabricated and unfabricated), waterproofing materials of various kinds, Portland cement, wax-tailings, poling boards and grouting pipes. Applicants will be expected to identify fabricated steel by means of a blueprint or shipping list. Experience in dealing with railroads in regard to freights will be essential, such as the ordering in and releasing of cars, keeping all car records, computing demurrage, knowledge of the rules of an "average agreement," handling damaged freight and putting in claims. Experience in the keeping of cost data will be required. Applicants must be able to keep necessary records and time and make up the pay roll.

The examination will include the following subjects: A sworn statement of training and experience, handwriting, spelling, letter writing, arithmetic (including percentage, proportion, interest and discount) and double entry book-keeping.

At the same time, October 28, the regular examination for bookkeeper (open to men and women) in the service of Boston and the Commonwealth will be held. This examination was originally advertised for April 9, 1914. These examinations will probably occupy two days.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply for the service of the Commonwealth and for the service of the Boston Transit Commission. Only residents of Massachusetts for one year and of Boston for the six months last past have a right to apply for the service of Boston.

Persons desiring to take this examination may secure application blanks by applying in person or by letter, on or before October 21, at the office of the Civil Service Commission, Room 152, State House, Boston.

EXAMINATION FOR LIGHTING PLANT.

The Massachusetts Civil Service Commission announce that a competitive examination for the position of Superintendent of Distribution in the Municipal Lighting Plant of Taunton will be held October 13, 1914. This examination will be open to male citizens of the United States who have been residents of Massachusetts for the past year. Applicants are not required to be residents of Taunton at the time of application. There is one vacancy, and the salary is \$30 per week.

Applicants must be experts on meters of all descriptions, are lamps, motors, line construction and interior wiring. They must be qualified to perform the duties of manager in the absence of the manager.

MUNICIPAL IMPROVEMENTS DURING MONETARY CRISIS.

In order to learn the prospects for municipal work in the present crisis "The American City" sent requests for views to the mayors of municipalities in various parts of the country. Twenty-one replies are published and from them the editor has drawn the following conclusions:

"There is little tendency to call a halt in public improvements in American cities because of the European war. These mayors of important cities throughout the United States are, almost without exception, in favor of carrying on municipal improvements with unabated vigor

during the coming fall and winter. In some cities, indeed, plans are being made to do even more public work than would ordinarily be undertaken through the winter months. On the other hand, some of the mayors express doubt as to their ability to float bond issues at the present time, or to obtain necessary funds in other ways. Because of the ease with which high grade municipal securities can ordinarily be sold, the present problem of city finance is an unusual one. In our opinion, however, it does not offer obstacles which cannot be overcome by any city whose credit has not, for other reasons, been seriously impaired.

"To be sure, the bond houses which ordinarily are in the market for municipal securities are offering little encouragement at the present time in the way of commitments for new issues. Cities which wish to raise money this fall must, in most cases, look to their local bankers or citizens, rather than to the large financial centers, for assistance. There are various possible methods of securing local aid:

"1. Short-time notes might be issued at a rate of interest attractive to the bankers, these notes to be retired by a subsequent issue by the city of bonds under a more favorable market.

"2. Bonds of the city might be issued immediately and sold to local bankers, who could use them as security for emergency currency. Such a transaction might be of benefit both to the city and to the local banks; for the latter could no doubt dispose of the bonds at a premium when money becomes more plentiful. To protect the city's interests such bonds should either be issued for comparatively short terms or should contain the option of retirement by the city in advance of date of maturity.

"3. In some cases it would doubtless be possible—as is indeed the custom under ordinary financial conditions in certain cities—to make payment in city bonds to manufacturers or contractors for public work. Such a plan, if adopted, must be handled in a conservative manner, lest the city's credit be depressed by the resale of large quantities of such bonds to the public at inopportune times.

"4. There remains the final alternative of the selling of bonds 'over the counter.' This plan of securing a local market for municipal securities at favorable terms was successfully employed in several cities during 1913. Should prohibitive rates of interest be demanded for money obtained through ordinary channels, we believe that in most municipalities the citizens would respond to a wisely conducted campaign for the sale of municipal securities by this method.

"Cities which sold their bonds for important improvements before the outbreak of the European war are in a particularly fortunate position to proceed with construction work. We do not feel, however, that in cities not so fortunate the necessity of paying temporarily a higher interest rate should be considered a conclusive reason for the curtailing of municipal work. We do not advocate, of course, the spending of money foolishly; but the only cause which ever justifies the expenditure of municipal funds is the promoting of the welfare of the citizens. Can it be doubted that such welfare would be more effectively advanced by the continuance of needed public work, even at a slightly higher rate of interest for loans, than by the curtailment of such work, with the consequent additions to the army of the unemployed? *Let the armies of construction go forward!*"

PROCEEDINGS OF SCHOOL COMMITTEE.

Sept. 21, 1914.

A regular meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 7.33 o'clock P.M., the Chairman presiding.

Present: Messrs. Brock, Corcoran, Miss Curtis, Messrs. Lee and Scannell.

SECRETARY PRO TEMPORE.

In the absence of the Secretary, Ellen M. Cronin was elected Secretary pro tempore.

APPROVAL OF RECORDS.

The reading of the records of the last meeting was omitted, the Board approving them as printed.

APPOINTMENTS OF TEACHERS.

The Chairman stated the question was on approving the appointments of teachers as reported by the Superintendent, and laid over at the last meeting.

The appointments were approved.

AMENDMENT TO RULES AND REGULATIONS.

The order laid over at the previous meeting (see p. 136), amending section 297, paragraph 3 of the regulations, was taken up and passed.

TRANSFER OF APPROPRIATIONS.

On motion, the order passed at the previous meeting (see p. 136), transferring the sum of six thousand dollars (\$6,000) from the item "Salaries of Instructors" to the appropriation for the purpose of constructing and furnishing new buildings, including the taking of land therefor, for school yards and the preparing of school yards for use, was rescinded.

TRANSFER OF APPROPRIATIONS FOR ADDITIONAL SCHOOL ACCOMMODATIONS.

A communication was received from the Board of Schoolhouse Commissioners, under date of Sept. 21, 1914, asking that the School Committee concur in a vote of that Board transferring certain amounts from one item to another in the list of school accommodations to be provided from the tax levy appropriation of 1914.

Placed on file.

The following was offered:—
ORDERED, That this Board hereby concurs in the vote of the Board of Schoolhouse Commissioners transferring certain amounts to other items in the list of school accommodations, as follows:—

- From Dorchester High School, changing classrooms, etc., the sum of \$3,000.
- To Oliver Wendell Holmes District, Dorchester, elementary school, lower grades, tax levy 1914.
- From Dorchester High School, changing classrooms, etc., the sum of \$2,200.
- To Norcross District, South Boston, additional accommodations and improvement of sanitariums, tax levy 1914.
- From Norcross District, South Boston, additional accommodations and improvement of sanitariums, tax levy 1914, the sum of \$6,000.
- To 25 Lagrange street, equipment of Continuation School.
- From Norcross District, South Boston, additional accommodations and improvement of sanitariums, tax levy 1914, the sum of \$700.
- To Boston Consumptives' Hospital, Mat-tapan, equipment of classrooms.

Passed unanimously.

WITHDRAWAL OF APPOINTMENT.

A communication was received from the Superintendent, under date of Sept. 21, 1914, withdrawing, subject to the approval of the Board, the following appointment as reported at the meeting of June 1, 1914, to take effect on the date stated:—

Bowdoin Evening School—John Carroll, principal, Oct. 5, 1914.

Placed on file, and the appointment withdrawn.

DEATH.

The Superintendent reported the death of the following-named teacher:—

Lawrence District—Lena J. Crosby, assistant, June 30, 1914.

Placed on file.

RETIREMENTS.

The following retirements of teachers, to take effect on the dates stated, because of marriage, were presented:—

Blackinton District—Mary F. O'Meara, assistant, special class, Aug. 31, 1914.

Bowdoin District—Marion F. Kiely, assistant, Sept. 30, 1914.

Theodore Lyman District—Frances E. Kelly, assistant, Aug. 31, 1914.

Department of School Hygiene—Alice M. Sweeney, assistant nurse, Sept. 30, 1914.

Placed on file.

The following appointments and transfers by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates stated, were presented:

SPECIAL ASSISTANTS.

High School of Practical Arts—Agnes L. Anderson, Pauline R. Bayne, Florence Bonney, Phyllis M. Bornstein, Helena Burke, Ada Courage, Jessie Guttentag, Lois Heath, Jessie M. Howard, Josephine G. Stephens, industrial department, Sept. 9, 1914; Hazel Fairfield, Mildred Tegen, industrial department, Sept. 14, 1914; Grace Aznive, Alva B. Glidden, industrial department, Sept. 21, 1914; Cecile Bornstein, industrial department, Sept. 23, 1914.

Abraham Lincoln District—Florence A. Cose, Sept. 9, 1914.

Agassiz District—Marie A. DeNeill, Joseph A. Fitzgerald, Margaret E. O'Connor, Sept. 9, 1914.

Bennett District—Agnes G. Phelps, Gladys A. Ringer, Edith Stahl, Sept. 9, 1914; Beatrice L. Wheeler, kindergarten, Sept. 15, 1914.

Blackinton District—Helen R. Jones, Dora Lipsitz (one day), Sept. 18, 1914.

Dillaway District—Emma S. Libourel, Sept. 9, 1914; Agnes C. Morris, kindergarten, Sept. 15, 1914.

Dudley District—Lillian Cherry, kindergarten, Sept. 15, 1914; Edith D. Rodgers, Sept. 9, 1914.

Dwight District—Josephine V. Hogan, Sept. 9, 1914.

Edmund P. Tileston District—Ellen C. Hennessey, Marguerite R. O'Neill, Sept. 9, 1914; Anna L. Lawler, Sept. 21, 1914; Marion B. Nye, Sept. 14, 1914.

Edward Everett District—Helen C. Bates, kindergarten, Sept. 15, 1914; Julia E. Donovan, Alice E. Manning (one-half day), Elizabeth J. Miley (one day), Sept. 9, 1914; Dorothy L. Mitchell, kindergarten, Sept. 9, 1914; Claire Z. Levy, kindergarten, Sept. 11, 1914.

Elihu Greenwood District—Esther E. Brooks, Sept. 16, 1914; Leonora P. Lordan, Sept. 10, 1914.

Elot District—Loretta I. McDonough, Sept. 16, 1914.

Frederic W. Lincoln District—Lydia M. Gore, Margaret B. Lynch, John J. Mahoney, Sept. 9, 1914.

George Putnam District—A. Florence Pow, Marguerite J. Rich, Sept. 9, 1914.

Harvard District—Sally S. Allen, kindergarten, Sept. 14, 1914.

Hugh O'Brien District—Elizabeth F. B. MacKay, Sept. 9, 1914.

John Winthrop District—Josephine M. Gately, Bessie A. Lovewell, Sept. 9, 1914; Elizabeth F. Stone, Sept. 16, 1914; Margaret B. Lynch, Sept. 15, 1914.

Lawrence District—Margaret M. Biggy, Elizabeth M. Carten, Sarah M. Dooley, Helen F. McGlinchy, Sept. 9, 1914.

Lewis District—John L. Mayer, Sept. 9, 1914.

Longfellow District—Mabel L. Augusta, Sept. 14, 1914; Edith M. Smith, Sept. 9, 1914.

Lowell District—Edith H. Newcomb, kindergarten, Sept. 9, 1914; Helen E. Rourke, Sept. 18, 1914; Ethel M. F. Schumann, Sept. 9, 1914.

Martin District—Sigrid B. Anderson, M. Alice Murphy, Thomas P. Dooley, Sept. 9, 1914.

Oliver Wendell Holmes District—Helen C. Bates, kindergarten, Sept. 17, 1914; Anna H. Brown, kindergarten, Sept. 10, 1914.

Phillips Brooks District—Margaret G. Ford, Stella M. Ives, Adeline C. Leve, Sept. 14, 1914.

Prescott District—Vincent J. Readdy, Sept. 9, 1914.

Rice District—Lillian E. Enos, Sept. 9, 1914.

Robert G. Shaw District—Florence J. Keelan, Sept. 21, 1914; Ida M. Ridlon, Sept. 16, 1914.

Roger Wolcott District—Mildred A. Hersey, Irene L. Hines, Gertrude M. Reilly, Sept. 9, 1914.

Samuel Adams District—Flora N. Elliott, Sept. 11, 1914 (one day); Bessie M. Lassen, Sept. 9, 1914.

Theodore Lyman District—Elizabeth Drea, Sept. 17, 1914; Agnes C. Lavery, Sept. 16, 1914.

Thomas N. Hart District—Claire Conklin, kindergarten, Sept. 16, 1914.

Ulysses S. Grant District—Ida M. Fields, kindergarten, Sept. 9, 1914; Bertha O. Ives, Esther E. Larson, John F. Lynch, Katherine A. Mahoney, Sept. 9, 1914.

Warren District—Elizabeth M. Hayes, Beatrice M. McNally, Louise W. Vaughan, Sept. 9, 1914.

Washington District—Margaret A. Ford, Alice E. Mills, Sept. 9, 1914.

Wells District—Helen M. Baker, Mary M. Lordan, Marion L. Sharp, Sept. 9, 1914.

Approved.

TEMPORARY TEACHERS.

Normal School—Edward N. Milliken, junior master, Sept. 14, 1914.

Charlestown High School—Katherine F. Conlan, assistant, Sept. 9, 1914.

Dorchester High School—Bessie A. Gatie, assistant, Sept. 15, 1914.

East Boston High School—Imogene J. M. Conland, Katherine F. Garrity, Grace Heartz, Ruth S. Thomas, assistants, Sept. 9, 1914; Delia H. Hedman, assistant, Sept. 14, 1914.

English High School—Miah J. Falvey, junior master, Sept. 14, 1914.

High School of Commerce—Joseph S. Snow, instructor in commercial branches, Sept. 9, 1914.

Mechanic Arts High School—Francis J. Horgan, junior master, Sept. 9, 1914; William F. Wyatt, junior master (under a license), Sept. 21, 1914.

Bowditch District—Mildred O. Curtis, assistant, kindergarten (vice Lillian B. Poor, assigned to Normal School), Sept. 10, 1914.

Dillaway District—Ruth H. Soelle, assistant (vice Marguerite L. Dolan, temporarily assigned to class for stammerers), Sept. 9, 1914.

Emerson District—Sarah B. Brennan, assistant (vice Marion Chesley, on leave of absence without pay), Sept. 9, 1914.

Department of Manual Arts—Clarence B. Sherwood, prevocational instructor, Sept. 16, 1914.

Placed on file.

SUBSTITUTE NURSE.

Department of School Hygiene—Catherine F. O'Toole, assistant nurse in the Elihu Greenwood and Henry Grew Districts, vice Ethel A. Young, absent on leave, Sept. 21, 1914.

Approved.

APPOINTMENTS.

(From the Eligible List.)

Brighton High School—Mildred Ivy, assistant instructor in salesmanship, Oct. 6, 1914.

Dorchester High School—Ethel E. Caryl, assistant, Oct. 1, 1914; Katharine F. Garrity, assistant, Sept. 28, 1914.

English High School—Carey P. Ladd, junior master, Sept. 28, 1914; John F. Roche, junior master, Sept. 16, 1914.

Department of School Hygiene—Genevieve R. Jules, Agnes G. Kelleher, Frances A. B. Myles, assistant nurses, Oct. 1, 1914.

Laid over.

(From the Parental School.)

Subsequently, the following appointment was presented:—

Supervisor of Pupils on Probation—George C. Minard, Sept. 22, 1914.

On motion, the rules were suspended to permit the approval of the foregoing appointment.

The appointment was approved by the following vote:—

YEAS—Messrs. Brock, Corcoran, Miss Curtis, Messrs. Lee and Scannell—5.

NAYS—0.

Bowditch District—Alice E. Bentley, assistant, thirteenth year (date of original appointment to Parental School, Nov. 28, 1898), Sept. 8, 1914.

Quincy District—Isabel J. Mulkern, assistant, thirteenth year (date of original appointment to Parental School, April 25, 1897), Sept. 8, 1914.

Thomas N. Hart District—Emma M. Gardner, assistant, thirteenth year (date of original appointment to Parental School, Nov. 28, 1898), Sept. 8, 1914; Elizabeth M. Moody, assistant, thirteenth year (date of original appointment to Parental School, Sept. 7, 1897), Sept. 8, 1914.
Laid over.

(Under a License.)

Trade School for Girls—Aminta Cavanna, Elizabeth Howley, Mary B. Martin, aids, Sept. 8, 1914; Olive F. McKinnon, student aid, Sept. 8, 1914.
Approved.

EVENING SCHOOLS.

Term 1914-15.

To take effect Oct. 5, 1914.

Principal.

Bowdoin Evening School—Everett L. Getchell.

Approved by the following vote:—
YEAS—Messrs. Brock, Corcoran, Miss Curtis, Messrs. Lee and Scannell—5.
NAYS—0.

Central Evening High School—Harry C. Barber, Ralph C. Benedict, Harry E. Bryant, Winburn S. Cannell, George A. Cushman, John E. Denham, Frederic W. Doring, Archer L. Faxon, Daniel Foley, Augusto M. Franceschini, Charles Ward French, Charles Winslow French, Arthur B. Joy, William S. Lenihan, George F. McCarthy, John A. Marsh, William G. S. McIntyre, Fred P. H. Pike, Edwin M. Randolph, William F. Rice, Wilson Snushall, Charles H. Stone, Harry L. Thompson, Edward L. Underwood, assistants.

Charlestown Evening Commercial High School—Timothy J. Buckley, George H. Cain, Ervin W. Engler, Thomas S. Gill, Percy E. Gleason, Arthur Harrington, John P. Mahoney, Stephen J. Murdock, Roger A. Powers, Charles A. A. Weber, assistants; Julia F. Cody, typewriting assistant.

Dorchester Evening Commercial High School—Henry W. B. Arnold, Jessie M. Caddoo, Joseph P. Cady, George B. Darling, Hubert G. Fisher, Rollin H. Fisher, Helen M. Fogarty, Harlan P. Ford, Charles I. Gates, Frederick W. Gentleman, Frederick G. Jackson, Thomas E. Kelley, Edward M. McDonough, John D. Murphy, Fannie G. Myerson, Horatio W. Nelson, Warren W. Petrie, Milford S. Power, John C. Riley, Bradley C. Rodgers, Arthur W. Ross, Alice G. Walsh, Charles T. Wentworth, assistants; William L. Hoernie, typewriting assistant.

East Boston Evening Commercial High School—Charles Bamberg, Marion L. Barker, John V. Barrett, Francis J. Conlin, Margaret Cunningham, Carroll E. Farrington, Henry W. Foss, Charles E. Simpson, Z. Carleton Staples, Denis F. Sullivan, assistants; Louise Kane, typewriting assistant.

LEAVES OF ABSENCE.

On the report of the Superintendent, leave of absence for study and travel, under the provisions of section 317 of the regulations, was granted each of the following-named teachers for the terms specified:—

Dudley District—Mary L. Long, assistant, from Sept. 22, 1914, to June 7, 1915, for study and travel.

Edmund P. Tileston District—Lucy E. Low, first assistant, kindergarten, from Oct. 5, 1914, to May 28, 1915, for study.

On motion of the Superintendent, it was ORDERED, That the following leave of absence, granted at the meeting of Sept. 14, 1914, is hereby rescinded:

Department of School Hygiene—Alma Taylor, assistant nurse, from Oct. 1, 1914, to June 4, 1915.

DESIGNATION OF TEACHERS ABOVE THE THIRD GRADE IN BOYS' SCHOOLS.

A communication was received from the Superintendent, reporting that, subject to the approval of the Board, he has assigned the following-named teachers to classes attended exclusively by boys in grades above the third, in the districts and to take effect on the dates stated:

Bigelow District—K. Grace Farrell, Mary G. McDermott, assistants, Sept. 9, 1914.

Dudley District—Alice L. McCormick, assistant, Sept. 9, 1914.

Eliot District—Elizabeth T. McNeil, assistant, Sept. 8, 1914.

Placed on file and the assignments approved.

EMPLOYMENT OF TEACHER MANAGERS IN PUBLIC LATIN SCHOOL AND ENGLISH HIGH SCHOOL.

A communication was received from the Superintendent, under date of Sept. 21, 1914, to whom was referred at the meeting of Sept. 14, 1914 (see p. 141), a communication from the Head Masters of the Public Latin and English High Schools, relative to the employment of teacher managers in those schools, reporting that, in his opinion, it would be inadvisable to go back to the teacher-manager plan of conducting athletics until the modified plan has been given a thorough trial.

Placed on file.

RETIREMENT ON PENSION.

The Superintendent offered the following:—

ORDERED, That the following-named teacher be retired on pension, in accordance with the provisions of Chapter 589 of the Acts of 1908, as amended by Chapter 617 of the Acts of 1910, the date of retirement and rate of pension to be as herein-after specified:

Bennett District—Lillie J. Davis, length of service 36 yrs., 3 mos., Aug. 31, 1914, \$312.

Passed, a majority of the Board voting in the affirmative.

RANK AND COMPENSATION OF INSTRUCTOR IN COMMERCIAL BRANCHES, BOSTON CLERICAL SCHOOL.

On motion of the Superintendent, it was ORDERED, That the rank of instructor in commercial branches is hereby established in the Boston Clerical School for the year ending Aug. 31, 1915.

On motion of the Superintendent, it was ORDERED, That the salary of the rank of instructor in commercial branches, Bos-

ton Clerical School, is hereby established as follows for the year ending Aug. 31, 1915:—

First year \$1476, annual increase \$144, maximum \$2340.

A communication was received from the Superintendent, under date of Sept. 21, 1914, reporting that, subject to the approval of the Board, he has assigned George L. Hoffacker, instructor in commercial branches, Boston Clerical School, as acting head of department without change of rank or salary, to take effect Sept. 8, 1914.

Placed on file, and the assignment approved.

ASSIGNMENT OF CARRIE E. HOIT TO BRIGHTON HIGH SCHOOL.

A communication was received from the Superintendent, under date of Sept. 21, 1914, reporting that, subject to the approval of the Board, he has assigned Carrie E. Hoyt, teacher of cookery, elementary schools, to service in the Brighton High School, without change of rank or salary, one and one-half days per week, to take effect Sept. 9, 1914.

Placed on file, and the assignment approved.

ASSIGNMENT OF EMELINE E. TORREY TO HYDE PARK HIGH SCHOOL.

A communication was received from the Superintendent, under date of Sept. 21, 1914, reporting that, subject to the approval of the Board, he has assigned Emeline E. Torrey, teacher of cookery, elementary schools, to service in the Hyde Park High School, without change of rank or salary, four days per week, to take effect Sept. 9, 1914.

Placed on file, and the assignment approved.

ASSIGNMENT OF LILLIAN B. POOR AS ASSISTANT TO THE DIRECTOR OF KINDERGARTENS.

On motion of the Superintendent, it was ORDERED, That Lillian B. Poor, first assistant, kindergarten, Bowditch District, is hereby assigned as assistant to the Director of Kindergartens from Sept. 1, 1914, to Aug. 31, 1915, both dates inclusive; she to carry on the work of the kindergarten course in the Normal School and assist in the general supervision of the kindergarten work of the elementary schools; and that during said assignment no substitute shall be allowed in place of Mary C. Shute, assistant, Normal School, absent on leave.

On motion of the Superintendent, it was ORDERED, That Lillian B. Poor be paid at the rate of two hundred four dollars (\$204) per year in addition to her regular salary as first assistant, kindergarten, during her assignment as assistant to the Director of Kindergartens, from Sept. 1, 1914, to Aug. 31, 1915, both dates inclusive.

SUPERVISOR OF PUPILS ON PROBATION.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to appoint, subject to the approval of the Board, a Supervisor of Pupils on Probation, whose duties in general shall be those of the representative of the attendance department in the handling of cases before the Juvenile or District Courts, the supervision of the attendance at school of children released from the Parental School, and such other related duties as the Superintendent may, from time to time, assign to him.

On motion of the Superintendent, it was ORDERED, That the salary of the rank of Supervisor of Pupils on Probation is hereby established at the rate of twenty-two hundred fifty-six dollars (\$2256) per year for the year ending Aug. 31, 1915.

CLERICAL ASSISTANT, BOSTON INDUSTRIAL SCHOOL FOR BOYS.

A communication was received from the Superintendent, under date of Sept. 21, 1914, reporting that, subject to the approval of the Board and with the approval of the Civil Service Commission, he has appointed Ethel M. Wykes, clerical assistant in the Boston Industrial School for Boys, to take effect Sept. 21, 1914.

Placed on file, and the appointment approved, to take effect on the date stated.

SALARY OF TEMPORARY PRE-VOCATIONAL INSTRUCTORS.

On motion of the Superintendent, it was ORDERED, That the salary of Clarence B. Sherwood, temporary pre-vocational in-

structor, is hereby established at the rate of six dollars (\$6) per day of service for the year ending Aug. 31, 1915.

On motion of the Superintendent, it was ORDERED, That the salary of Max Rabus, temporary pre-vocational instructor, is hereby established at the rate of five dollars and fifty cents (\$5.50) per day of service for the year ending Aug. 31, 1915.

On motion of the Superintendent, it was ORDERED, That the salary of Herbert G. Dudley, temporary pre-vocational instructor, is hereby established at the rate of six dollars (\$6) per day of service for the year ending Aug. 31, 1915.

RAPID ADVANCEMENT CLASS, PHILLIPS BROOKS DISTRICT.

A communication was received from the Superintendent, under date of Sept. 21, 1914, reporting that, under authority granted him by the Board, he has established a rapid advancement class in the Phillips Brooks District, to take effect Sept. 9, 1914.

Placed on file.

SUBSTITUTIONS OF SUBJECTS, HIGH SCHOOL DIPLOMA POINT REQUIREMENTS.

On motion of the Superintendent, it was ORDERED, That pupils in the high schools who elect the subject of salesmanship be permitted to substitute a course in textiles for the science requirement for a diploma.

On motion of the Superintendent, it was ORDERED, That pupils in the high schools be permitted to substitute a course in modern history, using Boston as a center, for the ancient history requirement for a diploma.

ESTABLISHMENT OF BRIMMER EVENING INDUSTRIAL SCHOOL.

On motion of the Superintendent, it was ORDERED, That, subject to the approval of the State Board of Education, the Brimmer Branch of the Central Evening Industrial School is hereby established for the term 1914-15 as an independent evening industrial school, said school to be known as the Brimmer Evening Industrial School.

AUTHORIZED LIST OF TEXT AND SUPPLEMENTARY BOOKS.

The Superintendent offered the following:—

ORDERED, That the following-named books now authorized for use as text books in the high and Latin schools are hereby dropped from the list, no further copies to be purchased:—

Wells' Geometry, Plane and Solid, by Webster Wells, S. B., published by D. C. Heath & Co.

Wells' Geometry, Plane, by Webster Wells, S. B., published by D. C. Heath & Co.

Wells' Geometry, Solid, by Webster Wells, S. B., published by D. C. Heath & Co.

Laid over.

The Superintendent offered the following:—

ORDERED, That the following-named books are hereby authorized for use as text books in the high and Latin schools:—

The Essentials of Plane and Solid Geometry (1899), by Webster Wells, S. B., published by D. C. Heath & Co.

The Essentials of Plane Geometry (1898), by Webster Wells, S. B., published by D. C. Heath & Co.

The Essentials of Solid Geometry (1899), by Webster Wells, S. B., published by D. C. Heath & Co.

New Plane and Solid Geometry (1908), by Webster Wells, S. B., published by D. C. Heath & Co.

New Plane Geometry (1908), by Webster Wells, S. B., published by D. C. Heath & Co.

New Solid Geometry (1908), by Webster Wells, S. B., published by D. C. Heath & Co.

Laid over.

CERTIFICATION OF REGULAR SUBSTITUTE JANITOR.

A communication was received from the Secretary, under date of Sept. 21, 1914, reporting that, pursuant to the action of the Board at the meeting of Sept. 14, 1914 (see p. 140), the Civil Service Commission has

certified the name of William H. Parker, the only applicant holding the necessary license, as eligible for appointment as regular substitute janitor, and granted permission to make a provisional appointment. Placed on file.

TELEPHONE SERVICE, MASON-STREET BUILDING.

A communication was received from the Secretary, under date of Sept. 21, 1914, submitting, for the approval of the Board, the following appointments of substitute telephone operators, Mason-street Building, for the periods stated:

Neil Doherty, substitute operator, from Aug. 10 to 29, 1914, both dates inclusive.
Bernice M. Barry, substitute noon-relief operator, from Aug. 10 to Sept. 4, 1914, both dates inclusive, Saturdays excluded.
Placed on file, and the appointments approved.

On motion, it was
ORDERED, That the compensation of Neil Doherty, temporary telephone operator, be fixed at the rate of one dollar and seventy-five cents (\$1.75) per day of actual service, during the period Aug. 10 to 29, 1914, both dates inclusive.

On motion, it was
ORDERED, That the compensation of Bernice M. Barry, temporary noon-relief operator, be fixed at the rate of sixty cents (\$.60) per day, for each midday relief period of actual service during the period Aug. 10 to Sept. 4, 1914, both dates inclusive, Saturdays excluded.

AUTHORIZATION OF BOOKS TO BE USED IN BOSTON CLERICAL SCHOOL.

A communication was received from the Business Agent, under date of Sept. 21, 1914, recommending that regulations relative to the use of such text and supplementary books as may be necessary in the Boston Clerical School be adopted.
Placed on file.

On motion, it was
ORDERED, That books authorized for text and supplementary use in the high schools be also authorized for use in the Boston Clerical School.

RETIREMENT OF SCHOOL-HOUSE JANITORS ON PENSION.

The following was offered:—
ORDERED, That in accordance with the provisions of Chapter 113 of the Acts of 1911, as amended by Chapter 313 of the Acts of 1913, the following-named school-house janitors, honorably discharged veterans of the Civil War, who have severally been in the service of the city for ten or more years, and who are now unable fully to perform their duties, are, in accordance with their several applications, hereby retired from active service, with the consent of the Mayor, at one-half their respective net rates of compensation per annum, as hereinafter specified, to take effect Oct. 1, 1914:—

Charles H. Carr, Bigelow School-house...\$700.00
Charles L. Drew, Mechanic Arts High School-house 700.00
Laid over.

RESIGNATIONS FROM AND APPOINTMENTS TO PORTABLES.

A communication was received from the Schoolhouse Custodian, under date of Sept. 21, 1914, submitting the resignation of Cornelius A. Kenneally as janitor of Portable No. 20, located in the yard of the John A. Andrew School, to take effect Sept. 18, 1914.
Placed on file, and the resignation accepted.

A communication was received from the Schoolhouse Custodian, under date of Sept. 21, 1914, submitting the resignation of Joseph A. Crossman as janitor of Portable No. 65, located in the yard of the Hobart-street School, to take effect Sept. 11, 1914.
Placed on file, and the resignation accepted.

A communication was received from the Schoolhouse Custodian, under date of Sept. 21, 1914, recommending that Winthrop B. Robinson, janitor of the Oliver Wendell Holmes School-house, be appointed janitor of Portable No. 6, located in the yard of that school, to take effect Sept. 1, 1914.
Placed on file, and the appointment approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Sept. 21, 1914, recommending that Bartholomew J. Dooley, janitor of the Thomas Gardner School-house, be appointed janitor of Portable No. 65, located in the yard of that school, to take effect Sept. 18, 1914.

Placed on file, and the appointment approved, to take effect on the date stated.

APPOINTMENT AND PAYMENT OF ACTING JANITORS.

To Daniel J. O'Neill, Bailey street School-house and Portables Nos. 51, 70, 84, from Sept. 13 to 21, 1914, inclusive, twenty-one and 48-100 dollars (\$21.48).

To John H. Palmer, John Greenleaf Whittier School-house and Portables Nos.

10 and 103, from Sept. 15 to 21, 1914, inclusive, twenty-three and 48-100 dollars (\$23.48).

To John P. Powers, Old Gibson School-house, from Sept. 15 to 21, 1914, inclusive, eleven and 75-100 dollars (\$11.75).

To John B. Pratt, Oak Square School-house, from Sept. 15 to 21, 1914, inclusive, eleven and 36-100 dollars (\$11.36).

To David Sennott, William E. Endicott and Glenway School-houses, Glenway Annex and Portables Nos. 67 and 83, from Sept. 15 to 19, 1914, inclusive, twenty-three and 9-100 dollars (\$23.09).

To John J. Sheehan, Florence street School-house, from Sept. 15 to 21, 1914, inclusive, thirteen and 94-100 dollars (\$13.94).

To James J. Tansey, Nahum Chapin School-house, from Sept. 15 to 21, 1914, inclusive, ten and 28-100 dollars (\$10.28).

To Thomas H. Walsh, Louisa May Alcott School-house, from Sept. 15 to 19, 1914, inclusive, twelve and 98-100 dollars (\$12.98).

To Thomas H. Walsh, Parkman School-house, Sept. 20 and 21, 1914, inclusive, four and 22-100 dollars (\$4.22).

To Jeremiah J. White, William Eustis School-house, from Sept. 15 to 21, 1914, inclusive, thirteen and 32-100 dollars (\$13.32).

ATTENDANCE OF BOSTON PUPIL IN BROOKLINE SCHOOL.

On motion, it was

ORDERED, That a permit be issued to permit the attendance of Helen M. Park, residing at 247 Allston street, in the Brookline schools during the school year 1914-15, the cost of her tuition to be assumed by the city.

RATE OF PENSION TO MARY A. P. CROSS.

On motion, it was

ORDERED, That the rate of pension of Mary A. P. Cross, retired under order passed at the meeting of May 25, 1914, to take effect Sept. 30, 1914, be established at four hundred thirty-six dollars (\$436) instead of four hundred twenty dollars (\$420). It now appearing that her salary at date of retirement will be thirteen hundred eight dollars (\$1308) instead of twelve hundred sixty dollars (\$1260) as originally figured.

TELEPHONE APPARATUS, NEW HIGH SCHOOL OF COMMERCE BUILDING.

On motion, it was

ORDERED, That the Board of School-house Commissioners be requested to have the contractor for the new High School of Commerce omit all telephone instruments, annunciators, and appliances from the construction of that building.

BOUNDARY LINES, JOHN D. PHILBRICK SCHOOL.

A communication was received from Charles J. Lennon, requesting that some action be taken in the matter of regulating the boundary lines of the John D. Philbrick School, as it now appears that pupils living very near the school are obliged to attend a school at some distance, while pupils living farther away attend the John D. Philbrick School.

Referred to the Superintendent for investigation and report.

UNFINISHED BUSINESS.

The order laid over at the meeting of Sept. 14, 1914 (see p. 135) establishing the compensation of persons employed in connection with the extended use of public schools for the year ending Aug. 31, 1915, was taken up and passed.

The three orders laid over at the previous meeting (see p. 136), making changes in the list of authorized text and supplementary books, were taken up and collectively and unanimously passed.

The order laid over at the meeting of May 4, 1914 (see p. 69) amending the Course of Study for General High Schools, was taken up and passed.

The order laid over at the meeting of Sept. 14, 1914 (see p. 137), amending section 138, paragraph IV of the rules, was taken up and passed.

The order laid over at the meeting of

Mar. 2, 1914 (see p. 23), dropping a book from the list of text books authorized for use in the elementary schools, was taken up and placed on file.

The communication from the Director of Evening and Continuation Schools laid over at the meeting of Apr. 21, 1914 (see p. 63), relative to the cost of carrying out the recommendations of the Massachusetts Commission on Immigration, as contained in the report of that Commission, was taken up and placed on file.

The Superintendent reported that his Annual Report for the year 1914 will contain recommendations concerning the extension of practical social training of pupils, as requested in the order passed by the Board at the meeting of Dec. 15, 1913 (see p. 214).

The report was accepted.

The communication referred to the Trial Board at the meeting of May 18, 1914 (see p. 81), with reference to failure of an Attendance Officer to meet a just obligation, was taken up and placed on file.

The communication from the Master of the Boston Industrial School for Boys, under date of June 2, 1914, recommending that certain provisions be entered in the contract for the erection of the new building for that school, which was referred to the Chairman for conference with the Board of Schoolhouse Commissioners at the meeting of June 11, 1914 (see p. 122), was taken up and placed on file.

ADJOURNMENT.

The Board adjourned at 8.10 P. M.

Attest:

ELLEN M. CRONIN,
Secretary pro tempore.

PROCEEDINGS OF CITY COUNCIL.

Friday, September 25, 1914.

Meeting of the City Council, held in the Council Chamber, City Hall, at 1.30 p. m. President McDONALD in the chair and a quorum being present, for the purpose of drawing jurors, the Mayor being absent, viz.:

Forty-one traverse jurors, Superior Criminal Court, First Session, to appear October 7, 1914:

Charles F. McCarthy, Ward 16; Robert Joyce, Ward 1; Louis Fine, Ward 6; James Daley, Ward 8; Joseph Belange, Ward 1; John R. Fisher, Ward 10; Edward R. Marshall, Ward 20; Paul M. Hamlin, Ward 11; Patrick J. Mahoney, Ward 18; Thomas E. Johnson, Ward 10; Charles W. Smith, Ward 11; John J. Costello, Ward 26; Per O. Nelson, Ward 14; Elwin B. Leavitt, Ward 10; John J. Montgomery, Ward 7; William Goldberg, Ward 8; James H. Timmons, Ward 1; Peter M. Manson, Ward 14; John B. Delany, Ward 8; John J. McDermott, Ward 3; Louis Fox, Ward 3; Timothy J. Crowley, Ward 7; George L. Smith, 2d, Ward 25; Thomas W. Sheridan, Ward 16; John Dannahy, Ward 20; Frank N. Phelps, Ward 20; Francesco Velardo, Ward 2; William C. McCoud, Ward 18; Harry Cohen, Ward 9; Charles H. Brown, Ward 19; William A. Farrell, Ward 5; Abram Luchnik, Ward 8; Julius Pelletier, Ward 22; William J. Ryan, Ward 9; Michael McLaughlin, Ward 19; Samuel Stickler, Ward 11; John J. Leary, Ward 7; James E. Coveney, Ward 14; Daniel O'Brien, Ward 18; Peter Doyle, Ward 3; Joseph M. Hubbard, Ward 20.

Forty-one traverse jurors, Superior Criminal Court, Second Session, to appear October 7, 1914:

James F. Laughlin, Ward 3; Edgar L. McKie, Ward 1; Thomas Martin, Ward 20; Thomas J. Stephenson, Ward 5; Marston R. Stubbs, Ward 16; John H. Molloy, Ward 20; Charles W. Morse, Ward 23; Amos W. Rideout, Ward 21; Robert Orchard, Ward 23; Francis P. Markey, Ward 5; Martin S. Carney, Ward 4; Eugene W. Lehner, Ward 18; George A. Miller, Ward 2; Robert F. Pickett, Ward 24; John E. Curtis, Ward 17; Harry E. Russell, Ward 16; John Coleman, Ward 9; Ralph A. Barry, Ward 21; William L. Doonan, Ward 22; John J. Collins, Ward 20; James A. Herbert, Ward 1; John H. McCall, Ward 25; William I. Thing, Ward 14; Charles H. Hopper, Ward 10; George H. Hayes, Ward 1; Joseph H. Kelley, Ward 19; Jacob L. Snyder, Ward 17; Albert Roessle, Ward 22; Joseph F. Kelleher, Ward 16; William Fox, Ward 25; George Shackley, Ward 23; Michael J. Meleedy, Ward 24; Francis Pasquale Malgeri, Ward 2; Patrick J. Moran, Ward 16; Henry L. Borgess, Ward 2; John E. Wetmore, Ward 1; Edward H. Stone, Ward 7; Francis A. Ellis, Ward 25; Isaac B. Grout, Ward 19; George W. C. Fenton, Ward 25; William J. Kelly, Ward 15.

Adjourned at 2.02 p. m.

Monday, September 28, 1914.

Regular meeting of the City Council held in the Council Chamber, City Hall, at three o'clock p. m., President McDONALD in the chair and all the members present.

The Council voted, on motion of Coun. WOODS, to dispense with the reading of the records of the last meeting.

LEASE OF PROPERTY, SHIRLEY STREET.

The following was received:

City of Boston,

Office of the Mayor, September 28, 1914.
To the City Council:

The City of Boston is owner of a plot of land located at Shirley street and Massachusetts avenue, in the Roxbury district, containing 60,054 feet, at an assessed valuation of \$30,000, at the present time used for the storage of old settees.

In my opinion this lot would furnish an excellent site for the establishment of a manufacturing plant, but the possibility of values increasing rapidly in this section are such that it would be inadvisable to sell the same.

I accordingly recommend to your honorable body that authority be voted to lease this property for a long term of years at 4 per cent of assessed valuation and the payment of real estate taxes during the life of the lease.

Respectfully,

JAMES M. CURLEY, Mayor.
Referred to the Committee on Public Lands.

SALE OF PROPERTY, NEPONSET RIVER.

The following was received:

City of Boston,

Office of the Mayor, September 28, 1914.
To the City Council:

The land comprising 21 acres, situated on the Neponset river, near the Milton line in Hyde Park, formerly the property of the Hyde Park Water Power Company, may be developed for business purposes.

This lot is assessed for \$12,500 and, in my opinion, a long term lease at 4 per cent of the assessed valuation and the payment of real estate taxes would be a good proposition for the city, as the land in question should furnish, at low cost, an excellent site for a manufacturing plant in a section of the city where development is at present at a standstill.

I accordingly recommend that your honorable body grant such an authorization.

Respectfully,

JAMES M. CURLEY, Mayor.
Referred to the Committee on Public Lands.

LEASE OF PROPERTY, SEAVER STREET.

The following was received:

City of Boston,

Office of the Mayor, September 28, 1914.
To the City Council:

The plot of land located at Seaver street and Walnut avenue and which has been maintained as a park, adjoining property of William J. Carlin, has been recommended to be sold by the Finance Commission.

This lot has an area of 6,093 feet and is assessed for 60 cents per foot. The restrictions on the lot, however, are such that it would be an injustice to establish an upset price for the sale of the same at a figure in excess of two-thirds of the assessed valuation, and I accordingly recommend to your honorable body that this lot be sold at an upset price not in excess of 40 cents per foot.

Respectfully,

JAMES M. CURLEY, Mayor.
Referred to the Committee on Public Lands.

SALE OF DUMPING SCOW.

The following was received:

City of Boston,

Office of the Mayor, September 24, 1914.
To the City Council:

I transmit herewith communication from the Commissioner of Public Works, in which he asks for permission to sell, at public auction or otherwise, one old Barney dumping scow, the property of his department—estimated value, \$500.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,
Public Works Department,
September 16, 1914.

To the Honorable the Mayor:

Sir,—I respectfully recommend that the authority of the City Council be obtained to sell, at public auction or otherwise, one old Barney dumping scow, the property of this department, value estimated to exceed five hundred (500) dollars. This scow is of no present service to the department and requires continual pumping out, on account of leakage, entailing considerable expense.

Respectfully,

L. K. ROURKE,
Commissioner of Public Works.
Referred to the Executive Committee.

RECONSTRUCTION OF WINTHROP BRIDGE.

The following was received:

City of Boston,
Office of the Mayor, September 24, 1914.
To the City Council:

I transmit herewith an authorization from the War Department for the reconstruction of Winthrop Bridge, across Belle Isle Inlet, otherwise known as Chelsea creek, between East Boston and the town of Winthrop, with plans of the same.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Public Works Department,
September 24, 1914.

To the Honorable the Mayor:

Sir,—I respectfully transmit, to be submitted to the City Council, attached authorization of the War Department for the reconstruction of Winthrop Bridge, across Belle Isle Inlet (otherwise known as Chelsea creek, between East Boston and the town of Winthrop, with plans of the same.

Respectfully,
L. K. ROURKE,
Commissioner of Public Works.

(Attached was authorization of War Department and plans referred to.)
Placed on file.

RECONSTRUCTION OF MALDEN BRIDGE.

The following was received:

City of Boston,
Office of the Mayor, September 28, 1914.
To the City Council:

I transmit herewith an authorization from the War Department, with plans, for the reconstruction of Malden Bridge, across the Mystic river, between the cities of Boston and Everett, Massachusetts.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Public Works Department,
September 24, 1914.

To the Mayor of Boston:

Sir,—I respectfully transmit, to be forwarded to the City Council, attached letter and authorization of the War Department, with plans, for the reconstruction of Malden Bridge, across Mystic river, between the cities of Boston and Malden.

Respectfully,
L. K. ROURKE,
Commissioner of Public Works.

Attached was authorization of War Department, etc., and plans referred to.
Placed on file.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the City Council the Mayor submitted the following appointments for term ending April 30, 1915, viz.:

1. Thomas A. McDonough, 33 Cornwall street, Ward 22; Arthur Benjamin Lassitor, 33 Norway street, Ward 10; Louis M. Bianco, 12 Parmenter street, Ward 6; Owen Gallagher, 192 Boston street, Ward 16; Cornelius C. Sheridan, 1870 Dorchester avenue, Ward 24, to be Constables.

2. James B. Shaw, Weigher of Beef for the term ending April 30, 1915.

3. Weigher of Coal for a period ending April 30, 1915. A. W. Thompson, 1 Linden place, Everett, Mass., and to be employed by the Lehigh and Wilkesbarre Coal Company, of Charlestown, Mass.

4. William H. McLaughlin, 1192 Cambridge street, Cambridge, and Frank McLaughlin, 13 Tremont street, Cambridge, to be Weighers of Coal for the Hampden Coal Company, 180 Hampden street, Boston, for the term ending April 30, 1915.

Severally laid over under the law.

DEVELOPMENT OF CHARLESTOWN PROPERTY.

The following was received:

City of Boston,
Office of the Mayor, September 14, 1914.
Gentlemen of the City Council:

It is the purpose of Frederick Joy and others to develop properties owned by William A. Gaston *et al.*, trustees, and George L. Smith heirs, Medford street, Charlestown. In connection with the proposed development which, I am informed, will represent an outlay of \$250,000, it is their desire that a spur track be laid across land of the city located on Medford street in Charlestown district, and for which they are agreeable to pay such reasonable sum as in the opinion of your honorable body should be paid.

In my opinion it should be possible to make this grant for a nominal sum per annum. By this means it would be possible to conserve the city's interests and at the same time secure a reasonable return.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Public Works Department, July 9, 1914.
To the Honorable the Mayor:

Sir,—I am in receipt of the attached letter and blueprint from Mr. Fred Joy, relative to laying of spur track across the wharf property of the City of Boston at the corner of Medford and Terminal streets, Charlestown.

I would recommend that Mr. Joy's proposition be accepted, and that the Law Department prepare the necessary and proper papers in the transaction. The laying of this track, as indicated, will permit the development of the present vacant property east of the city yard, thus offering increased facilities for business interests, and also an increase of the taxable property in the city. Any inconvenience caused by the laying of this track across the city yard will be more than offset by the privilege of the use of this track by the city.

Respectfully,
L. K. ROURKE,
Commissioner of Public Works.

Boston, July 8, 1914.

Dear Sir,—Confirming the proposition which I made to you at your office the other day, I would say that Mr. William A. Gaston and others, trustees of the wharf property adjoining the wharf property owned by the City of Boston at the corner of Medford and Terminal streets in Charlestown, will pay to the City of Boston two hundred and fifty dollars for the right to lay, maintain and use a spur track from the Boston & Lowell Road across the said wharf property of the City of Boston in the location and along the lines as shown on the plan accompanying this proposition, said plan being entitled "Plan showing the proposed location for side track to properties of William A. Gaston *et al.*, Trustees"; i being understood, of course, that said spur track is to be laid on grade and that the City of Boston is to have the use of said track when laid.

Will you kindly let me hear from you in this matter at your early convenience, and oblige,
Very respectfully yours,

FRED JOY.

Referred to the Executive Committee.

PATHOLOGICAL BUILDING, CITY HOSPITAL.

The following was received:

City of Boston,
Office of the Mayor, September 24, 1914.
To the City Council:

I transmit herewith a communication from the Board of Trustees of the City Hospital requesting authorization for the transfer of \$3,000 from the appropriation for Hospital Department, Fireproof Storage Building, to an appropriation for Pathological Building, Remodeling Basement.

Forwarded herewith also is an order making provision for this transfer, which I deem advisable and recommend.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Hospital Department, August 31, 1914.
Hon. James M. Curley,
Mayor of Boston:

Dear Sir,—By vote of the Board of Trustees we requested an appropriation of \$3,000 for the building of a fireproof storage building, and this was granted on July 30. On looking over the grounds, the trustees find that the basement of the Pathological Building would furnish an excellent site for a paint shop and the storage of alcohol and other explosives. Of course, some money would have to be expended for making alterations. The Pathological Building is not used for patients, is removed from the other buildings, and is fireproof. We desire to know if it would be agreeable to you for us to use a part or the whole of the appropriation for the remodeling of the basement. In my opinion, the place proposed is a most excellent one, and it would not be as expensive as erecting an entirely new building.

I have the honor to remain, on behalf of the trustees,
Very respectfully yours,
A. SHUMAN,
President Board of Trustees.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of \$3,000 from the appropriation for Hospital Department, Fireproof Storage Building, to an appropriation for Pathological Building, Remodeling Basement.

Referred to the Executive Committee.

LAND FOR PUBLIC MARKET.

The following was received:

City of Boston,
Office of the Mayor, September 14, 1914.
To the Honorable the City Council:

Gentlemen,—Mr. George S. Smith has generously offered to give the city the use of his land at the corner of Shawmut avenue and Castle street for a public market without cost to the city for an indefinite term.

There is considerable public sentiment in favor of establishing a market of this kind, as it is generally believed that it will result in lowering the prices of food, thereby relieving the condition of the poor. We could not conduct an experiment of this kind under more favorable auspices, as the cost to the city will be very small, probably not exceeding \$500, which will be required for grading and other incidental purposes.

I respectfully suggest that the City Council take formal action in accepting Mr. Smith's offer by passing the accompanying orders.

Respectfully yours,
JAMES M. CURLEY, Mayor.

Ordered, That the City Council hereby accepts the offer of George S. Smith to give to the City of Boston for an indefinite period free use of his land at the corner of Shawmut avenue and Castle street, said land to be used as a public market.

Ordered, That a public market for the sale of food be and hereby is established, said market to be located at the corner of Shawmut avenue and Castle street on land owned by George S. Smith, and the Superintendent of Markets is hereby authorized to take charge of the public market hereby established, to preserve order therein, under rules and regulations established by him and approved by the Mayor, and to assign stands upon terms and conditions fixed by him, subject to the approval of the Mayor.

Ordered, That the sum of five hundred dollars is hereby transferred from the Reserve Fund to the appropriation for the Market Department, to be expended by the Superintendent of Markets in the preparation and establishment of a public market at the corner of Shawmut avenue and Castle street.

Referred to the Executive Committee.

MUNICIPAL BUILDING BONDS, WARD 12.

The following was received:

City of Boston,
Office of the Mayor, September 28, 1914.
To the City Council:

In reply to your order of September 14, 1914, relative to bonds issued for Municipal Building, Ward 12, etc., I transmit herewith a communication from the City Auditor giving the information requested.

Respectfully yours,
JAMES M. CURLEY, Mayor.

City of Boston,
Auditing Department, September 25, 1914.
Hon. James M. Curley,
Mayor of Boston:

Sir,—In reply to the order of the City Council of September 14, 1914, requesting information as to the amount of annual interest now being paid on the bonds issued for the Municipal Building, Ward 12, also a statement of rents received to September 1, 1914, from the occupants of the buildings on the proposed site and all amounts expended upon said buildings, would submit the following: The interest on the bonds issued will be \$1,760 the first year; this amount will be reduced each year as the annual installments of debt fall due.

The gross rentals of buildings to September 1, 1914.....	\$613 66
Less commissions.....	\$39 68
Repairs and cleaning.....	31 34
	<u>71 02</u>
	<u>\$542 64</u>

Respectfully,
J. ALFRED MITCHELL, City Auditor.
Referred to the Executive Committee.

GIFT OF LAND, DORCHESTER.

The following was received:

City of Boston,
Office of the Mayor, September 28, 1914.
To the Honorable the City Council:

Gentlemen,—I transmit herewith a communication from Thomas C. Bachelier in behalf of the trustees under the will of Charles H. Greenwood, late of Boston, deceased, offering to the city a parcel of land at the corner of Harvard and Glenway streets, in the Dorchester district, containing 10,000 square feet, and the sum of thirty-five thousand (\$35,000) dollars, the land to be used in conjunction with other land as a site for a new school building, and the money to be used in the construction thereof; provided the city will purchase from the trustees the adjoining lot containing approximately 50,000 square feet at 40 cents per square foot, and will erect upon the land a schoolhouse, to contain a hall capable of seating at least 500 people, and install therein a suitable tablet commemorative of the gift, which hall shall be used substantially in accordance with the provisions of the said will of Charles H. Greenwood.

The will provides that this hall shall be used for elevating, social or religious gatherings, or those held for the welfare of the neighborhood or the public.

Upon receipt of the inclosed communication I requested the Schoolhouse Commissioners to investigate the matter and report to me. I am informed by the chairman of the commission that the site offered is within a district designated by the School Committee for the erection of a new school building, is an ideal location therefor, and that if this gift is accepted the Schoolhouse Commission is ready to purchase the adjoining lot upon the terms stated, and erect thereon a new school building, the cost of which is to be in part defrayed by the said gift of \$35,000. It appears that the acceptance of this gift will provide a large part of the cost of a new school building and that the conditions of the gift can be complied with without in any way interfering with the use of the building as a school.

I recommend, therefore, the passage of the accompanying order accepting this gift, subject to the restrictions as set forth by the donors.

Respectfully,

JAMES M. CURLEY, Mayor.

August 20, 1914.

Hon. James M. Curley,

Mayor of Boston:

Dear Sir,—The trustees appointed under the will of Charles H. Greenwood, late of Boston, which will was duly probated in the County of Suffolk on April 24, 1913, being case No. 160,650, appointed for the purpose of erecting a memorial structure which should contain among other things a hall capable of seating five hundred people and some memorial tablet giving credit to the donor, having found it difficult to carry out the testator's request literally and having determined that it was impracticable for them to undertake such structure largely for the reason that no provision was made for its future maintenance, care and upkeep, do hereby offer to the City of Boston a certain parcel of land at the corner of Harvard and Glenway streets, in that part of Boston formerly Dorchester, containing 10,000 square feet, and the sum of \$35,000, being the land and the money donated under the will to us as such trustees, provided the City of Boston shall purchase from the estate of said Charles H. Greenwood, deceased, the remaining land adjoining said parcel and belonging to said estate lying between Glenway and Greenwood streets and containing approximately 50,000 square feet, more or less, for the price of forty cents per square foot, and shall erect upon the land thus given and thus purchased a schoolhouse to contain a hall capable of seating at least five hundred people and a suitable tablet commemorative of the donor, which hall shall be used substantially in accordance with the provisions of the will of said Charles H. Greenwood, deceased.

This matter has been brought to the attention of the Probate Court and the judge thereof determined that before final action by the court authorizing such gift, a definite acceptance by the City of Boston of the terms practically above outlined should be made as a matter of record.

The trustees hope that this gift, conditioned as above stated, will be accepted, for they firmly believe not only that the literal carrying out of the will is impracticable but that its use as above specified more nearly than any other way carries out the wishes and desires of the testator.

Yours very truly,

THOMAS C. BACHELDER,
for Self and Co-trustees.

P. S.

In explanation of words in above letter "substantially in accordance with the provisions of the will," the trustees definitely agree and determine that the hall in such schoolhouse shall never be used for any religious gathering, but shall be used solely for elevating or social gatherings or those held for the welfare of the neighborhood or the public, which is the same purpose that now governs the use of such halls, namely, the holding of meetings, entertainments and concerts for the scholars, their fathers and mothers and the public.

THOMAS C. BACHELDER,
for Self and Co-trustees.

Ordered, That the City of Boston hereby accepts, subject to the restrictions imposed by the donors, the offer made by the trustees of the estate of Charles H. Greenwood, late of Boston, deceased, of a parcel of land at the corner of Harvard and Glenway streets in the Dorchester district, containing 10,000 square feet, and the sum of \$35,000, the land when acquired to be placed in charge of the Schoolhouse Department and the money, when deposited with the City of Boston, to be placed to the credit of the appropriation for Land and Buildings for Schools, and to be used by the Schoolhouse Department in part payment for the construction of a new school building upon said land acquired from the estate of Charles H. Greenwood.

Referred to the Executive Committee.

PETITIONS REFERRED.

The following petitions were approved and referred to the committees named, viz.:

Claims.

Elizabeth Weinberg, for compensation for damages at 174 Chambers street by water escaping from water pipes.

Frank H. Cowin & Co., to be paid for work done but not provided for in their contract for laying water pipes in Washington street, near Washington Heights.

Hill, Smith & Co., for compensation for damage at 8 Milk street by a leak in water pipes.

Samuel Swartz, for compensation for damage to automobile by one of the city teams.

D. M. Kilgore, for compensation for damage to automobile by a defect in Church street, West Roxbury.

Mary E. Harrington, for a hearing on her claim on account of injuries received from a fall on Washington street, at Avery street.

Mary J. MacDougall, for compensation for damages at 167 West Brookline street by the stopping up of sewer.

Sarah D. Blanchard, for compensation for damages at 35 Armandine street, Dorchester, by backing up of street water.

Charles V. Coffey, for compensation for injuries caused by a defect in sidewalk at 100 Poplar street, Ward 8.

Mrs. Mary Leonard, for compensation for loss of fowls killed by dogs.

Joseph T. Donovan, for compensation for damages at 167 Bolton street, caused by backing up of sewage.

Executive.

Max Eisenberg, for license to sell, rent or lease firearms at 67 Green street, Ward 8.

William McKinnon *et al.*, for sidewalks on Evans street, Ward 24.

Thomas Boyan, city employee, to be retired under the provisions of chapter 765, Acts of 1914.

James McGuinness, city employee, to be retired under the provisions of chapter 765, Acts of 1914.

CLERK HIRE.

W. T. A. Fitzgerald, Registrar of Deeds, in accordance with the provisions of section 33, chapter 22, of the Revised Laws, submitted a list of persons employed by him from August 24 to September 21, certifying that work had been performed to the amount of \$3,624.12.

Approved and ordered paid.

CONSTABLE'S BOND.

The City Treasurer, after having duly approved of the same, submitted the constable's bond of John W. Wilkinson.

Approved by the City Council.

RESIGNATION OF ELECTION COMMISSIONER.

Notice was received by the City Clerk from the Mayor of the resignation of Tilton S. Bell as Election Commissioner.

Placed on file.

APPOINTMENT OF ELECTION COMMISSIONER.

Notice was received from the Mayor of the appointment of Frank Seiberlich as Election Commissioner, notice of same having been sent to the Civil Service Commission.

Placed on file.

HEARINGS ON LOCATIONS.

Notices were received from the Public Service Commission of hearings on September 29 at 10.30 a. m. on 449th, 450th, 451st locations for West End Street Railway Company.

Placed on file.

TRACK LOCATIONS.

Copies of orders were received from the Street Commissioners granting the following locations to the West End Street Railway Company, viz.: Cross connection, Beacon street, 451st location. Relocation, Dartmouth street, 452d location. Ordered printed and placed on file.

APPROVAL OF ALTERATIONS.

Notices were received from the Public Service Commission approving of alterations of the Boston & Albany Railroad Company, as follows, viz.:

Harrison Avenue Bridge.
Franklin Street Bridge.
Placed on file.

APPOINTMENT OF FIRST ASSISTANT ASSESSORS.

Notice was received by the City Clerk from the Assessing Department of appointment of permanent first assistant assessors, the same having been certified to by the Civil Service Commission. Placed on file.

STORAGE OF EXPLOSIVES.

Notices were received of intention to continue the use of buildings for explosives or inflammable fluids, as follows:

American Sugar Refining Company, storing gasoline, at 52 Granite street.

Centre Street Garage, keeping and sale of gasoline, at 156 Centre street, Ward 20.

Edison Electric Illuminating Company of Boston, keeping of gasoline, at 1165 Massachusetts avenue.

Philip S. Aronson, keeping of gasoline, at 25 Lawrence avenue, Dorchester.

George A. Gardner, keeping and sale of gasoline, at 541 Tremont street.

Stephen Bradford, keeping and sale of gasoline, at 145 Norfolk street, Ward 24.

David W. Huntley, keeping and sale of gasoline, at 15-21 Hawkins street.

J. H. Corney, keeping of gasoline, at corner M and Emerson streets, South Boston.

J. H. Corney, keeping and sale of gasoline, at 815 East Fourth street, South Boston

Placed on file.

MINORS' LICENSES.

President McDONALD submitted reports on petitions for minors' licenses for eleven newshoys, nine vendors and two bootblacks—recommending that licenses be granted.

Reports accepted; licenses granted on usual conditions.

CONFIRMATION OF APPOINTMENT.

President McDONALD called up unfinished business, No. 1, viz.:

1. Action on appointments by the Mayor of Charles M. Griffin and Arthur R. Towle to be constables (without bonds) for the term ending April 30, 1915.

The question came on confirmation. Committee—Coun. Attridge and Ballantyne. Whole number of ballots cast 9, yeas 9, and the appointments were confirmed.

CITY FLAG.

Coun. KENNY called unfinished business, No. 2, from the calendar, the same relating to a city flag and municipal standard.

Recommitted to the Committee on Ordinances on motion of Coun. KENNY.

OLD CAPSTONE IN ROXBURY COURT.

Coun. BALLANTYNE offered an order—That his Honor the Mayor be requested to transfer the sum of \$300 from the Reserve Fund to the appropriation for Public Buildings Department, said sum to be used for the purpose of placing the capstone of the Washington School, marked "Washington School, 1840," in the Roxbury Municipal Court, which building occupies the site of the old schoolhouse.

Referred to the Executive Committee.

SPECIAL CONGRESSIONAL ELECTIONS.

Coun. WATSON submitted the following: Whereas, The tenth and eleventh Massachusetts Congressional districts are without representation in the popular branch of the National Congress; and

Whereas, Several of the great nations of Europe are at war with each other; and

Whereas, The United States is now at peace with the world; and

Whereas, There is a possibility of this country being confronted with a condition that may call for action either to act as arbitrator or to pass upon a recommendation that President Wilson may make to Congress before the Sixty-Fourth Congress convenes in March, 1915; and

Whereas, There being vacancies as herein mentioned in the tenth and eleventh districts, and unless said vacancies are filled at once the 500,000 residents of the tenth and eleventh districts, or one two-hundredth of the entire population of the United States, will be without representation in the popular branch of Congress; be it

Resolved, That the City Council of the city government of Boston is of the opinion, in view of the possibility of a crisis as above mentioned in the affairs of our country, that the vacancies herein mentioned be filled at once, the objections of his Honor the Mayor notwithstanding, and the question of dollars and cents should not be considered to the exclusion of principle, patriotism and duty; be it

Ordered, That a copy of these resolves be sent to his Excellency David I. Walsh.

The question came on the adoption of the preambles, resolution and order.

Coun. WATSON—Mr. President, I am going to ask for a suspension of the rule in order that this order may go upon its passage now. I do that for the purpose of expressing myself on the resolutions. The tenth and eleventh Congressional districts are to-day without representation in the popular

branch of the national Congress. As the resolutions state, one-half million people, equal to one two-hundredth part of the entire population of these United States, are to-day without a representative there. The vacancies existing are the result of the appointment to positions by the President of the two members representing the districts. When my resolutions were being read a fellow councilor said I was making a mistake. I did not have an opportunity to answer him at that time; I had no opportunity to consider what argument he had to back up his statement that I was making a mistake. But I am going to discount his argument now, I think, by stating my reasons for introducing these resolutions. I know, Mr. President and members of the Council, that the first thought that occurs to the average man's mind, more particularly those of members of this Council, is that I am sore over the result of last Tuesday; also, that perhaps I have a desire to be a candidate for the short term. Whether or not I have any desire or intention to be a candidate for the short term in Congress in the eleventh district in the event of there being a special election has no bearing on these resolutions. Had I been nominated last Tuesday, I would also have favored a contest or election for the short term and would have wanted to be a candidate. To-day certain newspapers in the community are fomenting or agitating trouble, possibly warfare, with the adjoining republic. There is a bare possibility that there may be some action taken by the President of the United States and by Congress in the matter of intervening in that neighboring republic. In the eleventh Congressional district is the center of wealth and influence in the New England states. Perhaps no community in the entire United States will be more affected by being without representation in the popular branch of Congress than the eleventh Congressional district. It may be, as his Honor the Mayor has said, that two Democrats will be elected from those two districts, but what guaranty have we got that two Democrats will be elected? And what matters it if a Socialist, a Progressive or a Republican is elected? The district is entitled to representation in Congress. It is barely possible that the unanimous opinion of the voters, citizens and residents of the eleventh district might be against some action that the President might take or some course that he might want to take. It might be that those two districts might decide by their votes a contest on the floor of Congress. His Honor the Mayor looks at the question of dollars and cents, the expense. I ask any member of this Board if he does not agree with me that the question of the price of a primary and election should not interfere with our doing our duty? Dollars and cents should not count. If his Honor the Mayor had signified his desires to the Governor of this Commonwealth prior to last Friday, so that the Governor might have issued a precept, the cost of holding the primaries and elections would have been of little consequence—a small amount, less than \$10,000; but by his action, waiting until the last gun was fired, I am informed that it will cost \$21,000 to hold the primaries and election. I would not care if it cost \$100,000. I am a resident, a voter and a taxpayer in the eleventh Congressional district. I want to be represented in the present Congress in the popular branch. I want my views, if I may say so, expressed, if I can get them expressed through a member from my district. I say, without fear of contradiction, that had the contest in the tenth district gone another way there would have been a special primary and a special election to fill the vacancy. No sour grapes on my part; I am absolutely satisfied with the result of the primaries. The voters spoke their minds. They voted; they selected another, and I propose to support the Democratic candidate who defeated me. But I do believe that in the eleventh and tenth districts there should be a special primary and election to fill the vacancies now existing. I read in the papers this morning that there is another miniature revolution on in Mexico, our neighboring republic, and that there is a desire on the part of certain influences to intervene. I would like to be a member of Congress, or I would like some member of Congress to represent me in the eleventh district who would vote against intervening in Mexico or declaring war on Mexico. I would like to be represented that way or to take that position myself. I am going to ask this Council to-day perhaps not to report this resolution I have introduced, but to report a modification of it suggested to me by the member from Roxbury opposite when I consulted with him. He is the only member with whom I have had a chance to consult on the resolution. I now move that it be referred to the Executive Committee and trust that it will be reported back in a modified form.

The preambles, resolution and order were referred to the Executive Committee.

COST OF WIDENING WASHINGTON STREET, WEST ROXBURY.

Coun. ATTRIDGE offered an order—That the Board of Street Commissioners be requested to submit to the City Council estimates of the cost of widening Washington street, West Roxbury, between La Grange street and Metropolitan avenue, at varying widths from 50 to 100 feet.

Referred to the Executive Committee.

IRON FENCES, PUBLIC RESERVATIONS.

Coun. ATTRIDGE offered an order—That the Board of Park and Recreation Commissioners, through his Honor the Mayor, be requested to provide suitable iron fences to inclose the public reservations in Worcester square, between Washington street and Harrison avenue, and Massachusetts avenue, between Columbus avenue and Washington street, as per the estimates furnished the Council by the Board under date of March 12, 1913.

Referred to the Executive Committee.

OPERATION OF CARS, HARRISON AVENUE.

Coun. ATTRIDGE offered an order—That the Boston Elevated Railway Company, through his Honor the Mayor, be requested to inform the City Council the reasons why cars are not operated on Harrison avenue as asked by the Council in the order passed February 16, 1914.

Passed.

REMOVAL OF PORTION OF ELEVATED STRUCTURE.

Coun. ATTRIDGE offered an order—That the Boston Elevated Railway Company, through his Honor the Mayor, be requested to report to the City Council the reasons for its failure to remove the unused portion of the elevated structure on Castle street from the junction of Washington street as asked by the Council in the order passed December 22, 1913.

Passed.

NAMING OF SQUARE, BRIGHTON.

Coun. WOODS offered an order—That the junction of Brighton avenue and Commonwealth avenue, Ward 25, be hereafter known as Fuller square.

Referred to the Executive Committee.

SHELTER, NEW SUBWAY.

Coun. WOODS offered an order—That the Boston Elevated Railway Company be requested, through his Honor the Mayor, to place a shelter at entrance of new subway, Commonwealth avenue and Beacon street.

Coun. WOODS—Mr. President, this is the entrance to the new subway. It is an open area in a very open place and it will be very hard upon the residents of that vicinity and other people not to have some shelter there. When the wind blows from the Charles river it is enough to blow them across the track, and in order to avoid accidents, I introduce the order.

The order was passed.

CANDLE POWER, GAS LIGHTING.

Coun. COULTHURST offered the following: Whereas, The City of Boston recently entered into a gas lighting contract with Boston Consolidated Gas Company in which, among other things, it is provided that incandescent gas lamps of sixty candle power are to be furnished; and

Whereas, At the hearings before the City Council on said contract it appeared that the lights then furnished by the Rising Sun Street Lighting Company only furnished an illuminating power of about forty candles; and

Whereas, The members of the City Council were expressly assured by Mr. Wrightington, the representative of the Boston Consolidated Gas Company, that said company proposed to maintain said gas lights at not less than sixty candle power if the contract was approved; therefore be it

Ordered, That the Boston Consolidated Gas Company and the Commissioner of Public Works, through his Honor the Mayor, be requested to inform the City Council what steps, if any, have been taken to establish the candle power of said lights at sixty candles, and what steps, if any, have been made to determine the power of the lights in use since said contract became in force.

Referred to the Executive Committee.

PAYMENT FOR LOSS OF FOWLS.

Coun. BALLANTYNE, for the Committee on Claims, submitted a report on the petition of Mrs. Mary Leonard (referred to-day) for compensation for loss of fowls killed by dogs—recommending the passage of the following:

Ordered, That there be allowed and paid to Mary Leonard the sum of fifteen dollars (\$15), in compensation for the loss of hens killed by dogs August 5, 1914, said sum to be paid from the income from dog licenses.

Report accepted; order passed.

RECESS TAKEN.

The Council voted at 3.45 o'clock p. m., on motion of Coun. KENNY, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber, and were called to order by the President at 5.38 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Report on message of Mayor and communication (referred to-day) for permission to sell dumping scow—recommending passage of the following:

Ordered, That the Commissioner of Public Works be authorized to sell at public auction one old Barney dumping scow, the property of the Public Works Department.

Report accepted; order passed.

(2) Report on petition of Thomas Boyan (referred to-day) to be retired under provisions of chapter 765 of the Acts of 1914—recommending the passage of the following:

Ordered, That the Retirement Board of Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, Thomas Boyan, employed in the Labor Service of the City of Boston in the Public Works Department.

Report accepted; order passed.

(3) Report on petition of James McGuinness (referred to-day) to be retired under the provisions of chapter 765 of the Acts of 1914—recommending the passage of the following:

Ordered, That the Retirement Board of Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, James McGuinness, employed in the Labor Service of the City of Boston in the Public Works Department.

Report accepted; order passed.

(4) Report on petition of Owen Mullaney (referred September 14) to be retired under the provisions of chapter 765 of the Acts of 1914—recommending the passage of the following:

Ordered, That the Retirement Board of Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, Owen Mullaney, employed in the Labor Service of the City of Boston in the Public Works Department.

Report accepted; order passed.

(5) Report on petition of Max Eisenberg (referred to-day) for permit to sell, rent or lease firearms at 67 Green street, Ward 8—that permit be granted.

Report accepted; permit granted on the usual conditions.

(6) Report on order (referred to-day) for transfer of \$300 for placing of capstone of Washington School in Roxbury Municipal Court—that the order ought to pass.

Report accepted; order laid over under the rule. Later in the session Coun. BALLANTYNE said: Mr. PRESIDENT, I move a suspension of the rules so that the order in regard to the Washington School tablet may be taken up and acted upon to-day. It does not involve an expenditure of money. It is simply a request to the Mayor to make a transfer of that amount of money. For that reason I ask a suspension of the rule so that the order may be acted upon to-day.

Coun. WOODS—Mr. President, for information I would like to ask what is the difference between this transfer of \$300 from the Reserve Fund for this purpose and the transfer of \$500 for the market? If there is any difference, I would like to know what it is.

Coun. BALLANTYNE—Mr. President, I would answer the gentleman by saying that this order is not for an expenditure of money. It is simply a request to the Mayor to send in a transfer order for that amount. You will then have a right to lay the matter over for one week, when the Mayor sends in the transfer order.

The rule was suspended and the order was passed. (7) Report on order (referred to-day) for estimates and cost of widening Washington street, West Roxbury, between La Grange street and Metropolitan avenue—that the order ought to pass.

Report accepted; order passed.

(8) Report on order (referred to-day) to provide suitable iron fences around public reservations in Worcester square and Massachusetts avenue—that the order ought to pass.

Report accepted; order passed.

(9) Report on order (referred to-day) naming junction of Brighton avenue and Commonwealth avenue, Ward 25, Fuller square—that the order ought to pass.

Report accepted; order passed.

(10) Report on petition and order (referred August 31) for artificial stone sidewalks on Aspen street, between Copeland and Montrose streets, Ward 21—that the order ought to pass.

Report accepted; order passed.

(11) Report on message of Mayor and communication (referred to-day) relative to bonds issued for municipal building, Ward 12—that the same be placed on file.

Report accepted; communication placed on file.

(12) Report on message of Mayor, communication and order (referred to-day) transferring

\$3,000 for Pathological Building, remodeling of, City Hospital—that the order ought to pass.

Report accepted; order read once and passed, yeas 9.

Assigned for fourteen days for final action.

(13) Report on preambles and order (referred to-day) asking if test of incandescent lights furnished by the Boston Consolidated Gas Company have been made—that the same ought to pass.

Report accepted; preambles and order passed.

(14) Reports on messages of Mayor and communications from Building Commissioner concerning dilapidated buildings at rear 4 Harvard avenue, Ward 20, 252 Lamartine street, Pleasant street, 101 West Fourth street and other streets—that no further action is necessary.

Reports severally accepted.

(15) Report on message of Mayor (referred to-day) and orders concerning the use of the land of George S. Smith at corner Shawmut avenue and Castle street as a public market, said land to be used free for an indefinite period—that the orders ought to pass.

The report was accepted, and the question came on the passage of the orders.

The order accepting the offer of the land was passed.

The order establishing the market on said land, under supervision of the Superintendent of Markets, was assigned to the next meeting.

The order transferring the sum of \$500 from the Reserve Fund to the appropriation for the Market Department, to be expended by the Superintendent of Markets in the preparation and establishment of a public market at the corner of Shawmut avenue and Castle street, was discussed as follows:

Coun. WATSON moved that the order lie on the table for one week; declared lost.

Coun. WATSON doubted the vote and asked for the yeas and nays.

The motion to lay on the table was lost, yeas 4, nays 5:

Yeas—Coun. Ballantyne, Collins, Kenny, Watson—4.

Nays—Coun. Attridge, Coleman, Coulthurst, McDonald, Woods—5.

Coun. WOODS—Mr. President, I move a suspension of the rule that the order may be put upon its passage at this time.

Coun. WATSON—Mr. President, I wish I could remember word for word my statement made in Executive Committee in order that I might duplicate them here now so that they might become a part of the record for reference. I am opposed to this matter being put through to-day for the reason that it is the first time that I have had any opportunity to make any inquiry into the proposition. I believe in municipal markets; I believe in any proposition that will lower the high cost of living. But I believe in fair play. In the Executive Committee one member of this body—I would like to talk to the gentleman for your benefit—in the Executive Committee the President of this body declared himself in favor of this proposition, said he would vote for it to-day, and that he withdrew his opposition to the order. I don't know what the opposition is as I haven't heard any. I don't know that there is any. But if there is any real substantial opposition I am satisfied that there will be one vote in this Council to the very limit against immediate action, to the very limit, and that vote will be mine. I am in favor of public markets. I would vote for one even in the center of the city, for one in every locality. I would favor one in every single neighborhood in the city, in order that the people of Dorchester, West Roxbury, Brighton, Charlestown, East Boston, in fact, all parts of the city, might not be compelled to come away in to Castle street to make their purchases. The Castle street municipal market will be a success, in all probability, if it is conducted as it should be conducted, but what guaranty have we that the middleman is not going to control the new municipal market? We have not the say-so of one single individual who favors this proposition. No member of the Council—and I refer more particularly to the chairman of the Executive Committee—could answer my question, whether or not they were going to erect those stands, or what the arrangement was for the occupying of the same. If the situation is going to be this, that the ordinary grower of garden produce can come in with his vegetables or whatnot, and it is a case of first come, first served, disposing of his produce in the public market and the stands being kept open to those people in that way, well and good. But if the stands are going to be rented out to some individuals who do not grow garden truck, I don't see that it will be any help. Very possibly there will be the same condition of affairs that there is in Faneuil Hall and Quincy Markets. I do not propose to vote for a public market unless I know something about what the plan is. We have not heard a word from those in favor of the proposition, not a word from his Honor the Mayor, not a word or sign as to how the market is going to be managed. Last year I suggested something that would solve, in a way, the public market proposition. I put in an order back a year ago in March in which I suggested that his Honor Mayor Fitzgerald locate in each locality in the city, where there were city yards, branch municipal markets, to which the growers of garden truck could bring their produce and sell it, without paying any rental, selling directly to the consumer. That would benefit the people in my district. Don't the gentlemen of the Council know that right within striking distance of Castle street, right in the ward

of the Councilor from the South End opposite—I refer to Coun. Attridge in particular—doesn't he know that along Harrison avenue there are people who sell produce, garden truck, away below the regular market price? Doesn't he know that people come there from all parts of Boston to purchase? Doesn't he know that the people of West Roxbury cannot go down to Castle street to purchase? Another thing: I want to be satisfied whether there is any opposition to this proposition that ought to be heard. A square deal is a square deal. If the opposition can present a good case, they should be allowed an opportunity. I do not believe they can present a good case, but they are entitled to be heard if there is a good case. I am in favor of public municipal markets. I will go farther and will work for them as hard as anybody, in order to bring down the cost of living, because it benefits me just as much as any other member of the Board. But I will not vote to-day to pass an order for \$500 for the purpose of grading the so-called municipal market on Castle street. I shall, in all probability, vote for it next week. I will vote for \$50,000 to establish municipal markets wherein the ordinary grower of garden truck can sell his produce to the consumer. But I will not vote to-day to suspend the rules for this order. If it is a good proposition, one week's delay will not hurt it. It will not be ready anyway for a month. The work of grading, for which it is proposed to appropriate \$500, must be advertised for by bids. A certain number of days are required for bids to be advertised and opened, and it will mean a delay of two or three weeks at least, or a month under the charter, before anything could be done under the order, before garden truck could be sold. In a month's time we will be at the end of the garden truck season. So what harm will one week's delay make at this time? I trust that, instead of a vote of four against suspension and five in favor, there will be a unanimous vote against suspension of the rule.

Coun. COLLINS—Mr. President, the only question before us now, as far as I can see, is whether or not we ought to suspend the rule and act to-day upon this order. In my opinion, \$500 does not amount to much when it is considered in connection with such a good work as this, namely, the establishment of a public market—but it is establishing a precedent. It does establish us in a policy along which we may wish to go very far within a short time. Before we pass the order for this money, it seems to me we should first consider whether we are willing to go the distance. Personally, I favor the order, and undoubtedly will vote for it a week from to-day. But I think it is bad policy to pass an order which comes in to-day for the first time, especially when it is one that may involve the expenditure of much more money in the near future. I trust that the rule will not be suspended.

Coun. ATTRIDGE—Mr. President, I have only a few words to say upon this proposition. The question comes on accepting the offer which has been made by Mr. George S. Smith of his land at Castle street and Shawmut avenue. He has very generously given—

Coun. WATSON—Mr. President, may I ask the gentleman a question, please?

President McDONALD—Does the speaker give way?

Coun. ATTRIDGE—I do, Mr. President.

Coun. WATSON—I want to ask whether the gentleman is correct or whether I am correct. I understand that we have accepted the offer of Mr. Smith and that the question is now on the appropriation of \$500 for grading. Am I correct or not? I ask for an answer to the question, Coun. Attridge.

Coun. ATTRIDGE—As I understand it, Mr. President, the order for the acceptance has been passed. The gentleman on the other side of the chamber is correct. But the question which is now before the Council is a question on suspending the rule. The question then comes on whether this Council will, after suspending the rule, vote \$500 for a specific purpose. That specific purpose is the preparation and establishment of a public market in the vicinity of Castle street and Shawmut avenue. A statement has been made here regarding opposition to the establishment of this market. I have not heard of any opposition from any individual. This municipal market matter has been well advertised in the newspapers. The business men of Boston know who is Mayor of the city; the business men of Boston know who the nine members of the Council are, or they could easily find out. If there was any opposition to the matter of appropriating \$500 for the preparation of this market the business men of Boston, in my opinion, had plenty of time in which to voice their opposition and acquaint the members of the Council with it. The gentleman on the other side of the chamber has said, "How are we to know whether the middlemen will control this market?" I am going to give the present Mayor of the city at least some credit in a matter of that kind. I am going to say that he has sense enough as Mayor of the city to see to it that the middlemen do not control, because if they do the object of a public market will not be realized. According to the order, this money which is asked for is for preparation. The gentleman on the other side of the chamber has said that it will not be ready for some time. I am willing to trust the Mayor of the city with \$500 to take steps to see that this lot of land is put in proper condition.

Coun. WATSON—Mr. President, will the gentleman yield for a question?

President McDONALD—Does the gentleman yield?

Coun. ATTRIDGE—I do.

Coun. WATSON—Mr. President, through you I desire to ask the gentleman on the opposite side of the chamber if he desires to insinuate that I do not think his Honor the Mayor can be trusted in this question?

Coun. ATTRIDGE—Mr. President, I don't mean to insinuate anything. The gentleman on the other side of the chamber says he would be willing to vote for \$50,000 for municipal markets. But the Mayor to-day is not asking for \$50,000. He is merely asking for \$500 for a start in the preparation and establishment of municipal markets in the city. Of course, this is naturally in the nature of an experiment. The Mayor could not, in my opinion, open a dozen markets at once in different sections of the city. It is a matter of experiment and must be tried out. He has now simply asked for \$500, and I am going to vote to-day, I hope, to give him this \$500, so that he can take the necessary steps to prepare the ground for this that I call a municipal experiment in the establishment of a municipal market.

Coun. WOODS—Mr. President, I am sorry to see this matter delayed. I don't think the members really understand the position. As far as opposition to this market is concerned, I say there is no opposition. In fact, the people down at the other end want to see this thing go through. I believe there is not a member of the chamber who understands the situation down there in the market. Go down to South Market street any morning. Go to North Market street; see the condition of affairs there; you will see farmers coming in with their teams; there is not any space left for them to stand; they have to go around on the side streets and wait until people who are ahead of them get rid of what truck they have. Sometimes they have to stay there until three or four o'clock. Some of the farmers who come to Boston are forced to spend the whole night with a truck load of stuff, having no place to put it.

Coun. WATSON—Mr. President, I would like to ask the gentleman a question.

President McDONALD—Does the gentleman yield?

Coun. WOODS—No, I do not care to answer the questions because they are nonsensical, and I prefer to go along in my own way. I do not interrupt the gentleman when he is talking and I prefer not to be interrupted at this time. I was saying that those conversant with market affairs know that the men in the present markets are only too glad to have something done that will relieve that district. Men go down to what they call the dump, crowd every space there is there, and if it were only to relieve the congestion there this order ought to go through quickly. There is certainly no reason why it should not go through to-day as well as a week from to-day, because practically every member says he will vote for it next week. This \$500 has nothing to do with the market; it is simply preparing a site and giving them a chance to get a team there and sell their products. I hope that the members will look at it in the right spirit; I trust that they will not let their feelings stand too much in their way in this matter; they have agreed not to vote for it to-day, but I hope they will change their minds and put it through. It makes no difference to me personally; as far as I am concerned, I would just as soon wait for a month; as far as the Mayor's position is concerned, a communication came in from the Mayor wanting Haymarket square; he tried to get it to relieve the situation, but the police would not give the permission. The Councilors tell us that they will be willing to vote for this when it comes before us again, but for some reason or another they are not ready to vote to-day. It is only a matter of \$500; it is only an experiment and it may be very advantageous and it may prove advantageous or it may prove detrimental, but Mr. Smith should be commended for his public spirit in giving this land. He is one of the leading men of the Chamber of Commerce; he is giving this piece of property and trying to make this a practical thing. I hope the members will think it over and vote for the order to-day. What is the difference in voting for it to-day or one week from to-day?

Coun. COLEMAN—Mr. President, his Honor the Mayor has been very thoughtful and enterprising in proposing this new plan in the interests of the people, in view of certain circumstances which are very stressful at the present time, and every week counts for something. I understand also that the Mayor made an effort to meet the Council at the last meeting in order to bring the matter before them, but arrived after they had adjourned. So it seems to me the element of time is something we should consider; also the fact that this is purely an executive matter, the establishment of this first municipal market. It is an experiment. We all seem to be in favor of having many of these markets in various sections to relieve the people. We never can have many unless we begin with one, and we never can begin with one unless we do begin. The Mayor has asked for only \$500 in order to carry out a plan that is not thoroughly matured in his own mind, and it will require some executive handling in order to develop it. I think the least we can do is to give him \$500 to initiate this experiment, in which everybody is so much interested.

Coun. WATSON—Just a moment—I don't like to take up the Council's time, but I would like to ask Coun. Attridge, Woods, Coleman, McDonald and Coulthurst if they know what corner of Shawmut avenue and Castle street this public market is going to be located on, where the Smith land is?

Coun. WOODS—Mr. President, I can answer the question that the gentleman has raised, if the gentleman will give me an opportunity.

Coun. WATSON—I will; I will be more gentlemanly than you and give you an opportunity.

Coun. WOODS—I would say that I can answer it.

President McDONALD—The question comes on the motion offered by Coun. Woods.

Coun. WATSON—Mr. President, I have given the gentleman from Brighton three chances to answer my question, and he has not yet taken advantage of the opportunity. I have been a little more gentlemanly with him than he was with me. I do want to know how large a place it is, how many applicants it will accommodate and what corner it is located on. I don't know. The gentleman from the South End, Coun. Coleman, speaks about the Mayor as being very enterprising. Of course he is, and I appreciate it. He is all right on this particular proposition, so far as the principle is concerned, but I want to be sure. The Mayor slips a cog once in awhile; he puts one over occasionally, you know, the same as the rest of us. I want to know in regard to the public markets and the property adjoining the public market. I would ask Coun. Coleman if he knows. This is an order for \$500 for grading. That is the amount they are going to spend, and that calls for public advertising and bidding, under the law, and that will take two, three or four weeks. I am satisfied that there are four votes against suspension of the rule. I am aware that it looks as if we were attacking something that was popular in the City of Boston. In the Press it is going to look as though Coun. Kenny, Ballantyne, Collins and Watson were against public markets and as though Coun. Attridge was the savior of the poor people.

Coun. ATTRIDGE—Mr. President, I object to the remarks of the gentleman on the other side of the chamber and ask that they be stricken from the record.

Coun. WATSON—I object to their being stricken from the record.

Coun. ATTRIDGE—Mr. President, I rise to a point of order.

President McDONALD—The Chair rules the point of order well taken.

Coun. WATSON—Mr. President, I am glad that I drew the fire of the Councilor from the South End. He has a very thin skin. But there are other members besides him who are sometimes interested in the poor people. He is interested in popular movements. He thinks he needs them all, and likes to get into them at the psychological moment. He is right on the ground all the time. I like fair play. No member of the body will play fairer than I will play, and nobody ever knew me to dodge on a proposition. I have the courage of my convictions. The fact that a thing appeals to three or four people who are social workers and who will pat me on the back does not appeal to me. If this is a good proposition, it can stand for one week. If it cannot stand for one week, that fact leads me to believe that it is a bad one. If it is a good one, I shall vote for it next week. I trust that suspension of the rule will not prevail to-day.

Coun. KENNY—Mr. President, under the rules of the City Council, reports of committees, where an expenditure of money is involved, lie over for one meeting. What is the reason for that? It is to protect the public. We are simply here as trustees, as representatives of the people, voting away the public money; and the object of that rule is to safeguard, is to protect the public, so that before the following meeting the matter, of course, being duly advertised in the Press, the people of the city may have a chance to come in and register their disapproval of any particular proposition. That is the object of the rule, when you get right down to it. I have stood for that rule ever since I have been a member of this body; in fact, I introduced it myself. During the past few years I have from time to time regretted seeing members rise here and ask for a suspension of the rule, because I have always felt when that was done that it was an attack on the public treasury and upon the public itself, that you were foreclosing the rights of the people. Something has been said here about \$500 being a small amount. I am surprised at the member on my left getting up and offering that as an argument. It is not the \$500; it is the principle involved. The Mayor cannot start a public market, although he has executive power, unless he has the money, and he cannot have the money unless the Council concurs with him. Whether the amount is \$500, 5 cents or \$50, is a matter of no consequence. The important thing is the principle behind it, which says, "You may go forth and establish public markets. We having responded to the first call for money, of course as you want other moneys we will go along and give them to you." I am not against public markets; but I am troubled about the matter. I am concerned about it; I am in doubt in regard to the wisdom of it. They may be very excellent things, and I may come in next Monday and gladly vote for this \$500. But not to-day, Mr. President. Under the rules I have a right, unless six members here say I shall not be accorded the opportunity, to insist that you shall not vote this money until we

have another meeting, in seven days at least. This afternoon, out in the committee chamber, without raising the slightest question in regard to the merits of voting this money, I and other members joined in asking that this matter be allowed to lie on the table in that committee until we could make an investigation of it. Something was said about the Press favoring it, but we are not here as servants of the Press. We are here as servants of the citizens, of the people of the city. It is a matter for us, and not for the Press, to determine. I ask that this matter lie over for one week, and I urged as one reason that it appeared to me that the matter was being pushed through. The member from Ward 9 (Coun. Attridge) did not like the suggestion, and very promptly asked me if I thought, believed or asserted—I want to quote him correctly if I can—that it appears to me that somebody was pressing the matter. I said, taking everything that has been said, that it appeared to me that the matter was being unduly pressed. In view of what happened since that time, I want to say that I am still of that opinion—not that I charge any member here with trying to push this matter through, but it seems to me, on the whole, as though the matter is being pushed through without regard to the rights of at least four members of this Council. I have said before, and I say now, that I am not against public markets. I have been told, however, that years ago public markets were not a success in Boston. They tell me that there was one on the corner of Boylston and Washington streets, another at the corner of Dover and Washington streets, another at the corner of Essex and Washington streets. Where are they to-day? They certainly are not there. But they were there at one time. So, as a member of the body, as one of the trustees of the city treasury, I want a right to examine into this matter. I don't care how it appears to the Press or who is in favor of or against it. I demand, as a member of the Council, the right to have an opportunity to give this matter proper and fair consideration. Therefore, I sincerely hope that the motion to suspend the rule will be defeated.

Coun. WOODS—Mr. President, I firmly believe that the last speaker is consistent, or tries to be, when he stands up in the Council and takes a position on matters coming before us. But even the smartest of us slip up once in awhile. It may be all right for him to take the position he does, if he is opposed to this order, but this afternoon we passed an order for \$3,000, or some such amount, for the City Hospital, and I did not hear him or some of the other members objecting to it, taking the ground they are taking in regard to this \$500. It is funny how some of us slip up. I simply want to call attention to that matter.

Coun. KENNY—And I would call attention to the fact that that was not an appropriation. The money had already been appropriated.

Coun. WOODS—A transfer.

Coun. KENNY—Yes, and that it was a question of administration. It appeared that the matter had been considered by the trustees of the hospital. We were not going to dispute them. We had a statement of fact from the trustees that they desired to transfer this money for another purpose. That was not an appropriation originating here for the first time.

Coun. ATTRIDGE—Mr. President, the gentleman on my right (Coun. Kenny), when we were in Executive Committee, did not use the words "pushed through," but he used the words "railroaded through" in reference to this particular order, and I did take some offence at that. You used the word "railroaded."

Coun. KENNY—Mr. President, I would like to ask a question. I would like to ask, in view of the statement that has just been made by the gentleman, if there is any other member of this Council who will bear out his recollection that I used the word "railroaded"?

Coun. ATTRIDGE—I cannot answer in regard to the recollection of other members, but that is my best recollection of the words that the gentleman used.

Coun. KENNY—I invite any other members to state their recollection of the words that I used.

President McDONALD—Coun. Attridge has the floor.

Coun. KENNY—Mr. President.

President McDONALD—Does the gentleman yield?

Coun. ATTRIDGE—The gentleman will not yield at this time. If the gentleman on my right desires to ask any other member of the Council what expression he used he will have the privilege of doing so later. I have told him my recollection of what he said.

Coun. KENNY—If I may, I would ask that question of other members of the Council now.

Coun. ATTRIDGE—Mr. President, he may ask the question when he gets the floor, and he may have the floor at any time when the President recognizes him. I have a right, as every other member of the Council has a right, to disagree with my colleagues upon a matter coming before us. I disagreed with some members of the Council in committee and I have disagreed with them in open council here in the Council, here in the chamber. Two weeks ago, as I understand, the Mayor was to send in the order for \$500 to this Council, but the Council transacted its business quickly and had no Executive Committee meeting, such as we generally have. It adjourned too early for the Mayor to send in the appropriation order of \$500. But it was heralded in the papers, it was heralded

even before the meeting of Monday, that the Mayor intended to send in an appropriation order of \$500. Coun. Coleman, I think, established that point to the satisfaction of the members of the Council. We cannot all of us always be on the same side of a proposition. We must take different positions on matters which come before the Council. I am going to take the position which I think is best for the people of the city. I think we should take some action upon this matter to-day, and I am going to vote to do so. I am going to vote for the appropriation of \$500 and for the establishment of this market. When the gentleman on the other side of the chamber (Coun. Watson) asks where the land is located, I will say that I know where it is located, but I am not going to answer such a foolish question. I hope and trust that the Council will see the wisdom of taking action on this particular proposition. If there has been any undue haste in this matter, I suppose it can be charged to other members of the Council. It cannot be charged to one particular man, but to all who took action along that line. No direct statement has been made to the effect that any one man rushed, pushed or railroaded this through, and I suppose the five members of the Council who voted in committee that we should report this proposition back to-day could be considered guilty of the charge. If that is so, my good friend on the right here, Coun. Coleman—I suppose I can mention him by name—is just as guilty as myself, Coun. Woods or any other man, for taking action to-day. I cannot see that there has been any undue pushing through of the proposition. As I understand it, the members who have taken a stand on this proposition in favor of action to-day do not believe that the Council should delay action, but think it should take action to-day so that something may be done as soon as possible.

Coun. KENNY—Mr. President, for the sake of accuracy, having denied absolutely that I used the word "railroaded," in order to test the accuracy of the memory of the member from Ward 9 (Coun. Attridge), I want to ask if there is a single member of the body who heard me this afternoon use the word "railroaded" or "railroading?" (Pause.)

Coun. WATSON—Mr. President, for the benefit of the member from Ward 9 (Coun. Attridge), who has used a number of words and said nothing on this proposition in his last remarks, I want to say that, so far as the word "railroaded" being used by the Councilor from South Boston is concerned, I did not hear it. But I want to say now, frankly and without any equivocation whatsoever, that from my point of view this proposition has been railroaded up to date. I will not confine it to any particular member. Whoever the hat may fit can wear it. They are trying to put the proposition through. I will furnish the word "railroading," and I presume then the gentleman from the South End (Coun. Attridge) will imagine that I used the word out in the anteroom. That is about as accurate as he usually is.

Coun. KENNY—I am not afraid to use the word "railroaded" when I think it should be used. I merely object to being charged with its use when I have not used it, in such a way as to impair my statement and so I will adopt it now. I will say that I think this matter has been, in a way, railroaded.

The rule was declared suspended. Coun. WATSON doubted the vote and asked for the yeas and nays.

The Council refused to suspend the rule, a two-thirds vote being required for suspension, yeas 5, nays 4.

Yeas—Coun. Attridge, Coleman, Coulthurst, McDonald, Woods—5.

Nays—Coun. Ballantyne, Collins, Kenny, Watson—4.

President McDONALD—The order lies over for one week under the rules.

SOCIAL LAW LIBRARY.

Coun. COLLINS, for the Committee on County Accounts, submitted report on petition of proprietors of the Social Law Library (referred August 10) for annual appropriation for said library—recommending the passage of the following:

Ordered, That there be allowed and paid to the proprietors of the Social Law Library the sum of \$1,000 for the maintenance and enlargement of said library during the present year, said sum to be paid from the amount received from naturalization fees.

Report accepted; laid over under the rules.

PAYMENT FOR SOLDIERS' RELIEF.

Coun. WATSON, for the Committee on Soldiers' Relief, submitted a report on the order (referred September 14) for the payment of \$300 to the Soldiers' Relief Commissioner to be used for immediate relief—that the same ought to pass. Report accepted; order laid over under the rule.

SIDEWALK, COLUMBUS CLUB, WARD 20.

Coun. COLLINS offered an order—That the Commissioner of Public Works make a sidewalk along Pearl and Pleasant streets, at the Columbus

Club of the Knights of Columbus, Ward 20, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 437 of the Acts of 1893. Passed.

LAYING OUT OF STREETS.

Coun. COLLINS offered an order—That the Street Commissioners be requested to lay out Hopstill street and Melville road, Dorchester, as public ways. Passed.

GENERAL RECONSIDERATION.

Coun. BALLANTYNE moved a general reconsideration, hoping that the same would not prevail. Lost.

Adjourned at 6.31 p. m., on motion of Coun. KENNY, to meet on Monday, October 5, at three p. m.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

NOTICE.

The Board of Street Commissioners in accordance with chapter 393 of the Acts of 1906 have passed orders for the laying out and construction of the following highways:

EAST BOSTON.

Westbrook street (formerly West street), from Bennington street to Saratoga street.

WEST ROXBURY.

Albano street, from Washington street to Amherst street.

DORCHESTER.

Juliette street, from Fox street to the southeasterly line of Homes avenue.

Lorenzo street, from Walnut street to Wood street. Powellton road, from Columbia road to Glenarm street.

Woodworth street (formerly Wood street), from Walnut street to New way.

ROXBURY.

Dempster street (formerly Duncan street), from Ruggles street to Halleck street.

CITY PROPER.

Lucas street, from Washington street to Shawmut avenue. Washington street, from Warrenton street to Pleasant street.

Notice is hereby given that the Public Works Department is about to do the work contemplated in said orders, and that all work to be done in said highways by all persons or corporations having rights in the same to lay or repair either sewer, gas, water or other pipes must be done before Saturday, October 31, 1914, as after that time no permits for openings will be granted until two years after said highways are completed.

L. K. ROURKE,
Commissioner of Public Works.

Boston, September 24, 1914. (Oct. 3-10-17.)

CITY OF BOSTON.

PROPOSALS FOR BUILDING REFUSE RECEIVING STATION, WARD STREET, ROXBURY.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for building a refuse receiving station on Ward street, between Halleck street and New York, New Haven & Hartford Railroad, Roxbury, and giving bond therefor of a surety company approved by the Commissioner in the sum of ten thousand dollars (\$10,000), to secure the due performance of the contract and the full protection of the city. Plans can be seen at Room 501, City Hall Annex. Specifications and forms of proposals may be obtained at Room 511, City Hall Annex, on and after Tuesday, September 29, 1914. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Receiving Station, Ward Street," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Wednesday, October 14, 1914, with a certified check for one thousand dollars (\$1,000), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, September 24, 1914. (Oct. 3-10.)

CITY OF BOSTON.

PROPOSALS FOR REBUILDING DRAW FENDER PIER AND FENDER GUARD AND BUILDING WHARF AT BROADWAY BRIDGE.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for rebuilding the draw fender pier and fender guard and building a wharf at Broadway Bridge, over Fort Point channel, and giving bond therefor of a surety company approved by the Commissioner in the sum of four thousand dollars (\$4,000), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Broadway Bridge," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Thursday, October 8, 1914, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, September 24, 1914. (Oct. 3.)

PROPOSALS FOR BUILDING SEA WALL, EAST FIRST STREET, SOUTH BOSTON.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for building sea wall across water passage-way on the northerly line of East First street, South Boston; also for furnishing about 8,500 cubic yards of filling back of said wall, and giving bond therefor of a surety company approved by the Commissioner in the sum of five thousand dollars (\$5,000), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sea Wall, East First Street," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Wednesday, October 7, 1914, with a certified check for one thousand dollars (\$1,000), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, September 24, 1914. (Oct. 3.)

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

NOTICE.

The Board of Street Commissioners in accordance with chapter 393 of the Acts of 1906 have passed orders for the laying out and construction of the following highways:

SOUTH BOSTON.

C street, to Old Colony avenue.

EAST BOSTON.

St. Andrew road (formerly Collins street), from Bayswater street to Washburn avenue. Walley street, to Waldemar avenue.

WEST ROXBURY.

Philbrick street (formerly Folsom street), from Jewett street to Neponset avenue.

DORCHESTER.

Castlegate road, from Blue Hill avenue to Normandy street. Ronald street (formerly Bowdoin avenue), from Brinsley street southeasterly.

ROXBURY.

Langdon street, from George street to Norfolk avenue.

Notice is hereby given that the Public Works Department is about to do the work contemplated in said orders, and that all work to be done in said highways by all persons or corporations having rights in the same to lay or repair either sewer, gas, water or other pipes must be done before Friday, October 16, 1914, as after that time no permits for openings will be granted until two years after said highways are completed.

CHARLES GIBSON,
THOMAS F. GALVIN,
(Oct. 3.) *Commissioners.*

CITY OF BOSTON.

TO FIRE ESCAPE (IRON) CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for erecting and completing fire escapes on Nos. 39, 40, 41 and 42 Blossom street, Boston, Mass., and giving bond of a surety company therefor in the sum of \$1,000. Only proposals obtained at the office of the Commissioners, Room 1009, City Hall Annex, signed by the bidder and left before 12 o'clock m. of Friday, October 9, 1914, at said office, with a certified check for \$300, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The Commissioners reserve the right to reject any and all proposals.

JOSEPH P. LOMASNEY,
CHARLES B. PERKINS,
WILLIAM F. KEARNS,
(Oct. 3.) *Commissioners.*

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWERS AND DRAINS IN BOARDMAN AND ASHLEY STREETS, EAST BOSTON.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for pipe sewers and drains in Boardman and Ashley streets, between East Boston low level sewer and existing sewer near Whitby street, East Boston, and giving bond therefor of a surety company approved by the Commissioner in the sum of twelve hundred (1,200) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Pipe Sewers and Drains, Boardman and Ashley Streets," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Saturday, October 10, 1914, with a certified check for five hundred (500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, October 1, 1914. (Oct. 3.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWERS AND DRAINS IN DEMPSTER STREET, ROXBURY.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for pipe sewers and drains in Dempster street, between Ruggles and Halleck streets, Roxbury, and giving bond therefor of a surety company approved by the Commissioner in the sum of three thousand (3,000) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Pipe Sewer and Drains, Dempster Street," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Friday, October 9, 1914, with a certified check for six hundred (600) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, October 1, 1914. (Oct. 3.)

CITY OF BOSTON.

PROPOSALS FOR A REFRIGERATING PLANT, AND FOR FURNISHING EQUIPMENT OF ICE BOXES.

Trustees of the Boston City Hospital invite sealed proposals for erecting and completing a refrigerating plant, and for furnishing equipment of ice boxes and installing same in South Department buildings. Only proposals obtained at the office of the architect, signed by the bidder, and left before 12 m. of October 13, 1914, at the office of the Trustees, with a certified check for \$200, payable to the city if the proposal is not carried out, will then and there be read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time mentioned for the opening of bids. The Trustees reserve the right to reject any or all proposals. Drawings and specifications may be taken for estimating purposes from the office of the architect, Joseph McGinniss, 16 Arlington street, and obtainable at said office on Saturday, October 3, 1914.

Boston, October 1, 1914. (Oct. 3.)

CITY OF BOSTON. PUBLIC WORKS DEPARTMENT.

NOTICE.

The Board of Street Commissioners in accordance with chapter 393 of the Acts of 1906 have passed orders for the laying out and construction of the following highways:

EAST BOSTON.

Lovell street, from Neptune road to Island street. Porter street, to Cottage street.

BRIGHTON.

Tip Top street, from Washington street to Tremont street.

DORCHESTER.

Bourneside street, from Melville avenue to Park street.
Normandy street, from Columbia road to Seaver street.
Paisley park, from Bourneside street to Upland avenue.

Notice is hereby given that the Public Works Department is about to do the work contemplated in said orders, and that all work to be done in said highways by all persons or corporations having rights in the same to lay or repair either sewer, gas, water or other pipes must be done before Saturday, November 7, 1914, as after that time no permits for openings will be granted until two years after said highways are completed.

CITY OF BOSTON.

PROPOSALS FOR THE PURCHASE OF OLD MATERIAL.

The Commissioner of Public Works of the City of Boston, office Room 511, City Hall Annex, invites proposals for the purchase of the following old material at the Water Service Yard, 710 Albany street, city proper:

- About 40 tons old iron water pipe,
- About 1,500 pounds wrought iron,
- About 2,000 pounds light brass and composition,
- About 500 pounds composition chips.

The purchaser shall remove the material (which is to be the property of the purchaser) within a reasonable time. Only proposals obtained at said office, filled out, signed by the bidder, and left at Room 511, fifth floor, City Hall Annex, before 12 o'clock m. of Thursday, October 8, 1914, will at said hour and place be publicly opened and read. The bidder must deposit in cash or certified check made payable to the City of Boston an amount equal to the total bid. The proposals must be made in duplicate, the sealed duplicate, without check, to be deposited with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award as he deems best. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for the Purchase of Old Material."

L. K. ROURKE,

Commissioner of Public Works.

Boston, October 1, 1914. (Oct. 3.)

BOSTON'S MUNICIPAL SWIMMING POOLS.

Beautiful swimming pools are open to the public in these three buildings: Curtis Hall Gymnasium, Jamaica Plain; Columbia Road Gymnasium, Dorchester; Cabot Street Gymnasium, Roxbury. Modern methods are employed in keeping these pools perfectly clean. Admission costs fifteen cents, but this includes the use of bathing costume. Private bathing costumes are not allowed. A swimming instructor is always in charge of the pool and will give instruction free of charge.

SCHEDULE OF HOURS.

Monday.—Women, 10 a. m. to 3 p. m.; School Girls, 3 to 6 p. m.; Men, 6 to 10 p. m.
Tuesday.—Men, 10 a. m. to 3 p. m.; High School Boys, 3 to 6 p. m.; Men, 6 to 10 p. m.
Wednesday.—Women, 10 a. m. to 3 p. m.; School Boys, 3 to 6 p. m.; Working Boys, 6 to 10 p. m.
Thursday.—Same as Monday.
Friday.—Same as Tuesday.
Saturday.—Grammar School Boys, 10 a. m. to 12 m.; High School Boys, 12 m. to 6 p. m.; Working Boys, 6 to 10 p. m.

INSTRUCTORS.

Curtis Hall.—Colin McDonald, Joseph Good.
Columbia Road.—George T. Cuddihy, Dennis J. Swanson.
Cabot Street.—Harry A. Grainger, William C. Rowe.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 6.

SATURDAY, OCTOBER 10, 1914.

No. 41

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By Subscription \$1.00 Per Year.
Single Copies 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 25, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquees, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for

information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO ROOM 604, CITY HALL ANNEX, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance or permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS, 1001 City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, October 19, at 3 p. m.

Meeting of School Committee, Monday, October 19, at 7 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

PUBLIC AUCTION OF DUMPING SCOW.

Commissioner Rourke, of the Department of Public Works, states that Municipal Auctioneer Edward W. Foye will sell at public auction a Barney dumping scow, the property of the department, at the rooms of the Massachusetts Real Estate Exchange, 209 Washington street, Boston, upon Friday, October 16, 1914, at 11 a. m.

COLUMBUS DAY OBSERVANCE.

Columbus Day will be extensively observed in Boston. The Director of Public Celebrations, John F. Dever, and the Columbus Day Committee of the

Citizens' Public Celebration Association have completed practically all the many details of the program as printed last week in the *City Record*.

A touch of gayety will be given by a continuation of last year's scheme of street and public building decorations as well as by the firework displays in the evening. But as a whole the celebration is to be of a somewhat more serious character than during the last two years that the city has officially observed the holiday.

The first event will be the second annual Pan-American meeting, in Faneuil Hall, Sunday afternoon at 3 P. M., to aid a closer acquaintance between the twenty-one nations of South, Central and North America and the commercial and industrial developments made possible by current world events. Although the Argentina ambassador, Dr. Naon, could not accept the invitation extended to him by Mayor Curley, other arrangements insure a satisfactory program. Congressman Andrew J. Montague, former Governor of Virginia, will speak, with the Peruvian Minister, Honorable Frederico Alfonso Pezet. Hon. Edward Albes of Alabama, a member of the Staff of the Board of Governors of the Pan-American Union will be a third speaker. The historic hall will be decorated with flags of all South and Central American countries. The officers and crew of the Argentine battleship "Rivadavia" have been invited as well as the Havana city officials now in the city. Special music will be provided by an orchestra, including Pan-American national airs and, of course, "America." Through the courtesy of the Boston Theatre Opera Company, a tenor solo by Signor Luigi Mainiero will be a feature. The Pan-American meeting being particularly timely this year is likely to attract even more attention than the first meeting of its kind a year ago.

Columbus Day evening, October 12, in Symphony Hall, will be featured by a commemoration meeting of the 422d anniversary of the discovery of America by Christopher Columbus, and in the interests of universal peace. The Mayor will preside. The invited speakers include President Wilson, Chief Justice White, Governor Walsh, George W. Coleman of the Boston City Council, George S. Smith, former President of the Chamber of Commerce, and Congressman Andrew J. Montague. His Eminence Cardinal O'Connell was invited but on account of an urgent previous engagement was obliged to decline, but he has designated as his personal representative Rt. Rev. Mgr. M. J. Splaine, D.D., who will speak of "The World's Debt to Columbus." Minister Pezet and Mr. Albes will also speak.

Special music will be provided by Miss Cara Sapin, through the courtesy of the Boston Opera Company, by Prof. John A. O'Shea who will give a short organ recital for half an hour previous to the meeting. The vocal music will include "Columbia, The Gem of the Ocean," "To Thee, O Country," and, at the close, "America" by the audience accompanied by the organ and a cornetist.

The American National Red Cross received permission to take advantage of the opportunity to inaugurate a Red Cross flag selling campaign to raise money for the European war relief fund. This feature will center at a band concert on Boston Common the afternoon of Columbus Day at 3 o'clock. The Director of Public Celebrations promises the people who assemble there a pleasing musical program. As a conductor, Emil Mollenhauer has been specially engaged for this occasion. Stewart's Boston City Band with forty pieces will render the program. Mayor Curley will announce the Red Cross feature and nurses in uniform and other bearers of the Red Cross emblem will sell as many flags at ten cents apiece and upward as the great audience can be induced to purchase. The vicinity of the Parkman Memorial Bandstand will be specially decorated for the occasion.

If the Red Cross flag-selling plan works well upon this experimental trial, it is to be continued by the National organization in other cities in the country for the same purpose. Miss Louisa P. Loring, Emergency Secretary for New England, is in charge, assisted by Miss Hazel Newton, and they will handle all the funds and be responsible for the carrying out of the entire undertaking which has the Mayor's approval and the cooperation of the Columbus Day Committee. The Red Cross people have secured permission to use the Young Men's Christian Union, 48 Boylston street, as a distributing point for flags on Columbus Day, and from this center their representatives will go not only to the Common but to all other places where large numbers of people congregate during the holiday.

Preliminary to Columbus Day exercises were held Friday in both public and parochial schools, for the particular purpose of reminding the children of the deeds of Columbus. In regular religious services in churches of all kinds some recognition of the anniversary is requested by the committee, and this will undoubtedly be general. No special services are expected.

Columbus Day morning, Monday, October 12, a sunrise salute has been requested from the United States Navy Yard, as also a sunset salute at the appropriate hour. At 9 o'clock Monday morning patriotic exercises are to be conducted on Boston Common, including military ceremonies by band and battalion from the harbor forts of the United States Army and the raising of the national and city flags. This ceremony will be similar to like exercises on Fourth of July and Columbus Days during the past two years, which have proved to be interesting and acceptable features. The brief march of the army soldiers to and from the Common will be the only street parade in the city program.

In the evening displays of fireworks and band concerts have been arranged for Boston Common, Franklin Field and Marine Park.

On Columbus Day last year the citizens' committee secured the inauguration of a special decorative scheme for streets and public buildings. This involved the purchase by the city of permanent equipment which might be preserved and used on various occasions for similar purposes. Since last Columbus Day the masts and banners first used at that time on Tremont street have been utilized on various holidays and other occasions with good effect. This year the street decorations will be in place for public inspection by

Saturday afternoon and remain up until Tuesday morning, on Huntington avenue, from Copley square to Massachusetts avenue.

The Public Library building will be the focusing point for decorations in the square and the treatment will be much the same as a year ago when numerous favorable comments were aroused by the results of the committee's plans and the decorators' workmanship. Garlands of laurel will be largely used with a simple background of red and yellow bunting to provide a touch of color, while above will fly the flag of the nation. The street corners bounding the square will be marked by masts, 20 to 30 feet high, upon which will fly pennants or banners of city colors—buff and blue—but they will be so placed as not to interfere with the full effect of the ornamented building front. The committee hopes for the cooperation of hotels and other business concerns located here so that the same harmonious decorative scheme may show on three sides of the square. From Copley square to the avenue every street corner will have masts with pennants flying. Around Symphony Hall there will be other masts and their banners will be of city colors.

Downtown, City Hall will be decorated following in general the style of Copley square and there will be holiday gayety added to the workday somberness of the walls of the Old State House and Faneuil Hall. On the Common will be decorations around Parkman Bandstand as already mentioned. This will consist of a circle 600 feet in circumference of tall masts bound together by festoons of laurel that will be electrically lighted at night. Each mast will fly a banner of city colors.

The City Athletic Meet on the Common at 10 o'clock is an experiment this year as such a meet so late in the season is not customary, but the entries received promise very satisfactory results both for the spectators and the participants.

By the cooperation of Headmaster John F. Casey of the English High School, ushers for Symphony Hall meeting will be supplied in the person of uniformed cadets, and similarly ushers for Sunday afternoon Pan-American meeting in Faneuil Hall will be provided by Master James E. Downey from the boys of the High School of Commerce.

CLAIMS.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Mary Griffin, in the amount of \$125, for compensation for personal injuries caused upon a ferryboat at the South Ferry, September 10, 1914.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Daniel J. Daly, trustee of the estate of James W. Calnan, in the amount of \$13,500, and costs taxed at \$100, for damages occasioned his estate by the widening of Pleasant street, city proper.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Lena Shapiro, in the amount of \$35 for compensation for personal injuries, caused by defect in sidewalk, 53 Phillips street, May 5, 1914.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Hattie Case, in the amount of \$100, for compensation for personal injuries sustained in front of the premises 454 Tremont street, on November 25, 1911.

BOSTON'S MUNICIPAL GYMNASIA OR PHYSICAL TRAINING SCHOOLS.

By CAPT. JOHN H. DILLON, *Chairman Park and Recreation Department.*

The Park and Recreation Department of this city provides for the public, free of charge, opportunities not afforded by any other city in this country. For all interested in athletics, splendidly equipped gymnasia are provided with competent instructors always in charge to teach individuals and classes how to properly use and perform with or upon the many different pieces of apparatus necessary for the proper development of the young athlete—Indian clubs, dumbbells, buffers, German horses, running tracks, horizontal and parallel bars, chest weights, hanging ropes and poles, jumping stands and ladders, medicine balls, basket balls and other implements.

These schools, under the supervision of our competent instructors, are the foundation of strong, robust, muscular boys and girls, who look upon the many exercises as sport, and these sports or athletics, when the rules and regulations of the instructors are observed, very materially aid the pupils to acquire that greatest boon to mankind, vigorous health and confidence.

A very large percentage of aspirants to the Police and Fire Departments have taken advantage of our free gymnasia and from reports of our instructors it appears that very few failed to pass the physical test required, and the many classes of men, women, boys and girls who graduate therefrom are always ready to attest the benefits they have received.

LIST OF GYMNASIA UNDER SUPERVISION PARK AND RECREATION DEPARTMENT.

1. East Boston Gymnasium, Paris street; equipment, full gymnasium and showers. John J. Driscoll, instructor in charge.
2. Charlestown Gymnasium, corner Bunker Hill and Lexington streets; equipment, full gymnasium and showers. Maurice R. Smith, instructor in charge.
3. Ward 7 Gymnasium, Tyler street; equipment, full gymnasium and showers. John A. Lane, instructor in charge.
4. Ward 9 Gymnasium, Harrison avenue near Dedham street; equipment, full gymnasium and showers. William Mullen, instructor in charge.
5. South Boston Gymnasium, D street; equipment, full gymnasium and showers. Leo C. Kneibel, instructor in charge.
6. North Bennet Street Gymnasium; equipment, full gymnasium and showers. James F. Winston, instructor in charge.
7. Ward 16 Gymnasium, Columbia road; equipment, full gymnasium, showers and swimming pool. George E. Frazer, instructor in charge.
8. Cabot Street Gymnasium; equipment, full gymnasium, showers and swimming pool. Matthew M. Leary, instructor in charge.
9. Curtis Hall, Jamaica Plain, Centre street; equipment, full gymnasium, showers and swimming pool. Joseph J. McNamara, instructor in charge.

All information as to hours, the formation of classes, class work or individual instruction may be obtained from the instructors in charge of physical culture at the gymnasia.

TRACKS TO COMMONWEALTH PIER.

Mayor Curley announces that an agreement had been reached for the Board of Port Directors to extend the surface tracks at South Boston to the fish pier and the Commonwealth pier, the cost to be charged up to the Elevated Railway later. The agreement, he said, has been approved by the Public Service Commission and work will be started immediately.

THE EFFECT OF LEAKING ILLUMINATING GAS ON BITUMINOUS PAVEMENTS.

By GEORGE C. WARREN OF BOSTON.

Read before the Convention of the American Society of Municipal Improvements, Hotel Somerset, Boston, Thursday, October 8, 1914.

To everyone who has had long experience in bituminous pavement construction and maintenance, it is well known that illuminating gas escaping from sub-surface gas mains is very injurious to all forms of bituminous pavements, and yet we frequently find representatives of gas companies and city officials ridiculing the idea that gas can have any effect on such pavement surfaces.

The fact is that illuminating gas, a bituminous substance, and hydro-carbon, quite similar in its chemical composition to light tar and oil distillates, is lighter and more penetrating than the distillates and even more rapidly attacks and liquifies a bituminous cement, no matter whether the bitumen be a tar or an asphaltic product.

EXPERIMENT NO. 1.

For testing the effect of illuminating gas on asphalt there is submitted herewith an illustration of a very simple apparatus.

Illuminating gas entered at tube "C," filled the jar and passed out at tube "D" to a burner.

Gas passed through jar daily 8 a. m. to 5 p. m., from August 18, 1914 to October

5, 1914, except Sundays and Labor Day, but naturally jar was filled with quiet gas during nights, Sundays and Labor Day.

The glass jar contains two baskets of No. 10 mesh screen.

Basket A contains 1-inch cube of hard California refined asphalt, penetrating 20 degrees Dow.

Basket B contains 1-inch cube of mixture consisting of well-graded sand, 90 per cent California asphaltic cement (75 degrees Dow), 10 per cent.

A similar jar and contents which was not subjected to gas, has been kept alongside of the "gas jar" during the experiment to show that softening of material in the gas jar was due to gas and not change of temperature, is exhibited herewith. (See Photo VI.)

Photos Nos. II. to V., inclusive, are the same jar as shown in Photo No. I. taken during the test of six weeks on the following dates, respectively: September 3, 12, 16 and 24.

Photo No. VI. shown that the softening was in no way due to change of temperature.

The daily diary of condition of asphalt and mixture is as follows:

EXPERIMENT STARTED AUGUST 18, 1914.

	Asphalt Basket.	Mixture Basket.
Aug. 19 to 27	No noticeable change.....	No change except mixture glossy and sticky.
Aug. 28.....	Asphalt began to creep through, looking like small beads in the wire mesh.	Ditto above.
Aug. 29.....	Ditto above.....	Ditto above.
Aug. 30.....	Gas turned off; Sunday; no observation...	Ditto above.
Aug. 31.....	Outside of wire basket coated with asphalt which had crept through the mesh.	Ditto above.
Sept. 1.....	Above condition slightly increased.....	Ditto above.
Sept. 2.....	Asphalt forming drop at bottom of basket,	Ditto above.
Sept. 3.....	Asphalt increasing in softness; above drop has formed long pendant and small portion dropped to bottom of jar. (See Photo No. IV.)	Ditto above.
Sept. 4.....	Ditto above; more drops.....	Ditto above.
Sept. 5.....	Ditto above; more drops.....	Ditto above.
Sept. 6.....	Sunday; gas turned off; no observation...	Sunday.
Sept. 7.....	Holiday; gas turned off; no observation...	Holiday.
Sept. 8.....	Three distinct pendant drops of asphalt surface settled half way down basket.	Same as September 5.
Sept. 9.....	Same as above.....	Same as September 5.
Sept. 10.....	Same as above.....	Same as September 5.

September 11 to 28. Impossible to make intelligible diary, there being almost imperceptible changes from day to day. There has been, however, continuous but slow leakage of asphalt from the basket. The long pendant drop shown in Photo No. VI. broke on September 12. A new drop started to form at that time and on September 28 had reached about three-quarters the distance from basket to bottom of jar.

RESULTS OF EXPERIMENT NO. 1.

	Mixture Basket.	Refined Asphalt Basket.
Net weight material at start.....	17.90 grams	14.13 grams
Net weight material 9-28 (41 days).....	18.04 grams	10.52 grams
Increase in weight.....	.14 grams	
(Equals 0.78 per cent of the mixture or 8 per cent of the bitumen.)		
Amount asphalt dripped from basket.....		3.61 grams
Amount asphalt dripped from basket.....		25.50½

The paving mixture of asphalt and sand has become reduced to the condition of a mixture of heavy oil and sand.

The foregoing experiment clearly proves the following fundamental facts:

A. That illuminating gas without agitation rapidly liquifies asphalt cement and refined asphalt and destroys its value as a cementing medium.

B. That illuminating gas not only attacks but combines with the asphalt, increasing its weight.

EXPERIMENT NO. II.

Commercial illuminating gas is very complex in composition and the portion which produces the luminous portion of the normal flame is very similar in composition to benzol, which when chemically pure is practically a perfect solvent for the bitumen which is the active component of all asphalts and coal tar pitches.

It is but natural then that when this gas comes in contact with any bituminous cement that more or less of the "illuminants" of the gas are absorbed by the bituminous cement and the candle power of the gas correspondingly reduced, and it is on account of this fact that the gas companies not only exercise the greatest possible care in cooling the gas to condense and separate out as completely as possible all oils and tars, but also for many years have insisted that all the cast-iron pipes used as mains be coated with "asphalt dip" on the outside only, even though such pipe is more expensive.

In the ordinary process for the manufacture of coal gas the candle power is usually less than desired and the gas is usually enriched by the addition of water gas, the latter being produced by the chemical combination of petroleum oil and steam under application of high heat.

It may not be generally known to those present, however, that in the absence of a carburetted water gas plant the most available method of enriching the gas is the direct addition of benzol vapor to not over 3 per cent.

In order to show the rapidity with which asphalt cement will absorb illuminants from gas, Experiment II. is submitted herewith:

The apparatus is designed to show the comparative brilliancy of two flames of identical size, one burning normal gas which has passed through a glass tube containing dry sand; the other flame, burning gas which has passed through a corresponding ¾-inch tube, 32 inches long, containing a sand asphalt mixture. It will be noted that in the case of the normal flame the "blue" portion is very small and the flame luminous while in the other the "blue" portion of the flame is relatively much larger and the flame itself much lower candle power.

While this comparison can be plainly seen, as shown in Photo VII., the contrast is more marked when the oiled paper screen is placed in front of the burners as shown in Photo IX.

From the point of view opposite to Experiment No. I., Experiment No. II. proves the injurious effect on illuminating gas by contact with asphalt or other viscous bituminous material.

EXPERIMENT NO. III.

Having proved the effect on the bituminous cement and on the illuminating gas by their contact with each other, the next step in our experiments is to measure that effect on the bituminous material as a softening agent.

Continued on page 938.

PHOTOGRAPH No. I.

Glass jar containing baskets of hard asphalt and sand asphalt mixture.
 Photograph taken at start of experiment, August 18, 1914.

PHOTOGRAPH No. II.

"Gas Jar" September 3, 1914, after 15 days' exposure to gas.

PHOTOGRAPH No. III.

"Gas Jar" September 12, 1914, after 24 days' exposure to gas.

PHOTOGRAPH No. IV.

"Gas Jar" September 16, 1914, after 28 days' exposure to gas.

PHOTOGRAPH No. V.

"Gas Jar" September 24, 1914, after 36 days' exposure to gas.

PHOTOGRAPH No. VI.

Jar containing baskets of hard asphalt and sand asphalt mixture same as in the jar shown in preceding photographs. This jar was not subjected to gas but stood along-side of the other jar during entire experiment. Photograph taken October 5, 1914.

PHOTOGRAPH No. VII.

Front side of apparatus entirely open showing the burners and character of flames. On left showing brilliant flame of normal illuminating gas. On right showing darkened flame from gas which has passed through sand asphalt mixture. Note the difference in the size of the "blue" portions of each flame and difference in brilliancy of the "halo" around each.

PHOTOGRAPH No. VIII.

Front side of apparatus closed by a translucent oiled paper screen showing at left side bright light from normal flame and at right darkened light from gas which has passed through sand asphalt mixture.

EFFECT OF LEAKING GAS.

(Continued from page 935.)

This experiment was made by filling a one-quart fruit jar about 6 inches deep with liquid asphalt of specific gravity of 1.0 on afternoon of September 18. It is necessary in carrying out this test to employ liquid asphalt and also to apply the gas under higher pressure than is on

the ordinary gas burner, in order that the gas may pass freely through the asphalt. Two tubes were inserted; one for inlet of gas extending to bottom of jar, the outlet tube being of course above the surface of the asphalt with a burner at top of tube. With the exception of Sundays, September 20 and 27, gas has been passing through this asphalt and burned at outlet.

PHOTOGRAPH No. IX.

Glass jar containing liquid California asphalt. Gas entering at "A" and out at "B."

After twelve days' exposure to gas the asphalt had increased 2.98 per cent by weight and 4 per cent in volume.

The comparative characteristics of this liquid asphalt before and after the above exposure to gas, are as follows:

	Before.	After.
Specific gravity at 60° F.....	1.00	0.99
Flash point.....	190° F.	120° F.
Engler viscosity:		
First, 50 c. c.....	155 sec.	75 sec.
Second, 50 c. c.....	170 sec.	90 sec.
Weight.....	955.1 grams	983.6 grams.
Increase of weight.....		2.96 %
Volume.....	955.1 c. c.	993.5 c. c.
Increase in volume.....		4%

It may be well to here state that while asphalt and sand mixtures are used in making these tests, being more convenient for small experiments than coarser bituminous mixtures, it is not intended to claim that one bituminous paving mixture is more readily affected by gas exposure than another, and more particularly it is not claimed that the particular form of bituminous pavement surface in which the writer is most commercially interested is affected to any less degree than other bituminous mixtures.

The foregoing is of practical as well as scientific interest and believed to be worthy of record in the proceedings of this society. To us as practical road engineers and road builders, however, the important question is the title of this paper: "The Effect of Leaking Illuminating Gas on Bituminous Pavements," and "What are we going to do about it?"

In my thirty years of experience with asphalt and other bituminous pavement construction, this matter has come up many times, and generally the persistent claim of the gas companies is:

1. That it is ridiculous to suppose that gas will attack an asphalt pavement.
2. That the gas mains have been carefully tested by plugging holes through the pavement and into the ground and that there are no leaks.
3. When the main is on the side of the street opposite a portion of the street affected, it is too far away.

I would comment on these points as follows:

1. There can be no question but that coal gas, being a hydro-carbon in gaseous, and therefore its most penetrating form, will attack any form of bitumen even more rapidly than oil, just as gasoline, being more penetrating, will attack

bitumen more rapidly than heavier oil, such as machine oil, for instance.

I particularly remember one extremely aggravated case on West End avenue, New York City, about fifteen years ago, which became reaffected, and the asphalt pavement again ruined within three months after it was resurfaced, the gas company having claimed that they had thoroughly tested the mains and repaired the leaks. Shortly subsequent to this, the gas company was obliged to entirely relay the gas main and the pavement was again relaid.

2. Even if they dislike to, or will not admit it, the gas companies well know that the "plugging" test only sometimes locates the leaks. They naturally dislike to go to the expense of tearing up and relaying pavements and excavating to and uncovering the mains, unless the conditions become such that they are absolutely required to do so.
3. The leaking gas naturally follows the lines of least resistance which may be in either a nearly vertical line and show the result almost immediately above the leak, or what is extremely hard to find, may follow a long distance through a vein of porous earth or along the space formed by some old settled trench and reach the pavement surface a long distance from the leak. In such cases the pavement is generally affected over a large area, because the earth has become quite generally saturated with the gas, which gradually works up to the pavement surface.

I remember a case in about 1888, on Rutger street, Utica, N. Y., where the first indication of trouble in the gas main was the effect on the asphalt pavement. The gas company claimed they had repaired the leak and a considerable area of pavement was relaid. About a month later an elderly couple, while asleep in one of the residences nearly a block away, were nearly asphyxiated by gas leaking from the street. Probably the gas had first found a partial outlet, following along a vacancy in some trench settlement, and then through the pavement. Subsequently the leak became worse, with the serious result referred to above.

Frequently, if not generally, the first indication of leak in the gas main where the street has a bituminous pavement, is the effect on the pavement, in which case it is good fortune that the pavement is of a character which is affected by gas and will permit the gas to permeate the surface, thus lessening the chance of serious casualty as above outlined in Utica.

The visible effect of leaking gas on a bituminous pavement is a serious "shifting" or "rolling" of the pavement in its softened condition, accompanied by a breaking up of the surface into a "crackled" appearance not unlike the folds or cracks in an alligator's back.

Generally, when this condition is noticed, a perceptible odor of gas will be found in the pavement surface, but sometimes the leak may have been repaired or the gas taken another course and the gas escaped so that its odor cannot be detected, yet the pavement is left in a seriously damaged condition. On the other hand, under certain subsoil conditions, the earth below the pavement may retain the escaped gas and continue to have its damaging effect for months, if not years, after the gas main has been repaired, and the cause of the trouble probably removed.

The effect on the pavement may extend for a considerable period beyond the repairs to the gas main, unless steps are

taken to provide frequent vents left open for several days, if not weeks, after repairs to the gas mains are made.

In such cases, before making repairs to the pavement, its entire surface over the main and where the surface shows the effect of gas, should be removed and the gas main should be thoroughly repaired (renewed if necessary). After the leaks are repaired, vents or openings at least 1 foot square, extending from the surface to the level of the gas main, should be left open for two or three weeks or longer, if there is still any odor of gas, and the openings then refilled and thoroughly tamped and the pavement surface relaid. With this precaution the trouble will probably be overcome if the gas company has not been too parsimonious, inefficient or incomplete in making of repairs to the gas mains.

In conclusion, it may be well to call attention to a pernicious but quite general custom of the gas companies in their "hunt" for leaks. I refer to the custom of having two or three men, one of them selected for his "smelling" efficiency, go along the street, where there are indications of gas leaks, hammering a cone-shaped bar through the pavement into the ground below. These holes are made at intervals of a few feet. The "smeller" man puts his nose to the holes and if he discovers a sufficient odor of gas to attract his attention, an opening is dug to try to discover the leak. If the "smell" test does not locate a leak apparently below the hole, it is quietly filled with dirt. A few weeks later the city official, or the "poor devil" of a paving contractor, if he happens to have the pavement under "guaranty," finds serious holes along the center line of the pavement and not being able to trace the trouble to any cause, he makes the repair, if his "guaranty" is good, or "lets it slide" if he and his "guaranty" are no good, and perhaps at the end of a law suit the city makes the repairs. The simple, but so far as the writer knows never enacted, cure for this evil is an ordinance requiring gas companies, whenever they want to test their mains, to cut openings of sufficient size through the pavement to enable excavation to the gas main, absolutely prohibiting the promiscuous drilling holes through the pavement as above described and to pay for making a proper repair to the pavement. With the enactment and enforcement of such ordinances the chances of locating the leaks are greatly increased and the unfairness to the city and contractor of making holes in the pavement without adequately repairing them will be eliminated.

EFFECT OF ILLUMINATING GAS ON BITUMENS.

DISCUSSION BY S. R. CHURCH OF PAPER BY MR. GEORGE C. WARREN, READ BEFORE THE AMERICAN SOCIETY FOR MUNICIPAL IMPROVEMENTS, OCTOBER 8, 1914.

The destructive effect upon bitumens of illuminating gas, and also of the liquid that condenses from illuminating gas in the holders and mains, was first called to my attention during 1907 in connection with an investigation of the comparative value of various bitumens for waterproofing underground structures. At that time I conducted a number of laboratory tests along lines very similar to those described by Mr. Warren, and found, as he has found, that in an atmosphere of illuminating gas, bitumens are softened very appreciably. I also found that the

solvent action of the gas condensate, commonly known as "gas drips," on the bitumen, was very marked.

More recently, we have undertaken an investigation of the physical and chemical characteristics of a wide range of bitumens, including asphalts and tar pitches. That portion of the investigation dealing with the effect of illuminating gas on bitumens was conducted as follows:

Accurately weighed quantities of the bituminous material were placed in ordinary porcelain combustion boats; were exposed to the effect of a stream of illuminating gas flowing at a rate of 3.5 cubic feet per hour for six days. The tests were carried out in specially constructed iron tubes in which a temperature of 15 degrees C. was maintained by means of a water jacket, and a burner controlled by a metallic regulator. The flow of illuminating gas was regulated by meter control, and by having the gas pass through a definite opening of $\frac{1}{8}$ inch diameter. At the end of the test the boats were removed, weighed, and the bitumen removed from the boats, run into small metal containers, and penetration at 77 degrees Fahrenheit determined for comparison with the original penetration test of the bitumen.

The bitumens tested all showed increases in weight, varying from .1 per cent to 4 per cent. As Mr. Warren has only given the results of his tests on one particular type of bitumen, I will not enter into a discussion of the comparative results at this time, except to say that bitumens vary greatly in their susceptibility to illuminating gas. However, as stated by Mr. Warren, they are all affected by it, and almost all of them show measurable increases in penetration. In some cases this increase in penetration was as much as 60 degrees Dow.

The solvent action of gas drip on bitumens was determined by carefully preparing films of uniform thickness, and measuring the time required for gas drip under a definite head to penetrate through the films. I will not discuss the details of this test at present, except to say that here also the bitumens were all affected, but some failed much more rapidly than others.

We expect to publish the results of our investigations before very long, and hope that a consideration of the results will lead others to undertake a study of the comparative resistance of different bitumens to the effect of gas. As Mr. Warren has pointed out, this is a very important matter, and sufficient attention has not been given to it.

IMPORTANT LEGAL RULING.

Hon. John A. Sullivan, the Corporation Counsel, has sent to Mayor Curley a very interesting as well as important legal ruling, holding that there can be no elimination of billboards upon protest of property owners, until remedial legislation has been enacted by the Massachusetts Legislature.

Mr. Sullivan's communication is as follows:

October 5, 1914.

HON. JAMES M. CURLEY,
Mayor of Boston:

DEAR SIR,—In reply to your letter of October 1, 1914, inclosing communications from Howard S. Chandler and C. A. Kingsley, in which they protest against billboards on Beacon street and Commonwealth avenue, permit me to say that if the billboards in question have been erected with the consent of the owners of

the land upon which such billboards stand, there is nothing that can be done to discontinue the maintenance of the same.

I do not know of any way in which the erection and maintenance of such billboards upon private land, with the consent of the owners of the land, can be prevented under existing legal and constitutional provisions. The owner of the land has the right to make a contract for its use in any way which does not menace public order, safety and health, and the Legislature cannot under existing constitutional provisions regulate the erection and maintenance of such billboards for any purpose except for the preservation of public order, safety and health.

Regulations which have been passed by public authorities in this state for the purpose of limiting the size or designating the location of such billboards for aesthetic reasons have been held to be unconstitutional and void.

Numerous attempts have been made to secure legislation in this state which would prohibit or regulate the erection or maintenance of billboards, but as these regulations were designed for the purpose of imposing upon the owners of the billboards a tax different in kind from the tax authorized to be levied upon property generally, or to improve the beauty of the landscape, and not for the purpose of limiting the size or prescribing the materials of such billboards for the purpose of protecting public order, safety or health, legislative committees have uniformly rejected the petitions.

There is, however, a movement on foot to regulate billboards, and under chapter 93 of the Resolves of 1914, a commission, consisting of the chairman of the Gas and Electric Light Commission, the chairman of the Public Service Commission, the Tax Commissioner and the Attorney-General, is considering the taxation of signs and other devices used for commercial advertising, and will report its findings with a draft of a bill for the taxation or regulation of such signs to the Legislature in January next. Unless this special commission is able to find a way for dealing with this subject, nothing can be done until the constitution of the state is altered so as to permit the regulation of billboards for aesthetic reasons, or the taxation of billboard property in a manner different from the taxation of property generally.

Yours respectfully,
JOHN A. SULLIVAN,
Corporation Counsel.

APPOINTMENTS AND CONFIRMATIONS.

CONFIRMATIONS.

October 6, John F. Stevens, to be a member of the Board of Appeal.

October 6, Carl Gerstein, to be a member of the Board of Appeal.

NEW CONVALESCENT HOME.

Mayor Curley has decided that instead of spending \$200,000 for a new building for the south department of the City Hospital he will have that money expended in improving the buildings of the Parental School and equipping them for the use of convalescent patients, principally children, from the City Hospital.

Instead of keeping scarlet fever and diphtheria patients six weeks at the City Hospital they may be moved to West Roxbury and cared for in the Parental School buildings.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

BOSTON TRANSIT COMMISSION.

Advertises for proposals for furnishing and laying about 600 square yards of asphalt paving and about 450 square yards of wood block paving, near the corner of Massachusetts avenue and Newbury street, Boston. Specifications and forms of contract may be obtained at the office of the Boston Transit Commission, 15 Beacon street, Boston. Bids to be filed at the same office.

Bids close Thursday, October 15, at 12 m.

FIRE DEPARTMENT.

Commissioner Grady of the Boston Fire Department invites proposals for the purchase of five discarded fire alarm composition bells stored at the following stations:

Three at engine house, 33 Boylston street.

One at engine house, 1 Dorchester street.

One at engine house, 20 Walnut street, Neponset.

The purchaser must remove the bells within a reasonable time. Bids, accompanied by a certified check in the amount of \$500, are to be filed at the office of Commissioner Grady, Bristol street, Boston. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, October 16, at 12 m.

HOSPITAL DEPARTMENT.

The Trustees of the Boston City Hospital advertise for proposals for painting in South Department buildings. Blank forms for proposals may be obtained at the office of architect, Joseph McGinniss, 16 Arlington street, Boston. Bids, accompanied by a certified check in the amount of \$200, to be filed at the office of the Trustees, Boston City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, October 13, at 12 m.

Advertises for proposals for erecting and completing a refrigerating plant and for furnishing equipment of ice boxes and installing same in South Department buildings. Blank forms for proposals may be obtained at the office of architect, Joseph McGinniss, 16 Arlington street, Boston. Bids, accompanied by a certified check in the amount of \$200, to be filed at the office of the Trustees, Boston City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, October 13, at 12 m.

PUBLIC WORKS DEPARTMENT (Bridge Service).

Advertises for proposals for cleaning and painting the fixed spans of Northern Avenue Bridge, over Fort Point channel. Surety bond will be required in the amount of \$1,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, October 14, at 12 m.

PUBLIC WORKS DEPARTMENT (Paving Service).

Advertises for proposals for bituminous macadam roadway in Houston street, from Montview to Crest streets, West Roxbury. Surety bond will be required in the amount of \$600. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, October 13, at 12 m.

Advertises for proposals for furnishing and laying Hassam block pavement in Langdon street, between Norfolk avenue and George street, Roxbury. Surety bond will be required in the amount of \$2,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$1,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, October 13, at 12 m.

Advertises for proposals for bituminous macadam roadway in Edgemont street, from South to Ainsworth streets, West Roxbury. Surety bond will be required in the amount of \$800. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, October 13, at 12 m.

Advertises for proposals for excavating and grading Seaver street, southwesterly side, from Blue Hill to Humboldt avenues, Roxbury. Surety bond will be required in the amount of \$4,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$1,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, October 16, at 12 m.

Advertises for proposals for bituminous macadam roadway in Barbara street, from South Huntington avenue to Centre street, Roxbury. Surety bond will be required in the amount of \$600. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, October 16, at 12 m.

Advertises for proposals for bituminous macadam roadway in Queen street, from King street to Claymont terrace, Dorchester. Surety bond will be required in the amount of \$600. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, October 16, at 12 m.

Advertises for proposals for bituminous macadam roadway in Jewett street, from Neponset avenue to Mount Hope street, and in Philbrick street, from Neponset avenue to Jewett street, West Roxbury. Surety bond will be required in the amount of \$1,500. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified

check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, October 19, at 12 m.

PUBLIC WORKS DEPARTMENT (Sanitary Service).

Advertises for proposals for building a refuse receiving station on Ward street, between Halleck street and New York, New Haven & Hartford Railroad. PUBLIC WORKS DEPARTMENT (Paving Service).

The Mayor has granted permission to Commissioner Rourke of the Department of Public Works to award a contract to Warren Brothers Company for laying about 900 square feet of bitulithic pavement in Dartmouth street, between Boylston and Newbury streets, city proper, for the sum of \$1.50 the square yard, and without inviting proposals by advertisement.

The estimated cost for labor and materials is \$1,350.

Commissioner Rourke's statement which prompted Mayor Curley to authorize the necessary permission is as follows: "Part of this area is to be repaved by the Boston Transit Commission and the 900 yards remaining is old, worn-out asphalt, and should be replaced by pavement of the same character as the adjoining pavement, which is bitulithic. Warren Brothers Company is the manufacturer of this pavement and the price is reasonable."

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

PUBLIC WORKS DEPARTMENT.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force, without advertising for competitive bids:

Resurface with tar macadam Longwood avenue, from Brookline avenue to Riverway, Roxbury. The estimated cost for labor and materials is \$1,800.

Construct with tar macadam Tip Top street, from Washington to Tremont street, Brighton. The estimated cost for labor and materials is \$3,900.

Renew deck and sheathing and some of the stringers of the Summer Street Bridge, city proper. The estimated cost for labor and materials is \$1,275.

By virtue of a request of Commissioner Rourke the Mayor has granted permission to build, with the department force, a sanitary sewer of 8-inch earthen pipe, a surface drain of 12-inch earthen pipe and one catch-basin in Morton street, northerly side, from Blue Hill avenue about 265 feet westerly, Dorchester district, without inviting proposals therefor by advertisement, the estimated cost for labor and materials being \$1,871.

Commissioner Rourke states this work can be as advantageously done by day labor methods as any work now necessary.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by his Honor the Mayor:

PUBLIC WORKS DEPARTMENT (Paving Service).

A deduction, amounting to \$162, on contract with West Roxbury Trap Rock Company for bituminous macadam roadway in Clement avenue, from Meredith street to Anawan avenue, West Roxbury, on account of omitting artificial stone sidewalks where directed and substituting loam spaces. Original contract, \$5,323.70; total deduction, \$162; contract as standing, \$5,161.70.

A deduction, amounting to \$327, on contract with James Doherty for constructing Old Colony avenue, between Hyde and Mt. Vernon streets, South Boston, on account of omitting shaping and rolling roadway and sidewalks from Mt. Vernon street about 595 feet northerly and substituting the placing of filling, as directed; cutting guttermouth in circular edgestone. Original contract, \$13,460.85; total deduction, \$327; total addition, \$21; contract as standing, \$13,154.85.

PUBLIC WORKS DEPARTMENT (Sewer Service).

An addition, amounting to \$25.75, on contract with Louis Balboni for sewerage works in Long avenue, between Commonwealth avenue and Allston street, Brighton, on account of rebuilding manhole on old house sewer; making connection between new catch-basin drain and old surface drain manhole due to change in location of catch-basin; changing old house drains not properly connected when houses were built. Original contract, \$459.50; total addition, \$25.75; contract as standing, \$485.25.

An addition, amounting to \$25, on contract with Frank Drinkwater for sewerage works in Clement avenue, Kenneth street, Anawan avenue and Beech street, West Roxbury, on account of raising three manholes and placing "Y" branch in old sewer. Original contract, \$4,294.70; total additions, \$60; contract as standing, \$4,354.70.

PUBLIC WORKS DEPARTMENT (Water Service).

An addition, amounting to \$113.46, on contract with Roger P. Cushing for laying water pipe in various streets in Brighton and Dorchester, on account of making high service connection, Barrows street, Brighton; making cross connections, Commonwealth avenue, Brighton; removing obstructions and grading Gustin street, Dorchester. Original contract,

\$10,626.50; total additions, \$590.98; contract as standing, \$11,217.48.

An addition, amounting to \$23.13, on contract with John Guarino for laying water pipe in various streets in West Roxbury, Roxbury and Hyde Park, on account of setting hydrant, Auburn street, West Roxbury. Original contract, \$10,374; total addition, \$535.86 contract as standing, \$10,910.86.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$265, on contract with M. F. MacDonald & Son for work upon the land and buildings of the Norcross School, for furnishing and installing 27 square feet of wall radiation and connecting with the present supply, furnishing necessary equipment, providing air valves and removing two sliding dampers and improving lavatories, \$66; lowering 40 feet of 4-inch pipe and 20 feet of 5-inch pipe and excavating and filling for same, \$50; for new concrete steps and foundations, with granolithic underpinning, \$100; for building 38 feet of concrete wall, \$50; for painting 25 yards of rear wall, \$10; for extension of iron fence, \$26; for providing new catch-basin, \$8. Less a deduction of \$45 for omitting iron fence and concrete wall. Original contract, \$6,390; total additions, \$265; contract as standing, \$6,655.

FIRE DEPARTMENT ORDERS.

HEADQUARTERS, FIRE DEPARTMENT,
BOSTON, October 7, 1914.

General Orders No. 137.

I. TRANSFERS.

1. The following transfers are hereby announced to take effect at 10 a. m., Friday, October 9, 1914:

William Peterson, from Ladder 4 to Tower 2.

James P. Jones, from Engine 26 and 35 to Ladder 4.

William P. Sullivan, from Tower 2 to Engine 26 and 35.

II. NEW FIRE ALARM BOX.

1. The following new fire alarm box will shortly be established:

Box 3113.—Southampton street, near railroad bridge, connected into circuit No. 33. The running card will be the same as for Box 313.

III. COMMENDATION.

1. Assistant Engineer James J. Higgins of Engine Company No. 19 is hereby commended for responding to an alarm from Box 368, September 27, 1914, while on a day off.

By order of the Fire Commissioner,

PETER F. McDONOUGH,
Chief of Department.

FREE PUBLIC LECTURES.

Announcement is made of free public lectures at the Museum of Fine Arts, upon Sunday, October 11, as follows:

In the Department of Classical Art, Mr. William H. J. Kennedy, will meet visitors in the Classical Galleries at 3.15 p. m.

In the Department of Western Art, Mr. F. Melbourne Greene will speak on "The Five Modes of Artistic Vision," in the Lecture Room, at 4. p. m.

APPROVAL OF LAND TAKINGS.

The Mayor has formally approved the order of the Board of Street Commissioners in the taking of parcels of land, owner or owners unknown, for sewerage works, being part of a private way, leading southeasterly from Norfolk street, opposite Willowwood street, Dorchester.

The first parcel of land contains 598 square feet, more or less; the second parcel of land contains 166 square feet, more or less; the third parcel of land contains 473 square feet, more or less; the fourth parcel of land contains 3,549 square feet, more or less.

The sewerage works to be constructed are as follows: In Hunter street, about 412 linear feet of 12-inch pipe, sanitary sewer, and in private land and Hunter street, about 535 linear feet of 10, 12 and 15 inch pipe surface drain.

The Board of Street Commissioners declare that no person sustains damages in his estate by the taking of the parcels of land named for sewerage works and awards no damages therefor.

The Mayor has formally approved the order of the Board of Street Commissioners in the taking of land for sewerage works in the private ways known as Newkirk and Manley streets, Dorchester.

The parcel of land is the property of owners unknown and contains 2,085 square feet, more or less.

The sewerage works to be constructed are as follows: About 345 linear feet of 10-inch pipe sanitary sewer.

The Board determines that no person sustains damages in his estate by the construction of the sewerage works and awards no damages therefor.

The Mayor has formally approved the order of the Board of Street Commissioners in the taking of land for sewerage works in the private way known as Ashley street, East Boston.

The parcel of land is the property of owners unknown and contains 11,984 square feet, more or less.

The sewerage works to be constructed are as follows: About 800 linear feet of 10-inch pipe sanitary sewer.

The Board determines that no person sustains damages in his estate by the construction of the sewerage works and awards no damages therefor.

The Mayor has formally approved the order of the Board of Street Commissioners in the taking of land for sewerage works in the private ways known as Bayswater street and Washburn avenue, East Boston.

The parcel of land is the property of owners unknown, and contains 1,620 square feet, more or less.

The sewerage works to be constructed are as follows: About 270 linear feet of 12-inch pipe surface drain.

The Board determines that no person sustains damages in his estate by the construction of the sewerage works and awards no damages therefor.

The Mayor has formally approved the order of the Board of Street Commissioners in the taking of land for sewerage works in the private way known as Deering road, Dorchester.

The parcels of land contain, respectively, 2,586 square feet, more or less, and 3,130 square feet, more or less.

The sewerage works to be constructed are as follows: About 300 linear feet of 8-inch pipe sanitary sewer, 415 feet of 12-inch pipe surface drain and 345 feet of 10-inch pipe surface drain.

The Board determines that no person sustains damages in his estate by the construction of the sewerage works and awards no damages therefor.

The Mayor has formally approved the order of the Board of Street Commissioners in the taking of land for sewerage works in the private way known as Deering road, Dorchester.

The parcels of land are the property of owners unknown, and contain, respectively, 2,586 square feet, more or less, and 3,130 square feet, more or less.

The sewerage works to be constructed are as follows: About 300 linear feet of 8-inch pipe sanitary sewer, 415 feet of 12-inch pipe drain and 345 feet of 10-inch pipe surface drain.

The Board determines that no person sustains damages in his estate by the taking for and construction of the sewerage works and awards no damages therefor.

The Mayor has formally approved the order of the Board of Street Commissioners in the taking of land for sewerage works in the private way known as Lenoxdale avenue, Dorchester.

The parcel of land is the property of owners unknown, and contains 780 square feet, more or less.

The sewerage works to be constructed are as follows: About 130 linear feet of 10-inch pipe sanitary sewer.

The Board determines that no person sustains damages in his estate by the taking for and construction of the sewerage works and awards no damages therefor.

The Mayor has formally approved the order of the Board of Street Commissioners in the taking of land for sewerage works in the private ways known as Central and Rhoda streets, West Roxbury.

The parcel of land is the property of owners unknown, and contains 1,111 square feet, more or less.

The sewerage works to be constructed are as follows: About 180 linear feet of 10-inch pipe sanitary sewer.

The Board determines that no person sustains damages in his estate by the taking for and construction of the sewerage works and awards no damages therefor.

THE OBSERVANCE OF COLUMBUS DAY.

Columbus Day, Monday, October 12, is a legal holiday in twenty-four States of the Union, and will be appropriately observed in Massachusetts, New York, Pennsylvania, Connecticut, Rhode Island, Vermont, Illinois, Ohio, Indiana, New Jersey, Michigan, Missouri, Maryland, Washington, Texas, Delaware, California, Colorado, Idaho, Kentucky, Montana, Arkansas, Kansas and Oklahoma.

PERMITS FOR GARAGES AND KEEPING OF GASOLINE.

The Mayor has formally approved the orders of the Board of Street Commissioners granting permission for public and private garages and the keeping of gasoline as follows:

Garage.—Oliver S. Hayward, 22 Florida street, Ward 24.

Gasoline.—Thomas W. Gilerist, 74 Fairmount street, Ward 24.

BOSTON'S MUNICIPAL SHOWER BATHS.

Free public shower baths may be taken in these buildings:

East Boston Gymnasium, Paris street, East Boston.

D Street Gymnasium, South Boston. Municipal Building, Columbia road, Dorchester.

Cabot Street Gymnasium, Roxbury. North Bennet Street, North End. Tyler Street Gymnasium, South End. Harrison Avenue Gymnasium, Ward 9. Curtis Hall Gymnasium, Jamaica Plain. Dover Street Bath House, 249 Dover street.

Copley School, Bartlett street, Charlestown.

Municipal Building, corner Bunker Hill and Lexington streets, Charlestown.

Bathing facilities are entirely free of charge. Persons having no towels and soap may procure them at each building office for one cent each. Comfortable private dressing closets are free in all places. Hot and cold water may be had for baths. At the Dover Street Bath House women and men have separate accommodations and each may bathe there any day in the week. In the other houses women have exclusive use of baths on Mondays and Thursdays, and men have the remaining days. There is telephone connection in each building.

STREET COMMISSIONERS.

The Mayor has formally approved the orders of the Board of Street Commissioners relative to the laying out and construction of streets in Dorchester.

The orders approved are as follows:

The Board determines that the under-mentioned estates sustain damages by the making of the public improvement consisting of the laying out and construction of Herbert street, Dorchester, as a highway, from Park street to West Tremlett street, to the amounts hereinafter respectively set against them, and awards said amounts therefor.

	Amount.
Fannie A. Cottrell.....	\$75 00
Henry P. Dreyer.....	50 00
Augusta F. Reuter, 36.5 square feet....	75 00
	<u>\$200 00</u>

The Board estimates that the estates hereinafter specified are all the estates which will receive benefit or advantage from the improvement above specified, beyond the general advantage to all real estate in said city, each to the amount hereinafter set against it.

	Amount.
Annie J. Callahan.....	\$224 43
Catherine Fraher.....	217 00
Augusta F. Reuter.....	210 12
Augusta F. Reuter.....	239 80
Fannie A. Cottrell.....	159 39
Julia A. Sullivan.....	110 28
Jacob W. Karcher.....	150 00
Edna A. Dreyer.....	216 00
Edna A. Dreyer.....	336 80
Henry P. Dreyer.....	131 49
	<u>\$2,025 31</u>

The Board determines that the under-mentioned estates sustain damages by the making of the public improvement consisting of the laying out and construction of Wellington Hill footway, Dorchester, as a highway, from Wellington Hill street to Walk Hill street, to the amounts hereinafter respectively set against them, and awards said amounts therefor.

	Amount.
Frank H. Shumway and Estelle W. Shumway, 569 square feet.....	\$100 00
Herbert Nash et al., trustees, 565 square feet.....	100 00
Emil W. Miller, 1,076 square feet.....	75 32
	<u>\$275 32</u>

The Board determines that no person receives benefit or advantage to his estate from the improvement above specified beyond the general advantage to all real estate in said city.

CODE OF REVENUE LAWS.

Director William J. Harris of the Bureau of the Census, Department of Commerce, advises the *City Record* that a bulletin containing a digest of the laws relating to the revenue systems of the state and local governments has been completed and is now ready for distribution. The bulletin describes in detail the different sources of revenue in each state, including general property taxes, poll taxes, the inheritance tax, corporation taxes, the income tax, and business taxes, licenses and fees, and in the case of the general property taxes enumerates the classes of property subject to such taxes, the methods of assessment, equalization and collection, and the statutory limitations of the rates of such levies.

The laws relating to taxation, as shown by the present bulletin, have undergone great changes since 1902, which was the date of the last report on this subject issued by the Bureau of the Census.

Among the changes to be noted has been the creation of numerous tax commissions in the various states, having wide discretionary powers over the administration of the work of local officials connected with taxation, and full power over the assessment of the property of corporations doing business in two or more counties of the same state.

DORCHESTER BAY STRANDWAY.

Plans for the improvement of the Dorchester Bay Strandway, one of Mayor Curley's campaign pledges, were filed with Mayor Curley during the week by Commissioner Rourke, Commissioner Dillon and Commissioner Mahoney, the committee appointed by the Mayor some time ago to investigate and report.

When carried out they will reclaim about twenty-five acres of land, create a white, sandy beach of the width of 150 feet in addition to diverting the sewers that now empty into that section into a common discharge at Cow Pasture. A breakwater will also be constructed.

The total cost of the improvements will not exceed \$570,000, which the Mayor proposes to raise within the debt limit.

During the winter Captain Dillon, chairman of the Park and Recreation Department, will, with the department force, construct an ornamental balustrade, a granolithic sidewalk to connect the Headhouse with the bridge entrance to Castle Island. The Strandway will also be extended to Farragut road and so make a complete driveway at that point.

The Mayor declares he will go before the Legislature for authority to construct the Neponset Bridge, an improvement which when completed will give a fifteen-mile driveway along the water front. The Mayor will also try to have the law changed so that he may spend \$1,000,000 next year for sewer work instead of \$500,000.

In the matter of the Strandway and the reclaimed twenty-five acres of land the Mayor expects that the returns from fees for concessions will more than pay for maintenance. The erection of buildings will be permitted with the understanding that at the end of a certain number of years the property will revert to the city.

TRANSFER OF SCHOOLHOUSE ACCOUNTS.

The Mayor has formally approved the request of the Commissioners of the Schoolhouse Department for the transfer of accounts in which the members of the School Committee have concurred.

The communication of Chairman Lomasney relative to the items is as follows:

October 7, 1914.

HON. JAMES M. CURLEY, Mayor:

DEAR SIR,—We ask your Honor's approval of the transfer of certain amounts to other items in the list of school accommodations as follows, the School Committee having already concurred in the vote transferring these items:

From Oliver Wendell Holmes District, Dorchester: Elementary school, lower grades, land and building, tax levy 1914, the sum of \$1,261.

To Hyde Park High School: Domestic science room, new furnishings.

From Oliver Wendell Holmes District, Dorchester: Elementary school, lower grades, land and building, tax levy 1914, the sum of \$1,859.

To Brighton High School: Domestic science room, new furnishings.

From Oliver Wendell Holmes District, Dorchester: Elementary school, lower, grades, land and building, tax levy 1914, the sum of \$500.

To East Boston High School Annex (66 Saratoga street): Domestic science room, new furnishings.

From Everett District, South End: Trade School for Girls, paving of school yard, tax levy 1914, the sum of \$200.

To Phillips Brooks District, Dorchester: Grading and paving of school yard, tax levy 1914.

From Franklin District, South End: Grading and paving of John J. Williams School yard, tax levy 1914, the sum of \$500.

To Martin District, Roxbury: Preparation of Normal School yard for use, tax levy 1912.

From Franklin District, South End: Grading and paving of John J. Williams School yard, tax levy 1914, the sum of \$189.

To Bigelow District, South Boston: Extension of Simonds School yard, tax levy 1914.

Respectfully yours,

J. P. LOMASNEY,

Chairman.

CAN OUR CONSULS BE TAXED?

A very interesting question relative to methods of taxation, and the defining of the status of both resident and citizen, arose at City Hall during the week when Mayor Curley was appealed to by American consuls in Canada to determine the right of the British Crown to tax their incomes.

The American consuls declare that it is the contention of the tax officials of the Dominion of Canada that as the British consul general is taxed in Boston upon his official salary there should be a corresponding payment of tax by officials of the United States in Canada.

Mayor Curley directed that careful inquiry be made as to the subject and the fact appears to be that the United States Treasury Department has informed the Department of State that the present income tax law is inapplicable to the salaries of foreign consuls residing in the United States.

Secretary Folsom of the Boston Board of Assessors was positive that the British consul in Boston paid no tax to the City of Boston and that any construction of the law relative to such tax would be guided largely by the question of whether the consul remained a British subject.

State Treasurer Mansfield was positive that the British consul paid to the Commonwealth no tax and stated that when in the past a city had attempted to levy a tax upon a British representative it was found that the attempt to enforce such an obligation would be an infringement upon our treaty with Great Britain. The question of the levy of tax upon an American citizen, appointed a consul for a foreign nation, would be, however, quite another matter.

Collector of Internal Revenue Malley declared that the question had not been ruled upon and proposed to refer it to the Treasury Department for definite determination.

It was the opinion of several of the government attachés that the salary of a consul of another nation, residing in the United States, where he had a settled and accustomed place of business, would come within the provision of the income tax.

And in the meanwhile, Mayor Curley will request an official interpretation from Hon. William Gibbs McAdoo, Secretary of the Treasury.

HEALTH DEPARTMENT.

The following is a summary of the work done by the different divisions of the department for the week ending October 3, 1914:

MORTALITY REPORT FOR THE WEEK AND SAME PERIOD IN 1913.

	1914.	1913.
Total deaths.....	196	220
Nonresidents.....	25	42
Rate.....	13.61	15.60
Corrected rate.....	11.88	12.90

NUMBER OF CASES AND DEATHS FROM COMMUNICABLE DISEASES FOR WEEK.

	Cases.	Deaths.
Diphtheria.....	48	5
Scarlet fever.....	35	
Measles.....	14	1
Typhoid fever.....	15	2
Whooping cough.....	17	2
Tuberculosis.....	41	17

Infant mortality (under 1 year), 47.

CENTRAL DIVISION.

Legal notices voted.....	93
Stable hearing.....	1
Stable permit granted.....	1
Building demolished.....	1

COMMUNICABLE DISEASES.

Number visits by inspectors.....	56
Number visits by nurses.....	461
Vaccinations.....	38
Vaccination certified.....	124
Anti-typhoid inoculations.....	15
Fumigations.....	78
Forcible removal.....	1
Cases brought to Boston for treatment.....	12

CHILD HYGIENE.

Prenatal visits.....	28
Postnatal visits.....	922
Babies visited.....	317

Medical Inspection of Schools.

Number of inspections made.....	6,769
Number physical examinations made.....	3,265
Number exclusions recommended,	512

Examinations—Licensed Minors.

Girls.....	119
Boys.....	110

QUARANTINE.

Passengers inspected.....	1,035
Ships boarded.....	15
Fumigation (vessel).....	1

BACTERIOLOGICAL AND CHEMICAL LABORATORIES.

Examination for diagnosis.....	392
Examinations of milk.....	95

Chemical examinations of milk....	440
Chemical examinations of vinegar,	18
Court cases.....	13
Fines.....	\$175

DAIRY INSPECTION.

Inspection of dairies.....	224
Inspections of cattle.....	1,235
Dairies prohibited from shipping milk to Boston.....	10

FOOD INSPECTION.

Animals inspected.....	1,780
Animals condemned.....	9
Parts condemned.....	133

Stores examined.....	490
Market meats condemned....	102 pounds

SUPERINTENDENT OF PEDESTRIANS.

Vehicles inspected.....	5
Numbers assigned.....	46

ANIMAL INSPECTION.

Horses inspected.....	240
-----------------------	-----

SANITARY INSPECTION.

Nuisances reported.....	2,770
Number of inspections.....	4,292
Court cases, 2 fines.....	\$20
Complaints investigated.....	196

STATEMENT OF COMMERCE.

The commerce for the Port of Boston for the week ending September 25, 1914, is evidenced in the following table:

	1914.	1913.	Increase.	Decrease.
Imports.....	\$1,950,230	\$2,439,515		\$489,285
Exports.....	681,188	1,321,361		637,173
For the last thirty-nine weeks:				
Imports.....	136,025,334	101,668,436	\$34,356,898	
Exports.....	40,917,522	52,931,528		12,014,006

The statement showing commerce of the Port of Boston for week ending October 2, 1914, is as follows:

	1914.	1913.	Increase.	Decrease.
Imports.....	\$2,910,801	\$1,744,544	\$1,166,257	
Exports.....	1,184,408	2,353,446		\$1,169,038
For the last forty weeks:				
Imports.....	138,936,135	103,412,980	35,523,155	
Exports.....	42,101,930	55,284,974		13,183,044

COMPARATIVE MORTALITY STATISTICS, LIVERPOOL AND BOSTON.

The report of the Health Department of the City of Liverpool, England, has just been received by the Boston Health Department, and an interesting comparison has been compiled. The cities of Liverpool and Boston bear a striking resemblance to each other in many characteristics; the population of the two cities is about the same, the advantage being slightly in favor of Liverpool; both cities are so-called maritime cities, and both have a cosmopolitan population. For these reasons a perusal of the following statistics for 1913 will be interesting:

	Liverpool, England.	Boston, Mass.
Area of city.....	21,219 acres (33 square miles)	30,295 acres (47 3/4 square miles)
Estimated population July 1, 1913.....	756,553	735,399
Births.....	22,555	19,245
Birth rate.....	29 8	26 2
Total number of deaths.....	13,658	11,839
Death rate.....	18 0	16 0
Deaths of infants under 1 year.....	2,987	2,111
Death rate of infants under 1 year per 1,000 births.....	132 0	110 0
Death rate from pulmonary tuberculosis per 10,000.....	15 6	14 5
Death rate from measles, diphtheria, scarlet fever, whooping cough, typhoid fever, diarrhea and enteritis, influenza, per 1,000.....	2 2	1 5

COMPARATIVE TABLE SHOWING DEPARTMENT EXPENDITURES TO OCTOBER 1 OF EACH YEAR FOR A FIVE-YEAR PERIOD.

APPROPRIATION.	1910-11.	1911-12.	1912-13.	1913-14.	1914-15.

† Bath, Music, Park and Public Grounds Departments to 1912-13, inclusive.

‡ Street and Engineering Departments to 1910-11, inclusive.

§ Not including water service.

1913-14 includes 55 weekly pay rolls, 1914-15 includes 34 weekly pay rolls.

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announce an open competitive examination October 12, 1914, for sawyer and carpenter, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$900 per annum in the Indian Service, Shoshone Agency, Wyoming, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission invites attention to the open competitive examination for rodman and chainman, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in these positions in the Interstate Commerce Commission under the act providing for the valuation of the property of common carriers, at salaries ranging from \$720 to \$1,080 per annum, with necessary expenses when absent from headquarters in the discharge of official duties, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination, October 12, 1914, for dairy husbandman, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at an entrance salary ranging from \$1,800 to \$2,500 per annum in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, and vacancies as they may occur in position requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

As insufficient eligibles were secured from the examination for this position held on June 29, 1914, qualified persons are urged to enter this examination.

The duties of this position will include cooperative work with dairy farmers; advice and assistance with reference to instituting the keeping of records of production of herds, the construction of silos, the construction and remodeling of dairy buildings, the feeding of dairy herds, the management of dairy farms, the care and handling of milk and cream, and the making of butter on farms; the organization and supervision of farmers' associations, bull associations, and cow-testing associations; demonstrations at fairs, judging dairy cattle and dairy products, lecture work on subjects connected with dairy farming, and other forms of dairy-farming extension work; collection of information concerning the dairy industry, and experimental work along dairy-farming lines. The performance of these duties will involve considerable traveling, usually within one state.

The commission announce an open competitive examination, October 12, 1914, for ferryman, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$1,080 a year for nine months in a year, at the Cheyenne River Indian Agency, South Dakota, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission invites attention to the opportunity for appointment of qualified persons from the open competitive examination for cadet engineer, for men only, scheduled to be held on October 14, 1914. As difficulty has been experienced in securing sufficient eligibles for this position in the Lighthouse Service qualified persons are urged to enter this examination.

The usual entrance salary for this position ranges from \$600 to \$780 per annum, with quarters and subsistence. Appointees are assigned to duty on board the various vessels of the Lighthouse Service and are in training for promotion after satisfactory service.

The commission invites attention to the open competitive examinations for ship draftsman and copyist ship draftsman, for men only, to be held on October 14 and 15, 1914. From the registers of eligibles resulting from these examinations certification will be made to fill vacancies as they may occur in these positions in the Bureau of Construction and Repair, Navy Department, Washington, D. C., and at navy yards and other establishments of the Navy Department outside of Washington, D. C., unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The entrance salaries for the position of ship draftsman range from \$3.28 to \$5.04 per diem. Persons appointed from this examination are eligible to promotion in the service of the Navy Department to salaries of \$7.52, \$8, and in a few cases as high as \$10 and \$12 per diem, depending upon the efficiency shown.

The entrance salaries for the position of copyist ship draftsman range from \$2 to \$2.80 per diem.

The opportunity for appointment of qualified eligibles is excellent, as difficulty has been experienced in securing a sufficient number of eligibles to meet the needs of the service. The following vacancies exist at the present time:

One, Navy Department, Washington, D. C., \$5.04 per diem.
 One, Navy Department, Washington, D. C., \$3.28 per diem.
 One, Navy Yard, New York, N. Y., \$4.48 per diem.
 Two, Navy Yard, New York, N. Y., \$4 per diem.
 One, Navy Yard, New York, N. Y., \$3.28 per diem.
 Two, Navy Yard, Philadelphia, Pa., \$5.04 per diem.
 Two, Navy Yard, Philadelphia, Pa., \$4.48 per diem.
 One, Navy Yard, Philadelphia, Pa., \$3.28 per diem.
 One, Navy Yard, Washington, D. C., \$4 per diem.
 One, Navy Yard, Norfolk, Va. (Copyist), \$2.40 per diem.
 One, Navy Yard, Mare Island, Cal., \$4.48 per diem.
 One, Navy Yard, Mare Island, Cal. (Copyist), \$2.80 per diem.
 Four, Navy Yard, Puget Sound, Washington, \$3.28 per diem.
 One, Office of Naval Constructor, Quincy, Mass., \$3.28 per diem.

The commission invites attention to the regular fall examinations for scientific assistant, Department of Agriculture, to be held on October 14 and 15, 1914.

Examinations will be given in the following subjects:

Agronomy, animal husbandry, dairying, entomology, farm management, forage crops, horticulture, library science, marketing and distribution, nutrition and calorimetry, plant breeding, plant pathology, plant physiology, pomology, seed testing, soil bacteriology, soil surveying.

The positions for which the examinations first referred to are held offer many attractive features. Excellent opportunities are afforded for scientific research in the laboratories of the Department of Agriculture. Furthermore, practically all of these positions require more or less

investigational work in the field outside of Washington, D. C., which enables one to obtain a broad and comprehensive view of one's special subject of investigation as related to the entire country. When traveling in the field away from either official or temporary headquarters, the expenses of the investigator are paid.

Applicants must be at least 20 years of age on the date of the examination.

This examination is open to all citizens of the United States who meet the requirements.

The commission announce an open competitive examination, October 15, 1914, for assistant in warehouse investigations, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Office of Markets, Department of Agriculture, at salaries ranging from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to assist in the classification and registering of warehouses, and to conduct warehouse inspections.

The commission announce an open competitive examination for temporary clerk, for both men and women, on October 17, 1914, at Washington, D. C., only. From the register of eligibles resulting from this examination certification will be made to fill temporary vacancies in this position as they may occur from time to time in the Departmental Service at Washington, D. C.

The salary usually paid for temporary employment in this position is \$75 a month while employed. Eligibles obtained under this examination will not acquire any status for permanent appointment.

The commission announce an open competitive examination, October 20, 1914, for auto machinist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$4 per diem in the Bureau of Engraving and Printing, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination, October 21, 1914, for entomological ranger, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Entomology, Department of Agriculture, for service in the Rocky Mountains and Pacific coast states, at salaries ranging from \$840 to \$1,200 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to collect specimens and information, locate and mark trees infested with destructive insects, and give instructions and assistance to private owners on the practical details of the methods recommended for the control and prevention of insect depredations on living timber.

The commission announce an open competitive examination for quarantine inspector, for men only, on October 21,

1914. From the register of eligibles resulting from this examination, certification will be made to fill vacancies in this position under the Federal Horticultural Board, Department of Agriculture, at salaries ranging from \$840 to \$1,320, for service in New England, and in any states or parts of states which may be hereafter quarantined on account of potato diseases, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The examination will be held at the following places:

Massachusetts.—Boston, Brockton, Fall River, Fitchburg, Lawrence, Lowell, Pittsfield, Salem, Springfield, Worcester.

The duties of this position will be to inspect potatoes presented for interstate shipment with a view to determining the presence or absence of powdery scab and to certify for interstate shipment such lots as are found free from this disease. Also to inspect warehouses and cellars where potatoes are to be stored for interstate shipment and to see that owners and tenants comply with the regulations requiring disinfection of such places and of tools and implements used in the handling of potatoes intended for shipment interstate. Also to give instructions and assistance to shippers and growers of potatoes on the practical details recommended for the control and eradication of powdery scab or other potato diseases.

The commission announce an open competitive examination for oil and gas inspector, for men only. From the register of eligibles resulting from this examination certification will be made to fill six vacancies in this position under the Commissioner to the Five Civilized Tribes in Oklahoma, at salaries ranging from \$1,400 to \$2,500 per annum, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

It is expected that the majority of the vacancies will be filled at salaries of approximately \$1,400, and only in the cases of exceptionally well qualified men will higher salaries be paid.

The commission announce an open competitive examination for linotype machinist, for men only, on October 21, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in the position of linotype machinist in the Government Printing Office, at 60 cents per hour, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for bookbinder, for men only, on October 21, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at salaries ranging from \$4 to \$5 per diem in the Government Printing Office and in the Bureau of Engraving and Printing, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for tariff assistant and assistant in foreign trade-marks, for both men and women, on October 21, 1914. From the register of eligibles resulting from this examination certifica-

tion will be made to fill vacancies in these positions in the Bureau of Foreign and Domestic Commerce, Department of Commerce, Washington, D. C., at a salary of \$1,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position of tariff assistant will be to read foreign official gazettes, make translations and abstracts of tariff laws, and compile statements of rates of duty in foreign countries on specified articles.

The duties of the position of assistant in foreign trade-marks will be to make a study of foreign trade-mark laws and practice, to prepare translations and abstracts of such laws, and to answer inquiries in regard to foreign trade-marks.

The commission announce an open competitive examination, October 27, 1914, for assistant in rural education, for women only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Education, Department of the Interior, Washington, D. C., at salaries of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include the study of rural education, with special reference to the methods of teaching in the elementary grades and the collection and compilation of information relating thereto.

The commission announce an open competitive examination, October 27, 1914, for specialist in home economics, for women only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Education, Department of the Interior, Washington, D. C., at a salary of \$3,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include the study of education in home economics, the collection and compilation of information relating thereto and the giving of advice to education officers throughout the United States for courses of study in home economics.

The commission announce an open competitive examination, October 27, 1914, for ornamental ironworker, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$4.40 per diem, in the Bureau of Engraving and Printing, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination, on November 3, 1914, for junior physical chemist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Chemistry, Department of Agriculture, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it

is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be chiefly research work in the preparation and investigation of sugar, their occurrence, identification and properties, and the importance of the various sugars in various foods.

The commission announce an open competitive examination, on November 3, 1914, for specialist in agricultural education, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Education, Department of the Interior, Washington, D. C., at a salary of \$3,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include the study of agricultural education, the collection and compilation of information relating thereto and the giving of advice to education officers throughout the United States relating to the establishment of agricultural institutions and agricultural courses.

The commission announce an open competitive examination, on November 3, 1914, for pharmaceutical chemist, for both men and women. From the register of eligibles resulting from this examination certification will be made to fill two vacancies in the Bureau of Chemistry, Department of Agriculture, Washington, D. C., at salaries ranging from \$1,800 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to assist in research in drug chemistry and in the solution of problems arising in the enforcement of the Food and Drugs Act.

The commission announce an open competitive examination for teacher of vocal music, for women only, on November 4, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Indian Service, at salaries ranging from \$600 to \$720 per annum, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination, November 3, 1914, for investigator in agricultural insurance, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Office of Markets and Rural Organization, Department of Agriculture, Washington, D. C., at a salary ranging from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position will be to study agricultural insurance conditions and facilities in the United States, especially the forms of organization that have proved efficient in carrying the burdens of necessary losses in live stock or damage from fire, hail, frost and other hazards in agriculture; to carry on field

studies and render assistance in the formation and conduct of such organizations; and to prepare material suitable for publication on these and related subjects.

The commission announce an open competitive examination for advanced apprentice engraver, for men only, on November 4, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$2 per diem when actually employed in the United States Geological Survey, and vacancies requiring similar qualifications as they may occur in any branch of the service, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

This position offers opportunity for advancement in work and salary, as the appointee, if qualified, is eligible for promotion to engraver at salaries ranging from \$1,000 to \$1,800 per annum. Experience acquired in the United States Geological Survey will qualify one for a similar position in any other office where map and chart work is done.

The commission announce an open competitive examination for elevator conductor, for men only, on November 4, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position as they may occur in the Departmental Service in Washington, D. C., at salaries ranging from \$400 to \$720 per annum, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for field agent, for men only, on November 4, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at \$1,600 a year, under the Bureau of Crop Estimates, Department of Agriculture, in the third, fourth and eighth districts, covering the states of West Virginia, Virginia, Kentucky, Tennessee, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Arkansas, Louisiana, Texas and Oklahoma, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will consist of the collection and reporting of information regarding acreages, conditions, and yields of various crops and data regarding farm animals.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

Competitive examinations of applicants for positions in the classified service will be held in Boston as follows:

FOR THE SERVICE OF THE COMMONWEALTH.

1914.

Nov. 16. Stenographers, Class 9.
Dec. 7. Civil Engineers, Class 27.
Dec. 17. Metropolitan Park Policemen, Class 16.
1915.
Jan. 19. Prison Watchmen, Class 17.

FOR THE SERVICE OF THE CITY OF BOSTON.

1914.
Oct. 21. Foreman of Laborers, Inspectors of Work, Class 22.

- Oct. 27. Drawtenders, Assistant Drawtenders, Class 25.
Nov. 2. Clerks, Messengers, Class 3.
Nov. 12. Firemen, Class 20.
Nov. 16. Stenographers, Class 9.
Dec. 7. Civil Engineers, Class 27.
1915.
Jan. 14. Janitors and Engineers of Public Buildings, Class 24.
Jan. 19. Prison Watchmen, Class 17.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply for the service of the Commonwealth, and only citizens of the United States who have been residents of Massachusetts for the past year and of Boston for the six months last past have a right to apply for the service of Boston.

Blank, applications (Form No. 1) for the Commonwealth and Boston services can be obtained by applying to the Civil Service Commission, State House, Boston, and when filled out, should be filed in the office of the commission at once.

In order to receive a notice to appear at any of the above-scheduled examinations, an applicant should have his application on file at least ten days before the date set for holding the examination.

The Massachusetts Civil Service Commission announce a competitive examination will be held October 26, 1914, to establish an eligible list from which to certify for the position of steward in state hospitals and institutions as vacancies may occur.

The examination will include a sworn statement of training and experience, a handwriting and accuracy test, report or letter writing, arithmetic, and questions calculated to test out the applicants' knowledge of the duties of a steward. Successful candidates may be subjected to a physical examination.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply.

Persons desiring to take his examination may secure application blanks by applying, in person or by letter, on or before October 19, at the office of the Civil Service Commission, Room 151, State House, Boston, Mass.

A competitive examination for bookkeeper (male) in the service of the Boston Transit Commission will be held on October 28, 1914. The salary will be from \$18 to \$21 a week.

An intimate knowledge of the following kinds of material handled will be essential: Reinforcing steel of various sizes and kinds, structural steel (both fabricated and unfabricated), waterproofing materials of various kinds, Portland cement, wax-tailings, poling boards and grouting pipes. Applicants will be expected to identify fabricated steel by means of a blueprint or shipping list. Experience in dealing with railroads in regard to freights will be essential, such as the ordering in and releasing of cars, keeping all car records, computing demurrage, knowledge of the rules of an "average agreement," handling damaged freight and putting in claims. Experience in the keeping of cost data will be required. Applicants must be able to keep necessary records and time and make up the pay roll.

The examination will include the following subjects: A sworn statement of training and experience, handwriting, spelling, letter writing, arithmetic (including percentage, proportion, interest and discount) and double entry book-keeping.

At the same time, October 28, the regular examination for bookkeeper (open to men and women) in the service of Boston and the Commonwealth will be held. This

examination was originally advertised for April 9, 1914. These examinations will probably occupy two days.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply for the service of the Commonwealth and for the service of the Boston Transit Commission. Only residents of Massachusetts for one year and of Boston for the six months last past have a right to apply for the service of Boston.

Persons desiring to take this examination may secure application blanks by applying in person or by letter, on or before October 21, at the office of the Civil Service Commission, Room 152, State House, Boston.

EXAMINATION FOR LIGHTING PLANT.

The Massachusetts Civil Service Commission announce that a competitive examination for the position of Superintendent of Distribution in the Municipal Lighting Plant of Taunton will be held October 13, 1914. This examination will be open to male citizens of the United States who have been residents of Massachusetts for the past year. Applicants are not required to be residents of Taunton at the time of application. There is one vacancy, and the salary is \$30 per week.

Applicants must be experts on meters of all descriptions, arc lamps, motors, line construction and interior wiring. They must be qualified to perform the duties of manager in the absence of the manager.

LIGHTHOUSE EXAMINATIONS.

United States Civil Service examinations for the following mechanical trades and noneducational positions in the Lighthouse Service, Engineer Department at large and the quartermaster corps, U. S. A., and the various branches of the government service in Boston, Mass., and vicinity, will be held on January 2, 1915. Positions: Assistant marine steam engineer (including positions on lighthouse tenders), carpenter, marine fireman, mate (including positions on lighthouse tenders), oiler (marine), stationary fireman.

Age limits, Lighthouse Service, 18 years or over, except for positions requiring license from United States Steamboat Inspection Service, for which the minimum age is 21. Maximum age for officer of tender, 45 years. Persons honorably discharged from the United States Army, Navy or Marine Corps and persons already in the Lighthouse Service in classified positions will be examined without regard to their age.

For information address Secretary First Civil Service District, Room 141, Post Office Building, Boston Mass.

REALTY BUSINESS IN GREATER BOSTON.

The real estate transactions in Greater Boston as evidenced upon the records of the Suffolk County Registry of Deeds are as follows:

DATE.	Transactions.	Mortgages.	Amount of Mortgages.
Week ending October 3.....	481	213	\$822,023
Same week in 1913.....	522	244	1,311,097
Same week in 1912.....	650	326	4,201,733
Week ending September 26, 1914.	346	153	1,055,869

PROCEEDINGS OF CITY COUNCIL.

Monday, October 5, 1914.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President McDONALD in the chair and all the members present.

The Council voted, on motion of Coun. BAL-LANTYNE, to dispense with the reading of the records of the last meeting.

PUBLIC LANDING, CHARLES RIVER.

The following was received:

City of Boston,
Office of the Mayor, October 1, 1914.
To the City Council:

I transmit herewith a communication from the Park and Recreation Department, relative to the matter of a public landing at Charles river, Spring street, on the Parental School land, in accordance with the order of your honorable body, passed on August 24.

Sincerely yours,
JAMES M. CURLEY, Mayor.

City of Boston,
Park and Recreation Department,
September 23, 1914.

Hon. James M. Curley,
Mayor of Boston:

My dear Sir,—In reply to the inclosed order of the Council requesting a public landing to be placed at Charles river, Spring street, on the Parental School land, for the use of canoeists and the public, same being submitted to this department for estimated cost, I am directed by the chairman of this commission to state that Mr. Putnam, our engineer, estimates the cost of putting the landing in Charles river, at Spring street, into condition for use by canoeists and the public, as per Council's order, to be \$500, \$350 of which is for the float, and \$150 for a bulkhead in front of the hathhouse along Spring street.

Very respectfully yours,
Park and Recreation Commission,
D. J. BYRNE, Secretary.

Placed on file.

SALE OF LAND.

The following was received:

City of Boston,
Office of the Mayor, October 5, 1914.
To the City Council:

I transmit herewith for your consideration a proposition for the purchase of lot at the corner of Harold and Seaver streets.

This property was taken in fee by the Park and Recreation Department. It is of no further use to the city and I recommend that it be sold at public auction at an upset price of \$1,000.

Respectfully,
JAMES M. CURLEY, Mayor.

October 1, 1914.

Hon. James M. Curley,
Mayor of Boston:

Dear Sir,—I have received an offer from George B. Elliot for Vincent Maschio of \$1,000 for the lot assessed for \$1,200 marked "B" on a plan inclosed herewith.

This lot is situated at the corner of Harold and Seaver streets, Roxbury, and was taken in fee by the Park and Recreation Department.

As it is of no further use to the city, I advise that it be sold at public auction, with an upset price of \$1,000.

Respectfully yours,
JOHN BECK.

Referred to the Committee on Public Lands.

LEASE OF BUILDING.

The following was received:

City of Boston,
Office of the Mayor, October 5, 1914.
To the City Council:

I transmit herewith for your consideration a proposition to lease a building, the property of the City of Boston, located at the corner of Maverick and Bremen streets, East Boston, and now used for a polling place.

Respectfully,
JAMES M. CURLEY, Mayor.

Boston, October 3, 1914.

Hon. James M. Curley,
Mayor of Boston:

Dear Sir,—I have received from Louis Tushinsky, of 174 Shawmut avenue, an offer of \$800 a year and the real estate taxes for the old Armory Building, at the corner of Maverick and Bremen streets, East Boston.

It is assessed for \$10,500. I have examined the property, and advise that this offer be accepted by the city.

I herewith inclose a letter dated October 2, 1914, from Louis Tushinsky to you in reference to same, and a memorandum from the Finance Commission's report of June 6, 1914.

Respectfully yours,
JOHN BECK.

Boston, October 2, 1914.

Hon. James M. Curley,

Mayor of Boston:

Dear Sir,—I desire to hire from the City of Boston the building at the corner of Maverick and Bremen streets, East Boston, now used for a polling place, and formerly used as the temporary court-house, for use as a public hall.

I will put the building into condition for use at my own expense, and will take a lease for any period, preferably five years, and pay whatever

rent your Honor and the City Council may decide to be a fair return upon the value of the building; reserving to the city, however, all rights for the use of the building for public purposes, such as meetings, polling or any other temporary use needed or deemed expedient.

Trusting that this application will be considered with favor, I am,

Respectfully yours,

LOUIS TUSHINSKY.

EXTRACT FROM THE REPORT OF BOSTON FINANCE COMMISSION ON CITY PROPERTIES, JUNE 6, 1914.

PROPERTY.	Ward.	Area, Square Feet.	Total Valuation.	Valuation Land.	Valuation Buildings.	Remarks.
Old armory building, Bremen and Maverick streets.	2	4,337	\$10,500	\$3,500	\$7,000	Now vacant. Signs, however, are by the door stating as follows: "Major P. J. Grady Camp No. 3, U. S. W. V. Meeting nights, first and third Fridays," and "Halls to let, apply to J. H. Pridham, 49 Condor street, telephone E. B. 137-2," and "Overseers of the Poor, office hours 10-11 daily." The building is used for a wardroom for Ward 2. The property should be sold.

Referred to Committee on Public Lands.

COST OF WIDENING NORTHAMPTON STREET.

The following was received:

City of Boston,
Office of the Mayor, October 5, 1914.
To the City Council:

I transmit herewith a communication from the Street Laying-Out Department, in response to an order of your honorable body of September 14, asking for an estimate of the cost of widening Northampton street, between Harrison avenue and Washington street.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Street Laying-Out Department,
September 25, 1914.

Hon. James M. Curley,

Mayor of Boston:

Dear Sir,—In reply to the inclosed order of the City Council, requesting the Board of Street Commissioners to submit an estimate of the cost of widening Northampton street, between Harrison avenue and Washington street, to a width of 60 feet, I am directed by the Board of Street Commissioners to submit the following:

Land and grade damages and construction, northerly side, \$115,000.

Land and grade damages and construction, southerly side, \$145,000. This estimate does not include sewerage works.

Very respectfully yours,
J. J. O'CALLAGHAN, Secretary.

Placed on file.

COMMUNICATION FROM PUBLIC WORKS DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, October 5, 1914.
To the City Council:

I transmit herewith communication from the Public Works Department in response to an order of your honorable body passed September 28, 1914, relative to the candle power of street gas lamps.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston.

Public Works Department, October 5, 1914.
To the Honorable the Mayor:

Sir,—In connection with the attached order I beg leave to report that the contractor for the street gas lighting is renewing the burners of the 10,000 street lamps as rapidly as possible. Up to date he has about 1,000 newly equipped and they are apparently giving the required candle power. It will take him until January 1, 1915, to complete the installation of the new equipment.

As yet no tests have been made by the city on the lamps, as we are waiting until more of them have been installed. The contractor has made several tests, however, during installation, and is apparently securing the required candle power.

Respectfully,
L. K. ROURKE,

Commissioner of Public Works.
Referred to Executive Committee.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the City Council the Mayor submitted the following appointments for term ending April 30, 1915:

1. To be Weigher of Coal, Bessie McCugh, 58 Mt. Hope street, Ward 23, William Howard McCullagh, 7 Yarmouth street, Boston.
2. Weigher of Grain, August Israelson, 111 Putnam street, East Boston.
3. To be Measurer of Leather, Hanford Thomas Crosby, Jr., 7 Rosella street, Ward 24.
4. To be Constable, Otis H. Hayes, 31 Bushnell street, Ward 24.

Severally laid over under the law.

RESIGNATION OF SCHOOLHOUSE COMMISSIONER.

Notice was received by the City Clerk from the Mayor of the resignation of Charles B. Perkins as a member of the Schoolhouse Commission.

Placed on file.

APPOINTMENT OF SCHOOLHOUSE COMMISSIONER.

Notice was received from the Mayor of the appointment of William J. Hennessey as Schoolhouse Commissioner, notice of same having been filed with the Civil Service Commission October 2, 1914.

Placed on file.

NOTICE OF HEARINGS.

Notice was received from the Public Service Commission of hearing to be given upon petition of the Boston Fish Market Corporation, for consent to construction of private railroad tracks at grade across Northern avenue, Boston, on Thursday, October 8, at 10.30 a. m., at No. 1 Beacon street, Boston.

Notice was received from the Public Service Commission of hearing to be given upon petition of Boston Elevated Railway Company, for approval of locations as follows: 452d location, in Dartmouth street, between Boylston street and Huntington avenue, relocation of the northerly of the existing tracks, with additional curved track at the northerly corner of Dartmouth street and Huntington avenue, said hearing to be given Wednesday, October 7, at 11.30 a. m., at No. 1 Beacon street.

Placed on file.

LICENSING PORTERS.

The following was received:

City of Boston,
Law Department, Boston, October 3, 1914.
To the Honorable the City Council:

Gentlemen,—I have considered the question as to the legality of licensing persons who carry, transport or convey baggage, goods, or other things from place to place for hire, upon which my opinion was requested in the following order:

Ordered, That the Corporation Counsel be requested to submit to the City Council his opinion as to the legality of licensing any persons who

carry, transport or convey baggage, goods, or other things from place to place for hire, said licensing not to prevent any person or persons employed in an hotel, boarding house, or railroad or railway station from acting as porters; also as to the legality of charging license fees to persons receiving a license if said license is legal, and I beg to submit the following:

I assume that the purpose of this order is to require public porters to secure licenses, and is not as broad as the language of the order would seem to imply, as that would include express and transfer companies and the like.

By an act passed in the year 1741, the selectmen of the town of Boston were authorized by the Colonial Legislature to regulate the business of common porters. This act has never been repealed, and is still law. The city, therefore, has the right to require public porters to be licensed, and to charge a fee for the issuance of such license.

Yours truly,

JOHN A. SULLIVAN,
Corporation Counsel.

Placed on file.

PETITIONS RECEIVED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Abraham Holenport, for compensation for injuries received on account of ice falling from building at 5 Chauncy street.

Eliza Smith, for compensation for injuries caused by a defect at 476 Warren street.

Sophia Males, for compensation for injuries caused by a defect in highway at State street and Merchants row.

James H. Kelley, for compensation for loss of clothing and money from locker at 33 Beacon street.

Joseph Plume, for compensation for injuries received while a patient at the City Hospital.

Mons Olson, to be paid for damage to wagon by a city team.

Michael Lamarea, to be paid expense of repairing drain at 56-58 Endicott street damaged while the water main was being laid in said street.

Jennie Goldsmith, for compensation for injuries caused by a defect in Brunswick street.

Walter M. Lougee, for compensation for damage to automobile by Fire Engine No. 10.

L. M. S. Horton, for compensation for injuries received while in the employ of the city.

NAMING OF JUNCTION.

A petition was received from Charles A. Malley and very many others requesting that the junction of Brighton and Commonwealth avenues, which at present bears no name, shall be called "Fuller Square," or "Fuller's Corner," in honor of Alvan T. Fuller.

Referred to the Executive Committee.

STORAGE OF EXPLOSIVES.

Notices were received of intention to continue the use of buildings for explosives or inflammable fluids, as follows:

W. Bowman Cutter, 1855 Dorchester avenue, Ward 24.

W. Bowman Cutter, 2377 Washington street. Placed on file.

CONFIRMATION OF APPOINTMENTS.

President McDONALD called up unfinished business, Nos. 1 and 2, viz.:

1. Action on appointments submitted by the Mayor, September 28, of Thomas A. McDonough, Arthur B. Lassiter, Louis M. Bianco, Owen Gallagher and Cornelius C. Sheridan, to be Constables.

2. Action on appointments submitted by the Mayor, September 28, of A. W. Thompson, William H. McLaughlin and Frank McLaughlin, to be Weighers of Coal, and James B. Shaw, to be a Weigher of Beef.

The question came on confirmation. Committee.—Coun. Ballantyne and Attridge. Whole number of ballots cast, 9, and the appointments were confirmed.

President McDONALD called up No. 3, viz.:

3. Ordered, That there be allowed and paid to the Soldiers' Relief Commissioner, and charged to the appropriation for Soldiers' Relief Department, the sum of three hundred dollars (\$300), said sum to be expended, subject to the approval of the Committee on Soldiers' Relief, by said commissioner in affording immediate relief to persons entitled to aid under chapter 79 of the Revised Laws and acts in amendment thereof and addition thereto.

Passed.

President McDONALD called up No. 4, viz.:

4. Ordered, That there be allowed and paid to the proprietors of the Social Law Library the sum of \$1,000 for the maintenance and enlargement of said library during the present year, said sum to be paid from the amount received from naturalization fees.

Passed.

BOSTON NATIONAL BASEBALL CLUB.

Coun. WATSON offered the following.

Whereas, The Boston National League Baseball Team has won the National League pennant and is about to play the Philadelphia American League Baseball Club for the world's championship during the coming few days, and

Whereas, The citizens of Massachusetts, more particularly the residents of Boston, have loyally supported the Boston club in defeat and in victory by their attendance at the games, and

Whereas, It is the prevailing rumor that the management of the Boston National League Baseball Club, which has as its head and principal owner a resident and citizen of the city of New York, in the person of James E. Gaffney, has imported from New York certain persons of that city to do the clerical work preparing for the sale of tickets for the games that are to be played in Boston, be it

Resolved, That in the opinion of the City Council of Boston, this act, as above mentioned, is against the best interests of the citizens of Boston, more particularly on account of the condition that prevails here at this time in the matter of employment of its unemployed, which is large at this time. Be it therefore

Ordered, That a copy of these resolutions be sent to the management of the Boston Baseball Club.

The question came on the passage of the preambles, resolution and order.

Coun. WATSON—Mr. President, for fear that these resolutions, after they are referred to the Executive Committee of the Council, may not be returned here to-day, I propose to burden the Council for about five or eight minutes for my reasons for offering the resolution. First of all, I want to clear myself of the charge which may possibly be made that there are any sour grapes in my position to-day in offering the resolution because of conditions that may exist. To-day in Boston, I am informed by the superintendent of the Free Employment Bureau, and I know it of my own personal knowledge, there are more unemployed people in proportion to the population than ever were without employment before in the history of the city. The Boston Baseball Association, I understand, is a Massachusetts corporation. It is dependent upon the buying or purchasing public, those who attend the game, for earnings and for financial success. I have no quarrel with Mr. Gaffney or any individual connected with that organization, but I have a grievance against the bringing in from a far-off city of those who reside and pay taxes here to do work that could easily be done by residents of Boston, or, to say the least, citizens of Massachusetts. I would like to ask Mr. Gaffney or any man connected with the Boston Baseball Association whether, in the event of there being a Boston owner of the New York National League or American League Baseball Team, officials or the public in New York would stand for one moment allowing Mr. Gaffney, who might be a resident of Boston and a part owner in a New York ball team, taking from the City of Boston to New York non-citizens of the city and state of New York to do work that could be done by the unemployed in that city or state? I know what the answer would be. I have been a member of this body two years next February. I have been at the beck and call of those in high and in lowly stations in life. The demands upon me for employment have been tremendous—not confined to my hours spent in City Hall, but even in my home life, my evenings.

Yes, and my Sundays have been occupied with honest application by decent men, women and children for employment. I had occasion to have a young boy, a stenographer who makes about \$7 a week and who helped support a mother and five brothers and sisters, come to me for a chance to do a little evening work, stenographic work or other employment that the National League Boston Ball Club might have to offer. I did not ask them for employment for him because I had been informed by men employed at the National League Grounds at Columbus avenue, Roxbury, that they were loafing because of this importation of men and boys from New York to take charge of the World's Series here. It may be that no other member of this Council will agree with me; it may be that they will all agree with me. It may be that they will all agree with me in Executive Committee, but that very few will agree with me in the open. I ask no favors of the Boston National League Baseball Club. I owe them nothing; they owe me nothing. They granted me the courtesy of a season ticket. They have done that for years and I have used it. I know the secretary; he is a personal friend of mine. He may take offense at my criticism, but it is not directed at either him or his chief. The assistant secretary is my personal friend, and he may take objection to my position. But I am not criticising either the secretary or his assistant. I am criticising a condition. While perhaps this resolution will have little force, it will certainly be a notice to controlling interests in local industries and corporations that, in so far as the best interests of the corporations of the city and state are concerned, the people believe that those residing in our city and state should be first given employment. I will touch on another matter. I have taken longer than I intended, but I will close shortly. I have in mind the fact that, owing to a precedent established in former World's Series games, an official of our government or of our Council has in the

past made a request for certain privileges. They are called privileges but are not privileges. We have been allowed to purchase ten tickets for three games, thirty tickets in all, each, at the box office, at the rate of \$3 each, or \$90. We pay in cash for them when we receive them. The attaches of the Council have been given the same privilege. But we are informed to-day that Mr. Gaffney of New York informed the Clerk of Committees that we could have two each only and that the attaches of the office could have none. His Honor the Mayor called up Mr. Gaffney and protested, told him that in former World's Series the members of the Board of Aldermen, thirteen, received ten tickets each by paying for them. The Mayor, I understand, told Mr. Gaffney that what he proposed was wrong, entirely wrong, and Mr. Gaffney then said that they could have four, two pair, but he wanted the names of those who used the tickets—in other words, suggesting that we proposed to give the tickets we obtained to speculators or to speculate in them. I want publicly to say to Mr. Gaffney that the ten tickets applied for by Mr. Dever for me were to be used by my friends and disposed of at \$3 each or \$9 for the series; that I, as one member of the City Council, do not do my work as a member of the city government or a city father—although I am one of the ordinary class in the community here—in the way that the Tammany Hall members of the Board of Aldermen do it in New York. Furthermore, what right has Mr. Gaffney to suggest that I or any other member of this Council proposes to go to work and dispose of tickets to speculators? Even though we did, is it any worse for the member of the Council to give four, five or six tickets to a speculator than it is for Mr. Gaffney to give Herriek or other ticket agents in Boston the choice of tickets and do so at a premium to Mr. Gaffney of 50 cents to a dollar apiece on the tickets? Let Mr. Gaffney answer that. I know that not one-half the tickets for the ball game have been disposed of. The applications do not amount to half the tickets issued. The tickets are going into the hands of Herriek and other speculators, not at the market price, but a premium is paid by Mr. Herriek to Mr. Gaffney and his organization. I have had my say, Mr. President. These resolutions will probably be referred to the Executive Committee. They may never come out, but I shall vote to have them come out. I believe, independently of the latter part of my remarks, that the question of the importation of residents of New York City by Mr. Gaffney of the Boston National League Baseball Team to work against the interests and the rights of unemployed, good citizens of Boston, is an important one. I trust that these resolutions will be referred to the Executive Committee and reported back here to-day.

The preambles, order and resolutions were referred to the Executive Committee.

FRANCHISE OF UNION FREIGHT RAILROAD COMPANY.

Coun. KENNY offered an order—That the Corporation Counsel be hereby requested to make an investigation of the franchise of and the various grants of locations made to the Union Freight Railroad Company and its predecessors, and inform the City Council whether or not the use of streets by the said company can be regulated, or the locations revoked, and in what body, if any, the authority exists for such regulation or revocation, also as to whether or not said company has the right to occupy or use its tracks and operate freight cars on Atlantic avenue at the junction of Summer street in the daytime.

Coun. KENNY—Mr. President, I have brought this matter to the attention of the public to-day, because I fear that an abuse of considerable magnitude is existing in the operation of freight cars on Atlantic avenue at the junction of Summer street. I think it has been manifest for some time, for some years back, that this railway has been operating freight cars through Atlantic avenue during the business hours of the day. I myself within a very few days—indeed, it was the very first day of this month, last Thursday morning—saw a long train, heavily laden with cars, passing along Atlantic avenue, crossing Summer street and going down along Atlantic avenue into the territory below, entirely blocking Federal street, Summer street at one point, and East street and Essex farther down. It may be that the company has a right to do this. If it has, I think we should know it. If it has not, I think we should take some steps to end what is a very serious situation, so far as the rights of the public are concerned. In Dorchester there are about 100,000 people, to say the least; in South Boston there are 75,000 to 80,000 people. Dorchester avenue and Summer street are the two important avenues of approach to the city in that section, and every morning people are coming into the city from Dorchester and the territory beyond Dorchester, from South Boston, a very large number using Dorchester avenue and Summer street to get into the business part of the city; to say nothing of the 100,000 people who are going into and out of the South Station every day in the year except Sunday. This is a very serious situation. You can imagine all sorts of difficulties arising. There might be a fire, for instance, on Summer or Federal streets, and the apparatus from South Boston

might be required. It might be blocked. The most important part of the business section of the city may be subjected to a very serious risk on account of this situation. One hundred thousand people are passing into and out of the South Station every day, and a large number of them may have to stand for an hour either on the South Station side or on the other side until a long line of freight cars passes by. It seems to me it is a very unusual situation that ought to be inquired into. I remember some two or three years ago coming out of the South Station about half-past eight at night, and standing on Summer street waiting for a South Boston car, and while I was standing there one of the longest freight trains I have ever seen passed along Atlantic avenue in front of the South Station, down towards Beach street. It must have taken fifteen minutes for that train to pass, and during all that time people were obliged to wait on the South Station side or the other side and perhaps, in a great many cases, lost their trains. But, be that as it may, at half-past or quarter past nine the other morning, I was myself a witness to a long line of freight cars passing along Atlantic avenue by the South Station, making a complete barricade, cutting off the business section of the city at an entrance and exit to the business section that accommodates 100,000 people a day. Therefore, Mr. President, I present this order, asking the Corporation Counsel to investigate and find out just what rights this Union Freight Railway has on Atlantic avenue and whether or not it has the right to operate its cars on Atlantic avenue during the daytime.

The order was passed.

CONSTABLE'S BOND.

The City Treasurer, after having duly approved of the same, submitted the constable's bond of Harland J. Lowe.

Approved by the City Council.

MINOR'S LICENSES.

President McDONALD submitted reports on petitions for minors' licenses for thirteen newsboys, one bootblack and two vendors.

Reports accepted; licenses granted under usual conditions.

FIRE HOUSE ON PARKER HILL.

Coun. WATSON offered an order—That his Honor the Mayor be requested to send to the City Council an order appropriating a sum sufficient, which sum when appropriated and added to the \$15,000 now in the city treasury, credited to the building of a fire house on Parker Hill, Ward 19, to be used for the building of a fire house and the equipment of the same as a chemical engine company, motor-driven, at the above mentioned locality.

Coun. WATSON—Mr. President, early last year the then Mayor, John F. Fitzgerald, sent into this body an order calling for the transfer of \$15,000 from the appropriation for fire house on Parker Hill to a fire house in some other part of the city. As a resident of that locality I have looked into the matter, and, after inquiry from his Honor the Mayor, was informed that the \$15,000 for the fire house on Parker Hill had been left there for quite a number of years, as I understand it, unused, for the reason that the Fire Commissioner refused to locate a fire house at Parker Hill because of its not being necessary. The argument then used was that they intended to equip certain fire houses with motor apparatus as a substitute for the horse-drawn vehicle. I was informed by the then Mayor that he would not under any circumstances use the money for a fire house on Parker Hill, for that reason and for the other reason that \$15,000 would not build any kind of a building, let alone equipping the fire house with apparatus. I then approved of the transfer, believing that the money should be used somewhere else rather than to have it lie idle. It was then reported back to this body and had one reading. In the meantime a political organization in Roxbury held a protest against the transfer and demanded a fire house on Parker Hill. I attended that meeting. I then came back to the Council the following Monday, or at the next meeting, and asked the members to take my word for it and not to transfer the money at that time, but to put it back in executive committee, which was done, and I believe the money still lies idle. I was inclined to agree with the Fire Commissioners of the past and present that a fire house on Parker Hill would be unnecessary provided the fire houses nearby were equipped with motor rather than with horse drawn apparatus, until about three weeks ago or a short time ago when a motor-drawn engine was purchased with the intention of placing it in some fire house in Roxbury, I believe No. 37, Longwood avenue. I saw the Mayor get on the seat of that great, ponderous machine, beside the chauffeur, roll down Summer street, and finally go up Court street and try to climb up Pemberton square. After a tremendous job, the machine got up the first hill. I watched awhile longer, saw it try to take the second hill and get stalled. It couldn't get up the hill. I understand, however, that it

finally got up the hill and got back to City Hall all right, coming down hill from that point. The result, however, did not appeal to me. It was evident that the apparatus was not in good shape. On Sunday, September 27, a still alarm was sounded at 1.03 p. m. for a grass fire on Fisher avenue, the highest point on Parker Hill. At this point is located the new Robert Brigham Hospital, the Cushing Hospital, the Baptist Hospital and the New England Hospital, surrounded by a lot of wooden buildings, close together. Auto engine 37 from Longwood avenue could not make Parker Hill as well as horse-drawn apparatus. And mind you, this was not in the winter time, but in the summer. This statement is made by an eye witness on two occasions—on Sunday, September 27, and on Monday, September 28, when there was an alarm from box 281 at 4.45 p. m., on account of a grass fire near the Cushing Hospital. On both these occasions, with a clear road on Huntington avenue, the truck was unable to take Calumet street at better than a fair walk. That was under good conditions, with good weather, and it seems that it would be impossible to do anything with snow on the ground. Mr. President, I am one of those who can change their minds. The old adage, I believe, is that a wise man sometimes changes his mind but a fool never. I was inclined to agree with past commissioners and past fire chiefs, and with present commissioners and present fire chiefs, in the matter of there not being necessity for a fire house on Parker Hill, until these positive conditions were shown to me, and they have to-day converted me absolutely away from the proposition that there is no need of a fire house on Parker Hill. I want to say now that if his Honor the Mayor, the Fire Commissioner and this Council do not do something immediately for the establishment of a fire house, a chemical engine on Parker Hill, I am afraid that at some time in the near future we will be held accountable for a horrible fire and a horrible loss of life on Parker Hill. I offer this order not for political effect, but because of the honest opinion at which I have arrived after being shown that my old opinion was wrong. I want to go on record here as in favor of asking his Honor the Mayor to send in an appropriation of a sum sufficiently large, with the \$15,000 now on hand, to build a fire house on Parker Hill and establish there the equipment of motor-drawn chemical apparatus, in order that the life and property of many of our citizens may be protected. Otherwise, both life and property may be very seriously threatened in the near future. I move reference of the order to the Executive Committee and trust that it will be reported back this afternoon. The order was referred to the Executive Committee.

OFFICER FOR WAYWARD CHILDREN.

Coun. COLLINS, for the Committee on County Accounts, offered the following:

Ordered, That the salary of the probation officer for wayward and delinquent children of the Municipal Court of the South Boston District, determined by the Justice of said court at the rate of twelve hundred (1,200) dollars per annum, beginning July 1, 1914, be and the same is hereby approved, the said amount to be charged to the County of Suffolk, Municipal Court, South Boston District.

Report accepted; order laid over under the rules.

WIDENING OF HYDE PARK AVENUE.

Coun. COULTHURST offered the following:

Ordered, That the Board of Street Commissioners, through his Honor the Mayor, be requested to submit to the City Council an estimate of the cost of widening Hyde Park avenue, from the dividing line of Wards 23 and 26 to Cleary square.

The question came on the passage of the order. Coun. COULTHURST—Mr. President, I have received from the Business Men's Association of Hyde Park a communication such as I presume has been received by all the members of the Council, but which I desire to incorporate into the records of the meeting:

Business Men's Association,
Hyde Park, Mass., September 29, 1914.
Mr. John A. Coulthurst,
City Hall, Boston, Mass:

Dear Sir,—At the last meeting of the Business Men's Association of Hyde Park the following resolution was adopted unanimously and the secretary was instructed to forward a copy of the same to you.

Very truly yours,
FREDERICK W. BOYNTON, Secretary.

Whereas, Hyde Park became part of the City of Boston nearly three years ago, by the popular vote of practically two to one in the other twenty-five wards and only by a small plurality in Hyde Park; and

Whereas, Prior to that election and since the city government has repeatedly assured us we should have those improvements which we herein enumerate, so far as its action and influence could secure them; and

Whereas, Not one of them have been accorded to us during the three years since annexation;

Resolved, That the Business Men's Association of Hyde Park now insists that in the interest of fair play and common justice that the city government of Boston shall give to this community

A new police station.

Proper playgrounds.

New sidewalks in the center and on the main streets, and the widening of Hyde Park avenue, and shall use its utmost influence to obtain for us eighty-cent gas and five-cent fare to Boston;

And be it further resolved that this association ask the cooperation and support of all citizens of Boston in the accomplishment of these improvements which are so necessary to our growth and taxable valuation.

Mr. President, I have introduced, and they are now before the Council, five separate resolutions bearing upon these propositions. I was opposed myself to the annexation of Hyde Park. I did not think it was either for the advantage of the City of Boston or the then town of Hyde Park. But I accepted the verdict of the voters, especially in view of the great majority given in favor of the proposition here in the twenty-five wards of our city. I think that the Hyde Park district has a grievance against the city, especially in view of the promises made by the last mayor, reiterated by other officials of the City of Boston. I think Hyde Park desires a new police station, and that our policy of economy is going too far when that matter is not receiving consideration. I think the playground situation in Hyde Park deserves consideration, and I have introduced an order that the Clerk will subsequently read, asking the Board of Park and Recreation Commissioners to let us and the public know what plans they have for such an improvement. The condition of the sidewalks in the business part of Hyde Park is not consistent with an up-to-date community, and I have introduced an order requesting the Commissioner of Public Works to inform this Council, and through this Council the public, what plans he has, if any, for reconstructing the sidewalks. In regard to Hyde Park avenue, I have introduced the order now before us. Certainly the attitude of the Council must be known upon that improvement. This Council is in favor of the improvement at the present time, when the cost will not be prohibited and before the construction of new buildings which are bound to come in the future will make the cost so great that we cannot put it through. I have also introduced resolutions favoring 80-cent gas for Hyde Park and a 5-cent fare for Hyde Park. It is the only part of Boston that to-day has not 80-cent gas, and that has to pay 10 cents to get to and from the rest of the city. If such orders and resolutions as I have referred to are passed, people will recognize the fact that this Council is alive to the needs of the district, and that we are willing to go as far as we can to give to it these needed improvements.

The order was passed.

IMPROVEMENTS FOR HYDE PARK.

Coun. COULTHURST offered the following:

Whereas, The Hyde Park district of the City of Boston is the only part thereof that does not now have the benefit of the 80-cent gas and a 5-cent fare to Boston;

Be it resolved that the City Council place itself on record as favoring both improvements for such district;

Be it further resolved that a copy of this resolve be sent to the Business Men's Association of said Hyde Park district.

The question came on the adoption of the preamble and resolution.

Coun. WATSON—Mr. President, I agree with everything that has been said by the councilor who preceded me on the question of improvements for Hyde Park. I am going to suggest a way by which I think we can get at least one of these improvements. We can certainly get a hearing on it very quickly. I suggest that at the close of the meeting to-day we have the Clerk of Committees draw up an application for a reduction in the price of gas in Hyde Park to 80 cents and that the nine members of this Council who use gas in Boston file the application, getting another name or eleven other names, depending on whether ten or twenty names are necessary. That can be filed with the Gas and Electric Light Commission and we can get action at once, instead of introducing little orders or resolutions that may not amount to anything. I believe that with ten names of consumers of gas in Boston, or twenty names at most, the Gas and Electric Light Commissioners will give a hearing on the question.

I remember distinctly that at the bearing on the contract between the city and the Consolidated Gas Company a good deal was said about what the Dedham and Hyde Park Gas Company paid for gas at the bolder to the Consolidated Company, and, if I remember correctly, they were paying about 30 to 40 cents a foot. I will not be sure of the figures, but it showed a tremendous profit to somebody. We can get action immediately on one of these matters, as I have said. That is in regard to the proposed reduction in the price of gas for Hyde Park to 80 cents per 1,000 feet. That is one suggestion. There is no need of talking on that matter further. Hyde Park should have all these suggested improvements. I am opposed to economy with filth. That is the kind of economy we have to-day in Boston. The streets in Rox-

bury—you don't need to talk about Hyde Park—are in a deplorable condition. The conditions are in a deplorable condition. I came down Guild street to-day to take a car at the corner of Circuit and Washington streets, and I was almost knocked over by the stench that came from the sewer at the corner of Circuit and Washington streets. I inquired in regard to the matter from a man named Connolly, who runs a small periodical store, and he told me that the other day his wife was overcome by the noxious gas from that sewer. The streets of Roxbury are filthy. I walked through Savin street the other day, from Washington street over to Bluc Hill avenue, and the gutters reminded me of the conditions down on Harrison avenue on a Saturday night, after they have been selling produce down in my friend Attridge's district. I have no quarrel with the Mayor, but this economy dodge ought to be let up on for awhile. Let us get a little efficiency into the city service; let us have more work, and let us see something done. Let us have a little genuine reform—not the kind of reform that will go to work and pin a man down to an affidavit when he thinks he needs a pension and when his services for the city have warranted it. Let us have genuine reform, that will prohibit men in high office in the service of the city going through the ninth and tenth Congressional districts with city machines on election day and bringing voters to the polls. I am not saying a word about the eleventh district. That is a past story with me. I have no kick. But I know of cases in the tenth district where men in high office in the city's service, men paid large sums, were giving their time all day long at the primaries and many days before in the interest of a certain candidate for high office. I am sick and tired of reading in the papers every day that his Honor the Mayor is reducing expenses, and then reading the auditor's report that there have been no decreases in the expense of managing the city—not a cent of decrease and not an excuse as to why it has not been made. I have as much feeling of responsibility in the high office I hold and realize my responsibility to the voters as much as any other man in the city's service. Hyde Park is crying for improvements; Roxbury needs improvements. The people of Boston are willing to pay the freight when they get 100 cents on the dollar. They are willing to spend all the money necessary for needed improvements. While my term may end here in January, 1915, or I may continue on to the close of term to which I was elected, while I am here I am going to insist on efficient service from every single attaché of the city on the pay roll, whether he is the ordinary man in the ditch and has to work for the city every minute of his time, or whether he is the highest paid official in the service of the city. Let us have some genuine efficiency; let us have good, straight business management in our affairs. I am going to insist on it as long as I am a member of the Council.

The order was passed.

NEW POLICE STATION, HYDE PARK.

Coun. COULTHURST offered an order—That his Honor the Mayor be requested to inform the City Council what plans, if any, are in contemplation to construct a new police station in Hyde Park and to consider the advisability of submitting to the City Council an appropriation for such a police station.

Referred to the Executive Committee.

SIDEWALKS FOR HYDE PARK.

Coun. COULTHURST offered an order—That the Commissioner of Public Works be requested, through his Honor the Mayor, to state what plans, if any, are in contemplation to reconstruct the sidewalks in the center and on the main streets of the Hyde Park district.

Referred to the Executive Committee.

PLAYGROUND FOR HYDE PARK.

Coun. COULTHURST offered an order—That the Board of Park and Recreation Commissioners, through his Honor the Mayor, be requested to inform the City Council what plans, if any, are in contemplation to establish a playground or playgrounds in the Hyde Park district.

Referred to the Executive Committee.

PUBLIC MARKET.

Coun. BALLANTYNE—Mr. President, I would call up No. 5 and ask that it be referred to the Executive Committee.

No. 5, unfinished business, was as follows:

5. Ordered, That the sum of five hundred dollars is hereby transferred from the Reserve Fund to the appropriation for the Market Department, to be expended by the Superintendent of Markets in the preparation and establishment of a public market at the corner of Shawmut avenue and Castle street.

Coun. WATSON—Mr. President, I move that No. 6 be also included in that same motion.

Coun. BALLANTYNE—I agree to that.

No. 6, unfinished business, was as follows:

6. Ordered, That a public market for the sale of food be and hereby is established, said market to be located at the corner of Shawmut avenue and Castle street on land owned by George S. Smith; and the Superintendent of Markets is hereby authorized to take charge of the public market, hereby established, to preserve order therein, under rules and regulations established by him and approved by the Mayor, and to assign stands upon terms and conditions fixed by him, subject to the approval of the Mayor.

Coun. COULTHURST—Mr. President, I would ask the councilor from Roxbury, across the table (Coun. Ballantyne), what the purpose of referring this back to the Executive Committee is, bearing in mind that we had a vote on one of these propositions at the last meeting of the Executive Committee, and that the matter failed of going through here by two-thirds vote under suspension of the rule at the last meeting.

Coun. BALLANTYNE—Mr. President, my idea in asking that this be recommitted to the Executive Committee is that his Honor the Mayor and the Corporation Counsel may be called here to-day to give us some information which the committee required while this matter was being discussed in the Executive Committee last week. I hope there will be no objection to every member of the Council getting that information.

Coun. WATSON—Mr. President, for the benefit of the gentleman from West Roxbury (Coun. Coulthurst) I want to say that my reason for having this referred to the Executive Committee is that I want some information on the question. I want to know something about it more than I know up to date. That is my reason.

Coun. COULTHURST—Mr. President, I trust that the motion will not prevail, but that the five members who voted in favor of this proposition at the last meeting will vote against recommitment to-day. As one member I am perfectly willing to listen informally to what the Mayor has to say on this proposition. Then, if any reason is brought out in what he says for sending this back to the Executive Committee, we can do so. But I think it ought to keep its place on the calendar until we come back here.

Coun. COLLINS—Mr. President, upon matters of this kind, when some members want to look into them and discuss them with the chief executive of the city in Executive Committee, it is customary and it is proper that there should be something before the committee upon which the discussion can be had. If this Council does not vote affirmatively to refer this to the Executive Committee to-day for action, there will be nothing before that committee on which the Council may act. It seems to me only the courteous thing to do to refer this back to the committee. I, for one, have looked into the matter and am prepared to vote to-day for a public market, but I do not wish to deny to certain members of the Council an opportunity to look into the matter. It seems to me it is nothing but high-handedness to deny them such an opportunity. I hope the matter will be referred back to the committee.

Coun. ATTRIDGE—Mr. President, as one of those favoring the passage of both these orders at the last meeting of the Council, I think it but fair to say that both these matters should be referred back to-day to the Executive Committee. I understand that the Mayor of the city is in the committee room at the present time, and in my opinion he desires to say something to the Council to-day on both these orders. Every member of the Council, every member of the committee, will be given a chance to interrogate the Mayor and find out just exactly what he intends to do. I trust that both these matters will be referred back to the committee, so that the members of the Council can get all the information possible from his Honor the Mayor.

Coun. WATSON—Mr. President, my attitude of a week ago to-day has been indorsed in its entirety by the councilor who opposed my position last week. He says now that, as one of the members who voted last week in favor of passing this measure under suspension of the rule, he to-day favors referring it back to the Executive Committee in order that the members may interrogate his Honor the Mayor on the question. That is all that we asked for last week, and that is all I wanted. I wanted to know last week whether or not the stands that it was proposed to locate somewhere on Castle street and Shawmut avenue, in Ward 9, were to be given to the first comers, whether it was to be a case of "first come first served," or whether they were to be given to some person who would be, in a sense, a middleman, thereby doing away with any chance of reducing the cost of living. The councilor from Ward 9, from the South End (Coun. Attridge), then got up here and made one of his glorious, star-spangled-banner speeches about the poor, down-trodden public, suffering humanity, and so forth. I am not going to go beyond my rights in referring to the gentleman's conduct. I want to say that he did make a star-spangled-banner speech, and made it appear that the councilors from South Boston, Roxbury and Dorchester, and your humble servant, were against the dear people. He ought to have known, if he stopped to reflect, that I have done as much in my way in public life for the ordinary man as he ever has or probably

ever will. He need not rise. If he wants to ask a question, I will give him an opportunity to do so. I have the councilor from the South End sitting on pins. He is worried. I tried to ask questions last week, but the councilor dodged them. He did not then seem to have a sense of fairness that would appeal to anybody. I trust that the gentleman will give his attention. I am directing my remarks particularly to him. He knew last week, or ought to have known, that the four councilors who were opposed to suspension of the rule were sincere in their objections to hasty action, to railroad the matter through. He knew that we were honest in our objection, and he knows it to-day better than he did then. He knows that there are some doubtful points in the proposition. He knew last week, or ought to have known, that the \$500 contract for grading the grounds would have to be advertised and that it would take four or five weeks. He knew that in four or five weeks the garden truck season would be gone and that the dear public of whom he is the guardian would be denied an opportunity to get a few potatoes or some other green stuff at cost. Why, Mr. President,—

President McDONALD—If the gentleman will suspend a moment, I would say that the Mayor has been invited to meet us at four o'clock. It is now past four o'clock, and the Mayor has another appointment at half past four.

Coun. WATSON—Mr. President, I will be more courteous than he has been at times, postponing my remarks at this time in order that we may meet his Honor the Mayor. But I have in my mind recollections of many a time that I have cooled my heels in his office waiting to see him at a time for which an appointment had been arranged. However, I shall gladly give way.

The orders were recommitted to the Executive Committee.

RECESS.

The Council voted, on motion of Coun. BALLANTYNE, at 4.17 p. m., to take a recess subject to the call of the Chair.

The members reassembled in the Council Chamber and were called to order at 6.22 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Report on order (referred May 4, 1914) that the City of Boston pay a pension to John J. Griffin—recommending the passage of the following:

Ordered, That chapter 332 of the Acts of 1914, entitled "An Act to Authorize the City of Boston to pay a Pension to John J. Griffin"—be and the same hereby is accepted.

Ordered, That, under the provisions of chapter 332 of the Acts of 1914, there be allowed and paid to John J. Griffin, who was injured while in the employ of the city, an annual pension equal to one-half of the average annual compensation paid to him during the two years next prior to his retirement from the service of the city, said pension to be charged to the appropriation for Public Works Department.

Report accepted; orders passed.

(2) Report on order (referred to-day) that the Board of Park and Recreation Commissioners inform the City Council what plans, if any, are in contemplation to establish a playground in the Hyde Park district—recommending passage of same.

Report accepted; order passed.

(3) Report on order (referred to-day) that the Commissioner of Public Works be requested to state what plans are in contemplation to reconstruct sidewalks in the center and on the main streets of the Hyde Park district—recommending passage of same.

Report accepted; order passed.

(4) Report on order (referred to-day) that the Mayor be requested to inform the City Council what plans are in contemplation to construct a new police station in Hyde Park and to consider the advisability of submitting to the City Council an appropriation for such a police station—recommending passage of same.

Report accepted; order passed.

(5) Report on petition of John Connolly (referred to-day), an employee in the Public Works Department, for retirement—recommending the passage of the following:

Ordered, That the Retirement Board of Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, John Connolly, employed in the Labor Service of the City of Boston in the Public Works Department.

Report accepted; order passed.

(6) Report on petition of John Little (referred to-day), an employee in the Public Works Department, for retirement—recommending the passage of the following:

Ordered, That the Retirement Board of Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, John Little, employed in the Labor Service of the City of Boston in the Public Works Department.

Report accepted; order passed.

(7) Report on petition of Michael O'Leary (referred to-day), an employee in the Public Works Department, for retirement—recommending the passage of the following:

Ordered, That the Retirement Board of Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, Michael O'Leary, employed in the Labor Service of the City of Boston in the Public Works Department.

Report accepted; order passed.

(8) Report on petition of John H. Malloy (referred to-day), an employee in the Public Works Department, for retirement—recommending the passage of the following:

Ordered, That the Retirement Board of Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, John H. Malloy, employed in the Labor Service of the City of Boston in the Public Works Department.

Report accepted; order passed.

(9) Report on order (referred June 29, 1914) that the Fire Commissioner be authorized to sell five old discarded fire alarm composition bells, after advertising for bids, the proceeds to be credited to the Fire Department appropriation—recommending passage of the same.

Report accepted; order passed.

(10) Report on message of Mayor and order (referred September 28) recommending that city accept, subject to restrictions imposed by donors, the offer made by trustees of the estate of Charles H. Greenwood of a parcel of land at corner of Harvard and Glenway streets, Dorchester, and the sum of \$35,000, said land and money to be used in part payment for construction of a new school building upon said land—recommending passage of same.

The report was accepted, and the question came on the passage of the order.

Coun. KENNY—Mr. President, I am going to ask to be excused from voting on this matter, because I am in doubt as to whether or not I have an interest. As trustee I hold a mortgage on property adjoining, contiguous to or possibly a part of this estate, and I will, therefore, ask to be excused from voting.

The order was passed.

(11) Report on orders, Nos. 5 and 6 on the calendar (recommitted to-day), relative to public market at corner of Castle street and Shawmut avenue—recommending passage of said orders.

The report was accepted, and the question came on the passage of the orders.

Coun. WATSON—Mr. President, the information I desired a week ago I obtained to-day from his Honor the Mayor. He told me to-day, in connection with the question of this public market location, that it will be a case of "first come, first served." There are to be no favorites and there are to be no middlemen. There will be no stands erected, in fact; that is, they might put some bushel baskets on vehicles, and so forth; but so far as permanent stands are concerned, there are to be none. I am satisfied with that condition. There has been a lot of talk about there being a public market for the purpose of selling meat and other things directly to the consumer. One newspaper particularly has criticised me editorially for not being ready to act upon the matter a week ago; we are told that we were denying to the people the right to get meat without paying the middleman's profit; I knew all along that it was not a question of selling meat or beef at the Castle Street Market; the intention was merely to allow teams to go in there and sell garden truck direct to the consumer; there is sufficient protection, I understand, for all the people, and there is going to be a square deal for all the farmers. I am in the position to-day that I would have been in a week ago if I had all the facts. I shall now vote in favor of this public market. I have always been in favor of public markets, have always favored them; his Honor the Mayor also said that he believed in local markets in different districts. I would say to the gentleman opposite (Coun. Attridge) that my time is just as valuable as his, and that his lunch at the City Club can wait awhile longer. His Honor the Mayor told us in committee that the scheme I suggested a year ago, of having the city yards or squares in different localities used by the farmers with their truck loads of garden produce or green stuff, to be sold directly to the consumers, was a good thing; he is looking forward to action which will lead to local markets. I therefore intend to vote for both of these orders to-day.

Coun. COLLINS—Mr. President, the principle of this matter is so sound, in my opinion, and it is able to be carried out with such little expense, that it seems to me there should be no hesitation at all in voting in favor of the proposition now. I shall, however, offer an order presently looking to the City Planning Board, the Finance Commission and kindred organizations investigating the matter and reporting to the City Council on the cost and desirability of locating these public markets in selected sections of our city.

The order providing \$500 for grading was passed, yeas 9, nays 0.

The order establishing the public market was also passed.

ADVISABILITY OF ESTABLISHING VARIOUS PUBLIC MARKETS.

Coun. COLLINS offered an order—That the City Planning Board, the Finance Commission

and the Superintendent of Public Markets, through his Honor the Mayor, be requested to investigate and report to the City Council as to the advisability and cost of establishing and maintaining suitable public markets at central locations in the various sections of the city.

Passed.

THE NEXT MEETING.

On motion of Coun. BALLANTYNE it was voted that when the Council adjourned it be to meet on Monday, October 19, at three o'clock p. m.

Passed.

GENERAL RECONSIDERATION.

Coun. BALLANTYNE moved a general reconsideration of all business transacted at the meeting to-day, hoping the same would not prevail. Lost.

Adjourned, on motion of Coun. COULTHURST, at 6.30 p. m. to meet on Monday, October 19, at three o'clock p. m.

DILUTION AND SEWAGE TREATMENT IN CITIES.

A given sum of money can, in general, be spent to the greater sanitary advantage of communities by the purification of water supplies rather than by the treatment of sewage. There are a great many arguments that may be given in support of this statement, but the important ones are so simple and so well known and convincing that there is no need of repeating them here. This statement cannot be taken to exclude sewage treatment altogether, as there are, of course, many cases where large expenditures for this are entirely justified; and it may perhaps be said, too, that there are only a few places where some expenditure for sewage treatment could not be made with advantage. It would seem as though the field of sewage treatment included the prevention of local nuisance and of excessive pollution, but not, if the economic side be considered, the protection of surface-water supplies from small amounts of pollution.

A view now generally accepted looks upon dilution as an entirely reasonable and safe method of disposal so long as the dilution is great enough to prevent local nuisance. Undoubtedly dilution is a great natural resource for the disposal of sewage and other wastes, and there is every reason for making use of it so long as this use does not result in a menace to the public health or to reasonable standards of cleanliness. Quite a number of the States have undertaken to control these matters, and their policies are generally in line with the reasonable stand that economy must be considered as well as public health and cleanliness. There may be many States where the density of population is not great, in which no special control is likely to be exercised for a long time to come, as there is no particular need of it.

The need of some such control, or at least some understanding between the two Governments, has during the last few years been realized in regard to the pollution of certain of the boundary waters between the United States and Canada. An International Joint Commission has been at work during the last few years making an investigation of the pollution of the Great Lakes and connecting waters with a view to bringing about such an understanding. The commission has made extensive investigations of the bacteriological condition of the boundary waters at various important points and has done much other work that will be of great value in arriving at an understanding.

The question of standards of water purification and sewage treatment came up before the commission some time ago, and the importance of the question was deemed great enough to warrant the commission in

seeking the advice of a number of prominent sanitary engineers. A list of questions was submitted to them and considered and discussed at length. As a result a report was presented to the International Joint Commission giving, in the view of these engineers, the most reasonable answers that they could subscribe to for the various questions. This statement is of importance to engineers and others interested in sanitary questions, as it is the most comprehensive and complete statement of general policy on this subject that has been presented on this side of the water, and takes fully into account the economical side of the question as well as the interests of the public health.

There was one dissenter who objected to certain of the paragraphs and who declined to sign the statement so long as those paragraphs were included. The grounds for his objections seemed to be, in substance, that those paragraphs provided for too generous a use of the natural resources of dilution, required too little in the way of sewage treatment where only moderate pollution was involved, and gave substantial weight to the question of reasonable economy. The dissenter appears to belong to the group—among which many members of the medical fraternity are most ardent advocates—who hold the view, with some disregard for economy, that all sewage and wastes should be treated. As an idealistic view this is most excellent, but it is rare that a community, in taking up the consideration of a question of this sort, does not have to give painstaking consideration to the cost. The lack of approval of this one member does not, therefore, lessen the force and value of the statements of the board of sanitary engineers.

The statements are all pertinent and valuable, but certain points expressed or implied appear to be of primary and unusual importance. They can be briefly stated as follows:

1. In general, all surface water to be used for public supply should be purified.

2. A step is taken toward the establishment of a policy intended to prevent the discharge into boundary waters of any sewage without at least a simple treatment, such as sedimentation or screening.

3. The adequate dilution of a sewage is a highly satisfactory means of disposal, and utilizes an important and economical natural resource.

4. The settling of the suspended matters by gravity in suitably designed tanks, or even the efficient screening of the sewage, is recognized as an important fundamental treatment.

5. The propriety of considering reasonable economy in the working out of such problems as these is established.

While the deliberations of the commission refer specifically to matters connected with the pollution of international boundary waters, the statements of the board of engineers may in a large way be applied to all bodies of water where sanitary questions are involved. The statements commend themselves to all who have to deal with questions of public health and public cleanliness.

AREA OF BOSTON.

Area to ward lines (26 wards), 30,295 acres (*i. e.*, 47.34 square miles), 2,517 acres being filled land and 1,137 acres water area. Original Boston contained about 780 acres of land. Of the twelve leading American cities, five are larger in land area than Boston, *viz.*, New York, Chicago, Philadelphia, St. Louis and San Francisco.

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

NOTICE.

The Board of Street Commissioners in accordance with chapter 393 of the Acts of 1906 have passed orders for the laying out and construction of the following highways:

EAST BOSTON.

Westbrook street (formerly West street), from Bennington street to Saratoga street.

WEST ROXBURY.

Albano street, from Washington street to Amherst street.

DORCHESTER.

Juliette street, from Fox street to the southeasterly line of Homes avenue.

Lorenzo street, from Walnut street to Wood street.

Powellton road, from Columbia road to Glenarm street.

Woodworth street (formerly Wood street), from Walnut street to New way.

ROXBURY.

Dempster street (formerly Duncan street), from Ruggles street to Halleck street.

CITY PROPER.

Lucas street, from Washington street to Shawmut avenue.

Washington street, from Warrenton street to Pleasant street.

Notice is hereby given that the Public Works Department is about to do the work contemplated in said orders, and that all work to be done in said highways by all persons or corporations having rights in the same to lay or repair either sewer, gas, water or other pipes must be done before Saturday, October 31, 1914, as after that time no permits for openings will be granted until two years after said highways are completed.

L. K. ROURKE,

Commissioner of Public Works.

Boston, September 24, 1914. (Oct. 10-17.)

CITY OF BOSTON.

PROPOSALS FOR BUILDING REFUSE RECEIVING STATION, WARD STREET, ROXBURY.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for building a refuse receiving station on Ward street, between Halleck street and New York, New Haven & Hartford Railroad, Roxbury, and giving bond therefor of a surety company approved by the Commissioner in the sum of ten thousand dollars (\$10,000), to secure the due performance of the contract and the full protection of the city. Plans can be seen at Room 501, City Hall Annex. Specifications and forms of proposals may be obtained at Room 511, City Hall Annex, on and after Tuesday, September 29, 1914. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Receiving Station, Ward Street," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Wednesday, October 14, 1914, with a certified check for one thousand dollars (\$1,000), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,

Commissioner of Public Works.

Boston, September 24, 1914. (Oct. 10.)

CITY OF BOSTON.

NOTICE TO CONTRACTORS.

Sealed bids for furnishing and laying about 600 square yards asphalt paving, and about 450 square yards of wood block paving, near the corner of Massachusetts avenue and Newbury street, Boston, will be received by the undersigned until 12 o'clock noon of Thursday, October 15, 1914. Specifications and forms of contract can be obtained at 15 Beacon street, ninth floor. The right to reject any and all bids and to award the contract as is deemed to be for the best interest of the City of Boston is reserved.

By order of the BOSTON TRANSIT COMMISSION,
B. LEIGHTON BEAL,
Secretary.

(Oct. 10.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWERS AND DRAINS IN LOVELL AND PORTER STREETS, EAST BOSTON.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for pipe sewers and drains in Lovell street, between Neptune road and Island street, and Porter street, between Frankfort and Cottage streets, East Boston, and giving bond therefor of a surety company approved by the Commissioner in the sum of one thousand (1,000) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Pipe Sewers and Drains, Lovell and Porter Streets," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Monday, October 19, 1914, with a certified check for five hundred (500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

Superintendent of Supplies.
(Oct. 10.)

CITY OF BOSTON.

PROPOSALS FOR BITUMINOUS MACADAM ROADWAY IN BARBARA STREET, ROXBURY.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for bituminous macadam roadway in Barbara street, from South Huntington avenue to Centre street, Roxbury, and giving bond therefor of a surety company approved by the Commissioner in the sum of six hundred dollars (\$600), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Bituminous Macadam Roadway in Barbara Street," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Friday, October 16, 1914, with a certified check for three hundred dollars (\$300), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, October 8, 1914. (Oct. 10.)

CITY OF BOSTON.

PROPOSALS FOR BITUMINOUS MACADAM ROADWAY IN QUEEN STREET, DORCHESTER.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for bituminous macadam roadway in Queen street, from King street to Claymont terrace, Dorchester, and giving bond therefor of a surety company, approved by the Commissioner in the sum of six hundred dollars (\$600), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked, "Proposal for Bituminous Macadam Roadway in Queen Street," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Friday, October 16, 1914, with a certified check for three hundred dollars (\$300), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, October 8, 1914. (Oct. 10.)

CITY OF BOSTON.

PROPOSALS FOR PAPER BLOCKS FOR THE PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing and delivering at the several schools, in accordance with orders, 80,000 paper blocks, size 8 by 12 inches, each block to weigh not less than one pound, 50,000 to be plain and 30,000 to be ruled; and 66,000 paper blocks, size 6 by 8 inches, each block to weigh not less than one-half pound, 48,000 to be plain and 18,000 to be ruled. Only proposals obtained at the office of the Business Agent of the School Committee, Room 801 City Hall Annex, signed by the bidder and left before 10 o'clock a. m., on Monday, October 19, 1914, at said office, with a certified check for three hundred dollars (\$300), payable to the city if the proposal is not carried out, will be then and there be publicly opened and read. The bids must be in duplicate, the one with the check to be sent as above, and the other to be filed with the City Auditor, City Hall, previous to the time named for opening bids. The successful bidder will be required to deposit a surety bond or a certified check for two thousand dollars (\$2,000), payable to the City of Boston, which check shall become the property of the city unless the bidder carries out his agreement in accordance with the specifications. The School Committee reserves the right to reject any or all bids, or to accept such as may be deemed best for the interests of the city.

WILLIAM T. KEOUGH,
Business Agent of the School Committee.
(Oct. 10.)

THE STREETS OF A NEIGHBORING CITY.

The streets of Providence, R. I., are remarkably smooth and clean, and neat in appearance. The city has the supervision of the sidewalks, has adopted a standard form of curb and keeps the gutters, crosswalks and curbs clean and in good repair. There are no dusty streets, as tar and oil are used to reduce the dust nuisance. All the outlying streets are macadamized or graveled and kept in good repair.

The total length of all the streets of Providence, measured along the street lines, is 251.06 miles, but as it is the custom in street work to complete the work to the intersection of the curb lines, the lengths in the following tables are measured on those lines and subdivided as follows:

Curbed and built with macadam.....	173.52
Curbed and built with bitulithic.....	2.36
Not curbed but macadamized or graveled..	28.39
Curbed and paved, excluding macadam....	45.65
Streets not improved.....	7.89

257.81

A great deal of work is done by the department in preference to letting out by contract, as it has been found that the city can do the work cheaper. Granite block pavement of the first class is being laid by the city for about \$3.75 per square yard.

Between 60 per cent and 70 per cent of the paved streets in Providence are paved with granite blocks. One reason for their use is the proximity of the granite quarries and the relatively low cost of bringing the blocks by water transportation. Another reason may be found in the fact that they have always given good satisfaction and are very economical in upkeep, although first cost is rather high. The fact that under heavy traffic it is usually very noisy has always been the chief objection to granite block pavement. But by means of improved specifications, better blocks have been obtained lately than in the past, and as laid under the direction of J. Vinton Dart, chief of the Highway Department, stone block pavements are not noisy.

Although as a rule the granite block paving laid here is much smoother than that laid in other cities, this has been attained more by care in laying than by enforcing extremely strict block specifications. The specifications for the improved granite blocks are:

"The blocks are to be of a durable, sound and uniform quality of granite, showing an even distribution of constituent minerals, shall be of uniform quality and texture, without seams, scales or discolorations showing disintegration and free from an excess of mica or feldspar. The granite used for paving blocks shall be equal in all respects to that quarried at or in the vicinity of Westerly, R. I.; Millstone, Conn., and Vinal Haven, Me.

"Blocks shall be of the following dimensions: Not less than 7 nor more than 12 inches long on the top; not less than 3½ nor more than 4½ inches wide on the top; not less than 4¾ nor more than 5¼ inches deep.

"The blocks shall be so dressed that after laying a measurement of the individual joint will show not more than ½ inch in width at top for transverse joints and ¾ inch for end joints for a depth of 1 inch, nor more than 1 inch in width in any other part of the joint; provided that not more than one drill hole will show on the side of the head and none on the end of the head of any block. The head of the block shall be so cut that it shall not have more than a ¾ depression from a straight edge laid in any direction across the head and held parallel to the general surface of the block."

Specifications are rigid in regard to laying the granite blocks. The concrete base is composed of one part of Portland cement, three parts of sand and six parts of broken stone or gravel. On the foundation thus prepared is spread clean sharp sand not less than 1 inch thick, and on this the blocks are laid. After the blocks are laid, they are covered with clean sharp sand which is swept into the joints to a depth of about 2 inches, just sufficient to hold the blocks in position for ramming and until finally grouted. The blocks are then rammed to a uniform bearing, true to the crown of the street.

A cement grout of one part sand to one part cement is then prepared and poured into the joints until it appears on the surface. If necessary the grout is broomed into the joints until they are filled flush with the surface of the blocks. The entire pavement is then broomed to a smooth surface, enough grout being applied to bring the surface even with the highest part of any of the blocks. This provision usually results in having a thin coating of grout spread all over the granite block surface. If such is the case the pavement will usually wear a year or so before the tops of the blocks appear in sight.

Even when placed under the very heavy traffic along the waterfront it has been found that the granite block pavement laid in this manner lasts very well and does not become rough and noisy for at least 8 or 10 years. Extremely hard blocks are not used, as they are slippery, becoming highly polished, and are also rough and noisy after being worn. Medium soft blocks are best, as they are not slippery, do not polish, and wear down slightly, thus maintaining a fairly even and smooth surface.

The old streets are first scarified or otherwise dug up and the old gravel or stone thrown to one side to be used later. The gutters are then repaved and the curbs reset if necessary. During this delay all connections to sewer and water pipes are made and all other work of the sort done in order that there will be no need of digging the streets up again. A foundation layer of 5 inches of the old broken stone is then laid and rolled thoroughly. Either broken stone or gravel is used for this course, preferably the former. While rolling this, the street is shaped up as much as possible to a finished grade. After the rolling is finished, the surface is covered over with sand, which is broomed into the voids as much as possible and a half-gallon per square yard of Tarvia X is applied hot. Over this is spread a 3-inch layer of 2-inch stone and this is rolled thoroughly, compacting it to about 2 inches. On top of this course is spread about 1.4 gallons of hot Tarvia X per square yard. Enough 1½-inch stone is applied to cover the Tarvia and then the whole is thoroughly rolled.

Three-quarter and one-half inch stone is then broomed into the voids and another coating of about ¾ gallon of Tarvia X is applied. Another layer of ½ to ¾ stone is applied and the whole is rolled thoroughly. The road is then thrown open to traffic for about a week or 10 days. A final coat of ½ gallon of Tarvia B is then applied and a thin layer of sand is spread over the road with a sanding machine. The street is now entirely completed except for the addition of sand wherever the road "bleeds."

The cost of this kind of road varies, depending on the previous conditions, the distance from the municipal plant and other conditions. On four streets the costs per square yard were respectively

\$0.993, \$1.22, \$1.245 and \$1.415. The average cost is probably about \$1.25 per square yard.

Stone for the roads and streets is crushed in the municipal plant. The countrymen from the surrounding territory bring in boulders at a price of from \$0.55 to \$0.65 per ton. The city also owns two gravel pits and from them secures its supply of gravel for foundations.

There are from 500 to 1,000 men on the roster of the department, the number varying with the season of the year, more, of course, being employed in the summer than in the winter. During the winter the pavers and other good men are employed in screening gravel at the banks and so are at hand when work starts in the spring.

BOSTON'S MUNICIPAL GYMNASIA.

The following is a list of the free Park and Recreation gymnasia and instructors in charge:

Curtis Hall, Jamaica Plain.—Joseph J. McNamara.
Cabot Street, Roxbury.—Matthew M. Leary.
Columbia Road.—George E. Fraser and William E. Mullen.
Ward 9, Harrison Avenue.—Henry J. Brennan.
Ward 7, Tyler Street.—John A. Lane.
D Street, South Boston.—Leo C. Knebel.
North Bennet Street, North End.—James F. Winston.
Paris Street, East Boston.—John J. Driscoll.
Bunker Hill Street, Charlestown.—Maurice R. Smith.

All of them are conducted entirely free of charge. Membership in a class in any one of them may be obtained by making application to the instructor. The requirements are simple. Each applicant must agree to observe the rules of the gymnasium, and must provide himself with proper gymnasium costume.

Classes for men will be held on Tuesday and Friday mornings at 10.30 and in the evenings at 8 o'clock. The morning lessons are devoted largely to men who are preparing for civil service examinations for Police and Fire Departments, but in the night classes all grades of instruction are offered.

Classes for women are held on Mondays and Thursdays. At 10.30 in the morning instruction is given in calisthenics, general upbuilding exercises and in gymnastic and aesthetic dancing. At 8 o'clock in the evening similar instruction is given to young ladies and working girls. And at 4.30 in the afternoon school girls' classes are formed for games, dancing and calisthenics.

Wednesday and Saturday afternoons and Saturday mornings classes are held for school boys. They are given gymnastic drills, athletics and play. And on Wednesday and Saturday nights classes are formed for working boys. They are given recreational exercise and athletics. Both school boys and working boys are given much time for free play.

GYMNASIUM HOURS AND CLASSES.

MONDAY—WOMEN AND GIRLS.

Women, 10 a. m. to 12 m.; class at 10.30. School Girls, 3 to 6 p. m.; class at 4.30. Women, 7.30 to 10 p. m.; class at 8.

TUESDAY—MEN AND HIGH SCHOOL BOYS.

Civil Service Class, 10 a. m. to 12 m.; class at 10.30. High School Boys, 3 to 6 p. m. Men, 7 to 10 p. m.; class at 8.

WEDNESDAY—MEN, SCHOOL AND WORKING BOYS.
 Men, 10 a. m. to 3.30 p. m.; School Boys, 4 to 6 p. m.; class at 4.30. Working Boys, 7.30 to 10 p. m.; class at 8.

THURSDAY—WOMEN AND GIRLS.

Same as Monday.

FRIDAY—MEN AND HIGH SCHOOL BOYS.

Same as Tuesday.

SATURDAY—SCHOOL AND WORKING BOYS AND MEN.

Junior Boys, 10 a. m. to 12 m. Senior Boys, 2 to 4 p. m.; class at 2.30. Men, 4 to 6 p. m. Working Boys, 7.30 to 10 p. m.; class at 8.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 6.

SATURDAY, OCTOBER 17, 1914.

No. 42

City of Boston.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

Subscription \$1.00 Per Year.
Single Copies 5 Cents.
In Advance.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 25, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the lotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, awning windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for

information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO ROOM 604, CITY HALL ANNEX, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance or permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS, 1001 City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, October 19, at 3 p. m.

Meeting of School Committee, Monday, October 19, at 7 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

LICENSING OF ELEVATOR OPERATORS.

Applications for licenses to operate passenger elevators, as required by recently enacted statute, may be obtained at the office of the Building Department, City Hall Annex.

STREET LIGHTING FOR CITY.

Mayor Curley has called a conference for Monday to make some arrangement about the street lighting system. The Mayor's object in calling the meeting is to find out just what the objections are of the members of the City Council, and how they desire them met.

IMPORTANT CONTRACT AT NAVY YARD.

The attention of Boston contractors is especially called to the fact that the contract for the erection of the shipbuilding ways and appurtenances at the Boston Navy Yard, Charlestown, will shortly be awarded.

Bids close Saturday, October 24.

Contractors should apply for plans and specifications immediately to Capt. DeWitt Coffmann, U. S. N., Commandant, Boston Navy Yard.

NOTICE OF LAYING OUT AND CONSTRUCTION WORK.

Especial attention is called to the advertisement of the Public Works Department in the current issue of the *City Record* relative to the laying out and construction of highways in Brighton, Dorchester and West Roxbury, and that all work in said highways relative to sewer, gas, water or other pipes must be accomplished before Saturday, November 14, 1914, as after that time no permits for openings will be granted until two years after the said highways are completed.

REGISTRATION OF VOTERS.

There are 111,335 voters registered in the City of Boston for the State election, November 3, 1914, which is a gain of 2,076 over the total of 1913, and an increase of 4,157 over the State primary registration.

The following table shows the Boston registration by wards at the 1913 State election, at the recent State primary, the supplementary registration and the total for the State election.

	State Election, 1913.	State Primary, 1914.	Supplementary.	State Election, 1914.
Ward 1	5,035	5,035	142	5,177
Ward 2	2,824	2,783	57	2,840
Ward 3	2,624	2,669	47	2,716
Ward 4	2,073	2,018	30	2,048
Ward 5	2,182	2,110	33	2,152
Ward 6	1,974	1,890	99	1,989
Ward 7	1,345	1,249	55	1,304
Ward 8	3,081	2,955	104	3,059
Ward 9	3,206	2,831	103	2,934
Ward 10	3,542	3,389	267	3,656
Ward 11	3,642	3,242	267	3,509

CLEANING AND MAINTENANCE OF PAVEMENTS WITHOUT SPRINKLING.

By WALTER F. SLADE, *Commissioner of Public Works, Providence, R. I.*

Read before the Convention of the American Society of Municipal Improvements, Hotel Somerset, Boston, Thursday, October 8, 1914.

The fact that bituminous pavements laid in the city of Providence are not sprinkled with water is a subject that has occasioned frequent comments on the part of visitors to this city who are interested in the maintenance and cleaning of such pavements.

I will say briefly that we are convinced that bituminous pavement maintained in good repair can be kept in a condition more satisfactory to all classes that travel the streets, both afoot and in vehicles, without, rather than with, using water for sprinkling.

We keep them clean by the patrol system, and reasonably free from dust. We believe that the use of water has an injurious effect upon the durability of the pavement. It emphasizes every slight depression and gathers on a street, creating an unsightly appearance and a muddy, slippery condition. This results in the skidding of automobiles and a vast increase in the number of accidents.

By keeping the pavements free from water we escape another prolific source of complaint. Upon the best of pavements there will be depressions sufficient to retain a thin sheet of water. The rubber tires of the swiftly-moving auto, and especially the auto truck, will act as a syringe and force the muddy water in a small stream upon the clothing of any one passing along the sidewalk, and even across the sidewalk, covering windows and buildings with muddy spots.

That more might be learned upon the action of water as affecting the durability of bituminous pavements, it would be instructive to bring out the results of laboratory tests, and a comparison of the condition of streets laid about the same time, where water was used and where not. The whole question is a subject worthy of the earnest consideration of all officers that have charge of the maintenance of bituminous pavements.

MR. SLADE'S PAPER DISCUSSED BY GEORGE C. WARREN OF BOSTON.

Commissioner Slade has presented one of the shortest and what to my mind is one of the most important, comprehensive and useful papers which this convention has received in many years.

From seven years' practical trial the city of Providence has practically proved what I believe to be a fact, that street sprinkling, as it is quite generally practised, is worse than a useless expense. In fact, I believe it to be a relic handed down from past generations and conditions. Providence, a city having a population of nearly, if not fully, 200,000, has all kinds of street pavements and scarcely any city in the country has them in as uniformly good cleanly condition. Commissioner Slade tells us that this has been accomplished absolutely without sprinkling for seven years on all kinds of pavement, except that water-bound macadam is occasionally sprinkled with oil or oil emulsion. That is an object lesson which other municipalities will do well to emulate.

Fifteen years ago, when most of our street surfaces were macadam and dirt, and the comparatively few modern pavement surfaces were intercepted by macadam and dirt roads, and traffic entirely horse-drawn, the sprinkling of pavements to keep down the dirt was essential. Since then there has been a rapid evolution until now much the greater percentage of traffic is motor-drawn and rubber tires, which make no dirt. The great majority of the pavement surfaces of our city streets now consists of some form of modern, nearly waterproof pavement. And still we follow the old antiquated custom of keeping the little dirt wet down with street sprinklers, providing muddy, nasty surfaces which cannot be thoroughly cleaned and necessitates more sprinkling and more mud until the gutters become receptacles of mud, and if the pavement surface ever gets dry, the hue and cry goes up "Where is the sprinkling cart?"

We not only have the benefit of the seven years' experience of Providence but we have our country roads for an object lesson. Last week I took a 250-mile automobile ride over the bituminous surfaced country roads of Massachusetts, which have never been sprinkled and most of them never cleaned. There had been no rain for at least three weeks, and I did not find a dirty road on the entire trip. A week before I had a similar experience over one hundred miles of bituminous road surface in Connecticut. This, notwithstanding that the country road surface is generally only 16 feet wide, with a similar width of dirt "shoulders" on either side, while our city streets are paved with a *naturally* clean surface from curb to curb. Why is this? It is simply because, without wetting down the dirt as fast as it forms and thus causing it to accumulate, as soon as an imperceptible dirt particle forms on the road surface it is picked up by the natural wind and rapidly moving automobile and thrown aside, and in such small quantities that it is imperceptible and unnoticed and therefore does no harm.

Another important point is that if bituminous pavement surfaces are dry and clean the oil which drops from automobiles is quickly spread by auto tires to an extremely thin sheet which not only preserves the pavement surface but the slight amount of oil takes up the fine dust and materially helps to prevent the pavement surface from ever becoming dusty. If the pavement surface is wet these valuable effects of the slight dropping of oil from automobiles is entirely lost.

Of course in the case of city streets it is necessary, as Providence has done, to inaugurate a daily patrol system of street cleaning to pick up the horse droppings before they can become converted into dust, and to work around the intersections of unpaved streets, if any. Some one or more of the systems of pneumatic cleaning machines, now in the process of development, will surely soon be a practical success, but until then street washing at night is necessary under some conditions, but not generally so.

I believe that such a system of dry cleaning by hand patrol is less costly than the antiquated street sprinkling, supplemented by the street sweeper trying to do the impossible—thoroughly pick up the accumulation of mud. Even if dry cleaning were not cheaper its greater efficiency in keeping street surfaces in better condition for use by automobiles, horse and foot passengers, merits its adoption, to say nothing of the far greater durability of all forms of street pavement surfaces when dry than when wet. It is generally conceded that water is the worst enemy of pavement surfaces. When the water is applied in the form of wetting down an accumulation of dirt subjected to steel tired traffic, we have the condition which from all ages has been known to wear the hardest steel, and is therefore used in the grindstone and for sawing stone, to wit: The application of mud under a grinding process.

While some forms of pavement are doubtless more affected by water and mud than others it injuriously affects all classes of pavement, and I will not except stone, even granite blocks, the wearing of which to a "turtle back" surface I believe to be primarily due to slight absorption of water.

I believe that repairs required to all classes of pavement are more generally the result of wetting down the dirt, leaving the surface in a continually more or less muddy condition than by the traffic, or rather what would be the traffic under dry, clearly conditions. A city or street in or on which sprinkling or other method of continual wetting of the pavement surface has not been practiced is almost universally one where the pavements are the best of their kind, no matter what form of pavement construction is used.

Washington, D. C. has the enviable reputation of having the most durable pavements of all kinds. For many years the system of cleaning in Washington has been hand patrol without sprinkling, except a very light sprinkling—just enough to lay the dust but never to convert into mud—immediately in advance of the night sweeping.

Fifth avenue, New York, is always dry, except during rains and we find one of the most durable asphalt pavements in the world. Fifth avenue provides an excellent single example of the lack of the necessity of sprinkling any street however much traffic it carries. The traffic on this avenue is so concentrated that it would be impracticable to run sprinkling wagons over it even if the city desired to do so and yet the pavement is always clean and never dusty.

A simple object lesson is the fact that when contrary to a practice of keeping pavement surfaces continually wet down by sprinkling wagons, a portion of the surface has become dry for a time it is found to be clean while the still wet portions of the surface are still covered with a nasty, slimy, slippery mud.
